ATTENTION FOUNDRYMEN

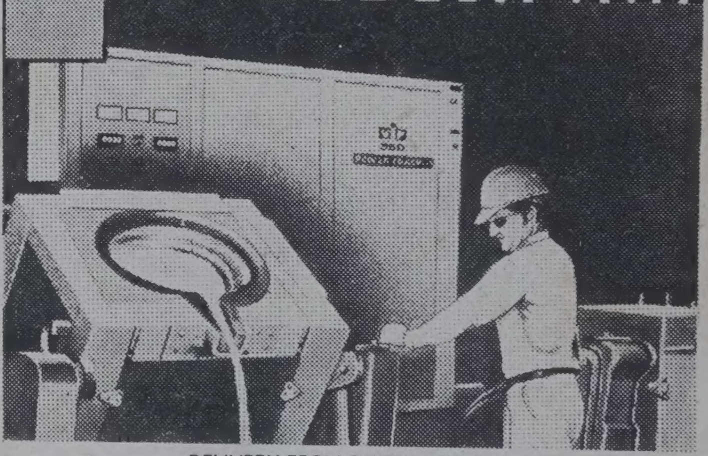
YOU DESERVE THE BEST

VIP-POWER-TRAK (I)

Inducto's newest solid state power system makes induction melting more economical, productive, reliable, and versatile than ever. Nothing else comes close by any standard. Just push the "on" button, dial the power level you want, and the VIP POWER-TRAK (I) follows the changing condition of the melt exactly. Melt at full power from start to finish without interruptions or further attention. Whether it's ferrous or non-ferrous, there's no need for a molten heel, and no capacitor switching while melting. Nonstop production is further assured by Inducto's exclusive current limiting reactor that virtually eliminates fuse replacement and by a built-in closed loop water cooling system.

NOW IN INDIA

INDUCTOTHERM



DELIVERY FROM SEPTEMBER 1983

Best of all, the revolutionary new POWER-TRAK (I) circuitry continually maintains such high efficiency, you'll produce more Kg per hour, more metal per kilowatt, than ever before possible. Systems from 15 kW to over 3,000 kW are available.

BUY INDUCTOTHERM — NOTHING LESS

GENERAL INDEX 903

MAPS OF INDIA & THE WORLD (After 'General Index')

Metamorphosis of Bombay :

An eight-page insert of pictorials & historical sketch

135, STILL GOING STRONG

The Times of India Directory and Yearbook, including Who's Who, running into over 1,000 pages including maps and a historical sketch of Bombay with pictorials, is over a century old. It first saw the light of the day as *The Bombay Calender and Almanac* in 1849. Later, it was converted into separate publications: *The Indian Yearbook and Who's who* and *The Times of India Directory*. In 1953 the two books were amalgamated into one publication.

HELP US TO HELP YOU

Every effort is being made to update data and ensure accuracy but if we have not been able to reach you, we should appreciate if you would please inform us of any change in address or any other relevant particulars to add or delete in the Directory.

SBP
THE CONSULTANCY PEOPLE

DYNAMIC AMBITIOUS INDUSTRIAL HOUSES LOOKING FOR LUCRATIVE PROJECTS?

HERE'RE SOME PROFITABLE FIELDS FOR YOU TO ENTER NOW

DETAILED TECHNO-ECONOMIC FEASIBILITY PROPOSALS NOW AVAILABLE :

"TURNKEY SERVICES OFFERED BY COMPETENT EXPERIENCED TECHNOCRATS"

S. No.	PROJECT	(Down Payment in Rs.* For Each Techno-Economic Feasibility Report)
1.	Grinding Media Balls	1,000
2.	LPG Cylinders	1,000
3.	LPG Valves and Regulators (Latest Design)	1,000
4.	Aluminium Electrolytic Capacitors	2,000
5.	Colour TV	1,500
6.	Metal Film Resistors	1,000
7.	Instant Noodle Plant	1,000
8.	Nylon Zip Fasteners	1,000
9.	Surgical Cotton	1,000
10.	HDPE/PP Woven Sacks using Circular Looms	1,000
11.	Hard Gelatine Capsules	1,000
12.	Moulded Brief Cases, Attache Cases and Travel Aids	1,000
13.	Aluminium Collapsible Tubes	1,000
14.	Fluorescent Tube	2,000
15.	Plastic Film Capacitors	2,000
16.	Highly Automatic Wooden Furniture and Cabinetary Project	3,000
17.	Mini Cement Plant	1,500
18.	FRP Products	1,000
19.	Automobile Storage Batteries	1,500
20.	Stationery, Traction and Train Lighting Cells	1,500
21.	Hard Rubber Containers for Storage Batteries of all types	1,500
22.	Microporous PVC separators	1,500
23.	Lead Sub-Oxide, Red Lead and Litharge	1,000
24.	PVC and Black Insulation Tapes	1,000
25.	Iron and Steel Castings	1,000
26.	Steel Forgings	1,000
27.	Non-ferrous castings	1,000
28.	M.S. Flats, Rounds, Bars, Angles,, Squares etc. (Rerolled Products)	1,000
29.	Carburettor	1,500
30.	Polyurethane Sole	1,500

For the above-mentioned projects SBP can also offer other services which include :

- ASSISTANCE IN OBTAINING DGTD REGISTRATION AND LETTERS OF INTENT
- ASSISTANCE IN OBTAINING TERM LOAN AND WORKING CAPITAL FUNDS FROM FINANCIAL INSTITUTIONS AND BANKS
- PROJECT APPRAISAL FOR BANKS
- CONDUCTING MARKET SURVEYS
- PREPARATION OF DETAILED PROJECT REPORTS
- IMPLEMENTATION AND TURNKEY ASSISTANCE
- ARRANGING FOREIGN COLLABORATION

* DOWN PAYMENT—EACH ADJUSTABLE AGAINST FURTHER PROJECT SERVICES AS ABOVE.

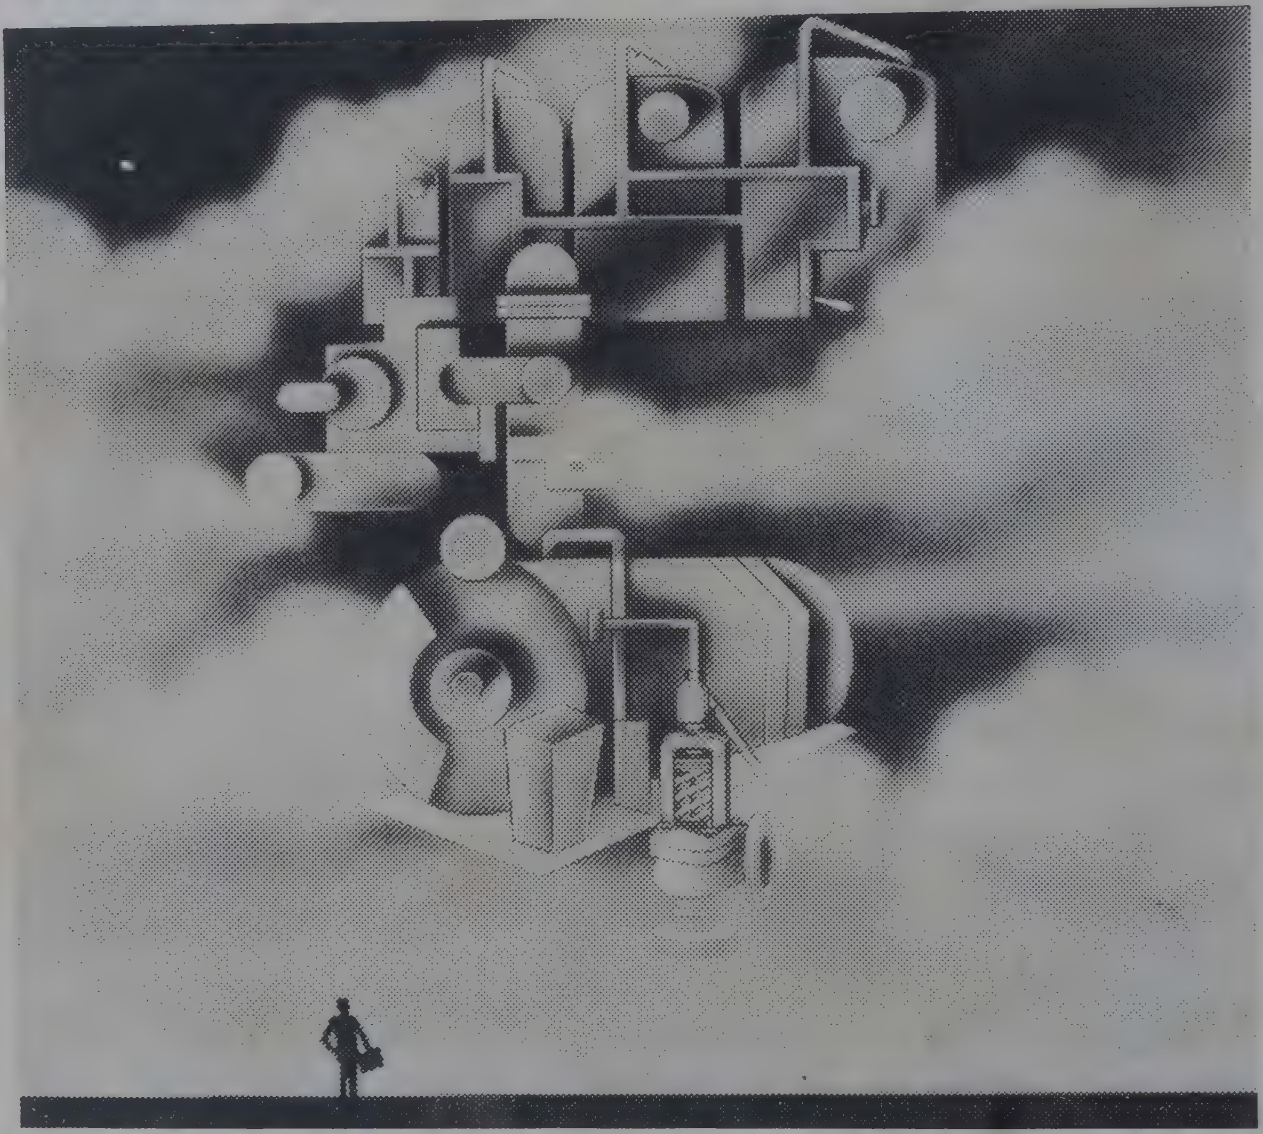
I.A.E.C.®–The only single source company for everything in steam, water and air technology.



In the steam, water and air technology field for over two decades, IAEC is the only single source company that makes package boilers, oil, gas, oil and coal-fired boilers, water treatment plants, power station equipment like condensers, deaerators, HP and LP Feed Heaters, Air and Water Filters, Safety and Blowdown Valves and Industrial Ion Exchange Resins..... under one roof.

All these backed by over 50 years' experience and expertise in engineering and designing.

IAEC has been consistently successful in developing many 'firsts':

- ■ The largest Deaerator for the country's first 500 MW Tata Thermal Power Station at Trombay.
- ■ The largest 36 Ton/hr Package Boiler to ONGC.
- ■ The largest Demineralising Plant — 492 m^3/hr capacity for the IFFCO, Kalol, to name just three.

IAEC equipment have been successfully working at Sri Lanka, UAR, Tripoli, Sudan, Yugoslavia, Malaysia, Burma and the USSR.

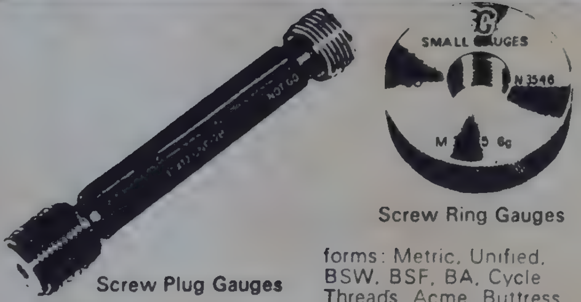
SMALL GAUGES
SCREW PLUG GAUGES
SCREW RING GAUGES
for nth degree precision.



Screw Ring Gauges

Screw Plug Gauges

Features
- Processed from high-quality steel.
- Hardened and tempered to 60-63 HRC.
- Ground and lapped to close tolerances.
- Rigidly inspected at 20°C in temperature-controlled Standards Room.

Product Range
- Screw Plug Gauges in 1-180 mm.
- Screw Ring Gauges in 2-350 mm.
- In various diameter-pitch combinations and different forms: Metric, Unified, BSW, BSF, BA, Cycle Threads, Acme, Buttress, Modified Square and Trapezoidal Threads.

We also manufacture as per customers' specifications.

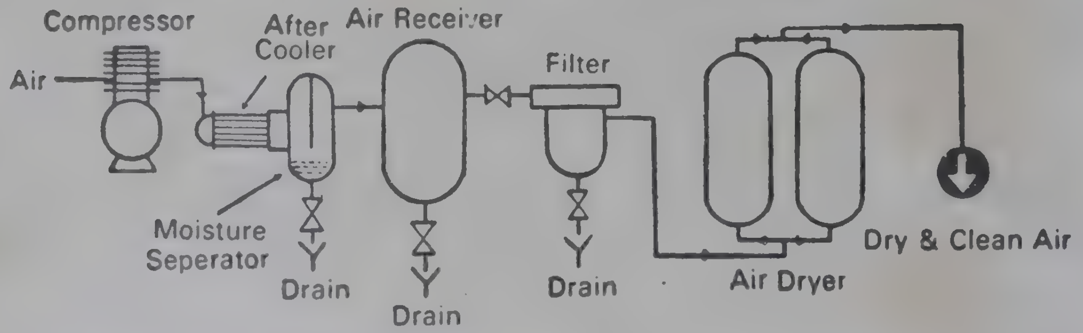
Remove Moisture from Compressed Air

Pure, clean, moisture free compressed air is now more than ever required by industries. Moisture, oil emulsion and impurities are found in all compressed air systems, causing rust and corrosion in pneumatic tools, clogging pneumatically operated machines, contaminating process flows, blocking and damaging delicate pneumatic instruments.

Install an Air Drying Unit and make your Operations smooth

It is less expensive to own an Air Drying Unit than it is to live with the problems it can prevent

The Ideal Compressed Air System



SHARAD 509

For best performance of Air Drying Unit, the air inlet temperature to the Dryer should be 40°C maximum. Therefore it is strongly recommended that effecient compressor after Cooler and moisture seperator be installed before the Air Dryer

Lilaram Ajoomal Compound, Champsi Bhimji Road, Mazagaon, Post Box No. 16241, BOMBAY-400 010 (India).
Telephones : 8723691/8728369/8728870. Grams: " RANROOFING "

Gain Multiple Benefits From One Transaction

- 100% depreciation on devices and systems for energy saving.
- Control of environmental heat pollution.
- Reduction in cost of melting.
- 35% on pollution control.

ONE OF BOMBAY'S LEADING AND REPUTED STEEL PROCESSORS ARE ALREADY IMPLEMENTING IT BY INSTALLING SCRAP PRE-HEATING SYSTEM FOR THEIR STEEL MELTING FURNACES.

We can also supply laddle refining system for steel.

We have acquired the necessary knowhow from overseas experts.

WE ALSO MANUFACTURE

- Slitting lines for sheet metals — heavy duty/precision.
- Flattening mills, decoilers, coilers etc.
- Skelping machines.
- Spring steel strips of any width and thickness.
- Horizontal continuous casting plants.
- Rolling mills—2 Hi, 4 Hi, 6 Hi, 12 Hi etc. for sheets and coils.
- Positive displacement screw pumps/gear pumps etc.
- Non-ferrous melting furnaces, holding furnaces, moulds, heat treatment furnaces etc.
- Rubber reclamation plants, calenders, mixing mills etc.
- Smokeless coke plants by continuous carbonisation system.
- Heavy machining, fabrication in our well-equipped workshop.

The lone Spice that has stood the 'TASTE' of time — INDIAN CARDAMOM — fondly called the "Queen of Spices"

The world is really crazy of the Indian Cardamom. Because it is so refreshing and so natural. It can go well with anything that man can consume.

Indian Cardamom — there is nothing like it. It is grown in the fabulous evergreen forests of India. It is Mother Nature's special gift to mankind.

★

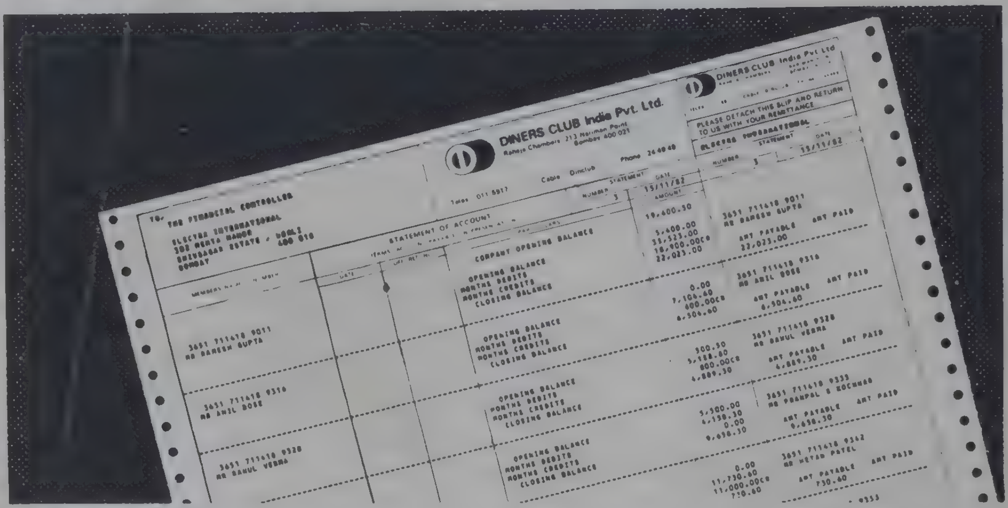
Every company needs a corporate statement.

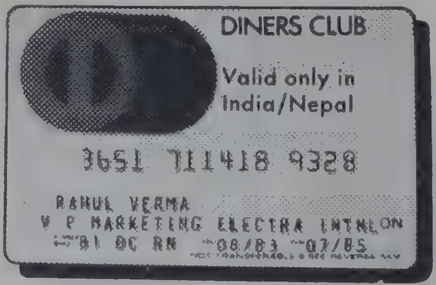


DINERS CLUB India Pvt. Ltd.
STATEMENT OF ACCOUNT

Ramesh Gupta went to Calcutta and Delhi. Anil Bose drew out Rs. 3,000 for expenses. Rahul Verma took a client out to lunch. Ramesh Gupta went to Bangalore and Madras....

Keeping track of all those Travel & Entertainment expenses is just one problem you can smooth out with a Diners Corporate Card. We give you a concise at-a-glance statement of corporate expenditure every month. But the Card is invaluable in many other ways as well. A special low-cost package enables you to put all your key people on the Card. And that opens up a whole world of convenience, safety and mobility.

Join the Club of Diners Corporate members. Over 483 leading organisations in India have. Among them: Citibank, Indian Oil Corporation Ltd, Lakme Ltd, Vulcan-Laval Ltd, Wimco Ltd.



Diners Corporate Card - it does you credit

Colgate-Palmolive:
popular products at popular prices.
And much, much more...

To a retired man, it means the assurance of good dividends. To children, it means learning from a dentist how to look after their teeth better. To a small entrepreneur, it means technical assistance and a guaranteed absorption of their products. And to youngsters, an opportunity to participate in healthy recreational activities.

To Colgate-Palmolive, it means total involvement with the community.

An Indian Company helping meet varied needs in India

TUTICORIN PORT TRUST

PORT OF TUTICORIN

- ★ A modern sea port located at southern tip of India on the direct sea route to east and west.
- ★ An all weather port — with alongside berthing facilities for faster loading/unloading operations.
- ★ Unique in having an anchorage port in close proximity to handle ships of any draught and size.
- ★ Handles containers, Ro/Ro ships, conventional and lash vessels.
- ★ Offers ample storage facilities and efficient fleet of cargo handling equipments.
- ★ Extends container service to U.S.A., U.K., Continental ports, New Zealand and Australian ports.
- ★ A port embarking on an ambitious developmental and modernisation programme.
- ★ A port that concentrates on " made to order service " rather than on " ready to wear service ".

Let that port be your choice — The first choice for all shipping activities.

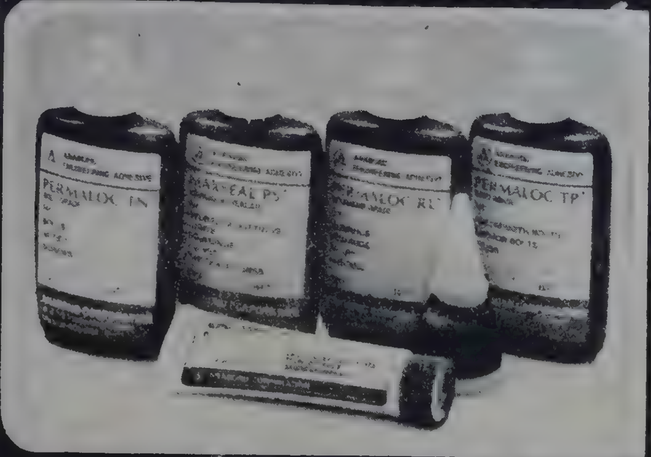
ANABOND
Anaerobic Adhesives



The Better Way To Bond Parts Together...

The concept of using Anaerobic Adhesives for locking metal parts together is comparatively modern. These Anaerobic Adhesives are now used extensively in the United States and other highly industrialised countries to lock, seal retain, gasket, and bond manufactured assemblies. They are dispensed and applied as a single component. They require no mixing and quickly cure at room temperature.

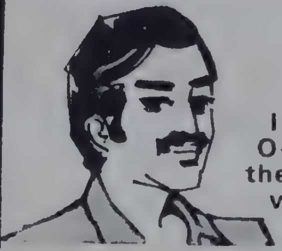
Anaerobic Adhesives and Sealants to international standards are now made in India by Anabond Corporation. They are available in different strengths to suit various applications.

Anabond Adhesives and Sealants prevent loosening of fasteners, give 100% sealing and help to make products lighter, safer, and srronger.

Anabond Adhesives and Sealants are ideally suitable for the manufacture, assembly and maintenance of a wide range of products, including motor vehicles, appliances, construction equipment, electrical and electronic devices, computers, aircraft, power tools, scientific instruments, toys, and many others.

Anabond corporation provide complete, on-the-spot application assistance to choose the right adhesives for your specific application.

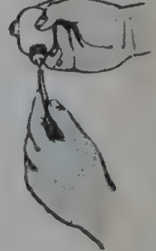
Please contact :



I don't stockpile O-Rings anv more. I make them in a jiffy as and when required.

I keep an ANABOND O-Rings Splicing Kit handy and make them in a jiffy as and when required. You too can avoid keeping a large inventory of O-Rings.

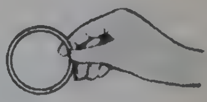
Just cut the rubber to the required size.



Dab a little ANABOND 200 at one end.

Join the ends with a little thumb pressure.

And in 10 seconds you have the O-Ring ready.



ANABOND O-Rings Splicing kit saves cost upto 50%
Saves investment.

BHARAT EARTH MOVERS LIMITED

One of Asia's biggest names in heavy earthmoving equipment.

Very much so. BEML has today become a name to reckon with. The second biggest manufacturer of heavy earthmoving equipment, after Japan, in Asia.

Not surprising when you come to know BEML. Todate nearly 16,000 of its products are in operation in India and all over the world. What's more, it offers the widest range of equipment in the world: Dozers, Dumpers, Excavators, Loaders, Scrapers, Graders, Trailers and Railcoaches

BEML has made rapid strides over the years. Its Annual Sales Turnover touched the mark of Rs.3350 millions in 1982-83

BEML. A Company very much on the move.

Many languages
but a single thought:
a united nation

BHEL transcends all barriers of caste, creed, religion and language.

An integrated family: At BHEL's 12 manufacturing divisions, a host of regional offices and 100 project sites throughout the country, 70,000 employees from all regions of India are living and working together.

Serving the nation: 90% of annual additions to power generating capacity in India come from BHEL sets. 65% trains of Indian Railways are driven by BHEL traction equipment. And BHEL serves steel, fertilizer, cement, paper, oil exploration and a variety of other industries.

Helping rural welfare : BHEL extends a helping hand to rural folks. It has adopted 19 villages in the vicinity of its plants. In these villages, a number of employment oriented projects like an energy meter-assembly centre near Bangalore, gobar gas unit near Bhopal, brick kiln near Hardwar, poultry farms at Bhopal and Tiruchi and a duster weaving unit near Jagdishpur have been completed.

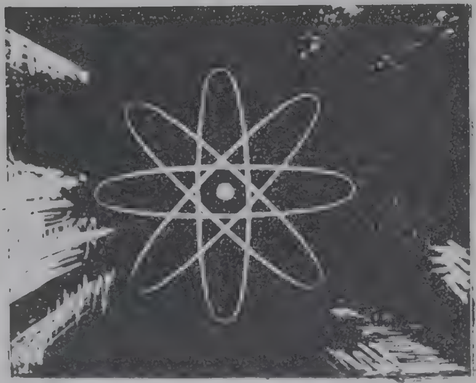
Carborundum Universal created a special grinding tool for the high-performance steel pipes carrying nuclear gas samples.

Special assignment for nuclear fuel: to grind a lifeline of tubes to a critical flawless finish



Zirconia alloy steel tubes that carry precious nuclear fuel...high-cost tubes, demanding an exceptional finish. To create such a finish, Carborundum Universal created a special grinding tool...

A special waterproof cloth belt.

It is capable not only of grinding to exacting levels, but of withstanding coolants...both features imperative for this critical application.

That's just one more case where Carborundum Universal's knowhow skilfully tackled a tricky grinding problem.

What sets Carborundum Universal apart

Not just making India's widest range of abrasives, super and electrocast refractories, but an awareness that they provide something more: essential services...

Not the wheel, but the precise dimension. Not the belt, but the finish. Not the heating element, but the exact firing temperature...

All this involves technology of the highest order. Creative technology. It's what Carborundum Universal is all about.

Carborundum Universal : a quarter-century of providing essential services for industry.

OBM 4497/1

CARBORUNDUM UNIVERSAL LTD.

Fleet Expansion.

As your needs grow and you expand your fleet, it's important to rely on a single source for all your power needs. To minimise on inventories and to simplify maintenance.

Kirloskar Cummins is the power for fleet operators all over the country. Because with Kirloskar Cummins power you get reliability, performance and cost efficiency. It's the power source that will expand to meet your needs — both now and in the future.

Kirloskar Cummins diesels are used in commercial and naval operations. They're available from 90 — 1250 HP, in turbocharged or non-turbocharged versions for single or twin screw operations.

Kirloskar Cummins has the power to match every marine application. Workboats, patrol craft, landing craft and rescue craft. For planing, semi-planing or displacement hulls. So, when you're planning fleet expansion, plan it with Kirloskar Cummins power.

Plan it with Kirloskar Cummins Power

like wheels, dressers, shaped tools, circular saws, etc.

Industrial Equipment Group : Markets highly technical and sophisticated engineering equipment, both indigenous and foreign. This comprises thermal equipment like boilers, steam traps, temperature and process control instruments and also wide range of power transmission and material handling equipment and pumps of different types.

Construction Equipment Division : Markets earthmoving and construction equipment such as shovels, draglines, dump trucks, road rollers, concrete pumps, batching plants and accessories like mixers, control panels manufactured by a number of companies abroad.

Marine Division : Markets propulsion and auxiliary diesel turbines for warships, diesel turbines for merchant ships, outboard propulsion units, boat building equipment, marine main propulsion gearing, cargo ship handling/repairing communication systems, electronics automation and control equipment.

Aviation & Electronics Division : Markets aero-engines, hydraulic equipment, flight instruments, environmental equipment, avionics, flight simulators and radars, telecommunication equipment, computer IFF equipment, navigation equipment, fire control systems, electronics warfare equipment.

Oilfield Division : Markets vital drilling and oil-exploration equipment such as drilling rigs, oilfield diamond bits, rolling cutter rock bits, winches, pumping equipment, fluid control equipment, geophysical instrumentation, oilfield diamond drilling bits and core bits, collars, stabilisers, reamers and tubulars.

Project Division : Handles turnkey projects involving sophisticated technology such as setting up a spiral welded pipe mill, annealing and pickling lines for silicon steel projects, and also other special purpose process plants in collaboration with well known overseas manufacturers.

Mining Equipment Division : Markets a wide range of equipment such as long wall mining equipment, tunnelling equipment, communication equipment for underground mines etc.

Metals Division : Markets primary metals and super-strength alloys for use in various industries, besides supplying electric furnace heating elements, combustion tubes and sheaths and other allied articles.

Textile Division : Markets a wide range of textile machinery manufactured by well known overseas manufacturers.

Sree Krishna Temple, Guruvayur (Kerala)

Guruvayur Temple is one of the most renowned temples in India. It is 29 kilometres from the nearest railway station Trichur (Southern Railway). The presiding deity is Sree Krishna, celebrated for His captivating child-like sports and exploits, the divine cowherd of Brindavan and author of the Bhagavat Gita. The deity known as Guruvayurappan is worshipped by a wide, ever increasing circle of devotees. The boons He bestows are miraculous and countless. By worshipping Guruvayurappan one can achieve not only his desires but also secure Moksha at the end.

Pooja timings : 3 A.M. to 12-30 P.M. and 4-30 P.M. to 9-30 P.M.

Offerings :—The costliest offering on the schedule is Udayasthamana pooja. It consists of 21 special poojas and costs above Rs. 8,000. The other important offerings are Laksha Deepam Rs. 3,000, Ahassu Rs. 1,500, Namaskaram Rs. 1,200, Athazham Rs. 1,000 and Feeding of Elephants Rs. 1,250. Some of the common offerings are briefly described below:—

Tulabharam :—Devotees pray for favours from the Lord and in return vow to gift to the temple articles such as sugar, fruits, milk, butter etc. equal to their body weight.

Annaprasam :—The child is fed for the first time with the rice offered to the Lord to protect against starvation.

Marriage :—The couple exchange garlands and rings from the Kalyanamandapam in front of the temple for a happy married life.

Krishnanattam :—The story of Lord Sree Krishna in Sanskrit depicted in a series of eight separate dance dramas.

Accommodation for pilgrims :—Devaswom Panchajanyam Rest House having 105 rooms. Rate: Double room Rs. 30/-, Family suite Rs. 60.

Devaswom Satram having 114 rooms.

Rate: Single room Rs. 10, Double room Rs. 20, Rooms having 3 beds Rs. 25, 4 beds Rs. 30, 5 beds Rs. 40.

Free Satram: Service charge Re. 1.

Cloak room-cum-comfort station: Re. 0.50.

Prasada Oottu: Free food to 150 pilgrims is given by the Devaswom daily. In addition, poor feeding is also done daily.

Important Festivals :—Ashtami — Rohini — Birthday of Sree Krishna (August-September), Guruvayur Ekadasi (December). The Ekadasi celebrations begin 30 days in advance. Chembai music festival is conducted during the last four days of the festival. **Annual Ulsavam :**—(February-March). The festival lasts for 10 days. The most remarkable features of the festival are Anayottam (elephant race) on the inaugural day, the grand Ulsavabali on the eighth, the Pallivetta on the ninth and the Arattu on the final day.

Elephant camp at Punnathurkotta :—The Devaswom is maintaining 36 elephants of its own. The elephants are stationed at Punnathurkotta which is 4 km. from Guruvayur. Pilgrims are permitted to visit the place and see the elephants.

Other Institutions :—

Museum (various articles offered to the Lord are kept here).
Library and Reading room.
Publication Division.
Kalanilayam consisting of Krishnanattam Dance Drama Troupe.
Vadya Vidyalayam: Training given to students in temple musical instruments.
Free Hospital.
First grade College, High Schools and English Medium School.
Gosala consisting of milch cows.

General : — The administration, control and management of the temple are vested in Guruvayur Devaswom Managing Committee constituted under the Guruvayur Devaswom Act, 1978.

HARYANA

MAKES RAPID STRIDES ON POWER FRONT

Haryana leads in electrification already having achieved 100% rural electrification in 1970, lighting up all the Harijan Bastis in 1981 and introducing a unique scheme of Bijli Sewa Kendras in rural areas.

The State gives top priority to meet irrigation needs of the farmers. By energizing 2,56,000 tubewells, the HSEB has provided, on an average, nearly 6 tubewells per square kilometre of the State's total land. Industry has grown simultaneously. Power-run industrial units have increased from 9,700 to 50,000 since formation of the State in 1966.

Per capita consumption of power has increased from 57 to 247 units, a sure indication of economic development.

Power generation capacity has increased in Haryana from 343 MW to 1,332 MW. With the Panipat Thermal and the WYC Hydel Power Projects nearing completion, HSEB is keeping up its promise of more power for the people of the State.

HSEB aims to
transform and
modernize its transmission
and distribution system in
the State for qualitative improvement in
supply of power.

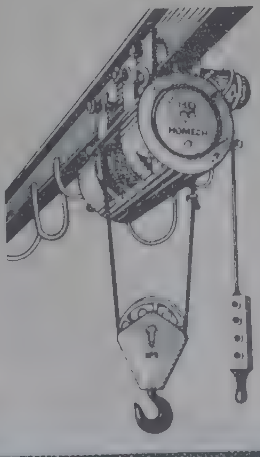
HARYANA STATE ELECTRICITY BOARD

3 major assets to industries

Homech Electric Hoists

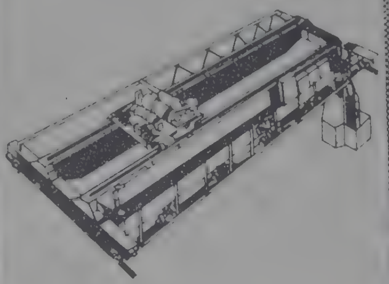
- Wide range of lift and operating speeds to select from
- Special Integral Electromechanical brake adjusting systems reduces downtime
- Trolley suitable for wide variations in I-beam sizes.
- Fixed Models adaptable for Winch duty applications
- Built-in safety limit switches control hook-positions
- Hoist motors designed for superior Class F type insulation
- Versatile Models adaptable to curved tracks and monorail systems

Manufactured in technical collaboration with
MUNCK INTERNATIONAL A/S of Norway



Homech Cranes

- A wide range to suit specific plant needs
- Electric Overhead & Underslung Cranes
- Gantry & Goliath Cranes
- Steel Mill Duty & Grabbing Cranes
- Power Winches
- Designed to Indian & International Standards
- Special design to incorporate customer's specific requirements.



- Efficient all-India Sales and service Centres
- Complete Turnkey Service for Materials Handling
- Export enquiries solicited

Homech Inducta Speed Drive

- Wide range 0.25—180 hp
- Low cost in comparsion with other systems
- Works on eddy current principle
- Generally used with a standard sq. cage induction motor
- Stepless speed variations down to 10% rated speed for continuous duty.
- Excellent speed regulation within 2%
- Simple robust construction
- Extremely easy to operate
- Requires practically no maintenance
- Electronic control provides cushioned start, adjustable torque limit, a variety of feedback schemes for torque, speed, tension and even process parameters
- Wide applications—Extruders, Wire drawing, Rolling Mills, Pumps, Stenters, Paper Machines, Cane carriers, Kilns, Shear lines, Conveyors etc.

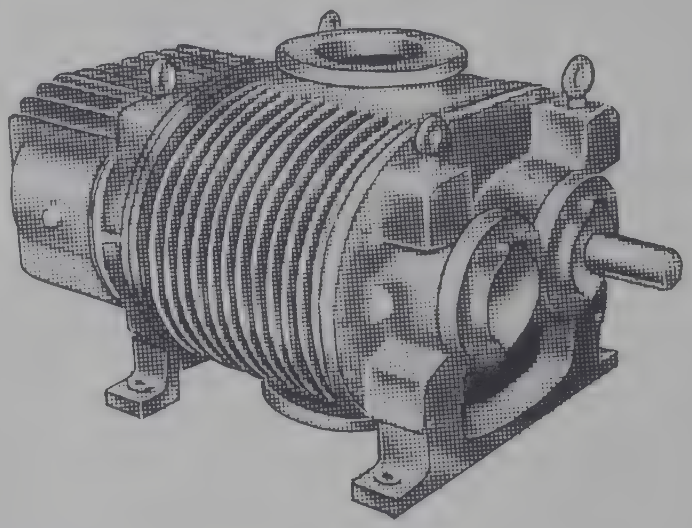
KAY®

—the only manufacturers of

TWIN LOBE COMPRESSORS

(Roots Type)

upto 50,000 M^3/hr. Capacity



Improved technology that explains the flawless performance of the Kay Rotary Twin Lobe Compressors.

- 24 hours trouble-free operation
- Proper selection of raw material, dynamic balancing of all rotating parts, stringent quality control and rigid construction.
- Pressure upto 1 Kg/cm^2 single stage & upto 2 Kg/cm^2 in double stage.
- No Servicing Problems— our engineers are on their toes to take care.
- Successfully catering to steel plants, cement, textile, chemical and sugar industries etc.

Kay Compressors
—known at home and abroad.

India's first hermetic motors came from

Lawkim.

The best still do.

In 1965, Lawkim (already well-established in motor manufacture) produced India's first hermetic motor. In collaboration with Emerson Electric Co., USA. Shooting us to the fore in specialised motors.

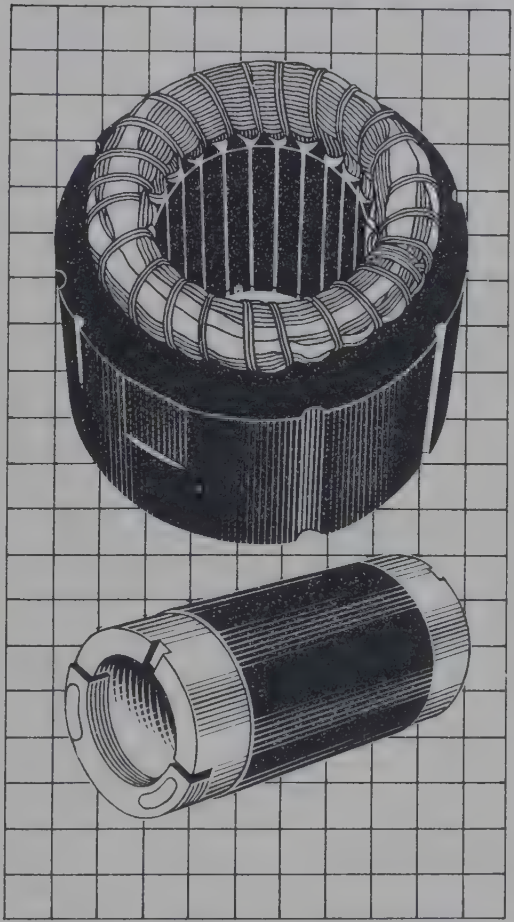
Our clients are giants

Today, nearly a million Lawkim hermetic motors are in action throughout the country. The biggest names in Indian refrigeration and air-conditioning started with Lawkim: Godrej, Voltas, Kelvinator and Kirloskar.

The fail-safe performer

All Lawkim motors result from intensive R & D. Crafted from the most rigorously tested highest-quality raw materials and components. Rugged in design, built to perform under heavy-load long-run fluctuating-power conditions ... without missing a beat.

We custom-design, test and manufacture specialised motors for any OEM application you care to name. In less time than anyone else. Try us and see.



Efficiency booster

Every Lawkim motor conforms to high-efficiency specifications. To international and NEMA standards. Consuming less energy for the same output than other makes.

Quality tells

Compact designs pack in power with optimum use of materials. Spelling high user economy and performance for the price you pay.

Lawkim design and punch their own laminations. Die-casting facilities are in-house, ensuring correct electrical values in performance.

Our modern, well-equipped mass production lines ensure consistently high built-in quality. And our raw-material, on-line and final product testing ensure trouble-free years of service.

Lawkim leads

We at Lawkim draw on over 20 years of motor-making experience. A highly-qualified team of specialists and engineers. A skilled and dedicated corps of workmen. We're prime movers in hermetic motors and motors for any other of your specialised applications. That's Lawkim — a name to reckon with. And remember.

Lawkim

Master motor makers

Helping Godrej and Voltas blow cold for the last 15 years.

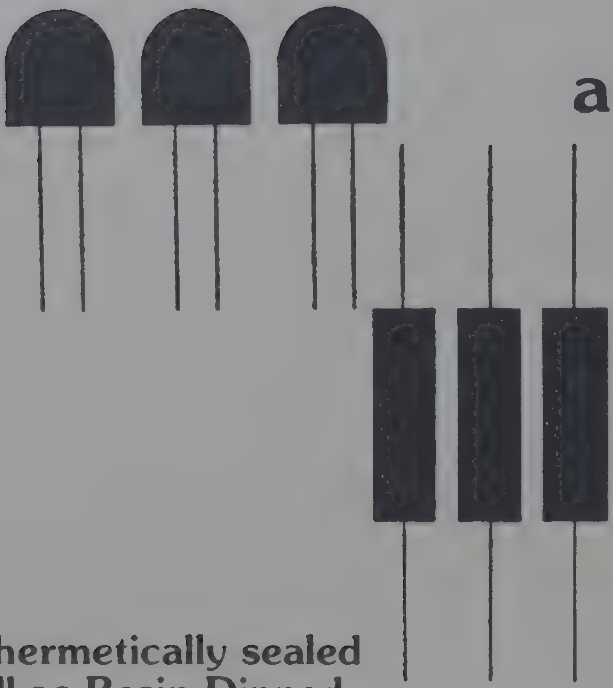
Tantalum Capacitors

Built to work better and last longer.



Both hermetically sealed as well as Resin Dipped Electrolytic Capacitors, now made to international standards by Tant Cap Electronics Ltd.

Utilising the most up-to-date technology from the U.K., TANT CAP'S Solid Tantalum Electrolytic Capacitors are made from superior grade imported tantalum metal powder. Giving TANT CAP's Tantalum Capacitors numerous critical advantages.

Salient Features:

High Volumetric Efficiency.

Low leakage Current.

Stability over a wide temperature range.

Superior Capacitance–

Temperature Characteristics.

Low Power Dissipation.

High Reliability

And a longer shelf life that lets you stock up.

Tantalum Capacitors. You need never think of purchasing imported capacitors any more.

Applications

Find application in the field of Computers, Telecommunication and Wireless Systems, Television, Inverters, Converters, Timers, Signalling equipment, Medical instruments and many other sophisticated electronic products.

Tant Cap Capacitors — they work better because they're made better.

In most leading textile mills the cone winders are Textool

There must be a reason why leading textile mills opt for Textool cone winders. Textool is the largest manufacturer of cone winders and stakes its reputation for efficiency and dependability on each machine. Each machine is made to give optimum productivity. No wonder then that over fifteen hundred Textool winders are at work all over the country and abroad, turning out perfect cones by the thousands, day after day.

Special features of the Textool cone winder

* Long lasting, hard chrome plated steel drums with stainless steel grooves.

* Choice of electro-mechanical or electronic ribbon breaker.

* Each machine has its own overhead travelling cleaner.

* Early delivery of machines ranging from 12 to 120 drums in steps of 12.

VOLTAS LIMITED

A PROFILE

Established in 1954, Voltas was promoted by Tata Sons, the country's largest industrial house, and Volkart Brothers, a Swiss trading concern operating in India since 1851.

Voltas has grown in both scope and size. In 1982, it was ranked as the sixth largest private sector corporation in India. The company manufactures or markets over eight hundred products, undertakes major turnkey engineering projects, and employs about 7,300 people, including 850 managers.

Through twelve independent operating divisions, the company caters to a variety of household and industrial needs — from foods and pharmaceuticals to the priority areas of the Indian economy — agriculture, energy, mining, chemicals and pollution control.

While the bulk of the company's own products are made at its four manufacturing units, a significant — and growing — proportion are made by some 1,100 ancillaries spread across the country.

The company's involvement with the small scale sector goes beyond ancillarisation. For Voltas also markets through its nationwide network, the products of several small scale industries, several of whom today make products developed by the company's sophisticated R&D centre.

Registered Office: 19, J. N. Heredia Marg, Ballard Estate, Bombay 400 038. Tel.: 268131 (30 lines). Telex: 011-2239 & 011-3054. Grams: "SATVOL".

Divisions: Agro-Industrial Products, Air Conditioning & Refrigeration, Appliances, Chemicals, Construction Equipment, Electrical Business Group, Engineering Projects, Industrial Machinery & Accessories, Machine Tools & Materials Handling, Mining Equipment, Pharmaceuticals & Consumer Products, Textile Machinery.

Centralised Corporate Services: Corporate Planning, Creative Communication, Electronic Data Processing, Finance, Internal Audit, Management Services, Public Affairs, Purchase, Manpower Development.

MANUFACTURING PLANTS

Main Works: 2nd Pokhran Road, Post Box No. 72, Thane 400 601.

Switchgear Plant: Off Pokhran Road, Thane 400 601.

Motor & Transformer Plant: Industrial Estate, Lalbaug, Bombay 400 012.

VOLTAS LIMITED

Germany's Advanced Technology
comes to the Grinding Media industry in India

through Welcast

In technical collaboration with M/s. GISAG of the Deutsche Demokratisch Republik, Welcast presents an entirely superior and tougher breed of grinding media.

The new grinding media are several times more wear-resistant than conventional ones. This invincible range culminates in Hykrom — the brand name of the toughest alloy steel grinding media available so far.

What's more, Welcast is the first in the country to offer a unique package deal consisting of these superior grinding media, together with ball mill liner plates. The latter is a revolutionary new product that prolongs ball mill liner life many times over.

In collaboration with M/s. GISAG, Welcast has veritably altered the face of the Grinding Media industry in India.

Welcast Steels Limited - Meeting the challenge of the Industry's crushing needs.

Welcast Steels Limited

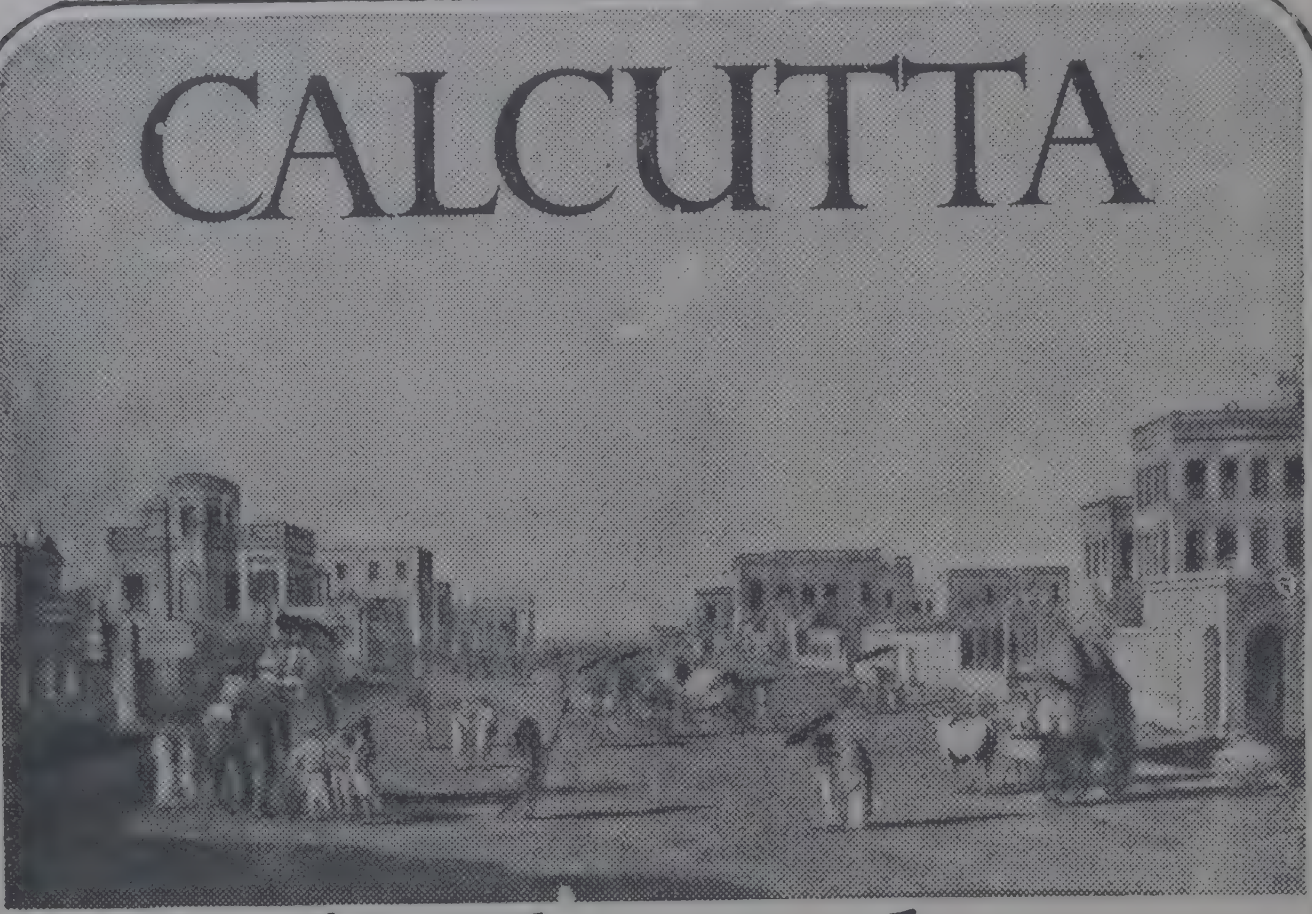
CALCUTTA



built partly on lottery funds

West Bengal State Lottery still serves and more...

Many famous Calcutta spots like the Town Hall, Chandni Chawk, Strand Road, Free School Street, etc. owe their origin to the lottery funds.

Two hundred years since, a lot of Calcutta's development is still being accounted for by lottery—by the West Bengal State Lottery who are committed to mobilising additional resources all the time for various development work in the State.

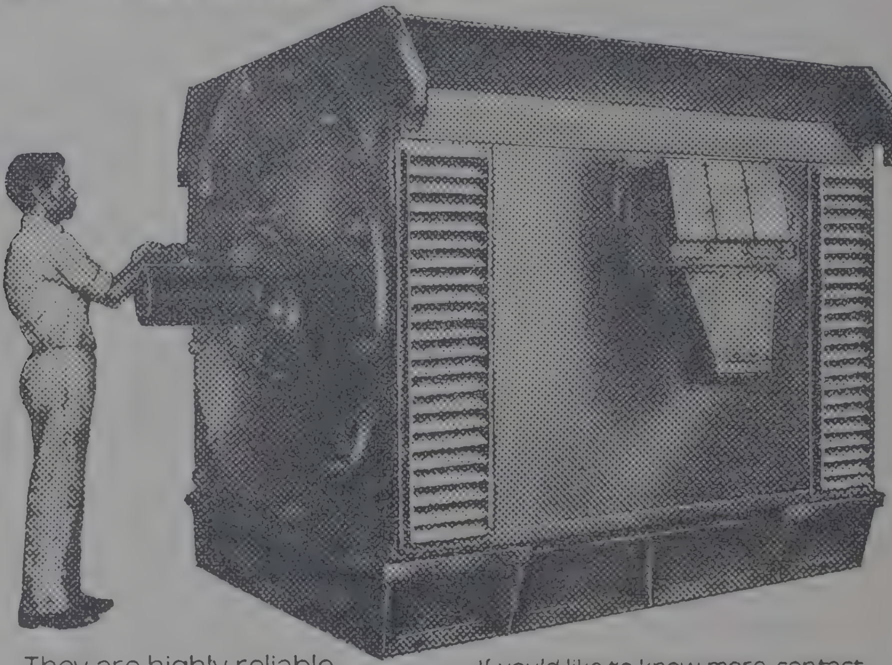
Jyoti's High Tension Motors: Not just the biggest range, the best. Like India's largest indigenously-developed Twin Drive Motors.



everest/83/JY/557

For over 3 decades now Jyoti has provided the drive to power Indian industries.

Today Jyoti has an enviable range of rotating electric machines. From small motors for agriculture to textile motors to sugar centrifuge motors to special-purpose D.C. motors to rotating drives in the high tension range.

In fact, Jyoti has indigenously developed India's largest Twin Drive Motors—comprising 2540 hp each. They incorporate the latest in technology. These slipring induction motors are drip-proof Have identical torque-speed characteristics and Resistance Temperature Detectors of platinum type.

They are highly reliable and practically maintenance-free. Reason why a wide and growing list of quality-conscious customers insist on Jyoti for all their power requirement.

Delhi Municipal Corporation. Rajasthan Atomic Power Station. Maharashtra Industries Dev. Corporation Water Supply Scheme, Barvi. Rourkela and Bhilai Steel Plants. Leading Thermal Power Stations. Chitwan Valley Development Project, Kathmandu, ONGC, Uran and so on...

Whatever the motive source
it's the most rugged and reliable power force.

'Jyoti' Standard Alternators: For use on any Diesel Engine, Steam or Hydro Turbine.

For over 4 decades now we've extended the capabilities of men by providing the drive, muscle and know-how to harness power.

Our sophisticated range of Alternators are one such case in point. Rugged, reliable and totally dependable, they have earned praise from customers in India and abroad. In every type of industry. Hydro-electric Stations, Oil Rigs, Dockyards & Ships, Chemical Industries and Communication Projects.

Take a look at their salient features:

* 30 kVA — 625 kVA Self-excited and Self-regulated System
100 kVA — 7500 kVA Brushless Excitation System for 440 V, 3.3 kV, 6.6 kV or 11 kV generation
* Unique Self-excited, Self-regulated System allows 'Jyoti' Alternator to adjust voltage with change in speed automatically — ideal characteristic to protect your drives by maintaining constant voltage to frequency ratio
* Stabilised Voltage Output within ±2.5%V regulation
* Conforms to IS-4722 and its international equivalents as well as Lloyds Register of Shipping, American Bureau of Shipping, Indian Register of Shipping or to the specifications of any International Classification Society.

How our non-clog pumps are effecting considerable savings for Municipal Corporations.

Jyoti's Horizontal, Vertical & Centrifugal non-clog pumps.

Pumping problems in sewage stations, chemical industries and laboratories are varied and complex. But all agree that the greatest danger is the clogging and destructive action of solid substances found in various liquids.

'Jyoti' non-clog pumps offer a practical, reliable and trouble-free solution to those problems. Their liberal design features, adaptability for wide applications and low running and maintenance expenses have made them the first and only choice for a wide variety of industries: sewage stations, laboratories, mines, sugar mills, distilleries...

Yes, when the right kind of pump makes all the difference between costs and savings — specify Jyoti. The people who give you more yield per rupee.

How our better design features give better pump performance.

Jyoti's Vertical Turbine & Horizontal Split-casing Pumps.

Since the time Jyoti first pioneered Vertical Turbine Pumps it has led the field. Not just in sales figures and performance characteristics, but in customer confidence.

Today its Horizontal Split-casing Pumps meet with the same resounding success. And for the same reasons.

New heights in pump design, sturdy construction features, top efficiency and mechanical reliability.

It's because Jyoti has a reputation for providing 'more yield per rupee' that projects as varied as Irrigation Works, Municipal Corporations and Engineering set-ups, specify 'Jyoti' pumps for all their requirements.

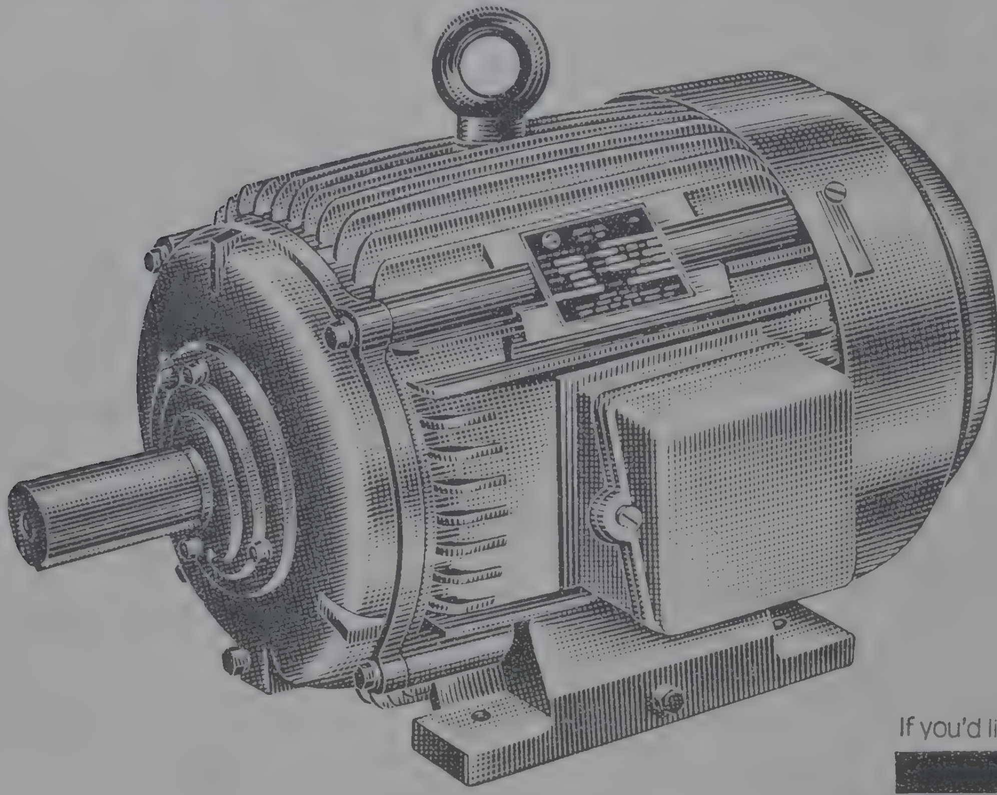
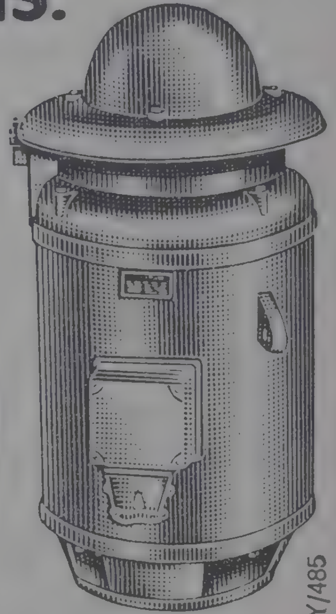
Most manufacturers just build motors. We build solutions.

'Jyoti' Electric Motors: The right one for every need.





everest/83/JY/485

Every 'Jyoti' Electric Motor has evolved through continuous on-field applications. This rigorous process has helped our scientists and engineers to weed out problem factors. And, more importantly, to make sturdy, reliable motors that can stand the stress of continuous working in hazardous conditions.

No wonder then that a wide range of quality-conscious industries specify 'Jyoti' Electric Motors for all their requirements.

- **'Jyoti' Vertical Hollow/Solid Shaft, Squirrel Cage Drip-proof/Totally Enclosed Fan-cooled Motors.**
- **'Jyoti' Horizontal Squirrel Cage, Drip-proof/Totally enclosed fan-cooled Motors.**
- **'Jyoti' Horizontal Slip-ring Drip-proof Motors.**
- **'Jyoti' D.C. Motors.**
- **'Jyoti' Multi-speed/Continuous Sugar Centrifuge Motors.**

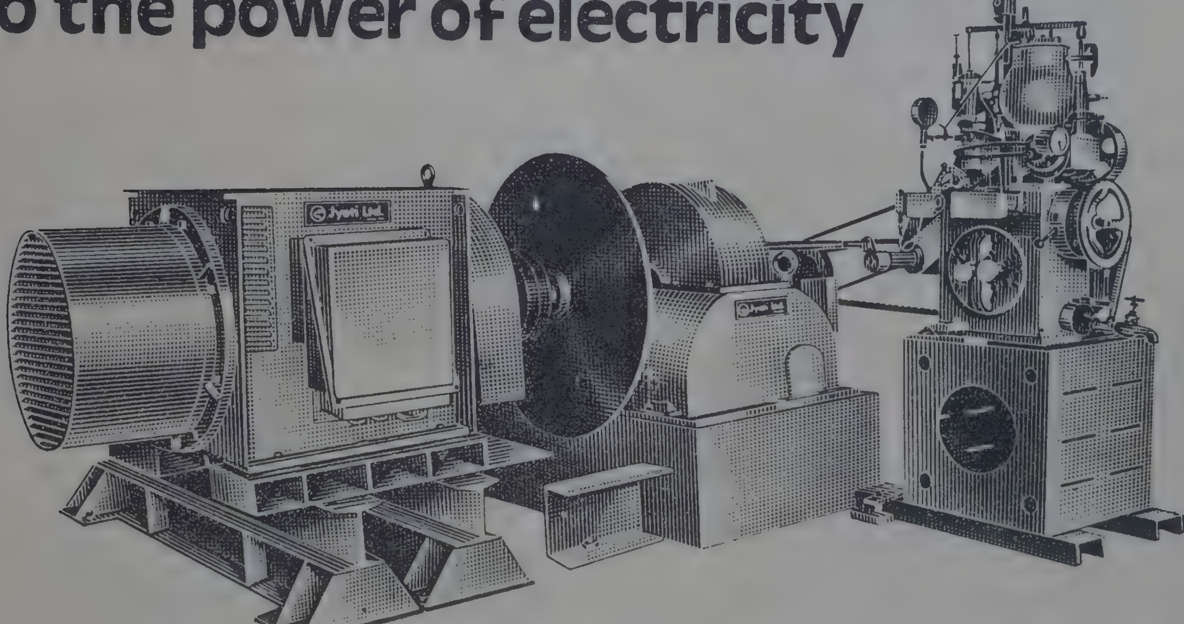
How to get power where it pours

'Jyoti' Hydel Sets: Transforming the power of water into the power of electricity



everest/83/JY/483-r1

While others still debate and plan to harness mini hydro power, at Jyoti, we have been practising it for over two decades. As pioneers, today we are the leading manufacturers of mini hydro sets with the latest technical know-how. From water-heads of a few metres to a few hundred metres from rivulets, canal drops and streams, we generate power through the most versatile, reliable and economical mini hydro sets you can buy.

- Provision of safety devices like overspeed trip, low oil pressure trip, lubricant oil temperature protection, overload, overvoltage and earthfault protections for generator, etc.
- Electronic-type governor for parallel operation with grid.
- Manufactured under rigid quality control.
- Backed up by Jyoti know-how and experience in R&D, application engineering, and after-sales-service in India and abroad.

'Jyoti' Range of Hydro Sets:

Type	Head	Size	Output
Propeller	3-30 m	260-2200 mm	10-6000 kW
Francis	20-200 m	250-1000 mm	50-3000 kW
Turgo Impulse	60-200 m	225-600 mm	25-1500 kW
Pelton	150-400 m	300-1400 mm	50-6000 kW

Special features:
- Highly efficient
- 'Standard' sets with in-built flexibility
- Ease of operation and maintenance
- Pollution-free

Typical applications:
- Localised supply to inaccessible hilly areas
- Defence installations
- Captive sets for large civil construction works
- Tea gardens and timber estates.
- Harnessing canal drops for augmenting lift irrigation.
- Reclaiming energy from cooling water releases.
- Feeding power to main electricity grids.

services of the State and also contain a statement of the international policy of the Republic.

FUNDAMENTAL DUTIES: (ART 51A): Part IVA has been added by the 42nd Constitutional Amendment specifying the fundamental duties of citizens, to uphold, abide, and protect the Constitution, the National Flag and National Anthem, and the sovereignty, unity and integrity of India, to defend the country and render national service when called upon to promote common brotherhood, protect the cultural heritage and national environment, safeguard public property and abjure violence.

THE UNION : The Executive: *The President:* The executive head of the Indian Union is the President. He is elected by the elected members of the House of Parliament and the Legislative Assemblies of all the States, in accordance with the system of proportional representation. His term of office is five years, and he is eligible for re-election. Only a person who is a citizen of India and has completed the age of thirty-five years and is qualified for election as a member of the Lok Sabha is qualified to contest the election. The President cannot be a member of Parliament or hold any other office of profit. *Salary :* The President is entitled to the use of an official residence without payment of rent, and a salary of Rs. 10,000 per month and allowances. Provision has also been made by an Act of Parliament for a pension of Rs. 15,000 per annum. He is also entitled to a maximum of Rs. 12,000 per annum for the sake of secretarial staff and other expenses.

Presidential Powers: The President exercises the powers vested in him either directly or through officers of the government. The President acts on the advice of the council of ministers and he is bound by such advice. All executive action of the Government of India shall be expressed to be taken in the name of the President and extend to matters in respect of which Parliament has power to make Laws. The Supreme Command of Defence Forces vests in him. The President summons, prorogues, addresses, sends messages to Parliament and dissolves the House of the People (Lok Sabha); promulgates ordinances when Parliament is not in session; makes recommendations for introducing financial and money bills; and gives assent to bills, grants pardons, reprieves, respites and remissions of punishments or suspends, remits or commutes sentences in certain cases. The President's powers include the power of appointing the judges of the Supreme Court and the High Courts, the Attorney-General of India and the Comptroller and Auditor-General of India. The heads of States, *i.e.,* Governors, are also appointed by the President. The President has the power of appointing ambassadors abroad and receiving diplomatic representatives of foreign States.

The President, may, if satisfied that a grave emergency exists whereby the security of India is threatened by war, external aggression or internal disturbance, make a Proclamation of Emergency (ART. 352). Similarly the President may, if he is satisfied that the financial stability of the country is threatened, make a declaration and in consequence thereof the executive authority of the union is considerably extended under the Constitution (ART. 360) (See below: EMERGENCY).

Council of Ministers and the Prime Minister: The Council of Ministers is headed by the Prime Minister to aid and advise the President in the exercise of his functions. The Prime Minister is appointed by the President who also appoints ministers on the advice of the Prime Minister. The Council holds office during the pleasure of the President and acts on the principles of joint responsibility. The Prime Minister has to communicate to him all decisions of the Council of Ministers and, if the President desires, submit for consideration of the Council of Ministers any proposal of a Minister not yet considered by the Council.

Impeachment: Provision is made for the impeachment of the President, by Parliament, for violation of the Constitution. The President may be impeached and removed from office by a resolution passed by two-thirds of the total membership of a house of Parliament after an investigation of a charge by it on a proposal made by one-fourth of the total membership adopted by a resolution passed by two-thirds of the total membership of the other house of Parliament.

Vice-President: There is a Vice-President of India, who is ex-officio Chairman of the Rajya Sabha (the Upper House). The Vice-President acts as President during a casual vacancy in the office of the President. He is elected by the members of both Houses of Parliament and his term of office is five years.

Election of President, Vice-President: Matters pertaining to the election of the President and the Vice-President, and any doubts or disputes arising out of or in connection with such election are decided by an authority or body specified in a Law that, Parliament may make under the 29th Constitutional Amendment and the Law nor the decision of the authority or body can be challenged in a Court of Law. (ART. 71) (This was abrogated by Parliament in June, 1977.)

THE PARLIAMENT: The Parliament consists of the President and two Houses known as the Lok Sabha and the Rajya Sabha. It must meet at least twice a year. The maximum strength is fixed at 250 (12 nominated) for the Rajya Sabha and 545 for the Lok Sabha.

Elections: The Rajya Sabha is elected by the elected members of the Legislative Assemblies of the States and of the Union Territories, while the Lok Sabha is elected directly by the voters in the country.

The Rajya Sabha is a permanent body with one-third of its members retiring every second year. The Vice-President is its ex-officio Chairman while a member is chosen as Vice-Chairman.

Ordinarily the Lok Sabha has a duration of six years, except during an Emergency when Parliament can extend the time by one year at a time while the Proclamation is in force and a maximum of six months thereafter. (ART.83) There is a Speaker and a Deputy Speaker of the House both of whom are elected by its members.

The Houses are summoned by the President who can prorogue the Houses or either House or dissolve the Lok Sabha.

All these posts carry salary and allowances.

Immunity for M.P.s: Members of Parliament are assured of freedom of speech in Parliament subject to the provisions of the Constitution. They enjoy immunity from proceedings in any court in respect of anything said or a vote given by him in Parliament. By the 42nd Constitutional Amendment, Parliament has now unfettered power to evolve the other privileges, powers and immunities of each House. (ART. 105).

Under certain circumstances, the members can be disqualified and their seats declared vacant but the question of such disqualification shall be decided by the President in consultation with the Election Commission who may make an inquiry, and such decision of the President shall be final. (ART. 101-102).

LEGISLATIVE PROCEDURE: A Bill normally goes through the following stages. It is first published. After introduction there is a general debate. Then, there is a clause-by-clause discussion and voting thereon. A specially important measure may go before a select committee or a joint select committee. A Money Bill has a slightly different passage. After it has been passed in the Lok Sabha it is sent to the Rajya Sabha which has to return it within fourteen days with its recommendations which may be accepted or rejected. (ART. 107-110). All Bills when passed by the Houses must receive the assent of the President and the President may give his assent or withhold assent and return the Bill for reconsideration by the Houses. If the Houses pass the Bill again, with or without the President's recommendations or amendments, then the President must assent to the Bill (ART. 111).

Union Budget : Every year the President shall cause to be laid before both Houses a statement of the estimated receipts and expenditures of the Government of India for that year. This "annual financial statement" is popularly known as the Budget (ART. 112).

Quorum : The quorum is fixed at one-tenth of the membership of the House but this may be regulated by rules framed by each House.

Language : The language used in Parliament is either Hindi or English. (ART. 120).

Distribution of Seats : (Please see chapter on Rajya Sabha and Lok Sabha).

Courts and Parliament : No discussion can take place in Parliament with respect to the conduct of a Judge of the Supreme Court or High Court in the discharge of his duties except on a motion for his removal (ART. 121). The Courts are not to inquire into proceedings in Parliament (ART. 122).

Committees : Parliament's control over the administration is also exercised through a series of committees.

The committees can summon witness or require documents to be produced. There is a **Committee on Privileges** which sees to breaches of Parliamentary privilege, and a **Business Advisory Committee** which helps the Ministry of Parliamentary Affairs in drawing up the programme for a session.

Two very important Committees are the **Public Accounts Committee** and the **Estimates Committee.** They are elected by the House of the People and Ministers are barred from membership. The Public Accounts Committee ensures that money is spent for the purpose for which Parliament has voted it. The Estimates Committee examines possibilities of economy and reform in financial administration and the manner in which estimates may be presented to Parliament.

The Union Judiciary: (See next column: Administration of Justice.)

Comptroller and Auditor-General is appointed by the President to control, on behalf of the Union and the States, all disbursements and to audit all accounts of moneys administered by Parliament and State legislatures. (ART. 148-150).

THE STATES : The Executive : *The Governor :* The executive power of each State vests in a Governor, appointed by the President, and is exercised by him either directly or through officers subordinate to him. All executive business and action is taken in the name of the Governor. The powers of the Governor are similar to that of the President in respect of pardons etc. and to suspend etc. sentences. The Governor appoints the *Chief Minister* and the other Ministers of the Council of Ministers who aid and advise him in the discharge of the executive functions. The duties of the Chief Minister are similar to that of the Prime Minister. The Governor summons the Houses of the Legislature of the States, prorogues them and can dissolve the Legislative Assembly. The Governor can promulgate ordinances when the State Legislature is not in session. The Governor also has the power to give assent to bills passed by the State Legislature and the power to reserve certain bills for consideration by the President. The Governor also makes recommendations for introducing financial bills. The Governor appoints the Advocate-General of the State.

The 22 States have Governors as their heads, the Union Territories of Andaman & Nicobar Islands and Chandigarh have Chief Commissioners, Delhi, Goa, Mizoram and Pondicherry have Lieutenant-Governors, Lakshadweep, and Dadra & Nagar Haveli have Administrators.

The system of Government in the States closely resembles that of the Union.

The State Legislatures : Six States, Andhra Pradesh, Bihar, Karnataka, Maharashtra, Tamil Nadu and Uttar Pradesh have two Houses of Legislature; the others, only one. The two Houses are called the Legislative Assembly (sometimes Vidhan Sabha) and the Legislative Council (sometimes Vidhan Parishad). The former has a duration of six years except during a proclamation of emergency when its duration can be extended one year at a time, while the latter is a permanent body with one-third of the members retiring every second year.

Membership Strength : The minimum strength of an Assembly is 60 and the maximum 500. The minimum strength of a Council is 40, and the maximum one-third of the State Assembly. (ART. 170-171).

Elections : An Assembly is elected directly on the basis of adult franchise with reservation of seats for the Scheduled Castes and Tribes. The composition of a Council is more complicated. About a third are elected by the Assembly, another third by local authorities (municipalities, district boards), about a twelfth by registered teachers in schools not lower than the secondary school standard, and about a twelfth by registered graduates of not less than three years' standing. And the rest are nominated by the Governor from among persons who have distinguished themselves in art, science, literature, co-operation and social service. (ART. 171). Under certain circumstances a person may be disqualified from being a member (ART. 190-193).

Administrative Units: The principal unit of administration in a State is the district under a Collector and Magistrate. A collector is responsible to a Commissioner who heads a Division or to the Board of Revenue depending upon the practice of a particular State. A District Magistrate is responsible for the maintenance of law and order and leads the district police force.

Language : The language by which the business of the State Legislatures is conducted is in the official language of the State or Hindi or English provided that in certain cases the Speaker may allow a member to address the House in his mother-tongue.

Legislative Procedure : The procedure followed is similar to that followed in the Union Parliament in respect of bills except Money Bills which procedure is contained in ART. 198 and 207. Annually a financial statement like the Union Budget is also introduced and passed by the House. (ART. 202).

Immunity of Members : Similar provisions as for the Parliament exist in respect of the State Legislatures and members exercising their rights.

THE UNION TERRITORIES : Special provisions relating to the administration of the Union Territories are provided under Part VIII of the Constitution and the provisions apply specifically to functions named in the Articles (ART. 239-241).

ADMINISTRATION OF JUSTICE

Supreme Court: (ART. 124-147): The Supreme Court of India consists of a Chief Justice and not more than 17 judges appointed by the President.

Retirement: At the age of 65.

Qualifications: For appointment as a judge of the Supreme Court a person has to be a citizen of India and must have been for at least 5 years a judge of a High Court or of two or more such Courts in succession; or an advocate of a High Court or two or more such Courts in succession for at least 10 years; or, he must be in the opinion of the President an eminent jurist.

Removal: A judge of the Supreme Court cannot be removed from office except by an order of the President passed after an address by each House of Parliament, supported by a majority of the total membership of that House voting, has been presented to the President in the same session for such removal on the ground of proved misbehaviour or incapacity.

Original Jurisdiction: The Supreme Court has an exclusive original jurisdiction which extends to all disputes between the Union and one or more States or between two or more States *inter se* (ART. 131). In addition to this and more significantly, Article 32 of the Constitution gives an extensive original jurisdiction to the Supreme Court to enforce fundamental rights guaranteed under Part III of the Constitution, by enabling it to issue writs, directions or orders including writs of *habeas corpus, mandamus,* prohibition, *quo warranto* and *certiorari.* The right guaranteed by ART. 32 cannot be suspended except as provided in the Constitution.

Advisory Jurisdiction: The President may consult the Supreme Court on any question of fact or law of public importance.

Appellate Jurisdiction: The Supreme Court can be invoked by a certificate of the High Court concerned or by special leave granted by the Supreme Court, in respect of any judgement, degree or final order of the High Court in cases involving substantial questions of law as to the interpretation of the Constitution. (ART. 132).

Civil Appeals: An appeal also lies from a judgement of a Division Bench of a High Court in a civil proceeding if the High Court certifies that the case involves a substantial question of general importance and which, in the opinion of the High Court, needs to be decided by the Supreme Court. (ART. 133).

Criminal Appeals: An appeal to the Supreme Court lies if the High Court (*a*) has on appeal reversed an order of acquittal of an accused person and sentenced him to death; (*b*) has withdrawn for trial before itself any case from any court subordinate to its authority and has in such trial convicted the accused person and sentenced him to death; or (*c*) certifies that the case is a fit one for appeal to the Supreme Court. Parliament is authorised to confer on the Supreme Court any further powers to hear and entertain appeals from any judgement, final order or sentence in a criminal proceeding of a High Court in Indian territory. (ART. 134).

Apart from these provision is also made for special leave to appeal to the Supreme Court from any judgement, decree, sentence, determination or order from any cause of any matter passed by a Court or tribunal. But leave is at the discretion of the Supreme Court and is not one as of right. (ART. 136).

By the 42nd Constitutional Amendment where cases involving the same or substantially the same questions of law of general importance are pending before the Supreme Court and one or more High Courts the Attorney General can move the Supreme Court to withdraw the cases pending before the High Court or High Courts to itself and dispose of the same. Further the Supreme Court has been empowered to transfer cases from one High Court to another High Court, if it is expedient for the ends of justice so to do. (ART. 139A).

High Court (ART. 214-231): Every State has a High Court of its own except in the case of Assam and Nagaland and Punjab and Haryana who share one each between them. Delhi has a High Court of its own.

Appointment: High Court judges are appointed by the President after consulting the Chief Justice of India, the Governor of the State and the Chief Justice of the High Court. They retire at the age of 62.

Qualifications: To be appointed a person has to be a citizen of the country who has either held judicial office or practised as an advocate for 10 years in any State; or he must be, in the opinion of the President, an eminent jurist.

Removal: Article 124 (4), which lays down the procedure for the removal of a Supreme Court judge, applies to the High Court judges also.

Jurisdiction: The jurisdiction as well as the laws administered by a High Court can be altered both by the Union and State Legislatures. Certain High Courts, like those at Bombay, Calcutta and Madras, have Original and Appellate jurisdictions. Under the Original jurisdiction suits, where the subject matter is valued at Rs. 25,000 or over, can be filed directly in the High Court. Under the Appellate jurisdiction only appeals from lower courts and appeals from suits, filed on the Original side of the High Court, can be entertained. Most High Courts have only appellate jurisdiction. Two important aspects of this jurisdiction are that the High Courts are also empowered to issue writs, directions, orders like the Supreme Court for enforcing the Fundamental Rights and in cases where the petitioner can satisfy the court that he has no other remedy, and there is a contravention of a statutory provision causing substantial injury to the petitioner or there is an illegality resulting in substantial failure (Art. 226 amended by the 42nd Constitutional Amendment). The other aspect is the power of superintendence over all subordinate Courts except those inferior courts whose judgement is not otherwise subject to appeal or revision. (ART. 227)

Subordinate Courts: (ART. 233-237): Except for minor variations, the structure and functions of the subordinate courts are uniform throughout the country. A State is divided into a number of districts, each under the jurisdiction of a principle civil court presided over by a District Judge. Subordinate to a District Judge is a hierarchy of different grades of civil courts.

The constitution and organisation of criminal courts and their procedure are regulated by the Code of Criminal Procedure 1898, as amended from time to time. In every district there is a District Magistrate and under him a number of subordinate magistrates of various grades sitting at various places. These Magistrates try and dispose the cases involving a sentence not exceeding imprisonment for two years.

Sheriffs and Official Assignees are attached to the High Courts of Bombay, Calcutta and Madras.

There are Official Assignees in three States—Maharashtra, W. Bengal and Tamil Nadu. The appointment is made by the Chief Justice of the High Court concerned.

In addition to the Official Assignee, a Deputy Official Assignee may also be appointed. Another officer of the court is the Insolvency Registrar who may be vested with the powers mentioned in section 6 of the Presidency Towns Insolvency Act.

Tribunals : Part XIVA has been added by the 42nd Amendment. Parliament may set up Administrative Tribunals for the Union and for each State or for two or more States and define the jurisdiction and powers of such tribunals for determining disputes relating to the recruitment and conditions of service of Union Government servants and servants of the States including the employees of any local or other authority within the territory of India or under the control of the Government of India or of a Corporation owned or controlled by Government. (ART. 323A)

ART. 323B provides for the creation of a hierarchy of Tribunals for the determination of disputes, complaints and offences respectively on various matters specified therein.

RELATIONS BETWEEN THE UNION & THE STATES

Legislative Relations : Under the Constitution, Parliament has the power to make Laws for the whole of or any part of the territory of India and the State Legislatures have the power to make Laws for the State. The subjects on which Legislation can be made are specified in the Seventh Schedule and Parliament has the exclusive right to legislate in respect of items appearing in List I (called the "Union List") and the State Legislatures have the exclusive power to make Laws in relation to items appearing in List II (called the "State List"). Both Parliament and the State Legislatures have the power to legislate in respect of items appearing in List III (called the "Concurrent List"). Provision is made in the constitution in relation to any inconsistency of laws made by the State Legislatures and Laws made by Parliament, as to which will prevail and for how long if both legislate in respect of the same subject. Parliament is also given the power to legislate on items exclusively reserved in the State List during an Emergency (ART. 245-254).

The Union List has 97 items including defence, armed forces, atomic energy, preventive detention, foreign affairs, citizenship, railways, highways, shipping, posts & telegraphs, currency, foreign exchange, incorporation, income tax, excise duty, estate duty etc. The State list has 66 items including public order, police, public health, communications, agriculture, forests, fisheries, markets, money lending, betting and gambling, taxes on lands and buildings, taxes on electricity, octroi, taxes on luxuries, entertainment etc. The concurrent list has 47 items including criminal law, marriage and divorce, transfer of property, contracts, trusts and trustees, contempt of court, prevention of cruelty to animals, trade unions, charities, newspapers, stamp duties, fees, evacuee property, price control etc.

Administrative Relations : The executive power of the State is exercised in compliance with laws made by Parliament and must not impede or prejudice the executive power of the Union. The other aspects of the general relationship are contained in ART. 256-263.

By the 42nd Constitutional Amendment the Union has been empowered to send any armed force or other force of the Union for dealing with any grave situation of law and order in any State. Such force shall act in accordance with the directions of the Union Government and shall not be subject to the control of the State Government. Parliament is also empowered to define by law the powers, functions and the liabilities etc., of the members of such force, when deployed in a State, during the period of deployment. (ART. 257A).

FINANCE, PROPERTY, CONTRACTS & SUITS (ART. 264-300): Under the Constitution no tax can be levied or collected except by authority of law (ART. 265). All revenues of the Union and all Laws in whatever form raised by it, are made part of the "Consolidated Fund of India" and all revenues of the State and Laws raised by it shall form part of the "Consolidated Fund of the State". Parliament is also empowered by law to establish a "Contingency Fund" (ART. 266-267). Under the Constitution provision is made for duties levied by the Union but which are collected and appropriated by the States such as stamp duties and excise duties on medicinal and toilet preparations and also taxes collected by the Union but assigned to the States such as taxes on succession, estate duty, taxes on railway fares and freights etc. and also income tax, which is collected by the Union but, distributed, in accordance with the constitution between the States and the Union (ART. 268-270). Similarly, provision relate to excise duties collected by the Union but distributed between the States and the Union if a law so provides for their distribution. Provision is also made for grants by the Union to certain States and for the setting up of a Finance Commission.

Under the Constitution the property of the Union is exempt from taxes by the State and vice-versa (ART. 285 and ART. 289). States are restricted from imposing taxes on sales or purchases of goods which are sales or purchases outside the State or in the course of import or export from the territory of India. (ART. 286).

Under the Constitution the executive power of the Union and that of the State Government extends to borrowing on the security of the respective Consolidated Funds to the extent permitted by Parliament and the State Legislatures. (ART. 292-293)

From the commencement of the Constitution all property and assets which vested in His Majesty for the purposes of the Government of the Dominion of India and all property and assets which vested in His Majesty for the purposes of the Government of the Governor's Province vested in the Union and in the States respectively. Similarly all rights, liabilities and obligations were continued as the rights, liabilities and obligations of the Government of India and the Government of the State respectively. (ART. 294-295).

All lands, minerals, etc. underlying the ocean within the territorial waters or the continental shelf of India vest in the Union and are held for the purposes of the Union. (ART. 297).

All contracts, made in the exercise of the executive power of the Union or a State are made in the name of the President or a Governor respectively though no personal liability attaches in respect thereof on the President or the Governor. (ART. 299).

The Government of India may sue or be sued by the name of the Union of India or the Government of the State may sue or be sued by the name of the State. (ART. 300).

TRADE, COMMERCE & INTERCOURSE : (ART. 301-307): Trade, commerce and intercourse throughout the territory of India is free and this applies to both inter-state and intra-state trade, commerce and intercourse. Parliament and the legislatures of the States are empowered, however, to impose such restrictions as may be required in the public interest. (In the case of the States the restrictions must also be reasonable and no Bill making such restrictions could be introduced in the Legislature without the previous sanction of the President.)

SERVICES UNDER THE UNION & THE STATES: (ART. 308-323): Persons who are members of the civil service of the Union or the civil service of a State or are holders of civil posts cannot be removed or dismissed by an authority subordinate to that by which they were appointed. Further no person can be dismissed or removed or reduced in rank except after an inquiry in which the person is informed of the charges and given a reasonable opportunity of being heard in respect of the charges. (ART. 311).

Administrative Tribunals may be set up for determination of disputes and complaints relating to the recruitment and conditions of service of persons in service of the Union or a State (see above *Administration of Justice*).

Public Service : There is a Public Service Commission for the Union and for each of the States. The Commission must be consulted in all matters relating to methods of recruitment, on the principles in making appointments, promotions and transfers, on all disciplinary matters and on any claims or awards. These functions can be extended by law. The Commissions are required to present annually to the President or the Governor of the State a report of the work done by the Commission.

ELECTIONS : (ART. 324-329) : All elections are directed and controlled by an Election Commission whose head is the Chief Election Commissioner appointed by the President. All elections to the Lok Sabha and to the Legislative Assemblies of the States are on the basis of adult suffrage. Seats are reserved in the Lok Sabha and the Legislative Assemblies of the States for the Scheduled Castes and Tribes and provision may be made for seats to be reserved for the Anglo Indian community. These special provisions are to have effect for thirty years from the commencement of the Constitution. (ART. 330-334).

Interference by Courts in Election Matters : The Courts are banned from questioning elections to Parliament or the State Legislatures except by Law made by the appropriate Legislature. By an amendment the elections of the President, the Vice-President, the Prime Minister and the Speaker of the Lok Sabha have been made non-justiciable in a Court of Law and can be called in question only before an authority to be appointed by a Law to be made by Parliament and all decisions of that authority cannot also be questioned in a Court of Law. (39th Constitution Amendment.) (ART. 329A).

OFFICIAL LANGUAGE: (ART. 343-351): The official language of India is Hindi in the Devnagri script and the form of numerals for official purposes shall be the international form of Roman numerals. English, which was originally to continue as the official language till 26th January, 1965, has been, under the Official Languages Act, 1963, continued in addition to Hindi.

The language to be used in the Supreme Court and in the High Courts and for Acts, Bills etc. is English.

EMERGENCY : (ART. 352-360) : If the President is satisfied that a grave emergency exists whereby the security of India or any part of the territory thereof is threatened by war, or external aggression, or internal disturbance he may by proclamation make a declaration to that effect By the 42nd Constitutional Amendment the President is now enabled to make a proclamation of Emergency not only in respect of the whole of India but also in respect of a part of the Country or, as the case may be, to restrict the proclamation of Emergency made in respect of the whole of India to a part of the Country. A proclamation may be revoked or banned by a subsequent proclamation. The declaration shall operate only for a period of two months unless before that it has been approved by resolution of both Houses of Parliament. The President may also make such declaration before any actual threat and if he is satisfied that there is imminent danger thereof. The President is empowered to make more than one Declarations of Emergency on separate grounds and the declarations can operate simultaneously. The satisfaction of the President is final and conclusive and it cannot be questioned in a Court of Law nor can its validity or its continued operation be questioned in a Court of Law. (ART. 352).

Effect of Proclamation of Emergency: While a proclamation of Emergency is in operation, (1) the executive power of the Union is extended to giving directions to a State or where the proclamation of Emergency is in force only in a part of the Country, to any other State other than the State in which Emergency is in force, if the security of the Country or any part thereof is threatened by activities in or in relation to the part of the Country in which the Emergency is in force; as to the manner in which its executive power is to be exercised and also to make laws with respect to any matter including conferring powers and imposing duties upon the Union or officers and authorities; (2) similarly Parliament is empowered to legislate in respect of items contained in the State List of Schedule Seven of the Constitution; (3) the President may make modifications and exceptions as far as the distribution of revenues under the Constitution are concerned (see above: Finance, Property, Contracts, Suits, ART. 268-279); (4) the Fundamental Rights under ART. 19 shall be suspended and it will be competent for the State to make Laws and to take executive action which the State would have otherwise been incompetent to make or take because of ART. 19 (the Law, to the extent of the incompetency ceasing to have effect after the Proclamation ceases to operate); (5) empower the President by order to declare that the right to move a Court for the enforcement of such of the Fundamental Rights as may be specified in that order as well as all pending proceedings for the enforcement of the rights shall remain suspended for the time the Proclamation operates or for such shorter time as may be specified in the Order and (6) by the 38th Constitution Amendment empower the State to make Laws or to take executive action which the State would have been otherwise incompetent to make or take because of such of the Fundamental Rights which are suspended by the order (the law ceasing to have effect to the extent of its incompetency on the Proclamation ceasing to operate). (ART. 353, ART. 250, ART. 354, ART. 358, ART. 359).

Proclamations of Emergency & Presidential Orders : On 26th Oct., 1962, the President made the first Proclamation of Emergency under ART. 352 on the ground that the security of India was threatened by the Chinese invasion. On 3rd Nov., 1962, a Presidential order was made under ART. 359 suspending the rights conferred by ART. 21 and 22. On 11th Nov., 1962 ART. 14 was added to the Presidential order. The Proclamation of Emergency was revoked on 10th Jan., 1968.

On 3rd Dec., 1971 the President made a second Proclamation of Emergency under ART. 352 on the ground that the security of India was threatened by the war with Pakistan in Dec. 1971. This has since been revoked.

On 25th June, 1975 the President made a third Proclamation of Emergency under ART. 352 on the ground that the security of India was threatened by internal disturbances. On 27th June, 1975 a Presidential Order was made under ART. 359 suspending the rights conferred by ART. 14, 21 and 22 and on 8th Jan., 1976, ART. 19 was added to the order. This order has also been revoked

Financial Emergency: (ART. 360): If the President is satisfied that the financial stability of the country is threatened, he may, by a Proclamation, make a declaration and in consequence the executive authority of the Union is considerably extended and it is empowered to suitable action.

President's Rule: The President may, on receipt of a report from the Governor of a State or otherwise, if satisfied that a situation has arisen in which the government of the State cannot be carried on in accordance with the Constitution, by Proclamation assume to himself all or any of the functions of the Government of the State and all or any of the powers vested in the Governor, declare that the powers of the Legislature of the State are exercisable by Parliament except that the President cannot assume the powers vested in the High Court. This Proclamation is popularly known as 'President's Rule' and all such Proclamations have to be laid before Parliament within two months and approval obtained to continue the Proclamation. Such a Proclamation approved by the Parliament ceases to be in operation after a period of one year unless revoked earlier and may be renewed for a period of one year at a time but in no case beyond a total period of three years. The satisfaction of the President is final and conclusive and justifiable. Consequential provisions regarding Parliament's authority to legislate on such a declaration are provided under the Constitution. (ART. 356-7)

AMENDMENT OF THE CONSTITUTION: (Art. 368): The extent of the power to amend the Constitution and whether all parts of the Constitution were amendable was the subject of several decisions of the Supreme Court. In the last decision, popularly known as the "Fundamental Rights Case" the Supreme Court has held that the power to amend applies to even the Fundamental Rights (which it had previously held to be not amendable) but that Parliament could not amend the "basic features" of the Constitution. ART. 368 was itself amended by the 24th Constitution Amendment which was challenged in the Fundamental Rights case and that amendment was upheld by the Supreme Court. The new ART. 368 contains the procedure for amendment. The amendment can be done only by the introduction of a Bill for that purpose in either the Lok Sabha or the Rajya Sabha and the Bill has to be passed by each House by a majority of the total membership of that House and by a majority of not less than two-thirds of the members of that House voting and after the President has assented to it the Constitution will stand amended. Certain provisions of the Constitution like the provisions relating to the Union Judiciary, the High Courts, the distribution of Legislative Powers or ART. 54, 55, 73, 162 and 241 or of any of the lists contained in the Seventh Schedule in the representation of the States in Parliament and an amendment to any of the provisions of this Article have in addition to the above to be ratified by the legislatures of at least half the States by resolutions to that effect before the Bill can be presented to the President for his assent.

The 42nd Constitutional Amendment has amended ART. 368 to provide that no amendment of the Constitution made before or after the 42nd Amendment shall be questioned in any court on any ground, and further, that Parliament's power to amend the Constitution under ART. 368 shall be without any limitation.

Section 59 of the Constitution (Forty-second Amendment) Act, 1976 has conferred power on the President to remove by an order, any difficulty that may arise during the period of transition from the old provisions of the Constitution to the new provisions as amended.

Amendments made to the Constitution: Till 1980, 44 amendments had been made to the provisions of the Constitution.

The Constitution (45th Amendment) Bill extending reservation of seats in the State Assemblies and Lok Sabha for Scheduled Castes, Scheduled Tribes and Anglo-Indians for a period of 10 years has been passed by the Lok Sabha on Jan, 24, 1980 and okayed by Rajya Sabha on Jan. 25, 1980

The Constitution (46th Amendment) Bill, 1981 which seeks to amend articles 269, 286, 366, of the Constitution, to validate laws levying tax on the supply of food or drink and also the collection or recoveries made by way of tax under any such law is before the Parliament.

Laws of Parliament enacted during 1981: The following 62 bills were passed by Parliament in 1981. (The dates on which the President of India gave his assent are given in brackets against each bill):

1. The Life Insurance Corporation (Amendment) Bill, 1981 (17-3-81); 2. The Appropriation (Vote on Account) Bill, 1981 (23-3-81); 3. The Appropriation Bill, 1981 (23-3-81); 4. The Appropriation (No. 2) Bill, 1981 (23-3-81); 5. The Appropriation (No. 3) Bill, 1981 (23-3-81); 6. The Delhi Sikh Gurdwaras (Amendment) Bill, 1981 (25-3-81); 7. The Special Bearer Bonds (Immunities and Exemptions) Bill, 1981 (27-3-81); 8. The Appropriation (Railways) Bill, 1981 (27-3-81); 9. The Appropriation (Railways) No. 2 Bill, 1981 (27-3-81); 10. The Appropriation (Railways) No. 3 Bill, 1981 (27-3-81); 11. The Appropriation (Railways) No. 4 Bill, 1981 (27-3-81); 12. The Manipur Appropriation (Vote on Account) Bill, 1981 (29-3-81); 13. The Manipur Appropriation Bill, 1981 (29-3-81); 14. The Air (Prevention and Control of Pollution) Bill, 1981 (29-3-81); 15. The Appropriation (No. 4) Bill, 1981 (1-5-81); 16. The Finance Bill, 1981 (12-5-81); 17. The Oil and Natural Gas Commission (Amendment) Bill, 1981 (27-8-81); 18. The Essential Commodities (Special Provisions) Bill, 1981 (2-9-81); 19. The Prevention of Blackmarketing and Maintenance of Supplies of Essential Commodities (Amendment) Bill, 1981 (2-9-81); 20. The Assam Appropriation Bill, 1981 (2-9-81); 21.

The Salary, Allowances and Pension of Members of Parliament (Amendment) Bill, 1981 (4-9-81); 22. The Income-tax (Amendment) Bill, 1981 (4-9-81); 23. The Compulsory Deposit Scheme (Income-tax Payers) Amendment Bill, 1981 (4-9-81); 24. The Customs Tariff (Amendment) Bill, 1981 (4-9-81); 25. The Coal Mines Labour Welfare Fund (Amendment) Bill, 1981 (9-9-81); 26. The High Court at Bombay (Extension of Jurisdiction to Goa, Daman and Diu) Bill, 1981 (9-9-81); 27. The Delhi University (Amendment) Bill, 1981 (11-9-81); 28. The Export-Import Bank of India Bill, 1981 (11-9-81); 29. The British India Corporation Limited (Acquisition of Shares) Bill, 1981 (11-9-81); 30. The Cine-workers Welfare Cess Bill, 1981 (11-9-81); 31. The Dalmia Dadri Cement Limited (Acquisition and Transfer of Undertakings) Bill, 1981 (15-9-81).

32. The Victoria Memorial (Amendment) Bill, 1981 (17-9-81); 33. The Cine-workers Welfare Fund Bill, 1981 (17-9-81); 34. The Appropriation (Railways) No. 5 Bill, 1981 (18-9-81); 35. The State of Nagaland (Amendment) Bill, 1981 (18-9-81); 36. The Working Journalists and other Newspaper Employees (Conditions of Service) and Miscellaneous Provisions (Amendment) Bill, 1981 (18-9-81); 37. The Appropriation (No. 5) Bill, 1981 (19-9-81); 38. The Income-tax (Second Amendment) Bill, 1981 (19-9-81); 39. The Assam State Legislature (Delegation of Powers) Bill, 1981 (22-9-81); 40. The Essential Services Maintenance Bill, 1981 (23-9-81); 41. The Burmah Oil Company (Acquisition of Shares of Oil India Limited and of the Undertakings in India of Assam Oil Company Limited and the Burmah Oil Company (India Trading) Limited Bill, 1981 (28-9-81); 42. The Maritime Zones of India (Regulation of Fishing by Foreign Vessels) Bill, 1981 (28-9-81); 43. The Merchant Shipping (Amendment) Bill, 1981 (28-9-81); 44. The Sugar Undertakings (Taking over of Management) Amendment Bill, 1981 (30-11-81); 45. The Oil Industry (Development) Amendment Bill, 1981 (10-12-81); 46. The Economic Offences (Inapplicability of Limitation) Amendment Bill, 1981 (15-12-81); 47. The Beedi Workers Welfare Cess (Amendment) Bill, 1981 (15-12-81); 48. The Anti-Apartheid (United Nations Convention) Bill, 1981 50. The Cine-workers and Cinema Theatre Workers (Regulation of Employment) Bill, 1981 (24-12-81); 51. The Khuda (Regulation of Employment) Bill, 1981 (24-12-81); 51. The Khuda Bakhsh Oriental Public Library (Amendment) Bill, 1981 (24-12-81); 52. The Rampur Raza Library (Amendment) Bill, 1981 (24-12-81); 53. The Kerala Appropriation (No. 4) Bill, 1981 (24-12-81); 54. The Appropriation (Railways) No. 6 Bill, 1981 (24-12-81); 55. The Appropriation (Railways) No. 7 Bill, 1981 (24-12-81); 56. The Appropriation (No. 6) Bill, 1981 (28-12-81); 57. The Appropriation (No. 7) Bill, 1981 (28-12-81); 58. The Plantations Labour (Amendment) Bill, 1981 (29-12-81); 59. The Indian Iron and Steel Company (Acquisition of Shares) Amendment Bill, 1981 (29-12-81); 60. The Assam Appropriation (No. 2) Bill, 1981 (29-12-81); 61. The National Bank for Agriculture and Rural Development Bill, 1981 (30-12-81); 62. The Aligarh Muslim University (Amendment) Bill, 1981 (31-12-81).

JUSTICE—PRESENT POSITION

Supreme Court: At the beginning of the year 1982 the number of the Supreme Court Judge was 14 excluding the Chief Justice (under the Supreme Court Amendment Act, 1960). The pendency of cases increased from 48,643 in 1981 to 63,041 as on 31st Dec., 1982.

POSITION OF CASES

Period	Institution	Disposal	Pendency
1977	14,501	N.A.	18,215
1978	20,840	17,095	21,960
1979	20,754	15,833	26,881
1980	26,365	16,953	36,293
1981	31,040	18,690	48,643
1982	43,510	29,112	63,041

High Courts: The number of High Court Judges in position as on April 1, 1982 was 321 against a total sanctioned strength of 408 (including newly created posts). The position of institution, disposal and pendency of cases in High Courts from 1978 to 30th June, 1982 was as follows:

Year	Institution	Disposal	Pendency
1978	485,880	479,523	613,799
1979	530,614	527,174	617,239
1980	555,719	494,007	678,951
1981	638,731	472,460	845,222
1982*	307,741	234,330	937,818

*As on 30th June, 1981.

Sessions Courts: The pendency of cases in the Sessions Courts increased from 159,489 to 175,155 at the end of 1981. The disposal of cases increased from 190,327 in 1980 to 203,471 in 1981.

Magisterial Courts: The number of cases pending at the end of 1981 was 6,213,677 against 5,951,299 in the previous year. Institution of cases during the years 1980 and 1981 was 7,467,589 and 7,695,235 while disposals were 6,905,714 and 7,431,454 respectively.

Civil Courts: The pendency of cases on the original side on December 31, 1981 was 3,026,315 against 2,911,820 in 1981. The disposals during 1980 and 1981 on the original side were 2,482,891 and 2,542,330 respectively.

The pendency on the appellate side at the end of 1980 and 1981 was 209,218 and 223,136 while disposals during 1980 and 1981 were 197,776 and 199,623 respectively. The institutions during 1980 and 1981 respectively were 206,138 and 231,541.

Number of courts functioning in the country at District level at the end of December 1981: District/Additional District & Sessions Judge/Asst. Sessions Judge/Subordinate Judge Courts: 2,543; Munsifs/Magistrate Courts: 4,793.

NUMBER OF JUDGES

Supreme Court: At the beginning of 1982, the maximum permissible strength of the Supreme court was 18 (excluding the Chief Justice).

High Courts: On 1-4-1982, 321 judges were in position against a total strength of 408.

REORGANISATION OF STATES

Under the Constitution of the Government of India which came into being on January 26, 1950, the following States were constituted: 9 Part A States (Assam, Bihar, Bombay, Madhya Pradesh, Madras, Orissa, Punjab, Uttar Pradesh, and West Bengal); 8 Part B States (Hyderabad, Jammu & Kashmir, Madhya Bharat, Mysore, Patiala-East Punjab (PEPSU), Rajasthan, Saurashtra and Travancore-Cochin); 10 Part C States (Ajmere, Bhopal, Bilaspur, Coorg, Delhi, Himachal Pradesh, Kutch, Manipur, Tripura and Vindhya Pradesh) and Part D territories and other areas (Andaman & Nicobar Islands).

But in 1956 under the States reorganisation Act, following the recommendation made in the report of the States Reorganisation Commission of the Government of India, the distinction between the Part A, B and C States was abolished, Instead, two broad categories for the units of the Indian Union were established called States and Union Territories.

In August 1961, the former Portuguese territory of Dadra and Nagar-Haveli became Union territory. Goa, Daman and Diu became Union territory in March 1962.

In August 1962 the former French territories of Pondicherry, Karaikal, Mahe and Yanam were formally transferred to India and became a Union Territory.

ANDAMAN AND NICOBAR ISLANDS

(Union Territory)

The Andaman and Nicobar Islands, the continental islands often called the Bay Islands, were first occupied by the Portuguese, then by the Dutch and finally by the British. They became penal settlements for convicts. The islands are a group of 550 islands, most of them too small to be inhabited. The Nicobar group are south of the Andaman. On November 1, 1956, the Andaman and Nicobar Islands became Union Territory under the President of India. The Chief Commissioner heads the local administration with headquarters at Port Blair.

HEADQUARTERS: Port Blair; **Population** (1971 Census): 49,634; **Area of the Territory:** 8,293 sq. kms. (Andamans 6,340 sq. kms., Nicobars 1,953 sq. kms.); **Population** (1981 census): 188,741; **Density:** 23 per sq. km. **Sex ratio:** 760 females per 1,000 males; **Literacy:** 51.27 per cent.

No. of villages: 516 (both inhabited and uninhabited) as per 1981 census.

Boundary: The Andamans are a string of islands of various sizes, large and small, lying between 6° and 140°N. latitude and from 92° and 94°E. longitude in the Bay of Bengal. They have an average width of 24.13 kms. and an axis of about 321.8 kms. The northernmost 'Land fall Island' is 901.13 kms. from the mouth of the river Hooghly. The headquarter Port Blair is about 1,255 kms. and 1,190 kms. from Calcutta and Madras respectively.

The main part of the Andaman group is composed of five large islands viz., North Andaman, Middle Andaman, South Andaman, Baratang and Rutland Islands generally known as the Great Andamans. To the south of the Great Andamans is the island of Little Andaman. These islands consist mostly of a mass of hills covered with dense tropical forests and separated by three straits and several creeks.

The Nicobar Islands from Car Nicobar in the north to Great Nicobar in the South intervene between Little Andaman and Sumatra. The Southern island of Great Nicobar is about 480 kms. from Port Blair. These islands are partly hilly and partly flat. The most important harbour in the area is Nancowrie reputed to be the finest harbour in the east.

Population according to language spoken: Sanskrit: nil, Sindhi: 7, Tamil: 14,518, Telugu: 9,361, Urdu: 2,488, Assamese: 17, Bengali: 28,120, Gujarati: 159, Hindi: 18,499, Kannada: 201, Kashmiri: 8, Malayalam: 13,953, Marathi: 115, Oriya: 250, Punjabi: 1,023, Nicobarese: 17,955.

Climate: The Islands are exposed to both monsoons with north easterly gale from November to January and south westerly gale from May to October. The weather is good only from January to April and to some extent in October. The average rainfall is 318 cms. The temperature varies between 21°C and 34°C throughout the year.

AGRICULTURE

Total reporting area during 1980-81 was 75,707 hectares. The principal crops are rice, coconut and arecanut. Rice production during 1981-82 was 21,565 tonnes. Commercial production of rubber, coffee, red palm oil and spices like clove, cinnamon, nutmeg and black pepper is also considered good. About 16.45 per cent of the total working population is engaged in agricultural pursuits.

Forests: Forests cover an area of 7,144 sq.kms. These forests yield timber to the plywood and matchwood industries in addition to timber for constructional purposes.

The species of timber found in the forest region are mainly Padauk, Gurjan, White Chuglam, Papita etc. The Forest Department exports approximately 10,500 cubic metres of timber to the mainland.

Animal Husbandry: Veterinary hospitals 7; Veterinary dispensaries 28; Key village blocks 2; Key village units 7: Artificial insemination centres 2; Artificial insemination sub-centres 11; Govt. poultry farm 1; Govt. training centre 1; Diseases investigation laboratory 1; Fodder farm 1; Cattle breeding farm 1.

POWER

Electricity (1981-82): Installed capacity and generation: 1,002,706 KWH; total consumption: 9,588,364 KWH.
Rural electrification: Villages electrified: 180.

LABOUR AND INDUSTRIES (as on 1.1.1983)

Large and medium industrial units: 6; small industrial units: 164; industrial training centres: 9; industrial estate: 1; aid given by State to industries: Rs.0.21 million; registered factories under Factories Act, 1948: 34; trade unions: 82; No. of strikes: 3; industrial disputes settled: 43; shops and commercial establishments: 764; theatres and restaurants: 47; printing presses: 11.

Employment Exchanges (1981-82): No. of exchanges: 1; Applicants on live register: 12,137; placements upto December 1982: 3,338.

Communications (1982)

Road Transport: Buses owned by State Transport Dept.: 105; no. of routes operated: 93; route length: 1,852 km.; distance covered: 1,632,444 km.; Motor vehicles—scooters: 981; motor cycles: 433; lorries: 523; buses: 108; taxies: 92; cars and jeeps: 397; Others: 263.

Shipping: Four passenger cum cargo ships viz. M.V. Harshavardhana, M.V. Andamans, M.V. Akbar and T.S.S. Nancowrie and two cargo ships viz. M.V. Diglipur and M.V. Shompen ply between Mainland Ports and Port Blair. The passenger vessels normally ply from Calcutta and Madras and sometimes from Visakhapatnam.

As far as inter-island communication is concerned, ferry vessels viz. S.S. Cholunga, T.S.S. Yerawa and M.V. Onge ply on a regular schedule to the northern as well as southern group of Islands. In addition to the above vessels, some other small vessels ply in the narrow creeks and harbours carrying passengers and cargo to places inaccessible to the large vessels. The M.V. Little Andaman and M. V. Yamuna carry out ferry services between Port Blair and Rangat viz. Havelock and Neil Island. The M.V. Ganga operates Harbour Ferry Services at Port Blair. The shallow draft vessels procured subsequently under plan schemes viz., M.V. Chital, M.V. Chinkara, M.V. Sambur, M.V. Narmada, M.V. Gomati and M.V. Kadamtala also have been put into service in the above inter-island lines and harbour ferries.

Harbours: Port & Harbour facilities have been provided at Diglipur, Mayabunder, Rangat, Havelock, Neil, Port Blair and Hut Bay (Little Andaman) and at Malacca (Car Nicobar), Katchal, Kamorta and Campbell Bay in Nicobar Group of Islands.

Air Traffic: Calcutta to Port Blair: Passengers carried (1982): 17,691; freight carried: 160,063 kg.; mail carried: 67,323 kg. Madras to port Blair (with effect from November 1982): Passengers carried: 1,254; freight carried: 7,507 kg.; mail carried: 63 kg.

Posts and Telegraphs (1982): Post offices/sub-offices: 34; branch post offices: 44; telegraph offices: 37; telephone exchanges: 6; telephone connections: 753; telephone extensions: 213; public call offices: 20.

PUBLIC HEALTH (1982)

All treatment, medical or surgical, is completely free. Specialised treatment is also free. For specialised treatment, patients are sent to the mainland at Government expense.

The G.B. Pant Hospital, Port Blair, is the largest civil hospital with 192 beds. All types of treatment, except for cancer and mental diseases, are provided here.

There is a 50 bed T.B. hospital and a 20-bed isolation hospital at Port Blair. Besides there are 11 civil hospitals, 64 dispensaries, 2 primary health centres and 3 sub centres. The hospitals are located at Port Blair, Bambooflat, Car Nicobar, Nancowric, Campbell Bay (Great Nicobar), Rangat, Mayabunder, Diglipur, Billiground, Long Island and Havelock. The Primary Health Centres are located at Wimberlygunj (South Andaman) and Kapanga (Katchal). The total bed strength of hospitals and primary health centres is 613.

No. of doctors: 62; No. of nurses: 130; no. of sterilisation operations performed 948.

EDUCATION (1982-83)

Types of Institutions	Number	Number of students		
		Boys	Girls	Total
Pre-Primary	14	500	494	994
Junior Basic	192	8,031	6,967	14,998
Senior Basic	37	7,401	6,033	13,434
High Schools	12	3,851	3,116	6,967
Higher Secondary	17	6,955	5,015	11,970
Trs. Trg. Institute	1	45	56	101
Govt. College	1	245	142	387
B.Ed. College	1	30	20	50
Total	275	27,058	21,843	48,901

GENERAL

Press: "Daily Telegrams" published from Port Blair in English and "The Andaman Nicobar Dweep Samachar" in Hindi.

Panchayats: 38 Gram Panchayats and 38 Nyaya Panchayats continue to function in the South, Middle and North Andamans. In the Nicobar group of islands, the traditional Panchayats continue to function.

Banks: The State Bank of India has branches at Port Blair, Rangat, Hut Bay, Car Nicobar, Nancowrie, Diglipur, Garacharama, Bambootlat, Chouldari, Mithakari, Manglutan and Aberdeen Bazaar.

The Andaman and Nicobar State Cooperative Bank Ltd. functions with its headquarters at Port Blair with eight branches at Diglipur, Mayabunder, Wimberlygunj, Haddo, Thusnabad, Baratang, Bambooflat and Rangat.

The Syndicate Bank has three branches at Port Blair, Wimberlygunj and Campbell Bay.

The Canara Bank has got a branch at Port Blair.

Tourism: Total tourist accommodation in Port Blair: 315. Tourist arrivals: Domestic: 13,500; Foreign: 1,100.

ANDHRA PRADESH

Andhra Pradesh, known as the "river State" of the South and the first State in India to be formed mainly on the linguistic basis, was established on October 1, 1953. It was partitioned from Madras, the Telugu-speaking sector constituting the nucleus of the new State. On November 1, 1956, the Telangana area, part and parcel of the former Hyderabad State, comprising the districts of Hyderabad, Medak, Nizamabad, Karimnagar, Warangal, Khammam, Nalgonda and Mahbubnagar, some talukas of Raichur, Gulbarga and Bidar districts and some revenue circles of Nanded district were added to Andhra. On April 1, 1960 some areas of Chingleput and Salem districts of Madras were also transferred to Andhra. It is the fifth largest State, both in area and population, and a major link between the north and the south. Significantly, the Andhra agitation for the separation of the Telugu-speaking district from Madras State took a serious turn by the fast-unto-death of the Andhra Patriot, Potti Sriramulu. AP, as it is often called, comprises three distinct regions: (a) the coastal region of eight districts which goes broadly by the name of Andhra; (b) the four interior districts termed Rayalaseema and (c) the Telengana region consisting of Hyderabad and the nine adjoining districts.

CAPITAL: Hyderabad. **Area:** 172.65 sq. kms. **Population:** 2,528,200 (1981 provisional).

Area of the State: 275,068 sq. km. **Population:** 53,549,673; **Density:** 194 per sq. km.; **Sex Ratio:** 975 females per 1,000 males. **Literacy:** 29.94%.

The headquarters of the districts are the towns of the same name except for the following districts with the headquarters in the brackets: East Godavari (Kakinada); Rangareddy (Hyderabad); Krishna (Machilipatnam); Medak (Sangareddy); Prakasam (Ongole); and West Godavari (Eluru).

District	Headquarters	Area (sq. km.)	Population (1981 census)
Adilabad	Adilabad	16,128	16,39,003
Anantapur	Anantapur	19,130	25,48,012
Chittoor	Chittoor	15,152	27,37,316
Cuddapah	Cuddapah	15,359	19,33,304
East Godavari	Kakinada	10,807	37,01,040
Guntur	Guntur	11,391	34,34,724
Hyderabad	Hyderabad	217	22,60,702
Karimnagar	Karimnagar	11,823	24,36,323
Khammam	Khammam	16,029	17,51,574
Krishna	Machilipatnam	8,727	30,48,463
Kurnool	Kurnool	18,658	24,07,299
Mahabubnagar	Mahabubnagar	18,432	24,44,619
Medak	Sangareddy	9,699	18,07,139
Nalgonda	Nalgonda	14,240	22,79,685
Nellore	Nellore	13,076	20,14,879
Nizamabad	Nizamabad	7,956	16,79,683
Prakasam	Ongole	17,626	23,29,571
Rangareddy	Hyderabad	7,493	15,82,062
Srikakulam	Srikakulam	5,837	19,59,352
Visakhapatnam	Visakhapatnam	11,161	25,76,474
Vizianagaram	Vizianagaram	6,539	18,04,196
Warangal	Warangal	12,846	23,00,295
West Godavari	Eluru	7,742	28,73,958

Major cities with area in sq. kms. and population in thousands respectively: Hyderabad: 172.65-2,528.2; Vijayawada: 60.30-545.0; Guntur: 30.01-367.2; Visakhapatnam: 94.53-594.3; Warangal: 54.98-336.0; Rajahmundry: 43.90-267.7; Kakinada: 30.51-226.6; Machilipatnam: 23.93-138.5; Kurnool: 15.02-206.7; Nizamabad: 36.86-183.1; Tenali: 7.90-119.2; Eluru: 14.38-168.1; Nellore: 13.68-236.2.

No. of villages: 27,221; **No. of towns:** 234; **No. of taluks:** 303.

Boundaries: The State is surrounded in the east by the Bay of Bengal; in the south by Tamil Nadu; in the south-west by Karnataka; in the north-west by Maharashtra; in the north by Madhya Pradesh and in the north-east by Orissa.

State Language: Telugu is the language of the State with Urdu also being spoken by a large section.

AGRICULTURE

In 1981-82 — rice production was 7.86 m. tonnes, foodgrains production was 11.4 m. tonnes and area under foodgrains 9.22 m. hectares. Gross area sown was 13.04 m. hectares

Animal Husbandry: The total no. of livestock in the State (on April 15, 1977, when the last census was taken) was 31,471,647. 12,040,888 cattle, 7,162,893 buffaloes, 7,064,311 sheep, and 4,364,013 goats, 21,608,774 poultry.

Forests: Forests cover 64,154 sq. kms. of the State's area. Red Sanders, a monopoly of the State grows gregariously in the Seshachalam Hills, which also contain the sandal.

Forest area: In 1981-82: Teak was 72,702 hectares.; Bamboo 29,793 hectares.; Eucalyptus 19,042 hectares.; casaurina 16,303 hectares.; sandalwood 2,880 hectares.; red sanders 1,784 hectares ; silver oak 4,334 hectares. and cashew 24,873 hectares.

Forests revenue in 1981-82 was Rs. 355.274 million and expenditure Rs. 198.097 million.

A.P. Forest Development Corporation started functioning from June, 1975 to increase forest production by taking up commercial forestry with the help of institutional finances.

Fisheries: A.P. with a coastline of 982 kms. and a continental shelf covering an area of about 32,000 sq. miles has an estimated marine fisheries potential of 400,000 tonnes per year. According to a census by the Central Marine Fisheries, Research Institute Cochin, there were 453 fishermen's villages with a population of 0.326 million, 83,903 active fishermen, 456 mechanised and 36,01 non-mechanised boats and 379 landing centres. The marine fis landed in 1980 was 116,013 tonnes. There is a fisheries training institute one each at Kakinada and Machilipatnam.

The State Government is seeking, Dutch collaboration for the supply and construction of mechanised trawlers. An integrated Marine Fisheries Project, costing about Rs. 238.0 million out of which the world bank's advance is Rs. 150.5 million, is under execution.

IRRIGATION AND POWER PROJECTS

Major and Medium Irrigation: The cumulative potential created till the end of 1980-81 was about 1.259 million hectares under major and medium projects. The area actually utilised was only about 0.828 million hectares.

Some of the important completed projects at the end of 1980-81 with their potential created indicated in brackets, include the Prakasam Barrage (40,873 hectares), Tungabhadra High level canal-stage I (48,198 hectares), Low level canal (60,298 hectares), K.C. Canal (0.122 million hectares) and Kadam (47,920 hectares), the on-going projects of Nagarjunsagar (0.868 million hectares) and Sriramsagar (0.2967 million hectares).

The additional irrigation potential proposed to be created in the VI Plan is 8 to 9 million hectares. Out of which modernisation schemes will contribute 940,000 hectares, and the rest by ongoing schemes.

The VI Plan outlay for irrigation projected at Rs. 10,000 million by the State was reduced to Rs. 7,610 million by the Planning Commission in December 1980.

Minor Irrigation: The State Govt. formulated proposals seeking the aid of the world bank. They involve 146 minor irrigation schemes and 200 percolation tanks, creating an irrigation potential of about 232,403 hectares.

The gross irrigated area in the State 0.468 million hectares in 1981-82 and potential was 0.103 million hectares.

Power Projects: Installed capacity: 2297.9 m.w. in 1981-82; generation: 8,873.9 mkwh; no. of villages electrified: 19,284; no. of pumpsets: 496,675.

INDUSTRIES

Cycle and cycle accessories, steel furniture, scientific instruments, radios, tape recorders, electric measuring instruments, automobile parts, air conditioners, safety razor blades, PVC cables, switchgear, electrical accessories, stainless steel vessels, agricultural implements, TV sets, light and heavy engg., cement, fertilisers, oils (edible and non-edible), drugs and chemicals, food products, electrical and elctronic components, petroleum products, ship building and mineral products are some of the items manufactured in the State.

No. of Registered factories (in 1978-79), 8,836; no. of employees 622,000; productive capital Rs. 16,186 million.

Cottage Industries: There are about 600,000 handlooms in A.P. of which 527,000 are registered. The State has the highest number of handlooms compared to any other State in India. Together these produce annually about 320 m. metres which was increased to 420 m. metres in 1981-82. The Centre has fixed a target of 700 m. metres to be achieved by the end of VI Plan.

The handloom goods exported from the State are about 20% of the export from the country. The important goods exported are as follows: Bleeding Madras, Madras Kerchiefs, lungies, sarongas, silks (printed), *tusar* and *Kalamkari.*

Industrial Estates: As on June 1977, there were 51 industrial estates and 28 industrial development areas in the State. Besides 20 industrial estates and four industrial development areas are in the formative stage. They are situated in the following towns viz., Visakhapatnam, Rajahmundry, Vijayawada, Guntur, Nellore, Chittoor, Tirupathi, Nizamabad, Hyderabad and commercial complexes in Visakhapatnam, Nellore, Cuddapah, Warangal, Nizamabad and Hyderabad.

Labour: In 1981 the total no. of industrial disputes were 80; no. of workers involved 37,262; mandays lost: 13,07,208.

Employment (Sept. 1981): There are 6,946 Public and 5,628 Private Sector establishments in the State employing a total of 1,602,817 (1,226,571 being in the Public Sector).

No. of employment exchanges in the State (1981) 36; no. of unemployment 1.745 million (in Sept. '82).

EDUCATION

No. of schools and students respectively are (1981-82): Primary 40,656 (5.368 million 1980-81), Upper Primary 4,782 (0.882 million 1980-81), High schools 3,842 (0.892 million 1980-81). Colleges: (1981-82) Jr. colleges 468 (18.2 million), Degree colleges 387. No. of oriental colleges 53.

Universities (1980-81): (9)—A.P. Agricultural University, Rajendranagar, Hyderabad; Sri Jawaharlal Nehru Technological University, Hyderabad-500028; University of Hyderabad, Hyderabad-500001; Osmania University, Hyderabad-500007; Andhra University, Waltair-530004; Sri Venkateswara University, Tirupathi-517501; Kakatiya University, Warangal-506002; Nagarjuna University, Guntur-522004; Sri Krishnadevaraya University, Anantapur.

Open University which was inaugurated on Aug. 26, 1982 will start functioning at Hyderabad from 1983-84 academic year. Padmavathi Women's University, Tirupathi, was inaugurated on April 14, 1983 and will start functioning from 1983-84 academic year.

PUBLIC HEALTH (1981-82).

No. of Allopathy Hospitals: 295; Dispensaries: 1,101; PHCs: 421; Hospitals for special treatment: 45; No. of Ayurvedic Hospitals: 5; Dispensaries: 1,331; No. of Unani Hospitals: 2; Dispensaries: 133; No. of Homeopathy hospitals: 3; Dispensaries: 119.

Leprosy control: National leprosy control programme was started in 1955 in the State to control the spread of leprosy. The entire state is declared as endemic. Leprosy control units, S.E.T. centres, Urban Leprosy Centres, temporary hospitalisation wards and training centres have been established under this programme.

Medak leprosy control unit covers 448,000 people. It has 15 sub-units and 15 survey, education and treatment centres.

Family Welfare programme: The Family Welfare services are being provided in the State through 1,917 rural and urban family centres. The local bodies, voluntary organisations and private medical practitioners also have their clinics. The new technique of laparoscopic tubectomy operations were introduced in 1981-82. During 1980-81 the State achieved 243,579 sterilisations, ICUDs 17,589 and during 1981-82 (upto Sept., 1981) 110,837 sterilisations and 6,390-ICUDs.

COMMUNICATIONS

Vehicular position in 1981-82: buses: 10,156; goods vehicles: 36,605; cars and jeeps: 41,224; motor cycles and scooters: 1,70,040; autorickshaws: 8,601; tractors: 5,648.

Roads: National highways (1981-82): 2,357 kms; State Highways: 8,387 kms.; major district roads: 18,072 kms.; Z.P. and samithi roads: 74,930 kms.

GENERAL

Mines & Minerals: The name of mineral, estimated reserve (million tonnes) and location districts are as follows:

Coal: 3,908; Khammam, Adilabad, Karimnagar, Warangal and West Godavari. *Limestone:* 2,018; Adilabad, Hyderabad, Mahabubnagar, Kurnool, Cuddapah, Guntur, Nalgonda and Krishna. *Iron ore:* 390; Anantapur, Karimnagar, Adilabad, Chittoor, Khammam, Prakasam, Krishna, Kurnool and Cuddapah. *Bauxite:* 30; Visakhapatnam. *Lead: 6;* Guntur. *Copper:* 7; Guntur and Khammam. *Clay: 2;* East Godavari and Cuddapah. *Manganese:* 1.81; Srikakulam, Prakasam and Adilabad. *Barytes: 6;* Cuddapah, Anantapur and Kurnool.

Press (Dailies 1982): Principal dailies are as noted below:

English: Deccan Chronicle-Hyderabad: Indian Express-Hyderabad, Vijayawada; Hindu-Hyderabad; *Telugu:* Andhra Prabha-Hyd. & Vijayawada; Andhra Patrika-Hyd. & Vijayawada; Andhra Jyothi-Vijayawada; Visalandhra-Vijayawada; Andhra Bhoomi-Hyderabad; Eenadu-Hyderabad, Vijayawada, Visakhapatnam and Triupathi *Urdu:* Siasat-Hyderabad; Rahnuma-e-Deccan-Hyderabad; Milap-Hyderabad; *Hindi:* Milap-Hyderabad.

Annual Plan outlay (1983-84): Rs. 8,260 million.

Rivers: The Godavari, the Krishna, the Pennar, the Nagavali and the Vamsadhara, the Langulya, the Musi, the Tungabhadra, the Chitravati and the Papagni.

ARUNACHAL PRADESH

(Union Territory)

Arunachal Pradesh, the "Land of Sunrise", was formerly called the North-East Frontier Agency (NEFA). It is a vital boundary State situated as it is in the north-east of India, bordered by Bhutan on the west, Tibet and China on the north, Burma on the east and Assam on the south. It was declared a Union Territory on January 20, 1972 comprising of nine districts and is administered by a Lt. Governor.

CAPITAL: Itanagar (since April 20, 1974)—a newly built township was inaugurated by former Pres. V.V. Giri: **Area of Territory:** 83,578 sq. kms. **Population** (1981 census): 631,839: **Sex Ratio:** 870 females per 1,000 males; **Density:** 7 per sq. km: **Literacy:** 20.09 per cent.

Districts	Headquarters	Population (1981 Census)
West Kameng	Bomdila	63,302
East Kameng	Seppa	42,736
Upper Subansiri	Daporijo	39,410
Lower Subansiri	Ziro	112,650
West Siang	Along	74,164
East Siang	Pasighat	70,451
Lohit	Tezu	69,498
Dibang Valley	Anini	30,978
Tirap	Khonsa	128,650

Towns and Population (1981 Census): Pasighat: 9,139; Along: 8,074; Tezu: 6,239; Bomdila: 3,860.

No. of Villages: 2,973.

Boundaries: The territory is bound by Bhutan in the west, Tibet in the north-west, China in the north and north-east, Assam in the east and south, Burma in the east and south-east and Nagaland in the south-west.

Languages: Tribal dialects.

AGRICULTURE

Nearly 46 per cent of the population of Arunachal Pradesh is engaged in agriculture. Irrigated area forms 17 per cent of the total cultivated area of about 14,000 hectares. The traditional method of agriculture is "jumming", a kind of shifting cultivation. The forests are cleared and crops are raised for one to three years, depending on the fertility of the soil. Thereafter the cultivators move on elsewhere. However, sedentary cultivation is followed in the valleys and terraces, the methods being called Wet Rice Cultivation and Terrace

Rice Cultivation respectively. The main crops are rice, maize, millets, wheat and mustard. Forests cover 61,000 sq. km. of the area.

Forests: Area under forests is estimated at 60,000 sq. kms. while 45,116 sq. kms. had been brought under reserved forest.

Wild life: The Territory has rich fauna and flora. There are wild elephants, bisons, buffaloes, tigers, leopards and various kinds of deer, bears, pigs, snakes, and wild goats. Peculiar to the Territory are the following—musk deer, panda, clouded leopard and mountain goat.

INDUSTRIES

There are no major industries in the Territory. Three medium and 34 small scale industries are functioning under private co-operative sectors. A cement factory is coming up at Tezu. Industrial Estates have since been established with small scale industrial units. Training and incentives are offered by the Government to interested entrepreneurs.

Oil has been struck in some parts and a small refinery is proposed to be established soon at Kharsang in Tirap district.

Sericulture: Schemes have been formulated to expand *Eri* and mulberry silk rearing and introduction of *muga* silk (For details see Chapter on Silk Industry).

Training & Production Centres: There are 21 training and 24 production centres which impart training in weaving, carpentry, blacksmithy, silversmithy, wood-carving, bell-metal work, carpet weaving, cane and bamboo work, tailoring, knitting, painting etc., besides producing articles on a mass scale. An Industrial Training Institute at Roing gives training in technical trades.

EDUCATION

The Territory is showing good progress in education and between 1975 and 1981 the number of primary schools increased from 184 to 875. There are now 2 degree colleges, 120 middle schools, 34 secondary schools, 13 higher secondary schools, 1 central school with above 80,000 on the rolls.

PUBLIC HEALTH

During the last decade development activities under the Health Programme made rapid strides and over the years the number of hospitals increased from 95 to 120. The bed strength today is 1,270 comprising 816 general beds, 122 T.B. beds and 272 leprosy beds. In 1975 there were 217 doctors, 131 nurses and 148 pharmacists.

GENERAL

The North-Eastern Areas (Reorganisation) Act of 1971 passed by the Parliament on December 21, 1971 changed the status and name of **NEFA.** It became Arunachal Pradesh with the status of a Union Territory. It was formally inaugurated on January 20, 1972.

The election commission has determined that the Union Territory would have 30 legislative constituencies and two parliamentary constituencies.

Communications: Roads 36,780.41 kms. (both surfaced and unsurfaced), porter tracks, bridle paths etc. 5,000 kms. Work on the first railway line (12 kms.) from Balipara to Bhalukpung is in progress.

Rivers: The Brahmaputra (locally known as the Saing in hill sector and the Dibang when it reaches the plains), the Lohit and the Subansiri.

Rainfall: The monsoon sets in from May-June and continues till the end of September. The average annual rainfall at Bomdila is 1,019 mms., Pasighat—5,792 mms., Tezu—4,071 mms. and Changlang—1,988 mms. The snow line starts from about 3,962 metres altitude and the whole of the northern region along the international boundary is under snow during the winter months.

Annual Plan: Approved outlay for the year 1982-83 is Rs. 440 million.

Tribes: About 50 distinct languages and dialects are spoken. Each tribe is divided into a number of exogenous clans. As a general rule, the tribes do not intermarry. A broad list of the main tribes districtwise is given below:

West Kameng: Monpa, Sherdukpen, Aka, Khowa, Miji; *East Kameng:* Bangni, Sulung; *Lower Subansiri:* Nishi, Apatani, Sulung; *Upper Subansiri:* Tagin, Hill Miri, Adi; *West Siang:* Adi (sub-tribes being Galong, Minyong, Bori, Bokar, Ramo, Pailibo): *East Siang:* Adi (sub-tribes being Padam, Minyong, Pasi, Panggi, Milang, Simong, Komkar, Karko), Idu Mishmi; *Dibang Valley:* Idu Mishmi, Adi; *Lohit:* Miju Mishmi, Digaru Mishmi, Khampti, Singphow; *Tirap:* Nocte, Wancho, Tangsa, Signphow.

ASSAM

Assam, whose ancient name was Kamarupa, comprised in its earlier history the areas which now form parts of Bengal and Bangladesh. With the treaty of Yandabo in 1826, the Burmese quit Assam leaving the British in control of the territory. It became a British Protectorate in 1826 and in 1835 the Jaintia Hills came under the jurisdiction of the East Indian Company. In 1874 Assam was detached from Bengal and made a separate Chief Commissionership. In 1905 on the partition of Bengal, Assam was united to the eastern districts of Bengal, and in 1921 a governorship was created. The history of Gauhati can be traced back to Puranic times.

CAPITAL: Dispur. **Population of the Capital:** N.A.

Area of the State: 78,523 sq. kms.; **Population** (1981 census): 19,902,826; **Density:** 254 per sq. km.; **Sex Ratio:** 900 females per 1,000 males; **Literacy** (1971 census): 28.1 per cent (males 36.7 per cent; females 18.91 per cent).

Districts: There are at present sixteen districts in the State. Six new districts have been formed on July 1, 1983.

Major City: (Over 100,000 population—1971 census): Gauhati: 146,026. Other cities with their population: Dibrugarh: 80,348; Jorhat: 70,674; Tinsukia: 54,911; Silchar: 52,596; Nowgong: 56,537 and Tezpur: 39,870.

No. of Villages: Inhabited: 21,995: uninhabited: 1,106.

State Boundaries: The State is bound by Bhutan and Himalayan ranges in the north, Arunachal Pradesh in the north-east, Nagaland, Manipur and Burma in the east, Bangla Desh, Tripura and Meghalaya in the south and south-west and West Bengal in the west.

AGRICULTURE

The area under the food crops covers 72 per cent of the total cultivated area. The main cash crops are wheat, rice, jute, tea, cotton, oil seeds, sugarcane, potato and fruits.

At the beginning of Sixth Five-Year Plan the agricultural productivity was only 890 kg. per hectare. The current level of productivity is estimated at above 1,100 kg. per hectare.

During 1981-82, 0.12 million hectares have been brought under wheat cultivation as against 0.10 million hectares during 1980-81.

Land Ceiling: 50 bighas (7.5 hectares) per family. Bill on land ceiling was passed in Assam Leg. Assembly in 1975.

Forestry: The total area under Reserved Forest in Assam is 17,000 square kms. which is 21 per cent of the total geographical area of the State. The total Sixth Plan outlay for the Forest Sector is Rs. 252 million including Hill areas.

It is proposed to raise about 62,500 hectares of plantation during the Sixth Plan and to distribute 35 million seedlings.

Fisheries: The main sources of fish production are the rivers and their tributaries.

The production of fish in Assam is only about 300/400 kgs. per hectare in nature. Production has been substantially increased to 1500 kgs. per hectare by adopting Scientific methods.

IRRIGATION & POWER

Irrigation: The gross irrigation potential in Assam is estimated at about 2.7 million hectares out of which it is planned to irrigate 1.0 million hectares through major and medium irrigation schemes and 1.7 million hectares through minor irrigation including ground water schemes.

Upto the end of 1980-81 seven medium schemes have been completed in the State of which two schemes fall within the Hills Districts. These seven schemes have contributed a total potential of 0.12 million hectares created in the State during the same period at a total investment of around Rs. 1,360 million.

A Minor Irrigation Corporation has been set up recently to accelerate the lending programme to farmers for installation of tubewells.

Power: In the Power Sector, several new projects have been taken up in the Sixth Plan in order to raise the installed capacity to about 600 MW by the end of 1984-85. The Bongaigaon Thermal Project has been commissioned and the Lakhwa Thermal Project is likely to be commissioned soon.

Rural Electrification: Of the 22,000 villages in the State, only 7,000 villages were electrified by the end of 1982-83. During Sixth Plan (1980-85) the target has been fixed to electrify six thousand villages with an outlay of Rs. 578.6 million. During 1980-81, 1,400 villages were electrified.

INDUSTRIES

The tea industry plays a vital role in the economy of Assam. Tea cultivation in the State covers an area of more than 8 per cent. of the total net area sown. Most of the tea gardens are in the districts of Dibrugarh, Lakhimpur, Sibsagar, Darrang and Cachar. The Assam Tea Corporation Ltd. has under its control about 14 gardens covering an area of 6,902.51 hectares.

Petroleum and petroleum products are the other main industries. Assam produces about 50 per cent of the country's total petroleum output. The State has two oil refineries and the third, with a petro-chemical complex is under way. There is also a Public Sector fertilizer factory at Namrup.

Other Industries are sugar, jute, silk, paper, plywood manufacture, rice and oil milling. Important cottage industries are handloom, sericulture, manufacture of cane and bamboo articles, carpentry, smithy and manufacture of brass utensils. The pace of industrialisation in the State has been boosted up significantly with the setting up of five District Industries Centres (DIC). An export oriented handloom project has been started at Sualkuchi to exploit the export potentialities of Eri and Muga.

Industrial Development Agencies: Assam Industrial Development Corporation, Gauhati; Small Industries Service Institute (Government of India), Gauhati; Credit Guarantee Association, Gauhati; Assam Agro-industries Development Corporation, Gauhati; The Assam State Warehousing Corporation, Shillong.

EDUCATION

According to 1981 census, the literacy was 36.7 per cent—male 18.91 per cent, female 28.1 per cent.

In 1978-79 the State had 21,615 primary and junior basic schools, 3,656 middle and senior schools, 1,699 high and higher secondary schools, 137 general education colleges, 3 universities, 3 medical colleges, 3 engineering colleges, 1 agricultural college, 1 veterinary college, 1 ayurvedic college and 7 polytechnics.

The Govt. of Assam has declared education free in the State upto Class X standard since April, 1978. Introduction of the Science courses in schools and expansion of Teachers Training Facilities have been introduced.

Universities: Assam Agricultural University, Jorhat 785004; Gauhati University, Jalukbari, Gauhati 781014; Dibrugarh University, Dibrugarh.

PUBLIC HEALTH

During the year 1979-80, existing activities continued to function both in the rural and urban areas. The significant activities were: 146 Primary Health Centres, five 30-bed rural Hospitals, 432 Subsidiary Health Centres, 778 Sub-Centres and 6 Ayurvedic subsidised dispensaries in rural areas and hospitals in District and Subdivisional headquarters.

During 1980-81, besides continuation of activities mentioned in the earlier year it was proposed to establish one Primary Health Centre, one 30 bedded rural hospital and 150 Sub-Centres in rural areas. Construction of building for the 200 bedded hospitals at Dhubri and 100 bedded hospitals at Dhemaji and Haflong will be continued.

There are 10 T.B. Centres one each at District Headquarters. Besides there are 7 chest clinics and 2 T.B. hospitals in the State. The total number of T.B. beds are 554 in Government Hospitals and Dispensaries.

In order to give an impetus to the Family Planning Programme it has been proposed to increase the number of Family Welfare Planning Sub-Centres to 855 by 1984-85 in rural areas, and 25 in urban areas.

COMMUNICATIONS

Roads: Please see chapter on 'Roads'.

Inland Waterways: The length of internal waterways is more than 9,600 kms. of which 1,600 kms. is navigable by steamers and large country boats.

Airports: The important airports are Borjhar (Gauhati), Mohanbari (Dibrugarh), Salani (Tezpur), Rouriah (Jorhat), Lilabari (Lakhimpur) and Kumbirgram (Silchar).

GENERAL

Minerals: Assam is rich in mineral wealth like coal, limestone, refractory clay, dolomite and natural gas. Assam produces about 50 per cent of the country's total petroleum output and natural gas.

Assam contains important oil fields and produces 50 per cent of India's crude oil.

Rainfall: The normal rainfall in the plains is 2,380 mms. and that of the hills is 2,550 mms.

Rivers: The Brahmaputra and her tributaries: the Subansiri, the Bhareli, the Dhansiri, and the Manas.

Housing: The State Govt. has spent Rs. 800,000 on housing schemes for 1977-78.

The Sixth Plan: Outlay for the State is Rs. 11,150 million which will be distributed as follows: (Rs. million): Agriculture: 2,583; irrigation, flood control and power: 4,552; industry and mining: 4,747.5; transport and communication: 1,045; social and community services: 2,080; economic services: 90.

Annual Plan: (1982-83): An outlay of Rs. 2,380 million has been earmarked for the Annual Plan.

High Court: The Gauhati High Court serves Meghalaya, Assam, Manipur, Nagaland and Tripura.

Science Museum: The Assam Science Society is planning to set up a Science and Technology museum in Gauhati. Another project the society has taken up is the Institute of Advanced Study in Science and Technology.

BIHAR

Bihar, was known in ancient times as Magadha and was the home of the Mauryan emperors. The name "Bihar" is derived from "Vihara" which stands for a Buddhist monastery. It achieved world renown under the wise leadership of Asoka the Great and its famous capital, Pataliputra, came to be known the world over. Bihar is hemmed in between West Bengal, Orissa, M.P., U.P. and Nepal. The British wrested the territory from the Nawab of Bengal by the decisive battle at Buxar in Bihar (1764). In 1911 Bihar was separated from the Presidency of Bengal and in 1936, Bihar became a separate province. The two ethnic areas of Bihar and Chota Nagpur constitute the new State of Bihar.

CAPITAL: Patna. **Area:** 71.69 sq. kms. **Population** (1981 census): 773,720.

Area of the State: 173,876 sq. kms. **Population of the State** (1981 census): 69,823,154. **Density:** 402 per sq. km. **Sex Ratio:** 947 females per 1,000 males. **Literacy:** 26.01 per cent.

No. of Districts: 33; **No. of Sub-divisions:** 76; **No. of Towns:** 220; **No. of Development Blocks:** 587; **No. of Villages:** 77,967; **Police Stations:** 611; **Panchayats:** 10,852.

Ranchi	..	48.61	487,485

State Boundaries: The State is bound by Mirzapur, Ghazipur, Ballia and Deoria districts of Uttar Pradesh in the north-west; Nepal in the north; Jalpaiguri, Malda, Birbhum and Purulia districts of West Bengal in the east; Mayurbhanj and Sundargarh districts of Orissa in the south and Surguja district of Madhya Pradesh in the south-west.

State Language: Hindi. Other prominent languages spoken in the State are Urdu and Bengali. The prominent dialects of the State are Bhojpuri, Maithili, Magadhi and Santhali.

AGRICULTURE

The main crops of the State are rice, wheat, barley, maize, jute, potato and sugarcane. Rice and wheat occupy an area of 8.40 million hectares out of the total net sown area of 11.28 million hectares in 1979.

(See chapter on 'Food & Agriculture' for details.)

Ceiling on Land: A ceiling of 6.0705 hectares to 18.211 hectares for a family of five and an additional allowance of one tenth to each additional member subject to a maximum of one and a half of the ceiling limit to each additional member. The Bihar Government acquired 96,315 hectares of surplus land and distributed over 57,060 hectares among 0.16 million families till March 1982. This includes 85,088 families of the scheduled castes and 16,816 families of the scheduled tribes.

Livestock (1977 census): Cattle: 31,757,460; buffaloes: 4,463,251; sheep: 1,149,724; goats: 9,924,840; horses and ponies: 110,788; donkeys: 30,717; mules: 483; camels: 312; pigs: 1,917,716; poultry: 14,075,955.

Fisheries: (See chapter on "Fisheries").

IRRIGATION & POWER PROJECTS

Major power projects are the Patratu thermal power station, Barauni thermal power station and Subernarekha hydro-electric power station under Bihar State Electricity Board and Bokaro and Chandrapura thermal power stations and Tilaiya, Maithon and Panchet hydel power stations under the Damodar Valley Corporation.

As per the cabinet decision (April 14, 1981) the State Govt. is going to set up a Hydel Corporation for the proper management of all the hydel projects in the State. The projects are: Sankh (65 MW), Karhar (120 MW), Gandak (45 MW), South Karo (42

MW), Karkatgarh (25 MW), Sone (16 MW) and North Karo (25 MW).

The State Govt. proposes to set up 6,000 *gobar* gas plants during 1981-82.

Electricity (1981-82): Installed capacity: 939.68 MW; electricity generated: 2,582.77 million units; no. of villages electrified: 21,268; no. of pumpsets energised: 159,732.

The revenue collected by the Electricity Board during 1981-82 was Rs. 1,621.5 million as against Rs. 963.9 million in 1980-81.

Irrigation: During 1981-82 additional irrigation potential of 0.1 million hectares has been created against the target of 0.105 million hectares.

Under Minor Irrigation Programme irrigation potential of 0.167 million hectares has been created.

INDUSTRIES

Steel plants 3, Cement plants 7, Oil refinery 1, Copper smelter 1, carbonisation plant 1. paper factories 2, uranium and copper complex 1, pottery 1, glass works 5, ceramic works 4, asbestos plant 1, coal washeries 11, locomotive factory 1, tobacco factory 1, jute mills 3, sugar mills 29, cold storages 144, fertiliser plants 2, modern bakery 1, explosive plant 1, electric equipment 1, agro-industry (tractor) 1, scooter factories 2, refractories 45, gun factory 1 and gun manufacturing units in the private sector 36.

As a result of the liberalised investment policy 12,383 small scale and village industries were registered during 1981-82. Under the Integrated Rural Development Programme, 8,994 entrepreneurs received loans totalling Rs. 0.111 million.

INDUSTRIAL DEVELOPMENT AGENCIES: (See chapter on State Govt. Undertakings.)

LABOUR

Employment in factories (1979): No. of registered factories: 34,188; no. of working factories: 27,380; no. of workers employed daily: men: 354,521; women: 8,526; adolescents: 533, children: 91.

Employment in Government: Central Government establishments: 580,340; quasi-government establishments: 493,000; local bodies: 172,000.

Employment Exchanges (1979): 44; registration: 80,099; no. of applicants on live register of employment exchanges: 1,500,000..

EDUCATION (1980-81)

The State Government provides free education for all children up to matriculation level. There are 50,980 primary schools with 6,697,182 pupils and 111,172 teachers. The number of pupils in the middle schools, in the age group of 11-14 is 1,329,157 and teachers 83,499. The number of high schools is 3,228, attending pupils 474,686 and teachers 86,415.

There are about 1,200 specialised schools and 49 engineering institutions having 14,222 students and 1,518 teachers. The Adult Literacy Programme has been started in the State since 1978. About 200,000 adults (age group 15-35) have been made literate. At present (1983) 137 projects of adult literacy are functioning in the State.

Universities: Bhagalpur University, Bhagalpur; Bihar University, Muzaffarpur; Kameshwar Singh Sanskrit University, Darbhanga; Magadh University, Bodh Gaya; Patna University, Patna 800005; Ranchi University, Ranchi 834001; Mithila University, Darbhanga 864004; and Rajendra Agricultural University, Pusa 848125, Dist. Samastipur. There are 264 science and arts and 243 other colleges. The total number of teachers and scholars is 10,940 and 244,244 respectively.

(See chapter on "Education" for more particulars.)

PUBLIC HEALTH

Government institutions (1978-79): No. of hospitals: 150; dispensaries 816; no. of beds: 19,474; no. of doctors in Government service 2,088; no. of nurses 3,115; no. of auxiliary midwives 2,200; no. of lady health visitors 587; no. of sanitary inspectors 610; no. of pharmacists and compounders 710; no. of non-allopathic medical practitioners 54,384 (homoeopathic 28,090; *vaids* 23,668; *hakims* 2,626); no. of medical colleges 10 (govt. 8, private 2). Annual intake of the medical colleges 670.

There are three Employees State Insurance Corporation hospitals, and 30 dispensaries in the State.

There is a leprosarium at Brambay near Ranchi with a provision of 150 beds and a leprosy hospital at Tetumani in Dhanbad dist. Two leper asylums one at Gaya and the other at Deoghar with bed capacity of 150 and 100 respectively, and a subsidy centre at Monghyr with 30 beds are also functioning. Santal Pahariya Seva Mandal manages and controls one leprosy centre at Fatehpur in Santal Parganas district and 13 other clinics.

COMMUNICATIONS

Motor vehicles (1978-79): motor cycles and scooters: 68,787; auto-rickshaws and tempo: 3,312; jeeps and cars: 38,181; taxicabs: 3,419; buses: 7,997; trucks: 25,488; tractors: 12,794; trailers: 6,276; other vehicles: 1,492; total: 169,529.

Roads (surfaced): 21,593 kms.; (unsurfaced): 72,439 kms.

Per Capita Income: At current prices Rs. 718.

GENERAL

Minerals: Bihar has the largest mineral resources and mineral production in India. Almost the entire production of copper ore (98 per cent), kyanite (86 per cent) and apatite (90 per cent) in the country is from Chota Nagpur region. It accounts for 50 per cent of the bauxite, 34.5 per cent of fire-clay, 50 per cent of coal, 32.6 per cent of china clay (crude) and 16.0 per cent of iron in India.

There are 21 coalfields and the best metallurgical coal comes from Jharia coalfield with reserves of 3,017 million tonnes. All coalfields were nationalised by the Government of India in 1972.

A 153 metre thick coal seam, said to be the thickest coal seam in the world, has been discovered in Jhinguda Colliery of the Central Coal Fields Ltd.

The mica belt which has a large supply of high quality block mica is 145 kms. long and 25 kms. wide running from Nawadah in the west to Bhagalpur district in the east through Giridih, Hazaribagh and Monghyr districts.

The sole producer of copper is Singhbhum district. This belt extends for about 130 kms. from Duarpuram in the west to Bahragora in the east.

Bauxite and aluminium are located in Ranchi and Palamau districts. Apatite and kyanite are located in Singhbhum. Limestone deposits are found in Rohtas, Hazaribagh, Palamau, Ranchi and Singhbhum districts. Pyrite deposits are located in Anjhore in Rohtas district.

Chota Nagpur also contains rich deposits of atomic minerals such as chromite, manganese, asbestos, barytes, dolomite, feldspar, quartz, graphite, ochre, uranium, phosphorites, soap-stones etc.

Places of Interest: Remains of the Royal City of Pataliputra (Patna), the ancient International University of Nalanda (Nalanda), the Ashoka pillars at Vaishali, Areraj Lauriyanandangarh, the birth place of Lord Mahavira (Vaishali), the ancient temples at Bodhgaya (Lord Buddha temple), Deoghar (Lord Shiva), Parasnath and the Sikh Gurudwara in Patna city and the cyclopean walls of Rajgir.

Annual Plan: The outlay for the annual plan for 1982-83 is Rs. 6,600 million as against Rs. 5,600 million for 1981-82.

Important Rivers: The Ganga, the Gandak, the Kosi, the Kamla, the Sone, the Barakar, the Damodar, the Koel, the Baghmati and the Subarnarekha.

Wild Life: There are 85 tigers and over 200 bisons as also partridges, nakta, spotted bull, pin-headed ducks, swamp partridges, ortolans etc. in the State.

There are two national parks one in Hazaribagh and another in Palamau districts and 16 game sanctuaries.

CHANDIGARH

(Union Territory)

Chandigarh, named after the temple of Chandi, came into being following the partition of India in 1947 with the division of the Punjab. Lahore went to West Punjab and became part of Pakistan and India was left with East Punjab but without a capital. Jullundur served temporarily as the capital until the new modern capital of Chandigarh was designed and executed by Le Corbusier. But in 1964 the western part of East Punjab became the State of Haryana, while the eastern part formed the State of Punjab and the hilly regions came under the jurisdiction of Himachal Pradesh. The crucial crisis that confronted Chandigarh was tackled by making it a Union Territory.

AREA: 114.00 sq. kms. **Population:** 450,061 (1981). **Density:** 3,948 per sq. kms. **Sex Ratio:** 770 females per 1,000 males. **Literacy:** 64.68 per cent.

Area of Chandigarh City: 46.6 sq. kms.

Early in 1948 it was decided to build a new capital for the Punjab at a site about 388 kms. north of Delhi. This afforded an ideal opportunity to town planners and architects. A team of experts planned the city under the overall guidance and direction of Charles Edouard Jeannert, the French architect popularly known as 'le Corbusier' (meaning 'A man with a crow's eye').

The city was inaugurated as the capital of the Punjab by President Dr. Rajendra Prasad on October 7, 1953.

FORMATION

On November 1, 1966 the Punjab was divided into three units, Punjab, Haryana and Chandigarh. Punjab and Haryana are separate States, while Chandigarh remains a Union Territory. Following is the text of the official announcement of the Central Cabinet on June 9, 1966: "Chandigarh Capital Project, which does not form part of either of the two regions (Punjab and Haryana) shall be constituted into a Union Territory. The Central Government will also acquire powers to give directions to the Governments of the two States to regulate land use in the surrounding areas declared as 'controlled areas'. Chandigarh will continue to be the capital of both the States of Punjab and Haryana". On November 1, 1966 the Union Territory of Chandigarh came into being in accordance with the Constitution (18th Amendment) Act providing for the linguistic re-organisation of the Punjab.

Subsequent to this the Central Cabinet announced a decision on January 29, 1970 providing for the transfer of the capital project area of Chandigarh to the Punjab within the next five years. Pending the construction of a new capital by Haryana, Chandigarh will remain a Union Territory.

Administration: Union Territory of Chandigarh is administered by a Chief Commissioner who is vested with powers of the State Government in respect of laws in force in the Territory and with financial powers analogous to those exercised by the other administrators of Union Territories. It has one member in the Lok Sabha.

EDUCATION

Chandigarh has 9 Degree colleges, 1 engineering college, 1 architect college, 2 polytechnics, 45 high/higher secondary schools, 26 middle, 41 primary and 37 nursery schools. 54 pre-nursery sections are being added to various schools to accommodate all the children in the age group of 4-5 years.

Education is free upto 10th Class in the rural areas. In order to help the weaker sections, free textbooks, stationery, uniforms and scholarships to all the scheduled caste children studying from Class 1 to 8 are being provided.

INDUSTRIES

There has been a phenomenal growth in small-scale industrial units in the Union Territory. At present there are 1,534 small-scale industrial units. Besides this there are 14 large and medium scale units out of which two are in public sector. The annual production of industrial goods in Chandigarh is estimated to be Rs. 670 million and it provides employment to 18,000 workers.

HEALTH

There is one General Hospital having 370 beds, one 10-bed hospital at Manimajra, 25 allopathic dispensaries, 3 ayurvedic dispensaries, 2 homoeopathic dispensaries and two mobile units for rural areas and labour colonies. The number of beds in General Hospital is being raised to 500 beds and Manimajra hospital to 38 beds. During the 6th Five Year Plan it is proposed to add 500-bed hospital in the Northern sector and 5 new allopathic dispensaries including one in rural area.

TRANSPORT

Chandigarh Transport Undertaking operates fleet of 227 vehicles. 20 buses are to be added during the current financial year and 20 more during the next year.

RURAL DEVELOPMENT

All the 22 villages have been linked by metalled roads. Most of the village streets have been paved. Street lights are provided in all villages.

GENERAL

Annual Plan (1983-84): The Annual Plan 1983-84 has been fixed at Rs. 280.087 million.

Tourism Facilities: In order to provide more diversions to tourists the Sukhna Lake is being developed with the provision of camping sites, cafeteria, swimming pools, beer bar and other such attractions. Other places of sight-seeing interest are Rose Garden, museum, Rock Garden, National Gallery, Green Parks, Leisure Valley, etc.

Accommodation is at present available in the Union Territory State Guest House and Chandigarh Mount View Hotel.

DADRA AND NAGAR HAVELI

(Union Territory)

Dadra and Nagar Haveli are two small former Portuguese pockets near the west coast, which are surrounded by Gujarat and Maharashtra. They consist of 72 villages, largely inhabited by tribals, and were originally given to the Portuguese by the Marathas in 1779. The territory was liberated in 1954 and on August 11, 1961, the territory merged into the Indian Union.

HEAD QUARTERS: Silvassa. **Area of Territory:** 491 sq. kms. **Population of the Territory** (1981 census): 103,677 (52,514 males and 51,163 females). **Sex Ratio:** 974 females per 1,000 males. **Density:** 211 persons per sq. km. **Literacy:** 26.60 per cent. **District:** Dadra and Nagar Haveli. **Major city:** None. **No. of villages:** 72.

Boundaries: Dadra and Nagar Haveli is near the west coast surrounded by the States of Gujarat and Maharashtra. It consists of two pockets namely Dadra and Nagar Haveli and these two pockets are intercepted by the territory of Gujarat.

The Portuguese ruled this territory till its liberation in 1954. The integration of Dadra and Nagar Haveli with the Indian Union was effected on 11-8-1961.

State Language: As per 1971 Population Census, 83 per cent of the population speak Bhilli/Bhilodi language. 12 per cent speak Gujarati, 2.29 per cent speak Marathi, and 1.58 per cent speak Hindi.

AGRICULTURE

Agriculture is the principal occupation of the Adivasis who represent about 89 per cent of the total population. Paddy, ragi, pulses and fruit crops are major crops while wheat; vegetables, sugarcane are also cultivated. About 22,700 hectares of land are under cultivation. The Dept. of Agriculture had taken several schemes to explore the production potential of this area. Area under high yielding varieties had increased from 39 per cent to 48 per cent. A number of new commercial crop varieties were introduced. 96 per cent of the area is under dry land farming. Hence, dry farming technology is used to get top yield by tapping rain water.

SOIL CONSERVATION

The main work of soil conservation is bench terracing. Under the scheme, 50 per cent subsidy is given to the SC/ST farmers on the cost of soil conservation work. In case of landless agricultural SC/ST labourers for whom land is allotted by the Administration and is developed through the Soil Conservation Department the rate of subsidy is 75 per cent. Small and marginal farmers (other than SC/ST) are given a subsidy 25 per cent and 33⅓ per cent respectively on the cost of soil conservation work. The department has taken up the treatment of catchment area of Damanganga Project from December, 1979.

FORESTS

The Forest area constitutes about 41.32 per cent of the total geographical area of the Territory and contains valuable tree species like Teak, Khair, Shisham, Sadad, etc.

The Forest Dept. has taken up several schemes such as Economic Plantation, Social Forestry, Rehabilitation of Degraded Forests, etc. to generate employment and upliftment of adivasis. During 1982-83, 85 kms. of roadside plantation and 646 hectares of Teak and Khair plantations were raised under different plan schemes. About 0.75 million saplings were distributed to public under Farm Forestry programme free of cost. In all 2.7 million trees were planted. Survival rate is as high as 90 per cent, 0.41 million mandays employment were generated under forestry sector of the Union Territory.

ANIMAL HUSBANDRY, POULTRY AND DAIRYING

There is one Veterinary Hospital at Silvassa and eight Veterinary Aid-Centres which are functioning in this territory. Free treatment is given to the livestock of the territory by these centres. In addition to treatment, castration of scrub bulls. mass vaccination against various contagious diseases are being done regularly. One A.I. Centre is also functioning in this Territory. There is one Govt. Dairy Demonstration Farm with 34 buffaloes, one bull rearing farm and one piggery demonstration farm at Silvassa. In addition to these, there is a feed compounding unit for preparation of balanced cattle, poultry and pig feeds and one fodder demonstration farm is also functioning under this department.

There is one Govt. Poultry Demonstration farm at Silvassa where day old chicks of recognised breeds are reared for 3 to 4 months. 27 biogas plants have been set up during the year 1982-83. One mobile dispensary was started during the year 1982-83 for treatment at the doorstep of the farmer. The department had arranged for two surgical camps, one at Silvassa and another at Khanvel. 54 buffaloes, 5 pairs of piglets and 18 cows have been distributed under I.R.D. Programme.

MEDICAL & PUBLIC HEALTH

There is one district level hospital having 40 beds, ten more beds are being added to this hospital, the construction of which is being completed shortly. There are two Primary Health Centres, seven dispensaries and ten sub-centres. There is also one mobile dispensary which tours regularly in the interior villages to render medical treatment. The entire territory is covered under Multipurpose Health Workers Scheme and Health Guide Scheme. All the National Health Programmes like family welfare, NMEP etc. are being implemented in the Territory.

IRRIGATION

There is no major or medium irrigation scheme. However, the Union Territory is participating with the Govt. of Gujarat & Goa, Daman & Diu in Damanganga Reservoir Project. Minor irrigation activities include construction of 24 lift irrigation schemes, 15 check-dams, 3 tube-wells and 12 open wells. Total area under irrigation is 597 hectares.

POWER

There is no generation of electricity in this territory. The power is purchased from Gujarat Electricity Board through their Vapi Sub-station to Silvassa Sub-station on 66 KV line and on 11 KV line at Dadra. Out of 72 villages, 58 villages are electrified. The work of 7 villages are under progress.

There are 98 industrial. 94 commercial, 10 H.T., 237 agricultural consumers and 64 pumpsets and 3,589 lighting domestic connections.

The present Contract Demand of power with Gujarat Electricity Board is 2,600 KVA and is likely to increase upto 5,000 KVA by the end of 1982-83 due to the proposed industrial units to be established at Industrial Estate, Khadoli.

EDUCATION

There are 141 Govt. primary schools, 12 Govt.-aided and one unaided mission primary schools. The total strength of the primary schools is 15,804 (9,683 boys and 6,121 girls). The administration is also running 11 pre-primary schools where 427 children are enrolled.

There are 2 higher secondary schools, one each at Silvassa and Naroli. There are four high schools one each at Dadra, Khanvel, Rakholi and Randha with total strength of 1,615 students. There is no college imparting higher education. The administration provides free education upto higher secondary level and free mid-day meals are provided at pre-primary and primary schools. There are 8 public libraries. An Industrial Training Institute trains wiremen, welders, fitters and electricians.

COMMUNICATION

There is no state highway passing through this Territory. Nearest railway stations are Bhilad and Vapi on Western Railway, which are 15 to 17 kms. from Silvassa.

The length of surfaced roads at the end of March, 1981 was 183.53 kms. and unsurfaced village roads, 34 kms.

INDUSTRIES

There is no major industry. Two Industrial Estates, one at Silvassa on the co-operative basis and the other Govt. Industrial Estate at Masat have been established. A new Industrial Estate at Khadoli is coming up. There are 148 industrial units including 22 village industries. The total annual production exceeds Rs.400 million. The products manufactured include spectacle frames and parts, flooring tiles, buckets, bread & biscuits, wood cutting and furniture, katha and tenin, spun pipes, plastic moulded articles, chemicals, detergent, art silk fabrics, electrical fixtures, wrist watches, art silk products, wax candles, tin containers, chappals, rexine cloth, printing and processing of art silk and cotton fabrics, foam (Polyurethane) etc. These industries provide employment to 3,500 people.

DELHI

(Union Territory)

Delhi has ancient historic links dating back to the 11th century A.D., the founder being a Rajput chieftain who belonged to the Tomara clan. In 1857, after the mutiny of the Indian troops, the British annexed Delhi and in 1912 Delhi replaced Calcutta as the capital of British India. A new city—New Delhi—with imposing buildings came up in marked contrast with old Delhi. It became a Union Territory on November 1, 1956, with a metropolitan council consisting of 61 members, five of whom are nominated by the President of India. The Lt.-Governor is the Administrator. Three towns and 258 villages constitute the Union territory. It has seven members in the Lok Sabha and three members in the Rajya Sabha.

AREA: 1,485 sq. kms.; **Population** (1981 census): 6,196,414; Density: 4,178 per sq. km.; **Sex Ratio:** 810 females per 1,000 males; **Literacy:** 61.06 per cent.

Administration: The Lt. Governor is the Administrator.

Boundaries: Delhi is surrounded by Uttar Pradesh in the east, and by Haryana in the south, west and the north.

AGRICULTURE

The Delhi Landholders (Ceiling) Bill passed in August, 1960, fixed the ceiling on land holdings at 12.15 hectares for a family of five. Leases in future have been prohibited except by small owners holding less than 3.24 hectares and persons suffering from a disability. Future tenants will have a minimum term of five years.

The total cropped area (1980-81) was 87,599 hectares and the total crop production was 147,000 tonnes.

Livestock: In 1977, the territory had a livestock population of 285,731 and poultry population of 216,911.

Milk supply (1980): Delhi Milk Scheme distributed (daily average) 268 kilo-litres of milk through its 1,058 milk depots. Mother Dairy distributed (daily average) 390 kilo-litres through 293 milk depots.

INDUSTRIES (1980-81)

There were about 45,000 industrial units functioning in Delhi. These units produced goods worth Rs. 21,960 million.

The main industries of Delhi are electronics, electrical appliances and accessories, lathe machines and drilling machines, small tools, cycle and cycle parts, paints and varnishes, rubber goods, plastic goods, auto-parts and batteries, precision instruments, cotton mills, hand and powerloom weaving, imitation jewellery, copper and brass utensils, sports goods, pottery and hosiery.

LABOUR (1980)

No. of workers unions in Delhi was 1,058. There were 37 industrial disputes which involved 8,439 workers resulting in the loss of 59,737 mandays. Average daily employment in all working factories which numbered 3,258 was 152,000 (all figures are provisional). The number of employment exchanges in the Territory was 16 with a registration of 183,000 job seekers and out of the 77,000 vacancies notified, 66,000 applicants were placed.

The number of registration on the live-register of the Regional Employment Exchange at the end of 1980 was 307,000.

EDUCATION (1979-80)

The number of higher secondary institutions during the year was 678.

The number of educational institutions, primary, middle and higher secondary was 2,680 and the total enrolment was 1,224,106.

Number of arts and science colleges in Delhi stood at 62. There were 15 colleges of engineering and technology during the year.

Universities: *University of Delhi*, Old Viceregal Lodge, Delhi 110007—is a teaching and affiliating university. The medium of instruction is English.

Jawaharlal Nehru University, New Meharauli Rd., New Delhi 110057—has jurisdiction over the whole of India. It is a teaching and research university.

PUBLIC HEALTH (1980)

There are 63 hospitals, 110 clinics, 469 dispensaries and 8 primary health centres. The total bed strength is 14,128. Birth rate, death rate and infant mortality during 1980 were 27.2, 6.6 and 49.9 respectively (per thousand).

COMMUNICATIONS

During the year 1980-81 the number of vehicles plying on the roads of Delhi was: Motor cycles and scooters — 334,389; auto-rickshaws — 19,947; cars & jeeps — 117,213; taxis — 6,255; commercial vehicles (goods) — 35,741; buses — 7,912.

The Delhi Transport Corporation had 2,754 buses and had also 510 private buses under its operation as on March 1981, which carried 1,026.3 million passengers over 213.07 million kms. during the year.

PRESS: The major dailies in Delhi are as follows:

English: Hindustan Times; Hindustan Times Evening News; Indian Express; Morning Echo; National Herald (Lucknow & New Delhi); Patriot; Statesman (Calcutta & New Delhi); Times of India.

Hindi: Hindustan; Nav Bharat Times; Vir Arjun.

Urdu: Milap; Pratap.

ANNUAL PLAN

The Planning Commission has recommended an outlay of Rs. 2,500 million for the Annual Plan for 1983-84 for the Territory against the expenditure of Rs. 2,000 million in 1982-83.

Delhi Development Authority, Vikas Bhavan, Indraprastha Estate, New Delhi 110001—is responsible for planning and implementing the 20-year Delhi Master Plan. Over 8,723 hectares have been developed by the DDA for setting up new residential, industrial and commercial enclaves. Over 43,785 houses, flats had been constructed and allotted by August 1980. About 71 million people have been resettled in 27 well laid out colonies.

GOA, DAMAN AND DIU

(Union Territory)

Picturesque Goa, which has a distinct Latin flavour about it, has an unique culture, a blend of the east and the west. The Portuguese held sway since 1510, till it was liberated on December 19, 1961. Under the Constitution (Twelfth amendment) Act of 1962, Goa, Daman and Diu became Union territory. In January 1967, an opinion poll was held to ascertain whether Goa, Daman and Diu wanted to remain as Union territory or merge with neighbouring Maharashtra or Gujarat. Goa decisively voted to remain as Union territory.

CAPITAL: Panaji; **Urban Agglomeration Area:** 37.00 sq. kms.; **Population:** 77,226 (1981 census).

Area of Territory: 3,814 sq. kms.; **Population of Territory** (1981 census): 1,086,730; **Density:** 285 per sq. km.; **Sex ratio:** 981 females per 1,000 males; **Literacy:** 57 per cent.

Districts: Goa, Daman and Diu with Panaji as headquarters. *Goa:* Area: 3,701 sq. kms.; population: 1,007,749. *Daman:* Area: 72 sq. kms.; population: 48,560. *Diu:* Area: 40 sq. kms.; population: 30,421.

Important Towns with their population: Panaji urban agglomeration 77,226; Margao urban agglomeration 64,858; Mormugao 69,684; Mapusa 25,998. **Other Towns:** Ponda, Pernem, Chauri, Quepem, Bicholim, Sanguem, Valpoi, Daman and Diu. **No. of Villages:** 433 revenue villages or 424 census villages (excluding 9 uninhabited villages as per 1981 census). **Village Panchayats:** 194.

State Boundaries: Goa is bound in the north by the Terekhol river which separates it from Maharashtra, in the east and south by Karnataka and in the west by the Arabian Sea.

Daman is bound in the north by the Bhagwan river, in the east by Gujarat State, in the south by the Kalam river and in the west by the Arabian Sea.

Diu, a tiny island in the Gulf of Cambay near Veraval Port, is separated from the southern extremity of the Saurashtra peninsula by a narrow channel running through a swamp.

Language: The predominant language of Goa district is Konkani and Daman & Diu is Gujarati.

AGRICULTURE

Net area sown in Goa, Daman & Diu is 128,429, 4,353 and 793 hectares respectively. The food crops commonly grown include paddy, nachini (ragi) and pulses. Vegetables of all types are grown as rainfed crops in Kharif and as irrigated crops in Rabi season. The main commercial fruit crops grown in Goa are coconut, cashewnut, betelnut (arecanut) and mango. The other common fruits available in this territory are pineapple, jackfruit, breadfruit, various types of citrus, papaya and bananas.

During the year 1981-82, area covered under high-yielding variety of paddy was 32,763 hectares and achievement in paddy production was 136,921 metric tonnes *(kharif)* and 42,378 tonnes *(rabi)*. The area under wheat, pulse and ragi during 1981-82 was 58,000 hectares, 7,000 hectares and 6,405 hectares respectively, and sugarcane occupied 1,296 hectares. The fertiliser consumption of NPK was 4,022 tonnes in 1981-82. Under Horticulture Development 88,017 coconut seedlings, 384,972 cashew seedlings, 9,279 mango grafts, 14,389 banana suckers and 14,173 pineapple suckers and 21,350 of other fruit stock plants were supplied. Under plant protection an area of 13,560 hectares was covered.

Fisheries: During 1981 the estimated marine fish landing amounted to 28,426 tonnes.

The Territory has a coastline of about 140 kms. (divided into 3 separate units; Goa 105 kms., Daman 22 kms. and Diu 13 kms.) and small fresh water ponds numbering about 126. The coast is full of creeks and estuaries which provide a good shelter for fishing crafts.

Forest: The total forest area of the territory is 130,895 hectares out of which State forest area constitutes 105,295 hectares. The revenue earnings from forest for 1981-82 was Rs. 7.096 million. The per capita forest area comes to 0.15 hectare.

IRRIGATION AND POWER

Irrigation: Irrigation projects and area (hectares) expected to be irrigated on completion are: Salaulu: 14,500 (Sanguem-Quepem-Salute) and Anjuna: 1,468 (Sattari). A number of other minor irrigation schemes are under implementation.

Electricity: Power for distribution in the Territory is obtained from Karnataka and Maharashtra to Goa and from Gujarat to Daman and Diu. The aggregate maximum power demand during 1981-82 was 87 MW and the total power purchased was 293.3 MW.

In all 17 towns and 382 villages have been electrified as on 31st March, 1982.

INDUSTRIES

There are 31 projects in large and medium scale sectors with a capital investment of approximately Rs. 1,440 million, providing employment to over 6,737 persons. All the large and medium scale industries are located in rural areas.

Industrial Estates: (Names of Govt. Estates)—1. Corlim Industrial Estate, Corlim, Ilhas-Goa; 2. Margao Industrial Estate, St. Jose de Areal, Margao-Goa; 3. Sancoale Industrial Estate, Sancoale, Marmugao; 4. Daman Industrial Estate, Daman; 5. Mapusa Industrial Estate, Mapusa; 6. Tivim Indl. Estate, Tivim, Bardez; 7. Bicholim Indl. Estate, Bicholim; 8. Honda Industrial Estate, Honda, Sattari; 9. Cacora Industrial Estate, Cacora.

Small-Scale Industries Sector includes industries such as capacitors, zip fasteners, fishing nets, wick stoves, paints, cutting tools, castings, carbon papers, stern gear and propellers, spectacle frames, drugs and pharmaceuticals, rubber tyres, plastic articles, cashew nuts, assembly of wrist watches, coconut shell powder, industrial furnaces etc.

Industrial Development Agencies: Directorate of Industries and Mines, Govt. of Goa, Daman & Diu, Udyog Bhavan, Panaji 403001; Small Industries Service Institute, Audhi Mapari Bldg., Margao 403601; Maharashtra Small Scale Industries Development Corpn., Margao 403601; Maharashtra State Financial Corpn., Panaji 403001 (with branches at Margao and Daman); Goa, Daman and Diu Industrial Development Corpn., Panaji 403001; and Economic Development Corpn. of Goa, Daman and Diu, Panaji 403001.

Labour (1981): No. of trade unions: 95; membership: 37,565; strikes 23; mandays lost: 278,785.

Exports: The export earning during 1979-80 was Rs. 49.6 million. Main export items are: pesticides, pellets from pelletisation plant, cotton yarn, sugar, rubber tyres, canned and frozen fish, canned fruits, processed cashew nuts, industrial furnaces, flooring tiles, wick-stoves, silk fibres, plastic goods, liquor etc

EDUCATION (1981-82)

Schools	No. of schools	No. of pupils	Boys	Girls
Primary	1,233	133,623	71,673	61,950
Middle	395	71,250	39,743	31,507

University	No. of students	Men	Women
Post Graduates Centre, Panaji	450	276	174

Education is free upto S.S.C. in all Government and aided schools.

An independent territorial Secondary School Certificate Board has been set up since August 15, 1975.

PUBLIC HEALTH (As on 1.1.1982)

No. of Hospitals: Private including nursing homes: 94; Government: 32; No. of beds: 2,387; Private: 62; No. of beds 991. No. of doctors: 979; No. of nurses: N.A.; No. of non-allopathic medical practitioners: 46 (provisional); No. of medical college: 1; amount spent on medicines (1980-81): Rs. 4.02 million.

COMMUNICATIONS (As on 31.3.1980)

The total number of motor vehicles registered in Goa, Daman and Diu is 44,584; Buses: 1,230; Goods vehicles: 7,988; Taxis: 999; Tractors: 227; Private cars and jeeps: 7,531; Motor cycles and scooters: 18,293; Auto rickshaws: 446; Govt. vehicles: 940.

Length of motorable roads: Goa 2,539.50 kms., Daman 81.64 kms., Diu 21.182 kms. The Zuari Bridge on N.H. 4 is thrown open for traffic. Work of Colvale Bridge is nearing completion. The total length of the national highways nos. 4A, 17 and 17A, which pass through this territory, is 223.95 kms. There is a direct train service between Vasco-da-Gama, Pune and Bombay with a change at Miraj. Goa is also connected with luxury and semi-luxury buses with neighbouring States. Coastal steamer services operate between Bombay and Panaji. Mormugao is one of the major harbours on the west coast of India. It permits ocean-going vessels of various sizes. Cargo ships mainly from Japan, America and Europe call at the port. Goa is criss-crossed by as many as half a dozen rivers and rivulets, and internal waterways are being developed fully for transport of men and goods.

Post and Telegraph Facilities: At present there are 219 post offices, 68 combined offices and two departmental telegraph offices. There are 27 telephone exchanges with equipped capacity of 7,220 lines. The number of public call offices is 70 and it has three telex exchanges. There are also 4 microwave stations.

Ferries: Over Mandovi: Panaji-Betim-Verem; Panaji-Britona; Panaji-Piedade-Naroa; Ribandar-Chorao; Old Goa-Piedade; Aldona-Coruem; Pomburpa-Chorao; and Sarmanas-Tonea.

Aldona-Corjuem; Pomburpa-Chorao; Sarmanas-Tonca; Calvim-Pantim; and Amona-Khandola.

Over Zuari: Dona Paula-Marmagoa and Marcaim-Cortalim.

Over Chapora: Siolim-Chopdem and Colvale-Macazana.

Over Daman Ganga: Motti Daman-Nani Daman.

HOUSING

The Goa, Daman and Diu Housing Board was constituted on March 20, 1969. During the Five-Year Plan Rs. 22.5 million has been earmarked for housing schemes entrusted to the housing board as follows: subsidised industrial housing Rs. 0.45 million; low income group Rs. 3.6 million; middle income group Rs. 6.3 million; land acquisition and development Rs. 11.5 million; slum clearance scheme Rs. 0.65 million.

Historic Dates: Occupation of Goa by Alfonso de Albuquerque: November 25, 1510; Occupation of Diu by Portuguese: 1535; Occupation of Daman by Portuguese: 1559; Establishment of Inquisition in Goa: 1560; Naval Treaty between Shivaji, founder of the Maratha Empire, and the Portuguese: December 11, 1667; Maratha war with Portuguese for conquest of Bassein: 1737-1739; Proclamation of the Portuguese Republic: October 5, 1910; Civil Disobedience Movement for Goa's Liberation: June 18, 1946; Liberation of Dadra: July 22, 1954; Liberation of Nagar Haveli: August 2, 1954; Judgement of the Hague Court regarding the case concerning the right of passage over Indian territory (Portugal vs India): April 12, 1960; Liberation of Goa, Daman & Diu and appointment of Military Governor: December 19, 1961; Installation of Civil administration: June 8, 1962; First democratic elections: December 9, 1963; Installation of the first popular Ministry: December 20, 1963.

GUJARAT

Gujarat, on the western seaboard of India, is the seventh biggest State in area and the tenth in population. To its north-west is Pakistan. It faces Rajasthan in the north, MP in the east and Maharashtra in the south and south-east. Gujarat was once part of the Great Mauryan and Gupta empires. Being formerly under Muslim and Hindu rulers it has evolved a synthesis of Hindu and Muslim cultures. Under the Bombay Reorganisation Act of 1960, Gujarat State was formed on May 1, 1960. It comprised the predominantly Gujarati-speaking areas in the north and west of Old Bombay State, the remaining areas being renamed Maharashtra State. The following districts of the former Bombay State constitute Gujarat State: Banaskantha, Mehsana, Sabarkantha, Ahmedabad, Kaira, Panchmahals, Vadodara, Bharuch, Surat, Dangs. Amreli, Surendranagar, Rajkot, Jamnagar, Junagadh, Bhavnagar, Kutch, Gandhinagar and Valsad.

CAPITAL: Gandhinagar; **Area:** 649 sq. kms.

Area of the State: 196,024 sq. kms.; **Population** (1981 census): 33,960,905; **Density:** 174 per sq. km.; **Sex Ratio:** 942 females per 1,000 males; **Literacy:** 43.75 per cent.

Kheda	Kheda	7,194	3,015,027
Valsad	Valsad	5,244	1,774,136

Major Cities: With population over 100,000 and area (municipal) in sq.kms. (1981 census): Ahmedabad (urban agglomeration): 2,515,000; 92.98; Surat: 776,583; 55.68; Vadodara: 734,473; 108.26; Rajkot: 445,076; 69; Bhavnagar: 307,121; 90.16; Jamnagar: 277,615; 25.90; Nadiad: 142,689; 28.49.

No. of Villages: 18,114; **Uninhabited:** 436; **No. of Talukas:** 184; **No. of Towns:** 255; **No. of Municipal Corpns.:** 4; **District Panchayats:** 19; **Taluk Panchayats:** 183; **Nagar Panchayats:** 92; **Gram Panchayats:** 859.

State Boundaries: The State is bound by Jalor, Sirohi, Udaipur, Dungarpur and Banswara districts of Rajasthan in the north and north-east; Jhabua district of Madhya Pradesh, Dhule and Nasik districts of Maharashtra in the south; and Arabian Sea and Pakistan in the north-west.

State Languages: Gujarati is the language of administration, law courts and university, and Hindi for communication with the Union Government.

AGRICULTURE

The main food crops in Gujarat are bajra, jowar, rice and wheat. Cotton, tobacco and groundnut are the major commercial crops. fifteen per cent. of the total cultivated area and seventeen per cent of the total sown area are irrigated.

During 1980-81 production of foodgrain was 4.48 million tonnes.

Forests: 19,535 sq. kms. (Provisional as on 31.3.1980). The forest area in the State is barely 10 per cent of which a large portion is barren and divided. The State Govt. had prepared an ambitious programme for the extension of forestry during the Fifth Plan. An amount of Rs. 90 million had been proposed in the Plan against Rs. 35.5 million in the Fourth Plan

Fisheries: Gujarat has a long coastline. The production of fish during 1979-80 was 223,000 tonnes. The total number of fishermen's co-operatives in the State was 168 during 1979-80. Fish production was expected to increase to 280,000 tonnes by the end of the Fifth Plan.

IRRIGATION AND POWER (1982-83)

Irrigation (1979-80): Total net area under irrigation: 1.93 million hectares. Out of this 0.38 million hectares were under canal irrigation, 0.23 million hectares were under tubewells, 1.32 million hectares under wells and the rest were under tanks and other sources. The major irrigation projects in the State are Ukai, Kadana, Kakrapara, Mahi right bank canal project stage-I, Shetrunji, Dantiwada, Hathmati, Meshwa and Bhadar. Besides there are two reservoirs one on the river Sabarmati at Dharoi and the Panam near Kel-dezar. Works on Damanganga, Karjan, Sukhi, Watrak are in progress.

Power: The total installed capacity, both hydel and thermal is 2,350 mw. In all, 11,879 villages have been electrified.

INDUSTRIES (as on December 31, 1981)

The major industries of the State are: Textile including ginning and pressing of cotton, general and electrical engineering, vegetable oils, chemicals (including salt), soda ash and cement.

Particulars regarding number of working factories and average number of workers employed therein daily respectively under each category are as follows:-

Textiles: 1,306; 252,901; food products: 1,111; 58,763; transport equipment and parts: 109; 9,123; basic metal and alloys industries: 633; 20,036; tobacco and tobacco products: 283; 10,813; metal products and parts except machinery and transport equipment: 999; 27,411; non-metallic mineral products: 1,157; 45,585; machinery and machine tools and parts except electrical machinery: 1,189; 45,112; chemical and chemical products: 1,191; 61,458.

Major Public Sector Undertakings: Indian Petro-Chemical Corporation; Oil & Natural Gas Commission; Hindustan Salts; Indian Oil Corporation and Modern Bakeries, Ahmedabad.

New Industrial Projects: The new projects envisaged include heavy water project by Atomic Energy Commission at Vadodara and telephones, machine tools, ordnance items, tractors and D.D.T.

Small-scale Industries: The number of small-scale industrial units registered with the Commissioner of Industries has increased from 32,192 at the end of 1977 to 54,758 at the end of 1982.

Industrial Estate: Gujarat Industrial Development Corporation had 132 industrial estates at the end of 1980-81.

Labour: Workers by industries: Total no. of workers: 10,984,042 (males: 9,160,398; females: 1,823,644); cultivators (males: 3,567,338; females: 547,406); agricultural labour (males: 1,611,491; females: 876,809); household industry, manufacturing, processing and repairs (males: 223,025; females: 45,255); other workers (males: 3,759,544; females: 354,174); marginal workers (males: 126,236; females: 1,592,194); non-workers (males: 8,266,006; females: 13,117,321).

Factories (1980): No. of factories 10,674; average daily no. of workers employed 635,784.

Employment Exchange: During 1980-81 about 21,000 persons were placed in employment as against the total registration of 248,000.

No. of industrial disputes (1980 provisional): 223; no. of workers involved 73,007; no. of man-days lost 1,064,380.

EDUCATION (1980-81 provisional)

Schools	Number	Pupils	Teachers
Primary	24,500	5,110,000	125,400
Secondary	3,050	986,000	35,600

Engineering Institutes	Number	Intake Capacity	Sanctioned Seats	Actual Admissions
Degree	7	1,963	2,028

COMMUNICATIONS (as on March 31, 1981)

Length of roads: 47,426 kms.; National highways: 1,424 kms.; State highways: 9,158 kms.; major district roads: 10,623 kms.; other district roads: 10,870 kms.; village roads: 15,342 kms.

Post & Telegraph (1980-81): No. of post offices: 8,415; Telegraph offices: 1,466.

Railways (1980-81): 5,617 kms.; broad-gauge: 1,156 kms.; metre-gauge: 3,326 kms.; narrow-gauge: 1,135 kms.

Motor Vehicles (March 31, 1981): Motor cycles: 213,749; motor cars: 47,252; taxi cabs: 1,819: auto-rickshaws: 22,488; stage carriages: 7,966; lorries: 40,051; trailers: 16,791; tractors: 24,394; others: 1,172.

PRESS (Leading dailies)

English: Times of India, Ahmedabad; Indian Express, Ahmedabad; Western Times, Ahmedabad.

Gujarati: Gujaratmitra and Gujaratdarpan, Surat; Janasatta, Ahmedabad; Loksatta, Vadodara; Phulchhab, Rajkot; Sandesh, Ahmedabad; Gujarat Samachar, Ahmedabad; Jai Hind, Rajkot; and Pratap, Surat.

GENERAL

Annual Plan: The outlay for 1983-84 Annual Plan is Rs. 9,000 million.

Rivers: The Banas, the Mahi, the Sabarmati, the Shetrunji, the Tapti, the Luni, the Narmada and the Saraswati.

Minerals: Gujarat is rich in minerals like salt, limestone, manganese, gypsum, china clay, calcite, bauxite, etc. Large deposits of bauxite of very good grade are located in Saurashtra and Kutch. The reserves of bauxite are about 17 million tonnes. The fluorite deposit located near Chhota-Udepur in Vadodara district is one of the largest in Asia and has reserves of 11.6 million tonnes. Limestone reserves run into several thousand million tonnes with the best quality located in Saurashtra and Kutch. The State also has deposits of lignite, china clay and other clays, glass and sand quartz, dolomite, agate, calcite etc.

HARYANA

Haryana State was created on November 1, 1966, following the Punjab Reorganisation Act of 1966 under which the Hindi-speaking sector of Punjab was separated from the composite Punjab. It comprises the districts of Hissar, Mohindergarh, Gurgaon, Rohtak and Karnal and parts of Sangrur and Ambala districts and part of Kharar tehsil.

CAPITAL: Chandigarh. **Area of State:** 44,212 sq. kms. **Population of State** (1981 census): 12,922,618. **Density:** 292 per sq. km. **SSex Ratio:** 877 females per 1,000 males. **Literacy:** 35.84 per cent.

Districts	Area (Sq. Kms.)	Population (1981 census)
Ambala	3,832.00	1,409,463
Bhiwani	5,099.00	920,052
Gurgaon	2,716.00	849,598
Hissar	6,315.00	1,496,534
Jind	3,306.00	938,074
Karnal	3,721.00	1,322,826
Kurukshetra	3,740.00	1,130,026
Mahendergarh*	3,010.00	959,400
Rohtak	3,841.00	1,341,953
Sirsa	4,276.00	707,068
Sonepat	2,206.00	846,765
Faridabad	2,150.00	1,000,859

(District headquarters have the same name.)

*The name of the headquarter is Narnaul.

Cities: With over 100,000 population (1981 census): Faridabad complex (area: 164.44 sq. kms.) 330,864; Rohtak (area: 22.03 sq. kms.) 166,767; Yamuna Nagar (includes Jagadhri city and Jagadhri Railway workshop colony) (area: 27.60 sq. kms.) 160,424; Panipat (area: 20.82 sq. kms.) 137,927; Hissar (area: 37.38 sq. kms) 137,369; Karnal (area: 22.10 sq. kms.) 132,107; Ambala City (area 16.94 sq. kms.) 104,565; Sonepat (area: 21.37 sq. kms.) 109,369; Ambala Cantt. (area: 37.51 sq. kms.) 121,203; Bhiwani (area: 29.74 sq. kms.) 101,277; Gurgaon (area: 24.13 sq. kms.) 100,877.

Number of Towns: 77, **Number of Villages:** 7,064 (Inhabited: 6,731).

State Boundaries: The State is bound by Punjab in the west, Himachal Pradesh in the north, Uttar Pradesh and Delhi in the east and Rajasthan in the south and west.

State Language: Hindi.

AGRICULTURE

Over 80 per cent of the people of Haryana are engaged in agriculture. Out of the total cultivable area of 3.88 million hectares, 60 per cent was irrigated during 1980-81. Production during 1981-82: Foodgrains: 6.057 million tonnes; sugarcane (gur): 0.58 million tonnes; cotton: 0.68 million bales; oilseeds: 0.15 million tonnes.

Forests (area in hectares): Reserved: 22,457; protected: 104,517; unclassified: 4,580; private: 38,105; total: 169,659.

The State Government maintains a bird sanctuary at Sultanpur, a mini zoo at Pinjore, and a deer park at Hissar.

The expenditure for the development of forests during 1980-81 was about Rs. 0.85 million.

Animal Husbandry: The State's livestock population according to 1977 census is 6.90 million, out of which 2.44 million are cattle, 2.94 million buffaloes, 0.54 million sheep, 0.58 million goats and 0.2 million pigs.

Haryana is known for its world famous Murrah buffalo and the Haryana cow. The Murrah buffalo leads all other breeds in milk yield and some of the Murrah baffaloes yield even more than 3,500 kg. of milk during lactation.

The State had only 125 veterinary hospitals and 98 veterinary dispensaries in 1966. At present there are 376 veterinary hospitals, 311 veterinary dispensaries, 63 artificial insemination centres/semen banks and 601 artificial insemination sub-centres/stockman centres and 7 mobile dispensaries.

Haryana is self-sufficient in the production of various animal vaccines at the Haryana Verterinary Vaccine Institute and it contributes a large quantity of these vaccines to the neighbouring States..

Cross and selective breeding programmes are undertaken for the development of livestock and to improve the milk yield of cattle. Now the known exotic Jersey and Holstein bulls are produced within the State at the Indo-Australian Cattle Breeding Farm, Hissar.

Haryana has five milk plants at Jind, Bhiwani, Ambala, Rohtak and Ballabgarh in the co-operative sector with a total capacity of 0.23 million litres of milk per day. One milk plant is under construction at Sirsa with a handling capacity of 0.1 million litres of milk per day.

Poultry: The State has 1.39 million poultry population. One Govt. poultry farm with 2 poultry hatcheries at Hissar and Bhiwani have been set up in the State. About 210 million eggs are annually being produced in the State.

Piggery: Population: 202,000. Two pig breeding farms (Hissar and Ambala) and 13 piggery development blocks are functioning.

Poor Beneficiary Programme: Under the poor beneficiary programme the small/marginal farmers and landless agricultural labourers have been provided assistance by way of loan and subsidy and the following units have been set up in the State. Cross breed calf rearing units: 18,112; Sheep units: 7,324; Poultry units: 4,203; Piggery units: 2,466.

IRRIGATION AND POWER

Irrigation: The gross irrigated area from all sources is 3.31 million hectares. Out of which irrigation from canals is 1.89 million hectares. The main irrigation schemes are: Western Yamuna Canal (excluding Delhi Area); Gurgaon Canal; Bhakra Canal System; Jui Lift Irrigation Scheme; Loharu Lift Irrigation Scheme; Sewani Lift Irrigation Scheme; ILN Canal; Naggal Lift Irrigation Scheme; Agra Canal.

The Agra Canal which is maintained by U.P. Irrigation authorities, provides irrigation facilities in parts of Faridabad and Gurgaon districts to an area of 61,165 (CCA) hectares.

The long-pending dispute of allocation of the Ravi-Beas waters to Haryana was settled amicably on 31st December, 1981. By this the State will get share of 3.50 MAF after the completion of the SYL Canal in Punjab Territory. A portion of the SYL canal has already been completed in Haryana State and is ready to receive and utilise this water as soon as it is made available.

In addition to the above the work for modernisation of channels and lining of water courses are in full swing in achieving optimum utilisation of Haryana's meagre water resources for increasing agricultural production.

Electricity:

Distribution	As on March 1967	As on March 1983
Installed generation capacity	343 M.W.	1213 M.W.
Per capita consumption of electricity (Units)	57	247
Village streets lighted	323	4,000
Electrified villages	1,251	6,731
Power-run tubewells	20,000	2,51,989
Power-run industries	9,700	49,429
Electric connections for domestic & commercial purposes	2,82,000	11,29,795
Total connections (number)	3,12,000	14,38,398

INDUSTRIES

Today the State has a very sound industrial base. Small scale units have increased from 4,519 in 1966 to over 42,000. Dispersal of industries in the rural areas is being vigorously pursued. A liberal package of incentives has been made available to attract entrepreneurs to set up industrial units in the hitherto ignored rural areas of the State. Under this scheme 13,056 units have been set up. These units have provided employment to 38,106 persons of which 22,852 persons belong to weaker sections of the society. There are 307 large and medium scale units producing goods worth over Rs. 11,475 million in a year.

Over 1,235 industrial licences and letters of intent have been granted under large and medium scale industries to manufacture items such as tractors, sulphuric acid, paper and paper boards, carbonless copying paper, vegetable ghee, electronic components, television sets, refrigerators etc.

Labour (as on December 31, 1982): No. of registered Trade Unions: 749; no. of registered factories: 4,146; no. of workers employed in the registered factories: 195,950; no. of disputes handled: 4,335; no. of disputes settled: 725; no. of disputes referred for arbitration: 2; no. of disputes referred for adjudication: 1,128; no. of mandays lost due to work stoppages: 275,853.

EDUCATION (1982-83)

Schools	Govt.	Non-Govt.	Total
Primary	4782	51	4833
Middle	1002	42	1044
High	1360	229	1589
Hr. Sec.	78	26	104

Total number of teachers: 59,617

Total number of students: 21,24,109.

Colleges:			
General Education	32	74	106
Arts & Science	32	74	106
Teachers Training	1	19	20
University			

Universities: Haryana Agricultural University, Hissar, for research and extension education. The University follows the timester system, as in the Land Grant Universities in the United States. The University has four constituent colleges all of which are residential institutions.

Kurukshetra University, Kurukshetra, for the encouragement of research especially in Sanskrit, Prakrit, Indian philosophy etc. It has developed into a multifaculty institution with 24 departments.

Rohtak Maharishi Dayanand University has started functioning since 1976 and 12 colleges within a radius of 16 kms. are affiliated to it. Government has decided to transfer all the colleges of

Rohtak, Gurgaon, Mohindergarh, Bhiwani and Sonepat Dists., from Kurukshetra University to Rohtak University.

PUBLIC HEALTH

	As on 31.12.1982
Hospitals, Dispensary and Primary Health Centres	451
Total No. of Beds	8,899
Per Capita expenditure on health	24.90 (1982-83)
Per Capita expenditure on medicines	2.01 (1982-83)

Family Planning	During the year 1982-83
Number of Family Welfare Planning Centres	132
Sterilisation operations performed during the year 1981-82	86,519
IUCD insertions done (1981-82)	37,806

HOUSING

Under the housing programme, 16 urban estates have been set up at different places in Haryana. The Housing Board has built 17,658 houses of which nearly 13,381 are for the economically weaker sections of society upto May 1983.

COMMUNICATIONS

Roads (31.3.1983): Metalled 19,344 kms. maintaining link with almost all villages.

Haryana Roadways during the year 1982-83 operated its services from 14 depots and 16 sub-depots to cover 0.7 million kms. and carry 0.95 million passengers per day. The fleet and staff strength of Roadways was about 2,726 buses and 14,245 persons respectively.

GENERAL

Annual Plan (1982-83): The Annual Plan 1982-83 has been fixed at Rs. 3,323.23 million. The headwise details of the outlays are as under: Agriculture and allied services: 573.12; co-operation: 97.8; water and power development: 1,819.7; industry and minerals: 58; Transport and communication: 257.9; Social and community services: 488.9; Economic services: 1.7; general services: 25.98.

Press: Some Hindi dailies are registered in the State, but their publication has been erratic.

Tourism: Haryana Govt. has set up 32 tourist complexes in different parts of the State where facilities like restaurants, motels, accommodation, angling, boating, conference rooms, games etc. have been provided.

Lakes: There are five lakes in the State. They are Badkhal lake, 51.40 hectares, about 32 kms. from New Delhi and 5 kms. from Faridabad; Peacock lake at Suraj Kund, about 18 kms. from New Delhi; Karnal lake at Uchana, near Karnal on Delhi-Ambala national highway, about 124 kms. from New Delhi; Tilyar lake at Rohtak on Delhi-Ferozepur highway, about 72 kms. from Delhi and Damdama lake which lies 64 kms. from Delhi near Delhi highway. A big Lake resort has been planned for this complex.

HIMACHAL PRADESH

Himachal Pradesh, the 18th State in the Indian Union, often called India's open zoo for its abundant wild life, is larger than the Punjab, Haryana or Kerala in size. Situated in the lap of the Himalayas, on the eastern side it forms India's boundary with Tibet. It became a full-fledged State on January 25, 1971. The 30 former Hill States have all been amalgamated to form the State. In 1954 Bilaspur was merged with Himachal Pradesh and the districts of Shimla, Kulu, Kangra, Lahaul and Spiti and parts of Hoshiarpur and Ambala districts were also added to the new State.

CAPITAL: Shimla*. **Area of State:** 55,673 sq.kms. **Population of State** (1981 census): 4,280,818. **Density of Population:** 82 per sq.km. **Literacy:** 42.5 per cent. **Sex ratio:** 973 females per 1,000 males. **Decennial growth rate** (1971-82): 22.46 per cent. **Per capita income** (1981-82): Rs. 1,659 (at current prices)

Boundaries: The State is bound by Jammu and Kashmir in the north, Punjab in the west and south-west, Haryana in the south, Uttar Pradesh in the south-east and Tibet in the east.

Districts	Headquarters	Area (Sq. Kms.)	Population (1981 Census)
Bilaspur	Bilaspur	1,167	247,368
Chamba	Chamba	6,528	311,147
Hamirpur	Hamirpur	1,118	317,751
Kangra	Dharamsala	5,739	990,758
Kinnaur	Kalpa	6,401	59,139
Kulu	Kulu	5,503	238,734
Lahaul-Spiti	Keylong	13,835	32,100
Mandi	Mandi	3,950	644,827
Shimla	Shimla	5,131	510,932
Sirmur	Nahan	2,825	306,952
Solan	Solan	1,936	303,280
Una	Una	1,540	317,422

State Language: Hindi.

No. of Villages: 16,916; **No. of Towns:** 38.

AGRICULTURE

Seventy-five per cent of people are engaged in agriculture and horticulture. Irrigated area forms 20 per cent of the net area sown. Fruits, potatoes, ginger, vegetable seeds, apples, stone fruit etc., and wheat, maize, and paddy are the major crops under cultivation. The production of foodgrains during 1981-82 was about 11.91 million tonnes. During 1981-82 production of potatoes and ginger has gone up to 0.1 million and 20,000 tonnes respectively.

Horticulture: Himachal Pradesh is an ideal region for growing many kinds of fruits. Area under fruits and production of fruits have been increased to 107,600 hectares and 0.34 million tonnes respectively during 1981-82.

There is potential for the development of crops like hops, mushrooms, olives and figs etc. An UNDP project with a provision of Rs. 12.77 million has been completed for the development of mushrooms. A bulk pasteurisation plant has been set up for the manufacture of mushroom compost to be distributed to mushroom growers on subsidised rates. During the year 1982-83, 420 tonnes of mushroom compost was distributed among 592 small marginal farmers which helped in additional production of 500 tonnes of mushrooms.

Sarda Melon will also be developed as a new cash crop in the tribal dry areas of the State.

For solving marketing problems a project worth Rs. 163.1 million is under implementation with the assistance of World Bank. Fruit Processing Plant at Parwanoo, one of the biggest plant in Asia has been commissioned during 1981.

Area (in hectares) and production (in '000 tonnes) of fruits during 1981-82 respectively: Apples: 45,360; 306.80; Other temperate fruits: 19,386; 17.62; nuts and dry fruits: 7,671; 1.58; citrus: 16,822; 9.34; other sub-tropical fruits: 10,845; 6.55

Animal Husbandry: Himachal Pradesh has got small, fragmented holdings in hill terrain. As such, only bullocks are used extensively for agricultural purposes. Besides, rearing of goats and sheep also assumes importance to provide wool, hair and meat. Livestock population for (1977) census is given hereunder (in '000): Cattle: 2,106, buffaloes: 560, sheep: 1,055, goats: 1,035, horses and ponies: 15, mules and donkeys: 14 pigs: 5, other livestock, poultry: 330.

With a view to providing remunerative rates to the milk producers and wholesome milk at reasonable rates to the consumers, seven milk supply schemes are functioning in Mandi, Nahan, Shimla, Kangra, Chambal, Bilaspur and Nathpa-Jakhri.

Forests: Forests cover an area of 21,189 sq. kms. which accounts for 39 per cent of the total geographical area of the State. Most of the forests belong to Government. *Deodar*. *Kail*, *Chil*, *Spruce*, Silver fir. *Neoza* pine and the coniferous species are growing in the forests. *Neoza* pine which produce edible nuts grows in Kinnaur district. These are the only forests of *Neoza* in India. Among the broad leaved species *Sal*, *Ban*, Oak, *Mohru Oak*, *Kharsu* Oak, Walnut, Malpe, Horse chestnuts, *Poplam*, *Seemal*. Tun and *Shisham* are the important species.

POWER

Himachal Pradesh has vast hydel potential which is estimated to be bearly, 12,435 MW at 60 per cent load-factor. The projects now in hand and under investigation promise to yield surplus power to the State. Giri Hydel Project, the first major project in the State, went into commercial production during 1978-79.

By the end of March, 1982, out of 16,916 inhabited villages in the State, 12, 794 villages had been electrified.

Generation and consumption of electricity (in Million KWH) respectively (1981-82): 431.7; 273.6.

INDUSTRIES

The number of registered small scale industrial units, at the end of the year 1982, was 6,000 providing employment to about 20,000 persons, besides various numerous cottage and village industrial units. Some of the major and medium scale industries are Nahan Foundry, Nahan, Rosin and Turpentine Factories at Bilaspur and Nahan and Mohan Meakin Breweries at Solan. In the year 1979, three such units viz. M/s Gabriel India, Parwanoo, Cement Corporation of India Ltd., Rajban and M/s Ranger Breweries India Ltd., Mehtapur went into production. District Industries Centres were established in all the 12 districts. The Government provides land/industrial sheds to the industrialists in industrial areas/estates. Industrial area at Parwanoo, Barotiwala, Paonta Sahib, Bilaspur, Nagrota, Bhagwan Shamshi and Mehatpur and industrial estates at Solan. Dharampur, Kangra, Jawali, Dehra Gopipur and Peo have been established. Government of India has declared the entire State as "Special Region" for intensive industrialisation and now new industries set up in the State will be entitled to an outright subsidy of 25 per cent on investments.

Drinking Water Supply: The State Government has given priority to provide hygienic drinking water to the people. Out of 16,916 villages of the State, 9,487 villages had been provided with hygienic drinking water facilities by the end of March, 1982 thereby serving 2,185.000 persons.

EDUCATION

Himachal Pradesh ranks 15th in literacy percentage among the States and Union Territories of India with a percentage of 42.48. Establishment of an Agricultural University at Palampur and Sainik School at Sujanpur are two important achievements in the field of education.

The following are the number of schools and students (in '000) and teachers respectively (1981-82): Primary: 6,229; 565.4; 15,060; Middle: 1,047; 218.5; 5,449; High/Higher Secondary: 690; 74; 9,091; Colleges of General Education: 27; 19; 736.

University: HP University, Summerhills, Shimla, and H.P. Agriculture University. Palampur.

PUBLIC HEALTH (1981)

Hospitals: 53: Primary Health Centres: 77; Allopathic dispensaries: 2,000, Family Planning Clinics: 73; Beds available: 5,841; Doctors: 655; Vaids: 419; Nurses: 1,135.

COMMUNICATIONS (1981-82)

Buses 940; Trucks 20; Other vehicles 37; No. of routes under operation 743; distance covered ('000 kilometres) 62,281; Passengers carried (million) 50 (estimated).

Roads (1982): Motorable double lane: 1,994; motorable single lane: 11,129; jeepable: 713; less than jeepable: 4,499.

EMPLOYMENT (1981)

No. of employment exchanges: 14; No. of candidates registered: 72,536; No. of vacancies notified: 12,093; No. of candidates placed: 7,875; No. on live-register: 159,985.

GENERAL

Sixth Plan Outlay (1980-85): (Rs. in million) Agriculture and allied services: 14,086.00; Cooperation: 675.00; water and power development: 15,348.00; industry and minerals: 1,805; transport & communications: 11,865.10; social and community services: 10,826.00; economic services: 45.00; general services: 1,350.00. Total 156.000.00.

Minerals: Important minerals of Himachal Pradesh are salt, slate, gypsum, limestone, barytes, dolomite, pyrites etc. The state is also known to have iron ores, copper, lead, phosphate and several other minerals which await proper investigations and surveys for their exploitation. Rock salt deposits are located in Mandi district and gypsum in Sirmur district. Vast deposits of slate are found in Mandi, Chamba and Kangra districts. Limestone is found in abundance in Sirmur, Bilaspur and Kangra, Mandi and Shimla districts. Sirmur, Bilaspur, Kangra deposits of limestone are of a quality suitable for cement industry.

Rivers: The Sutlej, The Beas, The Ravi, The Chenab, The Yamuna.

Lakes: Govind Sagar, Pong Dam Lake, Renuka, Rewalsar.

*Simla to be spelt as Shimla as per official communication.

JAMMU AND KASHMIR

Kashmir, a vital border State, occupies a strategic north-west position and is surrounded by Pakistan and China. Its history goes back to centuries spanning Mauryan rule under Asoka. Kashmir acceded to India on October 26, 1947, under the Instrument of Accession. In February, 1975, the historic Kashmir accord opened a new chapter in the political history of Kashmir which gives Kashmir a privileged portion among the Indian States.

CAPITAL: Summer—Srinagar; Winter—Jammu; **Area of the State:** 222,236 sq. kms. (provisional geographical area figures supplied by the Surveyor-General). Of this 78,932 kms. are under illegal occupation of Pakistan and 5,180 kms. illegally handed over by Pakistan to China. This also includes 37,555 kms. under illegal occupation of China (1971 Census),

Population of the State (1981 Census): 5,954,010.

Sex Ratio (1981 Census): 953 females per 1,000 males.

Major cities: (Population and area—1971 Census): Srinagar 403,413; 47.08 sq. kms.; Jammu 155,338; 20.46 sq. kms.

No. of towns: 45, **No. of villages:** 6,749, **No. of Tehsils:** 49.

State Boundaries: The State is bound by Pakistan in the west, Afghanistan and USSR in the north-west, China in the north, Tibet in the east and Himachal Pradesh and Punjab in the south.

State Languages: (a) Official: Urdu; (b) Regional: Kashmiri, Dogri, Balti, Dardi, Pahari, Ladakhi and Punjabi.

AGRICULTURE

Agriculture employs about 80 per cent of the population. The major crops are paddy, maize and wheat. Barley, bajra and jawar are also grown in some parts. Gram is grown in Ladakh.

Districts (14)	Area (in sq. kms.)	Population (1981 Census)
I. Kashmir province		
Anantnag	1,207.0	654,945
Baramulla	1,458.4	669,405
Leh (Ladakh)	394.0	67,773
Srinagar	502.9	721,078
*Pulwana	962.5	404,351
*Badgam	777.3	352,759
*Kupwara	667.6	327,552
*Kargil	183.1	64,566
II. Jammu province		
Doda	11,691.0	224,390
Jammu	3,165.0	928,638
Kathua	2,651.0	365,029
Poonch	1,658.0	222,490
Rajouri	2,681.0	298,830
Udhampur	4,549.0	452,244

* These districts have been newly created, and came into being on July 1 1979.

The District headquarters are of the same name.

The area under food crops in 1980-81 was 0.891 million hectares of which paddy was grown over 0.265 million hectares, wheat 0.202 million hectares and maize 0.275 million hectares. The area under high yielding varieties in 1980-81 was 0.455 million hectares.

The food grain production in 1981-82 was estimated above 1.4 million quintals. The State expects to be self-sufficient in food by the end of Sixth Plan when the production is likely to touch 1.75 million quintals.

The offtake of fertiliser in 1981-82 touched 42,000 tonnes against 20,000 tonnes in 1981.

Agrarian Reforms: The State was the first in the country to have introduced radical agrarian reforms in 1948-50 abolishing all "Jagirdari" and feudal institutions. The Agrarian Reforms Act (dealing with land reforms), the Debtors Relief Act (concerning the problems of rural indebtedness) and the Restitution of Mortgage Properties Act (providing for Restitution of Mortgages made in distress) have been enacted by the State Legislature since 1975. The Agrarian Reforms Act came into force in July, 1978.

The Agrarian Reforms are being vigorously implemented in the State. At present basic work of the reforms has been completed in over 4,826 villages out of 6,915 villages in the State the attestation of mutation under Sections 4, 5 and 6 of the Act has been completed in 5,723 villages.

Horticulture: The area under fruit growing in Jammu and Kashmir State touched 8,096.795 million hectares in 1981-82 against 4,047.709 million hectares in 1980-81. Fruit export during 1982-83 totalled 0.3628 million tonnes against 0.3525 million tonnes in 1981-82

An integrated Rs. 250 million horticulture development project is under execution with the assistance of World Bank, to provide services for apple and walnut growers. Another Rs. 6.3 million apple grading project is under execution at Nowapora, Sopore with the assistance of Australian Government. The production of walnuts during 1982-83 was 20,000 tonnes out of which 5,000 tonnes were exported.

Livestock (1971 Census): The State's livestock population stood at 4.527 million. Break up (in million): 2.138 cattle, 0.501 buffaloes, 1.216 goats, 0.56 horses and 0.069 ponies. Poultry population stood at 2.125 million. Milk production crossed 0.3 million litre mark in 1980-81 against 0.23 million litres in 1979-80. Egg production touched 22 million during 1980-81 as against 20.01 million in 1979-80. Meat production touched 0.82 million kilograms in 1980-81 against 0.76 million kilograms in 1979-80.

IRRIGATION AND POWER

The installed capacity of power has risen from 6.5 MW in 1947 to 209 MW at present. As per survey conducted the State has the potential to produce 10,000 MW of hydel power during the end of Sixth Plan. The number of villages electrified by 1982-83 end is 6,591. The major and medium irrigation potential (ending 1980-81) was 3.25 hectares supplemented by an equal potential of minor irrigation. One new major scheme namely Malali Thang Canal has been taken in hand and the scheme will irrigate 285 hectares and is estimated to cost Rs. 16 million. About 12 new major schemes are in progress. During the Sixth Plan the irrigation has continued to occupy the priority position and Rs. 609.4 million are proposed to be spent on medium and major schemes and Rs. 445 million on minor irrigation schemes. The projects which are under construction are Stakna Hydel Project with a capacity of 4 MW at a cost of Rs. 127.5 million, Kargil Micro Hydel Scheme with a capacity of 3.75 MW of power has an expenditure of Rs. 66.7 million and Seva Hydel Project has a capacity of 96 MW at a cost of Rs. 480 million.

COMMUNICATIONS

Kashmir is linked with the rest of the country by the motorable Jammu-Pathankot road. The Jawahar Tunnel passing through the Banihal mountains, connects Srinagar and Jammu.

The total road length at the end of 1980-81 was 7,865 kms. including surfaced and unsurfaced roads. In 1981-82, 35 kms. are being added to it. Work on other Centrally sponsored roads include Rs. 220 million Mandi-Loren-Sultan Pathri-Thousmaidan road and Kapran-Dessa-Doda road at a cost of Rs. 240 million.

Road Transport: The State had 2,476 buses and mini buses in 1980-81 both in public and private sectors as against 2,410 in the year 1979-80, trucks numbered 6,241 and taxies 2,222. The strength of private cars and station wagons stood at 4,511. The number of motor cycles and scooters was 13,101, and jeeps 2,292. Auto rickshaws numbered 1,800 and other vehicles 245 in 1980-81.

Railways: Kashmir was linked with the Indian Railway system on 3rd December, 1972 when the line between Jammu and Pathankot was opened. The line is now being extended upto Udhampur. The inauguration of Udhampur-Jammu line project was done by Prime Minister on 13th April, 1983.

Posts & Telegraphs: The State has 1,510 post offices, 97 telephone exchanges and 14,222 private telephone connections at the end of 1982-83.

EDUCATION

The literacy percentage in 1981-82 was 26.17 as against 18.58 in 1971. Education is free at all levels. There are two universities at Srinagar and Jammu, which have 37 teaching departments and 42 affiliated colleges. There are two medical colleges, one agricultural university, two polytechnics, one engineering college and 8 oriental colleges in the State.

INDUSTRIES

The medium and small sector receives emphasis as the geographical constraints do not favour large scale industries. While preference is being given to the local entrepreneurs, industrialists from outside the State are encouraged for investment in areas where local entrepreneurship is not forthcoming or where technical expertise is absent.

In Bani Bharamana industrial complex in Jammu, the biggest in the State, the following industries have come up: a detergent plant of Hindustan Levers, a cigarette factory, a scooter factory, three resin-based factories for down-stream products, 2 pencil factories, a joinery mill, 2 vanaspati mills, a precast cement factory and an annealed wires manufacturing unit. The units in the pipeline for the complex include steel re-rolling mills, flour mills, textile mills, rear-axle shaft project, export-oriented joinery mills, calcination factory for bauxite, piston and piston rings project and 2 agro-based factories. A Rs. 20 million gypsum-based wall board factory, 2 paper mills, extension by 10,000 tonnes of Hindustan Levers detergent plant, a plant nutrients factory and additional 25,000 spindlage in Chinab Textile Mills, Kathua stand cleared for implementation. Land for raising an industrial complex in Udahampur has been identified as part of the programme to disperse industry in other districts.

In the Kashmir Division an industrial area for large and medium horticulture-based industries has been set up. The division had no such industrial area. M/s. Cadbury India Limited have recently put up a project in the area. The area will also provide facilities to small scale units for fruit processing. Another industrial complex is coming up at Khanmuh and a Rs. 6 million export-oriented joinery mill by a local entrepreneur will shortly go in production there. Other units to come up at all the complex include woven sacks factory, a match factory, and a hollow silica bricks factory. These involve an investment of Rs. 15 million. A roofing tiles unit, a cattle feed plant, a canning unit and a honey processing unit are other industries slated for being established in the complex. A sports goods complex is also coming up at Bijbehara.

A 600-ton a day capacity cement plant has been constructed. A Rs. 65 million spun silk project is also coming up. The units that have already come up include the UNDP, wool combing and utilisation project. Other projects on the anvil for the division include manufacturing of calcium carbide, acetylene black and cardboard boxes project to replace the traditional wooden packing cases for fruit.

An electronics complex set up at Rangreth in Srinagar will go a long way in the promotion of electronics industry in Kashmir.

District industries centres have been set up in all the districts. These centres provide all the needed facilities to the entrepreneurs under one roof.

In the small-scale sectors the number of units registered has risen from 6,387 to 8,428 in 1981-82. These units provided employment to over 40,000 persons in 1981-82.

The handicraft sector has witnessed remarkable progress. The handicrafts production in 1981-82 is likely to touch 680 million with carpets alone accounting for Rs. 320 million.

PUBLIC HEALTH

In 1981-82, the State had 2 main general type of hospitals, special women's hospital, 8 special type hospitals, 2 chest disease hospitals, 2 children hospitals, 2 mental hospitals, 2 leprosy hospitals, 1 BC and joint surgery hospital, 14 district hospitals, 9 sub-district hospitals, 88 pimary health centres, 302 sub centres, 433 allopathic dispensaries, 436, unani/ayurvedic clinics and 5 leprosy control units.

No. of Hospital Beds: State Headquarters 2,615; District Headquarters 2,445.

Staff: Doctors 2,000, dentists 112, nurses 985, midwives/dais 890, compounders 786, dawasaaz 400, inspectors 145, basic health workers 516.

The National Medical Institute at Soura has partially been commissioned.

Rehbar-i-Sahat Project, a mobile experiment has been introduced in 2 blocks (Ganderbal and Kotibalwal) where teachers are trained by doctors to provide simple health facilities to rural people. This unique experiment in medicare has proved a big success in the State and the entire State is expected to be brought under this programme.

GENERAL

Important Rivers: The Jhelum, the Sindh (Kashmir), the Tavi, the Chenab and the Ravi (Jammu).

Important Lakes: Dal Lake, Wullar, Manshal, Nagin Lake (Kashmir), Surinsar, Mansar and Sansaar (Jammu).

Tourism: Tourism is the premier industry of the State. The number of tourists to the valley in 1982-83 (ending March, 1983) was 13,980 out of which 2,065 were foreigners and near about, 76,063 tourists visited the holy shrine of Vaishnodevi during 1982-83 (ending March, 1983).

Forests: The State has a forest area of 21,080 sq. kms. of which 7,477 sq. kms. are available for timber exploitation and rest function as protective forests. The State earned over Rs. 340 million as forest revenue in 1980-81. Resin production was over 388,000 quintals. More than 8 million saplings were planted during 1981-82. The export of timber in 1979-80 was about 220,000 cubic mtrs. The outlay for the sector was Rs. 45 million in 1980.

Water Supply: The number of villages covered under piped water supply by the end of March, 1981 was about 2,000 with a population of 0.2 million. 369 more villages, with a population of 310,000 are being covered in 1980. In the urban sector, all the 49 towns are being provided potable water. The supply to Jammu and Srinagar is being augmented under a Rs. 3,498 million Master Plan.

Religion: Muslims constitute overwhelming majority of the population. Other communities are Hindus, Sikhs, Buddhists and Christians.

Press: The State has 37 dailies, 123 weeklies, 27 fortnightlies and 12 monthlies.

a) Srinagar—Khidmat, Aftab, Srinagar Times, Aina, Hamdard, Zamindar, Wullar, Navjeevan, Srinagar Express, Nazwa-i-Subh, Roshni, Madar-i-Kashmir.

b) Jammu—Excelsior, Kashmir Times; Quami Awaz, Sandesh, Imarat, Sharda, Ujalla, Advice, Waqat, Such, Raftar, Times of Cartoon.

Annual Plan: The Sixth Plan outlay is Rs. 9,000 million. The outlay for 1983-84 is Rs. 1,800 million.

KARNATAKA

Karnataka, which is a derivative of Karunadu, meaning high plateau land, is the eighth largest State in area and population. Under the Mysore State (alteration of name) Act of 1973, the nomenclature was changed from Mysore to Karnataka, thereby reviving memories of the glorious history of the epics. It has inherited great traditions of its ancient predecessors: the Cholas, the Chalukyas and the Vijayanagar Empire. It brought together the Kannada-speaking people in five States and the areas of the old State of Mysore and Coorg and the Bijapur, Kanara and Dharwar districts and the Belgaum district, the major portion of the Gulbarga, Raichur and Bider districts, the South Kanara districts and the Kodegal taluka of Coimbatore district in Madras.

CAPITAL: Bangalore. **Metropolitan area:** 500 sq. kms.; **Population** (1981 census): 2,913,537.

Area of State: 191,791 sq. kms. **Population of State** (1981 census): 37,043,451. **Density:** 193 per sq. km. **Sex Ratio:** 963 females per 1,000 males. **Literacy:** 38.41 per cent.

Districts	Area in '000 sq. kms.	Population (1981 census)
Bangalore	8.0	4,921,828
Belgaum	13.4	2,974,861
Bellary	9.9	1,487,062
Bidar	5.5	994,106
Bijapur	17.1	2,399,124
Chikmagalur	7.2	908,626
Chitradurga	10.9	1,774,717
Dakshina Kannada	8.4	2,373,359
Dharwad	13.7	2,939,988
Gulbarga	16.2	2,075,368
Hassan	6.8	1,351,923
Kodagu	4.1	460,164
Kolar	8.2	1,898,984
Mandya	5.0	1,414,383
Mysore	11.9	2,584,878
Raichur	14.0	1,779,942
Shimoga	10.5	1,657,564
Tumkur	10.6	1,975,331
Uttara Kannada	10.3	1,071,243

Districts: The names of the districts with area and population are tabulated above. The headquarters of the districts are of the same name except for the following districts where the name of the headquarters are given in the brackets: Dakshina Kannada (Mangalore); Kodagu (Madikeri); Uttara Kannada (Karwar).

No. of Villages: Inhabited 26,826; uninhabited 2,707; total 29,533.

State Boundaries: The State is bound by Kolhapur, Sangli, Solapur, Osmanabad and Nanded districts of Maharashtra in the north, Medak, Hyderabad, Mahbubnagar, Kurnool, Anantapur and Chitoor districts of Andhra Pradesh in the east, Salem and Nilgiri districts of Tamil Nadu in the south-east, Cannanore district of Kerala in the south and Arabian Sea in the west.

State Language: Kannada.

Major Cities (Over 100,000 population) (1981 census): Bangalore city (Urban Agglomeration): 2,913,537; Hubli-Dharwar: 526,493; Mysore: 476,442; Mangalore: 305,513; Belgaum: 300,290; Gulbarga: 218,621; Bellary: 201,014; Devangere: 196,481; Bijapur. 146,808; Shimoga: 151,562; Bhadravati: 130,159; Kolar Gold Fields: 144,406; Raichur: 124,600; Gadag-Betegeri: 116,596; Hospet: 114,711; Tumkur: 109,234; Mandya: 100,264.

Land Utilisation in hectares: Net area sown: 10,330,437; Fallow land: 1,563,042; Net area irrigated: 1,387,480; Forests: 3,019,090.

Land Reforms: Ceiling per family: 4.047 hectares of 'A' and 'B' class of land, 8.094 hectares of 'C' class land and 16.187 of 'D' class land. Plantations are exempted.

No person who has an annual income of Rs. 12,000 or more from any non-agricultural source can acquire agricultural land after March 1, 1974. From the same date all tenanted lands have been transferred to the Govt. and the traditional tenant-landlord relationship has been snapped. No agricultural land can be sold for non-agricultural purposes.

Each taluka has one or more land tribunals. At present, there are 294 tribunals. The tribunals are conferring ownership on tenants and distributing surplus lands to the landless. The work of the tribunals has been very nearly completed.

Upto 1983, over 0.8 million applications were disposed of, nearly 0.5 million in favour of tenants. 105,426 hectares have been determined to be surplus after the application of ceiling. 23,436.17 hectares have been distributed to 12,000 persons.

AGRICULTURE (1981-82)

Principal crops	Production (million tonnes)	Area (million hectares)
Rice	2.2	1.1
Ragi	1.4	1.1
Jowar	1.4	1.7
Bajra	0.20	0.5
Maize	0.43	0.15
Wheat	0.23	0.34
Minor Millets	0.16	0.34
Pulses	0.59	0.14
Commercial Crops:		
Groundnut	0.61	0.77
Sugarcane	12.50	0.16
Arecanut	0.08	0.55
Dry Chillies	0.04	0.15
Tobacco	0.03	0.51
Cardamom	0.002	0.02
Coconut	883.8 (nuts in million)	0.17
Cotton	0.5 (million bales of 170 kg.)	0.96
Pepper	0.008 (million quintals)	0.03
Coffee	0.081	0.16

Animal Husbandry (1981—in '000): Cattle: 10,221.96; buffaloes: 3,278.13; sheep: 4,536.48; goats: 3,388.14; poultry: 9,696.01; veterinary institutions: 1,296; fish catch: 231.122 tonnes.

IRRIGATION AND POWER

Irrigation (1982): Total area under irrigation: 2,200 million hectares. Irrigation is 22 per cent of the sown area. The cultivable area is 13.00 million hectares and the net sown area is 11.00 million hectares. The ultimate irrigational potential is estimated at 5.5 million hectares. Karnataka has invested nearly Rs. 8,000 million in irrigation since the beginning of Five Year Plans. Irrigation potential under major and medium projects is expected to reach 1.13 million hectares by 1982-83; actual utilisation is 0.98 million hectares.

Power (1982): Installed capacity: 1,847 megawatts; electricity generated: 7,356 million units; revenue villages electrified: 18,620; Pumpsets energised: 0.35 million.

No. of registered factories: 11,846; no. of textile units: 3,469; no. of chemical factories: 350; no. of engineering factories: 1,300; employment in registered factories: 608,087.

Sericulture is the most important of rural industries providing employment to about 2 million people.

Industrial Estates: No. of Government estates: 27.

Industrial Development Agencies: See chapter on "State Govt. Undertakings".

MAJOR INDUSTRIES (upto December 1982—provisional)

Type of Industries	No. of factories existing	Production in tonnes
Iron & Steel	1	173,810
Cement	6	1,307,120
Sugar	20	234,108
Paper	6	75,280
Vanaspati	5	4,384
Aluminium	1	43,958
Fertiliser	2	237,974
Gold	2	809 kgs.
Silver	2	57 kgs.

Labour: No. of Unions: There were 1,310 trade unions on register during 1982-83 covering 400,000 workers.

EDUCATION (1982-83):

Schools: Primary Schools: 35,200; high schools: 2,370; polytechnics: 41; colleges: 436 (general and professional); pre-university institutions: 651,

Enrolment: Standard I to IV: 1,574,880; primary: 3,020,572; secondary: 677,000; colleges: 188,000

No. of Teachers: Lower primary: 32,900; higher primary: 72,000; secondary: 28,000.

No. of Medical Colleges: 21, including 12 allopathic institutions.

Technical education: No. of engineering colleges: 39; No. of polytechnics: 35.

Universities: Bangalore University, Bangalore 560001; Karnataka University, Dharwar 580003; University of Agricultural Sciences, Bangalore 560003; University of Mysore: 570001; Indian Institute of Science, Bangalore 560012; Gulbarga University, Gulbarga 585101; Mangalore University, Mangalore 575001.

PUBLIC HEALTH (1982-83)

No. of hospitals including State, Central, ESI, Municipal and private: 233; primary health centres and units: 1,515; strength of beds in hospitals and dispensaries: 34,774; no. of medical colleges: 12.

COMMUNICATIONS (1982-83)

Length of roads: 98,523 kms.; National highways: 1,968 kms.; State highways: 7,813 kms.; major district roads: 13,200 kms.; other district roads: 10,000 kms.; village roads: 32,987 kms.

Total length of railway: 3,125 kms. including the Bangalore-Salem rail link and the Hasan-Mangalore railway opened to goods traffic. Broad gauge 546 kms.; metre gauge 2,788 kms.; narrow gauge 153 kilometres.

Registered motor vehicles: 370,000.

No. of airports: 3 (Bangalore, Belgaum and Mangalore); no. of airstrips: 4.

No. of ports: 20. Coastal belt: 287 kms.

Posts and Telegraphs (1980): No. of radios: 507,827; post offices: 9,337; telegraph offices: 2,463; telephone exchanges: 508; telephones in use: 142,993.

GENERAL

Rivers: There are two great river systems in Karnataka: Krishna in the north and the Cauvery in the south. The only streams flowing west to the Arabian Sea are those in the north-west, which, uniting in the Sharavati, hurl themselves down the Ghats in the magnificent Gersoppa or Jog Falls.

Rivers that flow into the Krishna: the Tunga, the Bhadra, both these uniting in the Tungabhadra and the Hagari (or Vedavati).

Rivers that flow into the Cauvery: the Hemavati, the Lokapavani, the Shenisha, the Arkavati, the Lakshmantirtha, the Kabbani or Kapila and the Honnuhole or Suvarnavati.

Other Rivers: The Varada, the Kalinadi, the Gangavali, the Tadri, the Netravati, the Kumaradhari, the Gurpur, the Swarnanadi, the Sitanadi, the Malprabha, the Dharma, the Don, the Bhima and the Ghatprabha.

Press (Major daily newspapers): *English:* Deccan Herald, Bangalore 560001; Hindu, Bangalore 560001; Indian Express, Bangalore 560001; *Kannada:* Prajavani, Bangalore 560001; Kannada Prabha, Bangalore 560001; Samyukta Karnataka, Bangalore 560025 and Hubli; Nav Bharat, Mangalore 575003; Janavani, Bangalore 560001; Udayavani, Udipi 576101.

Minerals: Gold, silver, iron ore, chromite, china clay, limestones, corundum, gamet, emery, asbestos, bauxite, fuller's earth, quartz, ochre, fellspar and silica.

Forests: Forests occupy 15.3 per cent land area divided into evergreen, semi-green, moist deciduous, dry deciduous, scrub and thorny species.

Annual Plan (1983-84): Rs. 6,193 million. Outlay (in million): Agriculture: Rs. 994; Co-operation: Rs. 108; Irrigation: Rs. 876 Power Projects: Rs. 1,679; Industry and minerals: Rs. 498; Transport and communications: Rs. 401; Social and Community services: Rs. 1,177; Economic and general services: Rs. 13; Cauvery Basin Projects: Rs. 443.

KERALA

Kerala, the land of rivers with verdant greenery and beautiful lagoons, lies in the south-west zone of India. It has the highest density in population and the highest literacy among the Indian States. Under the States Re-organisation Act of 1956, Travancore-Cochin State and Malabar were amalgamated to form Kerala which came into existence on November 1, 1956. Some territorial adjustments were made with Madras.

CAPITAL: Trivandrum; **Area:** 44.52 sq. kms.; **Population** (1981 census): 513,081.

Area of the State: 38,863 sq. kms.; **Population of the State** (1981 census): 25,403,217.

No. of Talukas: 58; revenue villages: 1,331; Municipal towns: 43; Corporations: 3; *Panchayats:* 1,000.

State Boundaries: The State is surrounded by South Kanara, Mercara and Mysore districts of Karnataka State in the north, Nilgiris, Coimbatore, Madurai, Ramanathapuram, Tirunelveli and Kanyakumari districts of Tamil Nadu in the east and south, and by the Arabian Sea in the west.

State Language: Malayalam.

* A new district Pathanamthitta was formed on Nov. 1, 1982.

Major Cities: (Over 100,000 population)

Name		Area in sq. kms.	Population (1981 census)
Cochin	..	82.00*	482,722*
Trivandrum	..	44.52	513,081
Calicut	..	30.61	394,440
Alleppey	..	46.62	169,934
Quilon	..	16.34	137,927
Palghat	..	—	111,220

*Combined area and population for Cochin-Ernakulam-Alwaye Town group.

AGRICULTURE

The per capita extent of cultivated area is 0.09 hectare (1981 census).

Food Crops: Rice, jowar, ragi, tur, sugarcane, pepper, chillis, ginger, turmeric, cardamom, arecanut, mango, citrus fruits, banana, cashewnut, tapioca, sweet potato and onion.

Main Crops are paddy, coconut, tapioca, arecanut, pepper, turmeric, ginger, sugar, tea, coffee, rubber etc.

Dairying: At present there are seven dairy plants in operation. The location, capacity and daily production (in litres) respectively are: Trivandrum 40,000, 28,000; Ernakulam 50,000, 20,000; Palghat 6,000, 7,000; Alleppey 3,000, 5,000; Cannanore 10,000, 8,000; Calicut 6,000, 8,500; and Kottayam 6,000, 2,000.

Poultry: With a view to promoting poultry breeding 476,000 chicks were hatched and distributed through the departmental farms during 1977-78. The egg production in the departmental farms during the year stood around 2.27 million.

Fisheries: See chapter on Fisheries.

Forests (1981): Total area under forests as on 31-3-1982 was 11,229 sq. kms. which formed 29 per cent of the geographical area. Out of this area, State forests occupied 9,335.9 sq. km. and vested forests 1,893.1 sq. km. Till the end of March 1982, man-made forests covered 146,900 hectares which consisted of teak (76,653 hectares), eucalyptus (34,289 hectares), soft wood species (23,567 hectares), cashew (5,085 hectares) and other species (7,306 hectares).

INDUSTRIES

As on 31st December 1981 there were 9,106 registered working factories. The number of registered small scale industrial units during 1981-82 was 21,977.

Joint Stock Companies: As on March 31, 1982 there were 2,061 companies of which 493 were public companies and 1,568 private companies.

Paper Factory: A new packing paper manufacturing factory is being established at Kollakadavu in Alleppey dist. under private sector. The cost is estimated at Rs. 90 million and the factory is expected to produce 15,000 tonnes of pulp and 30,000 tonnes of wrapping paper annually.

Handloom Industry: The total number of looms in the State stood at 0.1 million in 1982. The production in the co-operative sector was 33 million during 1981-82. The sales turnover of the apex society increased from Rs. 67.2 million in 1980-81 to Rs. 76.9 million in 1981-82.

INDUSTRIAL DEVELOPMENT AGENCIES (See chapter on 'State Govt. Undertakings').

LABOUR (as on 31.12.1981)

No. of registered factories: 9,484 (excluding 10 defence factories); no. of working factories: 9,099 (excluding 10 defence factories); no. of registered factories which submitted their returns: 4,263; average daily employment in the working factories submitting returns: 179,513; total average daily employment (estimated) in all the registered working factories: 303,588; employed in industries: 291,497; employed otherwise: 12,091; total employment in Public and Private Sector: 303,588; total number of unemployed on the live register of employment exchange: N.A.

EDUCATION

Particulars showing the number of students in schools and educational institutions run by Govt., and private bodies for 1980-81 are as follows:

Number of students under instruction: 5.60 million. Distribution of institutions: High Schools: 1,976; upper primary schools: 2,753; lower primary schools: 6,861; basic training schools: 92.

Colleges and Student Enrolment (1981-82): Arts and Science Colleges (including Sanskrit colleges and Evening colleges): 161; Government colleges including Evening colleges: 38; Teachers: 2,016; Students: 44,998; Private Colleges: 123; Teachers: 9,421: Students: 223,731; Government Training colleges: 4; Teachers: 52; Students: 669; Private Training colleges; 15; Teachers: 128, Students: 2,127; Music colleges: 3; Teachers: 106; Students: 856.

Universities: Kerala Agricultural University, Mannuthi, Trichur; University of Kerala, Trivandrum; Gandhiji University, Kottayam; University of Calicut, Calicut; Cochin University, Thrikkakara, Cochin.

PUBLIC HEALTH (31-3-1982):

Hospitals 145; beds 23,203; Health centres 172; beds 2,142; TB centres and clinics 10; beds 118; MCH centres 5; beds 942; dispensaries 616; beds 1,431. Total No. 968; beds 30,254.

COMMUNICATIONS

Kerala has 23 postal divisions, 2 RMS divisions, 2 postal stores depot units and one mail motor service unit. As on 1.4.1982, 4,634 post offices were functioning. These comprise 51 head offices, 2,099 sub-offices, 2,278 branch offices and 206 mobile post offices.

Motor Vehicles (as on 31.3.1982): Goods vehicles 27,664; stage carriages: 9,765; taxi cabs: 21,569; motor cars: 60,412; Jeeps 9,030; motor cycles: 70,468; auto-rickshaws: 12,727; tractor-trailers: 1,946; total: 220,732.

State Transport (as on 31.3.1982): No. of buses: 3,468; no. of lorries: 15; other vehicles: 150; no. of routes: 3,980; route kms.: 18,469; no. of employees: 30,000; average no. of passengers carried per day: 2.1 million.

Roads (as on 31.3.1982): The State had a total road length of 95,580 kms., which included National Highways (839 kms.); Roads maintained by the P.W.D.: 17,668 kms.; Panchayat Roads: 68,008 kms.; Corporation Roads: 1,239 kms.; Municipal Roads: 3,822 kms. (as on 1.4.1981); others: 2,519 kms.

Railways: The total length of line is 916 kms. of which 803 kms. are broad gauge and 113 kms. metre gauge.

PRESS

Leading Dailies (1982): Major newspapers in Malayalam: 'Chandrika', Kozhikode; 'Deepika', Kottayam; 'Desabhimani', Kozhikode and Cochin; 'Express', Trichur; 'Kerala Kaumudi', Trivandrum; 'Malayala Manorama', Kottayam, Kozhikode and Cochin; 'Mathrubhumi', Kozhikode, Cochin and Trivandrum.

GENERAL

The draft Sixth Plan, approved by the Government accords primacy to generation of optimum employment opportunities in the economy. The Rs. 41,000 million Plan envisages an investment of about Rs. 20,000 million by the state, Rs 16,000 million through Private Sector and Rs. 5,000 million as direct Central investment during the Plan period of 1980-85.

Annual Plan: The outlay for 1983-84 Annual Plan is Rs. 3,200 million.

Rivers: The rivers provide an extensive system of inland waterways of great commercial importance. The longest are the Bharatapuzha, 267 kms. and the Periyar, 228 kms.

Other chief rivers are Valapattanam, the Chaliyar, the Kadalundi, the Chalakudi, the Pampa, the Achan Koil and the Kallada.

Fresh Water Lakes: Enamakkal, Manakkodi, Vellayani, Sasthankotta and Vembanad.

Mineral Development: A detailed investigation of mineral resources is being made for graphite, lime-shell, lime stone, magnesite and brick and tile clays.

The Kerala Mineral Exploration and Development Project established with the assistance of U.N.D.P. started functioning from April, 1977.

LAKSHADWEEP

(Union Territory)

The Laccadive, Minicoy and Amindivi islands, an archipelago of 27 coral islands in the Arabian sea, off Kerala, constitute the smallest union territory. Formerly part of Madras, they became Union territory on November 1, 1956.

THE Lakshadweep group of coral islands lying between 8^0 and 12^0 north latitude and 71^0 and 74^0 east longitude in the Arabian sea, 320 kms. off the west coast of Kerala constitute the smallest Union Territory.

Headquarters: Kavaratti island; **Area:** 3.6 sq. kms.; **Total Area of the Territory:** 32 sq. kms.; **Total Population** (1981 census): 40,249 (Males: 20,377, Females 19,872); **Decennial Population growth rate** (1971-81): 26.49 per cent; **Density:** 1,257 per sq. km.; **Sex ratio:** 976 females for 1,000 males; **Literacy:** 54.72 per cent.

Administration: The head of the administration is the Administrator, appointed by the Union President. The Collector-Cum-Development Commissioner is in overall charge of the development activities and law and order.

The entire Territory has been divided into 4 tehsils each under a Tehsildar, with headquarters at Andrott, Kavaratti and Amini Islands and with a Deputy Collector at Minicoy.

Total No. of Islands: 27; **Uninhabited:** 17. The area and population (1981 Census) of the inhabited islands is as follows:

Island	Area in sq. kms.	Population
Agatti	2.7	4,111
Amini	2.6	5,367
Andrott	4.8	6,812
Bitra	0.1	181
Chetlat	1.0	1,484
Kadmat	3.1	3,114
Kalpeni	2.3	3,543
Kavaratti	3.6	6,604
Kiltan	1.6	2,375
Minicoy	4.4	6,658
Total	26.2	40,249

AGRICULTURE

Coconut is the main crop. The average production of nuts per hectare per year is 0.0079 million from a total cultivated area of 2,785 hectares.

Fruits like banana, papaya, guava, sopota and some citrus varieties and drum-stick, chillies, tomato, brinjal, sweet potatoes are grown as inter-crops.

Dairy: There is one dairy farm at Kavaratti and one dairy demonstration unit at Minicoy.

Poultry: There is one Regional Poultry Farm at Kavaratti and seven poultry demonstration units one each at Amini, Andrott; Minicoy, Kadmat, Kalpeni, Agatti and Kiltan.

Fisheries: There are 293 mechanised boats of which 263 were issued to fishermen on a subsidised hire-purchase system. A unit for canning tuna fish was set up at Minicoy in 1969. The number of cans produced during 1981-82 was 51,976. An ice factory and a cold storage were also constructed at Minicoy.

POWER

Electricity: All the ten inhabited islands have been electrified. The total installed capacity of the power houses is 2,221.40 (as on 1982-83) KW and length of distribution line is 118 KM.

INDUSTRIES

Coir making, Oil extracting, handloom, mat weaving, hosiery knitting and canning are some of the small industries. One handicrafts co-operative society and two handicraft training centres function at Kavaratti and Kalpeni respectively. Three coconut husk defibering units—one each at Andrott, Amini and Kadmat, are also operating.

EDUCATION

There are 50 schools including 8 high schools with 11,965 students and 486 teachers. To encourage education of girls, separate and free facilities have been provided. On July 15, 1972, the Jawaharlal Nehru College (Affiliated to Calicut University, Kerala), was inaugurated and had a student strength of 365 during 1982-83 with 16 teachers.

PUBLIC HEALTH

There are 7 primary health centres and 2 hospitals at Kavaratti and Minicoy and one first aid centre at Bitra and two ayurvedic dispensaries—one at Androth and the other at Kavaratti. One of the achievements was the control of communicable diseases like leprosy and filaria. There are health inspectors in all the islands and medical aid is free. Acute cases are brought to the mainland and given free treatment. The total bed-strength of all the hospitals and primary centres is 120 (3 per 1,000 population).

COMMUNICATIONS

The motor vessel of the Administration, M. V. Laccadives was launched in 1968. Since 1970 the Shipping Corporation of India has started running an all-weather ship M. V. Amindivi for the administration. Another all-weather ship M. V. Bharat Seema started plying from July onwards. One motor launch, M. L. Bitra, maintains inter-island services.

There are 10 post offices, 9 wireless stations and 5 telephone exchanges. A radio-telephones service between Kavaratti and the mainland (established in 1972) and between Chetlat and Bitra islands is also available. A satellite communication station has been established at Kavaratti in 1980. Another station is being set up at Minicoy island.

GENERAL

Annual Plan (1982-83): The Planning Commission has approved Rs. 5.77 million for the Annual Plan.

Tourism: Bangaram, an uninhabited island, has been developed into a tourist resort with facilities for water sports. A Consortium consisting of Air India, Shipping Corporation of India, Hotel Corporation of India and Travel Corporation of India are bringing foreign tourists for a ten-day stay during the fair season. The resort has accommodation for 32. However tourism has further developed during 1982-83. 326 home tourists had visited the islands in 1982-83 (February 1982 to March 1983).

MADHYA PRADESH

Madhya Pradesh was formed under the provisions of the State Reorganisation Act, 1956, on November 1, 1956. Being situated in the centre of the country, it is sometimes called the "heart" State of India. It comprises the 17 Hindi-speaking districts of the former State of Madhya Bharat (except the Sunel enclave of Mandsaur district), the former State of Bhopal, Vindhya Pradesh, the 14 Mahakoshal districts of the central provinces and the Sironj sub-division of Kotah district.

CAPITAL: Bhopal; **Area:** 71.20 sq. kms.; **Population:** 895,815.

Area of the State: 443,459 sq. kms.; **Population of the State:** 52,138,467 (1981 census); **Literacy** (1981 census): 27.8 per cent; **Sex Ratio:** 943 females per 1,000 males; **Density** (1981 census): 118 per sq. km.

DISTRICTS: The headquarters of the districts are the towns of the same name except Surguja which has Ambikapur as its headquarters.

Total No. of Districts: 45; No. of Tehsils: 190; No. of Municipal Corporations: 6; No. of Municipalities: 556; No. of Notified areas: 19.

State Boundaries: The State is bound by Uttar Pradesh in the north, Bihar in the north-east, Orissa in the east, Maharashtra in the south and Gujarat and Rajasthan in the west.

Major Cities (Over 100,000 population)

Wah! Wah! Wah!, the cable-line workers sang lustily in a chorus in Marathi as they laid the historic link-up submarine cable between Bombay and Europe via Aden on February 7, 1870, at the horse-shoe Backbay. It was on the Great Eastern Flagship, which was accompanied by two other ships, that Martin Wood, Editor of The Times of India, raised the toast to the progress & prosperity of Bombay over 100 years ago. A rare picture. Courtesy: Karol (The Ocean Telegraph To India: J. C. Parkinson)

Metamorphosis of Bombay

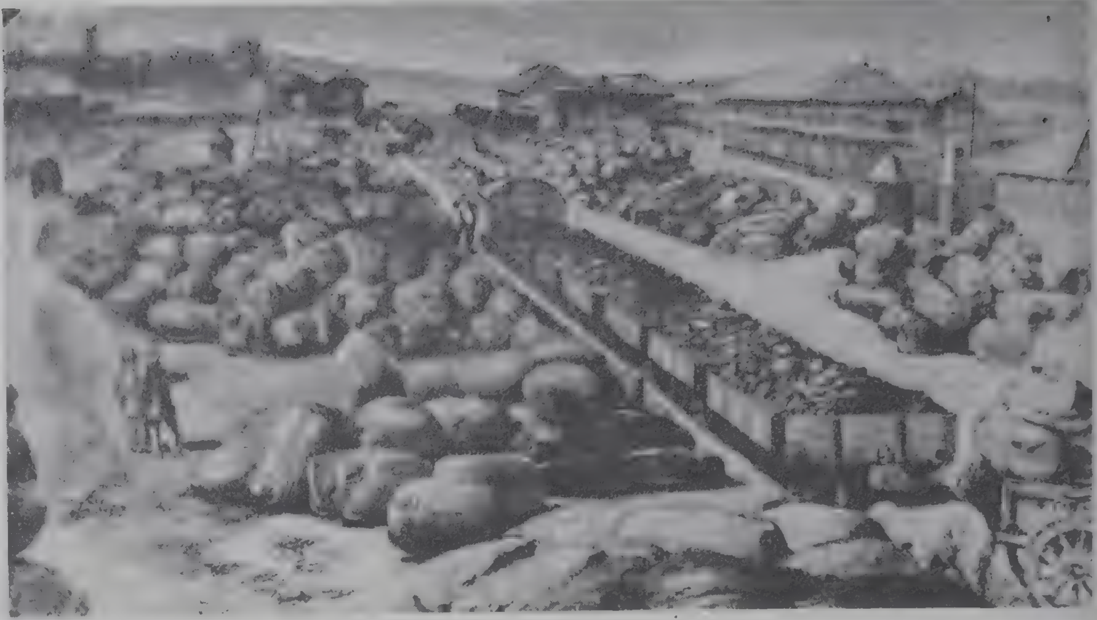
by Alfred D'Cruz

TODAY'S press headlines could be tomorrow's history. Who, what, where, when. For *Times* present and *Times* past are both present in *Times* future, and *Times* future contained in *Times* past.

Yes, the Old Dame of Bori Bunder, born in 1838 and cradled in the Bombay Fort (1670), has seen it all! A mute witness to the metamorphosis of Bombay. And summons rememberance of things past. Indeed, the heterogeneous heritage bears the imprint of several cultures. Mentioned in the *Mahabharata* and by Greek and Roman historians, Ptolemy termed it *Heptanesia.* Once a swampy, rocky conglomeration of 30 fishing islands, only the seven big islands are remembered today: Colaba, Bombaim, Mazagaon, Varel (Worli), Varella (Wadala), Syvon (Sion) and Mahim.

Left : The old office of The Times of India sandwiched between St. Thomas's Cathedral (1718) and the main fashionable gate, Church Gate (1670), the site of the present Flora Fountain (Hutatma Chowk) in Fort (1670).

Right: The modern office of The Times of India, crowned with Saracenic cupola embroidered with lotus petals, was occupied on January 1, 1902.



Right: The old wooden, ramshackle railway station at Bori Bunder prior to 1888. Cotton bales await transportation. The name, Bori Bunder, owes it origin to a wharf built on a rocky promontory which was used by country-boats to load and unload goods. The original Mumbadevi temple, which was demolished in 1737 by the British to enlarge their fort, stood at the present site of VT Station. Bombay derived its name from Mumba Devi, the goddess worshipped by Kolis, the original inhabitants of Bombay. A Bombay merchant, Pandu Sona, later erected a new temple in Bhuleshwar. Courtesy: CR (The Illustrated London News).

The first gigantic reclamation in 1862 linked the seven islands to form a single compact land mass of 273 sq. metres. Retrospectively, take a look at *Mumbai* in 1661. Idyllic greenery enraptures the eye; the Arabian Sea staring you in the face. Hardly 10,000 Agris and Kolis on the islands tending ricefields or out fishing.

The "poor little islands", as Samuel Pepys put it in 1633-1703, were gifted to Charles II of England in a marriage treaty with Infanta Catherine Braganza of Portugal on June 23, 1661. On March 27, 1668, he was only too happy to hand over Bombay to the East India Company for an annual paltry payment of just £10!

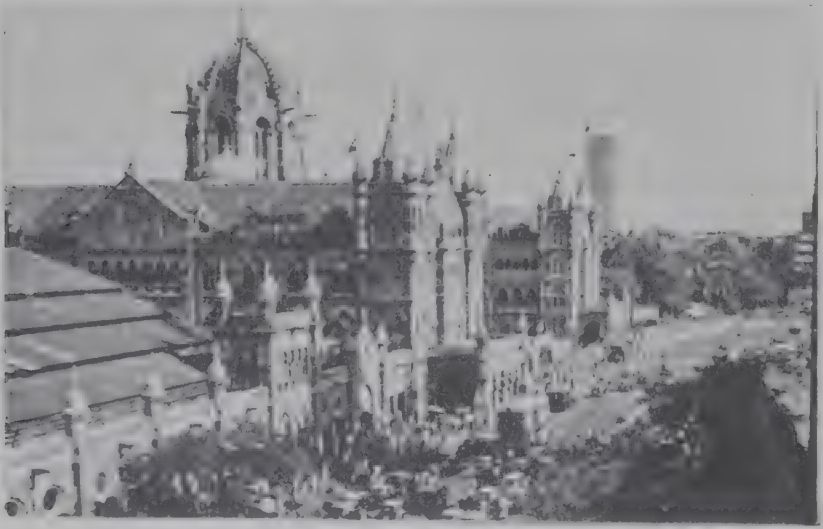
Old Bombay of the seven islands, like ancient Rome of the seven hills, rose from mud and rubble. Three centuries. Then and now. The island city, exploding with over 8.2 million people, now transformed, the face still changing. But life goes on. Busy and bustling.

Commercially, the famed Cottonpolis spun out a throbbing metropolis, the textile industry making it the Manchester of the East. The harbour, the two railway terminii, the airport, the multifarious industries, the Bhabha Atomic Research Centre, modern telecommunications and the educational and technical institutions all adding up to make it one of the 10 great cities of the world. Indeed, *The Times*, London, hailed the remarkable strides as "one of the brightest episodes in the modern history of India."

Yonder, stands proudly the Gateway of India (1911-1924) where mingle people and races from all the lands.

Significantly, over 100 years ago on February 7, 1870, a historic event took place in Bombay: the shore-end of the submarine ocean telegraphic cable was laid at the rocky horse-shoe Backbay, linking Bombay with Europe *via* Aden and Suez.

Martin Wood, Editor of *The Times of India*, observed that the engineering feat was an important chapter in Bombay's history. The press had become so dependent on the telegraph that one could scarcely get on without the other. The Suez Canal, opened in 1869, had brought Europe closer to India and the cable would speed up communications. J. C. Parkinson, a British writer, said that bright days were ahead.



Bottom: The imposing Venetian-Gothic Victoria Terminus costing over Rs. 27 lakhs which was under construction for 10 years (1878-1888). Designed by F. W. Stevens, he was assisted by Sitaram Khanderao and Madhawrao Janardan.

Right: The only remnant of Fort George (1670) seen today in St. George's hospital compound.

The swinging 1860s and 1870s were turning points in Bombay's history. From 1861 to 1865, Lancashire was in the doldrums for it had been starved of urgent cotton stocks, being badly hit by the American Civil War. Britain desperately turned to Bombay. Cotton thus brought booming wealth to Bombay and with it the dawn of a new era.

It became the biggest cotton export centre in the world. Maclean in his *Guide to Bombay* recorded that the coffers were enriched by 75 million sterling.

The people of all communities in Bombay in a magnanimous and humanitarian gesture readily responded to the appeal of one of its most prominent citizens, J. Sunkersett, and remitted £16,000 to the Lord Mayor of London to help Britons in distress.

Cotton was such a money spinner that the people ripped open even their mattresses and sold the cotton. Fifty-four cotton mills were in full swing. Land prices zoomed. The face value of a single share priced at Rs. 4,000 and floated by the Backbay Reclamation Company fetched the fantastic sum of Rs. 25,000. Premchand Roychand, the financial wizard, was the cotton king. Indian entrepreneurs took a big leap forwards when by their own capital and skill they set the ball rolling in establishing the undiluted and unique cotton textile industry. Some of the inventions of the Industrial Revolution reached Bombay almost as fast as they entered the British & European markets, but they hit the handloom and handicrafts sectors whose traditions stretched to centuries and whose reputation for expert craftmanship was widely appreciated.

The Times of India's advertising media was utilised (April 23, 1862—August 7, 1865) by Bombay-based overseas British firms to publicise the textile machinery.

All these factors stimulated the spectacular growth of the industry. The mills attracted the first big wave of migrant labour from the Konkan, the Deccan, Telengana, Rajasthan and Gujarat and the population shot up from 2,36,000 to 5,66,119. The railways too provided many jobs. The first train was on the rails from Bombay to Thana on April 16, 1853 It was the talk of the town, with the band playing and crackers fired. *The Times of India* reporter said: "The steam-driven train that started from beneath the wall of Fort George at Bori Bunder goes forth conquering and to conquer!" The first steamer to be built in Bombay was "Hugh Lindsay" which was launched on October 14, 1829. Horatio Nelson was a midshipman on HMS "Sea Horse" which was attended by artificers under the direction of Lowjee Wadia. The Sassoon Dock was opened in 1875, the Victoria in 1888 and the Hughes and Alexandria docks (now called Indira docks) in 1914. The docks also absorbed many hands. In 1736, the first dock was

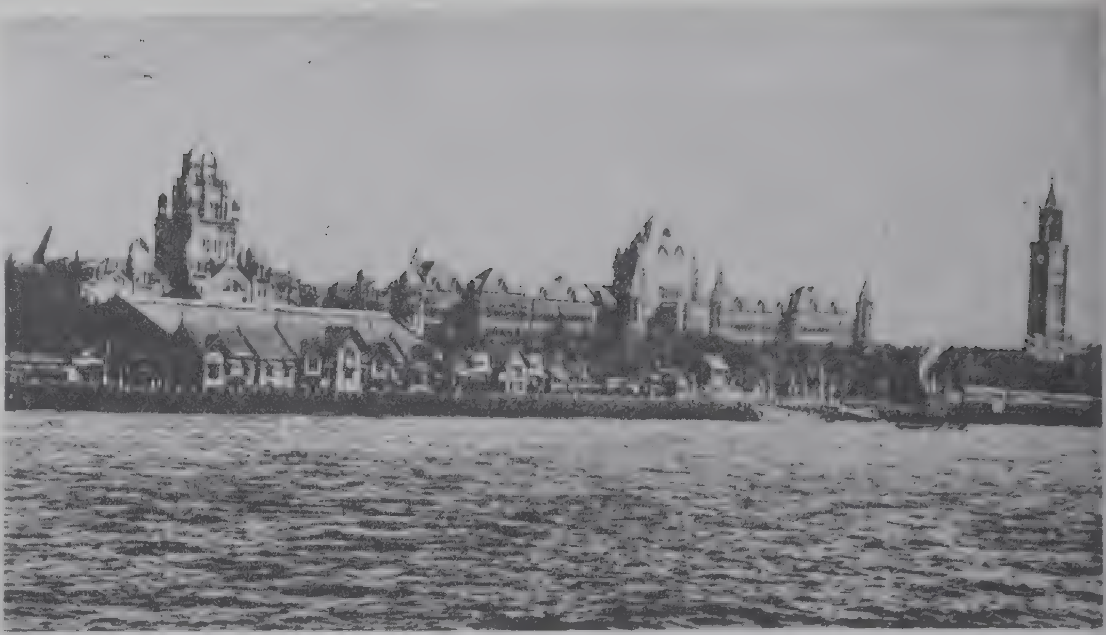
Below: The magnificent Town Hall (1821-1833) facing Bombay Green. Bombay Green was a popular rendezvous for the cosmopolitan people of Bombay. Bombay Castle (1548-1626) is at the rear. The Town Hall was designed by an Indian architect, Andre Constancio Augustus, who won a prize for it from Lord Clare. The obituary inscription on his gravestone said it was his "creative monument."

Bottom: The Town Hall as it appears today with the new Reserve Bank skyscraper in the background.

Right: Flora Fountain (1865) now called Hutatma Chowk (Martyrs' Memorial) was built in appreciation of the services rendered to Bombay by Bartle Frere.

Bombay's cosmopolitan outlook so impressed the French historian Diniz Cottineau (Nov. 9, 1827) and the German scholar, Leopold von Orlich (Aug. 13, 1842) that they recorded it in their books.

Right: The Gothic architectural buildings: the old Secretariat (1872), the Rajabai Clock Tower and University Library (1878) the High Court (1878), the Central Telegraph Office (1874) and the Western Railway HQ "all in a line" seen kissing the shore-line before reclamation of Backbay. The railway train is seen steaming in at Church Gate from the old Colaba Railway Station in 1876. Courtesy: WR



Below: Chowpatty, called Lakdi Bunder in 1864, at the foot of Malabar Point (Malabar Hill) where tigers were seen even in 1783.

Bottom: The once lush greenery at Malabar Hill has gone, giving way to a jungle of skyscrapers.

Jawaharlal Nehru and Sarojini Naidu were always fascinated by Bombay. In a happy mood they once both agreed to jot down in one sentence on separate notepapers what made Bombay what it is. Surprisingly, both wrote down the very same line: Unity in diversity.

completed which is associated with Bomanjee Lowjee Wadia, whose family connections with naval architecture extend to six generations.

Bartle Frere (1860-1890) set the pace for building modern Bombay. He demolished Bombay Fort in 1863 and thereby opened wide spaces for development. He planned the Gothic structures "worthy of Bombay's wealth and status" on the Backbay seashore (1864) in what is now the reclaimed Oval. Backbay Reclamation was completed in 1920. The towering buildings were constructed by the Telugu master-builders, Nagoo Sayaji assisted by Ellapa Balaram. The construction of VT (1888), GPO (1910), the Municipal Corporation Building (1893), the Museum (1922) and the docks, bridges and roads were the work of the Telugu Kamatis. Unwept, unhonoured and unsung. Their physical endurance was matched by their dextrous hands which carved out ornamental designs. Shankar Sayanna Parsha in *Telugu Samachar, (Makar Sankrant, 1925)* and Manohar Keluskar have highlighted the contribution of the Kamatis to Bombay. Their ancestors had migrated to Bombay from Hyderabad in 1665. The construction of the Dwarkeshwar temple (1832) at Mahalakshmi & Frere Bunder was supervised by a remarkable Telugu woman, Korba Sayemba. But the ramifications went deeper. The workers became aware of Britain's strangulation of the economy and were awakened to trade unionism and political consciousness. Lovat Fraser, editor of *The Times of India*, in a blistering editorial entitled: "Bombay's Slaves", called for a Factory Act.

Jawaharlal Nehru aptly pinpointed the wider implications of economic exploitation when he said that the history of cotton and of textiles was not only the history of the growth of modern industry in India, but also in a sense, the history of India itself during the past 100 years.

Interestingly, once Vithalbhai Patel, the intrepid nationalist, presiding at a burn-foreign-goods meeting during the Quit India move-

Top: Bombay harbour with sailing ships and rowing boats with Bombay Castle in the background in 1791.

Below: The Gateway of India (1911-1924) with the Taj Mahal Hotel built by Jamshetji Tata in 1904 and the modern addition of the multi-storey Taj Inter-Continental.

Narayan Chandavarkar addressing the Royal Asiatic Society's centenary celebrations in Bombay in 1905 paid glowing tributes to the select *Saptarshis* (seven sages). They were: Balshastri Jambhekar, Dadabhai Naoroji, R. G. Bhandarkar, M. G. Ranade, Pherozeshah Mehta, K. T. Telang and N. M. Parmanand. Dedicated men all. Ardent advocates of learning.

Bottom: Medows Street in the heart of the business area in the Fort area over 100 years ago. Nearby was Bruce Street, now called Homi Mody Street. Roger Faria, a millionaire, was the first Indian merchant-prince of Bombay to have had collaboration with an English firm. It was called Bruce, Faria & Co.,

ment was hackled by a British officer. He said: 'You are presiding at a burn-foreign-goods bonfire, but you are smoking a foreign cigar.' "Look well." Vithalbhai shot back: "I am not smoking it, but only burning it!"

As the years rolled on and industry and trade rapidly gained momentum, Indian merchants imbued with the *Swadeshi* spirit and mounting nationalism, set up the Indian Merchants' Chamber on September 7, 1907. Among the founding fathers were Munmohandas Ramji, Purshottamdas Thakurdas, D. Wacha & I. Rahimtoola. The Bombay Chamber of Commerce (1836) catered mostly to European firms. Another important organisation, the Bombay Association (1852) functioned under the leadership of J. Jeejeebhoy. The J.J. School of Art (1857), the first and foremost in the country, and the J.J. Hospital owe their existence to his generosity. On December 28, 1885, the Indian National Congress was born.

As Bombay entered the 20th century, newspapers gained a new dimension for the Congress set in motion dynamic nationalist forces. The *Kesari* of Tilak from Poona and *Rast Goftar, Durpan* and *Induprakash* of Bombay roused national consciousness. Newspapers then introduced in their columns political speeches, political matter and political editorials.

Birth Of "Times"

Historically, the Charter Act of 1834, knocked the bottom of the East India Company, depriving it of monopoly control over business and trade. The imperial eagle could no longer muzzle the press for it had its wings clipped, its teeth out. Robert Grant arrived in the nick of time as Governor of Bombay on March 12, 1835. He was keen on having an independent paper. His initiative clicked. Some prominent men decided to start a biweekly called *The Bombay Times* and *Journal of Commerce* costing eight annas. A joint company with 16 European shareholders, the only Indian being Jamsetjee Jeejeebhoy, was established. The proprietors were two barristers, H. Howard and M. Montriou, Dr. Mackey, a surgeon, and M. Murphy, a prominent orientalist. Dr. J. E. Brennam was appointed the first editor and the first issue was published on October 3, 1838, the forerunner of *The Times of India*. In 1840, Brennam was out. George Buist, founder of the Bombay Natural Society, came in. He converted the paper into a daily and focussed attention on local news. But the Indian Sepoy Mutiny of 1857 signalled the exit of Buist for his inopportune writing, leaving the door open for a dynamic journalist, Robert Knight. The right man for the right job at the right time. Wisely, *Bombay Telegraph, Bombay Standard* and *Courier* teamed up with *The Bombay Times* and on May 18, 1861, *The Bombay Times* took on a new historic masthead: *The Times of India*.

Knight assured the eager readers that the paper would mirror all the events. Right enough. It did. Shortly afterwards he left for

England on a business visit, but on his quick return he found his business partner, Mathias Mull, riding the high horse. Dejected that the paper he had nursed so tenderly was not doing well, he left for Calcutta and launched the *Statesman*. Knight was followed by Louis Jennings as editor, who later became editor of *The New York Times*. Martin Wood succeeded him, Curwen and Kane coming next. Thomas Bennett, assistant editor of *The Bombay Gazette*, a close friend of Curwen and Kane, joined *The Times*. Curwen and Kane, who, by then, had become joint editors and proprietors of the paper, had made a provision in their will that their share after their death should be offered to Bennett. So when Curwen and Kane died the firm fell into the hands of Bennett who became the editor-proprietor. He immediately sounded F.M. Coleman, a master printer in Britain. He rushed to Bombay. Bennett was determined to make *The Times of India* both a financial and journalistic success. So they converted the firm into a joint stock company called Bennett, Coleman & Co. Ltd. They invited two reputed British journalists, Lovat Fraser and Sir Stanley Reed, to join *The Times*.

Lovat Fraser conceived the idea of Special Correspondents for wide coverage and Sir Stanley Reed followed up by appointing an Indian, Dr. Francis Braganza-Cunha of Sorbonne and Moscow Universities, as *The Times of India* correspondent for European affairs for a brief period. Dr. Braganza-Cunha was the secretary and interpreter of Rabindranath Tagore during his European tour in 1923.

Finger On Public Pulse

One incident brought out the work and worth of Bennett. During the dreaded plague in 1896, Bennett in an editorial ridiculed Dr. Accacio Viegas for creating a scare of a bubonic plague epidemic. Bennett, a stickler for accuracy, first deputed a reporter to check the facts and later went out himself to assess the situation. Shocked at the mounting toll number, he wrote another editorial in retraction of his hasty judgement & praised the round-the-clock medical relief by Dr. Viegas, Dr. Bhatavdekar, Dr. Jan Mohammed and Dr. S. Surveyor. Bennett, who had his finger on the pulse of the people, recalled with dignified concern what *The Times*, London, had once said: "If we do not represent the opinion of the people, we are nothing." The Improvement Trust, which functioned for 30 years, was set up to ensure public health, widen roads and improve sanitation. It gave way to the Bombay Municipal Corporation which was established by the Act of 1872. Dassabhai Framji was the first elected Indian Chairman in 1875. As with every passing year, *The Times of India* circulation showed a steady climb, Bennett selected the fast developing and convenient site at Bori Bunder for a new building & secured land on a 99-year lease. The imposing building was designed by Gostling and Fritchley and constructed by a Telugu master-mason, Nana

Top: Hornby Vellard named after Governor Hornby who constructed a controversial causeway linking Mahalakshmi and Worli in 1784.

Below: The changing scene at Mahalakshmi and Worli today, with the sprawling race-course, the Sardar Patel Sports Stadium and the growing number of skyscrapers.

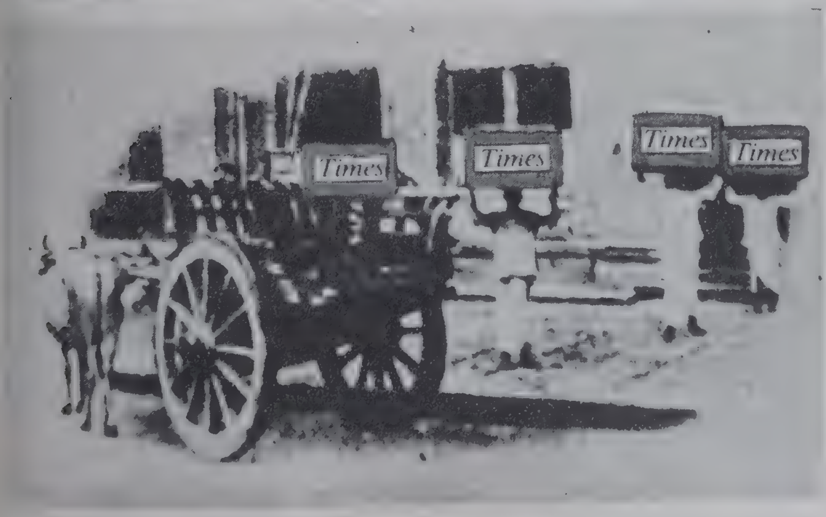
Bottom: The rectangular multi-storey Discovery of India Museum at the Nehru Science Centre at Worli which will mirror the heritage of India.

Lokmanya Tilak (1856-1920) awakened national consciousness among the Bombay textile workers. His famous words during his trial at the Bombay High Court ring down the corridors of time:"In spite of the jury's verdict, I maintain I am innocent. There are higher powers that rule the destiny of man and nations. It may be the will of Providence that the cause which I represent may prosper by my suffering than by my remaining free."

Right: Phydonie in 1874, which at the high tide was swept by sea-waves, with its horse-driven tram-car, bullock-carts and gas-lamp (1839). The quaint old houses were part of a typical scene in old Bombay.

Below: The remarkable change in the skyline at Worli with the dome of the Nehru Planetarium and the cluster of skyscrapers clearly visible. A distant dim view of the TV tower too.

Bottom: The dak editions of The Times of India *being carried in trunks and loaded on bullock-carts to be dispatched by train from the old premises of* The Times of India.



Raju Babaji, and his son in 1902. Babaji died in 1931 at the age of 102. Once the building was completed and new machinery installed, Bennett handed over the editorship to Lovat Fraser (1896-1907) who, in the words of Lord Curzon, made *The Times* "the best paper in Asia." Sir Stanley Reed (1907-1923) stepped into his shoes as editor, followed by S. Sheppard (1923-1932) and Sir Francis Low (1932-1948). Then Ivor Jehu walked in. Frank Moraes was the first Indian Assistant Editor, then Deputy Editor and Editor from 1949 to 1957. K. Gopalaswami was the first Indian editor. In 1946 R Dalmia acquired the paper which passed into the hands of Shanti P. Jain. Girilal Jain, former Special Correspondent in Pakistan and London, is the current editor. He took over from Sham Lal, who was preceded by N. J. Nanporia.

In 1981, *The Times of India* published from Bombay, Delhi and Ahmedabad was ranked first among all the multi-edition dailies in India with a circulation of 522,900 copies. The modern, sophisticated, computerised photocomposing units will ensure the growing widespread readership of a better and brighter newspaper enhancing the dignified high standards befitting one of the 50 best papers in the world today.

In a book published in the U.S., *The World's Great Dailies,* the newspaper was ranked high for its intellectually-oriented "quality", impartiality & for promoting secular issues and democratic values.

Men make cities and cities men. In the developing decades of the last century, Bombay's cosmopolitan intelligentsia and dynamic enterpreneurs nursed by goodwill and tolerance stamped it with a special character. That shaped its destiny and made it what it is: *Urbs Prima in Indis*.

Makers Of Bombay

HISTORY is the biography of great men. And so it is that the united impact of the pioneers on men and matters made history. Without them, nothing.

Fresh currents of thought ushered in a new social, political, educational and economic order. The Industrial Revolution too made its impact. Significantly, there rose up men of stature, some Sanskrit scholars among them, who assimilated Western education. English gained ground. John Wilson, the European Indologist, and prominent Indians paved the way to establish Bombay University in 1857 and open educational institutions with equal opportunities for men & women. Ranade, Telang and Tyabji, jurists, scholars and reformers, advocated English education. Dadabhai Naoroji was with them. Sir Stanley Reed, editor of *The Times of India*, writing on the Indian scenario in 1897, observed that Ranade's ideals and learning influenced the best minds of his time. Telang, the first Indian Vice-Chancellor of Bombay University, and Elphinstone were among the luminaries who stressed that English, no less important than the vernaculars, was vital for the succeeding generations. Telang achieved fame for demolishing Weber's theory that *Ramayana* was copied from *Iliad*. Tyabji, the first Bombay barrister, pricked the bubble of colonial arrogance. Sunkersett, Jeejeebhoy, Cowasjee Jehangir, Pherozeshah Mehta, Bhandarkar, Mandlik, Wacha, Malabari, Gokhale, Bhau Daji Lad and Lisboa were in the forefront of educational, philanthropic, cultural & civic activities. Among the industrialists were: Nathubhai,Jetha, Roychand, Sassoon, Petit, Godrej, Podar, Goculdas, Tejpal, Currimbhoy, Hirachand and Thackersey. Jamshetji Tata set up the steel industry despite British opposition. Lisboa & Lad were the first top doctors from G. M. College.

State Language: Hindi. Main languages spoken in the State are Hindi, Urdu, Marathi, Rajasthani, Gujarati, Sindhi and English.

AGRICULTURE

Agriculture provides about 55 per cent of net domestic product of the State, gives employment to 80 per cent of the working population, of which two-thirds are cultivators and the rest are labourers.

The State has about 5.3 million farming families cultivating 18.5 million hectares of land. Marginal farmers with less than one hectare operate 32 per cent of all holdings using only 3.40 per cent of the State cultivable land. Small farmers with holdings between 1 and 2 hectares operate 17 per cent of all holdings on 6.3 per cent of the cultivable land.

Percentage contribution to India's total production of crops is rice 8 per cent, sorghum 17 per cent, maize 9 per cent, small millets 10 per cent, wheat 11 per cent, barley 7 per cent and oil-seeds and pulses 8 per cent.

About 12.3 per cent of the cropped area is irrigated. The gross cropped area is 20.8 million hectares. Food production level which was a mere 8.576 million tonnes in the year 1956-57 has risen to 11.64 million tonnes in 1978-79.

Production of principal crops during 1978-79 in million tonnes: Foodgrains: 11.64; Sugarcane: 0.18; Oilseeds: 0.55; Cotton: 0.297 million bales.

The high yielding varieties programme for paddy, wheat, maize, jowar and bajra covered 3.05 million hectares in 1978-79 and would further expand to cover about 3.690 million hectares in 1979-80.

This is one of the few States where both *Kharif* and *Rabi* crops are grown in substantial areas, though *Kharif* covers a major portion of the total agricultural area. Against a target of 12.1 million tonnes the production of foodgrain in the State during 1980-81 was estimated at 11.8 million tonnes. The State is the highest soyabean producer in the country. In 1969-70 this crop was grown on 600 hectares which shot up to about 400,000 hectares by 1980.

There is a programme to dig 500,000 new wells during the current Sixth Five Year Plan.

World Bank has sanctioned an intensive agricultural extension and research project with a financial outlay of about Rs. 187.7 million. This project has been implemented in 16 districts—Bhind, Morena, Sehore, Balaghat, Badi (Raisen), Mandsaur, Jhabua, Khandwa, Narsingpur, Chhindwara, Bilaspur, Sagar, Chhatarpur, Satna, Gwalior and Hoshangabad. The emphasis in the programme is to reach every farmer and help him to get better yields.

Madhya Pradesh is richly endowed with varying agroclimatic zones suitable for fruits like mango, guava, lemon, orange, banana, papaya, jack fruit and cashewnut.

Agricultural graduates are given incentives to establish their own farms and government allots them land and also arranges for loans of Rs. 10,000 to Rs. 15,000 from banks.

Forests: Protected 80,045 sq. kms.; reserved 84,227 sq. kms.; non-classified 667 kms.; total 164,939 sq. kms.

Varieties of Forests: Sagon 31,346 sq. kms.; sal 37,898 sq. kms.; mixed and other forests 95,695 sq. kms.

In 1977-78, Rs. 28.4 million were proposed to be spent on implementation of forestry and soil conservation schemes including State's contribution of Rs. 8.3 million to the Forest Development Corporation and implementation of Rs. 2.78 million centrally sponsored Tiger Project. Provision for 1978-79 under development scheme was Rs. 36.23 million from the State fund and Rs. 22.0 million from the Centre.

Under the Tribal Sub-Plan schemes, Rs. 14.9 million was proposed to be spent from State Plan funds and Rs. 22.0 million from the Centre.

Veterinary Services: State's cattle population is 40.30 million, out of which 26.25 million are cattle, 5.84 million buffaloes, 7.16 million poultry and 7.69 million sheep and goats, according to livestock census 1977.

Facilities are available for breeding 1.9 million of cows/buffaloes. Each veterinary institution is catering to the need of 20,175 animals.

Veterinary hospitals 655; veterinary dispensaries 1,355; mobile units 45; ambulatory clinics 31; disease investigation labs. (*i*) State level 1; (*ii*) Divisional level 8; (*iii*) District level 10; rinderpest check posts and units 66; serum production centre 1; biological production division 1.

Cattle Breeding: Cattle breeding farms 10; Jersey breeding farms 2; bull rearing farms 3; cattle breeding extension units 376; cattle breeding extn. units in tribal areas 141; H.Q. bull breeding units 57; intensive cattle development projects 13; intensive key village blocks 13; Central semen stations 10; *gosadans* 10; seed multiplication institutes 3; co-ordinated cattle progeny testing centre 1.

Cattle Development: Intensive cattle development projects 13; progeny testing centre 1.

Sheep Breeding: Sheep breeding farms 3; large sheep breeding farm 1; sheep and wool extension units 3; goat breeding farm 1; pig breeding farm 1.

Poultry Development: Egg production average is 210 eggs per bird per year. "RATNA", scientifically developed breed of bird at Government Poultry Farm, Bhopal, is capable of producing 237 eggs per year. Poultry farms 12; co-ordinated poultry breeding farm 1; intensive poultry projects 6.

IRRIGATION & POWER

Irrigation: Some major irrigation projects of the State are Tawa, Mahanadi Reservoir, Bargi, Narmadasagar, Bansagar, Hasdeo-Bango, Upper Wainganga and Madikheda on Sindh. Other completed projects are Chambal, Barna, Ravishankar Sagar, Pairi and Sindh diversion with a total irrigation potential of about 0.5 million hectares.

Under medium and minor irrigation programme, work is in progress on 76 medium and 2,078 minor irrigation projects.

Power: The present installed power generating capacity in the State is 1,300.5 Mw of which 193 Mw is from hydel sources. The thermal power stations are situated at Korba, Amarkantak and Satpura. The only hydro-electric power station in the State is at Gandhi Sagar Lake in Mandsaur district.

At the end of Jan. 1981, 34.2 per cent of the total number of populated villages, covering 54 per cent of the rural population of the State has been electrified.

EDUCATION (1978)

Colleges: Universities: 10; arts colleges: 93; science colleges: 6; home science colleges: 2; agriculture colleges: 7; commerce colleges: 7; music colleges: 3; fine arts colleges: 6; medical colleges: 15; dentistry college: 1; nursing college: 1; veterinary colleges: 2; physical education colleges: 2; social college: 1; colleges of education: 11; university college of education: 1; sanskrit colleges: 8.

Type of schools	No. of institutions	Enrolment (in thousands)		No. of trained teachers
		Boys	Girls	
Higher Sec. Schools	2,026	497	182	25,981
Middle/Sr. Basic Schools	8,681	1,006	366	44,528
Primary/Jr. Basic Schools	52,349	2,538	1,220	91,366
Pre-Primary Schools	426	16	13	482

Technical Education: Pre-vocational training centres: 6; secondary technical schools: 14; fine arts colleges: 6; Kala Niketan: 1; polytechnics (including Polytechnic and Kala Niketan): 23; engineering colleges: 9; Govt. women's polytechnic: 1.

Adult Education: Adult literacy classes are run by the gram panchayats, municipalities and non-official agencies for which they receive grants-in-aid. Besides this the departmental gram sevikas also run literacy classes for women in the rural areas. The scheme of farmers functional literacy classes is being run in 85 projects. Out of these 51 which come under state scheme projects are of 100 centres each and 34 projects are of 300 centres each. 12,809 libraries and 3,050 reading rooms are maintained by the *Gram Panchayats* at village level. Education through entertainment is provided by 26 *Kalapathaks*.

Under the Audio Visual Scheme 51 film units have been established in the state. 45 units are running in 45 districts of the state and 6 additional units have been added in 6 scheduled tribe districts.

Universities: *Ravi Shankar Vishwavidyalaya*, Raipur; *Jiyaji Rao Vishwavidyalaya*, Gwalior; *Vikram Vishwavidyalaya*, Ujjain; *Awadesh Pratap Singh Vishwavidyalaya*, Rewa; *Indore Vishwavidyalaya*, Indore; *Jabalpur Vishwavidyalaya*, Jabalpur; *Saugor Vishwavidyalaya*, Saugor; *Jawaharlal Nehru Krishi Vishwavidyalaya*, Jabalpur; *Bhopal Vishwavidyalaya*, Bhopal; *Indira Sangeet Vishwavidyalaya*, Khairagarh; *Guru Ghasidas Vishwavidyalaya*, Bilaspur.

PUBLIC HEALTH (1982)

No. of hospitals and dispensaries: 765; no. of beds: 19,708; no. of allopathic hospitals: 176; no. of rural hospitals: 23; no. of P.H.C., Add. P.H.C., Mini P.H.C.: 1,205; no. of T.B. hospitals and sanatorium: 8; no. of leprosy homes and hospitals: 8; no. of mental hospitals: 2; no. of medical colleges: 6; no. of dental colleges: 1; no. of Govt. doctors: 4,986 (Allopathic); no. of Govt. ayurvedic doctors: 1,441; no. of nurses, midwives, health visitors in Govt. services: 2,267, 5,614 and 1,127 respectively; total no. of patients treated during 1981: indoor: 723,120 (provisional); outdoor: 30,136,978; *dais* trained: 26,615; health guides trained: 13,746; multi-purpose workers (trained): 11,000.

INDUSTRIES

The number of heavy and medium industries in the State is 198 and the number of small-scale industries in production is 77,361. There are in all 23 textile mills in the State, out of which seven are nationalised.

The major industries in the State are the steel plant at Bhilai, the Bharat Heavy Electrical at Bhopal, the aluminium plant at Korba, the security paper mills at Hoshangabad, the currency printing press at Dewas, the newsprint mill at Nepanagar, Orient Paper Mill at Amlai and Alkaloid factory at Neemuch. The eight cement factories are situated at Kymore, Jamul, Banmore, Satna, Tilda, Neemuch, Akaltara and Mandhar. Other large industries include cable factory at Satna, bakery unit, Indore, leather goods factory, Dewas, explosives factory, Korba, paper and pulp products, Bastar, Vehicle Factory, Ordinance Factory, Gun Carriage Factory and Posts and Telegraphs Workshop, Jabalpur.

Medium scale industries are potteries, sugar mills, strawboard mills, refractories, textile machinery, steel casting and rerolling, industrial gases, synthetics and drugs, biscuit manufacturing, engineering tools, mini-steel plants, chemical fertilizer, insecticides and pesticides, solvent extraction plants, rayon and art silk, dry batteries, gears, electrodes and electrical goods.

Cottage Industries: Main cottage industries with location in brackets:— Handlooms spread all over the State but best developed at Chanderi and Maheshwar; power-looms; silk (Raigarh, Champa, Bilaspur, Surguja); mulberry (Indore, Jhabua, Depalpur, Dhar); fine sarees (Chanderi, Maheshwar, Burhanpur); woodwork and lacquerware (Sheopur, Sabalgarh, Budhni, Rewa, Gwalior); wooden toys (Rewa, Bhopal, Gwalior, Ratlam); softstone (Jabalpur, Chhatarpur); lac (Seoni, Raipur, Bilaspur, Umeria and Rewa); saw milling (Betul, Bhopal, Balaghat, Bilaspur, Raipur, Indore, Jabalpur, Saugor and Mandla); brassware (Balaghat, Chhindwara, Indore, Gwalior, Raipur and Chhatarpur); textile hand printing (Ujjain, Mandla, Morena, Indore, Hoshangabad); diamond cutting and polishing (Panna); papier mache (Gwalior, Ujjain, Indore); zari embroidery (Bhopal); art metalware (Batsar, Betul, Hoshangabad, Satna, Mandla); leather toys (Indore).

Industrial Estates: There is a network of industrial estates in the following places: Indore, Gwalior, Raipur, Bhopal, Jabalpur, Bilaspur, Saugor, Ratlam, Katni, Burhanpur, Satna, Vidisha, Guna, Shahdol, Durg, Rajnandgaon, Bhilai, and Ujjain.

Besides 29 semi-urban industrial estates and 31 rural work sheds have also been constructed.

Industrial Development Agencies

(See chapter on 'State Govt. Undertakings'.)

LABOUR (1980)

No. of working factories: 5,643; no. of workers in the factories: 344,110; no. of mandays lost due to industrial disputes (Public

Sector): 78,366; no. of strikes: 30; no. of mandays lost due to industrial disputes (Private Sector): 235,156; no. of strikes: 75; no. of workers involved: 36,377.

COMMUNICATIONS (as on 31st March 1982)

The M.P. State Road Transport Corporation (Habibganj, Bhopal-462006) operates its services on 1,438 routes with 2,669 buses (including 47 deluxe service & carry on an average 433,000 passengers per day and run 580,000 kms. earning an average daily income of Rs. 1,432,000 with a staff of 18,000.

Roads (1981): Surfaced: 48,379 kms.; unsurfaced: 15,000 kms.; total: 63,379 kms. Length of railway lines: 5,690 kms.

GENERAL

Annual Plan: The total Plan outlay for 1983-84 is Rs. 8,550.00 million.

Panchayats: The State Panchayats Act, 1981 envisages a three-tier system of Panchayats viz. gram panchayats at village level, janpad panchayats at block level and zilla panchayats at district level. The gram panchayats have been relimited now and there are 16,729 gram panchayats and 459 janpad panchayats.

Social Welfare: The Directorate runs 6 destitute women's homes, 2 working women's hostels, 25 tailoring centres, 2 rescued women's homes, 2 after-care homes for boys and girls separately, 1 state institute for orphans, 7 homes for healthy children of leprosy patients, 8 *Balwari-cum-Sanskar Kendras* and 8 foster mothers' homes, 23 juvenile courts, 52 probation services, 24 observation homes, 5 children's homes, 3 special schools, 1 after-care home for children released from children's homes and special schools have been established. Besides 8 schools for blind, deaf and mute, 2 homes for orthopaedically handicapped children, 3 homes for mentally retarded children, 1 workshop for adult deaf and mute and one state level institute for physically handicapped have been established.

Social Security Pension: The state government is paying pension to destitutes above the age of 60 and the handicapped persons at a rate of Rs. 60 per month per person.

Nutrition Programme: Special nutrition programme is conducted in the slum areas of 19 cities for the benefit of children below six, pregnant women and lactating mothers. In 1980-81 this has been started in 17 more new towns. Applied nutrition programme is being implemented in rural areas of 155 blocks. Besides 6 rural I.C.D.S. projects for Singroli, Susner, Seoni, Nagod, Dabhra and Damoh blocks and two urban projects for Jabalpur and Dhar towns are in position. Government of India has sanctioned 2 urban and 8 rural I.C.D.S. projects for the year 1982-83.

Minerals: Minerals are rich in south-eastern and eastern areas of the State. The principal deposits are coal, iron-ore, limestone, dolomite, bauxite, copper, phosphorite, felspar, diamond and manganese ore.

Press: Leading dailies and their places of publication:

Hindi: Nava Bharat—Indore/Bhopal/Raipur/Jabalpur; Nai Dunia—Indore; Deshabandhu—Jabalpur/Raipur/Bhopal; Yugadharma—Jabalpur, Raipur; Swadesh—Indore, Gwalior; Naveen Dunia—Jabalpur; Bhaskar—Bhopal.

English: Hitavada—Bhopal; M.P. Chronicle—Bhopal, Raipur; Tribune—Bhopal.

Important Rivers: The Narmada, The Mahanadi, The Tapti.

Minor Rivers: The Chambal, The Kshipra, The Betwa, The Ken, The Sone, The Indravati.

MAHARASHTRA

Under the Bombay Re-organisation Act, 1960, Maharashtra came into existence on May 1, 1960 with the predominant Marathi-speaking areas of Hyderabad (Marathwada) and Madhya Pradesh (Vidarbha) constituting the new State. Additionally, most of the districts of the former Bombay State continued their links with Maharashtra and cosmopolitan Bombay remained the capital. Historically, Vidarbha is often mentioned in Mahabharata. Maharashtra was once part of the Mauryan Empire. Later, under the dynamic leadership of Shivaji, the Marathas became very powerful and was followed by the Peshwas under whom the Marathas continued to be a powerful force. In course of time, the State settled down as part of the Bombay Presidency under the British administration.

CAPITAL: Greater Bombay. **Area:** 603.0 sq. kms.; **Population** (1981 Census): 8,243,405.

Area of the State: 307,690 sq. kms. **Population of the State** (1981 Census): 62,784,171. **Density:** 204 per sq. km. **Sex Ratio:** 938 females per 1,000 males. **Literacy:** 47.02 per cent.

Districts: 30 (301 *tehsils* including 3 *tehsils* in Gr. Bombay Dist., and 66 *tehsils* newly created after reorganisation of Nagpur and Amravati divisions).

Name of the district	Area in sq. kms.	Population (revised 1981 census)
Greater Bombay	603	82,43,405
Thane	9,558	33,51,562
Raigad	7,148	14,86,452
Ratnagiri	8,249	13,79,655

AGRICULTURE

Classification of land and area in '000 hectares for 1978-79 respectively are:

Total Geographical area: 30,758; area under forests: 5,326; net area sown: 18,248; gross cropped area: 19,915; barren and unculturable land: 1,740; land put to non-agricultural uses: 1,026; culturable waste: 995; land under miscellaneous tree crops etc.: 210; permanent pastures and other grazing lands: 1,569; current fallows: 779; other fallows: 865; area sown more than once: 1,666.

Area irrigated by source (1976-77): *(i)* Surface irrigation: Net 741,300 hectares; Gross: 882,700 hectares; *(ii)* Well Irrigation: Net 1,091,900 hectares; Gross: 1,359,300 hectares; Total: Net 1,833,200 hectares; Gross: 2,242,000 hectares.

Area Irrigated (1978-79) (Provisional): *(i)* Surface irrigation: Net 830,000 hectares; *(ii)* Well irrigation: Net 1,097,000 hectares; Total: 1,927,000 hectares.

Area Irrigated by crops during 1976-77 (In '000 hectares): Rice 376.7; wheat 519.8; jowar 380.2; sugarcane 297.9; cotton 644.8; groundnut 33.2.

Land Ceiling: The revised ceiling law came into force in the State on Oct. 2, 1975. The ceilings for various categories of alnd (in hectares) are as follows: Perennially irrigated land: 7.2; seasonally irrigated land: 10.9; land with unassured irrigation or land under paddy crop in assured rainfall area: 14.57; other dry crop land: 21.853.

Surplus land: Under the principal as well as the revised Act, 0.281 million hectares were declared surplus till the end of March 1982. Of these 0.183 million hectares have been allotted to 109,000 landless and other persons. Besides, 34.5 thousand hectares of land (sugarcane farms) have been granted to the State Farming Corporation. Of the land allotted to individual allottees t November 1982, 50 thousand hectares were allotted to 30.50 scheduled caste allottees and 31 thousand hectares to 22,000 schedul tribe allottees.

(See main chapter on 'Food & Agriculture' for details o production etc.)

Livestock (1978) (in million): Cattle 15.22; buffaloes 3.90; shee 2.64; goats 7.56; horses and ponies 0.048; pigs 0.226; poultry 18.7

DAIRY DEVELOPMENT

There are 32 Government milk schemes functioning at Bomba Pune, Dhule, Nashik, Vani, Mahad, Khalapur, Ratnagiri, Chiplu Kankavali, Chalisgaon, Ahmednagar, Satara, Mahableshwa Miraj, Solapur, Kolhapur, Nandurbar, Akola, Amravati, Aura gabad, Nagpur, Wardha, Gondia, Beed, Parbhani, Nanded, Ud Bhoom, Chandrapur and Dapchari. The dairy developme activities in Jalgaon and Kolhapur districts are looked after by th district cooperative federations. There are 76 chilling centres various districts of the State with a total capacity of 0.84 milli litres of milk.

Milk Procurement: The average quantity of milk procured dail under all the Government Milk Schemes (except Greater Bomba Milk Scheme) during November 1981 was 1,014 kilolitres as again 999 kilolitres procured during November, 1980.

Greater Bombay Milk Scheme: All the three dairies at Aare Worli and Kurla under Greater Bombay Milk Scheme put togethe received 1,006 kilolitres of milk daily in November, 1981 as again the receipt of 998 kilolitres in November, 1980. In November, 198 the G.B.M.S. distributed about 970 kilolitres of milk daily against 967 kilolitres distributed in November, 1980. The schem also manufactures and markets ice cream, *shrikhand, panee* cheese, *masala* milk and flavoured sweetened milk calle "Energee".

From June 15, 1983 a fourth dairy has been commissioned Goregaon with a capacity of 200,000 litres. With the inauguratio of this scheme Government milk is now being sold through shops well.

Dairy Science Institute: The Institute (at Aarey Milk Colony imparts training to students leading to Diploma in Dair Technology and one year Livestock Supervisor's course.

Milk Powder Plants: There are three milk powder manufacturin plants in the public sector at Miraj, Udgir and Nagpur with capacit to produce 10, 10 and 5 tonnes respectively of milk powder dail Two milk powder plants are functioning in cooperative sector Jalgaon and Waranangar each having capacity to produce daily tonnes milk powder.

New Milk Schemes: Of the total 32 milk schemes, 5 new dairie were commissioned at Satara, Parbhani, Nandurbar, Gondi (Bhandara) and Chandrapur in 1979-80 and one at Goregao (Bombay) in 1983.

Worli Dairy: The dairy started functioning from 7th Nov., 1961. I has pasteurising capacity of 66,000 litres per hour, while the tot handling capacity is of 450,000 litres per day. There are tw packaging systems in operation viz. bottling and satchet filling. Th bottling capacity is 112,000 litres per hour and the satchet fillin capacity is 25,000 litres per hour.

Kurla Dairy: The dairy was commissioned on 9th Feb., 1976. It ha a packing capacity of 400,000 litres per day, in fill-packs. The dair caters to the needs of consumers in central suburbs and other tow viz. Thane, Kalyan, Dombivli, Ulhasnagar, Bhiwandi.

Central Dairy, Aarey: This dairy was commissioned on 3rd Marc 1951. This dairy, catering to the needs of consumers in wester suburbs from Bandra to Dahisar and Vasai, has a capacity t pasteurise 32,000 litres of milk per hour with total handlin capacity of 250,000 litres per day.

Goregaon Dairy: This dairy was commissioned on June 15, 1983. I has a packing capacity of 200,000 litres per day.

IRRIGATION AND POWER (See Chapter on 'Energy'.)

Electricity Supply: Installed capacity (Thousand kilowatt) as at the end of March 1982*: Steam 3,101; Hydro 1,317; Nuclear 210; Total 4,628.

Village Electrification: Out of total 38,661 villages in the State 29,139 had been electrified upto March 1982.

Consumption during 1981-82* (Million Kwh) was: Domestic light and small power 1,958; Commercial light and small power 1,104; Industrial power 8,618; Public lighting 169; Traction 729; Irrigation and dewatering 1,882; Water works 353; Miscellaneous 212; Total 15,026.

INDUSTRIES

Textiles, food industries, general and electrical engineering, petroleum, transport and transport equipment, sugar factories and refineries, rubber products, basic industrial chemicals, paints, varnishes, lacquers and miscellaneous chemical products are the major industries of the State.

Working factories (as on 31-12-1981): No. of working factories: 16,594; average daily employment (in thousands): 1,192.

Large and Medium Industries: Distribution of working factories districtwise is as follows (1980):

Greater Bombay: 7,382; Thane: 1,220; Kulaba: 148; Ratnagiri: 93; Nashik: 626; Dhule: 105; Jalgaon: 179; Ahmednagar: 166; Pune: 1,398; Satara: 113; Sangli: 229; Solapur: 1,178; Kolhapur: 491; Aurangabad: 229; Parbhani: 63; Beed: 37; Nanded: 69; Osmanabad: 40; Buldana: 90; Akola: 165; Amravati: 145; Yavatmal: 103; Wardha: 52; Nagpur: 467; Bhandara: 252; Chandrapur: 130; Maharashtra State: 15,170.

No. of **working factories in major groups of industries** as on 31-12-1980:

Agricultural production 3; agricultural services 14; forestry and logging 5; other mining 7; manufacture of food products 1,732; beverages, tobacco and tobacco products 57; cotton textiles 2,247; wool, silk and synthetic fibre textiles 784; jute, hemp and mesta textiles 4; textile products (including wearing apparel other than footwear) 620; wood and wood products, furniture & fixture 318; paper and paper products and printing publishing and allied industries 1,024; leather and fur products (except repair) 72; rubber, plastic, petroleum and coal products 837; chemicals and chemical products (except products of petroleum and coal) 980; non-metallic mineral products 801; basic metal and alloys industry 667; metal products and parts except machinery 1,395; machinery, machine tools and parts except electrical machinery 1,396; electrical machinery, apparatus, appliances and supplies and parts 786; transport equipment and parts 249; other manufacturing industries 431; electricity 114; gas and steam 15; water works and supply 48; construction 2; activities allied to construction 3; wholesale trade in fuel, chemical perfumery, ceramic glass 4; wholesale trade in wood, paper, other fabrics, skin and inedible oil 9; wholesale trade in misc. manufacturing 2; retail trade in fuel and other household utilities and durables 2; retail trade in others 6; land transport 1; water transport 1; air transport 5; services incidental to transport 2; storage and warehousing 25; communications 1; real estate and business services 25; sanitary services 16; education and scientific research services 2; medical and health services 5; community services 1; recreation and cultural services 19; personal services 26; repair services 396; international and other extra territorial bodies 2; services not elsewhere classified 7; activities not adequately defined 2; Total: 15,170.

Joint Stock Companies: No. of joint stock companies at work as on 31st March 1982: 16,976; Paid up capital: Rs. 18,520 million (data provisional).

Industrial Estates: 77 estates have been approved in the State. The Development works were in progress in 59 areas by the end of 1980-81 and by the end of March 1981 Maharashtra Industrial Development Corporation had allotted 9,777 plots. Of the 77 Estates 58 are partially functioning and by the end of March 1981, 3,006 sheds were constructed in which 2,323 industrial units were functioning.

Industrial Estates: Eighty-three estates have been approved in the State. The production work has started in 58 of these estates and the primary work at 23 estates is in progress and 2 estates have gone in liquidation. The Maharashtra Industrial Development Corporation had allotted 11,927 plots by the end of March 1982, 3,107 sheds were constructed in which 2,371 industrial units were functioning.

Industrial Development Agencies: See chapter on 'State Govt. Undertakings'.

LABOUR

Trade Unions: No. of registered trade unions: 3,476. Total membership of registered trade unions: 2,091,913. No. of registered trade unions affiliated to Indian National Trade Union Congress: 160, with membership of 398,135. No. of registered trade unions affiliated to All India Trade Union Congress: 87, with membership of 108,212. No. of registered trade unions affiliated to Hind Mazdoor Sabha: 61, with membership of 358,648. No. of registered trade unions affiliated to Hind Mazdoor Panchayat: 4, with membership of 47,422. No. of registered trade unions affiliated to C.I.T.U.: 29, with membership of 39,725. No. of registered trade unions affiliated to United Trade Union Congress: 3, with membership of 3,703. No. of registered trade unions affiliated to Bharatiya Mazdoor Sangh: 121, with membership of 179,647.

The table below gives the average daily number of workers employed in various industries (as on Dec. 31, 1981*).

Industry	Average daily no. of workers employed as on 31.12.1981
Manufacture of food products	883
Manufacture of beverages, tobacco and tobacco products	82
Manufacture of cotton textiles	2,804
Manufacture of wool, silk and synthetic fibre textiles	496
Manufacture of textile products	254
Manufacture of wood and wood products, furniture and fixture	75
Manufacture of paper and paper products, printing, publishing and allied industries	549
Manufacture of leather, leather and fur products (except repairs)	25
Manufacture of rubber, plastic, petroleum and coal products	421
Manufacture of chemicals and chemical products	1,059
Manufacture of non-metallic mineral products	403
Basic metal and alloys industries	689
Manufacture of metal products and parts (except machinery and transport equipment)	621
Manufacture of machinery, machine tools and parts (except electrical machinery)	1,101
Manufacture of electrical machinery apparatus, appliances, supplies and parts	685
Manufacture of transport equipments and parts	903
Other manufacturing industries	209
Others	663
Total	11,921

*Provisional.

Provisional

Industrial Disputes during 1980 (Provisional): During the year 1980, there were 336 work-stoppages (strikes and lock-outs) involving 198,056 workers with a time loss of 3.15 million mandays. Figures for 1979 were 383 work-stoppages (strikes and lock-outs) involving 204,794 workers with a time loss of 1.54 million mandays.

Employment Exchange Statistics (1982-83): No. of registrations 609,007; no. of placements 41,936; no. of vacancies notified 84,187; no. on live register as on 31st March, 1983: 1,582,845.

Educational Break-up of Unemployed (No. on live register at the end of June, 1982): Non-matric including illiterate: 755,794; matriculates: 537,836; intermediates: 71,985; engineering diploma holders: 8,043; I.T.I. passed and apprentices trained under Apprenticeship Act: 30,162; engineering graduates: 1,249; other graduates: 104,465; total graduates: 105,714; engineering post-graduates: 20; other post-graduates: 13,079: total post-graduates: 13,099; Grand total: 1,522,633.

Private Sector Employment: The total employment was 1.4 million at the end of March 1982.

Public Sector Employment: The total employment was 1.9 million at the end of March 1982 of this 25.4 per cent was in Central Government, 21.5 per cent was in State Government, 16.9 per cent was in Central Quasi Government, 10.2 per cent was in State Quasi Government and 26.0 per cent was in Local Bodies.

Employment Promotion Programme: The State Government provided Rs. 35.5 million as financial help to 13,514 educated unemployed since 1972 to start their own enterprises (industrial or business) and thereby 12,964 units were established uptill September 1976.

EDUCATION

Technical Education (1982-83): Category-wise number of institutions: Engineering colleges: 9; other degree colleges: 7; autonomous governing bodies: 9; polytechnics: 33; other diploma institutions: 39; technical high schools: 182; industrial training institutions: 89; others: 1,381; Total: 1,749.

Universities

1. University of Bombay (established in 1857) has jurisdiction over Bombay. Nine colleges of Goa are also affiliated.

2. University of Poona, Pune (established in 1948) has jurisdiction over Pune, Ahmednagar, Jalgaon, Dhule, Thane, Nashik and Raigad districts.

3. Nagpur University, Nagpur (established in 1925) has jurisdiction over the districts of Akola, Buldana, Amravati, Nagpur, Bhandara, Yavatmal, Wardha, Chandrapur and Rajura taluka of Vidarbha area.

4. Marathwada University, Aurangabad (established in 1948) has jurisdiction over the five districts of Marathwada area viz. Aurangabad, Beed, Nanded, Osmanabad and Parbhani.

5. Shivaji University, Kolhapur (established in 1963) has jurisdiction over Kolhapur, Solapur, Satara, Sangli and Ratnagiri districts.

6. Shrimati Nathibai Damodar Thackersey Women's University, Bombay (established in 1949), is exclusively for women and has unrestricted territorial jurisdiction.

7. Mahatma Phule Agricultural University, Rahuri, Ahmednagar district (established in 1968).

8. Punjabrao Deshmukh Agricultural University, Akola (established in 1969) has jurisdiction over revenue divisions of Nagpur and Aurangabad.

9. Konkan Agricultural University (Krishi Vidyapeeth), Dapoli, Ratnagiri District (established in 1972) has jurisdiction over the districts of Thane, Raigad, Ratnagiri & Gr. Bombay.

10. Marathwada Agricultural University, Parbhani (established in 1972) has jurisdiction over five districts of Aurangabad Revenue division of Maharashtra.

Teaching Institutions (1981-82):

Type	Number	Enrolment
Schools:		
Pre-Primary	660	65,577
Primary	51,534	8,673,606
Secondary	6,237	3,521,715
Colleges:		
Teachers Training	206	24,277
Higher Education	705	614,097
Professional:		
Professional and Special Education	1,271	127,392

PUBLIC HEALTH

Total No. of allopathic medical practitioners registered a Maharashtra Medical Council, Bombay upto April, 1983: N.A . Total No. of doctors at Government Teaching Hospitals and Dispensaries: Full time: N.A.; honorary: 437; professors: 178 lecturers: 761; associate professors: 148; readers: 496.

Total No. of Nursing staff in Government Teaching Hospitals and Dispensaries: Staff nurses: 3,037; Public Health nurses: 31 paediatric nurses: 28; psy. nurses: 1; ward sisters: 405; matrons gazetted: 20; assistant matrons: 7.

Total No. of Government Medical colleges: 8; seats allotted 985; Dental colleges: 3; seats allotted: 160.

	Hospitals		Dispensaries		Total	
	No.	Beds	No.	Beds	No.	Beds
State Govt. (teaching hospitals)	11	8,294	8	192	19	8,486
Central Govt.			Not available			
Mun. & Local bodies			-do-			
Others (excluding private agencies) Govt.			-do-			

Non-Allopathic Medical Colleges, Hospitals and Dispensaries:

Ayurvedic: No. of Government Colleges: 3; Private Colleges: 14; tota no. of seats provided in Government Colleges (Ayurvedic): 160; tota no. of seats in aided Ayurvedic Colleges: 685; no. of Governmen hospitals: 3; Government aided hospitals: 14; Research ward (Government): 1; total no. of beds: 1,672; *Zilla Parishad* dispensaries: 432; no. of licentiate doctors: 25,030.

Homoeopathy: No. of private homoeopathic colleges: 24; no. of seats provided: 1,255; no. of homoeopathic hospitals: 23; no. of Government homoeopathic hospitals: 1; total no. of beds: 30; no of licentiate doctors: 7,778.

Unani: No. of unani colleges (private): 1; total no. of seats provided in the college: 45; no. of beds in unani hospital: 45; no. o *Zilla Parishad* aided unani dispensaries: 30; total no. of licentiate doctors: 390.

Family Welfare Programme (1981-82): Number of family planning centres in Maharashtra: 655; sterilisation operations performed (during 1981-82): vasectomy: 199,360; tubectomy: 295,244; total 494,604; I.U.C.D. insertions: 40,698.

COMMUNICATION

Nationalised Road Transport: A single transport corporation for the entire State, known as the Maharashtra State Road Transport Corporation came into existence on 1st July, 1961. This is the biggest road transport organisation in India.

Nationalised road transport position as on 31st March, 1982 is as follows: No. of routes: 11,070; route distance: 711,606 kms; average no. of vehicles on road per day during 1981-82: 8,652; average daily earnings: Rs. 7.671 million in 1981-82; average no. of passengers carried per day in 1981-82: 3.494 million.

Length of Motorable Roads

Items	As on 31st March, 1982 (Provisional)
National highways	2,945
State highways	19,133
Major district roads	25,427
Other district roads	25,735
Village roads	28,611
Total	101,851

In addition the public works department and *Zilla Parishad* maintain 41.10 thousand kms. of road length as on 31st March, 1982 making the total road length in the State 142,953 Kms.

Besides, roads maintained as on 31st March, 1982 by other agencies in Maharashtra were as under:

Municipal Councils and Corporations: 10,975 Kms.; forest department: 13,998 Kms.; irrigation department: 2,056 Kms.; railways: 393 Kms.; total: 27,422 Kms.

Railways (as on 31.3.1982): Total length: 5,234 Kms. Zonewise: Central Railway: 3,050 Kms.; Western Railway: 351 Kms.; South Central Railway: 1,156 Kms.; South Eastern Railway: 677 Kms.

Number of Vehicles	As on 1st January 1983
Motor cycles	241,811
Scooters	241,163
Motor cars	250,975
Taxi cabs	35,846
Auto rickshaws	46,497

GENERAL

State Income: According to current prices the State Income was: 1980-81: Rs. 141,515 million and per capita income Rs. 2,293.6 (Provisional).

1981-82: Rs. 158,863 million and per capita income Rs. 2,519.2 (Preliminary).

Village Panchayats: There were 24,426 village *Panchayats* in Maharashtra State at the end of 1981-82, and 296 *Panchayat Samities* covering 41,833 villages.

Municipal Corporations and Councils: There are nine municipal corporations viz., Gr. Bombay, Thane, Pune, Solapur, Nagpur, Kolhapur, Nashik, Pimpri-Chinchwad and 222 municipal councils and seven cantonment boards.

Minerals: The potential mineral bearing area in Maharashtra is about 38 thousand sq. kms. i.e. 12 per cent of the total area of the

State. The estimated reserves of important minerals in the State are as below (in million tonnes)

Coal 2,622; Iron ore (Haematite)* 225.49; Manganese ore* 15.83; Bauxite* 88.39; Limestone 3,484.80; Silica sand 47.75; Kyanite and Sillimanite* 2.49; Dolomite* 345.73.

The Sixth Plan: Approved outlay for the State is Rs. 61,750 million, distributed as follows: Industry and mining Rs. 1,921.6 million; Agriculture and allied programme Rs. 5,033.5 million; Employment Guarantee scheme Rs. 4,500 million; Social and community service Rs. 11,999.5 million; Irrigation Rs. 11,392.6 million; Power development Rs. 21,570 million; Cooperation Rs.574.4 million; Transport and Communication Rs. 4,406 million; and others Rs. 352.4 million.

Annual Plan (1983-84): The approved outlay for the Annual Plan is Rs. 15,000 million. For 1982-83 anticipated expenditure is Rs. 13,576.7 million. For 1983-84, approved outlay for agriculture and allied programme, Rs. 1,801.1 million; co-operation, Rs. 221.3 million; water and power development, Rs. 7,487.9 million; industry and mining, Rs. 499.4 million; transport and communications, Rs. 837.8 million; social and community services, Rs. 3,993.9 million; economic services, Rs. 13.6 million and general services, Rs. 145 million.

Rivers: The Godavari, the Tapti, the Panjhra, the Girna, the Purna, the Wardha, the Wainganga, the Indravati, the Pranhita, the Penganga, the Pravara, the Manjra, the Bhima, the Sina, the Varna, the Ghatprabha, the Mula, the Dudna, the Ghod, the Kadam, the Nira, the Tirna and the Krishna.

MANIPUR

The political history of Manipur dates back to the first half of the first century AD. Later, it was divided into seven principalities. It was formerly under the control of the Government of India. On August 15, 1947, it entered into interim arrangements with the Indian Union and the political agency ceased to function. It was made Union Territory under the States Reorganisation Act, 1956, and became a full-fledged State on January 21, 1972.

CAPITAL: Imphal. **Area:** 17.48 sq. kms.; **Population** (1971 census): 100,366.

Area of the State: 22,356 sq. kms. **Population of the State** (1981 census): 1,433,691; **Density:** 64 per sq. km.; **Sex Ratio:** 972 females per 1,000 males; **Literacy:** 41.99 per cent.

Districts: Manipur has been reorganised into eight districts, two new districts of Imphal South and Imphal West, being created in May, 1983. Manipur Central district has been split up into three districts. The names of the present districts are Manipur Central, Imphal South, Imphal West, Manipur East, Manipur North, Manipur West, Manipur South and Tengnoupal. The headquarters of the two new districts will be Thoubal for Imphal South and Bishenpur for Imphal West.

Major City: Imphal.

Villages: There are 1,949 villages in the State.

State Boundaries: Manipur is bound in the north by Nagaland, in the south by Mizoram, in the east by Upper Burma and in the west by Cachar district of Assam.

State Languages: Manipuri and English are the official languages though several different dialects are spoken. Hindi is becoming gradually prevalent.

AGRICULTURE

The principal crops are paddy and maize. After the end of the Fourth Plan considerable land has been brought under Japanese method of cultivation, double-cropping and use of improved seeds and green manure. 105 minor irrigation schemes are being taken up in the valley areas to increase food production. Out of the total area of 22,356 sq. km. the area under agriculture is 210,000 hectares. Foodgrain production during 1977-78 was 39.4 million tonnes against base level production of 274,000 tonnes. In 1982 Rs. 0.150 million was allotted for raising the production of pulses and oilseeds.

A Plantation Crop Corporation has been set up to promote tea and coffee estates in the State. An area of 50,000 hectares have been identified as suitable land and Government proposes to set up three tea plantations during the Sixth Plan period.

IRRIGATION & POWER

There are seven projects under Major and Medium Irrigation Programme. They are Loktak Lift Irrigation Project, Singda Multi-purpose Project, Imphal Barrage Project, Khopum Dam Project, Sekmai Barrage Project, Thoubal Multipurpose Project and Khuga Irrigation Project. Among the projects under consideration, the Chakpi Multipurpose Project and the Irril Project are the most important. The first phase of the Loktak Lift Irrigation Project had been commissioned by May, 1979 to irrigate about 2,000 hectares of land. When completed this 105 MW hydro-electric project will help lift irrigation for 40,000 hectares of land while Khuga dam will bring 9,500 hectares under irrigation. Khoupum Dam Project was inaugurated in 1978 and would provide irrigation to 1,000 hectares. With the completion of all these projects irrigation facility would be extended to 142,000 hectares. In 1982 Rs. 0.125 million was allotted for the development of minor irrigation schemes. The total investment in irrigation sector was Rs. 740 million during 1982-83.

The investment during 1976-77 was Rs. 38.2 million. The total investment during the Fifth Five Year Plan on major and medium irrigation projects alone will be about Rs. 225.00 million.

The total installed capacity of power both hydel and thermal in 1976-77 was 10,838 KW. It was increased to 14,837 KW. in 1981-82. Manipur had only 9 electrified villages before 1951. The number increased to 274 during 1978-79.

The Planning Commission has approved a scheme for taking up a multi-purpose project across the Thoubal River at Phayeng costing about Rs. 472.5 million with irrigation plotential of about 33,400 hectares.

Forests: Manipur forests are rich in bamboo, cane, teak, *jurjan*, pine and varieties of timber. Of the total area of 22,356 sq. kms. forests occupy about 15,154 sq. kms. Bamboo and cane, over an area of 2,585 sq. kms., are available in abundance in the south-western hill ranges, especially in the Jiri and Barak river drainage area, yielding about 300,000 tonnes annually.

During 1977-78, 15 development schemes with an outlay of Rs. 4.2 million were taken up.

The revenue from forests in 1981-82 was Rs. 3,900,000.

Fisheries: More than 75 per cent of the population consume fish. The total annual consumption is estimated to be 13,935 quintals, while the total yield was about 3,000 tonnes in 1979-80. There are 24 fishing units registered with the Fishery Department, Manipur. 5.50 million fish fingerlings and 2,500 tonnes of fish were produced during 1979-80 earning a revenue of Rs. 802,000.

INDUSTRY

The total Annual Plan 1977-78 allocation for Industries as a whole was Rs. 12.62 million excluding sericulture. Out of this amount Rs. 7.60 million had been provided for large & medium industries and Rs. 5.02 million for village & small industries sector. Another Rs. 5.287 million has been earmarked for centrally sponsored schemes.

---

*Reserves for these minerals are as on 1st January, 1980. For other minerals the information is based on the latest available data.

Large & Medium Industries: In the field of large and medium industries, a *khandsari* unit with 60 tonnes per day crushing capacity started production in 1976. A spinning mill with 25,000 spindle capacity is being started. Steps have also been taken to start a mini-cement plant in each district of manipur which will utilise the substantial limestone deposit. Action has also been taken to install a starch and glucose factory with a plant capacity of 60 tonnes per day. A sugar factory at Bishenpur with crushing capacity of 1,250 tons a day is envisaged while a 5.879 million mechanised dye-house is to be set up by Manipur Handloom and Handicrafts Development Corporation at Irosmeba.

Village & Small Industries: Handloom is the biggest industry in Manipur. There are more than 200,000 registered looms in the State and 500 weavers' co-operative societies.

For the development of handloom the Manipur Handloom and Handicrafts Development Corporation has been set up.

One intensive handloom development project has been taken up. Under the project 10 handloom extension centres at different places have been opened with 100 looms per centre to be expanded to 1,000 looms per centre within five years commencing from the year 1978-79. Government of India has sanctioned Rs. 18.5 million for this project.

A handloom export oriented project for production of exportable varieties/designs has been sanctioned by the Government of India. It will have 10,000 looms.

Handicrafts: One handicrafts design centre, one dolls and toys production centre and two bamboo and cane training centres have been established.

Small Scale Industries: The small industries include carpentry, blacksmithy, embroidery, brick-making, tailoring and cutting, goldsmithy, repairing and servicing of vehicles, tin smithy.

Manipur Small Industries Corpn. arranges the supply of scarce raw materials and marketing of the finished products.

Training-cum-production centres in various trades have been set up both in the valley and the hill areas. Altogether 35 such training centres are functioning.

To accelerate the development of small scale industries an Industrial Advisory Board has been set up and the jurisdiction of Assam Financial Corporation extended to Manipur.

Industrial Estate: Industrial Estate at Takyelpat, Imphal provides industrial sheds at concessional rates to small scale units. 28 such sheds have been constructed and allocated.

Tribal Development (Sub-plan): For the development of tribal population a tribal sub-plan has been formulated in the industrial field. Under this plan co-operative saw mill-cum-carpentry units have been set up at Keithelmanbi, Tamonglong, Tengnoupal (Chakpi), Ukhrul and a leather training-cum-processing unit at Churachandpur.

A tribal emporium at Imphal under the Directorate of Industries facilitates sales of tribal handloom cloth and handicrafts products.

Khadi and Village Industries: There are 121 hand pounding co-operative societies including one at the apex level, 6 pottery co-operative societies, 7 gur and khandsari co-operative societies, 6 khadi institutions and co-operatives, 5 hide flaying and leather co-operative societies, 2 non-edible oil and soap making institutions and one co-operative society, 32 edible oil crushing co-operative societies including 2 at the apex level and 2 match making co-operative societies. There are also 42 individuals in the bee-keeping trade.

The Sixth Plan: Outlay for the State is Rs. 2,400 million.

Annual Plan: The outlay for the Annual Plan for 1983-84: Rs. 510 million.

Sericulture: Manipur is the first to introduce Oak *Tasar* industry. There are 54 *tasar* farms which produce about 30 million *tasar* cocoons valued at Rs. 2.0 million. About 5,000 tribals thus find subsidy occupation. Rs. 516 million has been earmarked for *Tasar*-silk production in the Sixth Plan.

Labour: Following are the number of workers engaged in different fields (male and female respectively).

Total no. of workers: 245,435; 125,428; cultivators: 167,038; 81,442; agricultural labourers: 8,662; 4,863; other workers: 69,735; 39,123

EDUCATION

There are 3,533 primary schools, 391 middle schools, 264 high and higher secondary schools, 35 colleges and 5 science colleges (1979-80).

University Education: The Jawaharlal Nehru University has been merged with Manipur University on 1st April, 1981.

PUBLIC HEALTH

There are 39 hospitals, including Primary Health Centres and 115 Primary Health Sub-Centres. Besides there are 170 dispensaries in the State (1979-80).

COMMUNICATIONS

Manipur will appear on the rail map with the connection of Jiribam with Silchar. The other surface communication is the 215 km. Imphal—Dimapur road. A national highway also passes through the State. A second road is now being improved which will link Cachar district of Assam with Manipur. There are five principal private operators of motor transport in the cooperative sector, besides the Manipur State Road Transport Corporation.

Two land routes from Burma pass through the State. There are air services at regular intervals between Imphal-Silchar, Imphal-Calcutta and Imphal-Gauhati.

GENERAL

With the passing of the North-Eastern Areas (Reorganisation) Bill on 21-12-1971, Manipur became a full-fledged State, and was formally inaugurated by Prime Minister, Mrs. Indira Gandhi, on 21-1-1972.

Climate: Varied temperatures. The valleys are hot and the hills are cold. Average rainfall is 162.6 cms.

Important Rivers: The Iril, the Thoubal, the Imphal, the Barak, the Nambul, the Leimakhong and the Khuga.

Lakes: The Loktak lake covers about 104 sq. kms during rainy season and 64 sq. kms. during dry season. The other important lakes are Walthou, Ushoipokpi, Ikop, Laidokan and Pumlen.

Minerals: Geological mapping and mineral investigation conducted by the Geological Survey of India indicated availability of high quality of limestone at different places in the State in sufficient quantities to start a small cement plant. Salt mines abound in Ningel, Sikhong, Waikhong and Chandrakhong. Iron-ore and lime-stone are available at Kakching while chromium and nickel are found in Tengoupal.

Tribes: Main population consists of the Meiteis inhabiting the valley with some 29 tribes and sub-tribes known by the generic name of Kukis and Nagas.

Important Tourist Centres: Keibul lamjeo, Phubala Tourist Home, Sendra Tourist Home, Waithou Tourist Home, Gobindajee Temple, War Cemetery and Kaina tourist Home. A Tourist lodge has been set up and it is going to be expanded. A Youth Hostel and a Three Star Hostel is being set up very shortly.

Horticulture: In the field of horticulture the State produces pineapples, oranges, bananas, mangoes, and other varieties of fruits. The Government has allocated Rs. 5 million for production of fruits in 1982-83.

MEGHALAYA

Meghalaya, meaning "the abode of the clouds" which consists of the former Garo Hills district and the United Khasi and Jaintia Hills district of Assam was created under the Assam Reorganisation (Meghalaya) Act, 1969 and was inaugurated on April 2, 1970. It became a State of the Indian Union on January 21, 1972. It is one of the "seven sisters of the north-east", the others being Assam, Nagaland, Manipur, Tripura, Arunachal Pradesh and Mizoram. They are bounded by Tibet, Bhutan and China on the north, Burma on the east and Bangladesh on the west.

CAPITAL: Shillong. **Area:** 21.27 sq. kms.; **Population** (1971 census). 122,752.

Area of the State: 22,489 sq. kms: **Population of the State** (1981 census): 1,327,874; **Density:** 59 per sq. km.: **Sex Ratio:** 956 females per 1,000 males; **Literacy:** 33.22 per cent.

Districts	Headquarters	Area in sq. kms.	Population (1971 census)
East Khasi Hills	Shillong	11,168	491,209
West Khasi Hills	Nongstoin		
East Garo Hills	William nagar	8,084	406,615
West Garo Hills	Tura	3,295	113,875
Jaintia Hills	Jowai		

Major Cities with their Population (1971 census): Tura: 15,489: Jowai: 8,929.

State Boundaries: Bound by Bangladesh in the south and west. Goalpara. Kamrup districts of Assam in the north and United Mikir and North Cachar Hill districts of Assam in the east.

State Language: English is being used for all official purposes at the State level. The State has not enacted any legislation on official language. The principal languages spoken are Khasi. Jaintia and Garo.

AGRICULTURE

Eighty-five per cent of the population lives in rural areas and depends on agricultural produce for their livelihood.

Following are some of the crops grown:

Grains: Rice, maize, millets and wheat.

Fruits: Citrus, pineapple, bananas, pears, peaches, plums and apples.

Cash & Commercial Crops: Potatoes, jute and mesta, short-stapled cotton, mustard, arecanut, ginger, turmeric, black pepper, pipul, bay leaves etc.

LIVESTOCK

The State has 21,000 sheep, 39,593 buffaloes, 151,313 pigs and more than 478,000 cattle.

DAIRYING

It provides bulk of Assam's milk supply. Meghalaya has launched a Rs. 8.2 million Indo-Danish project for the development of cattle. A dairy extension unit at Jowai produces butter, ghee and cream.

IRRIGATION

A number of minor irrigation projects cover approximately 18,500 hectares of land. More projects will be taken up in phases covering both lift and flow irrigation.

POWER

The state now has six projects in hand with the installed generation capacity of 132.1 MW. The Myntdu hydel project in the Jaintia Hills (42 MW) and Kynshi project in the west Khasi Hills (75 MW) are under investigation.

INDUSTRIES

Some of them are: The Meghalaya Plywoods Ltd.; The Komorrah Limestone Mining Co. Ltd.; The Associated Beverages (P) Ltd.; The Meghalaya Essential Oils & Chemicals Ltd.; The Meghalaya Phyto-Chemicals Ltd.

The public-sector Mawmluh-Cherra Cements Ltd., at Cherapun with an installed capacity of 250 tonnes a day is being expanded t 930 tonnes per day. Further the Govt. has decided to set up two min cement plants with a total capacity of 800 tonnes a day at Garo Hil and Jaintia Hills. A number of small industrial establishments lik saw mills, food processing units, bone mill, cotton ginning, bakeries etc., are also to be found in Meghalaya.

Proposals are also afoot to set up industries based on lemon gras oil, ginger oleo-resin and emetine hydrochloride.

An industrial area in Burnihat, about 80 kms. from Shillong o the Gauhati-Shillong road, is being developed and two industria estates, one at Shillong and the other at Mendipathar in Garo Hill district, are being established.

At present there are 644 small industrial units in the State out c which 547 are in the Khasi Hills, 43 in Garo Hills, and 54 in Jainti Hills.

EDUCATION

The North-Eastern Hill University at Shillong offers upto post graduate education. The Central Institute of English and Foreig Languages has also set up its branch in Shillong.

The State has at present 15 colleges, one post-graduate trainin college, 225 high/higher secondary schools, 575 middle/senior bas schools, one polytechnic, one industrial training institute and 3,24 lower primary schools.

Percentage of literacy in the State is 33.22 which compare favourably with the all-India average of 23.95 per cent.

PUBLIC HEALTH

There are 9 government hospitals, 25 primary health centres an 57 dispensaries. The number of beds in the government hospitals i 1,406. There are three training institutes for nurses with 70 seats There are also a number of private hospitals.

MINERAL WEALTH

Major mineral resources are coal, limestone, sillimanite associated with corundum, fireclay, felspar, quartz, glass sand an kaolin. The estimated reserves of coal are about 450 millio tonnes. Limestone reserves are about 4,000 million tonnes and cla deposits 6.7 million tonnes.

ANNUAL PLAN

1983-84: The outlay for the Annual Plan is Rs.563.2 millio

GENERAL

The hill State of Meghalaya was created under the Assam Reorganisation (Meghalaya) Act, 1969 of Parliament passed on Decembe 24, 1969. It was inaugurated by the Prime Minister Mrs. Indir Gandhi on April 2, 1970 as an autonomous State and subsequentl was made a full-fledged State on January 21, 1972.

The population of Meghalaya predominantly consists of th Khasi, Jaintia and Garo tribals.

Cherrapunji, one of the urban centres of the State, has the world' highest rainfall of 10,870 mms.

Rivers: The Bogapani, the Kynshi, the Kupli, the Digru, the Jinjira and the Simsang.

MIZORAM

(Union Territory)

Mizoram, land of the Mizo highlanders who belong to the Mongolian race, was formerly called the Lushai Hills district, but in 1957 it became by an Act of Parliament the Mizo Hills district. In 1972 it was made Union Territory and named Mizoram.

CAPITAL: Aizawl.

Area of the Territory: 21.087 sq. kms.; **Population** (1981 census): 483.757; **Density:** per sq. km. 23; **Sex Ratio:** 936 females per 1.000 males; **Literacy:** 60.03 per cent.

Districts: (Names and population as per 1981 census respectively): Aizawl: 340.826; Lunglei: 86.511; Chhimtuipui: 66.420.

Towns: Aizawl, Lunglei. **Sub. Towns:** Kolasib, Champhai, Serchhip, Mamit and Saiha.

Boundaries: The Territory is bound by Cachar district of Assam in the north, Manipur in the north-east, Bangladesh in the south and west and Tripura in the north-west.

AGRICULTURE

Total geographical area: 1.101.900 hectares; gross cropped area: 70.000 hectares; net area sown: 9.000 hectares; multiple cropped area: 6.000 hectares; current fallow area: 133.290 hectares; area not available for cultivation: 474.110 hectares; other cultivated areas: 46.300 hectares; total net area under permanent irrigation: 8.000 hectares. Paddy is the principal crop. Other crops grown are maize, cotton, groundnut, potato, ginger, orange, *til*, lime, and tea. Cash crops like coffee, rubber, cardamom and cashew-nuts have recently been introduced as part of soil conservation scheme. Ginger and *til* cultivation has shown good results.

Production (1980-81) in tonnes: Rice: 85,290; ginger: 1,629; sugar-cane: 50,820; potato: 2,755; turmeric: 317; chillies: 1,458; maize: 6,166; cotton: 1,240; and tobacco: 347.

Land Tenure: There is no individual land-holding in Mizoram and so far no tenure has been established. The land belongs to the villages as a whole and the people practice shifting cultivation.

However, land is allotted by issue of panes for establishing gardens and terraces for permanent cultivation.

Forests: Forest area (in sq. kms.): 15.935.22; reserved: 5.618.22; unclassed state: 5.240; supply and safety reserves: 2.648 sq. kms.; protected forests: 1.647; Dampa wild life sanctuary: 572; Tawi wild life sanctuary: 210.

Animal Husbandry: Livestock: 123.150; poultry: 1.123.943; veterinary dispensaries: 22; rural animal health centres: 43; veterinary hospital: 1.

POWER

The Central Electricity Authority has decided to set up 7 Micro-hydel projects with a total generation capacity of 3.200 Kw. Surveys being undertaken to identify and locate these projects at Bairabi (150 MW), Vanva (1.5 MW), Tuilumlui (20 MW) and Serlui 'A' (1.000 KW). Work has already been started for Serlui 'B' (15/20 MW).

INDUSTRIES

There is no major industry in the Territory. A few people are occupied in traditional cottage industries. The Mizos are good weavers. They produce lovely woollen carpets, but the production is very slow and not economical. They produce cane hats and baskets. No. of cottage industry centres in Aizawl district is 277. In Lunglei district 79, in Chhimtuipui district 25 and 10 weaving centres.

Community Development: There are 20 C.D. blocks in the Territory, covering 21.087 sq. kms.

Co-operation (as on 1st March, 1982): There are 298 co-operative societies in the territory out of which 236 are in Aizawl district, 37 in Lunglei and 25 in Chhimtuipui district. There are five super markets run by co-operative societies.

EDUCATION

Almost every village has a Government or a private school offering education from standards I to III in vernacular and English. There were 326 pre-primary schools, 770 primary schools, 331 middle schools, 140 high schools, 11 colleges for general education and one polytechnic school, 2 teachers' training institutes and one Mizoram Institute of Education—degree level. Mizoram Board of School Education was established in 1977 and it conducted HSLC Examination in 1978 for the first time.

Besides general education, the Government also launched physical, social, adult and handicapped education.

PUBLIC HEALTH

No. of hospitals: 7; primary health centres: 14; subsidiary health centres: 15; doctors: 72; specialists: 63; auxiliary nurses/midwives/health workers: 709; pharmacists: 72; matrons: 4; beds in hospitals/medical units: 507; T.B. hospital: one (with 50 beds); blood bank: one; leprosy control unit: one; malaria units: 3; and one artificial limb centre.

COMMUNICATIONS

Communication has been a great problem in the Territory. Motorable roads exist between Aizawl, Silchar, Lunglei, Champhai, Vervek, W. Phailang, Demagri and Saiha. Length of roads: 3.253 kms., black topped: 1,197 kms.

National Highway: 404 kms. (under construction by widening); no. of vehicles (registered as on 30.9.1982): 3.845.

Post Offices: (a) With telegraphic facilities: 2; (b) without telegraphic facilities: 145.

GENERAL

On December 21, 1971, the Lok Sabha passed the Constitution (Twenty-seventh Amendment) Bill providing for a legislature and council of ministers for the Union Territory of Mizoram (former Mizo Hills district of Assam). The Bill provides special safeguards for the minority tribal groups. Mizoram was inaugurated by the Prime Minister Mrs. Indira Gandhi on January 21, 1972.

Rivers: Tlawng (Dhaleshwari), Tuiruang, Tuirial, Kaladan, Karnafuli, Tuivai and Tiau.

Lakes: Palak, Tamdil and Rengdil.

The People: The word Mizo means highlander. Mi means person and Zo means Hills. The Mizos include a variety of tribes—the Lushais, Pawis, Paihtes, Raltes, Phangis, Hmars, Kukis, Maras and Riangs and their home is in the Mizo Hills and some regions of Manipur, Tripura, Burma and Bangladesh. Other tribes in the region are the Chakmas and Tipras.

Among the Lushais the percentage of literacy is 86. The British missionaries introduced Christianity and scripted the Mizo language in Roman alphabet.

Press: There are 44 newspapers out of which 17 dailies, 13 weeklies and 12 monthlies are brought out regularly. Of these 29 are published from Aizawl, 7 from Lunglei and 8 from Chhimtuipui.

NAGALAND

Nagaland, comprising the former Naga Hills district and the former Mensang frontier division of the North-East Frontier Agency, came into being on December 1, 1963. It is a mountainous territory between the Brahmaputra valley of Assam and Burma.

CAPITAL: Kohima. **Area:** 7,209 sq. kms. **Population** (1981 census): 273,281.

Area of the State: 16,579 sq. kms.; **Population of the State:** (1981 census): 773,281; **Density:** 47 per sq. km.; **Sex Ratio:** 867 females per 1,000 males; **Literacy:** 41.99 per cent.

No. of Villages: 1,096.

State Boundaries: The State is bound by Assam in the west, Arunachal Pradesh in the north, Burma in the east and Manipur in the south.

District	Head Quarters	Area in sq. kms.	Population (1981 census)
Kohima	Kohima	7,209	273,281
Tuensang	Tuensang	5,466	152,276
Mokokchung	Mokokchung	3,852	104,257
Zunheboto	Zunheboto	—	60,641
Mon	Mon	—	78,745
Phek	Phek	—	70,675
Wokha	Wokha	—	53,271

State Languages: English is the official language of the State for administration and education. However, the common language used is Nagamese and English.

AGRICULTURE

Rice accounts for 80 per cent of foodgrain output with cotton, jute, mesta, sugar-cane, tobacco, potatoes and sweet potatoes also cultivated substantially. Average food production: 116,300 tonnes in 1980-81.

Steps are being taken to expand the high-yielding varieties programme, popularise manures and fertilisers and improve irrigation facilities in the State.

Seed-farms: At present there are 10 seed-farms and five fruit nurseries for distribution of improved seeds and plants to the farmers. The Agriculture Department of the State had drawn up a scheme to boost the production of coffee and cardamom at the foot-hills in Mokokchung and Dimapur. The Government also is planning to promote silkworm farming on a large scale.

Forest: Area: 2,876 sq. kms.; reserved forests: 286 sq. kms.; protected forests: 508 sq. kms.; unclassed village forests: 2,072 sq. kms.

Energy: The State's first hydro-electric project with an installed capacity of 1.5 MW, built in the catchment area of river Dzuza, was inaugurated on March 29, 1978. The Doyang Hydro-Electric Project has been approved by the Centre. It has a capacity of 105 MW. The State will have surplus energy once the project is begun.

INDUSTRIES (1982)

A paper and pulp company, a subsidiary of Hindustan Paper Corporation (Central Government Undertaking) is nearing completion. This is the first major industrial project in the State. The mill is expected to produce 33,000 tonnes (20,000 printing and writing and 13,000 industrial paper) of paper annually. It employs 1,500 people and provides 6,000 people seasonal employment.

A sugar mill also has been established at Dimapur. The Nagaland Industrial Development Corporation has set up two hotels at Dimapur and Kohima and an industrial estate at Mokokchung.

There are 3,157 small and cottage industries at present. Under the forest department a seasoning and treating plant has been set up at Dimapur which is expected to add a few saw mills and a joinery mill (for the manufacture of doors, windows, floor and ceiling boards, wall frames etc.) and a waste board mill for the manufacture of hard-board from saw-dust.

Minerals: Deposits of coal, limestone, oil and traces of gold and platinum have been found in the State. Vast reserves of high grade limestone were located at Nimi in Tuensang district (about 375 million tonnes) and in Phek district.

Labour: Cultivators: 203,341; agricultural labourers: 3,797; livestock, fishery, forestry, hunting, orchards and allied industries: 1,061; mining and quarrying: 76; household industry: 788; other than household industry: 2,086; construction: 3,277; trade and commerce: 4,725; transport, communication and storage: 2,388; other services: 38,474; non-workers: 254,335; total workers: 262,114.

EDUCATION (1981-82)

No. of Government institutions: Lower primary schools 1,072; M. E. schools 238; high schools 67; colleges (private 7, Govt. 3); training institutes for teachers 3; industrial training institute 1; adult literacy centres 171.

The first agricultural college in the State was opened in Ghaspani on October 20, 1978. This institute is affiliated to North Eastern Hill University.

PUBLIC HEALTH (1981-82)

General hospitals: 30; T.B. hospitals: 2; primary health centres: 17; sub-centres (under primary health centres): 76; school health service: 3; health education programme: 1; malaria eradication programme: 1; small-pox eradication programme: 1; B.C.G. teams: 3; T.B. clinics: 3; S.E.T. (leprosy): 10; V.D. clinics: 2; beds in hospitals: 1,242.

At present one medical unit covers an average of 176.12 sq. kms. and one hospital bed is available for every 466 persons.

COMMUNICATIONS (1982)

The railway covers only 8.04 kms. in the whole State and the main railway station is Dimapur, which is the gateway to Nagaland.

Roads: State Highways: 1,114 kms.; major district roads: 283 kms.; other district roads: 719; kms.; village roads: 3,204 kms.

GENERAL

Rainfall: The rainfall in Kohima is 1,488.7 m.m.; in Tuensang 2,686.2 m.m. and in Mokokchung 730.59 m.m.

Inter-State Power Transmission Lines: The Central Govt. has sanctioned a loan assistance of Rs. 19.2 million for the construction of Loktak-Dimapur power line, Rs. 90,000 for Dimapur-Mariani and Rs. 270,000 for Dimapur-Bokajan lines.

Tribes: The main tribes in the States are: Angami, Sema, Lotha, Ao, Rengma, Chakhesang, Sangtam, Konyak Chang, Phom, Yimchunger and Khiamngan.

ORISSA

Orissa, which lies in the tropical zone, was known as Kalinga in ancient times and is mentioned in the epics. It became a separate province in 1936. After independence, the neighbouring princely States following the States Merger (Governor's provinces) Order, 1949, merged with the State of Orissa on August 19, 1949.

CAPITAL: Bhubaneswar. **Area:** 65 Sq. Kms. **Population** (1981 Census): 219,211.

Area of the State: 155,707 Sq. Kms.; **Population of the State** (1981 Census): 26,370,271; **Density:** 169 per sq. km.; **Sex Ratio:** 982 females per 1000 males; **Literacy:** 34.12 per cent.

Districts*	Headquarters	Area in Sq. Kms.	Population (1981 Census)
Balasore	Balasore	6,311	2,252,808
Baudh Khandmals	Phulbani	11,094	717,280
Bolangir	Bolangir	8,913	1,459,113
Cuttack	Cuttack	11,142	4,628,800
Dhenkanal	Dhenkanal	10,828	1,582,787
Ganjam	Chhatrapur	12,556	2,669,899
Kalahandi	Bhawanipatna	11,772	1,339,192

N.A. — Not available

No. of villages: 51,639. Inhabited: 46,992; uninhabited: 4,647 (1971).

No. of Towns: 108 (including 6 cities).

State Boundaries: It is surrounded by the Bay of Bengal in the east, Madhya Pradesh in the west, Andhra Pradesh in the south, Bihar in the north, and West Bengal in the north east.

AGRICULTURE

It provides employment to about 75 per cent of the State's labour force and contributes about 66 per cent of the total income. High yielding programmes constitute the main agricultural strategy. Paddy is a major crop. The State's annual foodgrain requirement is about 3.7 million tonnes and the average production is 4.4 million tonnes. Leaving 0.3 million tonnes for seeds etc. the net availability comes to 4.1 million tonnes.

Land Reform: The most remarkable and vital provisions of the 1974 amendment act is that the ceiling has been fixed at 4.047 hectares, 6.07 hectares, 12,14 hectares and 18.21 hectares of a Class-I, and Class-II, Class-III and Class-IV lands instead of 8,094 hectares, 12.14 hectares, 24.28 hectares and 32.37 hectares respectively in the original act of 1973 for a family of excess of 5, subject to a total of 7,284 hectares. Over 300,000 landless farmers have been given free agricultural land in the State since the distribution of surplus land started in 1974. Nearly 211,174 hectares of Government waste land had been distributed among 307,623 people till April, 1979.

Fisheries: See chapter on "Fisheries".

POWER

Electricity (1980-81): Electricity generated 3,135 MKW H: Electricity consumed 2,445 MKW H; Installed capacity 914 MW; Percentage consumed by industries 85.7; per capita consumption 92.70 KW H; Number of villages electrified 18,804.

INDUSTRIES

A number of medium and large industries like a ferro-vanadium plant in collaboration with the Central Government, an automobile tyre and tubes plant, a nylon filament yarn plant, a calcium carbide plant, a sponge iron unit, a caustic soda and chrome plant, a dichromate plant, a carbonisation plant, a formed coke and pig iron plant and soda ash and ammonium chloride plant are proposed in the joint sector.

Private entrepreneurs are also promoting a paper plant, an aluminium ingot plant and a brewery unit. The Government of India are actively considering setting up a fertiliser plant, a nickel project and a sand separation plant to produce minerals from the rich sand of the Gopalpur coast of the State

The Industries in operation are textiles, cement, refrigerators, paper, glass, sugar, iron and steel, potteries, spinning mills, tube mill, refractories, chlorine and caustic soda, heavy structural and transmission towers, aluminium ingots, aluminium cables, prestressed concrete, cast iron products including spun-pipes, heavy equipments, ferrosilicon, ferro-manganese and fertiliser.

Industrial Development Agencies: (See chapter on State Government Undertakings).

LABOUR (as on 31-12-1981):

No. of employment exchanges: 77; No. of registrations: 227,939; No. of vacancies notified: 29,507; No. of placements effected: 17,840; No. of applicants in the live register: 494,832; No. of Trade Unions on register: 738; No. of members: 370,331; No. of industrial disputes: 485; No. of workers involved: 27,037; No. of mandays lost: 288,967; No. of working factories: 14,828; No. of workers employed: 73,324.

Panchayat Raj (1982): No. of *panchayat* samitis: 314; no. of gram *panchayats:* 3,830.

EDUCATION (1980-81)

No. of institutions—Universities: 5; arts, science and commerce colleges: 189; teachers' training colleges: 10; secondary training schools: 68; high schools: 2,424; M.E. schools: 7,313; primary schools: 32,603; teachers' training schools: 68.

Medical Education: Medical colleges 3; admission capacity 300. Nursing training centres 3; admission capacity 100. Pharmacist training centre 1; admission capacity 64.

Universities (1979-80)

1. Berhampur University, Berhampur (established under Orissa Act 21 of 1966)—has 16 affiliated colleges and 13 University departments.

2. Utkal University, Bhubaneswar—has 67 affiliated colleges and 21 teaching departments (including two law colleges, one at Cuttack and another at Bhubaneswar).

3. Sambalpur University, Sambalpur—has 28 affiliated colleges.

4. Orissa University of Agriculture and Technology, Bhubaneswar—has 4 constituent colleges.

5. Shri Jagannath Sanskrit Vishwavidyalaya, Puri.

PUBLIC HEALTH (as on Dec. 31, 1981)

No. of hospitals 302; no. of dispensaries 312; no. of special hospitals: T. B. 3, leprosy 3, maternity 4, paediatric 2, mental 1, infectious diseases 1; no. of clinics: T.B. 13, V.D. 14, dental 14; no. of blood banks 18; no. of hospital beds 13,407; no. of medical personnel—doctors 3,298, nurses 1,312, mid-wives and auxiliary nurses 2,952; doctor-population ratio 1:7,966; nurse-population ratio 1:20,024; nurse-bed ratio 1:10.

Indigenous system of medicine: Ayurvedic and unani hospitals 3; dispensaries 304; total 307; beds: 145; ayurvedic colleges 3; admission capacity 90; doctors 384.

Homoeopathic hospitals 1; dispensaries 241; beds 50; doctors 314; homoeopathic colleges 4; admission capacity 170.

COMMUNICATIONS (1980-81)

National highways: 1,631.15 kms.; State highways: 2,834.32 kms.; other surfaced roads: 120,497.69 kms

Ports: Major Port: Paradeep (Cuttack district). Biggest in the country it can receive bulk carriers of 60,000 tonnes. Minor ports: Chandbali (Balasore district) and Gopalpur (Ganjam district).

Railways (as on 31.3.1980): Orissa has 1,805 kms. of broad gauge and 143 kms. of narrow gauge railway line.

PRESS:

Leading dailies—*English:* The Eastern Times, Cuttack; The News of the World, Cuttack. *Oriya:* The Samaj, The Prajatantra, The Matrubhumi (all from Cuttack); The Pragatibadi, The Dharitri, The Swarajya, The Khabarkagaj, The Dinalipi (all from Bhubaneswar); The Hirakhanda (Sambalpur); The Dainika Asha, Berhampur, Ganjam; The Koshala, Sambalpur.

GENERAL

Important Rivers: The Suvarnarekha, the Vaitarni, the Brahmini, the Mahanadi, the Indravati, the Sabri, the Sileru, the Rushikulya and Budhavalanga.

Important Lakes: Chilka and Ansupa.

Minerals: Orissa's mineral potential is enormous. Her reserves of iron ore, manganese ore, chromite, limestone and graphite are among the very best in India. The minerals which are worked in large quantities include, besides those stated above, coal, dolomite galens, fire clay and china clay. Deposits of bauxite, vanadiferous magnetic, kyanite, asbestos, soapstone and mica also occur in the State.

Plan: Orissa's Sixth Plan outlay has been fixed by the Planning Commission at Rs. 15,000 million almost half of it being contributed by the Centre as its assistance.

Annual Plan: Approved outlay for the year 1983-84 is Rs. 3,450 million.

PONDICHERRY

(Union Territory)

The history of Pondicherry can be traced to Vedic times, but its comparatively modern links are with the French East India Company which established a settlement there in 1673. The French government handed over the administration of its territory to India in November, 1954. It became Union Territory. The coastal enclaves of Karaikal, Yanam and Mahe are part of the Union Territory.

CAPITAL: Pondicherry.

Area of the Territory: 492 Sq. Kms. **Population of the territory** (1981 census): 604,471; **Density:** 1,228 per sq. km; **Sex Ratio:** 985 females to 1000 males; **Literacy:** 54.23 per cent.

State Boundaries: The Union Territory consists of four municipalities and 11 communes (Panchayats). The capital is Pondicherry which is enclaved by South Arcot district. Karaikal region is enclaved by Thanjavur district, Mahe by Cannanore district, Kerala and Yanam by East Godavari district, Andhra Pradesh.

Districts		Area in '000 sq. kms.	Population (1981 census)
Pondicherry	..	0.29	444,417
Karaikal	..	0.16	120,010
Mahe	..	0.01	28,413
Yanam	..	0.03	11,631

No. of villages: 291.

State Languages: French, English, Tamil, Malayalam and Telugu.

ELECTRICITY

There is no generation of power in the Union Territory of Pondicherry. At present the entire power requirement is being met by purchasing power from the Tamil Nadu Electricity Board for Karaikal and Pondicherry regions, from Kerala State Electricity Board for Mahe region and from Andhra Pradesh Electricity Board for Yanam region.

Pondicherry has achieved cent per cent village electrification by the end of 1971-72.

To receive the share of power from Super Thermal Stations and as well as to meet the growing power demand with stabilised supply conditions a 230 KV sub-station is being set up at Uillianur with a direct 230 KV link from Neyveli. Also two new extra-high tension (110 KV/22 KV) sub-stations have already been commissioned one at Thirubuvanai and another at Marapalam and two more are under construction in Pondicherry region. One No. 66 KV/11 KV sub-station at Karaikal is under construction and is programmed to be commissioned by December, 1983. Another 66 KV sub-station is contemplated for Mahe region.

Electrification of huts under the scheme "One hut one bulb" has been taken up during sixth plan to improve the living conditions of hut dwellers in both urban and rural areas and so far 2,447 huts have been electrified.

The consumption of energy was 183.96 million units for the year 1982-83 with a peak demand of 46.69 M.W.

AGRICULTURE

Nearly 45 per cent of the population is engaged in agriculture and allied pursuits. 89 per cent of the cultivated area is irrigated. Rice is the main food crop. Other crops grown in small quantities are *ragi* and *bajra*. Sugarcane, groundnut and cotton are the principal cash crops.

The area and production of the main crops during 1981-82 are shown below:-

Crop	Area sown in hectares	Production in tonnes
(1) *Food Crops*		
Rice	28,500	99,000
Millet	3,265	14,500
Pulses	8,150	6,500
(2) *Oil Seeds*		
Groundnut	5,700	11,700
(3) Sugar cane	2,135	200,000
(4) Cotton	2,125	9,350 bales

Irrigation: Irrigation in Pondicherry is mainly through rain-fed tanks. There are about 87 tanks of which two are comparatively big. In Karaikal the irrigation system depends on Cauvery water and the network of canals which are under expansion programme.

LABOUR (As on 31st December 1982):

Number of registered trade unions: 144; number of workers employed in factories and workshops: 17,116; number of strikes: 35.

COMMUNICATION

Roads: Attempts are being made to link all villages with all-weather roads. It is expected that by the end of VI Plan all villages will be linked with all-weather roads.

Number of vehicles (as on 31st March 1982): 21,673.

HEALTH (1982)

No. of hospitals: 10 (Govt. 8, private 2); general hospitals: 4; maternity hospital: 1; T.B. sanatorium: 1; leprosy hospital: 1; E.S.I. hospital: 1; private maternity hospital: 1; private nursing homes: 2; E.S.I. dispensaries: 10 (including 1 part-time E.S.I. dispensary); primary health centres: 12; chest clinic: 1; T.B.:2; filaria control units: 2; leprosy control unit: 1; sub-centres: 71; no. of beds: 1,698; no. of doctors: 309; no. of nurses: 440; bed-population ratio: 1:250; doctor-population ratio: 1:1,100; leprosy S.E.T. centres: 26; ayurvedic clinics: 6; siddha clinics: 4; cholera control unit: 1; maleria control unit: 1; drug control unit: 1; mobile dental clinic: 1.

EDUCATION (1982-83):

CO-OPERATION (1982)

No. of societies 302; total membership: 195,014.

GENERAL

Annual Plan: Plan outlay for 1983-84 is Rs. 193.9 million. Sectorwise allocation under various heads (Rs. in million):

Agriculture and allied services: 32.347; Co-operation: 2.838; Irrigation, Flood Control and Power: 28.43; Industry and Minerals: 14.93; Transport and Communications: 20.41; Social and Community Services: 93.58; Economic Services: 0.53; General Services: 11.95; Total: 205.015.

Rivers: In Pondicherry: The Gingee 30.215 kms., the Pambayar 11.50 kms., the Guduvayar 13.50 kms., the Malatar 25.50 kms., the Ponniar 14.00 kms.

In Karaikal: The Nandalar 15.165 kms., the Nattar 12.60 kms., the Vanjiar 12.30 kms., the Noolar 14 kms., the Arasalar 11.76 kms., the Thirumalai Arasanar 10.65 kms., and the Pravadayanar 5.60 kms.

In Mahe: The Mahe river 114.4 m.

In Yanam: The Goringa 15.24 m., in width running for 4.00 kms. and the Godavary running for 8 kms. length in the Territory.

Lakes: Oussuteri 540.17 m.cft., and Bhour 200 m. cft.

PUNJAB

Punjab, the land of the five rivers, can trace its name to the times when it had links with Persia. "Panj" means five and "aab" means water. The history of the Punjab goes back to the coming of the Aryans in India. The British annexed Punjab in March, 1849 and Punjab constituted a separate province in 1937. With the partition of India, Punjab was divided between India and Pakistan as East Punjab and West Punjab. On Nov. 1, 1956, the princely States adjoining Punjab were formally absorbed into Punjab State. On November 1, 1966, Punjab was divided into three units: Punjab comprising the predominantly Punjabi-speaking areas, Haryana made up of the Hindi-speaking districts and Kharar tehsil with Chandigarh as capital. Punjab and Haryana are now separate States while Chandigarh is a Union Territory. The history of the Punjab reveals that the State played an important part in the history of India, but was also the meeting point of many cultures and peoples in Asia.

CAPITAL: **Chandigarh.** **Area:** 100 sq. kms.; **Population** (1981 census): 450,061. **Area of the State:** 50,357 sq. kms.; **Population of the State** (1981 census): 16,669,755; **Density** per sq. km. 331; **Sex Ratio:** 886 females per 1000 males; **Literacy:** 40.74 per cent.

No. of Villages: 12,188 (inhabited). **Towns:** 134.
State Boundaries: Pakistan in the west, Jammu & Kashmir in the north, Himachal Pradesh in the north-east, Haryana in the south and Rajasthan in the south-west.
State Language: Punjabi.

Districts	Area in sq. kms.	Population (1981 Census)
Amritsar	5,086	2,167,071
Gurdaspur	3,562	1,502,366

IRRIGATION AND POWER PROJECTS

Out of the total geographical area of 5.04 million hectares, the net area sown in Punjab during 1981-82 (P) was 4.21 million hectares out of which 1.45 million hectares was irrigated by canal irrigation and the remaining 1.97 million hectares was mainly irrigated by tubewells. The gross area irrigated by Govt. canals tubewells and others for the year 1981-82 (P) was 5.96 million hectares.

The major projects which have been completed are Madhopur-Beas Link, Bhakra Nangal, Harike Project, Sirhind Feeder, extension of non-perennial irrigation in U.B.D.C. and remodelling of Shah Nahar Canal. The work of the following projects is under implementation: (a) Beas Project Unit I and its extension; (b) Beas Project Unit II and its extension; (c) Thein Dam; (d) Diversion of Shah Nahar Canal; (e) Dholbaha Dam; (f) Shahpur Kandi Project; (g) Low Dams in Kandi Area; (h) Anandpur Sahib Hydel Project; (i) Mukerian Hydel Project; (j) Ropar Thermal Plant Stage-I; (k) U.B.D.C. stage-II, III & IV; (l) Goindwal Hydel Scheme.

AGRICULTURE

The economy of the State is primarily agro-based and 70 per cent of its population depend upon agriculture. As against 57 per cent of India average, about 55 per cent of the area is under cultivation. Net area under cultivation is 83 per cent (see also Chapter on "Agriculture").

Production (in '000 tonnes during 1981-82): Wheat 85.53; maize 615; rice 37.55; oilseeds 170; sugarcane (gur) 582; cotton (bales) 127.5 million.

Land Ceiling: Seven hectares in case of irrigated land capable of producing two crops in a year, 11 hectares in case of irrigated land capable of producing one crop, 20.5 hectares in case of *barani* land and 21.8 hectares in case of *banjar* land.

ANIMAL HUSBANDRY & DAIRYING

There are 11 milk plants with total handling capacity of 1,037,000 litres per day. During the year 1982-83 and 1981-82, 37.5 million litres and 28.9 million litres of milk was procured respectively from the milk-shed area ot the State through 33 milk chilling centres and 2,660 milk producers co-operative societies.

The total milk production in the State for 1982-83 has been estimated to be 3.72 million tonnes. The contribution of buffaloes to total production is 79 per cent.

During 1982-83, 0.513 million and 0.135 million inseminations were performed in cows and buffaloes respectively against 0.501 million and 0.128 million during 1981-82. During 1982-83, 0.142 million cross bred calves and 038 million buffalo calves were born.

Special programme benefiting small/marginal farmers and agricultural labourers was started in the State during Fifth Plan period. Under this programme subsidy is being provided to the small/ marginal farmers and agricultural labourers for rearing cross-bred heifers, poultry and sheep on scientific lines.

On 31st March 1982, there were 769 veterinary hospitals, 467 dispensaries, 573 insemination units, 46 K.V. Block/A.I. centres, 38 sheep and wool extension centres and 58 poultry service centres.

INDUSTRIES

Major industries are: art silk, woollen and cotton textiles, fertilisers, bicycle parts, bicycles, sewing machines, sugar. flour mills, electrical appliances, automobiles, ancillaries, industrial goods, agricultural tractors, steel re-rolling, housing goods. machine tools and a large number of small-scale industries, dry battery cells, tanneries and vanaspati.

Major Public Sector undertakings are Fertilizer Corporation of India, breweries and pharmaceuticals.

There were 76,947 small-scale registered units in urban and rural areas in the State up to March, 1983. These units employed 454,310 persons and contributed Rs. 14,500 (P) million towards production.

There were 270 large/medium units in the State by the end of March, 1983 which provided employment to 142,695 persons and accounted for Rs. 14,780 million towards production. In case of small, large/medium units goods worth Rs. 1.45 million were exported during 1981-82.

There were 49,813 village industrial units in the State during 1980-81 which employed 83,590 persons and produced goods worth Rs. 287.4 million.

PUBLIC HEALTH (1-4-1982)

No. of hospitals: 255; no. of dispensaries: 1,691; no. of health centres: 130.

Population served per one as on 1st April 1982; Institutions: 8,275; doctors: 1,806; beds: 800; birth rate per thousand (1981) (P): 29.6; death rate per thousand (1981) (P): 9.1; infant mortality rate: 79.7; life expectancy at birth 1981-82: male: 58.5 years; female: 57.9 years.

EDUCATION

	Schools 31-3-81	Students 30-9-81
Primary	12,382	2,009,000
Middle	1,420	694,000
Higher Secondary	244	303,000

Colleges: No. of arts, science and commerce colleges: 161; technical and professional colleges: 23; teachers' training colleges: 18.

Universities: Guru Nanak University, P.O. Box 111, Amritsar 143001; Punjab University, Chandigarh 160017; Punjab Agricultural University, Ludhiana 140001; Punjabi University, Patiala 147001.

Expenditure on school education during 1982-83 was Rs. 114.40 million and provision for 1983-84 accounted was Rs. 120.00 million.

No. of vehicles: 432,367; Two-wheelers: 213,849: three-wheelers: 6,698; cars: 27,689; jeeps: 5,804 taxis: 2,256; buses: 6,363; four-wheelers: 22,497; tractors: 146,332; trailers: 56,851; others 779.

Roads: National Highways: 964 kms. Roads maintained by Public Works Department (black top surfaced roads): 30,863 kms.; Water Board Maccadam (stone metal only): 830: total length: 32,657.

GENERAL

House Sites for Landless: During the year 1982-83, 297,046 landless persons in rural areas were allotted house sites of 100 sq. yards each, free. The Housing Board has completed 21,593 houses during 1982-83. 50,000 houses for rural persons will be constructed by March, 1985.

Rivers: The Beas, the Sutlej, the Ravi and the Saraswati.

Tourism: With a view to promoting tourism, a separate department of Tourism, Cultural Affairs, Archaeology and Museums was created in 1974. There has been a rapid expansion of tourist facilities at Pathankot, Nangal, Shahpur, Kandi and Anandpur Sahib. New tourist facilities have been created at Ropar, Sirhind, Phagwara, Ludhiana and Amritsar. Besides a 3-Star hotel has recently been commissioned.

The Punjab Tourism Development Corporation came into existence on 26th March, 1979. It is hoped that by mobilising institutional finance, it would be possible for the Corporation to undertake its projected programme of development.

Sixth Plan: Total Plan outlay: Rs. 41,250 million; provision for State Sector: Rs. 19,250 million; Central Sector projects: Rs. 22,000 million.

Annual Plan (1983-84): The outlay on the Annual Plan is Rs. 4,400 million.

RAJASTHAN

Rajasthan is India's "desert" State and one of the border States with Pakistan. It is an amalgamation of the old princely States of Rajasthan and was eight years in the making before it took its present form on November 1, 1956.

CAPITAL: Jaipur; **Area:** 206.06 sq. km.; **Population** (1981 census): 977,165; **Area of the State:** 342,214 sq. kms., **Population of the State** (1981 census): 34,261,862; **Density:** 100 Per sq. km.; **Sex ratio:** 923 females per 1,000 males; **Literacy:** 24.38 per cent.

No. of villages: 34,968 inhabited and 2,156 uninhabited.

State Boundaries: In the North and the north-east it is bound by Haryana, Delhi and Uttar Pradesh, in the east and south-east by Madhya Pradesh, in the south-west by Gujarat and in the west by Pakistan.

State Language: Hindi.

Major Cities:

Name	Area in Sq. Km. (1971)	Population (1981 census)
Jaipur	206.06	977,165
Jodhpur	230.18	506,345
Ajmer	45.40	375,593
Kota	141.23	358,241
Bikaner	38.09	256,057
Udaipur	59.21	232,588
Alwar	40.47	145,795
Bhilwara	119.11	122,625
Ganganagar	6.09	123,692
Bharatpur	19.88	105,274
Sikar	24.71	102.970

AGRICULTURE

The principal crops are wheat, jowar, bajra, maize and barley. The total cropped area (including double crop) in 1980-81 was 17.35 million hectares.

The target of foodgrains production for 1982-83 has been set at 8.7 million tonnes against 5.4 million tonnes in 1981-82.

Land Ceiling: 12.14 hectares for a family of five, if the family consists of more than five persons, every person in addition will get 2.42 hectares subject to a maximum of 24.28 hectares.

Livestock and Animal Husbandry: The milk yield of cows is currently estimated to be about 920 kg. per cow per year. Sheep constitute an important source of wealth, with a sheep population representing 21 per cent of the total sheep population of India. Rajasthan accounts for 45 per cent of all India wool production.

IRRIGATION

In 1981-82 the total irrigated area was 21.30 per cent of the total cropped area. Sixth Plan schemes were expected to increase the irrigated area by 4.95 million hectares.

Existence of ground water reserves spreading over an area of 41,000 sq. kms. with estimated reserves of 5,000 million cubic metres water every year has been discovered in the desert areas of the State.

INDUSTRIES

Large scale and medium (1977-78): Manufacture of food products including hydrogenated oils and vanaspati ghee 23, manufacture of beverages 2, manufacture of cotton textiles 15, manufacture of wool, silk and synthetic fabric textiles 9, manufacture of textile products (including wearing apparel other than footwear) 4, manufacture of paper and paper products and printing, publishing and allied industries 4, manufacture of rubber, plastics, petroleum and coal products 1, manufacture of chemicals and chemical products 13, manufacture of non-metallic mineral products 10, basic metals and alloys industries 16, manufacture of metal products and parts except machinery and transport equipments 1, manufacture of machinery, machine tools and plants except electrical machinery 7, manufacture of electrical machinery apparatus/appliances, supplies and parts 5, manufacture of transport equipments and parts 5, other manufacturing industries 2, electricity 87, water works and supply 2, repair services 10. *Production during 1982:* Cloth 52 million metres (p); yarn 35.23 thousand tonnes (p); cement 2,265.06 thousand tonnes; salt 737.86 thousand tonnes; ball bearings 9.079 million nos; sugar 22.97 thousand tonnes (p); fertilizers 323.57 thousand tonnes and spirits (all types) 9,681.91 thousand litres.

Small Scale Industries: The most important cottage and smallscale industries are tie and dye fabrics, wooden toys, *gota kinar*, hand made paper, gem-cutting, cloth printing, agriculture tools and implements, embroidered shoes, leather bags, water bottles and handloom weaving.

Industrial Estates: Industrial estates have been established at Jaipur, Makhupura (Ajmer), Bhilwara, Udaipur, Pali, Sikar, Jaisalmer, Jodhpur, Bikaner, Bharatpur, Kota, Alwar and Tonk.

No. of Districts: 27 (83 sub-divisions and 200 tehsils).

Name	Area in Sq. Km. (1971)	Population (1981 census)

(p)—Provisional.

LABOUR

No. of registered trade unions during 1982-83: 1,958: total membership: 310,282; no. of registered factories (1982): 7,000; total no. of workers in the State (1981 census): 10.351.113: workers as per cent of total population: 30.35: cultivators: 6.436.424: agricultural labourers: 763.188: other workers: 3.151.501: non-workers: 21.642.461.

Industrial Disputes (1982-83): Strikes and lock-outs 96: workers involved 41.819: mandays lost: 1.651.592.

Employment Exchange Statistics (1982-83): No. of employment exchanges 31: registration: 253.817: placements: 20.021.

EDUCATION (1980-81)

Higher secondary and secondary schools: 2,482; middle schools: 5,200; primary schools: 22,510; professional education and special education : 188.

Teachers: High/Higher secondary multipurpose schools: 39,828; middle/senior basic schools: 43,477; primary/junior basic schools: 47,645; schools for professional education and special education: 1,814.

Colleges: Colleges for general education: 125; colleges for professional and other education: 150.

Universities: *University of Rajasthan*. Jaipur; established: 1947; *University of Jodhpur*, Jodhpur; established: 1962; *University of Udaipur*, Udaipur; established: 1962; *Institution deemed as University:* Birla Institute of Engg. and Tech., Pilani.

PUBLIC HEALTH

No. of hospitals during 1982-83 172; T.B. hospitals and sanatoria 5; No. of T.B. beds 1,370; leprosy hospitals 2; beds 115; mental hospitals 2; beds 457; isolation hospitals 2; beds 259; other hospitals 161; beds 16,932; total No. of beds 19,133 (dispensaries 858; primary health centres 236; beds 2,271; mobile surgical unit beds 500).

Medical Practitioners (1980-81): Civil assistant surgeons 2.656; specialists 350; staff nurses 825; midwives 3.308; compounders 3.299.

Non-allopathic hospitals and dispensaries (1980-81): Ayurvedic and unani hospitals 42; no. of beds 800; dispensaries 2.551; Vaidyas and hakims 2.744; compounders and nurses 2.623.

COMMUNICATIONS

Total no. of vehicles (1982): 377.121; private cars and jeeps: 45.512; motor cycles, autocycles and scooters: 190.615; taxis and contract carriages: 1.576; stage carriers: 16.710; public and private carriers: 40.549; tractors and trailers: 80.313 : others 1.846.

Motorable Roads (1982-83): Painted roads: 28.844 kms; metalled roads: 3.966 kms; gravelled roads: 9.992 kms; fair weather and dressed up tracks: 1,099 kms; national highways: 2,521 kms; total length of roads: 46,422 kms.

Railways: Rajasthan is served by 5,617.82 kms. of Railways, out of this nearly 4,856.5 kms. are in metre gauge, 674.54 kms. in broad gauge and 86.78 kms. in narrow gauge.

Press: Dailies—*Rajasthan Patrika*, *Rastradoot*, *Navjyoti*, *Nyay*, *Adhikar*, *Kook*, *Young Leader*, *Jaltedeep*, *Amar Rajasthan*, *Tej*, *Socialist Samachar* etc.

GENERAL

Important Rivers—The Luni, the Chambal, the Banas, the Mahi and the Sabarmati. Tributaries of Luni—the Bandi and the Sarasvati. Tributaries of the Chambal—the Kali Sindh and the Parbati. Tributary of the Banas—the Berach.

Lakes: (Name and location) Sambhar (Jaipur), Silisedh (Alwar); Jai Samand (Udaipur), Fateh Sagar (Udaipur), Pichhola (Udaipur).

Housing: A provision of Rs. 387.223 million has been made for the schemes under housing sector for the Sixth Plan (1980-85) under

LIGH and MIGH. It is envisaged to construct 6,292 houses and 1,100 houses respectively. A provision of Rs. 80 million has also been made for acquisition and integrated development of land in important cities of the state particularly Jaipur.

The Rajasthan Cooperative Housing Finance Society has a target of financing construction of 10,000 houses during 1980-85. The Housing Board will construct 57,368 houses during the Sixth Plan period. Of these 54 per cent will be for economically weaker sectors, 21 per cent for the low income groups, 21 per cent for middle income groups and 4 per cent for higher income groups.

Minerals: Rajasthan occupies the eighth place in mineral production. The total value of production in 1978 was Rs. 552 million and in 1979 Rs. 578 million and in 1980 Rs 533 million. The State has rich mineral potentiality of lead concentrate, zinc concentrate, emerald, tour-maline and wollastonite. This sector provided employment to 25,690 persons per day on an average in 1980. The State produced 263.6 thousand tonnes of soap-stone during 1980.

Annual Plan: (1983-84): Approved outlay for the year is Rs. 4,160 million. The year 1983-84 is the fourth year of Sixth Plan (1980-85). The plan allocation for this year is 22.35 per cent more than the previous year (1982-83) and broadly conforms to the overall sectoral distribution laid down in the sixth plan.. Following the same priorities the share of social and command development sector has increased from 7.28 per cent of the total plan allocation for 1982-83 to 20.29 per cent in 1983-84.

SIKKIM

Sikkim, a tiny mountainous State but strategically situated in the eastern Himalaya region, is the 22nd and the smallest State of the Indian Union. It faces Nepal on the west, Bhutan in the east, Tibet on the north and West Bengal in the south. It became a State of the Indian Union under the Constitution (Thirty-sixth Amendment) Act, 1975 which came into force with retrospective effect from April 26, 1975. Historically, it took shape as a political entity in the 17th century under a Buddhist king who called himself Gyalpo.

CAPITAL: Gangtok. **Population:** 36,768 (1981 census).

Area of the State: 7,208 sq. kms.; **Population of the State:** (1981 census): 315,682; **Density:** 44 per sq. km.; **Sex ratio:** 837 females per 1,000 males; **Literacy:** 34 per cent.

Districts: Four—Gangtok, Gayzing, Namchi and Mangan.

Formerly a princely State in the eastern Himalayas and a protectorate of India, Sikkim opted by a referendum on April 14, 1975, to join the Indian Union. By the Constitution (Thirty-sixth Amendment) Act, 1975, Sikkim became the 22nd State on April 26, 1975.

AGRICULTURE

Main crops are cardamom, oranges, apples, potatoes, maize, millet, ginger, soyabean, wheat, barley, paddy, pulses and vegetables, covering 87,493 hectares.

There are nine regional centres carrying out experimental research and extension work functioning at Gyalshing, Hillay, Burmiok, Nazitam, Pakyong, Mangan, Lachung, Majitar and Namchi. They are assisted by the Indian Council of Agricultural Research Centre stationed at Tadong. A seed-processing unit equipped with uptodate machinery is under construction at the regional agricultural demonstration farm at Majitar at a cost of Rs. 2.1 million.

Forests: Forests occupy about 36 per cent of the land area.

POWER

Electricity: There are four mini-hydel power stations at Mangan, Rimbi, Rohtak and Sangkhola. The lower Lagyap hydel project with a capacity of 12 MW power constructed by Central Water Commission has gone into production. A major project in West Sikkim is in the offing.

INDUSTRIES

There is a distillery at Rangpo, a fruit preservation factory at Singtam, a jewel bearing factory producing industrial jewels at Gangtok, a tannery at Majitar and a watch assembly unit set up in collaboration with HMT, Bangalore. Sikkim Mining Corporation produces zinc, copper, graphite, lead, gold and silver. A Rs. 5 million Roller Flour Mill set up recently has gone into production with a capacity of 30-tonnes per day. Three major cigarette factories have been set up.

A number of facilities are being given to new entrepreneurs, such as subsidy on transportation of raw materials, subsidy on interest, concession in sales tax and marketing assistance, as the State has been declared as industrially backward. As a result a number of small scale industrial units have come up manufacturing consumer items like washing soaps, leather goods, coke briquettes, matches and candles.

There has been considerable expansion of dairy industry with the help of National Dairy Development Corporation.

Industrial Training Institute at Rangpo provides vocational training to local youngsters in seven different trades. The Government has also initiated a programme to organise vocational training camps at various places for knitting, tailoring and cutting.

The Sikkim Industries Licensing Bill, 1982, which stipulates participation by the Government and the people domiciled in Sikkim in industries to be set up in the State, was passed by the Assembly on September 22, 1982.

Handicrafts: Local crafts include carpet weaving, handmade paper, wood carving, handloom weaving, cane and bamboo work.

EDUCATION

There are 438 primary and 11 higher secondary schools, 99 junior high schools and high schools providing education to about 71,201 children. There is also a primary teachers' training institute. A University College started functioning in 1976. An evening Law College has also been set up in 1980. Education is free for both boys and girls up to Class XII. Supply of textbooks is free up to Class V and 50 per cent Government subsidy has been extended on textbooks to all students up to the terminal stage of school.

PUBLIC HEALTH

There is a Central Hospital with 250 beds at Gangtok, inclusive of 70 T.B. beds. There are four district hospitals providing 225 beds. All the districts have 10 T.B. beds each. 16 primary health centres, each with 10 beds, 62 primary health sub-centres and 3 mobile dispensaries are in existence. In two districts, tuberculosis teams are functioning besides the main T.B. centre at Gangtok. A State family planning and MCH bureau is functioning. There are 81 doctors and 6 dental surgeons in service. 32 Grade 'A' nurses and 212 ANMs are in employment. All treatment and diet are free.

1327

COMMUNICATIONS

There are 1,201 kms. of metalled roads and 18 major bridges. Public transport is nationalised. The nearest airport is at Bagdogra (121 kms.) and the nearest railway station is Siliguri (112 kms.).

GENERAL

Tourism: A 78-bed tourist hostel at Gangtok and a 50-bed tourist lodge at Pemayangtse (W. Sikkim) have been constructed. There is also a proposal to construct a chain of tourist lodge complexes at Gangtok, Rangpo, Nayabazaar, Yoksum and Singhik and a tourist village at Rangpo.

Religion: Mainly Mahayana Buddhism and Hinduism. There are a few Christians and Muslims.

Rivers: The main river is the Tista, which is formed by the confluence of the Lachen and the Lachung Chu in the north of Sikkim.

Five Year Plan (1980-85): A final outlay of Rs. 1,220 million has been fixed for the Five Year Plan in Sikkim.

Annual Plan: 1983-84: Rs. 305 million.

TAMIL NADU

Tamil Nadu, a very ancient land whose history goes back to 6,000 years, is the 11th largest State in the Indian Union. It represents the nucleus of Dravidian culture. On January 14, 1969, Madras State changed its name to Tamil Nadu, but Madras continues to be its capital.

CAPITAL: Madras. **Area:** 128 sq. kms. **Population:** 4.277 million.

Area of the State: 130,057 sq.kms. **Population of the State** (1981 Census): 48,297,456.

Rate of increase in population: 1.72 per cent per annum. **Sex Ratio:** 978 females per 1,000 males. **Density:** 371 per sq. km. **Literacy:** 45.78 per cent.

Birth rate for 1979 (Rate per thousand of estimated mid-year population): 20.58

Death rate for 1979 (Rate per thousand of mid-year population): 6.71.

Infant mortality rate for 1979 (Rate per thousand of live births): 39.40.

Districts with Headquarters in brackets, Area in thousand sq. kms. and Population respectively: Madras City (Madras) 0.1; 2,469,449; Chingleput (Kanchipuram) 7.9; 2,907,599; North Arcot (Vellore) 12.3; 3,755,797; South Arcot (Cuddalore) 10.9; 3,617,723; Dharmapuri (Dharmapuri) 9.6; 1,677,775; Salem (Salem) 8.6; 2,992,616; Coimbatore (Coimbatore) 15.7; 4,373,178; The Nilgiris (Udhagamandalam) 2.5; 494,015; Madurai (Madurai) 12.6; 3,938,197; Tiruchirapalli (Tirunelveli) 14.3; 3,848,816; Thanjavur (Thanjavur) 9.7; 3,840,732; Ramanathapuram (Madurai) 12.6; 2,860,207; Tirunelveli (Triunelveli) 11.4; 3,200,515; Kanyakumari (Nagercoil) 1.7; 1,222,549 (Total 14).

Major Cities: With area (in sq. kms.) and population*: Madras City: 128—2,469,449; Madurai: 20.92—549,114; Coimbatore: 23.49—356,368; Salem: 19.99—308,716; Tiruchirapalli: 21.57—307,400; Tuticorin: 13.38—155,310; Nagercoil: 24.29—141,288; Thanjavur: 24.29—140,547; Vellore: 10.54—139,082; Dindigul: 11.77—128,429; Singanallur: 8.65—112,206; Tirupur: 11.92—113,302; Kumbakonam: 11.54—113,110; Kanchipuram: 11.37—110,657; Tirunelveli: 15.33—108,498; Erode: 8.44—105,111; Cuddalore: 27.79—101,335.

No. of towns (1981): 211. **No. of urban agglomerations:** 34.

State Language: Tamil. Other languages spoken, Telugu, Malayalam, Kannada, Urdu, English, Hindi and Gujarati.

Situation: The State lies between 8°5' and 13°35' of northern latitude and 76°15' and 80°20' of eastern longitude.

State Boundaries: Bound in the east by Bay of Bengal, south by the Indian Ocean, west by Kerala State and north by Andhra and Karnataka States.

AGRICULTURE (1980-81)

Area and Production of Principal Crops (area in '000 hectares and production in '000 tonnes): Paddy 2,112; 3,975 (in terms of rice); millets and other cereals: 1,484; 1,422; sugarcane: 136; 1,351 (in terms of gur); groundnut: 866; 702; gingelly seed: 96; 29; Cotton: 246; 322 (bales of 170 Kg.).

Livestock and Animal Husbandry (1977 Census): Buffaloes: 3,077,678; sheep: 5,289,242; goats: 4,202,093; pigs: 678,123; donkeys: 86,543, poultry: 14,347,195.

Veterinary institutions (1981-82): Veterinary hospitals: 50; veterinary hospital-cum-key village centres: 3; veterinary dispensaries: 552; veterinary dispensary-cum-key village centres: 73; clinical laboratories: 13; rinderpest vigilance units and checkposts: 23; rinderpest squads: 17.

Dairy Development (1981-82): Main dairies: 3; feeder dairies: 2; co-operative dairies: 7; milk chilling plants: 22.

Fisheries (1980-81): Total coastline of the State: 1,000 kms.; marine fishing villages: 402; marine fish production: 227,000 tonnes; Inland fish production: 165,000 tonnes; freezing plants: 32; marine fisheries training centres: 6.

Land Ceiling: Reduced from 24.28 standard hectares to 15 standard hectares per family.

Land Utilisation:

Classification of Area	Area in '000 hectares† 1979-80
Total geographical area	13,037
Forests	2,021
Barren and uncultivable lands	603
Land put to non-agricultural uses	1,713
Cultivable waste	336
Permanent pastures and other grazing lands	157
Land under miscellaneous tree crops and groves not included in the net area sown	199
Current fallow lands	1,305
Other fallow lands	427
Net area sown	6,232
Area sown more than once	1,485
Total cropped area	7,717

*Figures relate to 1971.

†According to village papers.

Forests (1980-81): (Area in hectares): Total forest area: 2,189,191; Reserved forests and reserved lands: 1,139,253; Unclassed: 49,938.

IRRIGATION AND POWER (1979-80)

Irrigation: Net area in hectares irrigated by: Government canals: 931,690; private camals: 752; tanks: 986,201; wells including tube wells: 1,117,452; other sources: 38,049; total net area irrigated: 2,984,144; area irrigated more than once: 998,564; gross area irrigated: 3,982,708.

Electricity (1980-81): Installed capacity (in megawatts) and generation (in million units) by board: **Hydro:** 1,369; 4,925.33; **Thermal:** 960; 2,445.95; Power purchased from other sources: 3,541.64 million units; Power supplied to other States: 262.93 million units.

Consumption (Mu.): Agriculture: 2,286; industrial: 4,099; commercial: 619; domestic: 769; others: 812.

Rural Electrification (1981): No. of towns, villages and hamlets electrified: 63,473.

INDUSTRIES

Labour (1981): No. of registered trade unions: 3,840; no. of strikes: 253; no. of workers affected: 135,638; no. of man-days lost: 3,026,850; no. of lockouts: 35; no. of workers affected: 50,806; no. of man-days lost: 1,097,171.

No. of working factories (1981): 9,391; workers employed in all the factories submitting returns: 593,182; estimated average no. of workers in factories not submitting returns: 56,417; estimated total no. of workers employed in all factories: 649,599.

Employment Exchanges (1980-81): District employment, sub-employment and special offices: 34, registrations during the year: 487,563; placements during the year: 51,350; no. on the live register at the end of the year: 1,143,049; no. of vacancies notified: 75,713.

PUBLIC HEALTH (1981-82)

No. of hospitals (including allopathic, Indian medicine and homoeopathy): 377; no. of dispensaries (including allopathic, Indian medicine and homoeopathy): 1,188; primary health centres: 384; other medical institutions: 237; Registered doctors: Allopathic: 35,961; Indian medicine: 24,608; homoeopathy: 15,329; registered dentists: 502; nurses: 22,759; midwives: 29,939; auxiliary nurse midwives: 4,780; registered pharmacists: 6,614; registered health visitors: 557.

Family Welfare (1981-82)*: Family welfare institutions: 917; sterilisation operations performed during the year: 167,912; I.U.C.D.: 32,991; users of conventional contraceptives: 58,554; users of oral pills: 4,045.

EDUCATION (1981-82)

Universities: Madras University, Chepauk, Madras 600005; Annamalai University, Annamalainagar, Chidambaram, South Arcot Dist., Madurai; Kamraj University, Madurai; Tamil Nadu Agricultural University, Coimbatore; Peraringar Anna University of Technology, Madras; Bharathiar University, Coimbatore; Bharatidasan University, Trichy; and Gandhigram Rural Institute, Gandhigram, Madurai, is an Institute deemed-to-be an university.

COMMUNICATIONS (1980-81)

Length of motorable roads (in kms.): Surfaced: 68,962; unsurfaced: 52,390.

Road Transport: Motor vehicles: Commercial: 82,845; non-commercial: 238,255.

Railways (1981-82): Route length: 3,887; track length: 4,594.

Posts and Telegraphs (1980-81): Post and Telegraph offices: 3,554; post offices: 11,737; telegraph offices: 43; broadcast receivers (1981): 1,155,347; television sets (1981): 83,954; no. of telephones in use: 267,244; no. of public call offices: 2,592.

Minerals: Salt, limestones, magnesite, gypsum, crude, mica, bauxite, limenite, fireclay, lignite, iron ore, etc.

Hills: The important hill ranges are the Western Ghats (Palani Hills in Madurai district and Annamalai in Coimbatore district form part of this range), the Eastern Ghats, Shevroy Hills, Javadi Hills, the Kairayans and the Pachaimalai. The Palghat gap averaging 24 kms is the only marked break in the Western Ghats.

Important Rivers: The Ponnaiyar, Palar, the Vaigai and the Tambaraparani, Cheyyar, Meyar, Bhavani, Amaravati and Chittar.

Major Lakes: (Capacity more than 14,000 million litres) Chambarampakkam, Madurantakam and Red Hills lakes (Chingleput District); Veeranam Tank (South Arcot District); Kaveripuk (North Arcot District); Ramnad and Rasimangalam Tanks (Ramanathapuram District).

Annual Plan (1983-84): The outlay on the Annual Plan is Rs. 8,934.6 million.

TRIPURA

Tripura, the second smallest State, was formally declared a Union territory on November 1, 1957, but raised to the Status of a State on January 21, 1972. It is surrounded for the most part by Bangladesh.

CAPITAL: Agartala.

Area of the State: 10,491 sq. kms. **Population of the State:** (1981 Census): 2,053,088. **Density:** 196 per sq. km. **Sex Ratio:** 948 females per 1,000 males. **Literacy:** 41.58 per cent.

No. of Tehsils: 177. **No. of Sub-Divisional Towns:** 10. **No. of Villages:** 5,215.

(This former Union Territory became a full fledged State on January 21, 1972.)

Districts	Area in sq. kms.	Population (1981 census)
North Tripura District	3,541	541,248
West Tripura District	3,359	976,252
South Tripura District	3,577	535,558

State Boundaries: The State is bound in the North-West, West, South and South-East by Bangladesh and in the North-East by Assam and Mizoram.

State Languages: Bengali and Kakbarak.

AGRICULTURE

About 54.5 per cent of the land is under forest. Only about 24.3 per cent area is available for agricultural use. The principal crops are paddy, wheat, jute, mesta, sugarcane, potato and oil seeds. Due to the acceptance of modern technology by cultivators, the overall production of cereals increased by about 19.9 per cent in the year 1982-83. During 1982-83 an area of 177,000 hectares was sown more than once as against 169,000 hectares in the previous year. Due emphasis is also being given for development of horticulture in the State.

Forest: Total area of Reserve Forest and proposed Reserved Forest is 3,862 sq. km. which is 37 per cent of the land area. Plantations have so far been raised over 82,669 hectares. 1,444 hectares have been covered under social forestry programme benefiting 4,148 families up to 1982-83.

Rubber plantation has also been taken up extensively in Tripura and up to 1982 an area of 3,337.02 hectares has been planted.

INDUSTRY

Tea: There are 49 registered tea gardens in Tripura covering an area of 5,527 hectares and producing 4 million kgs. of tea per year. This Industry has been employing about 10,000 workers. Five Cooperative Societies have taken up new plantation in different places of Tripura. Tripura Tea Development Corporation, a Government of Tripura undertaking has also started fresh tea plantation under the programme for bringing additional land under tea plantation in the State.

Minerals: The wells drilled in the State have indicated presence of superior quality of natural gas. Deposits of white and grey coloured plastic clay, silica and limestone have also been located.

Jute Mill: A jute mill has been set up in Agartala under Public Sector. It produces about 1,500 tonnes of jute products.

Village and Small Industries: The small scale industries, functioning in the Private and Public Sector are aluminium utensils, steel furniture, washing soap R.C.C. spun pipes, tyre retreading, automobiles servicing and repairing, rubber solution, grease, phenyl, leather goods, polythene tubular, film, plywood, fruit-canning, oil mill, roofing tiles, chalk crayons, pharmaceuticals, fountain pen ink, ice factory, wooden furniture, saw mill, umbrella handles, spun pipes, wire nail, truck and bus body building, welding workshop, printing press, book binding, manufacture of note books, rice mill, cotton ginning mill, curry powder, steel trunks and bucket manufacturing, spray painting, block processing, dyeing etc.

A steel re-rolling mill with a capacity of about 6,000 m.t. of rolled steel products such as rods, bars and light angle iron has been established.

Handloom: In 1982-83 handloom products worth Rs. 100 million were produced. Nine pilot centres have been set up for imparting training in improved techniques. In 1982-83 it sold products valued at Rs. 20 million. A design centre on handicrafts is functioning at Agartala.

Tripura Khadi and Village Industries Board has been running Units for manufacturing of safety matches, carpentry, blacksmithy, *Ghani*, *Ambar Charkha* etc. and rendering financial and other assistance in various village Industries.

Sericulture Industry: At present about 4,000 persons are engaged for rearing of worms. The land under cultivation of mulberry plants is about 364.22 hectares and the production of cocoons is estimated to be 6,000 kg. per year.

Tripura is famous for its beautiful handicrafts. About 5,000 persons are engaged in the industry at present.

IRRIGATION AND POWER

Irrigation: The irrigation potential by permanent schemes has been increased from 2,831 hectares on 1st April 1978 to 10,911 hectares by March 1983. A target of 13,500 hectares has been fixed for completion during the Sixth Five Year Plan. In medium irrigation sector three projects on rivers Gumti, Khowai and Manu estimated to cost Rs. 10,000 million have been approved by the Planning Commission.

Power: 1,524 villages have been electrified and 875 pump sets have been energised upto April 1983. The installed capacity of the State is 10 MW against a demand of 17 MW. The State is importing power through 132 KV line from Assam. The present 10 MW installed capacity of the State is expected to be raised to 20 MW by 1980-85.

EDUCATION (1978-79)

UTTAR PRADESH

In area the fourth, Uttar Pradesh, is the most populous State of the Indian Union. In the later Vedic age it was called Brahmarshi desa or Madhya desa. *Varaha Purana* is associated with Mathura. U.P. is said to have been the inspiration of *Ramayana* and the *Mahabharata* for *Ramayana* alludes to the royal family of Kosala and the *Mahabharata* refers to the royal family at Hastinapura, both in Uttar Pradesh. The British constituted Agra and Oudh into one province called the United Provinces of Agra and Oudh and shortened to United Province in 1935. After Independence in January 1950, it was renamed Uttar Pradesh.

CAPITAL: Lucknow. **Area:** 103.60 sq. kms. **Population:** 1.037 million.

Figures for Lalitpur and Ghaziabad districts are included in the districts of Jhansi and Meerut respectively.

Names of the district headquarters are the same as the names of the districts except for the districts whose headquarters are given in brackets: Farrukhabad (Fatehgarh); Garhwal (Pauri); Jalaun (Orai); Tehri Garhwal (Narendranagar).

Major cities with population over 200,000 (1981 census): Kanpur: 1,782,665; Agra: 1,110,364; Lucknow: 1,058,633; Varanasi: 990,778; Meerut: 865,638; Moradabad: 850,835; Allahabad: 769,744; Saharanpur: 723,658; Bareilly: 651,142; Ghaziabad: 632,166; Aligarh: 591,337; Muzaffarnagar: 495,044; Jhansi: 427,019; Gorakhpur: 400,836; Dehra Dun: 372,652; Mathura: 328,218; Shahjahanpur: 319,650; Farrukhabad: 315,014; Mirzapur: 267,497; Faizabad: 259,799.

State Boundaries: It is bound by Tibet and Nepal in the north, Himachal Pradesh in the north west, Punjab in the west, Rajasthan in the south west, Madhya Pradesh in the south and Bihar in the east.

State Language: Hindi.

IRRIGATION AND POWER

Irrigation: The irrigation potential during 1980-81 increased to 16.28 million hectares from 6.12 million hectares during 1960-61. During 1982-83 a sum of Rs. 1,650 million was spent on the development of irrigation facilities mainly on large and medium irrigation projects and Rs. 490 million was spent on minor irrigation projects.

To ensure adequate irrigation facilities in Uttar Pradesh the target for increasing irrigation potential by 23.17 per cent has been fixed for the Sixth Plan (1980-85).

The total length of the canals in Uttar Pradesh was 57,250 kms. by the end of 1981-82.

Power: Uttar Pradesh increased its installed capacity from a mere 379 MW in 1960-61 to 3.694 MW in 1982-83.

In the State, hydel power generation totalled 1,212 MW and thermal power generation to 2.282 MW by 31 March, 1982.

Rural Electrification: During 1982-83, 5,842 villages were electrified bringing the total to 53,439 villages and 22,761 *Harijan bastis.*

The Sixth Plan 1980-85, as prepared by the U.P. State Electricity Board, envisages an addition of 1,934 MW in installed capacity of power, laying of 7,190 kms. of main transmission lines, electrification of 28,050 villages and 15,450 *Harijan bastis* and energisation of 277,870 private tubewells and pump-sets.

AGRICULTURE

(See chapter on 'Food & Agriculture' for area and production of different crops.)

The State is the largest producer of food-grains and oil seeds in the country. It leads all the States in the production of wheat, maize, barley, gram, sugar-cane and potatoes.

As against the total foodgrains production of 14.4 million tonnes in 1960-61 the production increased to 26.3 million tonnes in 1982-83.

Land Ceiling: The ceiling area was fixed at 7.30 hectares of irrigated land for a tenure-holder having a family of five members with two additional hectares of irrigated land for each additional member in excess of five, and two hectares of irrigated land for each landless adult son subject to the condition that the additional area so allowed shall not exceed six hectares.

For the purpose of determining ceiling area, the land has been classified into two broad categories—irrigated and unirrigated. One and a half hectares of unirrigated land has been deemed to be equal to one hectare of irrigated land. For grove land and *usar* land, it has been provided that two and a half hectares of grove land or *usar* land shall be equal to one hectare of irrigated land.

Animal Husbandry: After agriculture, animal husbandry is the most important economic activity in the State. In 1978 there were 6.6 million cows and 7.21 million buffaloes out of which 3.04 million cows and 3.96 million buffaloes were in lactation.

Milk Processing Plants: The processing capacity of the dairy units established under different sectors (public, private and co-operative) was of the order of 854,000 litres of milk per day at the end of 1977-78.

Forests: The total area under forests in Uttar Pradesh on March 30, 1980 was about 51,199.42 sq. kms.

Fisheries: Fisheries development programme started in the State in 1944. The bulk of the catch is exported to W. Bengal. Out of 1.165 million hectares of water area nearly 0.324 million hectares consist of confined waters. A total of 0.1413 million hectares is under pisciculture.

The total production of fish during 1979-80 was 17,792.34 quintals. There was also an increase in the production of Fingerlings from 30.145 million in 1978-79 to 32.691 million in 1979-80.

INDUSTRIES

Sugar, cotton textiles and miscellaneous food preparations (mainly comprising edible oils including hydrogenated oils) are the three important industries in the large-scale sector of the State.

The State government is making vigorous efforts to build new industries in the State. Attractive incentives are provided to entrepreneurs from outside the State to establish industries. As a result, the number of registered industrial units rose to 5,632 during 1980-81. The industrial output during 1980-81 rose to Rs. 27,610 million from Rs. 9,730 million during 1960-61.

Till March 1982, 3,260 industrial licences, letters of intent and DGTD registrations were issued with an investment of Rs. 64,570 million from the Government of India.

In the large and medium industries sector, so far 801 licences, letters of intent and DGTD registrations involving an investment of Rs. 11,760 million have been implemented till March, 1982. In all 27 large and medium industries were set up in the State.

The sugar industry is the biggest agro-based industry in the State. With the commissioning of a new factory in Sitapur district the total number of sugar factories increased to 92, including 19 established in the co-operative sector. The construction work of nine other sugar mills is likely to be completed by 1984-85.

In the small industries sector 13,611 industries with an investment of Rs. 860 million were set up during 1982-83 and employment was generated for more than 84,000 people in the small-scale sector.

Trial production in Kajrahat cement factory in Mirzapur district has already started. Auto tractors, Pratapgarh has started commercial production of 'Pratap-284' model tractor.

Handloom Industry: Meets nearly one-third of the total requirement of cloth in the State. During the year 1982-83 the production of handloom cloth was 551.58 million metres.

A sizing plant with an intake capacity of 0.58 million kilograms is being set up at Kashipur costing Rs. 2.75 million which is likely to be commissioned by the end of 1983. Five spinning mills, having a total of 25,000 spindles are being set up with an expenditure of Rs. 520 million. Besides seven new co-operative spinning mills are being set up involving an expenditure of Rs. 617 million. These units are likely to provide employment to 7,000 persons.

Village and Small Scale Industries: Industrial policy was given new orientation and emphasis was laid on the development of village and small-scale industries specially in rural areas, through the rural growth centres programme.

Till March, 1982, 212 growth centres had been developed, 5,354 units were provisionally registered while 2,690 units were set up.

As a result of various promotional programmes the number of small-scale industrial units rose from 3,107 in 1960-61 to 68,426 in 1981-82. During 1981-82, 12,530 smallscale units were established.

Labour: Total no. of registered factories (1981): 6,989; no. of working factories: 6,800; estimated average daily no. of workers employed: 544,000.

No. of Trade Unions as on December 31, 1981: 2,284.

Industrial Disputes: During 1981 there were 245 strikes/lock-outs involving 128,124 workers resulting in a loss of 2,389,389 mandays.

Industrial Estates: There are 70 industrial estates with 982 sheds and 2,741 plots. In addition 17 industrial estates are under construction.

EDUCATION

Institutions (1981-82): Universities 19; Degree Colleges 387; Higher secondary schools 5,410; Senior Basic schools 13,652; Junior basic schools 72,213; Nursery schools 125.

Universities: With the year of establishment in brackets: *Acharya Narendra Deva University of Agriculture,* Faizabad (1974-75); *Agra University,* Agra (1927); *Aligarh Muslim University,* Aligarh (1921); *Allahabad University,* Allahabad (1887); *Awadh University,* Faizabad (1975); *Banaras Hindu University,* Varanasi (1919); *Chandrashekhar Azad University of Agriculture and Technology,* Kanpur (1974-75); *Garhwal University,* Srinagar (Garhwal) (1973); *Gorakhpur University,* Gorakhpur (1957); *Govind Ballabh Pant University,* Pantnagar (1969); *Kanpur University,* Kanpur (1966); *Kashi Vidyapith,* Varanasi (1963); *Kumaon University,* Nainital (1975); *Lucknow University,* Lucknow (1921); *Meerut University,* Meerut (1966); *Rohilkhand University,* Bareilly (1975); *Roorkee University,* Roorkee (1949); *Varanaseya Sanskrit University*, Varanasi (1958); *Jhansi University*, Jhansi.

Note: Aligarh and Banaras are Central universities under the Government of India.

Gurukul Kangri University of Hardwar (Saharanpur) and Dayal Bagh Educational Institute, Dayal Bagh (Agra) have been granted the status of a University by the University Grants Commission.

PUBLIC HEALTH

Total No. of hospitals in 1982: Allopathic including PHC: 3,188; Ayurvedic/Unani: 1,842; Ayurvedic Colleges: 9; Unani Colleges: 2; Homoeopathic dispensaries (State): 503; Beds (allopathic): 51,329; doctors in Government service: 8,569; nurses and midwives: 19,181; TB sanatoria: 4; T.B. Hospitals: 14; Total no. of beds in T.B. sanatoria and clinics: 3,437.

Medical colleges: 9; total no. of seats in Medical colleges: 908.

COMMUNICATIONS (As on March 31, 1978)

Vehicles on road under U.P. State Transport Corporation: buses: 4,362; trucks: 104; taxis: 43. Vehicles other than State Transport Corporation: buses: 7,531; lorries and trucks including private carriers: 26,062; taxis: 4,460; cars: 34,951; motor cycles: 144,433.

Length of motorable roads (1980-81): Total mileage of metalled roads under PWD: 4,779 kms.; total route length: 194,263 kms.; no. of routes operated: 1,455; daily distance covered (kms.): 884,631.

Railways: The total length of railway lines passing through the State, as on 31 March, 1976, was 8,661.23 kms. Of these 5,389.82 kms. were broad gauge and 3,269.40 kms. were metre gauge. The route-kilometerage of railway lines in the State railway-wise and gauge-wise was: Central Railway, broad gauge 956.55 kms. and narrow gauge 2.01 kms.; Eastern Railway, broad gauge 264.78 kms.; Northern Railway, broad gauge 4,097.17 kms. and metre gauge 0.13 kms.; North Eastern Railway, metre gauge 3,232.16 kms.; and Western Railway, broad gauge 71.32 kms. and metre gauge 37.11 kms.

GENERAL

Annual Plan: The State Plan for 1981-82 was of Rs. 10.750 million. An outlay of Rs. 12.020 million has been approved for 1982-83 Plan, which is higher by 11.7 per cent than the plan for 1981-82. About 70 per cent of the Annual Plan has been earmarked for the State sector schemes and about 30 per cent district sector schemes under the decentralisation of planning process.

Water Supply: Till the end of Fifth Five-Year Plan and subsequent two annual plans i.e. 1978-79 and 1979-80 only about Rs. 2,030 million was spent in this sector in U.P. which could provide water supply to 409 towns, 10,056 villages and partial sewerage in 42 urban areas.

Out of 658 urban areas, 476 have been provided with piped water supply benefiting 14,361,000 population (71.80 per cent) upto the end of March 1983 and the work in 92 towns is in progress. Out of 112,561 villages 19,284 villages have been covered by the end of March 1983 benefiting a population of 11,128,000 (approx. 12.36 per cent.)

Housing: The U.P. Housing and the Development Board was established in 1966. This Board and development authorities are doing notable work in various towns of the State and they are constructing number of houses for the economically weaker section of the society.

An urban development project is being implemented in Kanpur with the assistance of the World Bank. It is estimated to cost about Rs. 413.1 million. Rs. 54.7 million has been provided in the budget for the year 1982-83.

WEST BENGAL

Old Bengal, of which West Bengal is a part, was famous during the epic period. In ancient Sanskrit literature it was called Gauda or Banga. In the third century B.C. Bengal was part of the Mauryan Empire and from the 4th to the 6th centuries A.D. it was under the Gupta dynasty. In 1905 Lord Curzon divided Bengal into two provinces but the partition was later abrogated by King George V. In 1947 when India achieved Independence Bengal was partitioned between India and Pakistan. Under the States Reorganisation Act, some parts of Bihar were transferred to Bengal. On October 2, 1954 the French enclave of Chandarnagore was added to it. In 1950, the princely State of Cooch-Behar was merged with West Bengal. West Bengal is hemmed in by two natural divisions, the Himalaya northern region, comprising Darjeeling district, Jalpaiguri and Cooch-Behar and the alluvial plain.

CAPITAL: Calcutta. **Area:** 104 sq. kms.; **Population:** (urban agglomeration) 9.166 million (1981 census).

Area of the State: 87,853 sq. kms.; **Population of the State** (1981 census): 54,485,560. **Decennial Population Growth Rate** (1971-81): 22.96 per cent; **Density:** 614 per sq. km.; **Sex Ratio:** 911 females per 1,000 males; **Proportion of Urban Population to Total:** 25 per cent; **Literacy Rate:** 40.88 per cent.

Major Cities (with population over 100,000—1981 census): Calcutta (with 100 wards), 3,288,148 (urban); Durgapur, 313,313; Kharagpur, urban agglomeration, 232,575; Asansol, 254,206; Burdwan, 167,364.

No. of Villages: 38,550.

State Boundaries: The State is bound by Sikkim and Bhutan in the north, Assam and Bangla Desh in the east, Bay of Bengal in the south and Orissa, Bihar and Nepal in the west.

State Languages: Bengali, Nepali and English.

Districts	Headquarters	Area in sq. kms.	Population (1981 census)
Darjeeling	Darjeeling	3,075	1,006,434
Jalpaiguri	Jalpaiguri	6,245	2,207,007
Cooch-Behar	Cooch-Behar	3,386	1,771,562
West Dinajpur	Balurghat	5,206	2,402,763
Malda	English Bazar	3,713	2,035,009

Midnapur	Midnapur	13,724	6,723,860
Purulia	Purulia	6,259	1,855,429

Calcutta district comprises of Calcutta city only.

AGRICULTURE

Rice, jute and wheat are the main crops produced in West Bengal. The area sown under rice was 5,210.0 thousand hectares, jute 505.9 thousand hectares and wheat 214.0 thousand hectares and the production was 5,832.6 thousand tonnes, 4,473.4 thousand tonnes and 389.3 thousand tonnes respectively in 1981-82.

About 6,408,320 (approx. 1981 census) families in West Bengal directly depend upon agriculture, out of whom about 969.770 (approx. 1981 census) families are landless agricultural labourers. 2.5 million families own less than 7.5 bighas of land per family and most of them are bargadars 0.95 million families have holdings (per family) between 7.5 and 15 bighas of land and they can be described as small peasants. The holding of 0.55 million families is between 15 and 30 bighas and they can be called middle peasants. Number of families owning more than 30 bighas of land is about 2 million.

Land Ceiling: The ceiling for a family consisting of not more than 5 members is 5.001 hectares in irrigated areas and 7.006 hectares in non-irrigated areas. The retainable limit is increased by 0.502 hectare in irrigated and 0.697 hectare in non-irrigated areas for each additional member in excess of 5, the maximum retainable area being 7.006 hectares in irrigated and 9.809 hectares in non-irrigated areas for a family consisting of 9 members or more. The ceiling for an adult unmarried person or the sole surviving member of a family is 2,502 hectares in irrigated and 3.503 hectares in non-irrigated areas. Number of farming families having less than 1 hectare of land is 3,502,125; number of farming families holding between 1 and 2 hectares of land is 1,082,534; number of farming families holding between 2 and 4 hectares of land is 546,717 and number of farming families holding above 4 hectares of land is 136,288.

Forests occupy 1,186 thousand hectares, which is only 13.4 per cent of the total geographical area of the State.

The types of timber found in the forests are: *Shorea robusta, tactona grandis, michelia champaka, schima walliohi, chukrasia tabularis, betula species, abies, densa, oaks, pinus,* etc.

For development of the forests the Govt. has allocated Rs. 23.7 million. The programme aims at rehabilitating diminished parts of the forest extending over 1,000 hectares with new quick growing species.

IRRIGATION AND POWER

Irrigation: Area irrigated by Govt. canals under the minor, major and medium irrigation schemes of West Bengal was 93,727.82 and 1,082,932 hectares in the years 1976 and 1981 respectively.

Power Production: The total quantity of electricity generated from three main stations (i.e. W.B.S.E.B., C.E.S.C. and D.P.L.) during 1981-82 was 5,555 MW against 5,465 MW in 1980-81.

INDUSTRIES

The State's industrial output is about 20 per cent and coal output about 30 per cent of the country's total.

The number of registered factories (excluding Defence Factories) increased from 6,421 in 1980 to 6,548 in 1981.

Production: The major industries and their production during 1981: Jute: 1,160,000 tonnes; cotton: 53,125,000 kgs.; cotton cloth: 141,629,000 metres; pig iron: 1,782,000 tonnes; steel ingots 1,801,000 tonnes; finished steel (excluding unregistered re-rollers) 1,021,000 tonnes; tea: 129,838,000 kgs.; sugar: 5,000 tonnes; paper and paper board: 118,592,000 kgs.; matches: N.A.

Small-scale Industries: The number of small-scale industrial units with final and permanent registration in the Register of Directorate of Cottage and Small Scale Industries was 121,091 with an addition of employment generated at the end of 1981-82.

Labour (1980): The average daily number of workers in the registered working factories was 875,000 in 1980.

Average no. of employees under different heads: Factories: 895,000; coal mines: 129,000; plantations: N.A.: State Govt.: 362,000; Central Govt.: 438,000; quasi-govt.: 322,000; other sectors: 458,000. People in agriculture (cultivators and agricultural labourers): 7,227,108 (1971 census).

Employment Exchanges: The total number of persons placed in employment during 1981 was 12.4 thousand. During the year 1981, 626.1 thousand applicants were registered at the different employment exchanges as against 638.6 thousand in 1980.

No. of Unions (1981): No. of unions registered: 694; membership: 69,996.

Industrial Disputes (1981): No. of disputes disposed: 6,190; percentage of disputes settled through conciliation: 57.3 per cent; no. of strikes and lockouts: 166; no. of persons affected by lay-offs and retrenchment were 15,891; no. of mandays lost: 6,053,151.

INDUSTRIAL DEVELOPMENT AGENCIES

(See Chapter on State Government Undertakings)

PUBLIC HEALTH (1980):

No. of Hospitals: 398; no. of beds: 47,819; no. of clinics: 958; no. of beds: 76; no. of health centres: 1,055; no. of beds: 10,150; no. of dispensaries: 418.

Family Planning Centres (1975-76): Rural: 335; urban: 72; urban voluntary F.P. centres: 24; rural F.P. sub-centres: 1,005.

EDUCATION

Universities: The following are the names and addresses of the universities with number of students respectively: **University of Burdwan,** Rajbati, Burdwan 713101: 36,067; **University of Calcutta,** Senate House, Calcutta 700012: 196,257; **Jadavpur University,** Calcutta 700032: 4,760; **University of Kalyani,** Kalyani 741235: 2,074; **University of North Bengal,** Rajaram-Mohanpur, Darjeeling: 26,191; **Rabindra Bharati University,** 6/4, Dwarkanath Tagore Lane, Calcutta 700007: 3,854; **Visva-Bharati,** Santiniketan 731235: N.A.; **Bidhan Chandra Krishi Viswavidyalaya,** P.O. Mohanpur, Dist. Nadia: N.A.

No. of educational institutions (1981-82):

Primary & Jr. Basic	47,626
Junior High	3,178
High & Higher secondary and multipurpose	5,129
No. of universities	8
No. of colleges for general education	N.A.
No. of polytechnics	21
No. of medical colleges	7
No. of engineering colleges	3
No. of technological degree colleges	4

COMMUNICATIONS (1981-82):

	Route length (Km.)	No. of vehicles in operation	Average No. of persons employed per day	Total passengers served ('000)	Total earnings (Rs. in '000)
Calcutta State Transport Corporation	9,557	723	13,216	309,100	N.A.

HOUSING

Number of houses constructed under different schemes and expenditure incurred up to 1981-82 respectively: Integrated subsidised Housing Scheme 17,248 houses at Rs. 97.2 million; Low Income Group Housing Scheme 12,050 houses at Rs. 132.44 million; Subsidised Housing Scheme for Plantation Workers 11,550 with financial assistance sanctioned Rs. 79,022 million; Middle Income Group Housing Scheme 3,596 flats at Rs. 91,147 million; Rental Housing Scheme for State Govt. Employees: 6,447 flats at Rs. 140.64 million.

GENERAL

Annual Plan (1982-83): West Bengal's outlay for 1982-83 Plan is Rs. 4,991.0 million against Rs. 4,985.5 million for 1980-81.

Calcutta Tramways Company Ltd.: During 1981-82 the number of passengers carried by tram cars was 257.0 million and total earnings stood at Rs. 64.2 million.

Roads: According to latest available statistics the road length per hundred square kilometres of geographical area was 64 kms. at the end of 1974-75.

The length of extra-municipal roads maintained by PWD as on March 1980 is 16,818 kms.

At present West Bengal has 14,000 kms. of metalled roads under the maintenance of Government. The length of roads constructed during 5th Plan (1974-78), outlay and expenditure thereof were 788 kms., Rs. 260 million and Rs. 261 million respectively.

DEFENCE SERVICES

WHILE India is deeply committed to a positive policy of peace, international understanding and co-operation and desires easing of tensions among the nations of the world, it nevertheless takes cognisance of the fact that in view of the mounting arms build-up among the neighbouring nations, national security and integrity demand a fully modernised and well-equipped defence force. Our armed forces are ever alert and vigilant to face any aggression.

The supreme command of the armed forces is vested in the President of India. However the Cabinet holds the responsibility for national defence. The Cabinet Committee on Political Affairs presided over by the Prime Minister decides all important questions having a bearing on defence. The Defence Minister is responsible to Parliament for all matters concerning defence. The operational and administrative control of the armed forces is exercised by the Ministry of Defence and the three service headquarters.

Chief of Army Staff: Gen. A.S. Vaidya; **Chief of Naval Staff:** Admiral O.S. Dawson; **Chief of Air Staff:** Air Chief Marshal Dilbagh Singh.
(Further details see under "Ministry of Defence.")

Army: The Army is organised into five Commands under Army Headquarters. Each Command has requisite field formations under it. For administrative functioning, each Command is divided into Areas & independent Sub-Areas. A Command is commanded by a Lt. General designated General Officer Commanding-in-Chief (GOC in C), referred to as Army Commander. The field formations under it are commanded by officers of the rank of Lt. General/Maj. General while the Areas & Sub-Areas are commanded by Maj. Generals and Brigadiers respectively.

Army Commands with headquarters in brackets: Eastern Command (Calcutta, West Bengal), Southern Command (Pune, Maharashtra), Western Command (Simla, Himachal Pradesh), Central Command (Lucknow, Uttar Pradesh), and Northern Command (Udhampur, Jammu & Kashmir).

Navy: The Chief of Naval Staff exercises command through the following authorities:

(a) The Flag Officer Commanding-In-Chief, Western Naval Command, Bombay: Covers: Bombay, Okha, Jamnagar and Lonavla.
(b) The Flag Officer Commanding-In-Chief, Western Naval Command, Visakhapatnam: Covers: Visakhapatnam, Calcutta, Andaman and Nicobar and Madras.
(c) The Flag Officer Commanding-In-Chief, Southern Naval Command, Cochin: Covers: Cochin, Coimbatore and Goa.

(For Commanding Officers see "Ministry of Defence" in Central Govt. list.)

Air Force: There are six Commands: The Western Air Command (Palam, New Delhi), the Central Air Command (Allahabad, Uttar Pradesh), the Eastern Air Command (Shillong, Assam), the Training Command (Bangalore, Karnataka), the Maintenance Command (Nagpur, Maharashtra) and the South Western Air Command (Jodhpur, Rajasthan). Some units with distinct functions are controlled by Air Headquarters directly.

(For Commanding Officers see "Ministry of Defence" in Central Govt. list.)

India's Frontiers: The country has 15,168 kms. of land frontier—2,966 kms. with Pakistan; 3,950 kms. with Bangladesh; 3,862 kms. with China; and 4,390 kms. with Nepal. Besides it has a coastline of 5,689 kms.

Expenditure: The defence expenditure during 1979-80 was Rs. 32,730 million. During 1980-81 India spent Rs. 38,668 million on defence. Of this lion's share went to the army which accounted for Rs. 21,270 million followed by Rs. 9,200 million for the Air Force and Rs. 2,296 million for the Navy. Pensions and retirement benefits accounted for Rs. 21,270 million.

According to Military Balance, 1981-82, per capita expenditure on defence in U.S. dollars in 1981 was 7 in India, 17 in Pakistan, 750 in U.S.A., 512 in U.K., 5 in Indonesia and 1,835 in Israel. India spent

3.8 per cent of its G.N.P. on defence in 1980 according to the Military Balance.

Strength of Forces (Source: The Military Balance 1981-82): India maintains 944,000 men in the Army. India has 2 armoured divisions, 6 independent armoured brigades, 18 infantry divisions, 10 mountain divisions, one independent infantry brigade, 17 independent artillery brigades, 2 para brigades, and one Commando brigade.

The Air Force has 4 bomber squadrons, 10 fighter-ground attack squadrons, 15 air defence/fighter ground attack squadrons with MIG-21s, 4 interceptor squadrons with MIG-21s, one reconnaissance squadron, 11 transport squadrons, one communication squadron, 16 helicopter squadrons and 20 surface-to-air missiles squadrons. Orders were placed to acquire 85 Jaguars, 75 MIG-21s and 23s, 80 Ajeet fighters, 8 MIG 25 reconnaissance planes, 40 AN-32 and 10 HS-748 transport planes, 130 trainers and 45 Chetak helicopters. The number of combat aircrafts is 614 and personnel 113,000.

The Navy consists of an aircraft carrier, 8 submarines, one cruiser, 24 frigates, 3 Corvettes with surface-to-surface and surface-to-air missiles, 16 fast attack craft (missiles), one patrol craft, 4 coast guard patrol crafts, 14 mine-sweepers, one landing ship and 6 landing crafts. Orders were placed for 2 destroyers, 5 frigates, 4 Corvettes and 6 landing crafts. The Navy has 45,000 men.

The Naval Air Force consists of 33 combat aircrafts, 27 armed helicopters, 2 attack squadrons, 2 maritime reconnaissance squadrons, 5 anti-submarine warfare helicopter squadrons, one search and rescue or liaison helicopter squadron, three training or communications squadrons. Orders have been placed for 8 ground attack fighters, 3 maritime reconnaissance aircrafts and 6 training aircrafts. Naval Air Force has 2000 men.

The Para-Military Forces consist of about 200,000 Border Security Force and 100,000 in other organisations.

Anti-tank Missiles: The SS-11 and ENTAC anti-tank wireguided missiles are manufactured by Bharat Dynamics Ltd., Hyderabad. It is reported that India has acquired from Britain the SEACAT surface-to-air missiles and the shorter range TIGERCAT surface-to-air missiles for anti-aircraft protection. India also has the STYX surface-to-surface liquid-fuelled naval missiles and the SA-2 surface-to-air missiles acquired from the Soviet Union. The Indian Air Force's Mig-21s are equipped with ATOLL air-to-air infra-red missiles, manufactured in India.

New Equipment: The Hindustan Aeronautics Ltd. is currently setting up assembly lines at its Bangalore Units, for the manufacture of "Jaguar" aircraft.

Work is in progress since 1974, for the indigenous production of submarines. Planning design was to be completed in 1980. Mazgaon Dock launched a series of more sophisticated "Leanders" for the Navy in 1980.

RECRUITMENT AND TRAINING

Recruitment of Ranks: In peace time, the demands are related to normal wastage. Considering the limited number required and the large number of candidates offering themselves for enrolment the screening procedure has been streamlined and made more effective to ensure that only the best candidates from the available material are inducted into the Services.

Physical Standards: Candidates who have the physical standards i.e. the minimum height, weight and chest measurements and who are medically fit have to undergo a literacy and physical efficiency test conducted by Boards of Officers at the Branch recruiting offices and enrolment is on the merit judged at these tests.

Minimum standards prescribed for general population are:

(a) Height	164 cms.
(b) Chest	78 cms.
(c) Weight	51 kgs.

Corresponding physical standards are higher in respect of specified racio-ethnic groups whose inherent anthropometric characteristics are better, and lower for some other classes, predominantly residing in the hill districts and backward tribal regions. The physical standards for Sailors and Airmen are different.

Instructions have been issued to recruiting officers to enrol one son of a serving soldier/ex-serviceman on a relaxed standard, such relaxations extending to 2 cms. in height, 1 cm. in chest expansion and 2 kgs. in weight. This step has been taken as a measure of welfare and also to ensure that the tradition of service in the Army to those already serving or who have retired is maintained. The new instructions have come into force with effect from February 1977.

Educational Standards: The educational standards vary from trade to trade. In the case of the Army, variations range from literate to Higher Secondary as opposed to Higher Secondary/Pre-University in the Air Force and Matriculation for all categories except cooks/stewards in the Navy.

Selection Procedure: All prospective recruits for enrolment are screened by the enrolling officers at a suitable place. The best candidates among those who fulfil the prescribed standards are selected. The practice of putting the candidates through an aptitude test at the pre-enrolment stage was discontinued with effect from 15th November 1977. These aptitude tests would now be administered at the training centres after ten weeks of training and trades would be allotted on the basis of these tests. This has been introduced with a view to eliminating a source of malpractice at the recruitment stage where the JCO Tester had the last say in the matter of recruitment of an individual who was otherwise found physically and medically fit.

Recruiting Organisation: There is a combined recruiting organisation for the Army and the Navy. There are 60 recruiting offices located in important towns, each one of which covers several districts for recruitment to the Navy as well as the Army. There is a separate recruiting organisation for the Air Force which has 13 recruiting offices. Recruiting Officers carry out recruitment at their own stations or while on tour in the interior areas in their territorial jurisdiction. Each Recruiting Officer is expected to hold one recruiting *mela* in a month and make open recruitment at these *melas*.

Recruitment of Officers: Recruitment to the officers' cadres in the three Services is made on the basis of a competitive examination through the U.P.S.C. as also by the Services Selection Boards. Candidates in the age group of 16-18½ years and possessing Higher Secondary and equivalent qualifications are eligible for competing in the examination. It is worth noting in this context that although it is not obligatory for the students of the Military Schools located at Chail, Ajmer, Dholpur, Belgaum and Bangalore to sit for the U.P.S.C. examination, special care is taken to see that they develop an interest in a military career. Accordingly coaching is arranged for those students who are desirous of appearing in the U.P.S.C. examination.

The candidates selected are imparted training at the National Defence Academy, Khadakvasla on an Inter-service basis for a period of three years. On completion of the training at N.D.A., Army Cadets go to the Indian Military Academy, Dehra Dun for further training for one year before they are commissioned. The Naval Cadets, after passing from the N.D.A. undergo afloat training for 6 months in the training squadron followed by another 6 months as midshipmen before they are commissioned. The Air Cadets undergo further training for 18 months at the Elementary Flying School, Bidar and Air Force Academy, Hyderabad, before they are commissioned.

Apart from the entry through N.D.A., there is a scheme of direct entry for candidates with graduate/post graduate qualification for the three services for various general/technical branches like E.M.E., Engineers, Signals, Army Medical Corps, Army Service Corps, Army Education Corps etc. in the Army; Logistics, Aeronautical Engineering, Education and Meteorological Branches of the Air Force; and Engineering and Education Branches in the Navy. The age prescribed to these branches varies from 20 to 27 years. The selection is made through U.P.S.C. as well as directly by the Services Selection Boards. There is also a scheme for entry through N.C.C. and through promotion from the ranks.

After commissioning the Army Officers are appointed as 2nd Lieutenant and Naval and Air Force Officers as Ag. Sub Lieutenant and Pilot Officers respectively. Ante date commission is given to qualified graduates in Engineering, M.B.B.S. etc.

Training: Training in the Services has been planned so as to keep the units and formations in a state of readiness so that they can take the field at short notice. Special emphasis has been laid on endurance, fortitude and mental robustness of all ranks so that they are conditioned to withstand the pressure and the intensity of fire of modern weaponry.

Intensive pre-commission training is provided to the officers in National Defence Academy, Indian Military Academy, Naval and Air Force Academies, before the officers are commissioned. After an officer has been commissioned in the Service, he undergoes a number of courses designed to fit him in his particular branch of service. In the case of Army post-commission training in specialised branches is imparted at Infantry School, Armoured Corps and Artillery Schools, College of Military Engineering, College of Combat and High Altitude Warfare School etc. Training in Navy is provided in the training schools of various branches, *e.g.* INS "SHIVAJI" for the Engineering Branch, INS "VALSURA" for the Electrical Branch, INS "HAMLA" for the Supply Branch and INS "VENDURTHY" for the Executive Branch. Air Force Officers undergo advanced training in the Air Force Academy, Air Force Technical College and Air Force Administrative College, etc. The Officers of the three Services are also deputed for training in the Defence Services Staff College, Institute of Defence Management and National Defence College.

Individual and collective training exercises are held periodically by the three Services so as to keep the units and formations in a state of operational readiness. The training imparted develops inter-arms and inter-service co-operation and inculcates initiative at all levels of command.

In order to keep the Armed Forces abreast of modern tactical concepts and technological advancements in foreign countries, officers are deputed to foreign countries for specialised training. Services of such officers are utilised for imparting training to other officers in respective fields.

TRAINING ESTABLISHMENTS

There are a number of training institutions where Officers are imparted pre-commission and post-commission training. There are also a few other institutions run under the auspices of the Ministry of Defence for preparation of boys for entry to the National Defence Academy, such as Rashtriya Indian Military College, Military Schools and Sainik Schools. A brief description of these important training establishments and feeder institutions is given below:

Armed Forces Medical College, Pune, Maharashtra: Admits 120 students of whom those who receive a stipend have to serve as short service commissioned officers after training. For the others preference for admission is given to those who volunteer for service.

Army Cadet College, Pune: Trains other selected ranks from the Army to acquire officer-like qualities and general academic education required for entry to the I.M.A. for grant of commission.

College of Air Warfare, Begumpet Air Force Station, Hyderabad, Andhra Pradesh: provides training to senior officers.

Defence Institute of Fire Research, New Delhi 110046: Trains Personnel in the Defence organisation in modern methods of fire fighting and prevention.

Defence Institute of Stores Preservation and Packaging, Delhi: Presently a part of Defence Materials and Stores Research and Development Establishment, Kanpur, trains defence personnel in different aspects of preservation and packaging.

Defence Institute of Work Study, Mussoorie, Uttar Pradesh: Conducts work study courses, for defence personnel.

Defence Services Staff College, Wellington, Nilgiri Hills, Tamil Nadu: Conducts a 45-week course for senior officers of the three wings; some civilians and foreign officers in all aspects of staff work.

Indian Military Academy, Dehra Dun, Uttar Pradesh: Imparts pre-commission training to cadets from the N.D.A., cadets from the A.C.C., direct entry cadets and N.C.C. cadets selected for commission in the Army

Institute of Armament Technology, Pune, Maharashtra: Trains service personnel and civilian scientific officers in the field of science and technology related to armaments.

Institute of Defence Management, Secunderabad, Andhra Pradesh: Trains service and civilian officers in modern defence management techniques.

Institute of Defence Studies and Analysis, Sapru House, Barakhamba Rd., New Delhi 110001: Set up in 1965 it carries out studies, discussions and research on various aspects of national security.

Institute of Nuclear Medicine and Allied Sciences, Probyn Rd., New Delhi 110007: It runs courses on nuclear medicine and technical studies in nuclear, biological and chemical warfare.

Military Schools: There are 5 run by the Defence Ministry, one each at Chail (Himachal Pradesh); Ajmer (Rajasthan); Belgaum (Karnataka); Bangalore (Karnataka); Dholpur (Rajasthan). The boys appear for the All India Higher Secondary Examination but are not obligated to appear for the National Defence Academy Examination.

National Cadet Corps, West Block, 4, Ramakrishnapuram, New Delhi 110022: Set up to stimulate among youth an interest in the defence of the country.

National Defence Academy, Khadakvasla, Maharashtra: Trains boys who wish to join the armed forces as commissioned officers. Age limit is 16-18½ years and qualifications higher secondary or equivalent. The standard of training reached is equivalent to that of a degree course of a University.

National Defence College, Tees January Marg, New Delhi 110011: Set up in 1960. This college trains officers of the rank of Brigadiers, and its equivalent ranks.

Officers Training School, Madras: Officers granted short service commissions in the Army are trained at this school. Admission to the OTS is made on the basis of a competitive examination convened by the U.P.S.C. followed by suitability having been assessed by a Services Selection Board.

Rashtriya Indian Military College, Dehra Dun: The admission is made twice a year in January and August, for Class VII and boys between 11 to 12 years are eligible for it. It has adopted 10 plus 2 pattern of secondary education. There are a limited number of seats which are allocated normally at the rate of one seat for each State. The State Governments have instituted scholarship schemes for boys studying in the College and such boys are under obligation to take the National Defence Academy examination.

Sainik Schools: Boys between 9-18 are prepared for the NDA entrance examinations in 17 schools run by the Sainik School Society headed by the Defence Minister. The Sainik Schools are affiliated to the Central Board of Secondary Education and follow the 10 plus 2 pattern of secondary education.

These schools are located at: Nagrola on Tawi near Jammu (Jammu & Kashmir); Kapurthala (Punjab); Kunjura near Karnal (Haryana); Chittorgarh (Rajasthan); Balachadi (Gujarat); Satara (Maharashtra); Ghorakhal near Naini Tal (Uttar Pradesh); Rewa (Madhya Pradesh); Tilaiya (Bihar); Purulia (West Bengal); Bhubaneshwar (Orissa); Korukonda (Andhra Pradesh); Amaravathinagar (Tamil Nadu); Bijapur (Karnataka); Kazhakootam (Kerala); Goalpara (Assam); Imphal (Manipur) and Sujanpur Tira (Himachal Pradesh).

School of Directorate of Psychological Research, M-Block, New Delhi 110001: Gives training in selection, techniques and methods.

School of Foreign Languages, West Block 4, Wing No. 56, R.K. Puram, Delhi 110022: Teaches Arabic, Burmese, Chinese, French, German, Japanese, Malay Indonesian, Persian, Russian, Spanish and Tibetan to Service personnel, government employees and a few civilians. Courses begin in April and August each year.

Schools of Nursing: Army Hospital, Delhi Cantt.; Central Command Hospital, Lucknow; I.N.H.S. Ashvini, Bombay; Air Force Hospital, Bangalore; Military Hospital, Jullundur; Military Hospital, Secunderabad; Eastern Command Hospital, Calcutta; Western Command Hospital, Chandigarh.

Other training establishments: A number of other specialised training establishments for each wing of the Armed Forces give instructions of special nature. It is not possible to list them all in this Chapter for reasons of space and, because they cater largely to the needs of the personnel already recruited.

DEFENCE PRODUCTION: The nine public sector units (see Chapter Central Govt. Undertakings) under the administrative control of the Defence Ministry produced goods worth Rs. 4,940.8 million during 1980-81 as against Rs. 5,020.9 million in 1979-80. During 1981-82 the production was estimated to be Rs. 7,764.2 million.

The total paid-up share capital of the undertakings as on 31st March 1981 stood at Rs. 1,799.1 million and the Govt. of India loans amounted to Rs. 2,636.9 million.

The total strength of employees as on 31st March 1981 was 96,505.

Export and Foreign Exchange Earnings: During 1980-81 Bharat Electronics Ltd. earned foreign exchange worth Rs. 51.9 million. Praga Tools Ltd. earned foreign exchange of Rs. 94.8 million during 1980-81. Bharat Earth Movers Ltd. exported equipment worth Rs. 19.8 million in 1980-81. Mazagon Dock Ltd., earned foreign exchange worth Rs. 32.5 million. Garden Reach Shipbuilders and Engineers Ltd.'s foreign exchange earnings during 1980-81 amounted to Rs. 502.5 million on account of repairs to foreign flag vessels/export sales etc. The export earnings of Hindustan Aeronautics Ltd. were Rs. 14.5 million in 1980-81 and likely to increase to Rs. 30 million in 1981-82.

Ordnance Factories: There are 33 ordnance and equipment factories in India producing a wide range of arms, ammunitions, military bridges, explosives, instruments, clothing, electrical cables, vehicles and various other defence stores. About 140,000 people are employed. The gross value of production during 1980-81 was Rs. 6,750 million.

AGGRESSIONS AGAINST INDIA

1. First invasion on Kashmir—23rd October, 1947.
2. Chinese infiltration into Tibet began in 1950.
3. By 1956, Chinese Army had moved along the entire boundary from Ladakh to NEFA.
4. In 1957, China had built roads in the Aksai Chin area.
5. India protested against it on October 18, 1958.
6. In March 1959 China overran Tibet and Dalai Lama came to India.
7. Chinese massive attack on the eastern border and Ladakh simultaneously—October 20, 1962.

   Unilateral cease-fire by China on midnight November 21/22, 1962.
8. (a) Pakistan aggression commenced on April 9, 1965, on Kutch border.
   (b) Infiltrators started coming in Jammu and Kashmir on 5th August, 1965.
   (c) Pakistan troops entered Mendhar area in Jammu and Kashmir on 22nd August, 1965. Repulsed by India, Indian troops crossed cease fire line on 25th August, 1965.
   (d) Cease fire on 23rd September, 1965.
9. Tashkent Agreement on 10th January, 1966.
10. Four Pakistani sabre jets intruded into Indian territory on 22nd November, 1971, near Calcutta. Three of these were shot down. On December 3, 1971, Pakistani aggression on India began with a 'pre-emptive' air strike on several airports from Srinagar to Agra. President Giri declared a state of emergency in the country, and Pakistan launched a full-scale war on India. Hostilities ceased when Pakistan surrendered in Bangladesh on December 16, 1971 and Prime Minister Indira Gandhi announced a unilateral cease-fire on the western front effective 8 p.m. on December 17, 1971.

A TOURIST'S GUIDE

(For Hotels and Travel Agencies see under "Commercial Firms"—Services)

TOURISM is being increasingly recognised the world over as a money spinner. Its great potential is being tapped not only to attract tourists but also to project an international image of goodwill and understanding. India's rich heritage draws many European tourists and attempts are being made to make entry into India easy and for better facilities for travel and comfortable stay in hotels all over the country.

The Department of Tourism in the Ministry of Tourism and Civil Aviation is under the independent charge of a Minister of State and its main functions are development of tourist facilities, dissemination of tourist information, regulation of tourist activities like accommodation, youth hostels, travel agents, transport operators, wildlife outfitters, guides, etc. Another important function of the department is the overseas projection of India's image through publicity media like press, handouts, film and cultural presentations.

The main wing of the department for these promotional and developmental activities is the India Tourism Development Corporation set up in 1966 and recognised as the major public sector organisation for the purpose.

India has three major seasons: winter, summer and the monsoon.

The winter months (November-February) are pleasant throughout India with bright sunny days. In the northern plains, the minimum temperature at times drops steeply and there is snowfall in the hills. In Maharashtra and the south and in eastern India, however, December and January are pleasantly cool, never really cold.

The summer months (April-June) are hot in most parts of India, and it is during this season that hill resorts such as Simla, Mussoorie, Naini Tal, Kulu, Manali, Dharamsala, Dalhousie, Kangra Valley, Kashmir Valleys, Darjeeling, Shillong, Ootacamund, Kodaikanal, Pachmarhi, Mount Abu, Matheran, Mahabaleshwar, Lonavala and Khandala provide cool retreats. (See "Meteorology" for average temperatures and rainfalls.)

The south-west monsoon usually breaks about the beginning of June on the west coast and reaches elsewhere later. With the exception of the south-eastern areas, India receives the major share of its rainfall between June and September. The south-eastern areas receive most of the rainfall from the north-east monsoon between November and January.

Clothing: In northern India, where evening and night temperatures drop steeply in winter, woollen clothing is necessary from the middle of November to the middle of February. Winter in other parts of the country is mild and tropical clothing will be sufficient. For those visiting the hill resorts during this time heavy woollens are essential.

During the summer months, only light tropical and cotton clothing are comfortable. Visitors to the hill resorts, however, should carry light woollens.

Medical Facilities: In all the cities and towns there are State-managed and private hospitals and dispensaries. The services of highly qualified specialists and consultants are available in places like Delhi, Bombay, Calcutta, Madras and other large cities. Some of the chemists, offer round-the clock service. (See "Hospitals" in "Services" for the list.)

Foreign Exchange: To change their money, foreign tourists are requested to deal with authorised money changers and obtain an official receipt to enable them to reconvert their unspent amount on their final departure from India.

Indian Currency: No Indian currency can be brought in or taken out of the country except rupee travellers' cheques.

TOURIST INFORMATION: The main Govt. of India tourist offices in India are at:

(1) 191, The Mall, Agra, Uttar Pradesh, Tel. No. 72377; (2) Krishna Vilas, Station Road, Aurangabad, Maharashtra, Tel. No. 4817; (3) K.F.C. Building, 48, Church Street, Bangalore-560 001, Karnataka; (4) 123, M. Karve Road, Bombay 400 020, Tel. No. 293144; (5) No. 3, Inspection Bungalow, Hotel Kalinga Ashoka, Bhubaneshwar, Orissa, Tel. No. 54203; (6) "Embassy", 4, Shakespeare Sarani, Calcutta 700 071, West Bengal, Tel. No. 441402; (7) Willingdon Island, Cochin-3, Kerala, Tel. No. 6045; (8) B.K. Kakati Road, Ulubari, Gauhati-781007, Assam, Tel. No. 31381; (9) State Hotel, Jaipur, Rajasthan, Tel. No. 72200; (10) Near Western Group Temples, Khajuraho 471606, Madhya Pradesh, Tel. No. 47; (11) Janpath Market, Lucknow 226001; (12) 154, Anna Road, Madras-600002, Tamil Nadu, Tel.No. 86240; (13) 88, Janpath, New Delhi, Tel. No. 320005; (14) C/o Tourist Bhavan, Bir Chand Patel Marg, Patna 800001, Bihar, Tel. No. 25320; (15) C/o Publicity Officer, Andaman & Nicobar Administration, Port Blair, Andaman & Nicobar Islands; (16) G.S. Road, Police Bazar, Shillong 703001, Meghalaya; (17) Govt. of India Tourist Office, C/o A.P. Travel & Tourism Corpn., Diamond House, Liberty Road, Himayat Nagar. Hyderabad, Andhra Pradesh, Tel. No. 36282.

In addition to the above mentioned Tourist Offices, there are State Govt. Tourist offices in the major cities of the respective States and also at important tourist centres.

GOVERNMENT OF INDIA TOURIST OFFICES ABROAD:

Bangkok: Govt. of India Tourist Office, 3F, Singapore Airlines Bldg., 62/5, Thaniya Road, Bangkok, Thailand. Tel. 235-2585.

Brussels: Govt. of India Tourist Office, 60, Rue Ravenstein, Boite 15, 1000 Brussels, Belgium. Tel. 02-511795.

Chicago: Govt. of India Tourist Office, 230, North Michigan Avenue, Chicago, Illinois 60601, U.S.A. Tel. 312-236-6899.

Dallas: Govt. of India Tourist Office, 13317, Kit Lane, Dallas, Texas - 75240, U.S.A. Tel. 214-234-2233.

Frankfurt: Govt. of India Tourist Office, Kaiserstrasse - 77/III, 6000, Frankfurt am Main, West Germany. Tel. 235423.

Geneva: Govt. of India Tourist Office, 1-3, Rue de Chantepoulet, 1201, Geneva, Switzerland. Tel. 322-321813.

Kuwait: Govt. of India Tourist Office, Saadoun Al-Jassim Bldg., Fahad Al-Salem Street, P.O. Box No. 4769, Safat, Kuwait. Tel. 426099.

London: Govt. of India Tourist Office, 7, Cork Street, London WIX 2AB, U.K. Tel. 01-437-3677.

Los Angeles: Govt. of India Tourist Office, Suite 250, 3550, Wilshire Boulevard, Los Angeles, California 90010, U.S.A. Tel. 213-380-8855.

Melbourne: Govt. of India Tourist Office, C/o Air India, 440, Collins St., Melbourne VIC 3000, Australia. Tel. 03-602-3933.

Miami: Govt. of India Tourist Office, 1020, N.E. 165 Terrace, North Miami Beach, Florida 33162, U.S.A. Tel. 305-944-7039.

Milan: Govt. of India Tourist Office, Via Albricci-9, 20122, Milan, Italy. Tel. 804952.

New York: Govt. of India Tourist Office, Room 15, 30, Rockefeller Plaza, North Mezzanine, New York, N.Y. 10020, U.S.A. Tel. 212-586-4901.

Osaka: Govt. of India Tourist Office, C/o Air India, Shoho Bldg., 28, Bingmachi, 4, Chome, Higashu-Ku, Osaka 541, Japan. Tel. 06-261-35.

Paris: Govt. of India Tourist Office, 8, Boulevard de la Madeleine, 75009, Paris, France. Tel. 265-83-86.

San Francisco: Govt. of India Tourist Office, 1774, 26th Avenue, San Francisco, California 94122, U.S.A., Tel. 415-564-2973.

Singapore: Govt. of India Tourist Office, 4th Floor, Podium Block, Ming Court Hotel, Tanglin Road, Singapore - 1024. Tel. 235-57-37.

Stockholm: Govt. of India Tourist Office, Sveavagen 9-11, S-III-57, Stockholm, Sweden. Tel. 08-215081.

Sydney: Govt. of India Tourist Office, 9th Floor, Carlton Centre, 55, Elizabeth Street, Sydney, New South Wales 2000, Australia. Tel. 02-232-1600.

Tokyo: Govt. of India Tourist Office, Pearl Building, 9-18, Ginza, 7, Chome Chuo Ku, Tokyo-104, Japan. Tel. 03-571-5062.

Toronto: Govt. of India Tourist Office. Suite 1016, Royal Trust Tower, Toronto Dominian Centre, Toronto, Ontario, MSK 1K7. Canada. Tel. 416-362-3188.

Vienna: Govt. of India Tourist Office, Opernring 1/E/11, 1010 Vienna, Austria. Tel. 571462.

Washington: Govt. of India Tourist Office, Unit 117, Lakeside Terrace, 7505, Democracy Boulevard, Bethasda, Maryland 20817. U.S.A. Tel. 301-365-4186.

ACCOMMODATION: (See "Hotels" in the chapter *Services* for the list.)

There are modern western-style hotels in all large cities as well as at popular tourist centres. These have been classified on the internationally accepted star system. Hotel charges in India are moderate compared to those of many other countries.

At tourist centres where hotel accommodation is not adequate, there are travellers lodges constructed and run by the India Tourism Development Corporation, a Government of India Undertaking, or tourist bungalows run by the State Governments which offer comfortable lodging and meals.

House boats fully furnished and staffed are moored to the banks of the river Jhelum and Dal and Nagin lakes in Kashmir and are known for their comfort and convenience.

Many centres of tourist interest in India are situated in out-of-the way places. At most of these tourist centres there are Government owned rest houses (semi-hotel establishments) where tourists can stay. These are all close to national highways and convenient for tourists travelling by road. It is advisable to make reservations in these rest houses sufficiently in advance.

Youth Hostel accommodation is generally available in the hostels of schools and colleges in most places of tourist interest during vacations only, in summer from May to July and in winter during December. However, there is a Youth Hostel in Delhi open throughout the year. Organised camping facilities exist in New Delhi at Tourist Camps, Opp. J.P. Narayan Hospital, Jawaharlal Nehru Road, and Qudsia Gardens, Opp. ISBT, Kashmiri Gate

The Department of Tourism, Government of India have constructed Youth Hostels at: Amritsar, Aurangabad, Bhopal Dalhousie, Darjeeling, Gandhinagar, Hyderabad, Indiranagar (Madras), Jaipur, Nainital, Panaji, Panchkula (Haryana), Patnitop, Puri, Trivandrum and Pondicherry. Youth Hostels under construction will be situated at Port Blair and Mysore. For an exhaustive list of other youth hostels contact Youth Hostel Association of India, 5, Nyaya Marg, Chanakyapuri, New Delhi 110 021.

Details for all these places can be had from any of the Government of India Tourist offices.

MODE OF TRAVEL TO INDIA: The overland route from Europe to India passes through France, Germany, Yugoslavia, Bulgaria Turkey, Iran and Pakistan-Hussainiwalla. On the Indo-Pakistan border, 26 kms. from Amritsar, is the only check-post called Attari.

All major airlines of the world operate services to and from the various international airports in India. Air India, the national airline connects Bombay, Delhi, Calcutta, Madras and Trivandrum to over forty destinations all over the world.

Travel within India: The Indian Airlines network of services onnects more than 70 cities including many centres of tourist attraction. (See air route and tourist map at the end of the book.)

Indian Airlines offers concessional fares for foreigners and ndian residents abroad. The rates are: *(a)* Discover India fare: 375 for 15 days for travel on all domestic sectors with unlimited topovers. *(b)* Youth fare concession: A 25% discount on normal air fare on all domestic sectors is offered to persons below 30 years of age.

The railways in India go almost everywhere and offer concessional **Indrail Pass** which is inclusive of reservation charges. These passes are issued only on payment of U.S. Dollars and Pound Sterling or travellers' cheques from Railway booking offices at Bombay, Delhi, Madras and Calcutta, Secunderabad/Hyderabad.

"INDRAIL PASS"
(Payment in foreign currency only)
FARES IN US DOLLARS

Period of	A/C Class		First Class		Second Class	
Validity	Adult	Child	Adult	Child	Adult	Child
			(A/C chair)			
7 days	160	80	80	40	35	18
15 "	200	100	100	50	45	23
21 "	240	120	120	60	55	28
30 "	300	150	150	75	65	34
60 "	450	225	225	113	100	50
90 "	600	300	300	150	130	65

With the introduction of the above concession, all other concessions like student and circular ticket concession remain cancelled.

Motoring in India: Tourists who wish to travel by automobile can obtain full information regarding road conditions, driving regulations, driving licences, 'Triptyque' or 'Carnet', from the recognised Automobile Associations listed below. Private taxis or luxury tourist taxis can be hired though self-driven cars are not generally available in India.

(1) The Automobile Association of Upper India (behind Hindustan Times Bldg.), Lilaram Bldg., 14-F, Connaught Place, New Delhi 110001 (Tel. 42063); (2) Western India Automobile Association, Lalji Naranji Memorial Bldg., Churchgate, Bombay 400020 (Tel. 291085); (3) Automobile Association of Eastern India, 13, P. Barua Sarani Rd., Calcutta 700019 (Tel. 479012/474455); (4) Automobile Association of Southern India, 38A, Annasalai Rd., Madras 600006 (Tel. 86121/2/3); (5) U.P. Automobile Association, 32A, M. Gandhi Rd., Allahabad 211001 (Tel. 2445); (6) Automobile Association of Kerala, Collectorate Junction, Kottayam 686001.

Insurance: A third party insurance is compulsory for all motor vehicles which are in use. The insurance must be with a company registered in India.

Passport/Visa: The Government of India issues three kinds of visas, *viz.* Tourist, Entry and Transit according to the purpose of visit.

Visas are issued by Indian Representatives abroad. In countries where there are no Indian Representatives or Consular Officers, the nearest British Representatives will advise on the obtaining of Indian visas.

South Africans of Indian origin do not require visas but should be in possession of valid passports or certificate of identity endorsed for India.

Citizens of Commonwealth countries (other than citizens of Sri Lanka and Bangladesh) and of the Republic of Ireland and nationals of Nepal (except when coming from Tibet) require a valid passport without visa. However, holders of U.K. and colonies passports ordinarily resident in Kenya and Uganda and holders of British Subject or British Protected Persons passports require visas. Nationals of Commonwealth countries and of the Republic of Ireland proceeding to India for or in connection with missionary work require special endorsements.

Nationals of Sweden, Finland, Norway, Denmark, Yogoslavia, Bulgaria and Iceland holding valid national passports can enter India for a stay of a maximum period of 90 days once within six months without a visa.

Nepalese and Bhutanese when proceeding from their respective countries need no passport or visa.

Individuals without nationality or of undermined nationality (stateless persons, IRO refugees, persons receiving legal and political protection, holders of Nansen passports etc.) should have valid passports, identity documents or sworn affidavits with visas for which they should apply at least two months in advance.

Family passports issued by other Governments are recognised without discrimination.

Citizens of all other countries require a valid passport entry, transit or tourist visa. Collective passports are accepted as valid documents only in respect of family groups where the names of minor children are included in the passports of the parents.

Foreign tourists and Indians resident abroad visiting India are entitled to the grant of Tourist Introduction Cards which helps them in getting accommodation in Rest Houses, Dak Bungalows, Railways, Indian Airlines, etc. Only foreign tourists are entitled to All India Liquor Permits which entitle them to buy, consume and possess liquor in States where prohibition exists. The Govt. of Gujarat has also relaxed its prohibition policy for foreign experts working with either Private Sector or Govt. organisations who can obtain liquor permits.

Restricted and Protected Areas: Visitors require special permits to visit areas declared as 'Restricted or Prohibited Areas' for security reasons.

Authority to issue the permits: Restricted Areas: Bonafide foreign tourists intending to visit Darjeeling can get necessary permits from the Immigration Authorities at any one of the four international airports of Bombay, Calcutta, Delhi and Madras. Tourists visiting Darjeeling town for the purpose of tourism for a period of 15 days do not require the permit, provided they travel to Bagdogra and back by air. Bonafide tourists intending to visit Darjeeling and Jaldapara for more than 15 days can get the necessary permit from the Foreigners' Regional Registration Offices in Bombay, Calcutta, Delhi and Madras.

Foreign tourists visiting Shillong and Kaziranga Wildlife Sanctuary for touristic purposes for a period of 15 days and 7 days respectively do not require any permit provided they travel upto Gauhati and back by air and travel to Shillong/Kaziranga by the route indicated below: For Shillong: Gauhati-Jorhat-Shillong Road. For Kaziranga: Gauhati-Jhalukbari-N H Diversion-Jorhat-N H 37: Kaziranga.

Permits for visiting Shillong for more than 15 days can be obtained from the Trade Advisor and Director of Monuments, Government of Meghalaya, 12B, Russel Street, Calcutta and for visiting Kaziranga, Manas and Gauhati for more than 15 days can be obtained from the Trade Advisor, Assam House, 8, Russel Street, Calcutta.

For visiting Bhutan visitors require a visa from the Royal Bhutan Government or their Missions in New Delhi and New York. They also require transit permits to pass through the restricted areas of India.

Foreign tourists can visit Gangtok (Sikkim) for a period of 4 days or so. Applications for this permit have to be made to the Deputy Secretary, Ministry of Home Affairs, New Delhi in advance.

Trekking in Phalut and Sandakphu area is allowed provided foreign tourists report to Foreigners' Registration Office, Darjeeling, 24 hours before departure and report at police checkposts at

Phalut and Sandakphu. The visit to Darjeeling town, Phalut and Sandakphu must be completed within 15 days:

Other Restricted Areas: Permits are issued by the Ministry of Home Affairs, North Block, New Delhi.

A foreigner resident in India, who wishes to make short trips abroad of not more than 3 months, can obtain "Return Visas" from the Foreigners' Regional Registration Offices or the State Governments. If the visit abroad is of longer duration "No objection to Return" endorsements can be obtained. Such endorsements are valid for one year in the case of missionaries and 6 months in the case of others and within these periods Indian Missions can issue re-entry visas on the strength of such endorsements.

Registration of Foreigners: No registration is required for holders of Transit Visa.

Visitors holding visas for three months or less: No registration. If permission to extend stay beyond 90 days is given, Registration Certificate and Residential Permit should be obtained from the nearest Foreigners' Regional Registration Office.

Visitors holding visas for more than three months: Registration within seven days of arrival and, in any case, before departure if leaving within seven days of arrival in India.

Personal appearance is necessary at the time of initial registration. Tourist Visa holders are exempted from reporting change of address. All others have to report change of address to the registration authorities if they intend to be absent from their registered address for more than 15 days. If this has not been done, visitors have to report to the registration authorities of the town they are visiting unless they stay at a hotel in which case the registration at the hotel is sufficient. Citizens (other than missionaries) of Commonwealth countries and Ireland and nationals of Nepal and Bhutan are exempted from registration formalities.

Departures: Tourists, if they are registered, are exempted from reporting their movements. However, all visitors holding registration certificates have to obtain, before departure exit endorsements from the Registration Officers of the district in which they were initially registered. The Foreigners' Regional Registration Officers can also grant these endorsements to visitors residing within their jurisdiction. Permits have to be surrendered at the Foreigners' Registration Office in the city and not at the airport. Registration certificates and residential permits are to be surrendered at the port of departure.

Regulations on entry into India: *(a)* Cholera and Smallpox: Inoculation and vaccination recommended. *(b)* Yellow Fever: A valid international certificate of vaccination is required for arrivals from infected areas. Any person (including infants) arriving by air or sea without a valid certificate is detained in isolation for the requisite period or to a maximum of six days counted from the time of last possible exposure to infection. This is enforced if the visitor arrives within six days of departure from an infected area or has been in such an area in transit or has come by an aircraft which has been to an infected area, but has not been disinfected in accordance with the procedure laid down in Schedule VI of the Indian Aircraft (Public Health) Rules, 1954 Act or those recommended by W.H.O. A certificate of vaccination against yellow fever is regarded valid only if the vaccine used has been approved by the W.H.O. and if the vaccinating centre has been designated by the health administration for the territory in which that centre is situated. A vaccination certificate is not regarded as valid until ten days after the date of vaccination. The certificate remains valid for a period of ten years. In the event of re-vaccination within ten years the certificate becomes valid immediately.

The following countries and territories are regarded as yellow fever-infected areas: Angola, Botswana, Burundi, Cameroon, Central African Republic, Chad, Congo (Brazzaville), Congo (Democratic Republic), Dahomey, Equatorial Guinea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Ivory Coast, Kenya, Liberia, Malawi, Mali, Mauritania, Niger, Nigeria, Portuguese Guinea, Rwanda, Sao Tome and Principe, Senegal, Sierra Leone, Somalia, Sudan (South of 15°N), Togo., Uganda, United Republic of Tanzania, Upper Volta, Zaire and Zambia. Bolivia, Brazil, British Honduras, Canal Zone, Colombia, Costa Rica, Equator, French Guiana, Guatemala, Guyana, Honduras, Nicaragua, Panama, Peru, Surinam, Trinidad and Tobago, Venezuela.

Note: When a case of yellow fever is reported from any area of a country, the whole of that country is regarded by the Government of India as infected by yellow fever and is added to the above list.

Visitors leaving for countries which impose health restriction on arrivals from India are required to be in possession of a valid certificate of inoculation and vaccination. There is no health check-up of passengers leaving by air. There is, however, normal health check-up of passengers leaving by sea.

Baggage: All baggage is subject to customs examination. Articles of high values *e.g.* radios, cameras, binoculars, jewellery, typewriters, transistors, etc are exempted from duty provided they are entered in the re-export declaration form and re-exported within 6 months.

No fire-arms, ammunition for fire-arms and other weapons will be allowed to be carried by passengers without specific authorisation from the Director-General, Civil Aviation. Fire-arms should be declared. Unloaded fire-arms and ammunition may be handed over to Air-lines before embarkation for delivery at the destination. Carriage of explosives is prohibited.

All visitors importing fire-arms and ammunition of permissible types must obtain a Possession Licence, valid for six months, from the Indian Embassies/Consulates or after arrival from the District Magistrates in India. Temporary licences are also issued at ports of disembarkation to enable tourists to transport fire-arms, etc. to their destination. It may, however, be clarified that this temporary licence authorises the licensee to possess and carry (*and not use*) the arms and ammunition covered by this licence for the duration of the journey. The licensee shall on arrival at his destination apply immediately to the nearest licensing authority for a regular Possession Licence and at the same time deliver this temporary licence in *original* to that authority. The tourist must also deposit his arms and ammunition for safe custody either with an authorised arms dealer or with the nearest Police Station pending issuance of the regular licence. On obtaining the regular licence, he can get back his arms and ammunition from the arms dealer/police station as the case may be on production of the licence.

If a tourist coming to India wishes to bring with him certain specialised equipment or articles not covered by the Tourist Baggage Rules as explained above, he should apply in writing well in advance to the Chief Controller of Imports and Exports, Udyog Bhawan, New Delhi, giving particulars of all such articles which he intends bringing into the country with him and the special reasons for doing so. The approximate C.I.F. value of the articles should also be indicated.

The import of certain articles such as dangerous drugs, live plants, gold coins, gold and silver bullion and silver coins not in current use, is either totally prohibited or restricted. The law provides heavy penalties for infringement of this restriction.

Tourists are allowed to bring into India travellers' cheques or foreign currency notes of any amount subject to declaration on the Currency Declaration Form issued by the customs at the air/sea port or checkpost on the land border.

Additional concessions for tourists: *Sporting Fire arms:* Not more than three sporting fire-arms brought in by a tourist are allowed free of duty. These must, however, be re-exported.

Cartridges: Each tourist is allowed to bring in 400 (exclusive of 20 allowed duty free) cartridges, on payment of customs duty, but without an Import Licence.

Film: A tourist is allowed to import two still cameras with 2 rolls of film or 48 plates plus 50 rolls on entry in Tourist Baggage Re-export Form and also one miniature cinematograph camera of mm with 10 reels of films plus 20 reels on entry in Tourist Baggage Re-export Form.

TRAVEL AGENCIES: ***A list of Govt. approved Travel Agencies appear under "Services". Please see General Index under "T"***

PLACES OF TOURIST INTEREST—CENTRAL REGION

Sanchi: It is 45 kms. (28 miles) from Bhopal, the Capital of Madhya Pradesh. Sanchi was not directly associated with the life of Buddha, but grew to be an active centre of Buddhism during the time of Ashoka (3rd Century B.C.). The magnificent and relatively well preserved monuments for which Sanchi is famous are all situated atop a hill overlooking woods where "Flame of the Forest" trees bloom fiery red in the summer. The most imposing of the monuments is the Great Stupa (about 150-100 B.C.)—huge semi-circular structure, surrounded by profusely carved gateways and railings depicting scenes from the Buddha's life. In the history of Indian art, the Sanchi stupa occupies a very important place, for it has influenced Hindu and Buddhist sculpture for many centuries that followed.

Khajuraho: Nearly 402 kms. (250 miles) south east of Delhi (flying time 2 hrs. 15 mts.) are the erotic temples of Khajuraho in Madhya Pradesh, belonging to about 950 to 1150 A.D. They are ranked among the world's topmost tourist attractions, and represent some of the most exquisite specimens of Hindu architecture and sculpture in medieval India. The carving in the temples still seem to breathe a life and passion of their own and their beautiful proportions, the vibrant texture of the carvings which enrich their walls and their impressive size testify to the glories of the master builders of those days.

GAME SANCTUARIES/NATIONAL PARKS

Kanha National Park: In the central highlands of India is one of the finest places for seeing Indian swamp deer, chital, blackbuck, Indian bison, sambar and various carnivores. There are also nearly a hundred species of birds in this park. It can be reached by a motorable road from Nagpur (273 kms. or about 170 miles).

Accommodation: Forest rest houses.

Shivpuri National Park: The game preserve of the former rulers of Gwalior State, this 158 sq. km. (61 sq. miles) park is the natural abode of the sambar, chital, nilgai, chinkara and the Indian tiger. It is about 181 kms. (about 112 miles) south of Gwalior.

Accommodation: Shivpuri Hotel, Circuit House and Dak Bungalow.

EASTERN REGION

Calcutta: Calcutta was born with the beginnings of the British rule in India and thus has no ancient monuments to talk about. Victoria Memorial which houses the relics of British rule in India, the Indian Museum treasuring the relics of ancient civilization and the Ashutosh Museum displaying Bengali folk art are some of the places worth visiting. The impressive Howrah Bridge leads to the Botanical Gardens and to Belur Math, the seat of the Ramakrishna Mission.

Bodh Gaya: It is the most sacred of Buddhist centres because it was here that the Buddha attained enlightenment under the 'Peepal' tree. A number of monuments were raised at this site in the subsequent centuries. The Mahabodhi Temple, a magnificent structure with a pyramidal tower of nine storeys, 48.75 m. (160 feet) high, contains a colossal gilded image of the Buddha in the earth-touching posture symbolising the event of enlightenment. The temple was probably built in the 4th century A.D. and restored several times subsequently. Bodh Gaya is 11.26 kms. (7 miles) by road from Gaya railway station which is connected with Patna by rail (92 kms. or 57 miles).

Darjeeling: Hill station in West Bengal lies on the lower slopes of the Himalayas about 600 kms. (370 miles) north of Calcutta. It is 2.167.12m. (7,110 feet) above sea level. From here, one can view the Himalayas in all their majesty, range upon range of perpetual snow culminating in Kanchenjunga (8,578.90 m. or 28,146 ft. high). The quaint Buddhist shrines and monasteries, the happy carefree faces of the hill-folk and above all the picturesque scenery all around will abide in the visitor's memory.

The Kanchenjunga can always be seen, while the Everest, the highest peak in the world, is visible only on a clear day. Other favourite walks for the visitor are to Birch Hill and Lebong. The former is a reserve forest with an excellent park. Here the visitor will find oak, chestnut, cherry, maple, birch and alder.

Not far from the Birch Hill Park is the Himalayan Mountaineering Institute which provides training in mountaineering in the Himalayas. Tenzing Norkay, who climbed the Everest along with Sir Edmund Hillary, is associated with the Institute. The Observatory Hill, above the church, is known to the Buddhist as 'Rdo-rje-gling', 'the place of the Dorje', the mystic thunderbolt of the Lamaist religion. It is from this that Darjeeling takes its name. The bazaars of Darjeeling are very exciting. There you will find curios, carved wooden boxes, exotic pieces of jewellery, embroidered shawls and art objects. On Saturdays and Sundays, the picturesque hill-folk—Bhutias, Nepalese, Tibetans, Lepchas—throng the market-place with their wares and look most colourful.

Darjeeling can be reached from Calcutta by air upto Bagdogra and from there by road (88 kms. or 55 miles).

Bhubaneshwar: Orissa's new capital, a metropolis of temples, was built around a sacred lake which was once encircled by some 7,000 shrines. Now only 500 remain in decay, presenting a complete picture of Orissan art and history from the 3rd century B.C. to the 16th century A.D. The great Lingaraj Temple is supposed to be "the finest example of a purely Hindu temple in India". Pilgrims come here for blessings and then take a dip in the sacred lake "Bindu Sagar". This 20th century garden city has many other attractions like the nearby Jain and Buddhist rock cut caves of Khandagiri and Udayagiri. The beautifully preserved Asoka's rock edicts at Dhanli, carved around 260 B.C. narrate the horrors of the Kalinga war and Asoka's acceptance of the path of non-violence.

Puri: About 63 kms. (39 miles) by road from Bhubaneshwar, is the sacred city of Puri dominating Orissa's sea coast in all its secluded splendour. It is one of the 'Char Dham', the four most holy places of pilgrimage in India, the three others being Badrikedarnath in the north, Rameshwaram in the south, and Dwarka in the west. Every year, in the month of June, as many as two hundred thousand visitors and pilgrims flock to Puri to watch the Car Festival, when the images of the Jagannath ('Lord of the Universe') Temple are taken over a distance of one mile to the garden shrine of Gundicha Mandir. The gigantic car 11 m. (35 ft.) long and 14 m. (45 ft.) high with 16 wheels—each 2.13 m. (7 ft.) in diameter—is used for carrying the deities. It is a unique sight to see thousands of devotees vying with each other to pull the chariot.

Modern Puri has been built more or less along the beach which stretches east to west. The sea is shallow for about a mile from the beach, but the surf breaks with a rare violence on the shore. From early morning the beach is thronged with people who sport or bathe in the roaring but harmless waves.

Konarak: The Sun Temple of Konarak, on the seashore, about 66 km. (41 miles) from Bhubaneshwar is stupendous in proportions and truly amazing in its ornamentation. Standing in lonely splendour among the sand dunes, built in 1250 A.D. and dedicated to the Sun God, the temple is in the architectural image of the mythical chariot of the Sun rushing through the blue heavens. The twelve pairs of wheels of the chariot are the last word in sculptural artistry and the seven horses in front, straining to pull the massive weight, are superbly executed. Intensely lovely are the thousand and one figures—musicians, lovers, couples in embrace, floral designs, the enormous horses and elephants flanking the temple, scenes of the battle and the chase—all masterpieces.

Traveller's Lodge at a short distance from the temple is a very comfortable place to stay in, but tourist prefer to visit Konarak in a one-day trip from Bhubaneshwar.

Chilka Lake: About 96 kms. (60 miles) south of Bhubaneshwar is this great lake, famed for its rich bird life and a favourite resort for fishermen. Its scenery is of great natural beauty and many people travel there to watch the everchanging light at dawn, at noon, at sunset, in winter and in summer, in sunshine and in the rains.

Some of the most attractive aborigine tribes live in the neighbourhood of this lake.

Accommodation: P.W.D. Inspection Bungalow at Barkul which overlooks the lake.

Hyderabad-Secunderabad: The twin city linked together by the Hussain-Sagar (lake), is the capital of Andhra Pradesh. It is a centre of Muslim culture and learning and the fifth largest city in India. Standing on the banks of the river Musi, it was till 1948 the capital of Hyderabad State of Nizam, one of the richest men in the world. The Salar Jung Museum crammed with curios from all over the world, old manuscripts, costumes and ancient weapons is a living proof of the riches. Trapezoid in shape the city is surrounded by a stone wall. At the junction of wide avenues stand the Char Minar, a stately rectangular white building with four tall minarets often referred to as the "Arc de Triomphe" of the East. It is the famous landmark of Hyderabad and curiously made more famous by a brand of cigarettes of the same name said to be one of the strongest, cheapest and most satisfying kind on the market. To the south of Charminar lies the Chaumahalla Palace and to the West the Mecca Masjid, the principal mosque of Hyderabad. Built entirely of stone and richly decorated in coloured and polished plaster it boasts of an interior that can hold ten thousand worshippers at a time.

The Falaknuma Palace, the Osmania University and the beautifully laid out river gardens are some of the recent additions to the city that blend well with the old.

The tombs situated 8 kms. (5 miles) out of the city, are of Qutbshahi kings who ruled in the 16th and 17th centuries. Next to it is the massive Golconda Fort. It is surrounded by a strongly built wall of solid blocks of granite, with eighty-seven bastions at the angles, on which there are still some of the old guns. Now in ruins it was once famous as the diamond mart for the nearby mines.

GAME SANCTUARIES/NATIONAL PARKS

Jaldapara Sanctuary: This 93 sq. km. (36 sq. miles) area on the river Torsa in North Bengal is the abode of the famed Indian rhinoceros. Swamp and barking deer, sambar, pig and sometimes wild elephants are also seen here. Best months to visit are December to May. The nearest airport is Cooch Behar 100 kms. (62 miles), which is connected by air with Calcutta.

Accommodation: Tourist Bungalow.

Kaziranga Sanctuary: Famous as the main stronghold of Indian rhinoceros this 430 sq. km. (166 sq. miles) sanctuary also has elephant, wild buffalo, deer, sambar and many species of water birds. Best visited between December and May. It is 218 kms. (135 miles) from Gauhati which can be reached by air from Calcutta.

Accommodation: Forest Inspection Bungalow at Baguri.

Manas Sanctuary: Close to the Himalayas, it is 153 kms. (95 miles) west of Gauhati. Besides wild buffalo, elephant, Indian bison, tiger and deer the added attraction is the scenic beauty. Fishing is also possible here. October to May is a good time to visit.

Accommodation: Forest Department Bungalow at Mothanguri.

Note: A special permit is required to visit Kaziranga and Manas Sanctuaries in Assam State. It can be obtained from Assam House, 8, Russel Street, Calcutta 700016, which would take about five to six days to process. This applies to all regions in Assam and Meghalaya except Shillong.

Hazaribagh National Park: Situated in Bihar State.

Accommodation: Tourist Lodge; Forest Rest House (Kanari); Barodabari Forest Bungalow; Circuit House; and D.V.C. Guest House.

Palamau National Park: In Bihar State.

Accommodation: Tourist Lodge, Tourist Cottages and Forest Rest House (Kechki).

Dalma Wildlife Sanctuary: Near Jamshedpur in Bihar.

Semlipal National Park: Situated in the State of Orissa.

Accommodation: Forest Bungalows and Cottages at Chahala Nawana, Jonabil and Gudgudea.

NORTHERN REGION

Delhi: Like Rome, the capital of the Indian Republic, is an 'eterna city', and with a history even more chequered and ancient. In th ancient days, the city shifted its site at least seven times and th ruins of all these townships are still there for anyone to see.

There are today two Delhis—the old city of the Mughals built b Shah Jahan, the Emperor who built the Taj, and the new city buil by the British in 1931. While Old Delhi evokes a distinctly orient atmosphere, New Delhi has wide avenues and imposing offic buildings. Both the cities are rich in monuments and mosques; suc as the Red Fort, the Jantar Mantar Observatory, Humayun Tom the Parliament House, the Rashtrapati Bhavan and many more

Agra: The city of the world famous Taj Mahal has many othe historical sites of interest like the fort of the Mughals, the ruins o Fatehpur Sikri—a city built by Akbar—a Mughal Emperor. It als has numerous and fabulous tombs of eminent personalities. Specia tourist bus and trains run from New Delhi for a day's journe

Chandigarh: Now a Union Territory and also the capital of th Punjab and Haryana, the youngest of the Indian capital cities, it is striking example of modern town planning conceived by L Corbusier and Maxwell Fry. Advanced styling is adapted to th local climatic needs making it an unique city in the whole of India

Amritsar: City in the Punjab, is the religious capital of the Sikhs. I was founded in 1577 around a sacred pool, from which the cit takes its name "Pool of Nectar" The Golden Temple stands in th centre of this pool. The marble based temple has bronze sides an dome which are heavily covered with pure gold leaf. These refle the tropical sun into the still waters of the pool, illuminating it an creating an atmosphere of awe and respect. There are a few mor of the Sikh and Hindu temples worth seeing, but none surpass th peaceful aura of the Golden Temple.

Almora: In U.P. (133 kms. or 83 miles from Kathgodam Railwa Station) is the main town in Kumaon Hills. Perched at an elevatio of 1,706.88 m. (5,600 ft.) it is about two miles in length like saddle, and is said to have been founded four hundred years ago b Raja Kalyan Chanda. Almora has moderate rainfall, tempera climate, the temperature seldom rising above 31^{0}C (88^{0}F), ev during the summer days, and comparative freedom from fo Within easy distance of Almora are many Himalayan peaks- Seehee Debi, Bandnce Debi and Binsar being the chief on Binsar Hill also known as Jhandi Dhar is only 21 kms. (13 mile from Almora and the bridle path leading to it, passes throu enchanting jungle scenery.

Accommodation: Available at the Government circuit house f which an advance booking has to be made.

Pindari Glacier: Can be reached from Almora at a distance of 1 kms. (75 miles) in eight stages, attaining an altitude of 3,963 m. 4,267 m. (13,000 to 14,000 ft.). The most suitable time for this tr is either May-June or September-October.

Naini Tal: Hill station also in Kumaon Hills, is attractively situat around a mountain lake 1,935.48 m. (6,350 ft.) above sea level. shady avenue skirts the lake. On either side of the lake rise lof hills dotted with beautiful villas and bungalows. There are number of picnic spots around from where one can have magnificent view of the snow peaked Himalayan mountain ran Nainital District has a chain of lakes lying close to one another, t prettiest amongst them being lake Naini itself. They are a verita paradise for the angler. Besides fishing, one could also swimming, yachting, boating, riding, skating and trekking.

Kashmir: The Great Mughals, who were connoisseurs of the go things of life, described Kashmir as 'the earthly paradise'.

Indeed, it is difficult to imagine anything more lovely. It is a va rich, green valley criss-crossed by streams and rivulets a encircled by stupendous snow-clad mountains—'an emerald set pearls'. Nature has adorned it with lakes of limpid waters, bubbl springs by hill-sides, upland pastures and springy meado Clothing the valley is a vast expanse of paddy fields and fore alive with a variety of birds and animals. To enhance its natu beauty, pleasure gardens were laid out by the Great Mughals at many places in Kashmir.

Here you can stay in luxury in a floating hotel called the 'house-boat'; glide gently on the placid waters of the Dal Lake in a shikara; play golf on perhaps the world's highest golf-course; enjoy a variety of water sports; or, if you are adventurous, go trekking or hunting. Also, you can take back home some of the exquisitely embroidered, carved, chiselled or painted handicrafts for which Kashmir is known the world over.

Srinagar: Is a central place from where excursions and pleasure trips to all parts of the valley can be planned. It is itself a picturesque place with lakes, gardens and monuments along the river Jhelum.

Srinagar is an ancient city believed to have been first built by Emperor Asoka in the third century B.C. The Jhelum flows through the heart of the city, dividing it into two parts which are connected by nine bridges. A trip down the river in a swiftly gliding shikara would give the visitor a feel of the city's picturesque balconies, busy ghats, mosques and temples.

Gulmarg: Is about 46 kms. (29 miles) from Srinagar, a huge grassy bowl, known for its golf-course. The last 6.4 kms. (4 miles) of the journey are covered either by a pony or on foot and, with special permission, by jeep also. At the end of the climb, the visitor is rewarded with a magnificent view of Gulmarg which has numerous walks and picnic spots.

Pahalgam: In the lovely Lidder Valley, about 97 kms. (60 miles) from Srinagar is known for its exquisite scenery, springs and streams. It is also the base for treks to higher points like Amarnath and Sheshnag.

Kulu and Kangra Valleys: Well-known for its picturesque landscapes and historic temples, lies in Himachal Pradesh. 33.7 kms. (21 miles) from Kangra is the famous temple of Jwala-Mukhi, built up against a rocky cliff. An inflammable gas issues forth from a cleft in the cliff, creating an atmosphere of reverence. Kangra has several tea gardens while Kulu is well-known for the fruit orchards. The winding narrow roads flanked and shaded by pink blossomed apricot trees, huge rhododendrons and blue and purple iris in different seasons lead to the hilltops that look down on a gorgeous alpine scenery. These valleys are favourite vacation places as the summer is never uncomfortably hot and offer sports like golf, tennis, swimming, hiking and trout fishing.

Here the simple and unsophisticated people are a contented lot with few needs and fewer worries. These happy-go-lucky people hold fairs and festivals throughout the year and it would be wise to check and be there on a festival.

Allahabad: (Also called Prayag): City in U.P. situated at the confluence of the Ganga, the Jamuna and the unseen Saraswati. The confluence is the holiest bathing place for Hindus. Every 12 years, Kumbha Mela (religious fair) is held attracting over four million pilgrims during the four weeks. The last one was held in Fenruary 1965. A smaller fair occurs every six years—Adha Kumbhi. The old Mughal fort contains an underground temple where well carved images are seen and the pilgrims worship at a small tree taking it to be the Eternal Banyan Tree (Akshaya Vata). 104.6 kms. (65 miles) from Allahabad is Kosambi, where the ruins of an ancient capital are being excavated.

Banaras: Now known as Varanasi, is more than a holy city of the Hindus; it represents a way of life. For more than a thousand years this centre of Hindu pilgrimage has lived a rich life haloed by tradition on the banks of the great river Ganga which reaches Varanasi in a graceful curve. For more than a thousand years great masses of people have come here from every corner of the country to receive spiritual sustenance.

The oldest city in the country and perhaps the oldest living city in the world, Varanasi has about 1,500 temples besides countless minor shrines which are thronged with pilgrims all the year round.

Sarnath, a Buddhist centre with many architectural ruins, is about 9.6 kms. (6 miles) from Varanasi. The Buddha preached his first sermon here.

Jaipur: Capital of Rajasthan State, it was planned and built by an astronomer-prince in the 18th century, when there were few planned cities even in Europe. "I have seen Jaipur, and now I can die" was how Max Lerner, a famed traveller, felt after having an eyeful of this beautiful pink city. Comparing it with Venice and Paris, he named Jaipur along with them as the three most beautiful cities of the world. But he found something more in Jaipur—a dream quality about the fabric of its delicate gossamer structure, its lattice work and pink terracotta. This picturesque city—a fantasy in stone—set in the heart of Rajasthan is encircled by rugged hills crowned with medieval fortresses reminiscent of the days when the valiant Rajputs fought fierce battles and long drawn out wars to save their beloved land from invading alien hordes. The city palace in the centre of Jaipur is now a museum of Rajput and Mughal miniature paintings, an armoury and rare manuscripts. The Hawai Mahal Palace of the winds—has so many windows with perforated screens that the breeze sweeps through them. Maharaja Jai Singh who built the city in 1727 was also a great astronomer. He built an observatory with instruments of his own design. About 11.2 kms. (7 miles) away is Amber palace perched on the slopes of a steep hill and surrounded by a lake. A majestic elephant takes the visitor up the slopes and into this mysterious palace that possesses the world's best chamber of mirrors. Jaipur pottery, brassware, sculpture, ivory and sandalwood work and jewellery have enjoyed a great reputation from ancient times.

Udaipur: In Rajasthan, is the romantic city of lakes with island palaces. The sprawling marble palaces with coloured glass of amber and pale jade reflect in the steel blue waters of the lake Pichola. Hundreds of green parrots lend colour to the early morning skies. Surrounded by wooded hills the city is aptly called the 'City of Dreams'. The Jag Nivas Palace with fountains and gardens and apartments with courts, has now been turned into the Lake Palace Hotel and offer the visitor a unique and unforgettable stay.

About 112.6 kms. (70 miles) from Udaipur is Chittorgarh. The ruins of this abandoned capital of Mewar speak eloquently of the many grim and glorious deeds of Rajput heroism and sacrifice which have almost become a myth.

Mount Abu: In Rajasthan (3,822 ft. above sea level) is famous for its Dilwara group of Jain temples (11th-13th century A.D.). Having the most intricate and finest marble carvings in India, these beautiful temples nestle among the lush green mango trees: Hills surround them on all sides and the scenic beauty is very enchanting. Abu is known for its variety of birds and the flowering trees in its jungles. It is reached by rail and road from Ahmedabad.

GAME SANCTUARIES

Bankatna Wild Life Sanctuary: In Uttar Pradesh.

Accommodation: 3 Forest Rest Houses.

Bharatpur Wild Life Sanctuary: In Rajasthan State.

Accommodation: India Tourist Development Corporation's Travel Lodge, Bharatpur; Forest Rest House, Shanti Kutir.

Darraha Wild Life Sanctuary: In Rajasthan.

Accommodation: Forest Rest House.

Corbett National Park: In Uttar Pradesh lying in the beautiful foothills of the Himalayas it is the haunt of tigers, leopards, deer and sambars, also hyenas, jackals and wild elephants. It is 294 kms. (183 miles) by road from Delhi. Best time to go there is between January and May.

Accommodation: Forest Rest House

Chandraprabha Sanctuary: Also in Uttar Pradesh is 72 kms. (45 miles) from Banaras. In 1957, it was selected as a suitable new home for the Indian lion and some of them were brought here from the Gir Forest in Gujarat. Nilgai, pig, chinkara, sambar and chital are also found here. Best time to go there is between December and April.

Accommodation: Tourist Hutments.

Dachigam Sanctuary: In Jammu and Kashmir State, it consists of Lower and Upper Dachigam, about 20 kms. (13 miles) from Srinagar, where one can still spot the famous but now very rare Kashmir stag. Black bear and pig are also found in this beautiful scenic surrounding.

Accommodation: Forest Rest House.

Dudhva National Park: Situated in Uttar Pradesh.

Accommodation: 2 Forest Rest Houses.

Nanda Devi Musk Deer Park: Kedarnath Forest Division has opened a musk deer park in *Nandadevi Wildlife Sanctuary* in Chamoli dist. of U.P. to preserve the rare and valuable musk deer.

Mount Abu Wild Life Sanctuary: In Rajasthan State.

Accommodation: Forest Rest House.

Ranthambore Wild Life Sanctuary: In Rajasthan State.

Accommodation: Jogi Mahal; Forest Rest House.

Sariska Game Sanctuary: In Rajasthan, near Delhi.

Accommodation: Tourist Bungalow.

Sultanpur Lake Bird Sanctuary: In Haryana State, 40 kms. from Delhi on the Gurgaon-Farrukhnagar Road.

Accommodation: Tourist Bungalow.

SOUTHERN REGION

Madras: Capital of Tamil Nadu is the gateway to a pleasant land, the city of an ancient civilisation exemplified in its many monuments of the past with a rich heritage of culture. Although being carried along on the stream of progressive development yet remaining largely unspoilt, Madras is one of the more attractive cities of India. Perhaps the first claim to fame for Madras is its wonderful foreshore of fine sandy beach stretching from the harbour to the limits of the city at the Adyar river and then beyond for many miles to the south. It is a source of pride to the people, for it is considered to be the second longest beach in the world. There are delightful gardens along its whole length with many varieties of flowers.

Speaking of culture the visitor instantly feels the difference between the rest of India and the south in this city which can be the starting point for an introduction to the Dravidian culture. The many invasions of the aliens never quite reached upto the south and the pureness of this culture remains intact. The temples, the music and the dance all vibrate in its original form and one should never leave Madras without seeing a Bharat Natya dance performance. Much of the poses and stances of this dance are depicted in the sculptures of the South Indian temples.

Mahabalipuram: 59.5 kms. (37 miles) out of Madras are some of the ruins of the great Pallava Empire. The shore temple, a little gem of a shrine, stands poised on the very shore, the waves beating against it. The cave temples are store-houses of art. The so-called pagodas are carved out of rocks in the form of temple chariots and are the chief glory of Mahabalipuram.

Conjeevaram (Kanchipuram): The city of temples, the Banaras of the South, is about 72 kms. (45 miles) to the south-west of Madras. The place is divided into three parts, Shiva Conjeevaram, Vishnu Conjeevaram and Pillayar Paliyam, a testimony to the part played by all the main Hindu religious sects in the history of the city.

There are over a thousand temples in all, amongst them is the temple of Kailasnath, believed to be 1,200 years old and contains some excellent 7th and 8th century paintings on the walls. More of these wall paintings are seen in the Vaikunthanath Perumal Temple which is also over 1,000 years old.

It is a one-day excursion trip from Madras, but one can stay at the Traveller's Lodge.

Pondicherry: 167 kms. (104 miles) by road from Madras. The atmosphere of a sleepy French provisional town still prevails here. It was returned to India in 1954 after the French rule of 250 years. The main attraction of this place is the ashram of the philosopher Aurobindo Ghose.

Auroville 'the City of Dawn' is being built on the outskirts Pondicherry. It will be the first 'World City' where any national have a home.

Kanya Kumari or Cape Comorin: In Tamil Nadu, named from t temple of Kumari (an attribute of Parvati) is at the southern-m tip of the Indian peninsula. Here the Arabian sea and the Bay Bengal meet the Indian Ocean. According to a legend Siva marr the Goddess Parvati, daughter of King Himalaya on the ro where the temple now stands. Offshore are the two rocks wh Swami Vivekananda sat in meditation before he left for the Uni States. Now on them stands a huge and imposing memorial to Swami.

Ootacamund: Ooty for short, is a hill station in Tamil Nadu. O 2,286 m. (7,500 ft.) above sea-level, Ooty has a temperate clim The rainfall rarely exceeds 1,016 mm. (40 in.) so that Ooty h excellent weather throughout the year, and during the season fr April to June, it ranks amongst the gayest resorts in India reposes in an amphi-theatre surrounded by four great hills. On t slopes of the hills are residential and office buildings. At t bottom of the valley enclosed by them is Ooty's artificial la which could pass for a natural one. Conceived by Sullivan in 18 and meant for irrigation, it turned out to be so lovely that it w preserved for its sheer beauty. The lake provides facilities f boating and fishing. West of this are the Wenlock Downs— expanse of undulating springy turf embellished with woods a streams. Here are also the golf-links. These downs are the ho country of the Ootacamund Hunt.

The terraced Botanical Gardens, a landmark in Ootacamu were laid out by an expert from London's Kew Gardens, over century ago. It has many rare trees and flowering plants. Oot flower, fruit and vegetable shows are attended by people from over the Nilgiris, and here the fashionable jostling with the trib folk present a colourful spectacle.

Kodaikanal: Famous hill station on the Palni Hills in Tamil Nadu is about 2,343 m. (7,688 ft.) above sea-level and has a tempera climate. The place affords plenty of scope for such recreations walking, hiking, boating, fishing, hill climbing and golf. For t more adventurous there is big game hunting. Kodaikanal is t delight of the gardener and flowers are in bloom all the year rou The long winding road up the hill reminds one of the road up Sorento in Italy. The greenery on the way is breathtaking. T different waterfalls make Kodaikanal a truly beautiful vacati spot. A manmade lake with a three-mile shady promenade arou it is the popular place in the evenings. Kodaikanal has a hint o place somewhere on the continent with chalet-type houses perch at random on the slopes of the Palni Hills.

Cochin: In Kerala it is one of the important ports on the west co of India and, yet it is very different than a typical commercial po Shady lagoons, wooded islands, ancient palaces and churches a encircled by canals of palm fringed shimmering backwaters. In f Cochin is a cluster of islands and towns linked by bridges.

In Mattancheri is the community of Jews that came to Kerala early as the 1st Century A.D.

A side trip down the west coast to Alleppey and then on Quilon on the backwaters, offers breathtaking scenery. Lu vegetation and palm thatched villages are dotted with churches Portuguese colonial style.

Trivandrum: The sea-side capital of Kerala is built like Rome, hills. Many parks and lovely buildings with their gabled roofs, sta on low hillocks, while the restful valleys below are adorned w coconut groves. Trivandrum means "the place of the sacred sna Anant". The imposing temple of Sri Padmanabhaswami is de cated to the Hindu God Vishnu, his image reclining on Sheshna the enormous hooded serpent.

A long drive from Alleppey to Trivandrum via Quilon has a ve picturesque scenery along the west coast of India.

Mysore: It has a quiet charm so characteristic of a university tow For long the seat of an ancient ruling family, it has a good deal colour and glamour. Besides palaces and gardens this place is famous for its ivory and sandalwood carvings and cast metal statuettes.

EXCURSIONS OUT OF MYSORE

Srirangapatna: The city of Lord Ranganath—takes its name from the imposing temple of Vishnu. This quiet island-town on river Kaveri 16 kms. (10 miles) from Mysore, is reminiscent of many battles and past glories. On special occasions devout Hindus pass through this place to bathe in the river and to worship in this shrine.

Tipu Sultan, son of Hyder Ali, inherited a large dominion from his father. Srirangapatna was its capital and it became the centre of diplomatic manoeuvres against the rising power of the British. Tipu's summer palace in the midst of an exquisite garden on the river bank has large panels with paintings depicting battle scenes and processions that recall episodes from his and his father's life. The walls, pillars, arches and roofs are covered with an amazing variety of painted designs made gorgeous by a liberal use of gold.

Sravana Belgola: Wedged in between two hills, which rise abruptly from a flat plain, Sravana Belgola dominates the countryside for four miles with its 17.37 m. (57 ft.) high Jain colossus of Lord Gomateswara, shaped out of a single rock. This monolithic statue was carved in 983 A.D.

The town, a flourishing centre of Jain pilgrimage, abounds in monuments that recall the achievements of a bygone age. It is about 100 kms. (62 miles) from Mysore.

Belur: 56.3 kms. (35 miles) from Sravana Belgola is Belur, 800 years ago a flourishing capital of the Hoysala kings. Its chief place of interest is the 12th century temple of Chenna Keshava, a manifestation of Vishnu. Its outer walls are decorated with an amazing variety of carvings. No description can do justice to the infinite patience and skill with which the sculptors fashioned the intricate details of the scroll work, the niches, the elephants, the miniature turrets and human figures and gods. The interior of the temple also displays a profusion of artistic skill lavished on the pillars, ceilings, doorways, and bracket figures.

Halebid: 12.8 kms. (8 miles) from Belur, it was the metropolis of the ancient Hoysala rulers. The Lord Siva temple built about the same time as the Belur temple has every inch of its outer wall covered with friezes of great variety. Remarkable for artistic skill the sculptured elephants, horses, mythical beasts and birds, the scroll work of infinite beauty and variety, and the big panels of gods and goddesses of the Hindu pantheon running all round the walls.

Usually all these places are visited from Mysore in a day and a half's trip with a night stop at the comfortable Traveller's Lodge at Hassan.

Bijapur: Town in Karnataka State, capital of the old Adilshahi Sultans of Bijapur is rich with the remains of palaces, mosques and tombs. Gol Gumaz the vast mausoleum of Mohammed Adil Shah (17th century) has a dome which is the second largest in the world with St. Peter's at Rome bigger by merely 15 feet. The Whispering Gallery inside the dome is so constructed that a soft whisper at one point of the gallery can be heard most distinctly at the opposite point. Jama Masjid of Bijapur is the greatest mosque in the south and also one of the finest in India.

GAME SANCTUARIES

Rangathittoo Bird Sanctuary: It is a mile away from Srirangapatna and 14.4 kms. (9 miles) from Mysore, Consisting of islets in the Kaveri river, it is inhabited by a variety of storks. Primarily it is a breeding place for herons. Also during the months of June to August other birds like white ibis, Indian dartar, cormorant and cattle egret breed here.

Accommodation: Travellers' bungalow at Srirangapatna.

Bandipur Sanctuary: 78.8 kms. (49 miles) from Mysore on the road to Ooty is the game preserve of the former rulers of Karnataka State. This sanctuary now shelters herds of wild elephants, the Indian 'bison', the spotted deer, tiger, sloth bear and leopard. Tame elephants can be hired for a ride around the sanctuary and it can be visited at any time of the year.

Accommodation: Three forest lodges and one travellers' bungalow.

Mudumalai Sanctuary: Adjacent to Bandipur is this sanctuary of 295 sq. kms. (114 sq. miles). Gaur, sambar, elephant, barking deer, chital, wild boar and occasionally a tiger or a leopard are seen here. A variety of birds are also found here. It is 96.5 kms. (60 miles) from Mysore.

Accommodation: Kargudi Rest House, Log House at Masinagudi; Log House, Theppakadu.

Nagarhole Sanctuary: It is 228 kms. (142 miles) from Mysore via Mercara. Wild elephant, deer, panther, jackal and if one is lucky, the tiger can be spotted here. One can stay at the Forest Lodge.

Dandeli Sanctuary: It is well-known for elephant, bisons, panther, tiger, sambar and chital. The place abounds in excellent viewpoints and beauty spots. It is about 76 kms. (47 miles) from Dharwar by road which is connected with the nearest airport Belgaum by rail (121 kms. or 75 miles). The sanctuary, which is not accessible during the monsoon months of June to October covers an area of 207 sq. kms. (80 sq. miles).

Accommodation: Four forest bungalows at Dandeli.

Mahavir Abhayaranya: (wild life sanctuary) is situated on Goa-Karnataka border near Belgaum. The denizens include a large variety of big and small game and birds.

Periyar Sanctuary: One of the finest spots in the country, the wild life sanctuary at Thekkady in Kerala consists of an artificial lake of 26 sq. kms. (10 sq. miles), in a sanctuary of 673 sq. kms. (260 sq. miles). It is famous for its wild elephants besides Indian 'bison', sambar and stray panther and tiger. October to May are the best months for a visit. Motor boats take visitors about on the lake from where all these animals can be watched in comfort.

Accommodation: Lake Palace (Edapalayam), Thekkady; Inspection Bungalow, Thekkady; Forest Rest Houses at Thannikudy and Mannakkavala.

Vedanthangal Bird Sanctuary: 139.8 kms. (54 miles) south of Madras this small sanctuary breeds birds, like white ibis, night heron, spoon bill, open bill stork, Indian darter, grey heron, egret and two species of cormorant. Good months to visit are from November to February.

Accommodation: Rest House, Vedanthangal.

WESTERN REGION

Bombay: Arriving by sea or by air, one is struck by its natural setting—the far-away blue outlines of the majestic Western Ghats, the calm sea dotted with fishing boats, the palm fringed beaches and on the outskirts smoke rising from a thousand chimneys in the mill area—a reminder that Bombay is one of the largest industrial cities of the East.

A cosmopolitan city, it owes its prosperity to the industry and enterprise of its population of eight million. Bombay is a city of contrasts where the rich and the poor, the educated and the illiterate, the modern and the ancient co-habit. It is the largest city in India which has grown out of seven islands. Over the years the islands merged into one another by reclamation of land from the sea.

Excursions Around Bombay: About 38.8 kms. (15 miles) to the north of the city is Juhu, the palm-fringed natural beach, ideal for bathing. Juhu has good hotels, while shacks and villas along the beach can also be rented.

Some 15 kms. (6 miles) across the Bombay harbour, on a small island are the famous cave temples of Elephanta. Five in all, these cave temples date back to the eighth century. The main cave, dedicated to Siva, has huge sculptures and panels in relief. The most striking of the images is the Maheshmurti, a 6 m. (19 ft.) high, three headed bust hewn from a single rock representing the triple aspect of the Hindu Divinity.

There are a number of rock-cut monuments around Bombay. The more well-known among them are the Kanheri group of Buddhist caves and the series of shrines and monasteries known as Karla, Bhaja and Bedsa.

Aurangabad: In Maharashtra is where Emperor Aurangzeb built a replica of the Taj, Bibi-ka-Maqbara, a mausoleum for his wife. It has its own splendour and grace quite different than the Taj.

Close to Aurangabad is Daulatabad. "City of Fortune", built in the 14th century by a Sultan of Delhi, who was mad enough to try to move here the whole population of Delhi, which is some 1,813 kms. (700 miles) away.

Ajanta-Ellora: An hour and a half's flight from Bombay is Aurangabad, the starting point of a journey to two of the world's famous rock-cut temples—Ajanta and Ellora, the most remarkable monuments of their kind in the world. These monasteries and shrines have been hewn out of living rock by generations of sculptors. Ajanta, 170 kms. (66 miles) from Aurangabad, lies in a narrow gorge and contains a breathtaking picture gallery of frescoes. It is believed that these caves were cut in stages between the 2nd century B.C. to about 7th century A.D.

The Ellora caves situated 38.8 kms. (15 miles) from Aurangabad are excavated in the face of a hill and run north to south for a mile and a quarter. The crescent-shape hill has Buddhist, Hindu and Jain cave temples with a unique collection of sculptures. These caves are about a thousand years old.

Ahmedabad: Is the second largest textile centre in India. It contains numerous monuments of the fifteenth and sixteenth centuries, amongst them are the Shaking Minarets which are architectural wonders. Mahatma Gandhi's ashram is situated on the banks of the river Sabarmati. A 45-minute Son-et-Lumiere show brings the ashram alive giving its history and an insight into the life of Mahatma Gandhi.

Goa: Cradled among the picturesque hills of the western ghats, its panoramic beauty, its smiling green valleys and its luxuriant tropical vegetation, its quaint houses and the ruins of old and historic buildings which bring ancient splendour to life, all combine to make it an earthly paradise. Once a Portuguese possession in India, Goa has numerous beautiful beaches, where one can sun-bathe, swim or just laze away in the vast expanse of dazzling white sands fringed with swaying palm trees.

The remnants of the Portuguese civilisation can be seen in the old Goa. Among the still surviving ancient Portuguese churches is the Basilica and the Convent of St. Francis Xavier, built in the 16th century, where the body of St. Francis Xavier, patron saint of Goa, is enshrined in an exquisitely carved glass and silver-casket.

Goa is easily reached from Bombay by a 75 minutes flight by the Indian Airlines.

GAME SANCTUARIES/NATIONAL PARKS

Gir Forest: Roaming the dry open shrub land of the Gir Forest is a population of about 200 lions and cubs. The Gir is the last remaining habitat of the Asian lion. The best time to see them is from December to May. Wild bear, panther, sambar, blue bull and deer of different varieties also live in this forest along with a number of varied birds. The nearest airport is Keshod, 86.9 kms. (54 miles) by road from Sassan Gir. Keshod is connected with Bombay by weekly air service during the season.

Accommodation: Forest Bungalow (Sassan Gir).

Borivli National Park: In Maharashtra State, Bombay.

Accommodation: Tourist Cabins.

Nal Sarovar Bird Sanctuary: In Gujarat State.

Accommodation: Holiday Home; Nala Sarovar Gypsy Huts.

Bondla Game Sanctuary: In Goa.

Accommodation: Forest Rest House.

Mollem Game Sanctuary: In Goa.

Accommodation: Forest Rest House.

Cottigao Game Sanctuary: In Goa.

Accommodation: Forest Rest House.

Nagzira Wild Life Sanctuary: In Maharashtra State.

Accommodation: Rest House.

Tansa Lake Wild Life Sanctuary: In Maharashtra State near Bombay.

Accommodation: Rest House, Tansa.

TOURIST TRAFFIC

Foreign Tourist Arrivals in India — 1982.

(These statistics relate to foreign tourists excluding Nationals of Nepal entering India through land routes and all foreigners entering India from Bhutan by land).

A total of 1,288,162 foreign tourists visited India during 1982 recording an increase of 0.7 per cent over 1981.

The foreign exchange earnings from tourism for the year 1982 were estimated at Rs. 7,500 million compared to Rs. 7,020 million for 1981.

TIME DIFFERENCE

THE following table gives the time in the various important cities of the world when it is 5.30 p.m. in India. The calculations are based on Greenwich time i.e. when it is 12 noon at Greenwich, England, it is 5.30 p.m. in India.

Accra, Ghana	12 Noon
Adelaide, Australia	9.30 p.m.
Algiers	1.00 p.m.
Amsterdam, Netherlands	1.00 p.m.
Ankara, Turkey	2.00 p.m.
Athens, Greece	2.00 p.m.
Baghdad, Iraq	3.00 p.m.
Baltimore, U.S.A.	7.00 p.m.
Bangkok, Thailand	7.00 p.m.
Belgrade, Yugoslavia	1.00 p.m.
Berlin, Germany	1.00 p.m.
Berne, Switzerland	1.00 p.m.
Boston, U.S.A.	7.00 p.m.
Brisbane, Australia	10.00 p.m.
Brussels, Belgium	1.00 p.m.
Budapest, Hungary	1.00 p.m.
Buenos Aires, Argentina	9.00 a.m
Cairo, Egypt	2.00 p.m
Calgary, Canada	5.00 a.m
Canberra, Australia	10.00 p.m
Cape Town, South Africa	2.00 p.m
Chicago, U.S.A.	6.00 a.m
Colombo, Ceylon	5.30 p.m
Copenhagen, Denmark	1.00 p.m
Darwin, Australia	9.30 p.m
Detroit, U.S.A.	7.00 a.m
Dublin, Ireland	12 Noo
Freetown, Sierra Leone	12 Noo
Gibraltar	1.00 p.m
Halifax, Nova Scotia	8.00 a.m
Hamilton, Bermuda	8.00 a.m
Havana, Cuba	7.00 a.m
Helsinki, Finland	2.00 p.m
Hong Kong	8.00 p.m
Honolulu, Hawaii	2.00 p.m
Jerusalem, Israel	2.00 p.m

Johannesburg, S. Africa	2.00 p.m.
Karachi, Pakistan	5.00 p.m.
Kingston, Jamaica	7.00 a.m.
Kuala Lumpur, Malaysia	7.30 p.m.
Lagos, Nigeria	1.00 p.m.
Leningrad, U.S.S.R.	3.00 p.m.
Lima, Peru	7.00 a.m.
Lisbon, Portugal	12 Noon
London	12 Noon
Los Angeles, U.S.A.	4.00 a.m.
Luxembourg	1.00 p.m.
Madrid, Spain	1.00 p.m.
Mandalay, Burma	6.30 p.m.
Melbourne, Australia	10.00 p.m.
Mexico City	6.00 a.m.
Montevideo, Uruguay	9.00 a.m.
Montreal, Canada	7.00 a.m.
Moscow, U.S.S.R.	3.00 p.m.
Nairobi, Kenya	3.00 p.m.
New York	7.00 a.m.
Nicosia, Cyprus	2.00 p.m.
Oslo, Norway	1.00 p.m.
Ottawa, Canada	7.00 a.m.
Panama	7.00 a.m.
Paris	1.00 p.m.
Peking, China	8.00 p.m.
Perth, Australia	8.00 p.m.
Port of Spain, Trinidad	8.00 a.m.
Prague, Czechoslovakia	1.00 p.m.
Quebec, Canada	7.00 a.m.
Quito, Ecuador	7.00 a.m.
Reykjavik, Iceland	11.00 a.m.
Rio de Janeiro	9.00 a.m.
Rome	1.00 p.m.
St. John's, Newfoundland	8.30 a.m.
Salisbury, Southern Rhodesia	2.00 p.m.
San Francisco, U.S.A.	4.00 a.m.
Santiago, Chile	8.00 a.m.
Seoul, Korea	8.30 p.m.
Singapore	7.30 p.m.
Stalingrad, U.S.S.R.	4.00 p.m.
Stockholm, Sweden	1.00 p.m.
Sofia, Bulgaria	2.00 p.m.
Suva, Fiji	12 Midnight
Sydney, Australia	10.00 p.m.
Teheran, Iran	3.30 p.m.
Tirana, Albania	1.00 p.m.
Tokyo, Japan	9.00 p.m.
Toronto, Canada	7.00 a.m.
Vancouver, Canada	4.00 a.m.
Vienna, Austria	1.00 p.m.
Warsaw, Poland	1.00 p.m.
Wellington, New Zealand	12 Midnight
Winnipeg, Canada	6.00 a.m.

[illegible] = 13.58

SPORTS

6 + [illegible] = 6+5 = 11 ½ 58

THE origin of Olympic games goes back to Olympia in Greece which was held in honour of Zeus and dates back to 776 B.C. to 394 A.D. Olympiads covered the four years between each celebration of the Olympic games. The festivals included competitions in literature, art, drama, rhetoric, music and gymnastics. In 1896 Baron Pierre de Coubertin fathered the modern Olympic Games. "The important thing" he said, "in the Olympic Games is not winning but taking part. The essential thing in life is not conquering but fighting well."

The U.S.A. boycotted the 1980 Moscow Olympics because of the Soviet intervention in Afghanistan.

The other major powers who stayed away from joining the Olympics were China, Japan, West Germany and Canada. Only 81 nations took part in the Olympic games in 1980.

OLYMPIC CHAMPIONS

Track and Field-Men

Year	*Winner*	*Country*	*Time (Seconds)*
	100 Metres		
1896	Thomas Burke	U.S.A.	12.0
1900	Francis Jarvis	"	10.8
1904	Archie Hahn	"	11.0
1908	Reginald Walker	S. Africa	10.8

HIMALAYAN CAR RALLY (1982)

Winners: First Prize—**Air-India Trophy** and a cash award of Rs. 30,000—Jayant Shah (a Kenyan businessman) and his driving partner Aslam Khan; Second Prize—**Modi Rubber Trophy** and a cash award of Rs. 15,000—Rudolf Stohl (Austrian); Third Prize—A trophy and a cash prize of Rs. 10,000—Ramesh Khoda (Kenyan businessman).

See Chapter on State Associations for State-wise list of Sports Associations.

MOUNTAINEERING

THREE flags of three nations, Indian, British and New Zealand, fluttered proudly on the summit of Mt. Everest on May 29, 1953, announcing to the world that the highest peak had been, at last, conquered. For three mountaineers, Edmund Hillary, Tensing Norgay, the sherpa, and the leader of the expedition, Col. John Hunt, it was indeed a deed of great achievement which evoked admiration and applause the world over.

This great event prompted the Government of India to set up the Indian Mountaineering Foundation in Delhi and the Himalayan Mountaineering Institute at Darjeeling. Interestingly, August 27, 1983, marked the silver jubilee of the Indian Mountaineering Foundation, a milestone in the rapid strides of mountaineering in India. An offshoot of this is the establishment of several mountaineering institutes in India.

Historically, mountaineering, which has been described as the practice of climbing to elevated points for sports, pleasure or research, took the first leap forward in a significant achievement in the ascents of Mount Blanc in 1786 by Jacques Balmat and Michel G. Paccard and in 1787 by Horace B. de Saussure.

Mountaineering as a sport, however, started with the ascent of Wetterhorn (in Colorado) in 1854. But this feat was surpassed in popularity by the success of Edmund Whymper on the Matterhorn in 1865. The sport rapidly attracted admirers and the Alpine Club of London was set up in 1858 and published its own magazine, "Alpine Journal", in 1867.

Two other notable feats in mountaineering were the conquest in 1961 of the South face of Mt. McKinley in Alaska and Chincy (1961) of Northwall of Eiger in the Alps.

The towering giants for mountaineers are: Mt. Everest, Mt. Godwin-Austen and Mt. Kanchenjunga, all conquered in the 1950s.

The fascinating Himalayas have always posed an irresistible challenge to man inviting him to unravel its mysteries by scaling the virgin peaks. The earliest survey of the contours of the Himalayas is recorded in a book entitled "Kedarkhand" written by Veda Vyas, the mythological surveyor. Most of the peaks derive their names also from this exploratory document.

Though by 1850 most of the lesser known peaks and their heights were established trigonometrically, the world's highest peak was fixed only in 1852 by a team of surveyors who named it Mt. Everest, after Sir George Everest, the Surveyor-General of India. It was a feat in an era when very little was known about air pressure, lack of oxygen and living conditions on such heights. The first organised mountaineering was in 1852 when W. H. Graham climbed the 24,000ft. Kabru peak, near Kanchenjunga.

Modern mountaineering in India can be said to have started from 1918, when two Englishmen climbed the 19,000ft. peak near Leo Pargyal in Simla. Gradually local sherpas were inducted into expeditions and air reconnaissance was also introduced in 1933 whereby the first aerial view of Mt. Everest was established.

With the conquest of Mt. Everest on May 29, 1953 by Sir Edmund Hillary and Tensing Norgay a new era opened up and mountaineering as a sport came to be widely and internationally recognised.

The three most historic events in mountaineering history are the assault on Annapurna by Mauric Herzog of France in 1950, the conquest of Mt. Everest by Edmund Hillary and Tensing Norgay in 1953 and the Japanese all-women expedition to Mt. Everest in 1975 under the leadership of Mrs. Junko Tabei.

The first all-Indian expedition was launched on Mt. Everest in the summer of 1960 under Brig. Gyan Singh which unfortunately missed the peak. In 1962 a second party under Maj. John Dias was

SUCCESSFUL EXPEDITIONS TO MT. EVEREST

Year	Sponsored Country	Group Leaders
May 1953	Great Britain	Edmund Hillary and Tensing Norgay (1)
May 1963	United States of America	Norman G. Dyhrenfurth
May 1963	United States of America	W.F. Unsoeld and T.F. Hornbein
May 1965	India	M.S. Kohli
May 1970	Japan	Torno Matsunra and Naomi Uermera
May 1973	Italy	Guido Monzino
May 1975	Japan (All women)	Mrs. Junko Tabei (2)
May 1975	China with Tibet	Miss Panthong (3)
Sept 1975	Great Britain	Chris Bonington (4)

May 1982	United Soviet Socialist Republic (By mountaineering team)	Dr. Evgeny Tamm
Oct. 1982	Canada	Laurie Skreslet
May 1983	United States of America	Larry Nielson (7)

(1) Under the leadership of John Hunt. (2) First woman to reach summit. (3) Second woman to reach summit. (4) Reached summit through South West face. (5) Climbed without oxygen. (6) First German to reach summit. (7) Climbed without oxygen.

EXPEDITIONS BY WOMEN

Year	Sponsored by	Group Leader	Peak
June 1964	Four Women Indian Expedition of Manali Mountaineering Instt.	Miss Snehalata Pilke	Mt. Deo Tibba
Oct. 1964	Expedition by Girl Guides	Miss Joyce Dunsheath	Mrigthuni
April 1966	All-women Himalayan Expedition	Miss Pushpa Athavle	Mt. Koktang
June 1966	Gujarat University Girls' Expedition	Miss Nandini Patel	Gangotri I
June 1967	Pune Girls' Expedition	Dr. G.R. Patwardhan	Jogin III
Oct. 1967	All-women Expedition	Miss Deepali Sinha	Ronti
May 1968	Indo-Japanese Women Expedition sponsored by Indian Mountaineering Foundation	Nandini Patel	Mt. Kailash
June 1969	Gujarat Girls' Expedition	Miss Dolly Sahar	Hanuman Tibba
June 1970	Bombay All-women Expedition	Miss Meena Agrawal	Trisul
Oct. 1970	All-women Delhi Mountaineering Association	Miss M.C. Usha	Hanuman Tibba
June 1974	Maharashtra Trekkers and Cultural Society Women Expedition	Miss Lalita Patil	Hanuman Tibba
May 1975	Japanese All-women	Mrs. Junko Tabei	Mt. Everest
May 1975	Chinese-Tibetan	Miss Panthong	Mt. Everest
June 1975	Two-women Expedition sponsored by Delhi Mountaineering Association	Miss Usha Chari	Mukerbeh
June 1975	Youth Hostel Association of India	Miss Nalini V. Dave	Ranikoot
Oct. 1975	Calcutta All-women Mountaineering Team	Miss Chandraprabha	Kedarnath Dome
Oct. 1975	Maharashtra Mountaineering and Trekking Club	Miss Lalita Patil	Deo Tibba
June 1976	Indo-Japanese Girls'	Dr. Meera Agrawal	Abi Gamin
Oct. 1978	Western Himalayan Women	Raman Sen Gupta	White Sail
Oct. 1978	American Women's Expedition	Irene Miller	Annapurna
June 1981	Maharashtra N.C.C. Girl Cadets	N.A.	Friendship
Sept. 1981	Six men and six women	Col. B.S. Sandhu	Nanda Devi
May 1982	Korean Expedition	Miss Hyoung Heekay	Mt. Lamjung Himal
May 1983	Japanese Women Mountaineering Expedition	Fumie Shimamura	Mt. Takuche

sent. That also was a failure. In 1965 an Indian expedition led by Com. M. S. Kohli succeeded in reaching the summit with nine members.

English and German poets have waxed eloquent over the glory of the Alps and John Ruskin and Joseph Turner gave them prominence as subjects for painters. There has been a rich and extensive literature on mountaineering, partly because the sport has attracted persons of cultured accomplishments.

MOUNTAINEERING BY WOMEN

The all-women expedition led by Madame Claude Kogan of France to conquer Cho Oyu peak in the Himalayas in 1959 is considered to be the starting point of mountaineering by women. In India, the Himalayan Mountaineering Institute of Darjeeling was the pioneer in starting an all-women mountaineering course. It was in 1961 that a team of 24 girls was selected for this course by Brig. Gyan Singh who was then the principal of the institute. Later, other institutes also started a similar course.

The systematic training given by the institutes and the encouragement by various state governments namely, Gujarat, Maharashtra, Uttar Pradesh, Rajasthan, Himachal Pradesh, West Bengal, etc. resulted in giving a moral boost to the mountaineering adventure among youth and consequently women came to the forefront. The various peaks scaled by women mountaineers from 1964 onwards testify to the adventurous spirit among women.

At present plans are afoot by the Indian Mountaineering Foundation, Delhi, and the Himalayan Mountaineering Institute, Darjeeling, to organise an all-women expedition to conquer Mt. Everest.

TRAINING INSTITUTES

There are six major institutes in India. They are: (1) Indian Mountaineering Foundation, Delhi; (2) Himalayan Mountaineering Institute, Darjeeling; (3) Nehru Institute of Mountaineering, Uttarkashi, Uttar Pradesh; (4) Madhya Pradesh Mountaineering Institute; (5) Western Himalayan Mountaineering Institute, Manali, Kulu; and (6) Manali Institute of Mountaineering, Gangtok.

COMMUNICATIONS

THE telephonic conversation which the Prime Minister of India Mrs. Indira Gandhi, had with the British Prime Minister, Mrs. Margaret Thatcher, on May 3, 1983, was a milestone which marked 50 years of India's telephonic link with Great Britain. It was on that day 50 years ago that the then Secretary of State of India, Sir Samuel Hoare, had made the call from London to Sir Frederick Sykes, Governor of Bombay.

Growth of Postal System: The first postal system was introduced by Lord Clive in 1766, which was meant for official purposes only. In 1837, it was opened to the public and the first postal stamps were issued in Sind in 1852. In 1854, the East India Company set up the postal service as a separate entity under a Director-General and issued postal stamps to be used on an all-India basis. The postal system in India became operative by Act VI of 1858 and by another act in 1898 the Posts and Telegraphs system received statutory recognition.

At the time of independence there were only 22,116 post offices in the country but with the extension of postal facilities to all the villages there has been a phenomenal growth. On July 1, 1968, the 100,000th post office was opened in Sahabad district of Bihar. At present there are 140,435 post offices, out of which 125.743 are in the rural areas and 14,692 in the urban areas.

In 1853 the first long-distance overhead telegraph was introduced between Calcutta and Agra and later the line was extended to Bombay and Peshawar. Telegraph circuits were gradually extended to all parts of India by 1867. The centenary of the telegraph system was celebrated in November, 1953. At present there are 34,096 telegraph offices.

The Telephone service in India was started in 1881 when a 50-line telephone exchange was installed in Calcutta and the first automatic telephone exchange was installed at Simla in 1913. At the time of independence there were only 321 exchanges and 86,000 telephones in the country. At present there are 2,149,470 exchanges and 2,468,874 telephones.

POSTS AND TELEGRAPHS

Administration: The Indian Posts and Telegraphs Department, the second largest civil employer in the country, comes under the administrative control of the Ministry of Communications. The Secretary of the Department holds charge of the office of the Director General, Posts and Telegraphs as also that of the Chairman of the Posts and Telegraphs Board. The country is divided into 15 telecommunication circles, 16 postal circles, 17 Posts and Telegraphs Civil circles, 5 Posts and Telegraphs electrical circles and 30 telephone districts.

Staff: The total staff strength on March 31, 1981 was 852 million including .284 milion extra departmental employees and 7,084 industrial workers. 33 officers and 3,293 other ranks (including 139 under training were on deputation to the Army Postal Service.

No. of Post Offices: At the end of 1981, the total number of Post Offices in the country was 140,435 out of which 125,743 were in the rural areas and 14,692 in urban areas. Against a target of 1,600 post offices to be opened during 1981-82, the actual number of post offices opened up to end of 1981 was 1,054 (including 247 in tribal areas), including 157 post offices opened in the urban areas.

During the Sixth Five-Year Plan, it is proposed to open 8,000 post offices. Out of these 63 per cent are to be opened in the backward, hilly and tribal areas.

Rural Mobile Post Offices: The cycle post office was opened in Shirgaon, near Ratnagiri, in 1974. Against the target of 2,000 villages to be covered by Mobile Post Offices in the rural areas, 1,187 have been covered till December 31, 1981. This includes 276 villages in the tribal areas. The facility had to be withdrawn from a number of villages as it was not being utilised fully. The total number of villages receiving this facility through mobile post offices was 82,800 as on December 31, 1981.

Postal Traffic: In 1981-82 about 9,730 million pieces of mail were handled of which 243.3 million were registered articles, about 2.5 per cent of the total mail. 111.8 million inland money orders totally valued at Rs. 12,510 million were issued, earning the department Rs. 300 million as commission. 11.1 million value payable articles were dealt with. 723,415 parcels were despatched to foreign countries and 714,586 parcels were received from abroad.

Letter Boxes: At the end of 1981, the total number of letter boxes in the country was 495,853 out of which 421,604 were in the rural areas.

Mail Conveyance: The mail is carried both by surface and air. Various modes of conveyance such as rail, road, transport runners etc. are used for surface mail. Within the country all principal cities are connected by air, and other cities are connected by the surface link.

All inland letters, letter cards, postcards, registered letters and money orders are normally carried by air without surcharge. During 1980-81 a total weight of 2.927 million kg was carried from India for abroad and domestic mail within the country was 12.15 million kg.

Commemorative Special Stamps (1981), Occasion & date respectively: 51st death anniversary of Mazharul Haque, a great journalist, poet and writer, Jan 2; First centenary of St. Stephens College, Delhi, Feb. 1; 1,000th anniversary of the installation of the statue of Gommateshwara, Feb. 9; 25th death anniversary of G. V. Mavalankar, first Lok Sabha Speaker, Feb. 27; 50th anniversary of the martyrdom of Bhagat Singh, Raj Guru, Sukhdev, Chandrashekhar Azad and others 'Homage to Martyrs', Mar. 23; 84th death anniversary of Heinrich Von Stephan, founder of Universal Postal Union, Apr. 8; International Year of Disabled Persons, Apr. 20; Tribes of India Series, 4 stamps, May 30; Highlighting the need of Conservation of Forests, Environmental Conservations, June 15; 101st birth anniversary of Nilmoni Phukan a poet and freedom fighter from Assam, June 22; First death anniversary of Sanjay Gandhi a young leader, June 23; Anniversary of Launching of Rohini Satellite by Indian Satellite Launching Vehicle (SLV-3), July 18; First set of 2 stamps of IX Asian Games, 1982, July 28; Series of Flowering Trees, 4 stamps, Sep. 1; World Food Day, Oct. 16; Butterflies, 4 stamps, Oct. 20; Renowned actor and great dramatist, Bellary Raghava, Oct. 31; Presentation of colours and reunion of Mahar Regiment, Nov. 9; Children's Day, Nov. 14; Second issue (third stamp) on IX Asian Games, 1982, Nov. 19; Death centenary of great historian of India Kashi Prasad Jayaswal, Nov. 27; International Day of Solidarity with the Palestinian People, Nov. 29; To commemorate Navy Day, Dec. 4; In honour of Henry Heras, an Indologist and founder of Bombay Historical Society, Dec. 14; To commemorate the inauguration of the IOCOM Submarine Telephone Cable, Madras, Dec. 24; Fifth World Cup Hockey, Bombay, Dec. 29; Third issue (fourth stamp) on IX Asian Games, 1982, Dec. 30.

Overseas Communications Service:

India's external telecommunication service is operated by the Overseas Communications Service (OCS) with its headquarters at Bombay, which is a department of the Ministry of Communications, Government of India.

OCS operates in four international gateway centres located at Bombay, New Delhi, Calcutta and Madras, and provides Overseas telephone, telex, telegraph radiophoto leased teleprinter, voice grade and high speed data services. International TV relays and broadcast transmission and reception facilities for news agencies and government are also provided.

Almost 99% of India's external telecommunications are handled by OCS via INTELSAT Satellite in the IOR, through its two satellite earth-stations at Arvi near Poona (established in 1971) and Dehradun (established in 1976). A modern wideband submarine telephone cable system has also been established between Madras and Penang in Malaysia, providing diversity routine facilities. Electronic stored programme control gateway telephone and telex exchanges at the OCS gateway centres facilitate the most modern means of handling telephone and telex calls. Fully Automatic Subscriber Dialled International Telex service is available to more than 75 countries. International Subscriber Dialled (ISD) telephone service which is presently available to UK from the metropolitan cities of Bombay, New Delhi, Calcutta and Madras is being extended to more countries.

Private Leased Circuits: As on 1.1.1982, OCS has leased 14 voice-grade circuits for telephone and data services and 124 teleprinter circuits.

Program Transmissions (Voice-casts): Facilities are provided on the overseas telephone system for the transmission and reception of "voice-casts" by correspondents of foreign broadcasting organisations for relay on their broadcast networks.

Press Broadcasts: OCS provides multi-address teleprinter news broadcast transmissions on behalf of the Ministry of External Affairs, simultaneously to about 66 Indian consular posts around the world. OCS also provides reception of foreign radio teleprinter press broadcasts on behalf of news agencies. Press Bulletin Services at concessional tariff are also provided to news agencies. 20 such Press Bulletin circuits are in service as on January 1, 1982.

Sixth Plan Outlay and Expenditure: Against an outlay of Rs. 850 million the actual expenditure during the first (1980-82) and second (1981-83) years of the Sixth Plan were Rs. 264.5 million and Rs. 176.2 million respectively. The anticipated expenditure for 1982-83 is Rs. 90 million.

During 1982-83 Overseas Communication Services registered considerable growth in its gross revenue and net profit, figures rising from Rs. 743 million and Rs. 460 million in 1981-82 to Rs. 850 million and Rs. 568.9 million in 1982-83.

QMS" (Quick Mail Service) was introduced in India on August 1, interconnecting the headquarters of the State/Union Territor- As on December 31, 1979 QMS was available in 45 national and regional centres. On an average more than 450,000 articles are d per day by QMS.

Savings Bank: Over 139,000 post offices offer savings bank About 45 million account-holders have savings in the offices. The post office savings bank runs all savings schemes. progress of post office savings bank business since 1978 is given

	Savings Bank		Cumulative Time Deposits		Savings Certificate
ch 31	No. of depositors (in million)	Balance (Rs. million)	No. of depositors (in million)	Balance (Rs. million)	Balance (Rs. million)
	25.0	15,210	3.1	2,080	9,190
	26.8	16,950	3.0	2,370	11,250
	30.6	18,770	3.2	2,840	13,570
	33.3	1,990	4.2	3,390	15,620

2-83 the net small savings collection in the country was 16,500 million. The collection made by Maharashtra and ngal during 1982-83 were Rs. 3;110 million and 2,460 pectively.

Postal Life Insurance: 120,170 new policies for an assured total sum 21.5 million were issued during 1980-81 as against 108,975 for Rs. 830.9 million secured in 1979-80.

Telegraph Offices: There were 34,096 telegraph offices as on March During 1980-81, 2,459 telegraph offices were opened in . During the Sixth Plan period, it is proposed to open more telegraph offices.

ring 1980-81, 71.4 million inland telegrams were booked. 12.15 million phonograms, 6.7 million greeting telegrams, 694 outgoing and 693 incoming foreign phototele- handled during the year. 2.47 million phonograms were ered over the phones during 1980-81.

nagari Telegraph Service: The number of telegraph offices this service rose from 10,748 in 1978-79 to 11,200 in

ice is available in 62 telegraph offices in the country. n telegrams were booked and 1.73 million were delivered

The switching capacity in the country reached lines with the addition of 133,029 lines during the year. also a net addition of 133,404 direct exchange lines e total of direct exchange lines up to 2,149,470,441'. New exchanges were installed so that by March 1981 end epartmental exchanges were operating in the country. The r of connections provided in the Sixth Plan up to February 1, re as follows: Andhra Pradesh: 36,489; Bihar: 4,645; Delhi: arat: 34,764; Haryana, Punjab, Himachal Pradesh and h: 29,047; Jammu & Kashmir: 2,745; Karnataka: 30,639; 17,629; Madhya Pradesh: 8,219; Maharashtra: 86,901; tern States: 3,832; Orissa: 3,785; Rajasthan: 16,311; Nadu: 26,088; West Bengal: 20,361.

Telephone Service: Direct telephone service is avail- ith 44 countries of which 40 countries are connected through circuits. Switched telephone service is now available to all the countries of the world. The year 1983 marks the tion of 50 years of telephonic link between India and Great

Phone Exchange: A trailer-mounted mobile telephone ex- e (first of its kind in the country) designed and manufactured dian Telephone Industries, Bangalore was commissioned on y 19, 1977. The exchange with a 1,000 line capacity, costing Rs. 200,000 will provide telephone services in any area. It has all the facilities of a regular exchange.

Subscriber Trunk Dialling: First STD route was introduced between Delhi and Jaipur on September 8, 1964 At present out of 373 Dist Headquarters outside the State Capitals, 355 are linked with State Capitals. The number of routes having STD facility from State Capitals to Dist. Headquarters has increased from 79 to 88 during 1980-81. The routes having STD facility from Dist. Headquarters to State Capitals have gone up from 79 to 88. Additional routes with 'No Delay Service' were introduced between State Capitals and Dist. Headquarters and as on 31.3.1981 there were 256 routes with 'No Delay Service' between State Capitals and Dist. Headquarters and 264 in the reverse direction.

The first electronic trunk automatic exchange (TAX) was inaugurated in Bombay on April 30, 1983 for quicker maturity of STD calls beginning with "O"

International Telex Service: Fully automatic subscriber dialled international telex service is available in respect of 49 countries and switched telex service to almost all countries of the world. During the year direct telex service was extended to Thailand, Malaysia, Kenya, Spain and Egypt on fully automatic basis through electronic type Gateway Telex Exchange, Bombay. Switched telex service was extended to New Caledonia.

BROADCASTING

Organised broadcasting was started in India in 1927 by a private Indian Broadcasting Company from Bombay and Calcutta. This lasted till 1930. The Government of India decided to run radio stations in 1932. In 1936, broadcasting was constituted into a separate department. All India Radio replaced the earlier Indian State Broadcasting Service on June 3, 1936. The real break in broadcasting came with World War II. Most of the news services and external services originated during the war years.

Akashvani: All India Radio operates this service over a network of broadcasting stations located throughout the country. It caters to the complex needs of all communities in the country.

Broadcasting constitutes the most powerful medium of mass communication covering 89 per cent of our population. At the end of 1981 there were 85 broadcasting stations.

An outlay of Rs. 1,223.8 million has been fixed during the Sixth Plan for development projects.

Commercial Broadcasting: Commercial services were started in November, 1967. The earnings of commercial Broadcasting service of Akashvani up to January 31, 1982-83 was Rs. 135.9 million.

Broadcast Receiver Licences: The number of Broadcast Receiver Licences and TV licences in force as on 30.9.1979 for the three quarters of the calendar year 1979 was 16,467,890 and 887,384 respectively. It was expected that the number of Broadcast Receiver Licences and TV licences may go up to 21,200,000 and 1,000,000 respectively by the end of December 31, 1979. During the calendar year 1978 the number of unlicensed sets detected was 304,773 Radios and TVs together and Rs. 3,855,230 as licence fee and Rs. 3,401,409 as surcharge were collected.

TELEVISION

Television at Delhi started as an experimental service in 1959 and since then it has grown rapidly. In 1961, an educational TV service was also started in Delhi with the help of the Ford Foundation and in collaboration with the educational authorities of Delhi. A regular daily service was started from Delhi in 1965. The duration of the general television progrramme in the evening transmission has been increased to three hours from July 1970. The Bombay television station started on 2nd October 1972. It started with a programme time limited to 2 hours and 15 minutes daily, which has been increased to 3 hours on week days and 3½ hours on Saturdays and Sundays. Commercial TV started in India on 1st January, 1976

At present Television has 7 full-fledged centres at Srinagar, Bombay, Madras, Calcutta, Lucknow, Delhi and Jullundur-Amritsar; 3 Programme Production Centres at Delhi, Cuttack and Hyderabad; 7 SITE on-going transmitters at Hyderabad, Muzaffarpur, Sambalpur, Raipur, Jaipur, Gulbarga and Ahmedabad; and 3 Relay centres at Mussoorie, Kanpur and Pune. The most recent station in the network was commissioned at Jullundur on April 13, 1979.

At present TV network covers an area of 0.2 million sq. km. (6.1 per cent of the total) with a population of 83.21 million out of which 48.16 million is rural and 35.05 million is urban.

During 1982-83 television service has been extended to 53,883 villages covering a rural population of 68.3 million.

An outlay of Rs. 869.5 million has been allotted for expansion plans during 1980-85.

The Sixth Plan of TV service envisages setting up of four new TV centres at Ahmedabad, Bangalore, Trivandrum and Gauhati and providing for production facilities at Raipur, Gulbarga, Jaipur and Muzaffarpur. Eight additional centres are also proposed to be set up.

Commercial T.V.: Commercial service was started in India from January 1, 1976. Ten per cent of the total transmission time is available for commercials every day. The revenue from commercials from 1978-79 to 1981-82 (in Rs. million) is 1978-79: 49.7; 1979-80: 61.6; 1980-81: 80.9; 1981-82: 115.

CIVIL AVIATION

J. R. D. TATA'S historic flight from Bombay to Karachi and return to Juhu airport. Bombay, in a twin-seater single-engine Leopold Moth on October 15, 1982, commemorating the same solo flight he had made exactly 50 years ago, also marks the golden jubilee of civil aviation in India.

In the thirties, Juhu airport was nothing more than a cluster of mud huts in swampy land and often submerged in floods during the monsoon. It was the rustic bullock-carts that supplied aviation fuel for three or four small aircraft that was all that comprised the airline fleet.

In marked contrast is the present sophisticated fleet of Boeing planes that converge day and night on the tarmac from all parts of the world and make Sahar a buzzing and bustling international airport.

It was J.R.D.'s vision and dynamism that enabled Air-India Boeings to take to the skies and achieve remarkable success as one of the foremost international airlines of the world. It is indeed the pride of India. Over the years the "father of civil aviation", as J.R.D. has been rightly called, nursed Air-India International and established air links with America, Europe and Asia.

Growth: In point of fact, 1911 marks the beginning of civil aviation in India for it was in that year demonstration flights were made for the first time. The flight by a Frenchman, M. Picquet, carrying mail from Allahabad to Naini was believed to be the first air mail service in the world.

But organised air transport began in India only in 1920 and the Civil Aviation Department was set up in 1927. In 1929, Imperial Airways opened a weekly service between U.K. and India. In 1932 Indian National Airways Ltd. and Tata Airways Ltd. opened two services one from Karachi to Madras and the other from Karachi to Lahore.

The Empire Air Mail Scheme was introduced in 1937. The commencement of World War in 1939 paralysed all air services. From 1945 onwards air services progressed steadily. In 1945, 11 aviation companies were formed, and the Air Transport Licensing Board was established in 1946.

But it is only after Independence that civil aviation in India has made spectacular progress. In 1949 night air mail services were opened between the four metropolitan cities. In 1953 the Indian Airlines Corporation and Air-India International were set up by passing the Air Corporation Act. The Air Transport Council was set up in 1955 to advise the Government on matters relating to the two corporations.

At present the operation of air services is entrusted to two public sector corporations, Air India for the international services and Indian Airlines for the domestic services. The International Airports Authority of India, which was established in 1972, is responsible for the management of international airports.

Department of Civil Aviation: The department of civil aviation is one of the two departments in the Ministry of Tourism and Civil Aviation under the independent charge of a Minister of State.

Minister of State for Tourism and Civil Aviation: Khurshid Alam Khan. **Director General of Civil Aviation:** J. N. Kaul. (For other officials see "Government of India Personnel".)

Sixth Plan Outlay: Rs. 1,585 million.

Total Plan Outlay for 1983-84: Rs. 400 million

Annual Budget for 1983-84: Rs. 400 million

INTERNATIONAL AIRPORTS AUTHORITY OF INDIA, Yashwant Place, Chanakyapuri, New Delhi 110021. Based at Delhi, I.A.A.I. was established as a statutory corporation with effect from February 1, 1972 for the management and development of the four international airports at Bombay, Calcutta, Delhi and Madras.

Members: Capt. A. M. Kapur, *Chairman;* Capt. Dhruva Bose, *Chairman and Managing Director, Air India;* Capt. K. Chadha, *Managing Director, Indian Airlines;* Ved Prakash, *Member (Finance & Admn.), I.A.A.I.;* P. S. Sandhawalia, *Member (Engg.), I.A.A.I.;* A.V.M. P. S. Dere, *Member (Operations), I.A.A.I.:* Vacant, *Director-General, Tourism;* Air Vice-Marshal C. K. S. Raje, *Director-General, Civil Aviation.*

General Managers of International Airports: Bombay: Air Cdr. N. W. Tilak; **Delhi:** Air Cdr. N. Sinha Ray; **Calcutta:** Shri A. V. Anand; **Madras:** K. K. Gulati.

I.A.A.I./Operational Statistics		1980-81	1981-82	1982-83*
Aircraft Movement	Nos. in '000	111	108

*Revised estimates.

AIRPORTS: At the end of December, 1982, 87 airports were maintained by the Civil Aviation Department.

Major Aerodromes (22) are: Agartala, Ahmedabad, Amritsar, Aurangabad, Barapani, Bhubaneswar, Bhuj, Gauhati, Hyderabad, Imphal (Tulihal), Jaipur, Khajuraho, Lucknow, Mangalore, Nagpur, Panagarh, Patna, Ranchi, Trivandrum, Tiruchirapalli, Udaipur and Varanasi.

The following are Intermediate Aerodromes (20): Belgaum, Bhopal, Bhavnagar, Chakulia, Dibrugarh (Mohanbari), Gaya, Indore, Jabalpur, Kandla, Keshod, North Lakhimpur, Port Bihar, Raipur, Rajkot, Silchar, Tirupati, Vadodara, Vijayawada, Visakhapatnam and Madurai.

The Minor Aerodromes (45) are: Akola, Balurghat, Bilaspur, Behala, Cooch-Behar, Cuddapah, Delhi, Hassan, Hadapsar, Jharsuguda, Juhu, Kanpur, Khandwa, Khowai, Kailashahar, Kamalpur, Kota, Kulu, Jhansi, Jogbani, Kolhapur, Donakonda, Lalitpur, Malda, Muzaffarpur, Mysore, Nadirgul, Panna, Palanpur (Deesa), Porbandar, Pantnagar, Passighat, Rajamundry, Raxaul, Rupsi, Satna, Shella, Sholapur, Tanjore, Vellore, Warangal, Ramnad, Coimbatore, Dehradun and Ludhiana.

In addition there are many aerodromes controlled, owned and maintained by Ministry of Defence, State Governments, Public undertakings, private individuals and bodies.

AIR-INDIA: Headquarters: Air-India Bldg., Nariman Point, Bombay 400021. Has online and offline sales offices and representations all over the world.

Starting with just one weekly service to London in June 1948, Air-India now operates extensive scheduled passenger and cargo services from Bombay and five other Indian cities—Calcutta, Delhi, Madras, Trivandrum and Amritsar to Africa (Addis Ababa, Nairobi, Accra, Lagos, Seychelles, Mauritius, Dar-es-Salaam, Lusaka and Harare); to U.S.A. (New York); to Canada (Montreal); to Europe (London, Birmingham, Paris, Amsterdam, Frankfurt, Geneva, Rome, Zurich, Brussels and Moscow); to West Asia (Doha, Abu Dhabi, Dhahran, Dubai, Bahrain, Kuwait, Aden, Muscat, Jeddah, Ras-al-Khayam, Sharjah and Sanaa) and to East Asia (Dacca, Bangkok, Hong Kong, Tokyo, Osaka, Kuala Lumpur, Singapore, Perth and Sydney).

Fleet: Air-India today has ten Boeing 747s, five Boeing 707s and three Airbus A300s.

Board of Directors: Capt. Dhruva Bose, *Chairman-cum-Managing Director;* Air Chief Marshal Dilbagh Singh, M. M. Kohli, G. N. Mehra, Miss Prem Lal, R. P. Billimoria, Capt. A. M. Kapur, Capt. K. Chadha, C. L. Sharma, Capt. D. Bose, J. R. D. Tata. and Natwar Singh.

Management: Capt. Dhruva Bose, *Chairman-cum-Managing Director;* C. L. Sharma, *Dy. Managing Director;* Capt. D. Bose, *Dy. Managing Director;* J. N. Mogrelia, *Director of Finance;* H. M. Kaul, *Commercial Director;* Capt. C. P. Narayanan, *Director of Operations;* S. K. Nanda, *Director, Manpower Planning & Special Services;* H. C. Kapoor, *Director, Engineering;* P. Jayant, *Dy. Director, Management Services;* P. D. Marathe, *Controller of Stores & Purchases;* G. D. Dubey, *Controller, Communications;* S. K. Datta, *Dy. Director, Planning;* V. R. Subnavis, M. P. Patkar, *Controller, Civil Works & Properties;* and J. J. Naegamvala *Dy. Director, Inflight Service.*

Subsidiary Companies: The Hotel Corporation of India and Air-India Charters Limited.

The 288-room Centaur Hotel at Bombay Airport is the first 5-star hotel built by the Hotel Corporation of India Ltd., a wholly-owned subsidiary of Air-India. The second of the proposed chain was opened at Delhi Airport in November 1982. It has 416 rooms. The work has started on two other 5-star hotels, one on Juhu Beach, Bombay (396 rooms) and the other at Srinagar, Kashmir (281 rooms). The latter is part of a convention complex. In addition, two Japanese style hotels are to be constructed in collaboration with the Hokke Club of Japan at the famous Buddhist pilgrim centres of Rajgir in Bihar and Kushinagar in Uttar Pradesh. They will be named Centaur-Hokke Hotels.

Air-India set up on September 9, 1971 Air-India Charters Limited. This is a non-IATA charter company set up with a capital of Rs. 0.5 million.

INDIAN AIRLINES: (Head Office: Airlines House, 113, Gurdwara Rakab Ganj Rd., New Delhi 110001). The fleet as on June 30, 1982: 10 Airbus A300 B2, 25 Boeing 737, 8 Fokker Friendships F-27, 12 HS 748. The Airline's services extend over the entire sub-continent, including Nepal, Sri lanka, Afghanistan, Pakistan, Male and Bangla Desh. With operations to 70 stations, every 2.5 minutes one Indian Airlines plane is either taking off or landing at any of these airports. The operations of the Airlines have been divided into four regions: *Eastern Region:* Calcutta; *Western Region:* Bombay; *Northern Region:* Delhi; *Southern Region:* Madras.

Board of Directors: *Chairman:* R. P. Billimoria; *Directors:* Capt. Kamini Chadha, Dr. B. Venkataraman, Air Chief Marshal Dilbagh Singh, K. K. Srivastava, Miss P. Lal, Capt. A. M. Kapur, Capt. Dhruva Bose, Capt. N. M. Pereira.

Executive Heads: R. P. Billimoria, *Chairman;* Capt. K. Chadha, *Managing Director;* Capt. N. M. Pereira. *Deputy Managing Director;* S. Sen Gupta, *Director of Finance;* Capt. P. N. Reddy, *Director of Operations;* S. A. Rajagopal, *Commercial Director;* Dharam Vir, *Director of Engineering;* Capt. J. F. Ranji, *Director of Training (CTE);* R. K. Kanchan, *Controller of Stores & Purchases;* Capt. B. K. Bhasin, *Director, Flight Safety;* Ajit S. Gopal, *Public Relations Manager;* K. K. Sharma, *Controller, Ground Support;* Wg. Cdr. N. C. Bharma, AVSM, *Secretary.*

Regional Directors: Capt. R. A. Williams, Bombay (Western Region); Capt. R. K. Sen, Calcutta (Eastern Region); S. Sen, Delhi (Northern Region); Capt. V. K. Mehta, Madras (Southern Region).

Operations of Air India and Indian Airlines

The following table about the operations by Air India and Indian Airlines will give an idea about the performance of the two national carriers during the years 1981 and 1982:

	1981	1982
1.Hours flown	161,874	163,909
2.Kilometres flown (000)	88,067	91,161
3.Passengers kilometres flown (000)	12,038,725	13,263,882
4.Passengers carried (000)	7,498	8,293
5.Cargo carried freights (Tonnes)	133,269	141,473
6.Mail " " "	20,395	20,482
Total " " "	153,664	161,955
7.Tonne Kms. preferred (000)		
(i) Passenger	1,051,246	1,148,157
(ii) Freight	427,719	432,363
(iii) Mail	37,332	36,811
Total	1,516,297	1,617,331
8.Capacity tonne Kms. available (000)	2,384,003	2,616,073
9.Revenue weight load factor (%)	63.6	61.8
10.**Average length of haul in Kms.**		
a) Passenger	1,606	1,599
b) Freight	3,209	3,056
c) Mail	1,830	1,797
11.**Operating Revenue (Rs. in thousands)**		
a) Passenger	6,945,379	8,455,957
b) Freight	1,484,371	1,716,012
c) Mail	182,118	194,105
Total	8,611,868	10,366.075
12.**Operating Revenue per Unit of service**		
a) Passenger Revenue per passenger (Kms.)	0.58	0.64
b) Freight Revenue per tonne (Kms.)	3,47	3.97
c) Mail Revenue per tonne (Kms.)	4.69	5.27

VAYUDOOT was launched on January 26, 1981 with an authorised capital of Rs. 250 million to provide airlinks initially to inaccessible areas in the North-Eastern Region and is jointly owned by the Indian Airlines and Air India on a 50:50 basis.

At present the company is operating the following major services: New Delhi-Ludhiana: Gangtok-Bagdogra; Jamshedpur-Ranchi-Patna-Muzzaffarpur; Hissar; Gauhati-Shillong-Silchar; Agartala-Kailashshahr-Agartala; Chabua-Tezu-Chabua; Calcutta-Jamshedpur-Rourkela-Ranchi-Patna, Delhi-Chandigarh-Kulu and Bombay-Kandla.

Chairman (Part-time): Capt. A. M. Kapur.

FLYING CLUBS: There are 25 subsidised flying clubs with their headquarters at Amritsar, Hyderabad, Gauhati, Banasthali, Patna, Bombay, Coimbatore, New Delhi, Bangalore, Vadodara, Lucknow, Hissar, Jamshedpur, Karnal, Trivandrum, Indore, Nagpur, Madras, Jullundur Cantt., Bhubaneshwar, Patiala, Jaipur, Behala (Calcutta), Raipur and Ludhiana.

During 1982, Government paid an amount of Rs. 2.03 million as subsidy to these clubs who logged a total of 14,184 hours for imparting training to trainees/members.

GLIDING CLUBS: Besides the Government centre at Pune there are 16 subsidised gliding clubs/gliding wings of flying clubs at Agra, Ahmedabad, Amritsar, Delhi, Deolali, Hissar, Jaipur Jullunder, Kanpur, Pilani, Raipur, Patiala, Patna, Hyderabad, Ludhiana and Pinjore.

The number of gliders registered up to December 1982 was 113 of which 31 hold current certificate of airworthiness.

RESEARCH & DEVELOPMENT DIRECTORATE

Principal functions: *(i)* Airworthiness engineering including type-certification of civil aircraft and aeronautical equipment; approval of modifications to civil aircraft, etc. *(ii)* Research, evaluation and development, including investigations on operational problems like aircraft noise, atmospheric turbulence, evaluation of performance and economics of civil transport and other aircraft, etc, *(iii)* Prototype development, including design and development of prototype light aircraft gliders, sailplanes, winches, etc. *(iv)* Airworthiness engineering training.

AIRCRAFT DEVELOPMENT: An engine mount for reengining of the PUSHPAK aircraft has been developed and fabricated. Due to shortage of spares of the existing engine being used on this aircraft it has become necessary tc carry out this modification for full utilisation of the existing fleet of PUSHPAK aircraft being used by flying clubs and other operators in the country.

Glider Development: As on December 31, 1982, the design, development and construction of prototype powered glider RG-1 was in an advanced stage and was expected to be completed and test-flown shortly.

Winch Development: The fabrication of the second prototype of a diesel engine powered winch is in progress. A set of design drawings for Dhanush-I diesel engine was prepared.

Aircraft Registration: At the end of December 1982, 688 aircraft held current certificates of registration and 293 aircraft held current certificates of airworthiness.

Navigational and Communication Aids: As on December 31, 1982, the Aeronautical Communication Services were operating and maintaining 90 Aeronautical Communication stations, providing 256 acromobile channels in the aeronautical mobile service, 275 radio and landline circuits in the aeronautical fixed telecommunication network, 216 navigational channels and 9 ground-to-air voice broadcast channels in the Aeronautical Broadcast Service.

During the year 1981. Direct Speech Circuits were established between Madras-Colombo, Madras-Nagpur, Bombay-Cochin; Landline Teleprinter Circuits were established between Madras-Colombo Madras-Kuala Lumpur and an area Control Centre commissioned at Trivandrum.

Training Centres: The Civil Aviation Training Centre, Allahabad, comprising of an Aerodrome School and Communications School, is the principal training centre in the country, where basic training and refresher courses are conducted for departmental officers During the year 1982, 324 persons were trained in various categories.

Facilities exist for training of glider instructors and winch operators at the Government Glider Centre, Pune. Facilities are available at the Fire Services Training School at 229, N. Subash Rd., Calcutta, for training of departmental candidates for courses in "crash and fire rescue". Facilities for training foreign national are also available at Allahabad and other centres under various aid schemes.

The establishment of a Civil Flying Academy is under consideration of the Government.

Accidents: During the period January 1, to December 31, 1982, there were 25 nofifiable accidents in India. Three of the accidents proved fatal resulting in the death of 6 crew members and 15 passengers.

Air Transport Agreements: Agreements have been concluded with Afghanistan, Australia, Bahrain, Bangladesh, Belgium, Burma, Canada, Czechoslovakia, Egypt, Ethiopia, Federal Republic of Germany, Fiji, France, Ghana. Hungary, Indonesia, Iraq, Iran, Italy, Japan, Kenya, Kuwait, Lebanon, Malaysia, Mauritius, Republic of Maldives, Nepal, Netherlands, Nigeria, Poland, Pakistan, Philippines, Qatar, Saudi Arabia, Seychelles, Singapore, Sri Lanka. Sweden, Switzerland, Syria, Thailand. U.K., U.S.A., U.S.S.R., Yemen People's Democratic Republic, Zambia, Tanzania, North Yemen, Oman and U.A.E.

Civil Aviation Security: Two bills, namely the Anti-hijacking Bill and the Suppression of Unlawful Acts against safety of Civil Aviation, were passed by Parliament and received the President's assent on November 6, 1982. These bills have come into force on November 15, 1982.

PORTS

A PORT being the gateway to a country's commerce and prosperity, it facilitates the movement of passengers and cargo between the ship and shore through well-equipped and maintained docks, wharves, quays, berths and jetties. The Indian ports, scattered over a vast coastline, have played an important role in maritime trade. Even during the ancient civilization of the Monenjodaro period and through the Moghul period India was well-known for trade in spices, pepper, oils, silks, ivory, precious stones and other luxuries to far-off countries like Alexandria and Rome. History has recorded the many maritime struggles between the British, French, Dutch and the Portuguese for the supremacy of the Indian coastline with the eventual success of the East India Company.

As India stepped into the industrial age under British rule, Indian ports were fast modernised and the port capacity expanded. At the time of independence there were only four major ports: Bombay, Calcutta, Cochin and Madras. Today we have ten major busy ports bustling with passenger and cargo activities, both domestic and international. Additionally, there are 21 intermediate ports and 152 minor ports.

To meet its tight schedule, each major port is equipped with its own road, waterways and railway network connecting it to the sprawling hinterland. Berthing, bunking, watering facilities, dry docks (wherever possible) for servicing facilities besides transit sheds, warehouses, etc. are other development aspects necessary for the smooth functioning in every major port.

The ten major ports are Bombay, Calcutta, Cochin, Kandla, Madras, Mormugao, New Mangalore, Paradeep, Port of Tuticorin and Visakhapatnam. All major ports together handled 87.41 million tonnes of cargo during 1981-82 against 81.32 million tonnes during 1980-81.

State-wise distribution of intermediate ports and the number of minor ports respectively are:

Andhra Pradesh: Masulipatam, Kakinada and five minor ports. **Gujarat:** Okha, Porbandar, Bhavnagar, Navalakhi, Bedi, Veraval, Bharuch, Mandvi, Sikka, Surat and 40 minor ports. **Karnataka:** Karwar, Mangalore and 19 minor ports. **Kerala:** Alleppey, Kozhikode, and nine minor ports. **Maharashtra:** Ratnagiri, Redi, and 46 minor ports. **Orissa:** Two minor ports. **Pondicherry:** One minor port of Pondicherry only. **Tamil Nadu:** Cuddalore, Nagapattinam, Tuticorin and eight minor ports. **Andaman & Nicobar Islands:** 15 minor ports. **Lakshadweep Islands:** Seven minor ports.

Nine major ports are administered by Port Trusts, which are statutory bodies, whilst New Mangalore Port is administered directly by the Govt. of India. The intermediate and minor ports are administered by State Governments.

A Central ports authority has been mooted by Union Government to supervise the management of all port trusts.

The National Harbour Board: The Board advises the Central Government on matters of general policy relating to port management and development including the effects on industry, commerce, shipping, railways etc. so as to ensure integrated consideration of all important port matters.

Port Development: A provision of Rs. 6,000 million has been suggested to the Planning Commission for the development of major ports in the Five Year Plan (1980-85). The Annual Plan outlay for 1980-81 for major ports is Rs. 990 million.

LIGHTHOUSES: There are 360 lighthouses, 8 lightvessels, 13 fog signals, 12 M.F. radio beacons, 2 harbour control radars, 3 Decca Navigator chains, 6 Racons and several hundreds of lighted and unlighted buoys, beacons, land marks etc. serving as aids to navigation—strewn over the coastline of approximately 7,000 kms. including Andaman, Nicobar and Lakshadweep Islands.

BOMBAY: The port of Bombay owns landed estates extending over 761 hectares from Pilot Bunder to Wadala and the docks cover an area of 235 hectares. There are 3 enclosed wet docks with a total area of 46.30 hectares, and quayage of nearly 7,776 metres inside the wet basin and 853 metres along the harbour wall. Sassoon Dock has a water area of 1.5 hectares and limited facilities for five ships of 1,000 tonnes.

Besides the docks there are a number of "Bunders" or open wharves along the harbour front with a total quayage of about 12.5 kms.

Repair facilities for shipping are provided at two drydocks—Hughes and Merewether.

The port maintains its own railway system which serves the docks, ten local stations and a large number of sidings on the Port Trust estates. It also connects the main line railways.

Of all Indian ports, the Bombay port handles the largest number of containers and their number is increasing. In 1980-81 the port handled 101,281 containers, weighing 1,027,870 tonnes, in 1981-82 it handled as many as 131,900 containers weighing 1,455,377 tonnes, and in 1982-83 it handled 130,695 containers weighing 1,460.069 tonnes.

The Bombay port has undertaken the construction of an additional oil berth at its Marine Oil Terminal at Butcher Island, for handling large-sized oil tankers.

Considering the need for provision of port facilities for handling dry bulk and containerised cargo in modern large-sized ships, and the physical restraints which preclude the development of these facilities at the existing port, the Central Government has decided to proceed with the construction of the new port at Nhava-Sheva. After the construction of the new port, break-bulk general cargo can be handled in a more efficient manner at the Bombay Port.

Chairman: K. K. Uppal; **Dy. Chairman:** K. B. Srinivasan; **General Manager:** K. Nalinakshan; **Secretary:** R. U. Pai.

CALCUTTA: There are three impounded dock systems known as Kidderpore Dock, Netaji Subhas Dock and Haldia Dock. Kidderpore Docks comprise No. 1 and No. 2 Docks and Turning Basin. Netaji Subhas Dock has a lock entrance 700 ft. long and 90 ft. wide. There is one oil berth, one container berth and seven general cargo berths. In addition there are one lay-up berth, three lighter berths and one heavy-lift berth. There are also two riverside jetty berths at Garden Reach for sea going vessels.

There are six jetties with pontoons at Buj Buj, about 23 km. from Calcutta, for handling liquid cargo.

The Haldia Dock System has one riverside oil jetty, two fully mechanised berths for iron ore and coal, one modern container berth, one general cargo berth, one phosphate berth and one finger jetty for handling salt and fertiliser.

The port can handle about 16 million tonnes of traffic annually.

Anchorages (from sea upwards) at Saugor Roads, Haldia, Kalpi, Diamond Harbour, Rayapur, Uluberia and Garden Reach are available. One berth is available for warships of cruiser class.

There are five dry docks—two in Netaji Subhas Dock, and three in Kidderpore Dock No. 1.

Of late, containers are also being handled at Calcutta at 'D' berth, Netaji Subhas Dock. Taking into account the differences in size, design and mode of berthing the port can hold about 65 to 70 vessels in impounded docks, riverside jetties and river moorings.

The chief exports from Calcutta are coal, tea, sugar, gunnies, bone and bone-meal, bunker oil, iron and steel manufactures, lac, scrap, engineering goods, ores, mica and railway wagons. The principal imports are salt, foodgrains and flour, sulphur, tinplate, machinery, Crude oil, petroleum, iron and steel, metals other than iron and steel, lubricating oil, cement, soda, timber, fertilisers, bricks, chemicals, oils and railway material.

Chairman: T. C. Dutt, I.A.S.; **Deputy Chairman,** Calcutta: Dr. A. C. Ray, I.A.S.; **Deputy Chairman,** Haldia: M. K. Kargupta, I.A.S.; **Secretary:** R. P. Chanda.

COCHIN: The port of Cochin is open for deep water traffic in the worst monsoons and provides a splendid anchorage at all times of the year. Any ship drawing upto 30 ft. draught can enter the port even in the roughest weather.

The Cochin Harbour Railway is connected with the broad gauge system of the Southern Railway. Inside the harbour there are 11 stream berths, 2 coal berths, 8 wharf berths, 1 boat train pier jetty, one open berth and 2 tanker jetties. Facilities for handling container cargo are provided at Q-5 berth of Ernakulam wharf.

During the Sixth Plan (1980-85) it is proposed to provide additional container handling facilities at Q-9, floating craft like tugs etc. and improvement of infra-structural facilities. An integrated scheme for port development consisting of an oil terminal and a fertiliser berth with 40 ft. draught is one of the most important schemes of the port's Sixth Plan.

The principal imports are foodgrains, mineral oils (crude), cashewnuts, zinc concentrate, fertiliser and its raw materials. The principal exports are coir and coir products, tea, rubber, cashew kernels, seafoods, spices, and mineral oil products.

Cochin port set up an all time record by handling 5.57 million tonnes of cargo traffic during 1981-82.

Chairman: T. N. Jayachandran, I.A.S.

KANDLA: The major port of Kandla has now the following main facilities:

A cargo jetty with: (a) 1,166 m. of quayage and designed depth of 9.8 m. of water alongside to accommodate five large size ships or six liberty type ocean-going vessels; a marine unloader, designed to handle 500 tonnes of fertiliser and its raw materials per hour, has been installed at the fifth berth and commissioned. (This has a back-up storage facility of 30,000 tonnes and has automatic bagging and stitching arrangements); (b) three single storeyed transit sheds, each 137 m. long and 43 m. wide, with a total storage capacity of about 15,000 tonnes of general cargo; (c) broad wharves liberally served by dual gauge system of railway lines and roads; (d) 21 electric quaycranes, the most modern type of 3 tonnes, 6 tonnes and 10 tonnes capacities; (e) spacious open stacking grounds served with railway and road sidings; (f) four double storeyed warehouses, each 152 m. long and 37 m. wide with storage capacity of 60,000 tonnes, with overbridge connections to the roofs of the transit sheds, and provided with modern cargo lifts, chutes and loading platforms; (g) 'Grinnel' automatic sprinkler and fire alarm system has been provided in one warehouse as a measure for protection against fire, for the storage of cotton cargo in the warehouse, dangerous cargo sheds of 320 tonnes capacity and a calcium carbide shed of 48 tonnes capacity; two vegetable oil tanks with a total capacity of 400 tonnes; 4 sheds for storage of 12,000 tonnes of general cargoes: (h) 2 oil jetty berths with 8 pipelines of different dimensions for handling P.O.L., edible oil and liquid chemicals; (i) 60 tonnes gantry crane in Bunder for heavy packages; (j) fishing jetty with 2 tonnes crane with cold storage facilities.

Eighty-one tanks with storage capacity of 193,358 tonnes have been erected in the vicinity of the port by private owners. A warehouse of 5,000 tonnes storage capacity has been built by the Central Warehousing Corporation inside the cargo jetty area.

The port is equipped with V.H.F. communication network for maintaining contact with pilot launches, survey launches and ships calling at the port.

The port is connected to its hinterland by broad gauge rail connection via Jhund-Ahmedabad and metre gauge rail connection via Disa-Palanpur. Also a national highway connects Kandla to Ahmedabad.

A Free Trade Zone has been established at Kandla.

The chief imports are P.O.L., Phos. Acid, Veg. Oil, Liquid Ammonia, Fertiliser, raw material for fertiliser, iron and steel, pig iron, soda ash, gift cargo, cement, etc. Exports are rice, barley, Guar gum, rice bran extraction, bauxite, salt etc.

Single Buoy Mooring (SBM) to handle VLCC to discharge crude oil through 2 shore based submersible pipelines with capacity of 2,000 tonnes each per hour, was commissioned in August, 1978.

The container traffic through this port commenced in October, 1981. During 1981-82 8 container vessels have been handled with 1217 TEU's.

Chairman: S. L. Verma, I.A.S.; **Secretary:** B. S. Barot.

MADRAS: Berthing facilities: There are in all 20 berths and 3 moorings with depth ranging from 7.90m. to 14.6m. The alongside berths include an oil berth in the Bharathi Dock

Bharathi Dock: This outer dock located on the northern side of the main harbour basin is named after Subramania Bharathi. The dock comprises an oil berth and ore berth both designed to cater to 100,000 DWT tankers.

The oil berth now catering to 88,000 DWT tankers consists of five marine loading/unloading arms, 3 for handling crude and 2 for refined products. The crude can be handled at 4,000 tonnes per hour and the refined products at 700 tonnes per hour.

A fully mechanised iron ore handling facility designed for receiving by rail, stockpiling, reclaiming, weighing, sampling and shiploading iron ore was completed and commissioned. The second stream was commissioned on March 21, 1978. The quantity to be handled per annum will be 5 million tonnes initially and 8 million tonnes ultimately. It consists of 2 streams each of 4,000 TPH capacity for shiploading operation.

Cargo handling equipment: Modern cranes of various capacities have been provided at each berth in addition to an adequate number of mobile cranes, forklifts, platform trucks, tractors, trailors etc. In addition a floating crane 'VAIGAI' of capacity 120 tonnes also helps the handling of heavy packages overside. Palletisation on an extensive scale is also among other factors helping to achieve quicker turn-round of vessels. Pre-aligning method in cargo handling has also been introduced.

Containerisation: Stage I—Effective from the 14th April 1982, a Container Parking Yard, Container Freight Station and 2 nos. Tyre-mounted Transfer Cranes of 35.5 tonnes capacity each have become operational at the Container Terminal at the outer harbour. Besides, 20 nos. Trailers for handling 20'/40' containers and 12 nos. Tractor Heads were also procured recently; Stage II—To provide ship to shore handling facilities, the construction of a container berth of 300 metres length is in progress and expected to be completed in April 1983. The electrical and mechanical items of work will include the purchase and installation of 2 nos. Rail-mounted Container Quay Cranes. The total cost of the Scheme will be Rs. 270 million.

Storage and other facilities: There are 17 warehouses and 10 transit sheds providing covered accommodation of 800,600 sq. mtrs. and 47,450 sq. mtrs. respectively with rail-road access. Bonding facilities and separate stacking area for hazardous goods are available. In addition 325,000 sq. mtrs. of open area is also available for storage.

Apart from this there are 8 storage tanks of capacity ranging from 1,000 to 10,000 tonnes with shore-to-ship and vice versa pumping facilities to handle liquid cargo.

Types of cargo handled: The main imports are coal, mineral oils, fertilisers, phosphate, sulphur, phosphoric acid, machinery, hardware, iron and steel, cement, metals and timber.

The principal exports are iron ore, barytes, food grains, hides and skins, refined oil products, sugar, tobacco, oil cake, scrap, twist and granite.

Chairman: V. Selvaraj, I.A.S.; **Deputy Chairman:** Ashoke Joshi, I.A.S.

NEW MANGALORE: New Mangalore port is situated 9 kms. north of the existing minor port of Mangalore and is the 9th major port in the country.

It is connected by a broad gauge line to Madras (via) Shoranur and the National Highway 17 connecting Bombay to Kanyakumari passes close by. The Mangalore-Hassan metre gauge railway line connecting the new port with its hinterland has been opened for movement of cargo.

The development of the new port has been taken up in stages. In the first stage development, three alongside berths to cater to the needs of (1) fertilizers, (2) iron and manganese ores and (3) other general cargo and one shallow berth were provided along with an oil jetty for handling naphtha and petroleum products. The drafts available at two of the alongside berths is 9.45 metres while the third berth is provided with 10.10 metres draft. The oil jetty and the shallow berths are provided with drafts of 9.75 metres and 6.50 metres respectively. The three transit sheds in the wharf area provide storage facilities for a cargo of 18,000 tonnes.

During the second stage of development, facilities have been provided to cater to the needs of receiving 60,000 DWT ore carries for export or iron ore concentrates from the Kudremukh region. A fully mechanised iron ore berth with a ship loader having a capacity of 6,000 tonnes per hour and a draft of 12.50 metres has been commissioned. With the completion of the second stage, this port has become the deepest inner harbour in the country.

Traffic: The traffic through the port has increased from a meagre 0.091 million tonnes in 1974-75 to 2.272 milion tonnes in 1982-83. There was spurt in traffic during 1981-82 and 1982-83, and the increase in traffic were 70 per cent and 40 per cent respectively compared to the preceding years. With improved productivity and good labour relations prevailing in this Port, the increase in traffic will be maintained for this year also and it is expected that the traffic during 1983-84 will be more than 2.50 million tonnes.

Future development: Owing to steady increase in general cargo, another general cargo berth at an estimated cost of Rs. 72.8 million has been sanctioned by the Government. Work on the berth is in full swing and the berth is expected to be commissioned by December, 1983.

MORMUGAO: A major port providing modern facilities in handling oil, iron and ferroginous manganese ores and general cargo traffic.

During the year 1982-83, the Mormugao Port handled a total traffic of 12.76 million tonnes, which constituted 11.41 million tonnes of iron ore and iron ore pellets, 0.22 million tonnes of manganese ore, 1.00 million tonnes of oilcakes, sugar, frozen shrimps etc. (all in exports) and 0.98 million tonnes of imports consisting of mineral oils, phosphoric acid, fertilisers, cement, foodgrains, petroleum coke and other general cargo and 0.05 million tonnes of transhipped cargo of POL products.

Modern ore handling facilities: The ore berth and mechanical ore handling complex with a rated loading capacity of 8,000 tonnes per hour provides accommodation for the ships of 160,000 DWT and 305 m LOA for loading to a draft of 12 m. Higher loading draft is allowed subject to tide and weather conditions.

Chairman: Cecil Noronha. I.A.S.; **Dy. Chairman:** L. da Rocha.

PARADIP: The deep-water, all-weather major port of Paradip is situated on the east coast in the Bay of Bengal. The port is 210 nautical miles south of Calcutta and 260 nautical miles north of Visakhapatnam.

Paradip is connected by broad gauge railway system, national highway No. 5-A, and state express highway to other parts of India.

The port has one iron ore berth, one general cargo berth and a mooring buoy berth. The iron ore berth is equipped with a mechanical ore handling plant with a rated capacity of 2,500 tonnes per hour. It can accommodate vessels of 60,000 DWT, 260 mtrs. LOA and 11.9 mtrs. draught. The general cargo berth has a length of 290 mtrs and can accommodate vessels of 10.5 mtrs. draught. This berth is served with three 13-tonne shore cranes and is provided with transit sheds of 15,000 tonnes total storage capacity. Two additional transit sheds and five warehouses and large open stacking yards served by roads and rail are available. The port is equipped with most modern cargo handling equipments consisting of mobile cranes of 35-tonne capacity, forklifts, dumpers, etc. The mooring buoy berth can accommodate vessels of 11.9 mtrs. draught and 260 mtrs. LOA.

Apart from these berths three other berths are under construction.

Chairman: M. Y. Rao, I.A.S.

TUTICORIN PORT: It is a major port consisting of two wings i.e. the erstwhile major port of New Tuticorin (Zone-A) and the erstwhile intermediate Port of Tuticorin (Zone-B), functioning under a single administrative set up.

The Zone-A has 4 alongside berths with total quayage of 810 m. two of which have transit sheds (each of size 150 m x 36 m), for handling bulk, break-bulk, general cargoes and containers. One permanent oil jetty is also available for handling POL products. A coal jetty to handle Tamil Nadu Electricity Board coal has been built and become operational. The port can receive vessels with draughts upto 8.24 m. at all times and 8.85 m. at high tides. There is a hazardous cargo shed with 11 compartments (a total of 650 sq. m. of floor area) for the storage of various classes of cargo under the IMCO code. A fumigatorium for fumigating 2,000 bales of cotton at a time is available. Three warehouses (a total of 15,550 sq. m. floor area) at the shore are available. Besides these, 24,000 sq.m. open cargo stacking yard is available in front of the warehouses. The cargo handling equipment in this port include 10 wharf cranes with capacity varying from 3 T to 10 T, 13 mobile cranes, 18 fork lift trucks, 4 front end loaders and 2 diesel locos. Bunkering facilities and supply of fresh water to vessels are provided round the clock

Zone-B, which is also called as extension port is an anchorage port having lighterage facilities to handle ships of any size and draughts. Wharves and jetties of various sizes to a total length of 1043.43 m. are available for berthing lighters and barges with a draught of about 2.75 m. There is a dry dock of size 45.70 m. long, 15.20 m. wide and 2 m. of water above sill and backed with workshop facilities. In this zone a covered storage area of 14,460 tonnes capacity is available (13 Nos. of sheds like transit sheds, cumbustible shed and dutiable cargo shed etc.). For stacking purposes an open platform of 61,500 tonnes capacity is available.

All the berths in the major port and the wharves and jetties of the extension port are served by railway lines connected to the Southern Railway on the metre gauge. The Port is also linked directly to the National Highway 7-A.

Chairman: K. A. Sundaram, I.A.S.

VISAKHAPATNAM: Ships drawing upto 10.21 mtrs. having a length upto 195 mtrs. can enter the inner harbour. Ships drawing upto 15.3 mtrs. and having a length upto 263 mtrs. can be accommodated at the outer harbour ore berth.

The inner harbour consists of six east quay berths, two west quay berths, an oil wharf consisting of two berths, one mechanised fertiliser berth, three jetty berths and one mooring berth. It can accommodate 14 ships alongside and one in moorings. All the quay berths are equipped with electric cranes, transit sheds, railway lines, road approaches etc.

The outer harbour, with an iron ore berth-finger type jetty (OB I and OB II) capable of accommodating two ore carriers, each of 100,000 DWT, simultaneously on either side of the jetty, equipped with mechanical ore handling plant capable of loading iron ore at 8,000 tonnes per hour, has been commissioned.

A dry-dock 137.16 mtrs. long, 18.44 mtrs. wide, 5.63 mtrs. deep can accommodate ships of 122 mtrs. in length and 4.9 mtrs. draught. A graving dry-dock is available for dry-docking ships upto 70,000 DWT

The port has 6 transit sheds capable of accommodating 48,100 tonnes of cargo. The 2 storage sheds at the S. L. Canal area can store about 13,200 tonnes.

Two large warehouses, with a capacity of 30,500 tonnes can be used for the storage of cargo awaiting shipment.

The stacking capacity for iron ore is 600,000 tonnes. For stacking mineral ores, a vast area of about 91,273 sq. mtrs. is available.

Open space measuring about 187,881 sq. mtrs. is available for storage of pig iron, steel materials, rock phosphate, sulphur, general cargo etc.

Chairman: R. K. R. Gonela; **Dy. Chairman:** K. Sridharan; **Secretary:** R. Jeevaratnam.

GUJARAT PORTS: There are in all 42 ports in Gujarat State of which Kandla is a major port. Diu and Daman are centrally administered ports while 11 intermediate and 28 minor ports are under the administrative control of the State Government through the Director of Ports, Ahmedabad 380 016.

Cargo handled in tonnes by Gujarat Group of Ports (Imports and Exports respectively) during 1980-81 was: Mandvi (1,917-91,458); Navlakhi (253,801-6,110); Bedi (347,756-634,398); Okha (176,014-99,698); Porbandar (85,756-136,424); Veraval (164,101-162,715); Bhavnagar (422,606-78,547); Mahuva (12,001-77,796); and Bharuch (28,436-437)

Intermediate Ports: Mandvi, Navlakhi, Bedi, Sikka, Salaya, Okha, Porbandar, Veraval, Bhavnagar, Bharuch and Surat (Magdalla).

Minor Ports: Koteshwar, Jakhau, Mundra, Jodya Pindhara, Rupen (Dwarka), Beyt, Kotda, Mangrol, Madhvad, Navabandar, Talaja, Gogha, Mahuva, Jafrabad, Pipavav, Rajpara, Khambhat, Dhahej, Bhagwa, Onjal, Billimora, Valsad, Umarradi, Vansiborsi, Kolak, Maroli, Umbergaon.

Development Works: The work of all weather port project at Porbandar is completed and the port is being developed as a fishing harbour. Veraval and Mangrol ports are also being developed as fishing harbours with World Bank assistance costing Rs. 235 million. Development work on the ports of Jafrabad and Magallara is progressing. These ports are to cater the needs of cement, clinker and coal traffic. The estimated cost of the development is Rs. 120.9 million. Gogha and Dhaheja ports on the Gulf of Cambay are being provided with a service ferry for transporting loaded trucks, buses, cars etc. at an estimated expenditure of Rs. 51.5 million. Hazira in Surat is also under consideration for further development.

RAILWAYS

THE first railway (consisting of 14 four-wheeled teak coaches carrying 400 passengers) in India covered over a 33.6 kms. from Bombay to Thana on April 16, 1853 amidst much public rejoicings at seeing the "iron horse gallop along". The systematic development of rail communications, however, took place after 1858. Up to 1857, railway was practically unknown, except for a few miles around Bombay, Calcutta and Madras.

The freedom movement highlighted the need for proper communications. Thus by 1871, a general system connecting the different provinces and the hinterland of each province with its ports was completed.

The Government of India took under direct management: The East India Railway—1st January, 1925; Great Indian Peninsular Railway—30th June, 1925; Burma Railways—1st January, 1929; Southern Punjab Railway—1st January, 1930.

The Indian Railways system is the biggest public sector undertaking employing the largest number of workers. It is the cheapest and most popular system of transport connecting the entire country. Considered to be the largest network in Asia and the fourth largest in the world, it plays a vital role in the country's industrial development by freighting basic raw materials like coal, oil, steel, cement, etc. apart from food items.

Zonal Administration: The entire Railway system is now grouped into nine administrations (Headquarters within brackets) each headed by a General Manager: Southern Railway (Madras); Western Railway (Bombay); Central Railway (Bombay); Northern Railway (Delhi); Eastern Railway (Calcutta); South-Eastern Railway (Calcutta); North Eastern Railway (Gorakhpur); Northeast Frontier Railway (Maligaon, Gauhati); South Central Railway (Secunderabad).

The railways have four major training institutions. They are: (i) the Railway Staff College, Vadodara; (ii) the Indian Railway Institute of Advanced Track Technology, Pune; (iii) the Indian Railway Institute of Signal Engineering and Telecommunications, Secunderabad, and (iv) the Indian Railway Institute of Mechanical and Electrical Engineering, Jamalpur.

New trains introduced during 1978-79: Madras-Ahmedabad Navjivan Express; Bhubaneswar-Secunderabad Konark Express; Secunderabad-Bombay Minar Express; Dur-Varanasi Sarnath Express (Bi-weekly); Howrah-Jammu Tawi Himagiri Express (Biweekly); Ahmedabad-Udaipur City Express; Ahmedabad-Bhavnagar-Porbandar Gandhigram Express and Jaipur-Bikaner Express (metre gauge). **During 1980:** Bombay VT-Varanasi Mahanagari Express; Puri-New Delhi Nilachal Express. **During 1981:** Karnataka Express between New Delhi and Bangalore; Kerala Express between New Delhi and Trivandrum. **During 1983:** Udyan Express between Bombay and Bangalore; VT-Andheri local.

SOME BASIC FACTS

No. of daily passengers: 10.0 million; first sleeper accommodation for II Class (then III Class) introduced in 1954; total no. of sleeper coaches: 3,973 (2,919 broad gauge and 1,054 metre gauge); labour force: 1.58 million men and women; no. of trains daily: about 11,000; no. of stations: 7,072; Railway Budget separated from Central Budget: 1,925; carrying capacity of wagons—2 axle wagons: 22 tonnes, 4 axle wagons: 55 to 65 tonnes; gross load or average freight train—conventional (2 axle wagons): 2,230 tonnes; special (4 axle wagons): 3,650 tonnes; container service introduced: January, 1966: fastest train: Rajdhani Express (started 1969)—Delhi to Calcutta—covers, 1,445 kms. in 17 hours—permissible speed—130 kms. p.h.; first electric train 1925—Bombay V.T. to Kurla—16 kms.: first double decker train service (Bombay-Pune) inaugurated April 12, 1978; no. of rail bridges: 111,431; no. of level crossings.: 40,911; longest rail-cum-road bridge in Asia at Rajahmundry over river Godavari: 2.9 kms.; biggest marshalling yard: Mughalsarai—6,000 wagons a day; longest railway platform: Kharagpur—833 metres; total no. of seats: 2,074,106; no. of air-conditioned seats: 9,054; no. of first class seats: 159,885.

Railway Accidents: The number of train accidents—collisions, derailments, level crossing accidents and fires in trains—during 1964-65, 1970-71, 1975-76 and since 1978-79 onwards are tabulated below:

Year	Collisions	Derailments	Level Crossing accidents	Fires in trains	Total
1964-65	81	1,025	146	31	1,293
1970-71	59	648	121	12	840
1975-76	64	768	105	27	964
1978-79	55	778	86	12	931
1979-80	72	688	115	21	900
1980-81	69	816	90	29	1,013

Super Fast Trains: *The Jhelum Express; The Bombay-Howrah Mail; The Dadar-Varanasi Express; The Hazrat Qutub Express; The Frontier Mail* between Delhi and Bombay Central; *The Howrah-Kalka Mail* between Delhi and Howrah; *The Grand Trunk Express* between New Delhi and Madras Central; *The Deccan Queen* between Bombay V.T. and Pune; *The Brindavan Express* between Madras Central and Bangalore; *The Taj Express* between New Delhi and Agra Cantt.; *The Jayanti Janata Express* between Delhi and Muzaffarpur; *The Delux Express* between New Delhi and Howrah; *The Tamil Nadu Express* between New Delhi and Madras Central; *The Andhra Pradesh Express* between New Delhi and Hyderabad; *The New Delhi-Karnataka-Kerala Express; The Jammu Tawi-Bombay Central Express; The Pink City Express* between Delhi and Jaipur; *The Coromandal Express* between Howrah and Madras; *The Gomati Express* between New Delhi and Lucknow; *The Vaigai Express* between Madras, Egmore and Madurai; *The Geetanjali Express* between Bombay V.T. and Howrah; *The Steel Express* between Howrah and Tatanagar; *The Kovai Express* between Madras and Coimbatore; *The Howrah-Asansol Express; The Konarak Express* between Bhubaneswar and Secunderabad and *The Minar Express* between Bombay V.T. and Secunderabad.

As a result of modernisation of railways, the electrified route length has increased more than 14 times since 1950-51. Steam locomotives, the production of which was discontinued from 1972, are being gradually replaced by electric and diesel locomotives. Modernisation and improvements of signalling and telecommunication have also made much headway.

Railway locomotives are built in the Chittaranjan Locomotive Works (CLW), the Chittaranjan and Diesel Locomotive Works, Varanasi, both of which are administered by the Ministry of Railways. The bulk of the passenger service vehicles are manufactured in the Integral Coach Factory (ICF), Perambur, which is also administered by the Ministry of Railways. ICF's production is supplemented by the two public-sector undertakings Jessop and BEML; these three together meet the entire requirements of the railways.

The railways' requirements of wagons is met mostly by the industry which include units both in the public sector and the private sector. Three railway workshops supplement the production of these units. The following two tables broadly indicate the progress made by the railways in the last three decades and also its latest position:

Year	Route Length (Kilometres)			Running Track (Km.)	Passengers originating (Million)	Goods originating (Million Tonnes)
	Electrified	Non-electrified	Total			
1950-51	388	53,208	53,596	59,315	1,284	93
1960-61	748	55,499	56,247	63,602	1,594	156
1970-71	3,706	56,084	59,790	71,669	2,431	196
1980-81	5,345	55,895	61,240	75,860	3,612	220
1981-82	5,473	55,757	61,230	N.A.	3,704	246

Year	Number of Locomotives				Number of coaching vehicles*	Number of Wagons
	Steam	Diesel	Electric	Total		
1950-51	8,120	17	72	8,209	19,628	205,596
1960-61	10,312	181	131	10,624	28,439	307,907
1970-71	9,387	1,169	602	11,158	35,145	383,990
1980-81	7,469	2,403	1,036	10,908	38,327	400,946
1981-82	7,296	2,515	1,104	10,915	37,981	392,349

Note: *Includes electric multiple units and rail cars.
N.A. = Not Available.

In view of the vast developed network of the railways, the movement of goods by them has also undergone diversification. The railways, whose revenue earning goods traffic was only 93 million tonnes in 1950-51, are now the major carriers of such vital commodities as coal, foodgrains, cement, iron and steel, crude oil, etc. The following table shows the originating revenue traffic of the railways from 1981-82 to 1983-84:

Commodity	Tonnage originating (Millions)		
	1981-82	1982-83 (Revised Estimate)	1983-84 (Budget Estimate)
1. Coal	75.80	80.70	88.00
2. Raw materials to steel plants	24.06	24.00	26.00
3. Iron Ore for export	11.17	10.87	12.00
4. Cement	10.80	12.60	13.50
5. Foodgrains	21.51	22.50	22.00
6. P.O.L.	16.56	17.00	17.00
7. Other commodities	61.30	59.33	62.50
Total	221.20	227.00	241.00

There have also been a progressive increase in expenditure on the development as will be evident from the following table:

(Rs. in crores)

Item	1950-51	1960-61	1980-81	1981-82	1982-83@
Capital-at-charge	827.00	1,520 90	6,096.35	6,998.05	N.A.

ROADS

ROADS are the vital connecting arteries of the nation. They have an important role to play in the development of the economy and, in a way, promote cultural and social integration. In view of their importance, the Government of India enacted the National Highways Act in 1956 and took over the entire financial responsibility of building a network of key primary highways which it termed National Highways. India today has the largest network of roads in Asia.

Besides the national highways, which come under central control, there are feeder or secondary road systems which cover State highways and district roads. The third division covers rural roads which are also maintained by State governments. The Central government helps in the development of some selected roads in the states.

In 1947 the total National Highways system consisted of only 21,440 kms. But by 1981 another 4,380 kms. were added by way of missing road links and bridges taking the present total length of National Highways to 31,358 kms.

A step for the smooth passage of inter-state road transport was taken when the Motor Vehicles (Amendment) Act was passed in 1956 and an Inter-State Transport Commission was constituted in 1958.

The hitherto inaccessible locations on the north and north-eastern border areas were developed and integrated through well-surfaced arterial routes under the control of the Border Roads Organisation (BRO) which was set up in 1960.

The Sixth Plan envisages a Minimum Needs Programme to link all villages with a population of 1,500 and above with all-weather roads.

Length of Roads in 1914: 273,000 kms. Length of roads as on April 1982; 1,734,000 kms. (of which surfaced roads: 724,000 kms. and unsurfaced roads: 1,010,000 kms.).

National Highways: The Union Government is responsible for the system of national highways formed in 1947. There are 64 roads classified as National Highways measuring a total length of 31,358 kms. These are (1) Delhi-Amritsar, (2) Jullunder-Srinagar-Uri, (3) Batote-Doda-Kishtwar, (4) Delhi-Calcutta, (5) Agra-Bombay, (6) Thane-Pune-Bangalore-Madras, (7) Belgaum-Ponda-Panaji, (8) Baharagora-Cuttack-Bhubaneshwar-Vijayawada-Madras, (9) Haridaspur-Paradip Port, (10) Dhule-Nagpur-Sambalpur-Bahara-Gora-Calcutta, (11) Varanasi-Mangawan-Jabalpur-Nagpur-Hyderabad-Kurnool-Bangalore-Salem-Madurai-Kanyakumari, (12) Palayankottai-Tuticorin, (13) Delhi-Jaipur-Udaipur-Ahmedabad-Baroda-Bombay, (14) Ahmedabad-Limbdi-Morvi-Kandla, (15) Bamanbore-Rajkot-Porbunder, (16) Chiloda-Gandhinagar-Surkhej, (17) Pune-Sholapur-Hyderabad-Vijayawada, (18) Delhi-Hissar-Fazilka, (19) Agra-Bharatpur-Jaipur-Bikaner, (20) Jabalpur-Bhopal-Bisora, (21) Sholapur-

Chitradurga, (22) Pathankot-Bhatinda-Ganganagar-Bikaner-Jaisalmer-Barmer-Samakhiali, (23) Panvel-Mahad-Panaji-Karwar-Mangalore-Cannanore-Calicut-Edapalli, (24) Cortalim-Mormugao, (25) Chandigarh-Rupar-Bilaspur-Mandi-Kulu-Manali, (26) Ambala-Kalka-Simla-Narkanda-Rampur-Chini, (27) Chas-Ranchi-Rourkela-Talcher-Nuatta, (28) Delhi-Bareilly-Lucknow, (29) Lucknow-Kanpur-Jhansi--Shivpuri, (30) Jhansi-Lakhadon, (31) Allahabad-Mangawan, (32) Barauni-Muzaffarpur-Pipra-Gorakhpur-Lucknow, (33) Pipra-Sangauli-Raxaul, (34) Gorakhpur-Ghazipur-Varanasi, (35) Mohania-Patna-Bakhtiarpur, (36) Barni-Bakhtiarpur-Mokameh-Purnea-Dalkhota-Siliguri-Sivok-Cooch Bihar-North Salmera-Pandu, (37) Sivok-Gangtok, (38) North Salmera-River Brahmaputra near Goalpara, (39) Jamshedpur-Purulia-Dhanbad-Gobindpur, (40) Barhi-Ranchi-Chandil-Bhargora, (41) Dalkola-Behrampore-Baraset-Calcutta, (42) Baraset-Bongaon, (43) Nowgong-Dabaka-Dimapur, (44) Pancharatna-Gauhati-Jorabat-Kamargaon-Makum-Caikhoagat, (45) Nadum-Lado-Lokhapani, (46) Mumligarh-Imphal-Palal-Morah, (47) Jorhat-Shillong-Dawki, (48)Kalaghat-Haldiaport, (49) Sambalpur-Angul-Cuttack, (50) Raipur-Vizianagaram, (51) Shillong-Passi-Badarpur-Agartala, (52) Madras-Tiruchirappalli-Dindigul, (53) Krishnagiri-Ranipet, (54) Salem-Coimbatore-Trichur-Ernakulam-Trivandrum-Kanyakumari, (55) Nalamangala-Hassan-Mangalore, (56) Madurai-Dhanushkhodi, (57) Nasik-Pune, (58) Lateral road in West Bengal and Assam, (59) (Assam) Paikan-Tura-Dalu (Meghalaya), (60) (Assam) Baihata-Tezpur-Passighat-Saikhoaghat (Arunachal Pradesh), (61) (Arunachal Pradesh) Itanagar-Bander Dewa (Assam), (62) (Assam) Badarpur-Silchal-Imphal (Manipur), (63) (Assam) Silchar-Aizawal-Lunglei (Mizoram), (64) Jaipur-Kota-Biaora (Bhopal).

The total expected physical achievements in the National Highways system upto end of 1982-83 are: (i) construction of missing links 20 kms., (ii) improvement of low grade sections, sixth plan schemes completed, with no spill over; (iii) widening and strengthening of single lane sections into two lanes 650 kms.; (iv) widening to two lanes only 350 kms.; (v) strengthening of existing double lane pavements 375 kms.; (vi) widening to 4/6 lanes 20 kms.; (vii) construction of by-passes 5 nos.; (viii) construction of missing major bridges 2 nos.; (ix) reconstruction/widening of weak, major bridges 18 nos.

Sixth Plan: The Sixth Plan has targeted an outlay of Rs.8,300 million for central schemes, Rs.23,988.7 million for States schemes and Rs.2,100.9 million for union territories schemes, aggregating to an outlay of Rs.34,389.6 million. See Table II also.

Statewise length of National Highways (in kms): Andhra Pradesh: 2,299; Assam: 2,278; Bihar: 2,117; Gujarat: 1,398; Haryana: 681; Himachal Pradesh: 630; Jammu & Kashmir: 648; Karnataka: 1,996; Kerala: 784; Madhya Pradesh: 2,736; Maharashtra: 2,861; Manipur: 431; Meghalaya: 472; Nagaland: 113; Orissa: 1,649; Punjab: 913; Rajasthan: 2,557; Sikkim: 62; Tamil Nadu: 1,749; Tripura: 200; Uttar Pradesh: 2,328; West Bengal: 1,561; *Union Territories:* Arunachal Pradesh: 330; Chandigarh: 24; Delhi: 72; Goa, Daman & Diu: 229; Mizoram: 240.

States' Roads: The roads maintained by the States are classified as State Highways, PWD roads, *Zilla Parishad* roads, Village *Panchayat* roads, Community Development/*Panchayat Samiti* Roads. As on April 1980, the States Highways measured (in kms.) 95,923; other PWD roads 415,350; *Zilla Parishad* roads 266,301; Village *Panchayat* roads 264,001; and CD/*Panchayat Samiti* roads 151,478.

Urban roads under the jurisdiction of Municipal Corporations and other local bodies were 114,223 kms.

The Border Roads Organisation: Set up in 1960, BRO builds and maintains roads in remote, and hilly border areas. The cumulative progress achieved by Border Roads Organisation till end of December 1982: Construction and improvement of new and existing roads 14,245 kms.; surfacing (soling, metalling or black-topping) 10,977 kms.

Indian Road Construction Corporation: This corporation was set up on 20th December, 1976 taking up and executing road and bridge construction works within and outside India. The IRCC is now having in hand total workload aggregating to Rs. 3,860 million (3,587.9 million in Libya and Rs. 273.4 million in Iraq). These are contracts for construction of roads, bridges, and culverts to be completed during the next four years.

World's Highest Road: The road from Manali in Himachal Pradesh and Leh in Kashmir runs at an average altitude of 4,267 metres (14,000 ft.) and negotiates four very high passes varying from 4,876 metres (16,000 ft.) to 5,486 metres (18,000 ft.).

Revenue from Motor Transport: During 1982-83, Central and State Governments collected by way of taxes Rs. 30,397.2 million (Central Rs. 17,658.5 million and States Rs. 12,738.7 million) from motor vehicles.

Road Traffic: The number of Motor vehicles in use in India is shown in a table in the Chapter on "Automobile Industry".

TABLE I
Road Traffic

	Volume of road traffic	Percentage share of road in total road and rail traffic
Goods Traffic		
(in billion tonne kms.)		
1950-51	5.5	11
1955-56	8.9	13
1960-61	35.0	29
1965-66	55.0	32
1970-71	66.0	34
1976-77	76.0	33
1977-78	77.0	32
1981-82	85.0	32.79
Passenger Traffic		
(in billion passenger kms.)		
1950-51	23	26
1955-56	31	33
1960-61	57	42
1965-66	95	50
1970-71	169	59
1976-77	235	59
1977-78	250	59
1981-82	300	57

Public Sector Passenger Transport: There are now 51 State undertakings providing passenger transport service. As on 1981 they employed a capital of about Rs. 9,075.96 million. With a fleet of 69,550 vehicles under State undertakings, 60 per cent of the buses in the country are in the Public Sector.

TABLE II
Progress in Five Year Plans

	Surfaced	Unsurfaced	Allocation
	(Figures in kms.)		(Rs. in million)
First Plan*	183,023	3,155,321	1,344.7
Second Plan	262,700	464,027	2,458.0
Third Plan	342,798	720,835	4,511.2
Fourth Plan	480,705	712,448	8,710.0
Fifth Plan	532,492	842,497	13,470.0
Sixth Plan	—	—	34,389.6

*Excludes Municipal, Forest, Irrigation & M.E.S. Roads.

Development Expenditure on Roads: The current year's budget provision for Plan Schemes and revised estimates for 1982-83 (in brackets) show the trend of expenditure on Central road programmes respectively. Allocations for national highways: Rs. 1,897.6 million (Rs. 1,782.8 million). Roads of inter-state importance: Rs 47 million (Rs. 35 million); Border Roads: Rs. 80 million (Rs. 55 million); Planning and Research: Rs. 7.9 million (Rs. 6.07 million); Total: Rs. 2,032.5 million (Rs. 1,879.5 million).

TABLE III

Selected Data on Roads in India

(Thousand kms.)

	Main national roads	Secondary roads	Other roads	Total	Percentage paved	Density of total-network in kms. per sq. km.
1970	23.8	161.3	777.9	963.0	34.7	0.295

(P) Provisional

PHYSIOGRAPHY

INDIA is a vast complex country. Reaching from $8^{0}4'$ to $37^{0}6'$ North latitude, and from $68^{0}7'$ to $97^{0}25'$ East longitude, it measures some 3,220 kms. from south to north and some 2,980 kms. from west to east and covers an area of 3,276,141 sq. kms. (including Sikkim).

Physical Features: Its physical features fall into three well-marked regions, each of them vast in dimensions: first, the great Himalayan mountain system; secondly, the Indo-Gangetic plain; and thirdly, the plateaux of peninsular India, the Deccan.

The Himalayan system lies between the plateau of Tibet and the Indo-Gangetic Plain, and consists essentially of a complex series of young fold-mountains arranged in more or less parallel ranges which now combine in a mountain-knot, then divide to leave room for intermontane valleys like those of Kashmir and Kulu. The highest range, the Great Himalaya, consists of a whole series of giant peaks like Nanda Devi (24,645 feet), separated by deep chasms cut by rivers and glaciers and, occasionally, by high passes over which run the immemorial trade-routes between India and Tibet. South of the Great Himalaya lie other high ranges, and nearest to the plains there are the Sivaliks, the youngest member of the series geologically, which present a massive rampart to the south, broken only by valleys through which run great snow-fed rivers like the Sutlej (a tributary of the Indus), the Yamuna and Kosi (tributaries of the Ganga) and the Ganga itself. At the eastern-most end of the Indian Himalaya the ranges are breached in a spectacular gorge by the Brahmaputra, which rises in Tibet. East and south of the Brahmaputra gorge, the fold-ranges trend generally southward, and form the wild hilly country of Nagaland and other areas on the frontiers of India and Burma.

The Indo-Gangetic Plain occupies what must once have been a hollow between the Himalayas and the old-rock plateaux of the peninsula; a hollow that has been infilled by alluvium brought down by the great Himalayan rivers and, to a lesser extent, by those flowing into it from the Deccan, like the Chambal and Sone. If one includes the level ground along the Brahmaputra in Assam, the Plain as a whole is over 2,400 kms. long, and generally 200-300 kms. wide (rather narrow in Assam). Here is one of the world's really large Plains. To the casual observer it is one great monotony, but actually it has considerable variety, of two kinds: first, the gradual transition from the dune-covered desert-plain of Rajasthan, through the rich, cultivated alluvium of Uttar Pradesh to the swampy Sundarbans along the weaward edge of the Bengal delta; and, secondly, more intimate local variety—for example, the contrast of deeply-gullied terraces of old alluvium and of low-lying flood-plain where the Chambal runs into the Yamuna below Agra.

The dominant landform in the Deccan (that is, in peninsular India) is the plateau, the great stretch of rolling country at some considerable elevation above sea-level. Such is the Maidan of Karnataka or the black-earth plateau of Malwa (or the detached plateau which forms Meghalaya). Most of these plateaux, indeed, almost all of the Deccan, are built of hard old crystalline rock, with here and there ancient sediments. Here lies most of India's mineral wealth, especially iron and manganese ore (with coal in down-faulted basins in the north-east Deccan). In Maharashtra there was a great outpouring of basalt which overlies the crystalline base and gives rise to characteristic stepped landforms. Across the plateaux roll the great east-flowing Deccan rivers the Mahanadi, Godavari, Krishna and Kaveri, with their tributaries. Each forms a notable delta where it reaches the sea. The Narmada and Tapti, on the other hand, flow westward to the Gulf of Cambay north of Bombay. The great plateaux end in massive mural scarps like those overlooking the Indo-Gangetic Plains or the even more impressive Western Ghats (the so-called Eastern Ghats are puny, broken things in comparison). There are also scarps with the appearance of mountain ranges where one plateau-level descends to another within the Deccan.

Climate: The vastness of India and the variety of its relief are reflected in the wide range of climatic types to be found within it. In the Plains, the desert of Rajasthan contrasts with the humidity of Bengal. The winter snows of the Himalaya contrast with the nearly equatorial heat of Kerala and Tamil Nadu. The last two contrast with each other, for Kerala is wet, with a short dry season, and Tamil Nadu is dry, with a long dry season when much of India is having rain, during the south-west monsoon.

If one seeks a unifying factor in the climate of India, it is to be found in the dominance of the monsoon; that is, in a great seasonal reversal of wind and weather. For most of India except Tamil Nadu, the south-west monsoon of about June to September is a period of rain, very heavy in Bombay and Calcutta, torrentially heavy in Meghalaya (where Cherrapunji has the reputation of being the earth's wettest spot), light by the time Delhi is reached, even lighter (and highly variable) in the desert. The north-east monsoon of 'winter' is a period of dry weather over most of India except Tamil Nadu, which then has its rainy season; and of cold weather, becoming hot as the south-west monsoon season approaches, in north India.

Vegetation and Soils: Most of India must once, it is thought, have been covered with forest whose nature reflected principally variations in rainfall (or of altitude in the Himalaya): forest that ranged from tropical rain forest in Kerala through tropical moist deciduous forest in the eastern Plains and north-east Deccan to thorn scrub in semi-arid interior Maharashtra. Forest reserves to some extent preserve this pristine vegetation, though usually in a form modified by man, acting as a destructive agent (for instance, turning thorn forest to poor savana-jungle) or as a constructive agent (replacing 'natural' vegetation with pure strands of desired species like sal or sandalwood). In the Plains, the east coast deltas and western coastal strips, in Tamil Nadu and much of Maharashtra, little 'natural' vegetation of any sort survives.

Human activity over the centuries (indeed, for millennia) has replaced 'natural' vegetation with crops: the *kharif* rice and *rabi* wheat of much of the Plains (and, of course, other crops beside, like sugar-cane and mustard); the jowar and bajra of the drier parts of the Deccan, except where irrigation has brought in wheat, or rice, or sugarcane; the tea of Assam; the tea and coffee of Kerala and of the hills north of it; the coconut of the coastal fringes of the South. So, too, the teeming wild life of India, dependent as it is on forest cover, has been fighting a losing battle against man. There is now concern over the survival of a number of species, notably the lion (confined to the Gir forest in Saurashtra), the tiger, the elephant and the rhinoceros. But a number of species of deer are still relatively common, and bird life is generally abundant.

Population (also see Chapter on Population): India is the world's second most populous country. The 1981 Census indicated the total population was 683.81 million, an increase of 24.75 per cent over 1971 Census, as against 547.9 million in 1971 with 24.8 per cent increase over 1961 Census figures. All the States/Territories north of the Vindhyas account for more than 60 per cent of the entire population. There are great variations between one region and another and pressure of population on the land has become excessive, especially in the Plains, the east coast deltas and Tamil Nadu.

STATES, TERRITORIES

The country is divided into 22 States and 9 Union Territories These are (with the capital towns in brackets):

Andhra Pradesh (Hyderabad), Assam (Dispur), Bihar (Patna), Gujarat (Gandhinagar), Haryana (Chandigarh*), Himachal Pradesh (Simla), Jammu and Kashmir (Srinagar), Kerala (Trivandrum), Madhya Pradesh (Bhopal), Maharashtra (Bombay), Manipur (Imphal), Meghalaya (Shillong), Karnataka (Bangalore), Nagaland (Kohima), Orissa (Bhubaneshwar), Punjab (Chandigarh*), Rajasthan (Jaipur), Sikkim (Gangtok), Tamil Nadu (Madras), Tripura (Agartala), Uttar Pradesh (Lucknow), West Bengal (Calcutta).

The Andaman and Nicobar Islands (Port Blair), Arunachal Pradesh (Yachuli), Chandigarh (Chandigarh), Dadra and Nagar Haveli (Silvasa), Delhi (Delhi), Goa, Diu and Daman (Panaji), Lakshadweep (Kavaratty Island), Mizoram (Aizawl), Pondicherry (Pondicherry).

SOME BASIC FACTS

Date of Independence 15-8-1947.
Became a Republic on 26-1-1950
Area: 3,276,141 sq. kms.
Length: 3,119 kms. (North-South).
Breadth: 2,977 kms. (East-West).

Land Frontier: 15,168 kms.; Frontiers with Pakistan: 2,966 kms.; with Bangla Desh: 3,950 kms.; with China: 3,862. kms.; with Nepal: 4,390 kms.

Coastline: 5,686 kms.

Ocean Zone: 200 nautical miles.

Important Rivers: Ganges, Yamuna, Luni, Ghaghara, Kosi Godavari, Chambal, Betwa, Sone, Brahmaputra, Krishna, Mahanadi, Narmada, Kaveri, Tapti and Pennar.
Minimum Rainfall: Thar Desert 101.60 mm (4 inches).
Maximum Rainfall: Cherrapunji 10,795 mm (425 inches)
Minimum Temperature: Kashmir 9.4^{0}C (49^{0}F)
Maximum Temperature: Rajasthan 48.9^{0}C (120^{0}F.
Population: 683,810.051 (1981 Census).
Growth Rate: 24.75 per cent (1981).
Expectancy of Life at Birth: 54 years.
Death Rate: 14.8 per 1,000.
Birth Rate: 36 per 1,000.
Infant Mortality Rate: Male 120, Female 113.
Most Populated State: Uttar Pradesh 110,858,019.
Largest Populated City: Calcutta 9,165,650.
Literacy Rate: 34.8 per cent.
Most Literate State: Kerala (69.2 per cent).
Largest State: Madhya Pradesh 443,459 sq. kms.
Largest Union Territory: Arunachal Pradesh 83,578 sq. kms.
No. of States: 22.
No. of Union Territories: 9.
No. of Districts: 361.
No. of Villages: 596,000 (approximately).
No. of Village Panchayats: 221,727.
Languages: 15 (provided by the Constitution). Assamese, Bengali, Gujarati, Hindi, Kannada, Kashmiri, Malayalam, Marathi, Oriya, Punjabi, Sanskrit, Sindhi, Tamil, Telugu, Urdu.
Dialects Spoken: 1,652.

*The Union Government announced on January 29, 1970 its decision to transfer the capital project area of Chandigarh to Punjab within the next five years. Pending the construction of a new capital for Haryana, Chandigarh will remain a Union Territory.

METEOROLOGY

METEOROLOGY is the science of study of weather and climate. Atmospheric properties like temperature, sub-divisional rainfall etc. are measured by various meteorological instruments.

In India rainfall is not evenly distributed in all parts and is very erratic. India has a desert in Rajasthan, but it has also one area noted for the highest rainfall in the world at Cherrapunji in Assam. The temperature and weather conditions vary in different parts of the country.

The Indian Meteorological Department recognises four seasons—cold season or winter (November - February), hot season or summer (March - May), rainy season or monsoon (June - October) and the retreating period of the South-West Monsoon (October - November), which is the most pleasant season.

The average monthly temperature, the average monthly rainfall and sub-divisional rainfall are given below:

Note—All values are based on the data of India Meteorological Department stations except in respect of sub-divisions with asterisks for which available State raingauge stations also are included.

ECOLOGY

HAECKEL, the noted German biologist, first described ecology in the 19th century as the study of inter-relationship between living organisms and their environment.

With the remarkable big leap forward in science and the phenomenal strides in industrialisation, environmental pollution, a concomitant of industrial progress, has become a serious problem. Aldous Huxley rightly sized up "the double crisis as the upper level of political and economic crisis and the lower level of demographic and ecological crisis."

Arthur Westing, an American botanist, who made a close study of the environment after the Viet Nam War, observed that there was a permanent ecological disaster. For 10 per cent. of the trees had been sprayed with anti-plant chemicals called herbicide, and 3,000 million cubic metres of soil volume had been displaced by bombs resulting in craters.

Significantly, the rape of the environment all over the world led to the Stockholm Conference in 1972 which roused environmental consciousness the world over. In 1975 the U.S. and the U.S.S.R. forwarded to the 28th U.N. Assembly an identical draft convention drawing its urgent attention to the pressing need for prompt remedial environmental measures to arrest growing deterioration in ecology. It deplored "any technique for changing through deliberate manipulation, the dynamics, composition or structure of the earth, including its biota, lithosphere, hydrosphere and atmosphere or of outer space so as to cause earthquakes, or upset the ecological balance or any change in the weather pattern."

The timely warning sounded at the international level is of particular interest to the developing countries like India which are "enmeshed in a vicious circle of poverty, over-population, environmental degradation and disease". It is ironical that in India the emphasis as stated in the *Upanishads* "that the good earth is honey to all, and all men are honey to the earth," appears to have lost its significance.

Right from the north, the pristine beauty of the Himalayas extending for 2,500 k.m. over an area of 500,000 sq. metres must necessarily be kept clean and free from pollution. Already the "garbage trails" are spoiling the environment. Mountaineering expeditions have been reminded of the possible havoc from keeping the area cluttered up with waste matter. A noteworthy fact not always fully realised, is that the great mountains keep the entire climate of the country in balance.

Prof. Jack Ives of Colorado University, U.S., states that reckless exploitation of forests on the slopes of the Himalayas is pushing a vast area of Asia towards environmental disaster. He fears that if steps are not taken well in time this will accelerate deterioration of the downstream environment of the Gangetic plain, the breadbasket of India. The steep hill-side of the Himalayas is part of a fragile and vitally important eco-system that acts as a watershed for the Indo-Gangetic plains. Deforestation will spell disaster and bring in its wake floods and landslides that might result in loss of human lives, destroy valuable crops and property. Climatologists fear that the forest carpet might suffer and may eventually change the rainfall pattern.

Environmental care is vital for many other reasons too namely: Scientific research, economic value, preservation of wild life and the general well-being of the people funnelling clean air, pure water and hygienic surroundings. Unfortunately, researchers have noted that habitat destruction has resulted in the depletion of elephants and rhinos in Africa and Asia.

India is one of the richest wild life centres in the world with an estimated 500 species of mammals, 2,100 species of birds, 26,000 types of insects and nearly 700 types of reptiles. To protect the over 195 wild life reserves over 25 national forests have been created.

Trees being the promoters of excellent ecology, a gigantic tree-planting campaign is called for at all levels. For the ecological functions of a single tree which possesses 20,000 calories of proteins is said to pump oxygen into the atmosphere, recycle water in the soil, check soil erosion and control environmental pollution.

The Chipko movement of the Kumaon Hills has overtones of how lack of foresight and ignorance of sound ecological knowledge had changed the environment. Centuries ago the East India Company had cut down the original trees which provided fodder, fruit, honey, fuel and nutrition to the soil and planted instead pine trees for extracting resin. Pine leaves and the twigs are highly acidic making the soil weak and thereby increasing erosion leading on to landslides and floods. That has also affected wild life as no animals can find adequate shelter in such surroundings.

Deserts are no less important for they treasure in their bosoms some of the rare specimens of cacti which are unique in the way they have adapted and thrive in harsh conditions.

POLLUTION

THE directive principle embodied in the Indian Constitution (42nd Amendment) calls for the preservation and improvement of the environment. Proper ecological balance makes for sound health and good life. But mounting environmental degradation by air, water, and noise pollution in several parts of the country has reached alarming proportions as many towns and industrial zones under the pace of rapid industrialisation and mounting population have been affected by attendant contamination.

The rapid deterioration of the eco-system, flood havoc, deforestation, the disappearance of wild life and industrialisation have all added up to worsening pollution.

The pollution of rivers was shocking as it was alarming: the Damodar river in some parts has a blackish colour and the Chaliyar river in some areas has turned brownish. The Mahim creek in Bombay and the Thana-Kalyan region are highly polluted. A broad survey of the polluted areas reveals that in Delhi, the Indraprastha power complex and the Yamuna are highly polluted. In Calcutta many of the 1,250 industrial plants zone and the rivers in the Punjab have a high rate of pollution. In Goa it has been found that even some wells in some villages have been polluted by fertiliser wastes. In Cochin, the Alwaye industrial belt has badly affected the Periyar river. The beautiful Dak Lake in Srinagar has been found to be receding day by day, slowly but surely, as a result of heavy pollution and the abnormal growth of weeds. Even the world-famous 300-year-old Taj Mahal was at one time seriously endangered by sulphur-dioxide which would do untold damage to "one of the great wonders of the world"

In Chembur, Bombay's suburb described as the "gas chamber of Asia", pollution has reached such a serious situation and is such a hazard to health owing to the contamination of air by the oil refineries, fertiliser and other large industrial complexes that, according to expert medical opinion, there are mounting cases of lung and throat infection. Even many plants are said to have shed their leaves.

Significantly, India subscribes to the aims and objects of the International Union for the Conservation of Nature and Natural Resources and is taking prompt and energetic measures to mitigate pollution. In line with the official policy, the Maharashtra Government has set up a Pollution Control Board.

Historically, latest scientific research reveals that one of the prime factors for the disappearance of many civilisations was pollution. The Mayan civilisation of Guatemala, the Mesopotamia, the Mohenjodaro and the Carthaginia civilisation were the victims of some form or other of ecological destruction. Sind, once the "Granary of western India", was also hit by ecological ruin.

Industrialisation, though vital for the prosperity of the nation, demands judicious planning and careful execution of schemes for it can dramatically alter the balance of nature with disastrous results for man in his happy and healthy environment. Pollution of air and water with automobile and industrial gas emissions and human and industrial effluents, heavy metals and pesticides residues can create untold and widespread havoc. The hectic din and bustle of industrial activity can also seriously disturb environmental harmony. Noise is environmental contamination and can harm health like impure air and polluted water. Noise control is now widely considered abroad as a major branch of acoustical engineering. To reduce noise, machine vibrations are sought to be subdued by the use of "absorber mounts".

Bombay's huge population (touching 9 million) apart, it is stated that 1,500 tonnes of pollutants are released into Bombay's atmosphere daily. The carbon monoxide pollutants are placed at 38.4 per cent and sulphur dioxide at 34.4 per cent which are released by 450,000 vehicles and thousands of large and small-scale industries in Bombay.

The seriousness of the ill-effects of pollution is evident from the fact that many cases of tuberculosis among children have been reported from the Lalbaug and Parel areas of Bombay, the predominant industrial textile mills centre. Reports from West Bengal indicate that children in Calcutta's industrial belt are also said to be suffering increasingly from chest diseases, including bronchitis. Several respiratory diseases have been reported from Asansol's industrial belt.

Though the Central Public Health Engineering Research Institute (CPHERI) and the Society for Clean Environment (SOCLEEN) are endeavouring to clean up the polluted areas, statistics reveal the growing hazards to public health if firm and swift remedial measures are not taken in hand well in time.

Even in the rural areas, as in the case of the village of Nelavagilu on the banks of the Tungabhadra river, there have been several serious pollution cases reported from the industrial zones. It has been repeatedly suggested and strongly emphasised that increasing use be made of pollution-free technology and water treatment technology. On a rough estimate, 50 tonnes of dust, grime and muck per kilometre settles down on each of our big cities every year. Diesel fumes further endanger health.

On the subject of noise pollution, it is stated that the day and night noise levels in Bombay is placed at 75 decibels, the highest being 105 decibels near the airport. Out of a population of nearly 9 million in Bombay, nearly 30 per cent are badly affected by noise.

The World Health Organisation (WHO) has selected Bombay as one of the five cities, among them being Toronto, Beijing and Zagreb, to conduct a study of air contamination. By monitoring on a continuous basis, data is being compiled to check the levels of pollution. It will determine the measure of environmental pollution on a group of selected individuals whether they be at home, in the trains, buses or cars, offices or factories on a round-the-clock basis. The Bombay project is being co-ordinated by the Air Pollution Preventive Cell of the BMC which monitors pollution at 21 sites in the city. WHO has made a grant of $40,000 for the project, mostly for equipment, and the BMC a matching sum.

Modern scientific research has revealed that physical and chemical agents in the environment where workers are employed can cause cancer.

Dr. R.J.C. Harris of the Imperial Cancer Research Fund, U.K., holds the view that 90 per cent of the cases of cancer can be attributed to environmental factors. His findings are an exposure of serious harm to the workers: (a) asbestos dust has often resulted in lung cancer; (b) the chromium-plating industry and allied industries have brought about nasal and bronchgenic carcinoma among workers; (c) arsenical insecticides and smelting operations have resulted in arsenic skin and lung cancer; (d) nickel refining is sometimes held responsible for nose and lung cancers and (e) the dyestuff industries have resulted in aromatic amines and bladder tumour. Special precautions are being taken to protect the workers' health in the developed countries. Though some precautionary measures are ensured in the Factories Act they have not been fully implemented, thus endangering the health of the workers.

The Indian Association of Occupational Health and the Indian Cancer Society have set up Commissions to examine and recommend precautionary and remedial measures.

Legislation has enabled the Government to take measures to control industrial effluents in Andhra Pradesh, Assam, Bihar, Gujarat, Haryana, Madhya Pradesh, the Punjab, Rajasthan, Uttar Pradesh and West Bengal.

DROUGHT

EVEN 100 years ago constant famine conditions stalked the land. The then British Government was forced to set up a commission in 1873 to draft a Famine Code which was officially formalised in 1883.

On an average the country receives 60.64 million cubic cms. of rain. But there is a variation in the seasonal and the annual distribution of rainfall. Some parts of Rajasthan get as low as 12.70 cms. of rain while the hills of Assam get as much as 1,270 cms. About 12 per cent of the country's area receives less than 61 cms. of rain on an average and only 8 per cent more than 254 cms.

Though the definition of drought varies widely, drought in India refers to a situation when the normal rainfall is 5 mm or less for the week. Agricultural drought is a period of four such consecutive weeks in the period from the middle of May to the middle of October or 6 such consecutive weeks during the rest of the year. Droughts have been occurring periodically largely due to the variability of the south-west monsoon from which 80 per cent of the annual rainfall is received during the period from June to September in most parts of the country. Not only a low rainfall but untimely distribution of fairly high rainfall can also lead to droughts. Approximate probability of deficient rainfall (deficiency equal to 25 per cent or more of the normal) is once in 4 to 5 years over large areas of the country.

In India, as many as 128 districts accounting for about 68 million hectares have low to medium rainfall under 1.125 mm. annually and these also have very limited irrigation facilities. Of these districts, 25 are characterised by very poor rainfall in the range of 375.750 mm. annually with an irrigated area of 5-10 per cent of the cropped area. Another 91 of these districts receive annual rainfall ranging from 750 to 1.125 mm. The total net sown area in these districts is 42 million hectares of which about 5 million hectares are irrigated. Agriculture in these dry farming areas is faced with the twin problems of low productivity and high instability. Since, by and large, drought regions have low water resources, they may have to depend on rainfed agriculture with its attendant risk of instability in years of bad monsoon.

The chronically-affected drought areas account for 19 per cent of the total geographical area of the country and 12 per cent of its population. With the exception of Kerala in the South, Punjab in the North and the States of North-Eastern region, every State in India has one or more drought-prone districts. Nearly 56 per cent of the geographical area of Rajasthan falls within the category of drought-prone areas; in terms of population the coverage is 33 per cent. Next to Rajasthan comes Andhra Pradesh, where about 50 per cent of the geographical area and 22 per cent of the population is within the ambit of the drought-prone areas. In Gujarat, about 29 per cent of the geographical area and about 18 per cent of the population are within the purview of the areas characterised as drought-prone. In Karnataka, the corresponding figures are 25 per cent and 22 per cent.

Maharashtra has had a succession of drought years in the recent past. In 1983, of the total 30 districts, 21 had been declared drought-stricken, the worst calamity of the decade. Over 22,000 villages were seriously affected by water scarcity which had affected both drinking water supply as well as irrigation. Crops had withered. Fodder shortage had affected cattle and there had been a steady migration of villagers into the urban areas nearby.

The State Government had spent Rs. 396.5 million in 2,940 villages, digging wells and bore-wells, between February and April, 1983. The Centre had sanctioned Rs. 116.3 million as assistance. The Employment Guarantee Scheme was the only ray of hope for the distressed and hard-hit villagers amidst the encircling gloom of those dark days.

These areas are the major factor contributing to regional imbalances in the country. Every third year, about 3 million inhabitants of arid zones take to migration with their livestock. These areas also remain a continuous source of strain on the financial resources of the country. The Irrigation Commission Report (1972) indicated the drought and chronic drought areas as follows:

(1) *Drought areas* (20 per cent probability of rainfall deficiency of more than 25 per cent of normal): Gujarat, Rajasthan and adjoining parts of Punjab, Haryana, West Uttar Pradesh and West Madhya Pradesh, Madhya Maharashtra, Interior Karnataka, Rayalaseema, South Telangana and parts of Tamil Nadu, a small portion of North-West Bihar and adjoining East Uttar Pradesh, and a small portion of North-East Bihar and the adjoining portion of West Bengal.

(2) *The chronically drought affected areas* (40 per cent probability of rainfall deficiency of more than 25 per cent of normal): West Rajasthan and Cutch.

The Drought-Prone Areas Programme (DPAP): Over the Plan period, several measures have been taken for the development of the drought-prone areas. These include: *(a)* development of irrigation; *(b)* formulation of schemes specifically designed to benefit the drought-prone-dry areas; *(c)* agricultural research specifically oriented towards the problems of the low rainfall areas; *(d)* scarcity relief which also helped in creating additional production potential and provision of services like drinking water supply; and *(e)* special programmes like Emergency Agricultural Production Programme.

The Drought-Prone Areas Programme (formerly known as the Rural Works Programme) which made a beginning in 1970-71 has been in operation in 54 districts primarily and contiguous areas of another 20 districts which have been identified as chronically drought prone. These districts have been identified only following criteria:

(i) incidence and pattern of rainfall; *(ii)* percentage of irrigated areas to the total area; and *(iii)* the frequency of drought over a period of time.

The districts covered under this Programme are as follows:

Andhra Pradesh: Anantapur; Kurnool; Cuddappah; Chittor; Mehboobnagar. **Bihar:** Monghyr; Palamau; Nawadah; Rohtas Dist. **Gujarat:** Panchmahals; Kutch; Jamnagar; Rajkot; Amreli; Banaskantha; Surendranagar. **Haryana:** Mohindergarh; Bhiwani; Rohtak. **Jammu & Kashmir:** Doda. **Karnataka:** Bijapur; Chitradurga; Kolar; Dharwar; Belgaum. **Madhya Pradesh:** Jhabua; Dhar; Sidhi; Betul. **Maharashtra:** Ahmednagar; Solapur; Nasik; Pune; Satara; Sangli. **Orissa:** Kalahandi, Boudh Phulbani. **Rajasthan:** Jaisalmer: Barmer: Pali; Jalore; Bikaner; Churu; Jodhpur; Banswara; Nagpur; Dungarpur. **Tamil Nadu:** Dharampuri; Ramanathapuram. **Uttar Pradesh:** Mirzapur; Banda; Allahabad; Varanasi; Hamirpur; Jalaun. **West Bengal:** Purulia; Midnapur; Bankura.

Contiguous areas selected under Drought Prone Areas Programme:

Andhra Pradesh: Ongole; Nalgonda. **Gujarat:** Mehsana; Ahmedabad; Bhavnagar. **Jammu & Kashmir:** Udhampur. **Karnataka:** Gulbarga; Raichur; Bellary; Tumkur; Chikmagalur. **Madhya Pradesh:** Khargaon; Shahdol. **Rajasthan:** Udaipur (Kharwara); Ajmer; Jhunjhunu.

Agricultural Research Oriented Towards Low Rainfall Areas: The All India Co-ordinated Research Project on dry land farming was introduced in 1970 in 15 centres and 9 sub-centres. Canadian assistance for this scheme was obtained under an Indo-Canadian agreement. This project provides research base for the integrated pilot dry land farming project. The Central Arid Zone Research Institute was also established at Jodhpur in 1959 and has been functioning as a focal point on research on agricultural problems of arid areas.

Loss due to drought in 1979: In 1979 drought had affected 97 districts in 11 States. The worst hit had been Andhra Pradesh, Bihar, Haryana, Himachal Pradesh, Jammu & Kashmir, Madhya Pradesh, Maharashtra, Orissa, Rajasthan, Uttar Pradesh and West Bengal. It is estimated that about 38 million hectares of cropped area, 200 million people and 123 million cattle were affected. The loss of *kharif* foodgrains alone is estimated to be over 10 million tonnes.

Reliefs: Nearly Rs. 1,569.5 million have been allocated for relief measures during 1979. Another sum of Rs. 1,100 million has been made available for development under various schemes. It has also been decided to import 20 drilling rigs to augment the supply of potable water in the drought-prone areas. Further one million tonnes of foodgrains have been earmarked for the affected States.

FLOODS

THE extremely severe floods in India in 1954 compelled the Government authorities to draw up a well-planned programme of flood control measures. Consequently, the National Flood Control Programme was launched in 1954 and divided into three phases: immediate, short-term and long-term. As an urgent step there was an intensive collection of data and emergency flood protection measures were executed.

Almost annually flood havoc has been particularly acute in the Ganga and Brahmaputra basins and the states most affected have been Bihar, Uttar Pradesh, West Bengal, Assam and Orissa. The Himalayan rivers cause as much as 60 per cent of the flood damage. It is estimated that flood control measures taken since the initiation of the Flood Control Programme in 1954 have afforded protection to about 12 million ha. till March, 1982.

The flood-prone river basins are: Sutlej, Beas, Ghaggar, Upper Yamuna and Yamuna (Sahibi), Upper Ganga, Gomti, Ghagra, Rapti, Gandak, Burhi Gandak, Bagmati, Kamla, Kosi, Mahananda, Sone, Punpun, Ajoy and Rupnarayan.

According to the recent assessment made, the flood-prone area in the country is of the order of 40 million ha. of which about 32 million ha. can be considered as protectable area.

The region traversed by the Himalayan rivers is also subject to earthquakes and land-slides, which make large areas flood-prone Growing frequency of floods in Andhra Pradesh, Maharashtra, Gujarat and Rajasthan is largely due to deforestation.

Flood Toll: As a result of floods in 1982, 1,321 people died in 16 states. Uttar Pradesh recorded the largest number of deaths (562) followed by Orissa (376) (including cyclones), Kerala (110), Madhya Pradesh (56), and Assam (44). The floods affected over 47 million people and 9.1 million ha. of cropped area. Besides 57.8 head of cattle perished and 2.84 million houses were damaged. The total loss amounted to Rs. 14,103 million.

Flood Control: Since the initiation of flood control programmes in 1954, considerable progress has been made in protecting areas from floods. The amount earmarked has also increased in successive Plans. During the Fourth Plan the outlay on Flood Control was Rs. 1,330 million. In the Fifth Plan it rose to Rs. 3,453 million. In the Sixth Plan (1980-85) it is Rs. 10.51 million.

With the outlay now proposed in the Sixth Plan, it is assessed that an area of about 3 million ha. is likely to be afforded a reasonable degree of production.

Progress Summary: To summarise the progress of the various flood control schemes since the launching of the National Flood Control Plan in 1954 to the end of March 1982 protective measures have covered 12 million ha. out of the estimated total of 40 million hectares regarded as flood prone. These measures comprised the following 12,652 km of embankment, 25,085 km of drainage channel, 313 town protection schemes (this includes some important villages) and raising of 4,696 villages, above flood level.

Damages by Flood during 1982

State/Union Territory	Area affected (in million hectares)	Population affected (in million)	Human lives lost in nos.
1	2	3	4
1. Andhra Pradesh	0.04	0.04	22
2. Assam	6.9	1.4	44
3. Bihar	0.9	1.7	25

1979	6142	(1700)
1980	8389	(3663)
1981	11323	(4980)
1982	14103	(4851)

Gauging Stations: The Central Water Commission is maintaining about 420 key gauging stations on various rivers of the country (excluding the Indus System) to WMO standards to collect accurate and reliable data of river flows for a scientific study of the country's surface water potential. These national stations are supplemental to observations that are being made by various States. There are plans to augment the national network.

Surface Water Resources: According to the studies made by CW & PC in 1949, the total annual flow of all the river systems in India comes to 1,672,599 m.cu.m. (1,356 million acre feet). As presently assessed the mean annual surface flow of the country is of the order of 1,768,058 m.cu.m. (1,433.40 million acre feet). Scientific observations for various river systems are underway to assess the firm water potential of the country. Slightly more than one-third of Water Resources (that is about 666,000 m.cu.m. or 540 million acre feet) available in the country are utilisable for various purposes in the conventional methods of development. However, this could be enhanced by inter-basin mass transfer of waters through long distances by construction of large storages, canals and pumping systems etc., for irrigation and to achieve flood control and generate hydel power etc. Plans are in hand to take up investigations and studies at the national level to prepare concrete proposals.

INDUSTRIAL POLICY

(See Late Particulars for Latest Assessment following Budget)

AFTER Independence the Government of India first outlined the industrial policy in 1948. It envisaged a mixed economy retaining the overall responsibility for planned development of industries and their regulation in its own hands, keeping in mind national interest. In 1954 with Parliament's acceptance of socialistic pattern of society, the industrial policy was revised. Industries specified in Schedule A (listed below) would be the exclusive responsibility of the State while industries in Schedule B would be progressively State-owned. But private enterprise was given scope to supplement the efforts of the Government.

Schedule A Industries: Arms and ammunition and allied items of defence equipment; atomic energy; iron and steel, heavy castings and forgings of iron and steel; heavy plant and machinery required for iron and steel production, for mining, for machine tool manufacture and for such other basic industries as may be specified by the central government; heavy electrical plant including large hydraulic and steam turbines; coal and lignite; mineral oils; mining of iron ore, manganese ore, chrome ore, gypsum, sulphur, gold and diamonds; mining and processing of copper, lead, zinc, molybdenum and wolfram; minerals specified in the Schedule to the Atomic Energy (Control of Production and Use) Order 1953; aircraft; air transport; railway transport; ship-building; telephones and telephone cables, telegraph and wireless apparatus (excluding radio receiving sets); generation and distribution of electricity.

Schedule B Industries: All other minerals except 'minor minerals' as defined in Section 3 of the Minerals Concession Rules, 1949; aluminium and other non-ferrous metals not included in Schedule A; machine tools; ferro-alloy and tool steel; basic and intermediate products required by chemical industries, such as the manufacture of drugs, dyestuffs and plastics, antibiotics and other essential drugs; fertilizer; synthetic rubber; carbonisation of coal; chemical pulp; road transport and sea transport.

ARECANUT INDUSTRY

THE Arecanut *(Areca catechu)* is one of the most important commercial crops in India and plays an important role in religious, social and cultural life. It came to India from Malaya, its original home. There are extensive plantations in southern Asian countries and east Indian Islands. India has many varieties of betelnuts (processed arecanut) which can be broadly classified into unboiled, boiled and coloured varieties.

LOCATION OF THE INDUSTRY

Kerala, Karnataka and Assam account for nearly 90 per cent of the total area and production. It is also cultivated to a smaller extent in Meghalaya, West Bengal, Tamil Nadu, Maharashtra, Andhra Pradesh, Goa and Andaman and Nicobar Islands. The state-wise break-up of the area under arecanut cultivation is given below:

Area under cultivation

(In thousand hectares)

		1978-79	1979-80	1980-81
Kerala	..	62.4	60.9	60.9
Karnataka	..	52.3	53.1	54.3
Assam	..	46.4	50.8	50.8
Meghalaya	..	6.5	6.5	6.5
Tamil Nadu	..	4.2	4.3	4.3
West Bengal	..	3.1	3.1	3.1
Maharashtra	..	2.1	2.1	2.1
Goa, Daman & Diu	..	1.4	1.4	1.4
Andhra Pradesh	..	0.2	0.2	0.2
Tripura	..	0.6	0.6	0.6
Mizoram	..	—	0.3	0.3
Total		179.2	183.3	184.5

Number of persons employed: About six million.

Ranking in the World Market: India ranks first in the world both in the area and production of arecanut. Other arecanut-producing countries are: Bangladesh, Sri Lanka, Malaysia and certain Pacific Ocean Islands.

CONSUMPTION

National consumption for the last four years: 1977-78: 170,278 tonnes; 1978-79: 178,587 tonnes; 1979-80: 182,681 tonnes; 1980-81: 183,900 tonnes.

The per capita consumption of betelnut in India is estimated at 0.33 kg. In Kerala it is 0.67 kg. and in Karnataka 0.66 kg. Among the cities, Delhi and Nagpur are the most important consuming markets.

EXPORTS

Arecanut is exported in small quantities to countries like Nepal, Kenya, Aden, Saudi Arabia etc.

The quantity exported 1977-78, 522 tonnes valued at Rs. 6.81 million; during 1978-79, 613 tonnes valued at Rs. 8.11 million; during 1979-80, 619 tonnes valued at Rs. 8.24 million and during 1980-81, 370 tonnes valued at Rs. 7.37 million.

PRODUCTION

The state-wise break-up is as follows:

(In '000 tonnes)

		1978-79	1979-80	1980-81
Kerala	..	52.2	53.2	53.2
Karnataka	..	76.2	77.2	79.2
Assam	..	44.5	48.8	49.8
Maharashtra	..	2.5	2.6	2.5
Tamil Nadu	..	2.9	3.0	3.0
Goa, Daman & Diu	..	1.3	1.3	1.3
West Bengal	..	0.8	0.8	0.8
Meghalaya	..	0.9	0.9	0.9
Andhra Pradesh	..	0.2	0.2	0.2
Tripura	..	0.4	0.4	0.4
Mizoram	..	—	0.1	0.1
Total	..	181.9	189.5	191.4

GENERAL

Average per hectare yield: 1,037 kgs. of processed nuts.

RESEARCH

A new high yielding variety '*Mangala*' has been released from the *Central Plantation Crops Research Institute's* Regional Station at Vittal, South Kanara for cultivation. This variety, an introduction from China, gives 70 per cent more yield than that of the best local ones, besides being an early bearer.

Pilot trials conducted have shown that fat, alcohol, etc. can be extracted and products like chewing gum, tooth paste etc. can be prepared from arecanut kernel. The liquid obtained while boiling tender nuts ('Kali') can be utilised for tanning leather Hard board, wrapping paper, cushioning materials etc. can be made out of arecanut husk. Arecanut leaf-sheath can be used for making gin washers, packing cases, soles and heels in shoe making etc. Arecanut husk is also an excellent poultry litter.

Considering the present trend in production, internal consumption and export no further expansion of area is contemplated for the crop. However, attention is given for increasing returns from the existing plantations by adopting intensive cultivation and inter and mixed cropping practices.

The Directorate of Cocoa, Arecanut and Spices Development of the Department of Agriculture and Co-operation, Government of India, is situated at 1/500, Cannanore Road, Calicut 673005, Kerala.

Marketing: Besides the *Central Arecanut Marketing and Processing Co-operative Ltd., Mangalore* an inter-state organisation set up for procurement and marketing of the crops, there are 17 co-operative marketing societies and 37 regulated markets in Kerala, Karnataka, Tamil Nadu, Maharashtra and Goa for better marketing of the commodity.

Publications: 1. Indian Cocoa, Arecanut and Spices Journal (Quarterly) brought out by the Directorate of Cocoa, Arecanut and Spices Development, Calicut-673005, Kerala. 2. Journal of Plantation Crops (Half Yearly) brought out by Indian Society for Plantation Crops, Central Plantation Crops Research Institute, Kasaragod-670124.

COCONUT

THE Coconut palm *(Cocos nucifera)* is famed as one of the world's most important crop trees. It can grow to 100 feet. Its earliest home is not known, but is said to have originated in Indo-Malaya where it found natural habitation. Marco Polo was among the earliest Europeans to have written about it. It grows largely in the Philippines, India, Sri Lanka, Indonesia, Malaysia and the Pacific Islands.

The Coconut finds its greatest commercial utilisation in industrial countries of the West. Such is its utility that the Indonesians say that it has as many uses as there are days in the year. In India the coconut forms an important item of food and is also used during religious functions.

India ranks third in the world in the production of coconuts and contributes about 10 per cent of the world production.

During 1980-81, India produced 5,677.4 million nuts on 1.08 million hectares with Kerala alone producing 3,036.4 million coconuts. Tamil Nadu was the second highest with 1,132.4 million followed by Karnataka 883.8 million and Andhra Pradesh 175.2 million.

The Centre set up the Coconut Development Board on January 12, 1981 to promote intensive coconut development in States. The Board has formulated several projects with an estimated outlay of Rs. 50 million and has set up a regional office in Karnataka.

Under the Centrally Sponsored Package Programme up to November, 1981 an area of 0.12 million hectares had been covered, 3,600 demonstration plots were laid out, 90,000 hybrid seedlings were distributed and 360 hectares were covered under seed gardens.

Research: The Central Plantation Crops Research Institute (CPCRI), Kasargod, Kerala, has collected 2,500 nuts belonging to 21 'tall' and 3 'dwarf' types to enrich the germplasm.

During 1982 a manually operated coconut dehusker was developed which is capable of dehusking 3,000 nuts by three operators within a short time.

Coconut oil: Coconut is one of the important oilseeds produced in the country. The most valuable product of the coconut is copra from which the oil is obtained. During 1981-82 the production of copra was 371,000 tonnes.

COIR

THE history of coir goes back to the 11th century A.D. when Arab writers mentioned the word coir and referred to the use of this material for ships, cables and rigging. The word coir is derived from the Malayalam word 'kayar', meaning cord.

It was in England that coir was first put to practical use. About 125 years ago three partners of a London carpet firm registered their patents for the manufacture of coir fabrics suitable for floor coverings.

The development of the coir industry in India began in 1859.

LOCATION OF THE INDUSTRY

It is one of the foremost cottage industries in Kerala employing lakhs of people in all the different processes such as retting of coconut husk, extraction of fibre, spinning of yarn, and manufacture of coir products. Rich with backwaters the facilities for retting of husks are abundant there. While spinning activities extend over the length of the coastal belt of Kerala State, the manufacturing sector is localised mostly in Alleppey, Shertallai and suburbs.

Tamil Nadu and Karnataka are the other major producers of coir in India. In Tamil Nadu the industry is concentrated in Kanyakumari, Salem and Dharmapuri districts. Recently extraction of coir fibre by mechanical process has accelerated the growth of the industry in Tanjore district also. Kanyakumari district is the chief centre of production of *muppiri* coir yarn and Salem and Dharmapuri of coir rope.

In Karnataka a number of units are in operation for the mechanical extraction of fibre, besides two rubberised coir producing units. In West Bengal, production of coir rope is carried on power operated machines. A rubberised coir producing unit is also in existence in this State. In Orissa there is a rubberised coir producing unit and a few defibering units. A few coir producing units are also in existence in other coconut producing States, viz. Andhra Pradesh, Gujarat, Maharashtra, etc.

State-wise breakup of industrial establishments engaged in the production of coir products, viz. coir mats, mattings, rugs, and carpets etc., as per the records available with the Coir Board, is given below:

Kerala 3,704; Karnataka 57; West Bengal 15; Maharashtra 6; Haryana 1; Orissa 6; Gujarat 4; Uttar Pradesh 1; Pondicherry 2; Goa 8; Lakshadweep 1; Tamil Nadu 116; Andhra Pradesh 11; Total 3,932.

No. of persons employed: About 450,000.

Ranking in the world market: The total volume of coir entering the world trade is about 146,200 tonnes. Raw fibre alone accounts for 95,100 tonnes while coir yarn and processed coir goods account for only 51,100 tonnes. India's share is as follows: Coir yarn 90 per cent, coir manufactures 59 per cent, coir cordages and ropes 95 per cent.

PRODUCTION AND CONSUMPTION

India and Sri Lanka are the only two countries where widespread commercial production is undertaken even though coconuts are grown in abundance elsewhere.

Estimated annual output of coir in principal producing countries is as follows:

Country	Thousand tonnes
India	170.4
Sri Lanka	102.9
Tanzania	8.5
Bangladesh	5.8
Thailand	4.0
Philippines	2.5
Burma	2.2
Kenya	2.0
Seychelles	1.9
Malaysia	1.5
Mozambique	1.0
Morocco	0.5
Total	291.6

EXPORT OF COIR AND COIR PRODUCTS

Commodity	1980-81		1981-82	
	Q	V	Q	V
Coir fibre	164	0.57	1	N.A.
Coir yarn	13,486	87.31	15,837	104.82
Coir mats	7,403	82.33	8,143	92.06
Coir matting & rugs and carpets	7,330	84.33	5,980	71.85
Coir rope	79	0.47	93	0.59
Curled coir	148	0.44	25	0.06
Rubberised coir goods	1	0.02	—	—
Total	28,611	255.47	30,079	269.38

Q—quantity in tonnes. V—value in Rs. Million.

Of the estimated production of coir fibre at 158,800 tonnes during 1980-81 white fibre (retted fibre) accounted for 126,500 tonnes and brown fibre (unretted fibre) accounted for 32,300 tonnes.

The All-India estimated production during 1981-82 of coir and coir products of different types is: Coir fibre: 170,400 tonnes; coir yarn: 122,900; coir products: 23,400 tonnes; coir ropes: 35,690 tonnes; curled coir: 2,500 tonnes; rubberised coir goods: 1,500 tonnes.

CONSUMPTION OF COIR AND COIR GOODS

Commodity	Quantity in tonnes
Coir fibre (a) white	2,700
(b) brown	10,000
Coir yarn	59,960
Coir products	9,280
Coir ropes	35.600
Curled coir	2.475
Rubberised coir goods	1,500
Total	121,515

GENERAL

Coir Board (Address: Post Box No. 1752, Ernakulam south, Cochin-682016) established in 1951, assists the development, manufacture, sale, export and technological research.

Training and Research: The Central Coir Research Institute in Kalavoor, Alleppey, Kerala carries out fundamental and applied research to improve existing products and find new uses of coir.

The Board has also set up a **National Coir Training and Design Centre** at Alleppey to impart training in techniques of coir production. An extension service covering coir extraction, processing and manufacture especially spinning, dyeing and weaving was also started. Besides Kerala Coir Boards Extension Service Centres are functioning in Karnataka, Tamil Nadu, Orissa, Andhra Pradesh and Lakshadweep.

Ten large exporters and their items of export (in brackets): (1) M/s. Kerala Balers Ltd., P. B. No. 23, Alleppey 688001 (Coir Yarn and Coir Products); (2) M/s. Alleppey Co. Ltd., P. B. No. 3, Alleppey 688001 (Coir Yarn and Coir Products); (3) M/s. Travancore Mats & Matting Co., P. B. No. 4, Shertallai 688524 (Coir Products); (4) M/s. William Goodacre & Sons (I) Ltd., P. B. No. 6, Alleppey 688001 (Coir Fibre, Coir Yarn, Coir Products & Coir Rope); (5) M/s. Palm Fibres & Yarns Trading Co., Calvetty, Cochin 682001 (Coir Yarn & Coir Products); (6) M/s. N. C. John & Sons Ltd., Alleppey 688001 (Coir Yarn); (7) M/s. Charankattu Coir Manufacturing Co. Ltd., P.B. No. 7, Shertallai 688524 (Coir Products & Coir Yarn); (8) M/s. Kerala State Coir Corporation, P. B. No. 199, Alleppey 688001 (Coir Products & Coir Yarn); (9) M/s. General Export Co., P. B. No. 199, Alleppey 688001 (Coir Yarn); (10) M/s. Indian Coir Manufacturing Co., Vizichery, Alleppey 688001 (Coir Products & Coir Yarn); (11) M/s. Koncherry Coir Factories, Shertallai (Coir Products); (12) M/s. Brothers Coir Mills, Alleppey (Coir Products); (13) M/s. Coir Floor Furnishing Co., Alleppey (Coir Products); (14) M/s. Aspinwall & Co. (Travancore) Ltd., Alleppey (Coir Products); (15) M/s. K. V. Thomas & Co., Alleppey (Coir Products); (16) M/s. General Supplies Agency, Alleppey (Coir Products).

Publications: Coir half-yearly, Coir News, Monthly Bulletin of Exports of Coir and Coir Products and the annual brochure India's Production, Export and Internal Consumption of Coir are all published by the Coir Board.

CASHEW-NUT

TROPICAL Central and South America is said to be the original home of the Cashew tree *(Anacardium occidentale)*. It was discovered during the 15th century by Portuguese missionaries who took it to East Africa and India. The first saplings were planted by them on the West Coast of India during the sixteenth-seventeenth centuries to check soil erosion. Finding a congenial home it grew extensively and is known as 'Feringi Mango' (Feringi meaning Portuguese).

Despite its early introduction the commercial value of the cashew-nut was discovered only in the 1920s when some enterprising processors sent the nut abroad. There was an immediate demand for the cashew kernel in raw or roasted form, which marked the beginning of the cashew industry.

Tropical or sub-tropical evergreen ranges in size from a small shrub in dry soil to 40-feet tree where the soil is fertile and there is great humidity.

The cashew "apple" when ripe, is juicy and sweet and rich in vitamin C. The juice is used in the preparation of syrup, squash, jam, candy and wine.

The cashew-nut shell liquid is a brown viscous oil and is an important raw material in the manufacture of insulating varnishes, paints, typewriter rolls, oil and acid proof cold setting cements, industrial flooring tiles, automobile brakelinings and also in the plastic industry.

Area under Cashew: The total area under cashew in India is increased from 447,376 hectares in 1979-80 to 464,465 hectares in 1980-81 which has further increased to 481,043 in 1982-83.

A World Bank-aided multi-state cashew project with an outlay of Rs. 383.6 million is in operation in Kerala, Karnataka, Andhra Pradesh and Orissa. An area of 60,275 hectares is expected to be brought under new plantations under this project. Similar projects for States of Maharashtra, Tamil Nadu, Tripura, West Bengal and the Union Territory of Goa are envisaged. In the tribal areas of Orissa and Andhra Pradesh a programme for providing subsidy for expansion has been undertaken and an area of 57,229 hectares has been brought under improved management.

LOCATION OF THE INDUSTRY

Out of about 300 processing factories in the country about 200 are in Kerala State and the others in Tamil Nadu, Karnataka, Andhra Pradesh and Maharashtra.

Public Sector: The Kerala State Cashew Development Corpn. Ltd., Quilon, opened its first factory in July, 1970 by taking over a factory owned privately. By the end of 1974, the number of factories taken over increased to 34.

Ranking in the World Market: India now accounts only for about 40 to 45 per cent of the world export of cashew kernels. Dwindling indigenous production of raw nuts and the gradual development of the processing industry in African countries are the two main reasons for this low position.

PRODUCTION

The production of rawnut also increased from 180,266 million tonnes in 1979-80 to 185,250 million tonnes in 1980-81 which has further increased to 195,760 million tonnes in 1981-82.

During the year 1982-83 the production of rawnuts is estimated at 0.2 million tonnes.

IMPORTS

The domestic supply of raw nuts is inadequate to meet the total requirements of the processing factories. The imports of raw nuts have also dwindled considerably in recent years. The imports of raw nuts which had been canalised through the Cashew Corporation of India Ltd., a subsidiary of the State Trading Corporation, have been brought under OGL in 1981-82. This facilitated free imports of raw nuts by Actual Users against licences subject to the condition that 50 per cent of the nuts so imported should be given to the Cashew Corporation of India Ltd., for distribution to all eligible cashew-nut processing factories.

Imports of raw cashew-nuts from Tanzania, Kenya and Madagascar during 1981-82 amounted to 28,582 tonnes valued at Rs. 362.24 million.

Cashew Corporation of India Ltd., Post Box 1216, M. Gandhi Road, Cochin 682011.

Export of Cashew Kernels: India had the monopoly in the export of processed cashew kernels until Mozambique, Tanzania and Kenya set up their own units and started processing more and more of local production of raw cashew-nuts and exporting processed kernels abroad.

Cashew kernel exports during 1982-83 fetched Rs. 1,323 million, a decline of 29 per cent for the earnings in 1981-82. Quantity-wise exports were less by about 4 per cent.

Export Duty: There is one per cent ad valorem cess on exports of cashew kernels. The tariff value for cashew kernels fixed for the purpose for the year 1982-83 (July-June) was Rs. 3,000 per quintal.

The Cashew Export Promotion Council (Chittoor Rd., Ernakulam South, Cochin 682016, Kerala) was set up in 1955.

GENERAL:

Research: At least ten hybrids and over a score of improved selections are now available which have a potential to yield 10 to 15 kgs. of nuts per plant in a year, against the present average yield of only about 1.5 kgs. Vengurla 3 and Vengurla 4 hybrid cashew varieties released last year have given an average yield of about 16.6 kgs. per tree. During 1982-83, four high-yielding selections and two hybrids were developed and released in Andhra Pradesh as Bapatla 1,2,3,4,5 and 6 at the Cashew Research Station, Bapatla.

According to the study made by GATT, a good average crop from a mature plantation tree is around 10 kgs. in East Africa and 50 kgs. in India.

In Africa, the average yield of kernels is about 21 to 24 per cent of raw nut weight, while in India it is slightly higher. Indian processors claim to be able to get upto 80-90 per cent whole kernels, while the mechanical processing plants in Africa record upto 65 per cent.

The labour intensive technology in the cashew industry in Kerala in which the operations are done manually, accounts for the investment per worker being as low as about Rs. 300. Over 90 per cent of the workers are women.

Publications: 'Cashew Causerie' (quarterly), C/o Directorate of Cashewnut Development, New Delhi; 'Cashew Bulletin' (monthly) and 'Indian Cashew Journal' (quarterly), C/o Cashew Export Promotion Council, Chittoor Rd., Ernakulam South, Cochin 682016.

RUBBER

RUBBER is a unique natural product with the quality of elasticity and is one of the vital industrial raw materials. Obtained from the milky juice of certain tropical plants the most popular variety used commercially is called Hevea Brasiliensis (known as Para rubber) which accounts for over 95 per cent of the world production of natural rubber.

Columbus is credited with the introduction of natural rubber into the modern world. During his second voyage to America in 1493 he came across natives of Haiti playing with balls having elastic qualities and were made from exudation of certain trees called *caucho*—meaning weeping trees.

In the initial stage the use of rubber was limited to a form of solution used as rubber-proofing of fabrics. The commercial importance of rubber increased with the discovery of vulcanising process evolved by Charles Goodyear in 1839. The invention of the pneumatic bicycle tyre by Dunlop in 1888 gave a boost to production. The industry gathered momentum with the dawn of the automobile age by the end of last century.

With mounting demand for natural rubber, rubber plantations received intensive attention. The first plantation in the eastern hemisphere was started in Sri Lanka and later in the South-East Asian countries. Today Asia is the main producer of natural rubber with Malaysia alone accounting for 50 per cent of the total world production of 3.4 million tons.

In India the first plantations were started in Kerala in Travancore and Malabar around 1880 and later in the Andaman and Nicobar Islands.

With the development of synthetic rubber industry in the U.S. in 1942 use of natural rubber took a new leap. Today synthetic rubber accounts for 70 per cent of the total rubber consumption in the world. Great strides were also made in the latex goods like balloons and toys during World War II.

The synthetic rubber industry was started in India with the commissioning of the factory of Synthetics and Chemicals Ltd., at Bareilly in U.P., followed by a second plant, The Indian Petrochemicals Ltd., in Vadodara.

The first rubber goods industry in India was set up in 1920 at Calcutta and it produced cables and the first automotive tyre factory was established in Shahaganj, West Bengal, in 1936 by Dunlops which was later followed up by Firestone in Bombay.

Today rubber fills a variety of needs in defence equipment like heavy transport vehicles, tanks, fighters and bomber planes and rockets. Rubber parts for automobiles, engineering equipment, medical and surgical goods, hose pipes, footwear, sports materials, adhesives, cable insulation material are some other utility products of daily use.

Apart from the tyre industry which is the bulk consumer of 55-60 per cent of rubber produce and conveyor belts most other products are made by the small-scale sector.

Recently, the elastic quality of rubber has been put to experiment in the construction of dams and buildings.

No. of persons employed: More than 170,000.

Ranking in the world market: India is the fifth largest natural rubber producing country in the world after Malaysia, Indonesia, Thailand and Sri Lanka.

Location of Rubber Plantations: Kerala State accounts for about 91 per cent of the total area under rubber and the Kanyakumari District in Tamil Nadu for about 5 per cent with Karnataka, Andaman and Nicobar Islands, Goa, Maharashtra and the North Eastern States contributing the rest. Table I gives a pattern of hectareage under rubber in 1980-81.

TABLE 1
Pattern of hectareage under rubber

Group size	No. of units	Area in hectares
A. Small Holdings		
2 hectares and below	136,733	98,146
Above 2 & up to 4	11,424	30,140
Above 4	6,289	46,373

1979-80	148470	29524	26786	204780	165245	42488	25660	233393
1980-81	153100	25293	29336	207729	173630	45200	26850	245680
1981-82	152870	28499	28787	210156	188420	46445	28160	263025

Production and Consumption: Production of natural rubber which was 146,987 tonnes in 1977-78, fell to 135,297 tonnes in 1978-79. The production level of natural rubber rose to 148,470 tonnes in 1979-80, further to 153,100 tonnes in 1980-81. Production declined marginally in 1981-82 to 152,870 tonnes. Consumption of natural rubber went up from 144,967 tonnes in 1977-78, to 164,524 tonnes in 1978-79 and further to 165,245 tonnes in 1979-80. The total consumption in 1980-81 was 173,630 tonnes which increased to 188,420 tonnes in 1981-82. Table II gives the trend in production and consumption since 1977-78.

Per Capita Consumption: In 1981 the per capita consumption of rubber in the U.S. was 11.6 kgs., Canada 12.0 kgs., Germany (FR) 9.2 kgs., U.K. 6.1 kgs., France 8.5 kgs., Australia 6.7 kgs., Italy 6.8 kgs. and Japan 10.9 kgs. In India, per capita consumption is as low as 0.33 kg.

The average yield per hectare in Indian plantation which was 770 kgs. in 1977-78 fell to 710 kgs. in 1978-79. In 1979-80 the yield was 770 kgs. per hectare. The yield was estimated at 790 kgs. per hectare in 1980-81 and 780 kgs. in 1981-82.

Imports: As a result of the steady increase in consumption and fall in production, export of rubber was stopped and imports allowed from 1978-79 onwards. The quantity of natural rubber import was 14,750 tonnes in 1978-79 and 32.200 tonnes in 1979-80. During 1980-81 the imports of natural and synthetic rubber were 9,250 and 15,806 tonnes respectively. The imports are effected through STC. Besides natural rubber the industry is allowed to import synthetic rubber directly. The trend in imports of natural rubber and synthetic rubber, since 1978-79 are given in Table IV.

Rubber Goods: The total number of rubber goods manufacturing units in India is around 3.021, of which over 100 units are fairly well organised. The annual turnover of the industry is over Rs. 7,500 million and the number of persons employed over 100,000.

The industry's contribution to national income is expected to exceed Rs. 25,000 million per year during the next ten years creating additional employment to 20,000 people.

The industry is spread almost all over the country, though heavily concentrated in the States of West Bengal, Maharashtra and Tamil Nadu. With the exception of Haryana, Uttar Pradesh and Kerala, the industry has made comparatively little progress in other States. Natural and synthetic rubbers are the basic raw materials. Other important raw materials include carbon black, rubber chemicals, reclaim rubber, tyre fabrics (nylon/rayon/cotton), bead wire, tyre tube valves and miscellaneous chemicals. The automotive tyres and tubes industry constitutes the largest sector of the rubber goods manufacturing industry. About 52 per cent of the rubber consumed in the country is used by the automotive tyres and tubes industry including camelback. Cycle tyres and tubes account for about 14 per cent consumption, footwear about 11 per cent, belts and hoses about 6 per cent and the balance is accounted for by other products.

Exports of Rubber Goods: There has been a steady decline in the value of rubber goods exports in recent years. From Rs. 273.6 million in 1976-77 the value of rubber goods exports fell to Rs. 270.9 million in 1977-78 and to Rs. 222.8 million in 1978-79. In 1979-80 the value of rubber goods exports totalled Rs. 228.3 million. The situation improved in 1980-81 with value of exports increasing to Rs. 302.3 million and further to Rs. 403 million in 1981-82.

Synthetic Rubber: Production of synthetic rubber was started in India in 1963 when the factory of Synthetic & Chemicals Ltd., at Bareilly (U.P.) started producing synthetic rubber. Built with an initial rated capacity of 30,000 tonnes per annum, the varieties of rubber produced by this factory are styrene butadiene rubber and nitrile rubber called Chemaprene. Another synthetic rubber factory with a licensed capacity of 20,000 tonnes of poly-butadiene rubber has been established recently by Indian Petro-Chemicals Corpn. at Vadodara (Gujarat) and commenced production in 1978. The trend in production, consumption and import of synthetic rubbers since 1977-78 is given in Table II & IV. The consumption of synthetic rubber is about 20 per cent of total rubber consumption. The tyre industry uses more than 60 per cent of the total synthetic rubber output.

Rubber Development Schemes: The Rubber Board is implementing various schemes for the development of rubber plantations in India. These include grant of subsidy for replantation, grant of loans and aids for new planting and maintenance of small holdings, distribution of high yielding varieties of planting materials, grant of subsidy on the cost of fungicides and fertilisers used by the small holders, grant of subsidy for construction of smoke-houses by small holders, distribution of plant protection equipments, grant of financial assistance to

co-operative societies for establishing processing centres and undertaking marketing of rubber. The Board also operates an extension and advisory service among rubber growers. Labour welfare measures also form part of the work of the Board.

In 1977 an agreement was signed by the Govt. of India and the World Bank which provided for financial and technical assistance to establish 9 block rubber processing factories in the co-operative sector and expansion of the existing factory in the sector. The project is to be implemented in a phased manner and is to be completed by 1985.

Rubber Board: With Headquarters at Kottayam-686001, Kerala, it looks after development of the industry.

Research: The **Rubber Research Institute** established by the Board has five divisions namely, botany, agronomy, plant pathology, chemistry/rubber technology and plant physiology and exploitation.

The facilities at the Rubber Research Institute have been made available to the Cochin University to conduct a two-year post-graduate course in Rubber Processing and Technology leading to a B-Tech degree. The Institute maintains two experimental stations of 20 hectares and 250 hectares each.

Publications: The following are the publications of the Rubber Board: 'Rubber' (Monthly), 'Rubber Statistical News' (Monthly), 'Rubber Board Bulletin' (Quarterly), 'Indian Rubber Statistics' (Annual).

LAC

LAC is a natural resin—a zoo botanical product from secretions by tiny insects known scientifically as Laccifer. Lacca. This insect, about 0.5 mm. long, belonging to the family of scale insects and mealy-bugs is a parasite thriving on the sap of certain specific trees, shrubs and creepers called the 'lac hosts'. These are Palas (Butea frondosa), Kusum (Schleichera trijuga), Ber (Zizyphus jujuba), Khair (Acacia catechu), Gout (Zizyphus xylopyra) and Arhar (Cajanus indicus).

The name lac might have been derived from the Sanskrit word 'Laksha', implying myriads of lac insects—about 20.000—working on an average to form a pound of stick lac in a single lac encrustation. References to lac in the *Atharva Veda* and the *Mahabharata* indicate that ancient Hindus were also aware of lac and its uses.

Originally used as a dye, later scientific research gave it a greater importance after shellac was developed.

Lac has an important place in the Indian economy for three reasons—export value, its various uses in different industries and subsidiary income to the tribal people working on it.

There are four crops of lac named after the Hindu months in which the collection of each crop commences. These are 'Baisakhi' and 'Katki' from one strain of the insect (Rangeeni) and 'Jethwi' and 'Aghani' from another strain (Kusmi). Each Rangeeni female produces 0.003 g. of somewhat dark lac, while each Kusmi female makes about 0.07 g. of a more valuable light-coloured lac.

LOCATION OF THE INDUSTRY

The lac factories are located in the following five States with the number of units in brackets: Bihar(83), West Bengal (87), Madhya Pradesh (16), Maharashtra (6) and Uttar Pradesh (6). (Total 198 units). About 40% of the country's total lac is produced in Bihar, the main centre being Chota Nagpur.

No. of Persons Employed: Bihar: 1,979; West Bengal: 2,209; Madhya Pradesh: 127; Maharashtra: 103; Uttar Pradesh: 95. (Total: 4,513).

In addition about 4 to 5 million *Adivasis* are gainfully employed in the rearing and collection of lac from forests.

PRODUCTION

The lac insect is found in most of the near and far eastern countries but is commercially exploited only by India and Thailand. India's share in world production is about 50 per cent and Thailand's more than 40 per cent.

The all-India production of lac over the last four years (in tonnes) was as follows: 1979-80: 15,253; 1980-81: 20,481; 1981-82: 21,465; 1982-83: 13,420.

The final report issued by the Directorate of Lac Development, Ranchi, puts the total yield of the respective lac crops for the years 1981-82 and 1982-83 as follows:

(In tonnes)

	1981-82	1982-83
Baisakhi	15,350	10,150
Jethwi	1,320	800
Katki	2,020	1,520
Kusmi	2,775	950

Bihar had the highest production of 15,510 tonnes in 1981-82 followed by Uttar Pradesh 450, Madhya Pradesh 2,560 and West Bengal 2,357 tonnes. In 1982-83 the corresponding figures were 9,657,550, 2,270 and 523 tonnes, respectively.

CONSUMPTION

India's consumption (in tonnes) over the last three years was as follows: 1980-81: 967; 1981-82: 1.218; 1982-83: N.A.

IMPORTS

Imports of lac over the last few years are given below:

Year	Quantity in quintals	Value in Rupees
1974-75	4,578.1	5,953,607
1975-76	nil	nil
1976-77	95	34,446
1977-78	nil	nil
1978-79	nil	nil
1979-80	nil	nil
1980-81	nil	nil
1981-82	nil	nil
1982-83	120,000	n.a.

EXPORTS

Export earnings from lac increased by 25% during 1981-82. Against Rs. 125 million in 1980-81, exports during 1981-82 went up to Rs. 156.6 million, the increase being attributed to the spurt in the export of shellac. The first recorded export of Indian lac to Europe was as early as 1607.

Indian lac being indisputably the best in quality is sold to over 100 countries. Over 85-90 per cent of the total production is exported. The largest buyers are China, U.S.A., U.S.S.R., and U.K. The export figures are as follows:

(In tonnes)

	1980-81	1981-82	1982-83
China	275.0	418.0	108.0
U.S.A.	2,981.0	3,801.0	983.0
U.K.	702.0	861.0	504.0
U.S.S.R.	600.0	125.0	325.0
West Germany	1,496.0	1,324.0	1,237.0
Brazil	240.0	268.0	331.0
Italy	165.0	298.0	110.0
Australia	111.0	163.0	66.0
Japan	498.0	165.0	48.0
France	33.0	30.0	44.0
Other Countries	3,217.0	3,248.0	3,246.0
Total	10,318.0	10,701.0	7,002.0

Shellac Export Promotion Council with headquarters at 14/1B Ezra St., Calcutta 700001.

GENERAL

For the development and marketing of lac, a **Directorate of Lac Development** has been created under the Department of Agriculture, Government of India with headquarters at Circular Road, Ranchi 834001, Bihar. The Government of India has also constituted the **Indian Lac Development Council** to advise it on all matters relating to development of lac cultivation, trade and industry.

The Bihar Co-operative Lac Marketing Federation Ltd., Ranchi, supports prices when they fall below economic levels. It is the only lac factory in Public Sector.

Research: To improve the technique of lac cultivation and to find new uses are the responsibilities of the **Indian Lac Research Institute at Namkum,** Ranchi, Bihar. This institute is under the control of the Indian Council of Agricultural Research and provides training facilities.

Important uses: Surface coating makes up for the largest use of shellac, followed by printing inks, handicrafts, pharmaceuticals, cosmetics, hair lacquers and electrical industry. Lac is also used in the manufacture of French polish, gramophone records, electrical insulating materials, micanite, hats, grinding wheels, adhesives, cements, wood turning, metal enamelling etc. Other products are water-proof nail polish, dental plates, glazed paper, lac bangles, jewellery fillings, crayons, photo engraving etc.

COCOA

COCOA comes from the seeds or beans of a medium-size tree, generally known as *Theobroma Cacao*, originally growing wild in the lowlands of Mexico. Christopher Columbus is believed to have introduced it in Spain in 1528. From there it spread to other countries.

It was introduced into India on a commercial scale during the 60s of this century in which Cadbury India Ltd. (now Hindustan Cocoa Products) played a leading role.

Location of plantations: Cocoa is now grown in India over an area of about 29,000 hectares largely as a mixed crop in coconut and arecanut gardens. The major cocoa growing state is Kerala followed by Karnataka and Tamil Nadu. Cocoa is grown in small areas in Andhra Pradesh, Maharashtra, Orissa, Goa and the Andaman and Nicobar Islands.

Though there are two popular varieties—Criollo and Forestero only the latter has been recommended for cultivation in India because of its wider adaptability and better performance.

PRODUCTION

The estimated production of cocoa beans in India was about 1,600 tonnes in 1980-81; 2,200 tonnes in 1981-82 and 3,000 tonnes in 1982-83.

Consumption: The maximum grinding capacity of the processing industries in India is about 2,000 tonnes, but only slightly more than one-third of this is utilised at present.

Exports: Cocoa is exported as cocoa bean, powder, chocolates, cocoa butter etc. to the Middle East, Nepal, U.K., Indonesia and Singapore. During 1980-81 exports of cocoa from India was 308 tonnes valued at Rs. 5.90 million and cocoa products 23 tonnes valued at Rs. 0.4 million.

Imports: The demand tor cocoa was being met in the past by import. The maximum annual import of cocoa beans has been 1,135 tonnes in 1973-74. During 1979-80 India imported 586 tonnes of cocoa beans and powder valued at Rs. 20.90 million and 49 tonnes of cocoa products worth Rs. 0.58 million. With the increase in internal production the imports have reduced and during 1980-81 only 398 tonnes of cocoa beans and powder valued at Rs. 11.12 million and one tonne of cocoa products worth Rs. 0.03 million were imported. Under the present policy of the Govt. of India import of cocoa beans/powder has been banned.

Marketing: Cocoa is purchased both by Government agencies and manufacturing industries. The existing practice is to procure the produce as wet beans or pods. The beans are then processed. Dry beans as processed by the growers are also purchased by the agencies.

In Kerala and Karnataka the State Governments arrange procurement of the produce from farmers through co-operatives viz. Kerala State Co-operative Marketing Federation, Cochin and the Central Arecanut Marketing and Processing Co-operative Ltd., Mangalore. These organisations have a number of primary societies as procuring agents in the major producing centres. Besides, there are a number of private firms like Hindustan Cocoa Products (Cadbury), M/s. Sathe Biscuits and Chocolates, Kaira District Co-operative Milk Producers Union who procures cocoa beans, either directly or through agents.

GENERAL

Development: The Government of India has constituted the Indian Arecanut and Cocoa Development Council with State and Central Government officials and representatives of growers, traders and farm workers as members. It periodically reviews the on-going development programmes and advises the Government of India on future needs. The development programmes are formulated and implemented by the State Governments and the Directorate of Cocoa, Arecanut and Spices Development, functioning at 1/500, Cannanore Road, Calicut-673005, Kerala. The Directorate is implementing a special programme of educating farmers in the scientific cultivation of the crop and processing of the produce through field demonstrations and training.

The important development measures undertaken include establishment and maintenance of progeny orchards of high yielding cocoa trees, training of farmers and extension workers in the scientific cultivation of the crop and primary processing of the produce and production and distribution of quality seedlings.

Research: The agronomic research work on cocoa is undertaken by the Central Plantation Crops Research Institute, Kasaragod, and by the Kerala Agricultural University. The Central Food Technological Research Institute, Mysore, carries out research work on post harvest technology and product development.

Processing firms: The following are the important processing firms: (1) M/s. Hindustan Cocoa Products (Cadbury), Cadbury House, Bhulabhai Desai Road, Bombay-400026 (2) M/s. Sathe Biscuits and Chocolate Company, Bhavanipeth, Pune-411002; (3) Kaira District Co-operative Milk Producers Union Ltd., Anand-388001; (4) Dr. Writers Chocolates and Canning Company, Bhavanishankar Road, Dadar, Bombay-400028; (5) The Cocoa Products and Beverages Ltd., Mount Poonamalle High Road, Manapakkam, Madras-600089.

One of the most modern processing cocoa plants, set up by the Central Arecanut Marketing and Processing Co-operative (CAMPCO), went on stream in 1982 at Puttur near Mangalore. It is a joint venture project by Karnataka and Kerala governments.

Publications: 1. 'Indian Cocoa', Arecanut & Spices Journal (Quarterly), Directorate of Cocoa, Arecanut and Spices Development, Calicut-673005, Kerala; 2. 'Journal of Plantation Crops' (Half Yearly), Indian Society for Plantation Crops, Central Plantation Crops Research Institute, Kasaragod-670124.

COFFEE

PROBABLY the coffee plant is a native of Ethiopia. In early historical times it was recognised as a valuable drink by the Arabs, who were responsible for introducing it in Europe. The cultivation of coffee slowly spread throughout the Old World and early in 1720 in the New World.

The plant is believed to have been introduced in India by a Muslim saint who came from Mecca and made his home in Karnataka.

The coffee plant usually reaches heights ranging from 4.57 to 6.09 metres. The fruit is red and contains two interlinked seeds which when roasted and ground, produces the coffee powder.

Location of the Industry: Arabica (coffee Arabica) and Robusta (coffee Canephora) are the two types of coffee grown in commercial scale in India. The total area under the coffee in the country is 208,269 hectares—109,454 hectares Arabica and 98,815 hectares Robusta.

State-wise hectarage: Karnataka 112,962, Kerala 57,949, Tamil Nadu 32,759, Andhra Pradesh 3,070, Assam 734, others 795 (Maharashtra, Orissa, Mizoram, Andamans, Arunachal Pradesh, and Sikkim).

Of 99,802 estates 77,970 are registered and 21,832 unregistered, of these 97,709 small holdings of ten hectares and below. Karnataka has in all 30,609 estates.

Number of persons employed: 276,749.

Ranking in the World Market: Indian coffee contributes about 2.4 per cent in the world trade in coffee. During the year 1981-82 (Oct./Sept.), the total world exports were 3,809,340 tonnes of coffee of which India exported 90,060 tonnes. India occupied 12th place on the world trade during the year 1981-82.

Per capita consumption (in Kg.): 1976: 0.0619; 1977: 0.0711; 1978: 0.0730; 1979: 0.0774; 1980: 0.0730; 1981: 0.0741; 1982: 0.0788.

Exports

Indian coffee is imported to U.S.A., Canada, Europe, Australia, New Zealand, Japan and Middle Eastern countries. In addition to raw coffee India is also exporting instant coffee to U.S.S.R.. United Kingdom and Australia.

Exports of coffee for fiscal years 1980-81 and 1981-82 are given below:

Fiscal year	Export target (in tonnes)	Quantity of coffee exported (in tonnes)	Value realised in Rs. million
1980-81	85,000	89,018	2,157.7
1981-82	80,160	83,817	1,666.8

Export Duty: The export duty on coffee per quintal since March 1980 was as under.

From 28.5.1980 increased from Rs. 570 to Rs. 700 per quintal; from 17.7.1980 reduced to Rs. 500 per quintal; from 14.8.1980 reduced to Rs. 260 per quintal; from 1.12.1980 reduced to Rs. 150 per quintal; from 19.6.1981 export duty was abolished; from 21.8.1981 duty was reimposed at Rs. 75 per quintal; from 10.9.1981 duty was again abolished; from 12.11.1981 duty was again reimposed at Rs. 85 per quintal; from 17.2.1982 duty was increased from Rs. 85 to Rs. 300 per quintal.

With effect from July 5, 1982. Central Govt. fixed export duty at Rs. 140 per quintal. From September 20, 1982 export duty was increased from Rs. 190 to Rs. 300. On November 2, 1982 export duty was increased to Rs. 440 and on December 16, 1982 to Rs. 530.

PRODUCTION AND CONSUMPTION OF COFFEE IN INDIA 1978-79 TO 1982-83

Season	National Production (in tonnes)		Total	Calendar Year	Internal Consumption (in tonnes)		Total
	Arabica	Robusta			Arabica	Robusta	
1978/79	65,114	45,374	110,488	1978	23,840	22,188	46,028
1979/80	71,428	78,407	149,835	1979	28,093	21,555	49,648
1980/81*	61,300	57,300	118,600	1980	27,445	20,238	47,683
1981/82*	75,100	77,000	152,100	1981	28,586	22,210	50,796

** Inclusive of production of other states not mentioned separately.

Export Promotion Council: Coffee Board has been recognised as an Export House with effect from 1.1.1975 by the Government of India

Publication: "Coffee Statistics" is an annual statistical publication brought out by the Market Research and Statistical Bureau of the Marketing Department of the Board. Other publications are "Indian Coffee", a monthly publication and "Annual Report" of the Board.

TEA

TEA was first discovered in China in the 6th century A.D. By the 8th century A.D. it had become a popular beverage in China and Japan, before which it was used only as a medicinal drink. It was introduced in Europe in 1559 by Ramusio, a Venetian writer. But it became a flourishing business only in the 17th century after the East India Company brought tea into England in 1666 along with the cargo of oil, cinnamon and other luxuries.

Botanically known as Camellia, tea plants were first identified in India in 1823, as wild growth in parts of Assam, by the agent of the East India Company, Major Robert Bruce. Comparisons with the Chinese seeds established the superiority of the Assam variety. However, it took a lot of persuasion and assurances of concessions for British capitalists to invest in large-scale tea plantations. Tea is thus one of the earliest industries developed by the British houses in Calcutta

The quick success in Assam lured many others to take up this lucrative business and a Tea Committee was formed in 1834.

The first shipment of eight chests of tea reached London in 1838 and the Assam Tea Company, the first of its kind, was formed in 1839.

Calcutta is the largest tea auction centre in the world. It is the second largest of our foreign exchange earners. The first public sales (auction) of tea took place in 1841 in Calcutta and since then India has continued with every passing year to be the highest producer and largest exporter of the exquisite aromatic beverage: the cup of tea that cheers.

The development of the tea industry on scientific lines began with the setting up of the Tocklai Experimental Station in Assam in 1911, one of the largest research centres in the world. The other research centres are the Tea Experimental Station at Davershola on the Nilgiri Hills set up in 1926, the Central Laboratory and Field Station in Anamalai, a Tea Research Institute at Dooars in West Bengal and the Tea Experimental Farm at Palampur in the Kangra Valley.

There are three varieties of tea: black, green and Oolong, the black variety being the most popular.

LOCATION OF THE INDUSTRY

The two main tea-growing regions in India are North-East India and South India the break-up of which is given in Table 1.

TABLE 1

States	No. of the Tea Gardens as on 31.12.1981*	Area in Hectares as on 31.12.1980*
Assam	777	200,569
West Bengal	305	93,497
Bihar	3	459
Tripura	57	6,062
Uttar Pradesh	31	1,804
Himachal Pradesh	1,385	4,183
Total North India	2,561	306,844

Total South India	131,095	122,637
Total All India	569,550	560,041

*Provisional. Source: Tea Board.

There are 28 countries in the world which produce tea. Production of tea in selected principal producing countries is given in the table below:

(in '000 Kgs.)

Country	1980	1981*
India	569,550	560,041
China	303,750	342,500
Sri Lanka	191,375	210,148
Japan	102,305	102,304
U.S.S.R.	129,800	134,000
Kenya	89,893	90,941
Indonesia	79,708	86,508
Turkey	95,889	41,165
Argentina	34,000	30,000
Taiwan	24,479	25,223
Bangladesh	39,939	41,141
Uganda	1,533	1,669
Malawi	29,915	31,965
Mozambique	19,500	22,190

*Provisional.

CONSUMPTION

The estimated consumption of tea in India: 1971-72: 224.7 m. kgs.; 1972-73: 236.9 m. kgs.; 1973-74: 248.0 m. kgs.; 1974-75: 260.1 m. kgs.; 1975-76: 272.3 m. kgs.; 1976-77: 285.9 m. kgs.; 1977-78: 300.2 m. kgs.; 1978-79; 317.9 m. kgs.: 1979-80: 337.1 m. kgs.; 1980-81: 358.0 m. kgs.; 1981-82: 378.0 m. kgs.

EXPORTS

Tea is the seventh largest foreign exchange earner of the country. India exports tea to over eighty different countries of the world of which United Kingdom buys almost one-third of the total exports. U.S.S.R., A.R.E., U.S.A. and Afghanistan are some of the other big buyers of Indian tea.

Export of tea during 1981-82 was to the order of 241.2 million kgs. valued at Rs.4,342.5 million against 224 million kgs. valued at Rs.4,290 million in 1980-81.

Export Promotion: The export promotion programme is being conducted by the Tea Board to improve the marketing of Indian tea and its consumption abroad, based on the following two main strategies: (a) to increase the overall consumption of tea in the world and (b) to increase the popularity and marketing of Indian tea in foreign countries.

Per Capita Consumption of Tea in Selected Countries

Countries	1977-79		1978-80	
	Total in '000 tonnes	Per head in Kgs.	Total in '000 tonnes	Per head in Kgs.
United Kingdom	175.54	3.14	176.12	3.14
France	6.63	0.12	7.35	0.14

Japan	111.79	0.97	112.86	0.97

N.A. Not Available.

The first aspect is being dealt by generic promotion programmes through eight Tea Councils set up in U.K., Ireland. West Germany, France, U.S.A., Canada, Australia and New Zealand of which India is a member. An International Tea Promotion Association has also been set up with India and other tea-producing countries as members.

India's uninational promotional programmes are mainly conducted through its overseas offices in London, Brussels, Cairo, Kuwait, Sydney and New York.

The addresses of the Board's overseas offices are as follows: (1) Director of Tea Promotion, Tea Board of India, 343/349. Oxford Street, London-W.I.R.; (2) Director of Tea Promotion, Tea Board of India, C/o Embassy of India, 23, Talaat Harb Street, Cairo (A.R.E.); (3) Director of Tea Promotion, Office National Indien Du The, Centre Regier, 20, Passage International Brussels-1000, Belgium; (4) Director of Tea Promotion, Tea Board of India, Associated National House, 8-12, Bridge Street, Sydney, NSW-2000, Australia; (5) Director of Tea Promotion, Tea Board of India, Consulate Central of India, 445 Park Avenue, New York; (6) Director of Tea Promotion, Tea Board of India, C/o Embassy of India, Post Box No. 1450, Kuwait.

Quantity and Value of Tea Exported to Selected Countries

Selected Countries	1980 Quantity ('000Kgs)	Value ('000Rs.)	1981* Quantity ('000Kgs)	Value ('000Rs.)
United Kingdom	45,509	871,504	40,971	690,833

*Provisional.

GENERAL

Production Target: A production target of 705 million kgs. has been set for 1984-85.

Average Yield Per Hectare

The average yield per hectare for various tea producing States is given below:

(In kgs.)

States	1980	1981*
Assam	1,499	1,521
West Bengal	1,424	1,374
Bihar	44	2
Tripura	608	392
Uttar Pradesh	158	554
Himachal Pradesh	132	145
North India	1,429	1,425
Tamil Nadu	1,999	1,933
Karnataka	1,842	1,807
Kerala	1,484	1,318
South India	1,747	1,634
All India	1,491	1,466

*Provisional.

Auction Centres: Indian tea is sold through auction centres at Calcutta and Cochin, which are also the major ports for export of tea, where nearly 132 m. kgs. and 77 m. kgs. of tea respectively is sold annually. Tea is also auctioned at Gauhati, Siliguri, Amritsar, Coonoor and Coimbatore.

About 27 m. kgs of Indian tea is sold through the London auction centre, major portion of which is meant for consumption in the UK.

Instant Tea: The production of instant tea in India is from green leaf rather than from manufactured black tea, as is the practice in the U.S.A. It is manufactured in India by Tata Finlay Ltd. and Messrs. Food Specialities Ltd. exclusively for export.

Production of Instant Tea in Kgs.: 1971: 254,307; 1972: 237,932; 1973: 214,508; 1974: 350,957; 1975: 276,912; 1976: 588,166; 1977: 734,811; 1978: 638,591; 1979: 597,466; 1980: 811,302; 1981: 798,242; 1982: 765,991.

Export of Instant Tea during 1980-81 to 1981-82*

	Quantity (in kgs.)	(Value in Rs.)
1980-81	761,321	36,608,401
1981-82	853,860	43,414,341

*Provisional.

The United Planters' Association of Southern India (address. Coonoor. Tamil Nadu) has facilities for tea research in South India at the Central Laboratory and Field Station in the Anamalai and a sub-station in Kerala. The scientific problems of the tea industry in the Kangra Valley are looked into by a Tea Experimental Farm located at Palampur. All these tea research establishments in India receive substantial financial assistance from the Government through the Tea Board of India (address: 14, Brabourne Rd., Calcutta-700001) which also maintains a close liaison with these institutions. The Tea Board has its own research centre at Kurseong in Darjeeling Dist. The Tea Board also sponsors and finances independent research projects at different universities and technical institutions to supplement the work of the various tea research establishments in the country.

Tea Corporations: The Tea Trading Corporation of India was set up in 1972 (address: 7, Wood Street, Calcutta 700016). Assam state-owned corporation was formed in 1971 and similar corporations have been set up in West Bengal, Tamil Nadu and Tripura.

SUGARCANE

SUGAR as a sweetening agent was a derivative discovered during the Middle Ages from a tall "Indian-bearing reed" which was perhaps grown in Asia from pre-historic times. This tall tropical perennial (species of *Saccharum officinarum)* of the grass family was later introduced into Europe by the Spanish and Portuguese explorers during the 15th and 16th centuries where sugarcane was looked upon as a luxury item sold by druggists. Gradually sugar replaced honey as a sweetener. Sugarcane and sugarbeet are the two major sources of sugar in the world. Today Brazil, U.S.S.R., Cuba and India are the leading producers.

Sugar manufacturer in India got a spurt after the Government granted it protection in 1932. From dependence on imports the country became self-sufficient within four years thereafter.

In 1931-32 there were an estimated 32 working units. By 1935-36 the number rose to 130. The volume of sugar production which was 162,000 tonnes in 1931-32 increased to 947,000 tonnes by 1935-36.

Maharashtra at present leads in production of cane sugar though Uttar Pradesh has a larger number of factories. The area under cane cultivation has increased from 0.18 million hectares to 0.32 million hectares during last ten years, 80 per cent of the area being in Western Maharashtra districts of Satara, Sangli, Kolhapur, Ahmednagar, Pune and Nasik.

Location of the Industry: Area under sugarcane cultivation in major producing States in 1981-82 is as follows ('000 hectares): Andhra Pradesh 178, Bihar 124, Haryana 147, Karnataka 168. Maharashtra 297, Punjab 106, Tamil Nadu 189, U.P. 1,660, Total (All India) 3,192.

State-wise break-up of working sugar factories in 1981-82 is given in brackets:

Andhra Pradesh (28); Assam (2); Bihar (28): Goa (1); Gujarat (14); Haryana (5); Karnataka (23); Kerala (3); Madhya Pradesh (7); Maharashtra (78); Nagaland (1); Orissa (3); Pondicherry (1); Punjab (8); Rajasthan (3); Tamil Nadu (21); Uttar Pradesh (91); West Bengal (2); Total (319).

Total installed capacity in 1981-82 season was 6.5 million tonnes.

Public Sector: There were 42 sugar factories in the Public Sector at the end of 1981-82 season. The State-wise break-up is as follows:

Uttar Pradesh: 18; Andhra Pradesh: 5; Karnataka: 2; Tamil Nadu: 2; Rajasthan: 1; Nagaland: 1; West Bengal: 1; Bihar: 9; Assam: 1; Punjab: 2.

No. of Persons Employed: The industry employs about 325,000 workers and millions of agriculturists are connected with it. The annual wage bill works out to about Rs. 2,000 million.

Capital Investment: A total of about Rs. 13,500 million is invested in this industry.

Ranking in the World Market: India is the fourth major sugar producing country in the world, the first three being Brazil, USSR and Cuba in that order.

Production and Consumption: Comparative figures of production and consumption of sugar for the last three years are:

(In million tonnes)

	1979-80	1980-81	1981-82
Production	3.86	5.15	8.46
Consumption	5.11	4.90	5:50

State-wise production of sugar for 1981-82 and 1980-81 respectively was as follows (figures in tonnes): Andhra Pradesh 545,794, (262,857), Assam 12,441, (4,972), Bihar 343,665, (193,861), Goa 11,558. (4.823), Gujarat 530.939. (332,145), Haryana 172,446, (102,652), Karnataka 647,501, (370,648), Kerala 16,444, (16,888), Madhya Pradesh 57,532 (17,098), Maharashtra 3,026,125 (2,085,424), Nagaland 6,592, (3,895), Orissa 21,286, (9,988), Pondicherry 25,388, (21,335), Punjab 148,958, (50,808), Rajasthan 22,794, (12,175), Tamil Nadu 755,705, (430,157), Uttar Pradesh 2,080,231, (1,224,161), West U.P. 704,078, (418,517), Central U.P. 860,069, (537,974), East U.P. 516,084, (267,670), West Bengal 10,495, (3,598), All India 8,435,894, (5,147,485).

Sugarcane and Gur: State-wise production of sugarcane and gur ('000 tonnes) respectively for 1981-82 was as follows: Andhra Pradesh 14,883 and 1,540.4; Bihar 4,180 and 418.0; Haryana 5,840 and 584.0; Maharashtra 28,780 and 3,151.5; Karnataka 12,556 and 1,255.6; Tamil Nadu 18,664 and 1,918.8; Punjab 6,120 and 612.0; Uttar Pradesh 76,808 and 7,680.8; All India 183,647 and 18,727.1.

Main By-Products: Production of the two main by-products over the last three years is given below:

(In million tonnes)

Year	Molasses	Bagasse
1979-80	1.58	12.75*
1980-81	2.13	16.15*
1981-82	3.89	30.40*

* Estimated.

During 1980-81 there were about 123 distilleries in the country with an annual installed production capacity of 664,043 litres. There were also 7 paper factories which supplement their raw material with bagasse.

Per Capita Consumption: Per capita consumption of sugar in India and abroad during the years 1976, 1979, 1980 and 1981:

(Figures in Kgs.)

Country	1976	1979	1980	1981
India	6.6	10.2	7.5	8.0
Sri Lanka	5.3	15.1	13.9	14.7
Japan	27.9	27.6	25.5	23.4
Indonesia	9.9	11.1	10.1	11.3
Malaysia	30.9	36.1	36.4	31.8
Pakistan	8.3	9.9	9.8	8.4
Asia	8.6	9.8	8.5	8.4
Europe	41.0	41.5	41.0	40.6
C. America	41.2	41.8	41.8	43.7
N. America	45.2	43.5	41.1	38.7
S. America	40.6	43.6	43.9	42.3
Africa	12.8	14.3	14.7	15.2
World Average	20.4	21.2	20.1	19.6

Exports: In 1973: 248,000 tonnes valued at Rs. 422 million; in 1974: 500,000 tonnes valued at Rs. 2,144 million; in 1975: 1.3 million tonnes valued at Rs. 4,750 million; in 1976: 843,000 tonnes valued at Rs. 2,686 million; in 1977: 254,802 tonnes valued at Rs. 682 million; in 1978: 636,297 tonnes valued at Rs. 1,164 million; in 1979: 656,054 tonnes valued at Rs. 1,393 million; and 1980: 62,792 tonnes valued at Rs. 260 million. Since the sugar production and the total availability during 1979-80 was low, the country after exporting a nominal quantity had to resort to import of sugar. A quantity of 181,000 tonnes was imported. During 1980-81, the country had exported a nominal quantity of 67,000 tonnes earning a foreign exchange of Rs. 35,000.

GENERAL:

On 25th May, 1971 the Government decontrolled sugar. A partial control was reimposed with effect from 1st July, 1972 the proportion between levy and free being 60:40. However, for the season 1972-73 Government reduced the share of free sugar to 30 leaving the balance 70 per cent for levy. The same position was maintained for the season 1973-74 but for 1974-75 the proportion between levy and free was changed to 65:35 respectively. The Government allowed 5 per cent free sugar to sugar industry to cover cost increase with effect from January, 1975. The same proportions have been extended to 1976-77 and 1977-78 seasons. On 16th August, 1978, sugar was once again decontrolled by the Government of India. With effect from 1st March, 1979, the industry adopted a voluntary scheme of regulation of monthly releases and the Government reinstated the monthly release system in the month of June, 1979. The Government imposed complete control on sugar with effect from 17th September, 1979. The policy was revised on 17th December, 1979 to that of partial decontrol with 65 per cent for levy and 35 per cent for free sale. The same policy was in force for 1979-80, 1980-81 and 1981-82 seasons.

Beet Sugar: Beet sugar has been produced in India by the State-owned Sri Ganganagar Sugar Mills in Rajasthan. During 1981-82 the plant diffused 193,694 quintals of beet and produced 18,106 quintals of sugar. The recovery percentage of beet sugar was 9.35 against the cane sugar recovery of 7.00.

Eleven Largest Units:

Name	Address	Capacity (in tonnes)
Shri Khedut Sahakari Khand Udyog Mandali Ltd., Sardar Baug, Bardoli 394602	Surat, Gujarat	7,000
The K.C.P. Sugar Factory Ltd.	Vuyyuru, Andhra Pradesh	6,000
Saraswati Sugar Mills	Yamunanagar, Haryana	5,200
Shetkari Sahakari Sakhar Karkhana Ltd.	Sangli, Maharashtra	5,000
Krishna Sahakari Sakhar Karkhana Ltd., Rethare, Budruk	Shivnagar, Satara	5,000
Shree Panchganga Sahakari Sakhar Karkhana Ltd.	Ichalkaranji, Maharashtra	5,000
The Mysore Sugar Co. Ltd.	Mandya, Karnataka	4,250
Mawana Sugar Works	Mawana; Meerut, U.P.	4,250
The Hindustan Sugar Mills Ltd.	Golagokarnath, Kheri, U.P.	4,229
Sakthi Sugars Ltd.	Sakthinagar, Erode, Madras	4,000
E.I.D. Parry Ltd.	Nellikuppam, Tamil Nadu	4,000

Training: The Sugar Industry gives practical training facilities to students of sugar technology and also trains a number of apprentics, as required under the Apprentics Act.

National Sugar Institute: At Grand Trunk Road, Kanpur 208001, Uttar Pradesh, conducts courses in sugar technology, besides many other agricultural universities which have this as a subsidiary subject.

Research is conducted at the *Indian Institute of Sugarcane Research* at Coimbatore, Tamil Nadu, Lucknow and Uttar Pradesh.

Deccan Sugar Institute: Near Naigaon in Maharashtra set up at a cost of Rs. 100 million provides technical expertise to the sugar industry.

National Federation of Co-operative Sugar Factories Ltd.: Vaikunt, 82-83, Nehru Place, New Delhi 110019 was set up in December, 1960 with the object of co-ordinating and facilitating the working of co-operative sugar factories, State and zonal federations and to assist in the promotion of new co-operative sugar factories.

So far licences/letters of intent have been issued for establishment of 197 co-operative sugar factories. Of these 156 sugar factories are in operation. Others are in various stages of establishment. In the year 1981-82, the co-operative sugar factories produced 4.60 million tonnes of sugar which was about 54.6 per cent of the total production in the country in that year.

The Indian Sugar Mills Association: Sugar House, 39, Nehru Place, New Delhi 110019 brings out the following publications: (1) 'Indian Sugar', Monthly Magazine, (2) 'Indian Sugar Year Book', Annual Publication, (3) 'List of Sugar Mills in India and Bangladesh and Pakistan', Annual Publication, (4) The Working Results of Sugar Factories. Besides the Association also brings out a weekly bulletin "Press News" and a fortnightly "Sugar in Parliament".

The National Federation of Co-operative Sugar Factories Ltd. also brings out the following publications: (1) 'Co-operative Sugar' and (2) 'Co-operative Directory & Year Book'.

'Shakara' a quarterly bulletin is brought out by the National Sugar Institute.

MAN-MADE FIBRE

MAN-MADE fibres are the result of man's urge to probe deep into the secrets of nature. It was Robert Hooke, an English scientist who visualised first the possibility of this fibre by imitating the silkworm's spinning process and published it in a book called *Micrographia* in 1664. In 1734 a French scientist predicted that man-made fibres would be made from gums or resins.

In 1845 Louis Schwabe, an English weaver fitted a machine with a nozzle which forced out artificial fibres from a glass liquid.

In the same year, C. F. Schonbein, a Swiss chemist discovered nitrocellulose, a preparatory step towards rayon manufacture. However, it was Count Hilaire de Chardonnet who produced rayon first in 1884 from nitrocellulose solution of pulp made from mulberry barks, coagulating the filaments in heated air. He is remembered today as the ' Father of the Rayon Industry '. The process he developed is known as Nitrocellulose process. The commercial production of rayon was started by this process in France in 1891.

In 1890, a second process, known as ' Cuprammonium process ' was patented by Louis Hentri Despeismonium, a French chemist. Two years later the ' Viscose process ' was discovered by C. P. Cross and E. J. Bevan in 1892. The ' Acetate process ' although developed in 1890 was commercially exploited only in 1902 when three Americans were granted patents.

Nylon, a true synthetic fibre was developed in the laboratory of E. I. du Pont de Nemours & Co., U.S. during the thirties of this century. Incidentally the name ' Nylon ' is coined from the names of two major cities: New York and London since the scientists belonged to these cities. It was in 1944 that Dr. J. T. Dickson and J. R. Shinfield, British scientists, developed polyester fibre and commercially exploited by I.C.I. Ltd. who became the exclusive licencees throughout the world except the U.S.

Man-made fibres are classified into four groups. Cellulose fibres, Synthetic fibres, Protein-base fibres and Inorganic fibres.

POSITION IN INDIA

The genesis of man-made textile industry in India was due to the protective measures given to the cotton textile industry by the Government of India. Nearly five decades

LOCATION OF INDUSTRY

TABLE 1: Synthetic Fibre Units in India

(in tonnes)

Name of the Unit	Year of commencement	Licensed capacity per annum as on April 30, 1983	Installed capacity per annum
Nylon filament yarn			
Baroda Rayon Corpn. Ltd., Bombay, Maharashtra (Udhna, Gujarat)	1974	2,436	2,436
Century Enka Ltd., Bombay, Maharashtra (Bhosari, Pune, Maharashtra)	1969	3,640*	3,100
Garware Nylons Ltd., Bombay, Maharashtra (Pimpri, Pune, Maharashtra)	1962	4,830	4,830
J.K. Synthetics Ltd., Kanpur, U.P. (Kota, Rajasthan)	1962	5,376	5,400
Modipon Ltd., Modinagar, U.P. (Modinagar, Uttar Pradesh)	1968	4,760	4,760
Nirlon Synthetic Fibres & Chemicals Ltd., Bombay, Maharashtra (Goregaon, Bombay, Maharashtra)	1962	5,308	3,528
Shree Synthetics Ltd., Ujjain, Madhya Pradesh	1972	3,452	2,175
Stretch Fibres (India) Ltd., Bombay, Maharashtra (Nagpur, Maharashtra)	1973	4,200	540
Taplon Ltd.. Hoshiarpur, Punjab	—	2,000	—
Total	—	38,388	28,769

* Including Polyester filament yarn.

TABLE 1: Synthetic Fibre Units in India — *Contd.*

(in tonnes)

Name of the Unit	Year of commencement	Licensed capacity per annum as on May 30, 1983	Installed capacity per annum
Nylon staple fibre			
J. K. Synthetics Ltd., Kanpur, U.P. (Kota, Rajasthan)	1971	900	900
Total		900	900
Nylon tyre cord			
Baroda Rayon Corpn. Ltd., Bombay (Udhna, Gujarat)	—	2,000	2,000
J.K. Synthetics Ltd., Kanpur, U.P. (Kota, Rajasthan)	1972	3,000	3,000
National Rayon Corpn. Ltd., Bombay, Maharashtra (Kalyan, Maharashtra)	1975	4,627	3,300
Nirlon Synthetic Fibres & Chemicals Ltd., Bombay, Maharashtra (Goregaon, Bombay, Maharashtra)	1971	4,000	2,190
Shriram Fibres Ltd., New Delhi (Manali, Tamil Nadu)	1975	6,335	5,000
Total		19,962	15,490
Acrylic staple fibre			
Indian Petro-chemical Corpn. Ltd., Vadodara, Gujarat	—	12,000	12,000
J.K. Synthetics Ltd., Kanpur, U.P. (Kota, Rajasthan)	—	4,000	4,000
Total		16,000	16,000
Polyester staple fibre			
The Ahmedabad Manufacturing & Calico Printing Co. Ltd., Vadodara, Gujarat	1974	12,000	7,625
Bongaigaon Refinery & Petrochemicals Ltd., Goalpara, Assam	1981	30,000	—
Chemicals & Fibres of India Ltd., Bombay, Maharashtra (Thane, Maharashtra)	1965	10,000	10,000
J.K. Synthetics Ltd., Kanpur, U.P. (Kota, Rajasthan)	1972	12,200	6,000
Indian Organic Chemicals Co. Ltd., Bombay, Maharashtra (Manali, Tamil Nadu)	1973	12,200	7,200
Swadeshi Polytex Ltd., Ghaziabad (Kavinagar, Ghaziabad, Uttar Pradesh)	1973	8,131	6,100
Total		84,531	36,925
Polyester filament yarn			
Baroda Rayon Corpn. Ltd., Udhna, Gujarat	1976	1,777	1,094
Century Enka Ltd., Bombay, Pune, Maharashtra	1977	1,500	4,200
Garware Nylons Ltd., Bombay, Maharashtra (Pimpri, Pune, Maharashtra)	1973	1,710	1,710
J.K. Synthetics Ltd., Kanpur, U.P. (Kota, Rajasthan)	1967	6,960	1,200
Modipon Ltd., Modinagar, U.P. (Modinagar, U.P.)	1973	1,723	1,723
Nirlon Synthetic Fibres & Chemicals Ltd., Bombay, Maharashtra (Goregaon, Bombay, Maharashtra)	1967	2,655	1,752
Orkay Silk Mills Pvt. Ltd., Bombay, Maharashtra	1967	6,000	6,000
Petrofils Co-operative Ltd., Vododara, Gujarat	1977	7,000	3,500
Reliance Textile Industries Ltd., Kulaba Dist., Maharashtra	1982	10,000	10,000
Shree Synthetics Ltd., Ujjain	1973	567	1,094
Stretch Fibres (India) Ltd., Nagpur, Maharashtra	N.A.	135	—
Total		40,036	32,273
Polypropylene staple fibre			
Neomer Ltd., Vadodara, Gujarat	1977	6,000	4,300
Total		6,000	4,300

Location of the factories is shown in brackets. N.A. — Not Available.

ago, the Government imposed a levy on rayon fabrics imported into the country. The objective was to curb the severe competition faced by the cotton textile industry through imports of rayon fabrics from Japan. The importers were thus induced to import rayon yarn and manufactured in India by setting up weaving mills during 1935-37.

Viscose rayon was the first commercial man-made fibre produced in India in 1950 with the setting up of Travancore Rayons Ltd. in Kerala. Other units which came up in subsequent years include: The National Rayon Corporation Ltd., Maharashtra (1951), Century Rayon, Maharashtra (1956), J. K. Rayon, U.P. (1959), Kesoram Rayon, West Bengal (1960), South India Viscose Ltd., Tamil Nadu (1961), Baroda Rayon Corporation Ltd., Gujarat (1962) and the Indian Rayon Corporation Ltd., Gujarat (1963).

Nylon was commercially produced first in 1962 when Nirlon Synthetic Fibres and Chemicals Ltd., Maharashtra, J. K. Synthetics Ltd., Rajasthan and Garware Nylons, Maharashtra set up their units. Subsequently Modipon Ltd., U.P. (1968), Century Enka Ltd., Maharashtra (1969), Shree Synthetics Ltd., M. P. (1972), Stretch Fibres (India) Ltd., Gujarat (1974) and Taplon Ltd., Punjab were set up.

Polyester was first produced in India in 1965 by Chemicals and Fibres of India Ltd., Maharashtra. Others who started the manufacture of polyester subsequently include: J. K. Synthetics Ltd., U.P. (1972), Indian Organic Chemicals Ltd., Maharashtra (1973), Swadeshi Polytex Ltd., U.P. (1973), The Ahmedabad Mfg. & Calico Printing Co. Ltd., Gujarat (1974) and Bongaigaon Refinery and Petrochemicals Ltd., Assam (1981). Production of Polyester filament yarn, Nylon staple fibre, Acrylic staple, Polypropylene staple, Nylon tyre cord/yarn, as well as raw materials like Caprolactum, DMT, Acrylonitrile, Ethylene Glycol, Rayon grade pulp, Cotton linter pulp, etc. commenced in later years.

Increased use of man-made fibres, wholly or partially, will be the future pattern of textile production in India.

TABLE 2: Licensed and Installed Capacity for the Manufacture of Raw Materials for Man-made Fibre Industry

Name of the Unit	Year of commencement of production	Capacity (tonnes per annum)		
		as on	Licensed	Installed
Caprolactum				
Gujarat State Fertilizer Co. Ltd.	1974	30-4-83	20,000	20,000

CELLULOSIC FIBRE INDUSTRY

(A) Viscose Filament Yarn: There are at present 8 units engaged in the production of viscose filament yarn having a total licensed and installed capacity of 44,490 tonnes and 43,385 tonnes respectively per annum as per details given below:—

Name of the Unit	Location	Year of commencement	Licensed capacity per annum (tonnes) (as on April 30, 1983)	Installed capacity per annum (tonnes)
Baroda Rayon Corpn. Ltd.	Udhana (Gujarat State)	1962	4,500	4,500
Century Rayon	Shahad-Kalyan (Maharashtra)	1956	7,000	7,000
Indian Rayon Corpn. Ltd.	Veraval (Gujarat State)	1963	7,300	7,300
J. K. Rayon	Kanpur (Uttar Pradesh)	1959	4,000	3,650
Kesoram Rayon	Tribeni (West Bengal)	1960	3,650	4,635
National Rayon Corpn. Ltd.	Mohone-Kalyan (Maharashtra)	1951	9,000	9,000
South India Viscose Ltd.	Sirumugai (Tamil Nadu)	1961	4,000	4,000
Travancore Rayons Ltd.	Rayonpuram (Kerala)	1950	5,040	3,300
Total			44,490	43,385

Per capita availability of man-made fibre fabrics (including blends) in India is still very low by international standards. The per capita availability is given below:—

Year	Per capita availability (metres)
1965	1·73
1970	2·10
1975	2·22
1980	4·14
1981	4·70
1982	4·16

India and the World: India's share in the world production of cellulosic and non-cellulosic fibres is barely two per cent. A brief account of the output of cellulosic and non-cellulosic fibres in India vis-a-vis world production is furnished in the following table:

Combined Production of Cellulosic/Non-cellulosic Fibres

('000 tonnes)

Year	World	India	Per cent share of India in World Output
1975 ..	8,480	152	1·8
1976 ..	10,200	165	1·6
1977 ..	10,248	170	1·7
1978 ..	10,476	195	1·9

(B) Viscose Staple Fibre: (*i*) At present there are two units having licensed and installed capacity of 33,000 tonnes and 85,000 tonnes respectively per annum as under:—

Name of the Unit	Location	Licensed capacity per annum (tonnes) (as on Apr. 30, 1983)	Installed capacity per annum (tonnes)
The Gwalior Rayon Silk Mfg. (Wvg.) Co. Ltd.	(i) Nagda (Madhya Pradesh) (ii) Mavoor (Kerala)	22,000	78,000
South India Viscose Ltd.	Sirumugai (Tamil Nadu)	11,000	7,000
Total		33,000	85,000

(*ii*) As per latest information the details of Letters of Intent issued for the manufacture of Viscose Staple Fibre are as follows:—

Name of the Unit	Proposed location	Capacity per annum (tonnes)
The Gwalior Rayon Silk Mfg. (Wvg.) Co. Ltd.	Harihar (Karnataka)	36,000
Gogate Minerals	N.A.	27,000
The Ganges Mfg. Co. Ltd.	M.P.	8,000
Karnataka Industrial & Dev. Corpn. Ltd.	Karnataka	10,000
Tamil Nadu Industrial & Dev. Corpn. Ltd.	Tamil Nadu	14,000
Andhra Pradesh Rayons Ltd. ..	A.P.	17,500
U.P. Textile Industrial & Dev. Corpn. Ltd.	U.P.	22,500
Total		135,000

(C) Acetate Filament Yarn & Staple Fibre: There is only one unit *viz.* Messrs. The Sirsilk Ltd., Sirpur-Kaghaznagar, Andhra Pradesh, engaged in the production of acetate filament yarn and staple fibre having licensed and installed capacity as under:—

Item	Year of commencement	Licensed capacity per annum (tonnes)	Installed capacity per annum (tonnes)
Acetate filament yarn	1954	3,600	3,200
Acetate staple fibre . .	1966	500	800
Total		4,100	4,000

PRODUCTION

Man-made Fibre/Yarn, Raw Materials Production (Tonnes)

Item	1980	1981	1982
Viscose Filament Yarn	41,483	40,191	35,861
Viscose Tyre Yarn	14,245	14,065	10,829
Regular Viscose Fibre	69,317	85,639	49,018

Employment : The man-made fibre/yarn industry has given direct employment to 47,125 persons. In addition to that, it generates a vast number of indirect employment opportunities in the tertiary sector.

The detailed break-up is given below :—

Sector	No. of persons employed
Viscose filament yarn	23,446
Rayon tyre yarn	4,057
Viscose staple fibre	4,622
Acetate filament yarn-fibre	1,576
Cellulose fibre industry total . .	33,701
Nylon & Polyester filament yarn . .	13,722
Polyester staple fibre	3,905
Synthetic fibre industry total . .	17,627
Total man-made fibre industry . .	51,328

Research & Development: The Research and Development problems confronting the industry are being mostly handled by the Silk and Art Silk Mills' Research Association (SASMIRA), Sasmira Marg, Worli, Bombay 400025, National Laboratories, and technical institutes. SASMIRA conducts research, provides technical services, testing and offers training facilities in the technology of man-made fibre and textiles besides management. The main objective of research and development work being undertaken in India is the need to catch up with the developments in this area in the world at the shortest possible time.

(D) Rayon Tyre Yarn: At present there are three units engaged in the production of rayon tyre yarn having licensed and installed capacity of 20,800 tonnes and 20,050 tonnes respectively per annum as under:—

Name of the Unit	Location	Year of commencement	Licensed capacity per annum (Tonnes)	Installed capacity per annum (Tonnes)
Century Rayon	Shahad-Kalyan (Maharashtra)	1963	6,800	6,800
National Rayon Corporation Ltd. . .	Mohone-Kalyan (Maharashtra)	1961	7,000	7,000
Shriram Rayons	Kota (Rajasthan)	1965	7,000	6,250
Total			20,800	20,050

(E) Modal Fibre: At present there are two units engaged in the production of Modal fibre having licensed capacity of 17,000 tonnes per annum as under: —

Name of the Unit	Location	Year of commencement	Licensed capacity	Installed capacity
Highwet Modulus Tungabhadra Ltd. . .	Karnataka	N.A.	10,000	N.A.
Polynosic Staple Fibre South India Viscose Ltd.	Coimbatore (Tamil Nadu)	N.A.	7,000	N.A.
Total			17,000	

EXPORTS

Exports of rayon and synthetic textiles rose from Rs. 186 million to only Rs. 399 million between 1975-76 and 1979-80. During 1980-81 the exports fell marginally to Rs. 390 million. The break-up is as follows:

(Rs. million)

Item	1975-76	1979-80	1980-81	1981-82	1982-83
Viscose filament yarn fabrics	96	117	82	54	54
Spun rayon fabrics	9	26	16	13	22
Nylon fabrics	39	40	89	35	25
Polyester & Polyester blended	9	68	74	62	47
Mixed fabrics	5	36	28	44	49
Garments & made ups	7	89	61	123	331
Hosiery & Knitwear	12	1	7	29	25
Yarn, Tyrecord & miscellaneous items	9	22	33	43	28
Total	186	399	390	403	577

IMPORTS

The imports of Man-made fibres/yarns during 1980 were 55,768 tonnes valued at Rs. 766 million as against 73,143 tonnes worth Rs. 993 million in 1979.

Item	1979		1980	
	Quantity (tonnes)	Value (Rs. million)	Quantity (tonnes)	Value (Rs. million)
Viscose Filament Yarn	3,176	72	1,245	35
Czepramonium Filament Yarn	481	20	138	7
Nylon Filament Yarn	2,008	47	771	24
Polyester Filament Yarn	3,873	80	6,140	128
Regular Viscose fibre staple	46,721	554	31,081	412
Polynosic staple fibre	5,726	84	5,927	92
Highwet Modulus fibre	189	3	—	—
Nylon staple fibre	165	3	89	3
Polyester staple fibre	5,214	61	7,566	7
Acrylic staple fibre	5,057	57	1,412	19
Nylon tyre yarn	533	12	1,399	39
Caprolactum	7,090	90	14,647	215
D.M.T.	6,354	50	4,030	32

SILK

SERICULTURE (culture of silkworm) and the weaving of silk had been in vogue in China from remote times, dating back to 2640 B.C. Empress Si Ling-chi not only encouraged the culture of the silkworm but also developed the process of reeling from the cocoon, a closely guarded secret for 3,000 years. She attached so much value to silk that death was the penalty for exporting silkworm eggs. But about 550 A.D. some foreigners managed to succeed in taking cocoon to Constantinople. They placed the eggs of the silkworm and the seeds of the mulberry tree in a hollow staff. China has been famous from ancient times for shuttleloom and India, Greece and Europe for handloom. Japan and China now lead in raw silk production with India, Italy and France following them.

Sericulture in India falls into two sectors, mulberry and non-mulberry. The mulberry silk industry is better organised and accounts for nearly 90 per cent of the natural silk production. The non-mulberry sector comprises *tusar, eri* and *muga* silk. India is the only country in the world which produces all the four commercially known varieties of natural silk.

LOCATION OF THE INDUSTRY: Andhra Pradesh: A. P. produces mulberry and *tasar* raw silk. Mulberry in the Anantapur and Chittoor districts, and *tasar* in the forest regions along the banks of the river Godavari in Karimnagar, Warangal, Khammam and Adilabad districts. New areas in Srikakulam, Vizag, Medak and Hyderabad districts have also been selected for silk production. The State plans to increase mulberry acreage to over 57,000 hectares by the end of 1984-85 from the present level of 33,603 hectares.

Assam: The State produces *muga, eri* and mulberry raw silk mostly in Lakhimpur, Dibrugarh, Kamrup and Nowgong districts. Sibsagar is prominent for *muga* production. Recent investigations show possibilities for producing oak *tasar* silk in Garampani area.

Due to the formation of Meghalaya, most of the sericultural centres were bifurcated.

Bihar: Bihar ranks first in the production of *tasar* with nearly 80 per cent of production mainly in the districts of Hazaribagh. Ranchi, Singhbhum, Palamau, Bhagalpur, Begusarai, Monghyr and Santhal Parganas.

Jammu & Kashmir: The univoltine mulberry silk industry is mainly located in Anantnag, Baramulla and Srinagar in Kashmir valley and Udhampur, Doda, Rajouri, Poonch, Kathua and Jammu in Jammu province.

Karnataka: Karnataka is the biggest multivoltine mulberry silk producing State in India contributing about 60 per cent of the total production. Bivoltine rearings have been introduced of late, during all seasons of the year. The industry is concentrated in the districts of Bangalore, Kolar, Tumkur, Mysore and Mandya and to a small extent in Dharwar, Belgaum and Raichur. It is found feasible to have *tasar* production in Belgaum, Karwar, Shimoga, Chickmagalur, South Canara, Mysore, Coorg, Dharwar and Bellary districts. Ericulture has been introduced at Koila and Gerukatte, both in South Canara district. The State Government have initiated a World Bank aided sericulture development project involving an outlay of Rs. 800 million, which aims at doubling the production of raw silk over the levels existing before initiation of the project, to 4,500 tons during the next 5 years, and generating additional employment to 250,000-man years per annum at the end of 5-year period.

Kerala: Two units have been set up in Kottayam by Khadi Gramodyog Board for production of silk yarn.

Madhya Pradesh: The State is the second largest producer of *tasar* silk in the country. It is largely based in the districts of Bastar, Bilaspur, Raigarh and Surguja and to a small extent in Ambikapur, Raipur, Mandla, Balaghat and Jhabua districts. Mulberry is also cultivated to a small extent in Dhar, Indore, Sehore and Hoshangabad districts.

Maharashtra: Bhandara and Chandrapur districts have traditional *tasar* culture and there is one *tasar* seed farm at Armori. Mulberry *(Tuti)* has been successfully introduced in Satara and Nasik districts. Vast areas on either bank of the river Pravara now lying fallow also hold scope for development of mulberry sericulture.

North-Eastern Council States: The north-eastern States comprising of Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram and Nagaland hold out scope for large-scale development of the non-mulberry sector, more particularly oak *tasar* in Manipur, Mizoram, Nagaland and Garampani area of Assam. Ericulture is also largely practised in Assam, Arunachal Pradesh, Meghalaya, Mizoram and Tripura. Mugaculture is confined to Assam and parts of Meghalaya. Mulberry sericulture is confined to certain pockets of Assam, Manipur, Mizoram and Tripura. Under the plan programme, expansion of mulberry silk industry in these States has been taken up.

Orissa: *Tasar* is concentrated in Mayurbhanj and Keonjhar and Sundargarh districts. Besides ericulture, mulberry sericulture is also practised to a limited extent.

Punjab: Mulberry silk is produced mainly in the districts of Amritsar, Gurdaspur, Hoshiarpur and to some extent in Patiala, Ropar and Ludhiana.

Tamil Nadu: The sericultural industry is practised in the districts of Dharmapuri, North Arcot, Salem, Tirunelveli, Periyar, Madurai, Tanjore, Coimbatore and South Arcot. The State Government has a programme to increase mulberry production over about 41,000 hectares by the end of 1984-85 from the existing level of about 22,245 hectares.

Uttar Pradesh: Sericulture industry has been organised on cooperative lines both in the rearing and reeling sectors. The industry is extensively practised in the districts of Dehra Dun, Saharanpur, Nainital, Almora, Bahraich, Tehri Garhwal, Paurigarhwal and to a small extent in the districts of Etawah, Gorakhpur, Bijnore, Moradabad, Gonda, Rampur, Deoria, Meerut, Chamoli, Pithoragarh and Uttarkashi. Seasonal conditions permit raising of two bivoltine cocoon crops and one multivoltine cocoon crop per annum, the latter being raised mainly in the foothills. The State also holds scope for large-scale introduction of oak *tasar* culture in the hill districts fringing the Himalayas. Already a beginning has been made for systematic development of the oak *tasar* industry in the State in collaboration with the Board's Regional Research Station functioning at Bhimtal. Development of tropical *tasar* in Mirzapur district for the benefit of tribal inhabitants has been introduced in recent years.

West Bengal: The State occupies a prestigious position as a producer of both mulberry and *tasar* silks. It is one of the major mulberry silk producing State in the country accounting for nearly 12 per cent of the total output. The industry is practised mainly in the districts of Malda, Murshidabad, Birbhum, Midnapore and Bankura and to some extent in Nadia and West Dinajpur districts. Total area under mulberry is around 11,206 hectares.

Production of *tasar* silk is confined to the districts of Purulia, Midnapore and Birbhum. Ericulture is practised in Jalpaiguri and Cooch-Behar districts. Production of *tasar* and *eri* silk yarn is presently around 4,000 and 7,000 kgs. respectively.

Himachal Pradesh: The State rears univoltine mulberry silkworms in Kangra and Mandi districts. The other regions where sericulture is practised are Una/Hamirpur and Nahan districts. Oak *tasar* rearing is also practised in the forests around Bir.

Manipur: Manipur has both mulberry and *eri* silk cultivation and a potential for *tasar* culture. The Government has launched a project for large-scale development of oak *tasar* for the economic emancipation of tribal inhabitants. A quantity of 20,0000 kg and 25,000 kg. oak *tasar* silk has been produced respectively during 1981-82 and 1982-83. The target is to produce 50,000-kg. oak *tasar* silk by the end of the VI Plan (1984-85).

Tripura: Sericulture has been recently introduced. The State holds promise for large-scale development of mulberry silk industry.

Production & Consumption of Raw Silk

(in '000 kgs.)

Year	Mulberry	Non-Mulberry	Total	Imports@	Consumption
1977-78	3,186	525	3,711	162	3,873
1978-79	3,752	425	4,177	176	4,353
1979-80	4,193	612	4,805	366	5,171
1980-81	4,593	448	5,041	404	5,445
1981-82	4,801	448	5,249	193*	5,442
1982-83	5,488	489	5,977	251*	6,228

@ Source: DGCI & S, Calcutta.
*Refers to import by Central Silk Board.

RANKING IN THE WORLD MARKET: With a production of 5,488 tonnes of mulberry silk and 489 tonnes of wild silk in 1982-83, India ranked third among the silk producing countries of the world. However, India is the only country in the world which produces the famed golden *"muga silk"* and is also the second largest producer of *tasar* silk, next only to the People's Republic of China.

SPUN SILK INDUSTRY: India also produces silk-waste—a by-product of reeling sector, which constitutes the basic raw material for the spun silk industry. The total production of silk-waste during 1982-83 was 1,921 tonnes mulberry and 132 tonnes non-mulberry.

There are three spun silk mills, located at Channapatna in Karnataka, Jagi Road in Assam and Bhagalpur in Bihar having an installed spindleage of 7,500, 3,000 and 3,000 respectively.

Tariff Protection: Sericulture industry has been under tariff protection since 1934. The current rate of protective duty on raw silk is 30 per cent ad valorem plus 25 per cent auxiliary duty.

EXPORTS: Foreign exchange earnings from silk industry (in million Rs.) for the last five years: 1978-79—436.668; 1979-80—488.317; 1980-81—531.205; 1981-82—697.321; 1982-83—828.

Indian Silk Export Promotion Council, Regd. Office: 62, Mittal Chambers, Nariman Point, Bombay 400021.

IMPORTS: Imports of raw silk over the last six years (in million Rs.): 1977-78—26.500; 1978-79—28.477; 1979-80—55.541; 1980-81—65.400; 1981-82—39.100; 1982-83—55.400.

Central Silk Board: Central Silk Board is a statutory body, presently under the administrative control of the Ministry of Commerce. It has been entrusted with the overall responsibility of developing silk industry.

Sericulture is a cottage industry *par excellence*. With an agricultural base, industrial superstructure and an essentially labour intensive set up, sericulture is an effective tool for generating gainful employment. Presently, it provides whole-time and part-time employment to more than 4.5 million persons in the rural areas of the country.

The headquarters of the Board are located in Bangalore. The Board has set up 11 regional offices to ensure close coordination of Central and State efforts to develop the sericulture industry. *Head Office:* Central Silk Board, United Mansions, 2nd Floor, No. 39, Mahatma Gandhi Road, Bangalore 560001. Tele. Add.: CENTROSIL, Bangalore. Telex: 845-798 CSB IN.

Regional Offices & Regional Development Offices: (1) 102, Shakti sadana, K. H. Road, Bangalore 560027, Tele: 'SILKBOARD'; (2) Chatterjee International Centre, Room Nos. A-9 & A-10, 33-A, Chowringhee Road, Calcutta 700071, Tele: 'SILKBOARD'; (3) A-66, Naraina Indl. Area, Phase-1, New Delhi 110028, Tele: 'SILKBOARD'; (4) Air Cargo Complex, Sherwani Road, Srinagar 190001, Tele: 'SILKBOARD'; (5) Meghdoot, 95-B, Marine Drive, Bombay 400002, Tele: 'SILKBOARD'; (6) Regional Development Office, 25, Ashoknagar, Bhubaneswar 751009 (Orissa); (7) Regional Development Office, 120/567, Shivajinagar, Kanpur 208005 (U.P.); (8) 3-5/907/1, Himayath Nagar, Hyderabad 500029, Andhra Pradesh; (9) Regional Development Office, 36, 1st Main Road, C.I.T. Nagar, Madras 600035; (10) Regional Development Office, Christianbasti, Gauhati 781005 (Assam); (11) Mahesh Mati, Post & Dist. Malda (West Bengal).

Inspection Centres: The Board is in charge of preshipment inspection for which facilities are available at the regional offices, the regional development offices and the two centres listed below: (1) 44, D. N. Singh Road, Bhagalpur 812001 (Bihar), Tele: SILKBOARD'; (2) K61/158B, Rajdevi Katra, Bulanala, Varanasi 221001, Tele: 'SILKBOARD'.

RESEARCH AND SERVICE STATIONS: Mulberry silk sector: Central Sericultural Research & Training Institute, Srirampuram, Manandavadi Rd., Mysore South, Mysore 570008 (Karnataka); Central Sericultural Research & Training Institute, Berhampore 742101 (West Bengal); National Silkworm Seed Project, No. 29/6, 38th cross, 8th block, Jayanagar, Bangalore 560011 (Karnataka); Regional Sericultural Research Station, P.O. Kalimpong 734301 (West Bengal); Regional Sericultural Research Station, Coonoor 643101 (Tamil Nadu); Research Sub-Station, Mugur 571124 (Karnataka); Univoltine Research Sub-Station, Majra 248171, Via Dehra Dun (U.P.); Regional Sericultural Research Station, Pampore 192121 (Kashmir); Regional Sericultural Research Station, P.O. Panchkotaraj, Distt. Purulia (West Bengal); Regional Sericultural Research Station, Bihar Agricultural College, P.O. Sabour, Bhagalpur (Bihar); Sericultural Research Sub-Station, Ambari Falkata, Distt. Jalpaiguri (West Bengal); Sericultural Research Sub-Station, P.O. Simliguda, Koraput (Orissa); Regional Sericultural Research Station, Titabar 785632 (Assam).

New Regional Research Stations and Sub-Stations: Regional Research Station, Ranchi (Bihar); Regional Research Station, Kashipur (West Bengal); Research Sub-Station, Malda (West Bengal); Research Sub-Station, Bholpur (West Bengal); Regional Sericultural Research Station, Bangalore (Karnataka); Regional Sericultural Research Station, Kollegal (Karnataka).

Post-Cocoon Research: The gap in post-cocoon research has been filled up with the setting up of Central Silk Technological Research & Training Institute at 16(42), Vanivilas Road, Basavanagudi, Bangalore 560004. The Institute will undertake research in 5 major divisions in silk industry: (i) Silk Reeling & Spinning; (ii) Testing & Grading of raw silk; (iii) Wet Processing; (iv) Silk Weaving and (v) Silk Textile Engineering.

***Tasar* Silk Sector: Central *Tasar* Research & Training Institute, Nirvan No. 1, West End Park, Hehal Post. Ranchi 834005 (Bihar);** Regional *Tasar* Research Station, Bhimtal 263136 (U.P.); Regional *Tasar* Research Station, Batote 182143 (Jammu & Kashmir); Regional *Tasar* Research Station, Imphal 795001 (Manipur).

Inter-State *Tasar* Project: The Government of India have launched an inter-state *Tasar* project at a total cost of Rs. 105 million during the VI plan period in the tropical *tasar* producing states of Bihar, Madhya Pradesh, Orissa, Andhra Pradesh, Maharashtra, Uttar Pradesh, West Bengal and Rajasthan.

***Eri* and *Muga* Silk Sector:** Regional *Muga* Research Station, Mirja 781125, Boke Dist. (Assam). A Regional *Eri* Research Station is being set up at Nongpoh (Assam).

Price Stability Measures: The Board has established a raw material bank for *tasar* cocoons and raw silk at Chaibasa in Bihar. A similar Raw Material Bank for *muga* cocoons has since been set up at Sibsagar in Assam. For stabilisation of mulberry raw silk, the Board has been implementing a Price Stabilisation Scheme under which a Central Raw Material Bank for mulberry has been set up at Bangalore with Regional Raw Material Banks in other major mulberry silk producing states like Karnataka, West Bengal, Tamil Nadu and U.P. Additionally an intensive sericultural development project has been introduced in Malda (West Bengal) which also provides for undertaking price stabilisation measures for mulberry reeling cocoons.

Testing: A Central Silk Conditioning and Testing House has been established by CSB at Srinagar at Silk Factory premises, Silk Factory Road, P.O. Central Market, Srinagar 170009 (J&K).

Training: A fifteen-month post-graduate course is offered at the Central Sericultural Research and Training Institute, Mysore 570008, Central *Tasar* Research and Training Institute, Ranchi (Bihar), and Central Sericultural Research and Training Institute, Berhampore (West Bengal). The academic session commences on 1st July every year in respect of CSR & TI Mysore and Berhampore (West Bengal) and from 15th June in CTR & TI Ranchi (Bihar). The course includes 3 months' intensive training in the practice of sericulture both in the mulberry and non-mulberry sectors. The capacity of each Institute is to train 25 students every year. It also caters to foreign students. The Board has also been imparting training in improved technologies to farmers at its research institutes and attached extension centres for two months with a monthly stipend of Rs. 250.

International Centre for Training & Research in Tropical Sericulture: Under the Indo-Swiss Co-operation Programme, the Central Silk Board has set up an International Centre for Training & Research in Tropical Sericulture at Mysore. The Institute has facilities for imparting advance training in sericulture to 25 candidates from various developing countries in Asia including 10 candidates from Indian States. The duration of the course is 12 months and it has commenced functioning from 1st October 1980. The second batch is undergoing the training course presently.

INTERNATIONAL LIAISON: CSB is a full-fledged member of both the International Silk Association, Lyon, France and the International Sericultural Commission, La Mulatiere, France—the two major international forums concerned with the development of silk industry.

(See also "Commercial Firms—Manufacturers").

COTTON AND COTTON TEXTILES

COTTON has been cultivated in India for 26 centuries. Significantly, Marco Polo in the 13th century A.D. and Tavernier in the 17th century wrote in glowing terms on the excellence and perfection of Indian textiles. Interestingly, the world-famous Dacca muslin was known for its beauty and finesse and six yards of the best variety could easily pass through a ring. Even before the discovery of America, the natives of tropical America were growing Sea Island cotton and using its fibres.

Originally, all cotton cultivated in India grew on the perennial type of plant known as G. Arborium Var Neglectum, which was of Forma Bengalenses in north and western India and of Forma Indicum in central and south India. It is believed that the 'webs of the woven wind'—the world-famous Dacca muslin was made from Forma Bangalenses.

Until about the middle of the 18th century Indian textiles reigned supreme in foreign markets. But during the Industrial Revolution in the West, Indian cloth began to lose its overseas market. Realising the significance of the revolution the East India Company changed its role of an exporter of cloth to an exporter of cotton and encouraged a wider cultivation of cotton in India. Thus began the cultivation of cotton as a commercial crop.

Area Under Cultivation: India has the largest area in the world under cotton cultivation, which is about one fourth of the total world area.

The area ('000 hectares) under cotton cultivation during last three years was: 1977-78: 7,866; 1978-79: 8,087; 1979-80: 8,080

PRODUCTION

America leads in the woven cotton output, but Brazil, Egypt and India are important producers.

Cloth is now woven with cotton mixed with rayon and nylon. Cotton treated with caustic soda results in a high degree of lustre resembling silk. The product is called mercerized cotton, after John Mercer, its discoverer.

The production of cotton during 1979-80 season amounted to 7.70 million bales. With a carryover of 2.73 million bales, the total supply in the cotton season 1979-80 worked out to 10.43 million bales.

The production ('000 bales of 170 kgs. each) of cotton during last three years was: 1978-79: 7,927; 1979-80: 7,698; 1980-81: 7,800. (Refer to the chapter on 'Food & Agriculture' for the Statewise break-up of production).

LOCATION OF THE INDUSTRY

State-wise Installed Capacity as on January 1, 1982

GENERAL

Yield per Hectare: In spite of India having the largest area under cotton cultivation, the production accounts for about one tenth of the world cotton output. Indian production has been on an average one bale (170 kgs.) per hectare, against 4 bales produced in Egypt.

The Hybrid-4 is credited with a record yield of 8,700 kgs. of *kapas* per hectare in Bellary district of Karnataka. The average yield from this strain is placed at 3,500 to 4,000 kgs. per hectare, while the average yield per hectare of other varieties is 925 kgs. of *kapas* in irrigated areas and 250 kgs. in non-irrigated areas.

Cotton Corporation of India Ltd.: Refer to the chapter on 'Govt. Industrial Undertakings'.

Research: Established in 1924, the Cotton Technological Research Laboratory at Adenwala Road, Matunga, Bombay 400019, offers facilities for fibre testing and spinning quality evolution of cotton with the result that a large number of improved varieties have been evolved and extended for commercial cultivation.

The laboratory also offers training in cotton technology to sponsored candidates from the textile industry.

Regional Cotton Research Station at Coimbatore, Tamil Nadu, of the Indian Agricultural Research Institute does research on the plant breeding aspect of cotton.

Besides this laboratory numerous other agricultural universities conduct research on cotton.

EXPORTS OF COTTON

Year	'000 bales of 170 kgs. each	Value Rs. million
1975-76	427	582.30
1976-77	39	657.70

Cotton Yield in Selected Countries: Average yield 1978-79 to 1980-81 (kgs. per hectare): U.S.A.: 512; U.S.S.R.: 919; Brazil: 282; Mexico: 955; Egypt: 951; Peru: 662; China: 504; Sudan: 286; Syria: 845; Pakistan: 313; India: 169; World average: 425.

COTTON TEXTILES

The cotton textile industry was the base on which Indian industrialisation was built more than a hundred years ago.

The industry was started largely as a spinning enterprise and gradually developed into a full-fledged composite one. The first power-mill in Bombay was set up by a Parsi pioneer, Mr. Kavasji Nanabhai Davar, in 1854.

Following table shows the break-up according to ownership and present status of the mills which are not privately owned.

	Number of Mills	Installed spindles (Million)	Installed Looms (Thousand)
Government run Mills (N.T.C.)	111	3.38	47
Other than N.T.C.	29	0.71	6
Co-operative Mills	62	1.55	—

PRODUCTION

The actual production of cotton yarn and cloth by the mill sector is as follows:-

Year	Yarn in '000 kg.	Cloth in '000 metres					
		Coarse	Medium B	Medium A	Fine	Superfine	Total
1976 ..	1,005,900	553,400	1,130,000	1,788,000	163,000	246,000	3,880,000
1977 ..	846,000	413,000	921,000	1,601,000	95,000	193,000	3,223,000
1978 ..	912,000	442,000	910,000	1,684,000	86,000	129,000	3,251,000
1979 ..	952,000	414,000	954,000	1,651,000	65,000	122,000	3,206,000
1980 ..	1,058,000	428,000	898,000	1,952,000	70,000	128,000	3,476,000
1981 ..	1,015,000	348,000	751,000	1,879,000	47,000	122,000	3,147,000

EXPORTS

Exports of mill-made Cotton Textiles—Fiscal Year Basis

Year	Cotton Fabrics		Cotton Yarn		Cotton Apparel	Cotton Hosiery	Other Cotton Manufactures	Total

(P) Provisional.

No. of Persons Employed: It provides direct employment to about 1.19 million (13.8 per cent of all factory labour totalling 8.61 million), indirect employment runs into several millions.

Capital Investment: Estimated at Rs. 13,000 million and the annual value of the output amounts to Rs. 36,000 million.

Ranking in the World: India occupies second place in terms of spindles (after China) and fourth in terms of cotton consumption (after China, U.S.S.R. and U.S.A.).

Cotton Textile Export Promotion Council: (Address: Engineering Centre, Mathew Rd., Bombay 400004). It is an autonomous body and a non-profit making organisation and was set up in 1954 for the promotion of exports of mill-made cotton yarn and piece goods, cotton manufactures and all hosiery and readymade garments.

GENERAL

Per Capita Availability: The estimated per capita availability of cotton cloth in 1981 was 10.66 metres as against 11.25 metres in 1980, 10.22 metres in 1979, 10.21 metres in 1978 and 9.57 metres in 1977.

PRODUCTION

Readymade Garments: India's exports of readymade garments had picked up swiftly in recent years. The export value was hardly Rs. 140 million in 1971-72. It rose to Rs. 1,450 million in 1975-76, Rs. 2,571 million in 1976-77, Rs. 3,651 million in 1979-80 and Rs. 4,295 million in 1980-81.

National Textile Corporation Ltd. (Details in the chapter on 'Govt. Industrial Undertakings'.) A public sector undertaking. It was set up in 1968 to take over and run 'sick' textile mills in the country. Similar corporations are also set up in the State sector of Gujarat, Kerala, Maharashtra, Madhya Pradesh, Tamil Nadu and Uttar Pradesh.

Indian Cotton Mills' Federation (ICMF): (Address: Textile Centre, 34, P. D'Mello Rd., Poona St., Wadibunder, Bombay 400009). Established in March 1958. It is the apex body representing the cotton mill industry of India. The object of ICMF is to watch over, protect and promote the interests of the industry.

Research: Extensive research on cotton textiles is carried out by the following organisations: (1) Ahmedabad Textile Industry's Research Association (ATIRA), P.O. Polytechnic, Ahmedabad 380015, Gujarat. It also has several regional research stations in Gujarat doing research on cotton. (2) Bombay Textile Research Association, Ghatkopar, Bombay 400077. (3) Shri Ram Institute for Industrial Research, 19 University Road, New Delhi 110007. (4) South India Textile Research Association, Coimbatore 641014, Tamil Nadu. (5) Textile and Allied Industries Research Organisation, Kala Bhavan, Vadodara 390001, Gujarat. (6) Northern India Textile Research Association, 1-119, Himalaya House, Kasturba Gandhi Marg, New Delhi 110001.

Publications: (1) *Texprocil Bulletin* (fortnightly), brought out by the Cotton Textile Export Promotion Council; (2) *Indian Cotton Mills Federation Journal* (monthly), Textile Centre, 34, P. D'Mello Rd., Poona St., Bombay 400009; (3) *Indian Textile Bulletin* brought out by the office of the Textile Commissioner; (4) *Handbook of Statistics on Cotton Textile Industry*, Indian Cotton Mills Federation Textile Centre, P. D'Mello Rd., Bombay 400009.

JUTE

THE Indian Jute mill industry is the biggest earner of foreign exchange for India. The first power-driven Jute mill was established in Rishra near Calcutta in 1859 and thereafter the industry made rapid progress. By 1885 the Indian industry with its supremacy in the international markets firmly established, had 6,700 looms in production. Loomage shot up to 30,685 in 1909, to 50,354 in 1927 and to 65,762 in 1949. For a decade or so the industry produced the simplest variety of sacking cloth. Product diversification continued with webbings, cotton bagging, linoleum hessian, jute carpets and rugs, carpet backing cloth, and decorative jute fabrics gradually added to the range. The industry has already modernised up to the spinning stages of manufacture. This, coupled with the improved technology and other rationalisation measures adopted by the industry, has helped it to increase production without increasing loomage. The Jute Corporation of India was set up by the Government of India in April 1971.

LOCATION OF THE INDUSTRY

Number of jute mill companies in operation on Jan. 1, 1981: West Bengal 55; Andhra Pradesh 4; Bihar 3; Uttar Pradesh 3; Madhya Pradesh 1; Assam 1; Orissa 1; Tripura 1; All India 69.

Area in hectares under raw jute cultivation: 1974-75: 673,100; 1975-76: 586,800; 1976-77: 737,000; 1977-78: 797,800; 1978-79: 884,000; 1979-80: 834,000; 1980-81: 942,000; 1981-82: 827,000.

The cultivation of raw jute is concentrated in three States—West Bengal, Bihar and Assam (For production refer to the Chapter on "Food & Agriculture").

Public Sector: Negligible (only one small mill each in Assam and Orissa have gone into production).

No. of Persons Employed: Over 2 million farmers in jute cultivation and about 400,000 persons in jute industry and trade.

No. of Strikes & Lock-outs: 1975: 78; 1976: 24; 1977: 44; 1978: 78; 1979: 6; 1980: 10; 1981: 17.

No. of Man-days Lost: 1975: 8.77 million; 1976: 2.56 million; 1977: 1.00 million; 1978: 1.60 million; 1979: 6.51 million; 1980: 0.40 million; 1981: 4.20 million.

Capital Investment in the Industry: about Rs. 3,000 million.

Average Annual Sales: about Rs. 5,000 million.

Ranking in the World Market: India is the largest producer of raw jute in the world, followed closely by Bangladesh.

PRODUCTION

Following is the production of jute goods for mills reporting to the Indian Jute Mills Association accounting for about 90 per cent of total industry (in '000 tonnes).

1974-75: 939; 1975-76: 1,136; 1976-77: 1,040; 1977-78: 1,008; 1978-79: 909; 1979-80: 11.54; 1980-81: 11.91; 1981-82: 11.08.

The all India yield per hectare in bales (1 bale = 181.43 kgs.): 1974-75: 6.73; 1975-76: 7.59; 1976-77: 7.26; 1977-78: 6.73; 1978-79: 7.32; 1979-80: 7.28; 1980-81: 6.92; 1981-82: 8.24.

CONSUMPTION

(Million bales)

	1979-80	1980-81	1981-82
Mills consumption	7.93	7.93	7.29
Exports	0.30	0.40	0.29
Domestic consumption	—	—	0.30

EXPORTS: Jute goods are the country's largest foreign exchange earner. The table below gives the exports of jute and the foreign exchange earned in the last three years.

Year July-June	Exports ('000 tonnes)	Value (Rs. in million)
1978-79	317	1,701.8
1979-80	372	2,659.8
1980-81	558	3,991.0
1981-82	369	2,165.0

GENERAL

Yield per hectare: The average yield of jute in India is about 1,255 kgs. per hectare during 1980-81.

Loomage: The exact world loomage is not known, but rough estimate puts it at 109,275. The total number of looms in India on January 1, 1980 was 44,516. Bangladesh was last reported to have 25,907 looms.

Directorate of Jute Development (Govt. of India): MS Bldgs., Nizam Palace Campus, 234/4, Acharya J. B. Road, Calcutta 700 020.

National Jute Manufacturers' Corporation Ltd.: 4, Netaji Subhas Rd., Calcutta 700 001.

Indian Jute Mills' Association: 6, Netaji Subhas Road, Calcutta 700 001.

Office of the Jute Commissioner (Govt. of India): 20, Abdul Hamid St., Calcutta 700001.

Training: The industry has provided for elaborate and scientific technical training in the spinning and weaving of jute, quality control of jute goods, and maintenance of machinery at the **Institute of Jute Technology** at 35, Ballygunge Circular Rd., Calcutta 700019.

Research: The industry's needs for research and development are served by the **Indian Jute Industries' Research Association (IJIRA),** 17, Taratola Rd., Calcutta 700 088, which takes care of (1) Basic research, (2) Applied investigations, (3) Technical Service, (4) Product development, and (5) Raw jute development.

Jute Agricultural Research Institute: Nilganj, Barrackpore, West Bengal also researches into the problems of cultivation of raw jute and allied fibres.

Ten Largest Mill Companies on the basis of loomage are all situated in West Bengal as on Jan. 1, 1982.

Name of Mills	*Address*	*No. of looms*
1. Hukumchand Jute Mills Ltd.	Hazinagar, 24 Parganas	1,496
2. National Co. Ltd.	Sankrail, Howrah	1,454
3. New Central Jute Mills Co. Ltd.	Budge Budge, 24 Parganas	1,419
4. Ganges Manufacturing Co. Ltd.	Bansberia, Howrah	1,299

WOOLLEN

WOOL is, after cotton, an important money crop. Its tensile strength is one-fourth greater than cotton and its crimp permits it to enmesh still air. Elasticity, resulting from the molecular structure of wool, makes the wool fabric grease resistant. Wool is perhaps the first fibre to be woven into a textile. Reference to wool fabric in Egypt, Babylon and Ninevah indicates its ancient roots. Romans as early as 200 B.C. improved their flocks which were the projenitors of the famed Spanish Merino sheep. The U.S. leads in output followed by Australia, New Zealand, U.S.S.R., Britain, China and India.

In India, the first unit was set up more than a century ago. Till the beginning of the fifties there was no significant expansion for there were only 16 units in 1950. At present there are 380 mills with an installed capacity of 444,138 spindles.

The powerloom capacity of the woollen industry is 5,000 nos. and the combing capacity is 53.75 m.lbs.

LOCATION OF THE INDUSTRY

Public Sector: Of the 224 units only 3 are in the public sector. The names and addresses are as follows:

1. Rajasthan Government Worsted Spinning Mills, Churu, Rajasthan;
2. Kashmir Government Woollen Mills, Shirinbaugh, Srinagar, Jammu & Kashmir;
3. Government Spinning Mills, Nowshera, Srinagar, Jammu & Kashmir.

No. of Persons Employed: 100,000 in organised sector and 400,000 in decentralised sector.

Wool and Woollen Export Promotion Council: Address: Churchgate Chambers, 5, New Marine Lines, Bombay 400020.

The trend in imports of raw wool and other raw materials during 1979-80 to 1981-82 was as follows: (value in million Rs.): 1979-80: 293.11; 1980-81: 415.5; 1981-82: 620; 1982-83: 715.

PRODUCTION

India's 42 million sheep produce about 35 million kgs. of raw wool each year. Fifty per cent of this is below 40s count. Some of it is exported and the rest used for making coarse garments and carpets.

Sheep Population and Raw Wool Production in some major Countries:

	Approx. Sheep population (In Mil. Nos) 1981-82	Approx. output of raw wool (In Mil. Kgs.) 1981-82
Argentina	32.5	168
Australia	137.9	716
France	13.01	24
Italy	9.16	13
New Zealand	70.4	363
U.K.	33.0	49
U.S.A.	13.0	51
U.S.S.R.	142.4	482
Total including other wool producing countries	1,087.1	2,887

Source: Statistics of Commonwealth Economic Committee.

GENERAL

Pashmina: Of the total 91,073 goats in Ladakh 70,000 are *Pashmina* bearing. A joint effort of the State and Central Governments is afoot to increase the size and production of *Pashmina* goats by cross breeding them with the Goran Altaksyia breed from U.S.S.R. and Angora bucks from Turkey.

With these measures the yield per goat is expected to increase from about 400 gms. at present to 1 kg. The maximum yield of *Pasham* wool recorded so far is 700 gms. the minimum being 200 gms. This means that the production of *Pasham* wool in Ladakh will increase from about 28,000 kgs. at present to 70,000 kgs. in due course.

A research project at Dhule, Maharashtra initiated by the Raymond Woollen Mills Ltd., Thane, spread over 4,100 hectares of forest land is engaged in intensive research to develop a sheep breed which will yield more wool per sheep. After several years of intensive research the farm has established a new breed of Indian Merino christened as "Gopal Merino".

Gujarat Sheep and Wool Development Corporation at Anand Bldg., Mirzapur Rd., Ahmedabad 380001, helps to produce quality wool by a cross-breeding programme. This has substantially reduced imports of quality wool.

Karnataka State Sheep & Wool Development Board, 12, Rashtriya Vidyalaya Rd., Bangalore 560004.

International Wool Secretariat at Dugal Estate, 193, Backbay Recl., Bombay 400001, is a non-profit organisation with headquarters in London. It helps the Indian Woollen Industry in all its problems such as economic, research, planning etc.

Research: Central Sheep and Wool Research Institute at Malpura (88 kms. from Jaipur) in Rajasthan, is run by the Indian Council for Agricultural Research. Situated on a 1,618 hectares farm, its main programme is research and training facilities in sheep husbandry, better utilisation of land, wool shearing, grading, testing, technology and processing. It also trains key personnel, instructors, supervisors, managers and research workers.

Two Divisions, Division of Fur Animal Breeding Garsa (Kulu), H.P., and Division of Carpet Wool and Karakul Pelt Production, Bikaner and one regional station at Mannavanur (Kodaikanal), Tamil Nadu are run by the Institute.

Wool Research Association at Akbar Camp Road, P.O. Sandoz Baug, Kolshet, Thane 400607, deals with research on wool yarn and fibre and its application to different commodities, improvement of the quality of fabrics etc.

Association: Indian Woollen Mills' Federation, Churchgate Chambers, 5, New Marine Lines, Bombay 400020.

Some Large Units: With their addresses and the number of powerlooms in brackets.

1. Bombay Fine Worsted Manufacturers, Castle Mills, Agra Rd., Thane 400601, Maharashtra (196).
2. The Raymond Woollen Mills Ltd., J.K. Bldg., Morarjee Marg, Ballard Est., Bombay 400038, Maharashtra (196).
3. Binny Ltd. (Bangalore Woollen, Cotton & Silk Mills Co. Ltd.), Agraharam Rd., Bangalore 560023, Karnataka (243).
4. New Egerton Woollen Mills Ltd. (British India Corpn. Ltd.), Dhariwal, Punjab (240).
5. Cawnpore Woollen Mills Ltd., Civil Lines, Kanpur 208001, Uttar Pradesh (260).
6. Shree Digvijaya Woollen Mills Ltd., Aerodrome Rd., Jamnagar 361003, Gujarat (114).
7. Modella Textile Industries P. Ltd., 4-C, Vulcan Insurance Bldg., Veer Nariman Rd., Bombay 400020 (120).
8. Shri Dinesh Mills Ltd., P.B. No. 65, Padra Road, Vadodara 390005 (80).
9. India Woollen Textile Mills P. Ltd., Chhcharta, Amritsar (123).
10. Oriental Carpet Mfrs. (India) Ltd., P.B. No. 34, G.T. Rd., Amritsar 143001 (100).

Raw Material: The average yield of sheep in India works out at about 0.90 kg. as against over 4 kgs. in Australia.

Publications: 'Wool and Woollens of India', Churchgate Chambers, 5, New Marine Lines, Bombay 400020 (Quarterly).

OILSEEDS AND VANASPATI

OILSEEDS occupy an important place in the Indian economy and rank second (after foodgrains) as a farm commodity group. India is a major oilseeds growing country in the world, accounting for 10 per cent of the total output of vegetable oils and fats.

India is the largest producer of groundnut, rape and mustard and sesamum. It is second in respect of castorseed production, third in coconut production, fourth in cotton-seed and fifth in linseed.

India has a highly developed oil based industry employing more than 10 million persons. However, it is essentially a food-oil industry which accounts for as much as 83 per cent of the total supply of vegetable oils. Among the non-food uses, the bulk is consumed by the soaps and paints and varnishes industry.

Demand & Supply: The area and production of major oilseeds have more or less remained stagnant during the last decade.

This is evident from the fact that in 1962-63, major oilseeds were cultivated in 15.3 million hectares, in 1976-77, the area covered fell to 14.8 million hectares but improved to 15.5 million hectares in 1977-78. In 1978-79 area has gone up to 16 million hectares. The area under major oilseeds during 1980-81 was 15.62 million hectares. During 1981-82, area under major oilseeds has improved to 16.65 million hectares.

The production of major oilseeds showed sharp fluctuations—from 10.2 million tonnes in 1975-76 to 7.9 million tonnes in 1976-77. However, in 1977-78, the output improved to 9.0 million tonnes. During 1978-79 production further picked up to 9.5 million tonnes. In 1980-81, there was a setback in oilseeds production at 8.334 million tonnes, though it is marginally higher over the 1979-80 level of 8.040 million tonnes. The production in 1981-82 retrieved the ground it had lost in 1980-81 with the output moving up to 10.9 million tonnes.

The Sixth Plan production target for major oilseeds is 12.5 million tonnes.

Area and Production of Oilseeds, 1981-82

	Area (Million hectares)	Production (Million tonnes)
Major Oilseeds		
Groundnut (in shell)	7.448	7.239
Castorseed	0.558	0.302
Sesamum	2.521	0.524
Rape & Mustard	4.337	2.363
Linseed	1.784	0.474
Total for 5 major oilseeds	16.648	10.902
Others		
Coconut	1.088	5.619*
Nigerseed	0.574	0.152
Safflower	0.761	0.424
Cottonseed	7.987	0.131

*Production in million nuts.

Imports: With demand for oilseeds running ahead of supplies — the production trends have been unsatisfactory — shortages and soaring prices have become a fixed feature of the oilseeds economy of India. The gap has been partly met by imports.

During 1976-77, imports of edible oils amounted to 170,000 tonnes valued at Rs. 1,006 million. In 1977-78, the quantity of imports rose to 1.288 million tonnes valued at Rs. 7,116 million. However, in 1978-79 both quantity as well as value imported declined to 1.043 million tonnes and Rs. 5,371 million respectively. The quantity imported in 1979-80 declined to 0.7 million tonnes valued at Rs. 4,298 million. During 1980-81, both quantity as well as value rose to 1.2 million tonnes and Rs. 5,678 million respectively. However, in 1981-82, the imports of edible oils declined to 0.995 million tonnes valued at Rs. 3,783 million.

Consumption: The per capita consumption of edible oil stood at 4.1 kgs. in 1980-81 reflecting an upward trend over the 1979-80 level of 3.7 kgs. The per capita availability further improved to 4.6 kgs. in 1981-82.

This is considerably less than the nutritional norm of 20 kgs. per annum. The recent trend in per capita consumption of edible oils (kgs.) is as under: 1955-56: 2.5; 1960-61: 3.2; 1965-66: 2.7; 1970-71: 3.5; 1975-76: 3.5; 1979-80: 3.7; 1980-81: 4.1; 1981-82: 4.6 (Provisional).

Exports: India's exports of vegetable oils and oilcakes are considerable, though the underlying trend is mixed. The export earnings from vegetable oils (essential and non-essential) and oilcakes are presented below:

COCONUT is one of the important oilseeds produced in the country mainly in South India.

Production: Copra: Latest figures of copra production are: Production of copra: 3,71,000 tonnes; Milling copra: 3,31,000 tonnes; Edible copra: 40,000 tonnes.

Number of Crushing Units: 1,439; Total installed Capacity (per shift of 8 hrs.): 1,055 tonnes.

Exports of Vegetable Oils and Oilcakes

(Rs. million)

Year	Vegetable oils	Oilcakes
1975-76	395	965
1976-77	546	2,344
1977-78	261	1,333
1978-79	189	1,158
1979-80	418	1,275
1980-81	131	1,092
1981-82 (April-September)	48	599

GROUNDNUT: Groundnut (shelled) production in India during 1978-79 stood at 6.4 million tonnes, indicating a rise over the 1977-78 level of 6.1 million tonnes. However in 1979-80 production received a setback and is placed at 5.8 million tonnes. During 1980-81, the groundnut output declined further to 5.02 million tonnes. However, in 1981-82, a sizable spurt in groundnut (nuts in shell) raised the total output to 7.24 million tonnes.

Exports of groundnut extractions form a lion's share of the total exports of oilseed meals from India, and contribute more than 50 per cent of total world exports. The exports which touched a record figure of 1,248,389 tonnes valued at Rs. 1,648 million during 1976-77 were much lower during 1977-78 (operating under a ceiling prescribed by the Government) at 565,000 tonnes valued at Rs. 872 million.

During 1979-80, 564,000 tonnes valued at Rs. 736 million were exported as against 523,061 tonnes worth Rs. 697 million in the preceding year.

These exports are however, subject to quota restrictions. The ceiling is fixed and relaxed keeping in view the domestic needs. The overall quota for 1977 and 1978 was 750,000 and 800,000 tonnes respectively. From January 1979, the exports of groundnut extractions have been canalised through the State Trading Corporation.

Per Hectare Yield in kgs. of groundnut-in-shell: 1974-75: 723; 1975-76: 935; 1976-77: 747; 1977-78: 846; 1978-79: 835; 1979-80: 805; 1980-81: 727; 1981-82: 971.

COTTONSEED: Until about the beginning of the sixties cottonseed was used almost entirely as a cattle-feed, but now 65 to 70 per cent of the total production is available for crushing.

Cottonseed production during 1981-82 was placed around 2.7 million tonnes, about 12% increase than the year 1980-81 level of 2.4 million tonnes. Actual crushing of the seed stood at 1.7 million tonnes, in 1981-82 which is about 6% increase over 1980-81 level of 1.6 million tonnes. Cottonseed oil production increased to 0.21 million tonnes during 1981-82 against 0.2 million tonnes in 1980-81.

Exports: Decorticated cottonseed extractions/expellers, a by-product of scientific processing, have no market in India and have to be exported. The quantum exported during 1981-82 was 0.200 million tonnes valued at Rs. 284 million as against 0.209 million tonnes exported in 1980-81 valued at Rs. 278 million.

SOYABEAN: The soyabean crop is steadily catching popular acceptance from farmers in the States of M.P. and U.P. The area increased to about 280,000 hectares during 1978-79 from the 1976-77 level of 125,000 hectares. The production of soyabean with the modest crop of 50 to 60 thousand tonnes in 1976-77 has reached a level of 250,000 tonnes in the current crop year 1978-79. The steady development became possible by sustained efforts made by various institutes, encouragement given by State and Central

Governments from time to time, and the interest shown by industry by way of offering best price to the farmers in order to make this crop most economical to them.

With all these efforts it is estimated that its cultivation could be stepped up to about 1 million hectares during the next few years.

Sunflower Oil: With proper techniques of cultivation, yields up to 2 tonnes per hectare can be obtained. The success of sunflower cultivation depends on the availability of high-yielding fresh varieties of seeds as the crop is highly cross pollinated. The Government has sanctioned a scheme for producing such seeds.

Under a Central Government programme sunflower has been grown in Andhra Pradesh, Tamil Nadu and Karnataka.

NON-EDIBLE OILS: In 1959 as much as 75 per cent edible oils were used in the manufacture of soap. By 1972 the use of edible oils had dropped to 25 per cent. Efforts have been stepped up to use indigenous sources of non-edible oils such as rice bran oil, mowrah oil, linseed oil, castor oil and solvent oil of groundnuts and minor oils from forest tree seeds. This has not only generated employment in rural India but has saved Rs. 200 million in foreign exchange which would have been spent on the import of 60,000 tonnes per annum of tallow or edible oils.

Castor Oil: Export of castor oil during 1979-80 amounted to Rs. 521 million.

Inedible castor oil has two significant potentials:

(1) With suitable processing castor oil can be used in the manufacture of soaps to the extent of over 25 per cent thereby relieving to that extent the pressure on other edible oils.

(2) Castor oil has great export potential as it is used for conversion and in the lubricant industry. India and Brazil are the only major sources of castor oil in the free world. If India can export the oil-based chemical equivalent of 20,000 tonnes of castor oil, instead of exporting crude castor oil, the additional foreign exchange earnings would be about Rs. 30 million.

Oil-palm: Grown under expert guidance and suitable conditions oil-palm can give higher output of oil per hectare than any other oil-seed crop. For instance, whilst groundnut gives 200 kgs. of oil per hectare in India and 600 kgs. per hectare in most efficient countries, sunflower gives 360 kgs. of oil per hectare and oil-palm gives 1,800 kgs. of oil per hectare in plantations in Malaysia.

Under a State Government scheme in Kerala saplings germinated from the Malaysian red palm oil-seeds have been planted up to 1976 in an area of 2,500 hectares. The yield will be of the following order: (i) Red palm oil 4,446 tonnes, (ii) Kernel oil 616 tonnes, (iii) Oil cake 616 tonnes.

A similar project has also been sanctioned by the Central Government for Andaman and Nicobar islands on an area of 2,400 hectares.

Lemon-grass Oil: It is chiefly grown in Kerala. India exports more than Rs. 10 million worth of lemon-grass oil annually. It is mainly used as a base for some perfumes for the soap-making industry.

Mentha Oil: Mentha farming has been encouraged in the country to save foreign exchange used in the import of mentha oil, an important ingredient in most medicines.

The Kumaon region has been found to be the most suitable area for the cultivation of mentha. The present production of mentha oil is about 200 tonnes valued at Rs. 16 million. This has resulted in the saving of Rs. 10 million in foreign exchange.

Palmarosa Oil: India ranks first among nations producing palmarosa oil and is the chief supplier of this important raw material for perfumery manufacture, earning foreign exchange worth Rs. 3 million annually.

Pine Oil: The first pine oil factory in the country was started at Hoshiarpur in the Punjab. Three others were set up thereafter. It produces pine oil, dipentine and pine tar. This factory is claimed to have resulted in the saving of foreign exchange to the tune of Rs. 3 to Rs. 4 million annually. Another factory to produce high quality pine oil is being set up in Jammu.

RESEARCH: The Central Government has sanctioned Rs. 38 million for a comprehensive all India co-ordinated research project on oil-seeds to be conducted under the Indian Council of Agricultural Research.

The centres for conducting research for different oil-seeds are as follows:

Groundnut: The main centres are at Ludhiana in Punjab for northern region, Tindivanam in Tamil Nadu for south-eastern region, and Rajendranagar in Andhra Pradesh for southern region. The sub-centres are located at Mainpuri in Uttar Pradesh, Pollachi in Tamil Nadu, Kadria and Sambalpur in Madhya Pradesh, and Raichur and Dharwar in Karnataka.

Castor: Rajendranagar in Andhra Pradesh is the main centre and Salem in Tamil Nadu and Raichur in Karnataka are the sub-centres.

Sesamum: The main centres are at Coimbatore, Tamil Nadu for southern region; Jabalpur, Madhya Pradesh for central region; and Sumerpur, Rajasthan for northern region. The sub-centres are at Karimnagar and Visakhapatnam in Andhra Pradesh; Bhubaneshwar, Orissa; Urmala, Maharashtra; and Jhansi, Madhya Pradesh.

Linseed: Kanpur, Uttar Pradesh is the main centre and Patna, Bihar, and Jhansi and Jabalpur in Madhya Pradesh are the sub-centres.

Rapeseed and Mustard: The main centres are at Berhampore, West Bengal; Kanpur, Uttar Pradesh; and Hissar, Haryana. The sub-centres are at Purnea, Bihar, Pantnagar, Uttar Pradesh and Gurgaon, Haryana.

VANASPATI

There are 90 vanaspati units in the country with an annual installed capacity of 1.4 million tonnes (based on groundnut oil usage). Taking into account other types of oil being used presently, the effective capacity is 1.05 million tonnes. Part of this capacity is utilised by the industry for manufacture of other refined vegetable oils. The production of vanaspati (in tonnes) for the last five years is as follows:
1978: 657,000; 1979: 638,000; 1980: 706,000; 1981: 847,711; 1982: 886,892.

Government Policy: Licences for the establishment of new units are granted only to public sector, oilseed growers' co-operatives and joint sector in backward regions. Installed capacity is sufficient to meet foreseeable demand for vanaspati.

The quantum of imported edible oils for use in vanaspati is fixed at 60 per cent of the industry's requirement so as to conserve the indigenous edible oils for direct consumption.

Public Sector: The Government Hydrogenation Factory at Kozhikode, Kerala, The Ganesh Flour Mills Co., Delhi and Kanpur, Amritsar Oil Works, Amritsar and Bhavnagar Vegetable Products, Bhavnagar are the factories in the public sector. Licences have been given for expansion of the units of GFM and establishment of 2 new units by N.D.D.B. in Gujarat and Madhya Pradesh. The licensed capacity will be 200,000 tonnes per annum.

No. of Persons Employed: About 15,000 directly and about 60,000 indirectly.

Publications: 'Oil and Oil-seeds Journal', a monthly brought out by the Bombay Oil-seeds and Oils Exchange Ltd., Jenabai Bldg., M. Bunder Rd., Bombay 400003; 'Oil-seeds Market Review', a weekly market report, 51-A, Mittal Chambers, Nariman Point, Bombay 400021.

SPICES

SPICES, often hailed as "grey gold", have very ancient links with the expansion of the great Roman Empire and the stable economy of Babylonia. Interestingly, it was spices that spurred Christopher Columbus to set out on his exploratory new route to the East which eventually led to the discovery of the New World. Babylonian and Assyrian doctors found in spices effective remedies for many ills.

India, the traditional home of spices, attracted foreign traders and even brought the Portuguese to India's shores. Marco Polo in his travelogue recounts the busy and bustling trade in India. Even pitched battles have been fought for monopoly of the spice trade.

Indian spices are of the finest quality and today the demand for them has considerably increased in all countries.

PEPPER

Pepper, known as the 'King of Spices', is the most important foreign exchange earner among the spice crops. The Indian black pepper is considered to be superior in quality and fetches a better export price.

Pepper production in India accounts for about 20 per cent of the total world production of about 150,000 tonnes. More than 80 per cent of Indian production is exported every year.

The major portion of pepper cultivation is done in Kerala. Efforts are also being made to develop cultivation of pepper in Andhra Pradesh, West Bengal, Orissa and Andaman & Nicobar Islands. Development of hybrid pepper is also on the anvil. During 1982-83, 0.15 million seedlings of rooted pepper cuttings were distributed among growers.

State-wise break-up of area and production for the year 1981-82 is given in Table I.

Export of black pepper during 1980-81 was 26,305 tonnes valued at Rs. 387.04 million and during 1981-82, 20,608 tonnes valued at Rs. 279.84 million.

Also 49 tonnes of dehydrated green pepper valued at Rs. 2.13 million, 338 tonnes of green pepper in brine valued at Rs. 4.16 million and 8 tonnes of white pepper valued at Rs. 0.28 million were estimated to be exported during the year 1981-82.

Average per hectare yield of pepper during 1981-82 was 269 kgs.

CARDAMOM

Cardamom, known as the 'Queen of Spices' usually earns the second highest amount of foreign exchange among spices. Indian exports amount to 30 per cent of the total world exports. Guatemala, Tanzania and Sri Lanka are other major producers and exporters. State-wise break-up of area and production of cardamom in these states during 1981-82 is as follows:

State	Area ('000 hectares)	Production ('000 tonnes)
Kerala	54.5	3.4
Karnataka	27.8	1.6
Tamil Nadu	4.5	0.4
Total	86.8	5.4

Production during 1982-83 is estimated at 2,900 tonnes.

Exports of cardamom (small) during 1980-81 were 2,373 tonnes valued at Rs. 350.45 million and during 1981-82, 2,386 tonnes valued at Rs. 311.11 million.

Exports of cardamom (big) during 1980-81 were 225 tonnes valued at Rs. 5.31 million and during 1981-82, 98 tonnes valued at Rs. 1.98 million.

Average per hectare yield was 62 kgs. during 1981-82.

GINGER

India is the leading ginger producing country and accounts for about 50 per cent of dry ginger output in the world. Cochin ginger produced in Kerala state is regarded as second only to Jamaican ginger which is considered to be the best variety in the world. China, Sierra Leone, Australia and Nigeria are the other producing countries.

Area and production of ginger in the country during 1981-82 is given in Table I. Ginger is exported in three forms: Green (fresh), pickled or processed and dry. Export of ginger during 1980-81 was 6,841 tonnes valued at Rs. 36.80 million and during 1981-82, 4,718 tonnes valued at Rs. 39.53 million.

Average yield per hectare was 1,973 kgs. during 1980-81.

CHILLIES

Chillies are of tropical origin and are exported mainly from India, China, Pakistan, Mexico, Indonesia, Hungary and Poland. The cultivation of chillies is widely scattered throughout India. Its annual consumption varies from region to region in the country. Its consumption is more in Andhra Pradesh, Maharashtra and Tamil Nadu. In Punjab, Bihar, Uttar Pradesh and Orissa consumption is lower. State-wise break-up of area and production of chillies during 1981-82 is given in Table I.

Exports during 1980-81 was 7,682 tonnes valued at Rs. 55.56 million and during 1981-82, 4,659 tonnes valued at Rs. 42.06 million.

Average yield per hectare of chillies was 659 kgs. during 1981-82.

TURMERIC

India is the world's largest producer and exporter of turmeric. The major turmeric growing states are Andhra Pradesh, Maharashtra, Bihar, Tamil Nadu and Orissa. State-wise break-up of area and production during 1981-82 is given in Table I.

Exports during 1980-81 was 14,553 tonnes valued at Rs. 78.84 million and during 1981-82, 11,986 tonnes valued at Rs. 51.74 million.

Average per hectare yield of tumeric was 1,957 kgs. during 1981-82.

SAFFRON

The major state in India cultivating saffron is Jammu and Kashmir. Area under saffron during 1980-81 was 2,615 hectares and production 9,831 kgs. During 1981-82 they were 3,022 hectares and 10,133 kgs.

Average per hectare yield was 3,353 kgs during 1981-82.

OTHER SPICES

Cumin, Fennel, Fenugreek, Celery, Dill, Ajowan are othe spices exported from India. Exports during 1980-81 were 33,30 tonnes valued at Rs. 244.62 million and during 1981-82, 17,63 tonnes valued at Rs. 148.50 million.

During 1982-83, 350 demonstration plots for clove and nutmeg were also laid out. Andaman and Nicobar Islands have been found to have soil suitable for the cultivation of clove, nutmeg and cinnamon.

Spice oils and oleoresins: India has recently emerged as a potential major producer and exporter of spice oils and oleoresins.

USA, West Germany, Canada, UK, Australia, Holland, France, Belgium, Yugoslavia, Japan are the major importers of spice oils and oleoresins.

The following quantities of spice oils and oleoresins were exported during 1980-81 and 1981-82.

Export duty: The export duty levied on pepper has been lifted. Export duty of Rs. 1,500 per tonne on turmeric powder and Rs. 2,000 per tonne on other types of turmeric has been lifted recently.

Export of spice oils and oleoresins

(Quantity — tonnes; Value — '000 Rs.)

Item	1980-81		1981-82	
	Quantity	Value	Quantity	Value

Total	152.9	21,793	167.1	26,261

GENERAL

Grading of spice commodities according to Agmark specifications has been made compulsory under the Sea Customs Act for export trade. Indian spices exports have increased from 166 million in 1960-61 to Rs. 729.60 million in 1976-77 (56,000 tonnes) and to Rs. 1,358 million in 1977-78 (73,000 tonnes). Exports during 1978-79 are estimated at Rs. 1,602 million (99,945 tonnes) and during 1979-80 Rs. 1,354 million (85,898 tonnes).

During the year 1980-81 the exports of spice crops are estimated at Rs. 1,304.2 million (273,297 tonnes).

The spices Export Promotion Council has a research and development cell which screens the problems regarding quality of spices exported.

TABLE I

State-wise area and production of spices during 1981-82

(Area '000 hectares — Production '000 tonnes)

State	Pepper		Ginger*		Turmeric		Chillies

Regulated market: With a view to preventing exploitation of producers and getting better prices for their produce several markets have been regulated under Agricultural Produce Market Act. About 179 markets for chillies, 60 for turmeric, 42 for garlic, 31 for ginger, 7 for black pepper and 3 for cumin are functioning in different states of India.

Research: The agricultural research on spices is being carried out at the **Central Plantation Crops Research Institute** (ICAR), Kasaragod and its regional stations and at the Agricultural Universities. The All India Co-ordinated Vegetable Improvement Project functioning at Indian Agricultural Research Institute carries out research on chillies. Research on post harvest technology and processing of spices is being done at Central Food Technological Research Institute, Mysore and Regional Research Laboratories particularly at Trivandrum.

Development: The Central Government has constituted **Indian Spices Development Council** consisting of Government officials and non-officials representing growers, traders and other interests. It reviews the development work already in progress and under recommendations. The development programmes are planned, prepared and the implementation coordinated by the **Directorate of Cocoa, Arecanut and Spices Development** functioning at 1/500, Cannanore Road, Calicut 673005, Kerala.

Development programmes now under implementation are: i) large-scale multiplication and distribution of rooted cuttings of hybrid pepper 'Penniyur-I' by establishing nurseries, ii) production and distribution of seedlings of clove and nutmeg and seeds of high yielding varieties of other spices, iii) implementation of package scheme providing for field demonstrations to promote cultivation of the hybrid pepper, clove and nutmeg and adoption of scientific package of practices and iv) a special package scheme aiming at increasing the productivity of the existing pepper gardens and bringing additional area under the crop.

Publications: 1) 'Spices Newsletter' (Monthly) and 'Indian Spices' (Quarterly) brought out by the Spices Export Promotion Council, Cochin; 2) 'Indian Cocoa, Arecanut and Spices Journal' (Quarterly), Directorate of Cocoa, Arecanut and Spices Development, Calicut; 3) 'Journal of Plantation Crops' (Half-yearly), Indian Society for Plantation Crops, Central Plantation Crops Research Institute, Kasaragod; 4) 'Cardamom' (Monthly), Cardamom Board, Cochin.

TOBACCO

THE history of tobacco goes back to the times when Christopher Columbus and other explorers discovered and explored America. They found the natives using tobacco in much the same way as is used nowadays. In the initial stages it was found to have medicinal properties and was on that account introduced in Europe. The genus nicotiana associated with tobacco is said to have been named after Jean Nicot, the French ambassador at Lisbon, who despatched seeds of N. tabacum to Queen Catherine of France.

Virginia tobacco as the name suggests is one of the best quality tobacco to be grown in India. It owes its origin to Virginia in the U.S. and is one of the top foreign exchange earners.

India is one of the three major producers of tobacco in the world, the other two being U.S. and China. Next to sugar, tobacco is an important item in India's foreign trade.

The chief tobacco-growing States in India are: Andhra Pradesh, Gujarat, Karnataka, Tamil Nadu, Orissa, Bihar, West Bengal and Maharashtra. Of these Andhra Pradesh ranks first, Gujarat comes next, while Karnataka holds the third position. The black porous soil in these States is very favourable for the cultivation of quality grades of tobacco.

The present total number of cigarette factories in the private sector is 19, of which 5 are in Maharashtra, 5 in Andhra Pradesh, 2 each in West Bengal and Uttar Pradesh and 1 each in Karnataka, Bihar, Madhya Pradesh, Tamil Nadu and Gujarat. Letters of intent have also been issued to set up cigarette factories. The cigar industry is concentrated in Tamil Nadu, whilst the production of *bidis* is a cottage industry on a country-wide basis.

The first joint sector cigarette factory at Bari Brahman, 18 kms. south of Jammu has been put up by the state-owned Jammu & Kashmir Industrial Development Corporation and the Golden Tobacco Co., Ltd. The factory has attained a production level of 1.5 million cigarettes per day.

There are about 19 *zerda* (Chewing tobacco) manufacturing factories and 3 snuff factories in the country situated mostly in Tamil Nadu and Uttar Pradesh.

Public Sector: The State Industrial Development Corporation of Assam, Haryana, Jammu and Kashmir, Kerala and Tamil Nadu have each been isued a letter of intent to set up a cigarette manufacturing unit. Each unit will have a capacity of 4,500 million cigarettes annually, except the unit in Assam which will have a capacity to produce 3,000 million pieces per year. An application from the Madhya Pradesh Industrial Development Corporation is reported to be under consideration.

No. of Persons Employed: It is estimated that about 700,000 growers and 500,000 curers are engaged in tobacco cultivation. In the manufacturing sector, the total number of persons employed is estimated at 3 million of which, 2 million are in the *bidi* industry. About 14,000 are employed in the cigarette industry.

Ranking in the World Market: India is the third most important tobacco-producing country next only to mainland China and U.S.A. and accounts for about 7.9 per cent of the total world tobacco production.

LOCATION OF THE INDUSTRY: The following table gives the area and production of tobacco in India in 1981-82.

Area: '000 hectares
Production : Million Kg.

State/Union Territory	1980-81		1981-82

Chewing	82.1	85.3	80.0	85.0
Snuff	7.0	7.5	6.4	7.6
Total	451.5	480.8	448.3	525.3

PRODUCTION

India produces several types of tobacco which fall under two botanical species, namely Nicotiana Tabacum and Nicotiana Rustica.

Virginia Tobacco: The all India production of Virginia Tobacco in 1981-82 was 137.7 million kgs. from an area of 152.9 thousand hectares.

Production of Cigarettes: During 1981, the output of cigarettes in India was 86,838 million pieces.

Production of *Bidis*: It is estimated that about 300 million pieces of *bidis* are manufactured annually.

EXPORTS

India is the third biggest exporter of tobacco in the world next to the U.S. and Turkey and tobacco holds the 13th place in India's export trade. The U.K., U.S.S.R., Japan, Bangladesh, Italy and the Netherlands are the largest importers of Indian tobacco.

During 1981-82, India exported 107 m. Kg. of flue-cured tobacco valued at Rs. 1,950 m., against 94 m. Kg. valued at Rs. 1,240 m. in 1980-81. The Soviet Union was the largest buyer followed by China and the United Kingdom. *Bidis*, cigarettes and hookah tobacco paste exports together fetched Rs. 210 m. in 1981-82.

Exports of tobacco and tobacco products from India—Variety-wise

Quantity: '000 kg.; Value: '000 Rs.

	1980-81	
Variety	Quantity	Value
Tobacco Unmanufactured		
For manufacture of Bidi	1,908.7	13,247.0
For manufacture of Chewing tobacco	6,223.0	38,239.6
Sun-cured Natu (Country)	316.5	3,571.0
Virginia Flue-cured		1,158,030.8
Virginia Sun-cured	826.4	6,457.6
Burley tobacco	822.6	10,627.9
For manufacture of Cigar and Cheroot	25.0	123.0
For Hookah tobacco	196.4	1,165.3

Export Duty: With the devaluation of rupee in June, 1966, an export duty of 75 paise per kg. or 20 per cent *ad valorem*, whichever is lower, was levied on unmanufactured tobacco.

Export Promotion Agency: Tobacco Board, Old Club Rd., Kothapeta, Guntur 522001, Andhra Pradesh.

Statutory grades for all the varieties of unmanufactured tobacco entering the export trade have been prescribed by the Government for strict quality control.

Nearly 80 per cent of the tobacco produced is locally consumed and the rest is exported.

Quantity of raw tobacco cleared for home consumption in India

(Quantity: Million kg.)

Variety	1977-78	1978-79
Flue-cured Virginia Tobacco	43.8	41.0
Other than flue-cured and used for the manufacture of cigarettes, and smoking mixtures for pipes and cigarettes	29.8	28.7
Total	73.6	70.3
Other than flue-cured and intended for manufacture into:		
(i) (a) Bidi	104.1	98.9
(b) Others	30.1	33.4
Total Bidi Tobacco	134.2	132.3
(ii) Cigar & Cheroot	14.4	12.8

(vi) Others	1.2	1.4
Agricultural Purposes	31.8	41.9
Destruction	3.6	7.3
Special Industrial Purposes	19.0	17.3
Stalks	14.3	12.8
Miscellaneous	1.4	1.0
Total	361.0	360.3

Source: Directorate of Statistics & Intelligence.

Consumption of Cigarettes: The per capita consumption rate per month in India is about 10, as against 217 in US, 176 in UK, 170 in Japan, 168 in Singapore, 70 in Malaysia, 24 in Pakistan, 20 in Sri Lanka and 13 in Nepal.

Tobacco in each Cigarette: A regular ordinary cigarette of 7 mm length contains 1.05 gm. to 1.12 gm. of tobacco.

GENERAL

The nicotine content in Flue-Cured Virginia tobacco grown in India ranges between 0.6 per cent to 3 per cent. Nicotine content is lower in Virginia tobacco grown in light soil areas and high in tobacco grown in heavy black soil.

Tobacco is an excisable commodity and its movements, processing and manufacture from the stage of harvesting till it is consumed or exported are controlled by the Central Board of Excise and Customs of the Ministry of Finance.

Research: Research programmes on tobacco are implemented by the Indian Council of Agricultural Research. The Council has initiated an All India Coordinated Research Project on tobacco with its headquarters at Anand (Gujarat) with a view to conducting research for all round improvement of Indian tobacco.

The Central Tobacco Research Institute at Rajahmundry in Andhra Pradesh is mainly devoted to the investigation of fundamental problems connected with various aspects of tobacco. It also co-ordinates the work of other tobacco experimental farms and research stations (listed below), spread all over the country, which are carrying out research on different types of tobacco grown in the concerned regions.

1. Tobacco Research Station, Guntur, Andhra Pradesh.
2. Tobacco Research Station, Pusa, Bihar.
3. Bidi Tobacco Research Scheme, Anand, Gujarat.
4. Tobacco Research Station, Hunsur, Karnataka.
5. Bidi Tobacco Research Station, Nipani, Karnataka.
6. Tobacco Research Station, Vedasandur, Tamil Nadu.
7. Tobacco Research Station, Dinhata, West Bengal.

India Tobacco Co. Ltd., and their sister concern Indian Leaf Tobacco Development Co. Ltd., are conducting research on various aspects of tobacco at their research centre in Rajahmundry, Andhra Pradesh. Recently the company has established an integrated research centre at Bangalore.

The Indian Tobacco Development Council of the Government, formulates the tobacco development programmes, reviews the progress and considers the problems of marketing, trade and price policy.

The Tambaku Vikas Nideshalaya (Directorate of Tobacco Development) in the Ministry of Agriculture, with its headquarters at 3-A, Eldams Rd., Teynampet, Madras 600018, implements the development schemes, channels Government finances and renders technica advise and guidance.

Besides the development schemes, Tobacco Extension Units are also operating in the tobacco growing areas under the control of Agricultural Department of the State Governments for educating and training the farmers in the improved methods of harvesting, handling and curing of tobacco.

The average **Per Hectare Yield** of tobacco in India during the last few years is given in the table below:-

Year			All tobacco (kgs.)	Virginia tobacco (kgs.)
1973-74	..	..	989.0	943
1974-75	..	..	955.5	836
1975-76	..	..	950.0	794
1976-77	..	..	965.5	673
1977-78	..	..	988.9	810
1978-79	..	..	1,097.8	837

FERTILISERS

CHEMICAL fertilisers constitute vital ingredients of modern agriculture. In 1951-52 i.e. at the beginning of the first Five-Year Plan consumption of fertilisers was a bare .07 million tonnes, nearly 90 per cent of it in the form of nitrogenous fertilisers. There has been significant increase in fertiliser consumption since then, thanks to the concerted efforts made by the Centre and the states. To popularise the use of fertilisers among farmers, field trials, composite demonstrations and education through the mass media were introduced. Increased use of fertiliser was an important element of the strategic programmes such as National Extension Service. Intensive Agricultural Development Programme (IADP) and Intensive Agricultural Area Programme (IAAP) launched in the fifties and the early sixties. However, a real breakthrough in the use of fertiliser came only in the late 1960s with the introduction of dwarf, high-yielding varieties of wheat and rice which required large doses of fertiliser compared with traditional varieties to give better results. As a result, there was almost a four-fold increase in fertiliser use since 1965-66.

There are 36 fertiliser units producing a wide range of straight nitrogenous, complex and phosphatic fertilisers. Besides, there are 38 units producing single super phosphate and 6 units producing ammonium sulphate as by-products from steel plants. The capacity of nitrogen in the beginning of 1981-82 was 4.7 million tonnes. Since then, two more plants, namely, Kandla (expansion) and Kanpur (expansion) have gone into commercial production. By the end of 1981-82, three more plants, namely, Trombay V, Bharuch and Haldia are expected to be commissioned. The capacity of Nitrogen had increased to 5.1 million tonnes by the end of 1982-83. The capacity for phosphatic fertilisers was 1.4 million tonnes in 1981-82. With the commissioning of new plants it is expected that the capacity will increase to 1.47 million tonnes by 1983-84.

The demand for fertilisers by the end of the Sixth Five-Year Plan (1984-85) is projected as 6 million tonnes of nitrogen and 2.3 million tonnes of P_2O_5. The demand is expected to increase to about 8.5 million tonnes of nitrogen and 3.5 million tonnes of P_2O_5 by the end of the 7th Five-Year Plan (1989-90). The production from the plants now in operation or under implementation will not be adequate to meet the projected demand for fertilisers. Keeping this in view, it is proposed to take up, in a phased manner, construction of eight new nitrogenous fertiliser plants and 11 phosphatic fertiliser plants in the Sixth Plan period. Six of the eight nitrogenous fertiliser plants will be based on gas and one each is expected to be based on naphtha and coal. The coal-based plant would, however, be considered only after the techno-economic viability of coal-based plants is established by the operating experience of the Ramagundam and Talcher plants. The setting up of the naphtha based plant would depend on availability of surplus naphtha from the Mathura Refinery for fertilisers production. A site selection committee was appointed to recommend the location of the gas-based plants; its report has been received and is under consideration.

The retention price scheme introduced for nitrogenous fertilisers from November 1, 1977 and for phosphatic fertiliser from February 1, 1979, continues to be in force.

The scheme of fertiliser freight subsidy introduced from November 1, 1977, also continues to be in force. Under this scheme, the manufacturers have been encouraged to move fertilisers up to the block headquarters in order to ensure to the maximum extent possible, the availability of fertilisers in the interior areas in adequate quantities and in time.

The present feedstock policy for fertilisers envisages development of additional fertiliser capacity based mainly on gas and coal. While gas has to be accorded the first preference, consideration would be given to setting up of more coal-based fertiliser plants, on the experience of the two recently commissioned coal-based plants at Talcher and Ramgundam has become available and it has been established that the coal-gasification technology is viable for large-scale fertiliser production. Naphtha as a feedstock for fertiliser would be considered in case of a long term disposal problem at an inland location or where an existing plant at inland location can be expanded at relatively lower capital cost and completed in quick time.

The sector-wise distribution of the anticipated fertiliser capacity in the country is as follows:

	Nitrogen		P_2O_5	
	Capacity (lakh tonnes)	% to total capacity	Capacity (lakh tonnes)	% to total capacity
Public sector	31.42	59.3	7.40	49.7
Private sector	16.70	31.5	4.90	32.9
Cooperative sector	4.88	9.2	2.60	17.4
Total	53.00		14.90	

PRIVATE SECTOR

There are 8 large and 2 small fertiliser plants producing nitrogenous and complex fertilisers and 29 small units producing single superphosphate in the private sector with a total capacity of 1.4 million tonnes of nitrogen and 0.5 million tonnes of P_2O_5. The large private sector units are: *(i)* Gujarat State Fertilizer Co. Ltd., Baroda; *(ii)* Shriram Fertilizers and Chemicals, Kota; *(iii)* Indian Explosives Ltd., Kanpur (Existing Plant); *(iv)* Indian Explosives Ltd., Kanpur (Expansion Plant); *(v)* Zuari Agro-Chemicals Ltd., Goa; *(vi)* Mangalore Chemicals and Fertilizers, Mangalore; *(vii)* Southern Petrochemical Industries Corporation, Tuticorin; *(viii)* Coromandel Fertilizers Ltd., Vizag.

PUBLIC SECTOR

Fertilizer Corporation of India Ltd. (FCI): It has five operating units, namely, Sindri Modernisation, Sindri Rationalisation, Gorakhpur, Talcher and Ramagundam with a total capacity of 0.8 million tonnes of nitrogen and 0.15 million tonnes of P_2O_5. The authorised share capital of the company as on March, 31, 1981 was Rs. 8,000 million and the paid-up capital Rs. 3,956 million.

Hindustan Fertilizer Corporation Ltd.: Consequent upon the re-organisation of the erstwhile Fertilizer Corporation of India in April, 1978, Hindustan Fertilizer Corporation Ltd. (HFCL) was incorporated with an authorised share capital of Rs. 5,000 million. The paid-up share capital as on April 1, 1981 is Rs. 2,550.6 million.

HFC has three units in production and two projects under construction. The operating units are at Namrup (including Namrup Expansion) in Assam, Durgapur in West Bengal and Barauni in Bihar. There are two projects under construction, one at Haldia in West Bengal and the other at Namrup (designated Namrup-III) in Assam. The Haldia complex has already started production of urea and ammonia since 1983.

Rashtriya Chemicals and Fertilizers Ltd.: Consequent upon the re-organisation of the erstwhile Fertilizer Corporation of India in April, 1978, Rashtriya Chemicals and Fertilizers Ltd. (RCFL) was incorporated under the Indian Companies Act, 1956. The new company took over the Trombay Unit, Trombay Expansion (Trombay-IV) and Trombay-V, West South Marketing Zone and the Bombay Purchase and Liaison Office, which had formed part of the Fertiliser Corporation of India earlier. As on 1-4-1981 the authorised share capital of the company stands at Rs. 5,000 million and the paid-up share capital at Rs. 2,174.8 million.

Fertilisers And Chemicals Travancore Ltd. (FACT), Udyogmandal 683501, Kerala. The first factory in India to manufacture chemical fertilisers on a commercial basis, now a Government of India Enterprise. It consists of: two production units—one at Udyogmandal and the other at Ambalamedu; a design and consultancy division named FACT Engg. and Design Organisation (FEDO); a fabrication and erection division named FACT Engg. Works (FEW); and a marketing division. The Udyogmandal Division produces ammonium sulphate, superphosphate, ammonium phosphate 16:20 20:20, ammonium chloride and synthetic cryolite. The Cochin Division produces urea and NPK complex fertilisers. FEDO is equipped to take up turn-key contracts for the design and engg. of chemical and fertiliser plants, hydrometallurgical processing and pharmaceutical plants, etc. FEW caters to the specialised needs of the chemical and fertiliser industry in the field of fabrication of plant and equipment as well as structural and erection works.

FACT Engineering and Design Organisation (FEDO): FEDO is securing orders for a number of turn-key projects, feasibility studies, consultancy assignments, etc. for fertiliser and chemical plants: A major assignment is for consultancy services for the ammonia plant of the new gas-based fertiliser project of Krishak Bharati Co-operative Ltd. (KRIBHCO) at Hazira in Gujarat. Under this assignment, FEDO is associated as a sub-contractor with Messrs. MW Kellogg of U.S.A. FEDO has also signed another agreement with Messrs. MW Kellogg through which the latter will transfer to FEDO their ammonia technology. This would enable FEDO to set up ammonia plants based on Kellogg technology with minimum external assistance.

National Fertilizers Ltd.: NFL was incorporated on August 23, 1974, with an authorised capital of Rs. 1,500 million, for the establishment of fertiliser plants in the north-western region. On the re-organisation of Fertilizer Corporation of India and National Fertilizers Ltd., with effect from April 4, 1978, NFL took over the old Nangal Unit and Nangal Expansion Project from FCI. With the commissioning of the Bhatinda and Panipat plants, the company has at present four operating units, viz., the Calcium Ammonium Nitrate Plant at Nangal and the Urea Plants at Nangal, Bhatinda and Panipat. As on March 31, 1981, the authorised capital of the company was Rs. 4,000 million and the paid-up capital was Rs. 2,742.7 million.

Madras Fertilisers Ltd., Manali, Madras 600068 (Tamil Nadu), with an annual capacity of 176,000 tonnes of nitrogen and 112,000 tonnes of phosphates commenced production in November, 1971. It is a joint venture in which the Government of India holds 51 per cent of the equity capital while the remaining 49 per cent is equally shared between Amoco India Incorporated of USA and the National Iranian Oil Co. of Iran.

Gujarat Narmada Valley Fertilisers Company Ltd., P.O. Narmadanagar - 392015. Dist. Bharuch, Gujarat: Jointly promoted by Government of Gujarat and Gujarat State Fertilisers Co. Ltd., the Gujarat Narmada Valley Fertilisers Company Limited (GNFC) is the world's largest single stream Ammonia-Urea plant (capacity: Urea 1800 TPD, Ammonia 1350 TPD). It went into commercial production in July, 1982.

TABLE 1 : GROWTH OF FERTILISER INDUSTRY

	Capacity during the period ('000 tonnes)		Financial outlay during the period (Rs. million)		
	N	P_2O_5	Public sector	Private sector	Total
I. In production					
Before 1947	5 (5)	63 (63)	8 (8)	25 (25)	33 (33)
At the end of 1947	5 (10)	5 (68)	55 (63)	4 (29)	59 (92)
At the end of 1950	— (10)	34 (102)	4 (67)	12 (41)	16 (108)
1951-56 (I Plan)	90 (100)	4 (106)	537 (604)	4 (45)	541 (649)
1956-57 (II Plan)	21 (121)	22 (128)	45 (649)	53 (98)	91 (747)
1961-66 (III Plan)	349 (470)	146 (274)	1138 (1787)	82 (180)	1220 (1967)
1966-69 (Annual Plan)	385 (855)	160 (434)	945 (2732)	1193 (1373)	2138 (4105)
1969-74 (IV Plan)	1002 (1947)	147 (581)	1931 (4663)	1795 (3108)	3725 (7831)
1974-75 (V Plan)	1327 (3274)	536 (1117)	7368 (12031)	2870 (5538)	9738 (17560)
1979-80	628 (3902)	167 (1284)	7357 (19383)	35 (5578)	7392 (24961)
1982-83 (Third year for VI Plan)	1276 (5178)	228 (1512)	8468 (27851)	5804 (11382)	14272 (39233)
II. Under implementation	1921 (7099)	609 (2121)	26350 (54201)	1934 (13316)	28284 (67517)
III. Approved in principle	2500 (9599)	521 (2642)	30550 (84751)	13580 (26896)	44130 (111647)
IV. Under consideration	395 (9994)	512 (3154)	8000 (92751)	1400 (28296)	9400 (121047)

Figures in brackets represent cumulative totals.

Narmada Urea is available to farmers in Uttar Pradesh, Punjab, Haryana, Rajasthan, Gujarat, Madhya Pradesh and Maharashtra —nearly 50 per cent of the country's farming community.

By-products: Liquid Ammonia 270 TPD, Liquid Nitrogen 6 million litres per year, Liquid Oxygen 2 million litres per year and Sulphur 25 TPD.

Paradeep Phosphates Ltd.: Government has set up a new public sector undertaking known as the Paradeep Phosphates Ltd. for implementing a phosphatic fertiliser project at Paradeep in Orissa. The company was incorporated on December 24, 1981, with its registered office at Bhubaneswar in Orissa. The company will have an authorised capital of Rs. 1,200 million.

Fertiliser (Planning & Development) India Ltd. *(FPDIL)*: It is a new separate engineering company formed out of the Planning and Development Division of the erstwhile Fertilizer Corporation of India Ltd., started functioning from April 1, 1978 with an authorised share capital of Rs. 80 million.

TABLE II

LEVEL OF FERTILISER CONSUMPTION IN INDIA

Year	Consumption of fertiliser (in lakh tonnes)			
	N	P	K	Total
1951-52	0.6	0.1	—	0.7
1960-61	2.1	0.5	0.3	2.9
1965-66	5.7	1.3	0.8	7.8
1970-71	14.8	5.4	2.4	22.6
1971-72	18.0	5.6	3.0	26.6
1972-73	18.4	5.8	3.5	27.7
1973-74	18.3	6.5	3.6	28.4
1974-75	17.7	4.7	3.4	25.8
1975-76	21.5	4.7	2.8	29.0
1976-77	24.6	6.3	3.2	34.1
1977-78	29.1	8.7	5.1	42.9
1978-79	34.2	11.1	5.9	51.2
1979-80	34.9	11.5	6.1	52.6
1980-81	36.8	12.1	6.2	55.2
1981-82	40.7	13.2	6.7	60.6
1982-83 (anticipated)	42.6	14.2	7.4	64.2

Pyrites, Phosphates and Chemicals Ltd. (PPCL): It was set up in March, 1960, initially as a subsidiary of the National Industrial Development Corporation Ltd. It assumed independent status in September, 1963. It is engaged in the exploitation of pyrites deposits at Amjhore in Bihar, in exploratory-cum-production mining of pyrites deposits at Saladipura in Rajasthan and in mining of rock phosphate ore from the Mussoorie phosphorite deposits. The pyrites are used as a substitute for sulphur in the manufacture of sulphuric acid and also as soil amendment material. The rock phosphate mined is powered and supplied for direct application as a source of P_2O_5 in acidic soils. The authorised capital of the company as on March 31, 1981 was Rs. 150 million.

Imports: Although the production of fertilisers has shown a substantial improvement during the past two decades, it still falls far short of our requirements. In the event, recourse to imports has been a fixed feature of India's fertiliser scene. This situation is unlikely to be reversed in the near future mainly because the production targets envisaged for the next decade or so lag behind the likely increase in consumption. For example, in 1983-84, the estimated indigenous production of fertilisers is put at only 4.55 million tonnes of nutrients as against the demand for 7.2 million tonnes of nutrients.

Although imports are hopefully likely to be curtailed as rate of domestic production picks up, it is the officially stated policy to import fertilisers so that this vital agricultural input is made available to the farmers in adequate quantities so that the tempo of farm production does not suffer adversely. A synoptic view of the trend in imports of fertilisers is presented below:

Year	Quantity (lakh tonnes)	Value (Rs. million)
1952-53	0.47	46
1960-61	4.19	122
1965-66	4.13	412
1970-71	6.29	768
1971-72	9.97	900
1972-73	11.94	1,213
1973-74	12.42	1,768
1974-75	16.07	5,991
1975-76	16.35	7,228
1976-77	10.51	2,204
1977-78	15.21	3,064
1978-79	19.94	4,600
1979-80	20.01	5,545
1980-81	27.59	9,252
1981-82	20.41	7,166
1982-83	11.32	2,735

TABLE III

CAPACITY, PRODUCTION AND CAPACITY UTILISATION

(Capacity and Production in '000 tonnes)

Year	Capacity		Production		Percentage of Capacity utilisation	
	N	P	N	P	N	P
1973-74	2,204	708	1,050	325	48	46
1974-75	2,625	879	1,186	331	45	38
1975-76	3,024	927	1,508	320	50	35
1976-77	3,065	1,042	1,862	478	64	56

1979-80	3,902	1,287	2,224	763	63	65
1980-81	4,575	1,282	2,164	842	47	66
1981-82	4,719	1,418	3,144	949	67	67
1982-83	5,144	1,418	3,420	976	66	69
1983-84 (Target)	5,295	1,493	3,800	1,150	72	77

Manures and Composts: In India there are large quantities of biomass produced by the plant and animal systems, whose proper economic utility is not fully recognised. The biomass production under the tropical conditions is far more than under temperate conditions. It is estimated that about 1,000 million tonnes of organic wastes in the form of crop residues and another 300 to 400 million tonnes of cattle dung and animal droppings are available annually in the country. These materials contain approximately 6 million tonnes of nitrogen, 2.5 million tonnes of phosphate and 4.5 million tonnes of potassium. Even if a significant portion of these plant nutrients are efficiently recycled, not only our agricultural economy would improve but also crop land would become much better. It is estimated that the total rural compost, which could be prepared from these rural wastes, would be about 50 million tonnes; similarly urban wastes could also contribute about 15 million tonnes of compost. Besides, if the organic materials are utilised for biogas production, before the residue is used as manure, nearly 50 per cent of the rural domestic fuel requirements would be met. The utilisation of these natural manures in addition to chemical fertilisers is an important element in our agricultural strategy. Organic recycling not only helps in the beneficial utilisation of organic wastes but also helps to improve the environment of human habitat.

During the Sixth Plan period steps will be taken to use on a large scale the technology of composting based on locally available materials, including the designing of simple and low cost composter for the rural areas as well as economical big composter for the urban areas. In addition, intensive research work will be conducted to improve the quality of the compost by enriching it with plant nutrients. Steps will be taken to use sewage and sludge on a large scale for soil productivity as well as for energy (biogas). Detailed investigations will be carried out to find out the reliable data on the availability of organic wastes and to conduct a comparative study of the various procedures used in the utilisation of these wastes for the production of fuel and fertilisers. Research will also be undertaken for designing of machines for processing of bio-mass available locally for chopping, pellet making pyrolysis, gasification, etc. from the materials available locally. In view of the energy crisis and likely increase in the cost of inorganic fertilisers as well as their possible shortage, organic recycling will be given high priority during the plan period.

Biogas technology is based on the phenomenon of anaerobic decomposition of organic material, resulting in methane production which serves as a source of fuel for cooking, lighting, propelling engines, etc., and the residual organic matter as rich manure containing plant nutrients in a concentrated form. In India about 300 to 400 million tonnes of animal excreta is available as base for biogas production, besides bulk quantities of plant residues and other organic wastes which could also be mixed with the animal excreta for biogas production. It is estimated that if all these materials are utilised, about 70,000 million cubic metres of methane gas equivalent to about 160 million tonnes of fuelwood could be produced.

TABLE IV
PRODUCTION OF FERTILISERS—1951-52 TO 1983-84

('000 tonnes)

Year	Nitrogenous	Phosphatic	Total
1951-52	28.9	9.8	38.7
1952-53	53.1	7.9	60.5
1953-54	52.9	13.9	66.7
1954-55	68.5	14.3	82.8
1955-56	76.9	12.4	89.2
1956-57	78.8	17.6	96.4
1957-58	81.1	25.8	106.9
1958-59	80.8	31.0	111.8
1959-60	83.7	51.4	135.1
1960-61	112.0	53.7	165.7
1961-62	154.3	65.4	219.7
1962-63	194.2	88.3	282.5
1963-64	219.1	107.8	326.9
1964-65	243.2	131.0	374.3
1965-66	237.9	118.8	356.7
1966-67	309.0	145.7	454.7
1967-68	402.6	207.1	609.8
1968-69	563.0	213.2	776.2
1969-70	730.6	223.7	954.3
1970-71	832.5	228.1	1060.6
1971-72	949.2	290.3	1239.5
1972-73	1054.5	330.3	1384.8
1973-74	1049.9	324.5	1374.4
1974-75	1186.6	331.2	1517.8
1975-76	1508.0	319.7	1827.7
1976-77	1862.4	478.3	2340.7
1977-78	1999.8	699.9	2669.7
1978-79	2173.0	778.0	2951.0
1979-80	2224.5	763.1	2987.4
1980-81	2163.9	841.5	3005.4
1981-82	3144.0	949.0	4093.0
1982-83 (Estimated)	3420.0	976.0	4396.0
1983-84 (Target)	3800.0	1150.0	4950.0

Note: There is no indigenous production of potassic fertilisers which are entirely imported.

Considering the various advantages obtained through biogas plants, including less expensive renewable source of energy for cooking and lighting, etc., improved organic manure, better sanitation and better conservation of natural resources including a reduction in felling of trees, a massive biogas development programme to set up about one million family size plants and 100 community plants during the Sixth Five-Year Plan period is contemplated.

Selected fertiliser statistics relating to capacity, production, etc. are furnished in various Tables I to V.

PESTICIDES

PESTICIDES, it is aptly said, is the chemistry of human survival in a world of exploding populations and the growing spectra of new insects and pests which compete with mankind for food and space. It is perhaps the only weapon available to man to augment his food resources and save himself from the scourge of diseases spread by pests. Pest control as a weapon was visualised even in ancient texts like scriptures of all great religions like Hinduism, Islam, Christianity, Judaism and the latter day offshoots from these. Thus as long ago as 1000 B.C. the Greek poet Homer visualised for the modern man "the pest-averting sulphur". The Bible talks of the palmerworm, the locust, the cankerworm and pestilence. The Vedas talk of Brahmins using simple water ring to ward off ants which compete for his food. In 1850, Duchatel dusted sulphur on foliage. Then came Paris Green in 1867 and eight years later petroleum products like kerosene, coal oil and whale oil. In 1882, Bordeaux mixture was employed to stem downy mildew. At the beginning of this century the era of chemicals as a major input began and in 1922 airplane became the "insecticide tank" to keep cotton pests at bay. Synthetic organic fungicides made their appearance in 1940. Two years later Paul Muller's dream insecticide DDT made its debut for control of louse, a vector of typhus fever hitting soldiers in camps. By 1947 organic phosphorus insecticides were introduced. In 1956 antibiotics also lent their hand in saving plants from diseases.

The term Pesticides was coined in the forties as a collective group to cover materials called "economic poisons" and the like. They are broadly classified as: a) Insecticides for control of insect pests; b) Nematicides for checking nematodes; c) Fungicide for control of plant pathogens; d) Acaricide for control of mites; e) Weedicide (herbicide) for eradication of unwanted plants/weeds; and f) Rodenticide to check rodents. Others in the category are Molluscide, Algaecide, Plant Growth Regulants, Pheromones and Repellents.

Inorganic insecticides belonging to arsenical and fluorine groups were used in early days only to become obsolete because of toxicity hazards. Some of the commonly used plant origin insecticides are Nicotine, Pyrethroids and Rotenoids. Among the chlorinated hydrocarbons are DDT, BHC, Lindane, Chlordane, Heptachlor, Aldrin, Dieldrin and Endosulfan. Among the organophosphorus compounds are Parathion, Diazinon, Azinphos, Malathion, Carbophenethion, Dichlorvos, Methyl Demeton, Thiometon, Phosphamidon, Dimethoate, Menazon, etc. The carbamate group consists of carbaryl. Besides, antibiotics are also in the picture.

Economic and social benefits stemming from the use of pesticides are many. In 1968 pesticides helped West African countries to produce cocoa and cotton worth $139 million. The locust cycle against the war fought for 14 years was tamed in 18 months. In the U.S., $1.5 million will be lost if pesticides are denied to Illinois, Michigan, Minnesota and Wisconsin. Sri Lanka, Indonesia and South India lost tea production worth Rs. 32 crores because of failure to stem blight control.

Manufacture: In India prior to 1952 only pyrethrum extract and lime sulphur wash were prepared and used as pesticides. In that year a private concern established a BHC plant at Rishra, and three years later the Govt. of India set up a DDT plant in New Delhi. The scientific use of pesticides in plant protection and public health began in 1947.

The gradual demand for these two insecticides spurred the Govt. of India to set up in the public sector plants for basic chemicals. The Hindustan Insecticides Ltd. followed by Hindustan Organic Chemicals have their plants operating in Delhi, Maharashtra and Kerala. Whereas DDT technical is under public sector, BHC technical is produced in the private sector also.

Several agencies collaborate in saving grains from the seed to storage. The National Seeds Corporation is engaged in producing quality seeds treated with disinfectants while the Food Corporation of India adopts fumigation and rodent control steps to save produce.

Production and Consumption: By 1955, three technical pesticides were produced locally which rose to 9 in 1961. Today over 45 technical grade pesticides are produced in India. The Indian pesticide industry caters to the needs of agriculture as well as health programmes. Approximately 15—20 per cent of the total pesticide consumption is for public health and the balance goes to agriculture. Compared to developed countries like Japan, the U.S. and the West, the average consumption per hectare in India is only 300 gm. A look at the consumption pattern reveals a remarkable rise from 500 tons in 1955 to approximately 59,000 tons in 1976. The following table throws some light on consumption pattern:

TABLE I
Consumption

	1974	1978
Insecticides	72.6%	70.9%
Fungicides	22.4%	19.3%
Herbicides	3.3%	7.3%
Rodenticides	0.4%	0.4%
Fumigants	1.3%	2.3%

According to the working group on pesticides industry for the rolling plan, the installed capacity and estimated production are as follows:

TABLE II
Production

Year	Installed Capacity (mt)	Estimated Production
1977	50,450	39,610
1980-81	68,000	54,000
1981-82	73,000	59,000
1982-83	80,000	65,000

India does import sophisticated pesticides as well as conventional ones to meet the shortfall in demand roughly costing over Rs. 40 crores.

Research: Some of the chemicals manufactured in India are based on indigenous technology and they include chemicals like malathion, endosulfan, copper oxychloride, thiram, etc. Indigenous technology in the basic manufacture apart from the private sector's contribution rests mainly with research carried out by National Chemicals Laboratory, Pune, one among the CSIR laboratories. Malathion, the technology of which was developed by a private company is now under production in Hindustan Insecticides plant at Rasayani, Maharashtra. The Pune institute, the IARI, Delhi, CFTRI, Mysore and the regional research laboratories at Hyderabad and Jammu have considerable joint research and development programmes as a result of which several products are under different stages of commercialisation.

The Insecticides Act: In order to protect consumers and the public, the Govt. of India enacted legislation called the Insecticides Act of 1968 and rules under it in 1971. Under it all insecticides are required to be compulsorily registered by the Registration Committee constituted under Section 5 of the Act.

The Central Insecticides Board has been vested with powers to bring all under a disciplined code. It functions as an advisory body to the Union Agriculture Ministry. As a sequel to the toxicity problem, the Registration Committee has banned Endrin.

ELECTRONICS

THE Electronics Industry is making rapid strides the world over. The computer and digital controls are fast becoming part and parcel of varied and various industrial activities. A new dimension has been given to medical diagnosis and treatment, as well as exploration of space, use of satellites in global communications, weather forecasts and safety in transport system by air and sea. Entertainment electronics is increasingly becoming popular in all countries.

Electronic equipments can be categorised as entertainment electronics (radios, T.V., tape recorders videos, etc.), telecommunication equipments (microwave, trans receivers, multiplexing equipment, etc.), defence equipments (radars, sonars, etc.), consumer electronics and office equipments (computers and process control equipments, calculators, computer peripherals) and medical electronics (X-rays, ECG, pacemakers, etc). The manufacture of equipment required by the telecommunications and defence departments in our country is reserved for the public sector while entertainment, medical and consumer equipments is allocated to the small and medium sector.

This industry has the largest employment potential with the highest employment to investment ratio. There are 150 units in the public sector and 1,800 units in the small-scale sector providing employment to over 178,000 workers. Manufacture involves extremely sophisticated components with high rate of obsolescence and responds well to the small and medium sector

A beginning was made in 1950 when two major factories—The Indian Telephone Industries and Bharat Electronics Ltd.—were set up to meet the growing needs of telecommunications and defence departments. A few private firms indulged in manufacture of radio receivers. Computerisation began in 1955 when the Indian Statistical Institute, Calcutta, set up a first generation machine. As an industry it was, however, launched only in 1971 with the manufacture of the first Indian computer TDC-12 by the Electronics Corporation of India Ltd. (ECIL). Recently the first indigenously produced and probably the cheapest home computer, the EIKO-I, was introduced into the market in November 1983, by Eiko Computers Pvt. Ltd., a company promoted by a Singapore based group of non-resident Indians.

To investigate the potentialities and the status of electronics the Government set up a committee in 1963 under the Chairmanship of Homi Bhabha, which led to the formation of Electronics Committee in 1966. This committee was later replaced by the Electronics Commission in 1971. To tap the vast export potential and compete the foreign market the Government set up a 100 per cent export-oriented free trade zone in Santa Cruz, Bombay (SEEPZ) in 1974.

Electronic products are fast catching up in India and are popular aids to the busy housewife.

Even a brief survey of developments in the country will indicate the vital support offered by the electronics industry. More than 80 per cent of India's population is now covered by the mass communication media like radio and television. The defence preparedness is now based on the indigenously manufactured radars and other sophisticated systems, the process control instrumentation is being increasingly used for economic running of different processes and manufacturing industries like fertilizers, petrochemicals, etc. Indigenously produced computers are being used in some cases. Electronics plays a pivotal role in the control of nuclear reactors and optimal distribution of power through the grids. The launching of the first Indian satellite was testimony of our ability to design and implement complex projects involving myriad of electronic systems.

Growth of Electronics: During the last ten years, the production of electronic equipment and components has increased tremendously. Table 1 gives a profile of the production of electronic items over the last eight years. During the last few years many technical entrepreneurs have started electronics industry in the small scale sector. The commercial viability of such small scale units was demonstrated through the successful manufacture of items in consumer electronics and instrumentation area. The private sector is also responsible for substantial export of electronic items and has entered into areas like radio frequency cables, microwave components, digital instruments, control equipment, etc.

Export of electronic items during 1980 was worth Rs. 418 million. The value of exports increased to Rs. 564 million during 1981 and further to Rs. 839 million during 1982.

Consumer Electronics: The main items in this sector are radio, T.V. tape recorders, record players and public address systems. The total production in this sector increased from Rs. 1,790 million in 1979 to Rs. 2,140 million in 1980 registering a growth of 19.6 per cent. The growth rate in the value of production at Rs. 2,460 million during 1981 was 15.0 per cent and in 1982, the value of production at Rs. 3,370 million went up by 37.0 per cent over that of 1981.

Interestingly, the value of consumer electronics production had formed 30.4 per cent of the total electronics output in 1971. The percentage proportion, however, was lower at 28.0 per cent in 1982

Among the various consumer electronics items, the production value of radio receivers is targeted to go up by 22.0 per cent per annum from Rs. 1,944 million in 1979-80 to Rs. 5,225 million in 1984-85. The production target for T.V. receivers is 16.0 per cent per annum from Rs. 845 million to Rs. 1,770 million during the same period.

In the case of calculators, the annual percentage rise has been targeted at 25.0 per cent from Rs. 105 million in 1979-80 to Rs. 320 million in 1984-85.

Telecommunication Equipment:

The demand for sophisticated telecommunication equipment has been rising rapidly in the country. A steady growth rate of 10% per annum in the domestic production has been maintained for a long time. The production of communication electronic equipment has increased to Rs. 1,845 million in 1980 from a level of Rs. 420 million in 1971-72. The production fell by 16.5 per cent in 1981 but rose sharply by 65.6 per cent to 2,550 million in 1982 from Rs. 1,540 million in 1981.

Since India became independent, the telecommunication network has grown at a rapid pace. Today we have more than 16,000 route kms. of coaxial systems and over 14,000 route kms. of microwave systems in the Indian Posts and Telegraphs network. The Indian Railway has an additional microwave LOS network consisting of 11,000 route kms. Another 3,500 route kms. is planned during the period ending 1983, by the Railways. In the area of microwave, 2 GHZ and 7 GHZ narrow band systems upto 300 channels and 4 and 6 GHZ systems with 1800 channel capacity have been developed in India. A 2700 channel system is already under development. It has now become possible to supply indigenously developed microwave equipment for the second earth satellite station at Dehradun, near Delhi.

With over 2.25 million subscribers connected about 7,000 telephone exchanges, the public switching network covers a vast area of the country. Subscriber Trunk Dialling (STD) links more than 138 cities in India. A telex network connects over 21,000

Table I

Production of Electronic Equipment and Components during the last five years

(Rs. million)

Calendar year	Consumer Electronics	Communication Equipment & Mass Communications	Aerospace & Defence Equipment	Computers, Control & Instruments	Equipment total	Components	SEEPZ Production for export	Equipment & Components total
1975	820	995	490	585	2,890	750	5	3,645
1976	1,010	1,120	500	640	3,270	800	30	4,100
1977	1,290	1,275	550	1,025	4,140	905	40	5,085
1978	1,575	1,275	620	1,190	4,660	1,170	75	5,905
1979	1,790	1,285	605	1,310	4,990	1,360	115	6,465
1980	2,140	1,845	680	1,600	6,265	1,630	165	8,060
1981	2,460	1,540	690	1,885	6,575	1,730	255	8,560
1982	3,370	2,550	1,085	2,420	9,425	2,140	485	12,050

subscribers in about 117 cities. During the Sixth Plan period, against a demand of about Rs. 12,000 million of equipment for the civil sector, equipment production is expected to be Rs. 9,000 million and imports may exceed Rs. 3,600 million. It is estimated that by 1988-89 total cumulative demand for the period 1978-89 would be about Rs. 30,000 million.

At present the manufacture of telephone equipment is carried out by the state-owned Indian Telephone Industries Limited (ITI), which has several units located in different parts of the country. Over the years the ITI has been manufacturing electromechanical exchanges both of the Strowger and Crossbar types. The Telecommunication Research Centre of the Posts and Telegraphs Department has a development programme to produce electronic switching systems using both Space Division Multiplexing (SDM) and Time Division Multiplexing (TDM). Production of electronic PABXs using wire controlled logic has already commenced.

Five major state owned enterprises, Bharat Electronic Limited, Indian Telephone Industries, Electronics Corporation of India Limited, Hindustan Teleprinters Ltd. and Hindustan Cables Limited, cater to the telecommunication needs of the country. There are plans to supplement these efforts in some of the newly set up state electronic development corporations.

Computers: In the field of computers, more than 500 systems are presently in operation in the country. Out of this, a little over a hundred systems are of indigenous origin. On the manufacturing front, the indigenous computer production has increased from Rs. 285 million in 1981 to Rs. 480 million in 1982. There is growth in the areas of mini computers and micro processors based systems as well as in the mini and midi computers.

Midi computers are being manufactured by Electronics Corporation of India (ECIL) and Indian Computers Indian Manufacturers Ltd. (ICIM), while the lower and mini computers are available from indigenous sources catering to diverse applications.

The Government's policy for the manufacture of microprocessor base systems is to give preference to medium and small scale entrepreneurs with the requisite background and experience. A few such units have been set up by highly qualified entrepreneurs and are currently manufacturing multi-terminal data entry systems etc. A major advantage in India is that a pool of skilled and trained manpower is available for the development of software. At present, a large number of groups are actively involved with software development and export. India exported computer software worth Rs. 100 million in 1981-82 and Rs. 130 million in 1982-83.

In order to gain experience in development and application of computer and related technologies two national centres namely, **National Centre for Software Development and Computing Techniques (NCSDCT) and National Informatics Centre (NIC)** have been set up with the assistance of UNDP. NCSDCT is functioning at the Tata Institute of Fundamental Research at Bombay. The primary objectives of this centre are to develop software tools and computing techniques to support the growth of a major self-reliant computer and associated semiconductor industry. The National Informatics Centre at Delhi was set up for developing methodologies relating to large data bases and their development. Experiments of data communication are also in progress. The Department of Electronics is also setting up regional computer centres at various locations in the country.

Considering the importance of maintenance and efficient operation of wide variety of computers already installed in the country, and to be installed, the Department of Electronics has set up a **Computer Maintenance Corporation** in the public sector. This corporation is responsible for coordinating and implementing all aspects of system design and maintenance of computers. It will also stock and ensure continuous and fast supply of spares for the systems in operation.

Another notable development is the efforts made to generate computer software for exports. With the highly skilled software personnel available in the country, there is considerable potential for building up this industry, especially for exports. India has started exporting computer software to countries in the West, USSR and Eastern Europe.

The import policy for 1983-84, permitted non-resident Indians to import second-hand computers without any clearance. The only stipulation has been that the value of such old computers should not exceed Rs. 0.5 million.

Control and Industrial Electronics: In the field of instrument servo components, two of the prominent groups are Servo Control Division at ECIL and Control Guidance & Instruments Division of SSTC. Indigenous production of servo components has been established with the manufacture of servo and hysteresis motors, synchros and rate gyropackages. There are about 75 units engaged in the manufacture of process control instruments. The types of instruments produced cover temperature measurement using mercury, resistance and pyrometric methods, gauges for pressure measurement, strain gauge instrumentation and a variety of analysers. **Instrumentation Limited,** (for details see Government of India Undertakings) is producing a wide variety of pneumatic instruments. The items manufactured in the field of industrial electronics cover a wide variety of drives, numerical control machines, dielectric, induction, furnaces, etc. The development in this field has been rapid and the basic components like thyristors and high power silicon diodes are being manufactured. New areas in industrial electronics like pollution monitoring equipment and agro-electronic instruments are growing rapidly. Total value of industrial electronics output by 1984-85 has been targeted to reach Rs. 3,500 million as against the actual value of production of Rs. 1,150 million in 1979-80.

Instruments: A wide variety of instruments like test and measuring, analytical, nuclear, geoscientific etc. are being manufactured in the small scale sector. The test and measuring instruments manufactured include instruments like digital multimeter, admittance bridge, oscillo-scopes, communication test equipment and TV test instruments. The analytical instruments manufactured include pH meters, conductivity meters, spectrophotometers and calorimeters. The production of nuclear instruments like GM counters, phase analysis equipment, reactor control instruments, whole body counters is mainly concentrated at ECIL, Hyderabad. The value of test and measuring instruments, analytical instruments, etc. has been estimated to go up by an annual rate of 25.8 per cent during the Sixth Plan period i.e. from Rs. 325 million in 1979-80 to Rs. 1,025 million in 1984-85.

Medical Electronic Equipment: One of the spin-offs due to increasing sophistication in electronics in the emergence of a new area called bio-medical engineering or medical electronics. In India, though the field of medical electronics is still in its infancy, it has made a significant start. New equipments in increasing numbers are currently being used in many hospitals. The production of medical electronics equipment is mainly in the small and medium scale industries both in the public and private sectors. X-ray equipment constitutes the major share of the equipment manufactured. Some of the other equipments currently being manufactured are electro-cardiograph, respirator, foetus heart detector, hearing aid and stimulator.

Components & Materials: In the field of components, the production has risen from mere Rs. 65 million in 1965-66 to Rs. 1,630 million in 1980. The value of production inproved to 1,730 million in 1981 and further to 2,140 million in 1982. However, as compared to consumer grade components, the production of professional components is lagging behind. Consumer grade components in addition to meeting the local demand are also being exported.

In the area of electron tubes, the production includes that of receiving and transmitting tubes, magnetrons, x-ray tubes, TV picture tubes and mixie tubes. In the area of semi-conductor devices, most of the production is of germanium and silicon discrete devices. As regards integrated circuits, Bharat Electronics Limited (BEL) is producing TTL ICs with indigenous knowhow. Hybrid microcircuits are made by BEL and ITI. The planned Semiconductor Complex near Chandigarh will be manufacturing MOS LSI, bipolar LSI and LED's.

In the area of passive components, different varieties of resistors and capacitors are manufactured. About a dozen manufacturers are making coaxial, rack and panel and printed circuit connectors. Relays are also being produced in a fairly wide range. ITI Bangalore, makes telephone type relays for its telecommunication equipment switches which include.rotary wafer, push button, toggle snapaction, etc. are also being produced by more than 25 manufacturers. Other components like crystals. transducers, magnetic components, printed circuit boards are also being manufactured. In so far as materials are concerned, the electronic component industry still depends on imports to the tune of over 60 per cent. The production of some ultra-pure materials has been established at Special Materials Plant, Hyderabad. A wide variety of soft and hard ferrites are already under production catering to most of the requirements.

According to available reports, the Department of Electronics (DOE) has plans involving a major capital investment thrust in electronics. With an estimated outlay of Rs. 1,000 million in the coming four to five years, the DOE has undertaken three key projects covering SCL, the microwave tube centre and the national silicon facility.

The revised estimates of plan outlay during 1982-83 was Rs. 470 million as against the budget estimates of Rs. 375 million. The higher outlay was on account of expenditure on Semi-Conductor Complex Limited (SCL). During 1983-84, both the plan outlay and budget estimates for the DOE have been reduced at Rs. 320 million.

PUBLIC SECTOR UNDERTAKINGS

Following are the names of the undertakings in the electronics field. Details about their production and addresses are given in the chapter on Government of India Undertakings.

1. Indian Telephone Industries (ITI). 2. Bharat Electronics Limited (BEL). 3. Hindustan Teleprinters Limited (HTL). 4. Electronics Corporation of India Limited (ECIL). 5. Instrumentation Limited (IL). 6. Hindustan Aeronautics Limited (HAL). 7. Central Electronics Limited (CEL). 8. Electronics Trade & Technology Development Corporation (ETTDC). 9. State Electronics Development Corporation (SEDC). 10. Semi Conductor Complex Ltd.

Private Undertakings: There are large number of private undertakings like Philips, Bush, Murphy, Weston, Televista, Continental Devices, Permanent Magnets, Amphetronix etc. who are contributing substantially to the growth of the electronics industry.

In view of the growing importance of electronics, the Sixth Five Year Plan had envisaged a plan outlay of Rs. 1,412 million during the period 1980-85. The plan outlay amounted to Rs. 165 million in 1980-81, Rs. 222 million in 1981-82, Rs. 375 million in 1982-83 and Rs. 320 million in 1983-84.

DRUGS & PHARMACEUTICALS

THE drugs and pharmaceutical industry is primarily a research-based process industry. Till the middle of the 19th century, Western medical treatment consisted of galenicals and other inorganic chemical preparations. India then served as the main source for raw materials like cinchona bark, nux vomica seeds and poppy pods etc. which were shipped to England and came back in the form of extracts or tinctures for the use of the physicians. After Louis Pasteur indentified the pathogenic bacteria, India became the focal point for the study of tropical infectious diseases which took a heavy toll of the British army personnel. That led to the establishment of some Government-sponsored enterprises namely, the Haffkine Institute in Bombay in 1899, the King Institute of Preventive Medicine in Madras in 1904, the Central Research Institute at Kasauli in 1905, and the Pasteur Institute in Coonoor in 1907.

The first Indian-owned drug manufacturing factory, the Bengal Chemical and Pharmaceutical Works, was set up in Calcutta in 1901 by Prof. P. C. Ray.

Up to 1939 India imported British drugs. During and after World War II, the shortage of medicines led to the setting up of many indigenous small manufacturers who produced distilled water, saline tablets, formulations and other alkaloids and the country was on its way to self-sufficiency in sera and vaccines, meeting about 70 per cent of the demand by 1943.

The turning point came after independence. Most of the British and the non-British firms started trading operations in India and the competition was stiff for local manufacturers to withstand. The Industrial Policy Resolution of 1956 identified the problem and categorised pharmaceutical industry as operable both by public and private sector. More educational facilities were also created. The Haffkine Institute was the first drug manufacturing body in the public sector. Next came the Hindustan Antibiotics Ltd. established in 1954 and in the same year by a Government notification most of the foreign firms were incorporated as Indian subsidiaries. The Hindustan Organic Chemicals started producing basic chemicals in 1958. The Government also entered an agreement with the U.S.S.R. in the same year to manufacture antibiotics, synthetic drugs and surgical equipments. The Indian Drugs and Pharmaceuticals Ltd., as an apex body, was also set up to supervise the three public sector units.

In order to rationalise prices the Drugs (Prices Control) Order, 1970 was promulgated.

The trend of modernised expansion which started with the Pharmaceutical Inquiry Committee's Report of 1954 has ever since witnessed not only a horizontal but a vertical expansion as well both in the public and private sectors. Today from a mere processing and formulations making industry it has developed into the manufacturer of finished pharmaceutical products and with its superior and advanced technological knowhow it is now considered to be the largest and most modern pharmaceutical industry among the developing countries according to UNIDO.

There are more than 200 Indian multinational companies working as joint ventures in Malaysia, Kenya, Nigeria, Canada, West Germany, the United Kingdom and also the U.S.

The Government has initiated a policy to encourage research and apart from Government-sponsored research bodies there are many private firms also engaged in carrying out research in the pharmaceutical field.

The industry, in general, is concentrated in Maharashtra, Gujarat and West Bengal. The largest single group of drugs marketed today is vitamins.

Present Structure: At present, the industry consists of more than 150 units in the 'organised sector', 4 Public Sector units, one Govt. managed unit and about 3,000 units in the 'Small Scale Sector'. There were 31 foreign drug companies (direct foreign equity exceeding 40 per cent) at the time of announcement of the Drug Policy in 1978. At present the number of such companies is 23. Decisions have been taken, in accordance with the Drug Policy and FERA, on the permissible levels of foreign equity in each case. Certain companies have voluntarily offered to reduce their foreign equity. There are likely to be only 13 companies with direct foreign equity above 40 per cent after the process of dilution is complete.

Production: Most of the drugs including the important life-saving medicines covering wide range of antibiotics, e.g. Penicillin, Streptomycin, Tetracyclines, Chloramphenicols, Erythromycin, etc., Sulpha drugs including long acting ones, e.g. Sulphasomidine, Sulfamoxole, Sulfadimidine, Phthalyl-Sulphathiazole etc., anti-T.B. drugs e.g. INH, PAS, Thiacetazone, Ethambutol etc., Vitamins, e.g. A, B1, B2, B, C, D, E, P & K. Folic Acid etc., Steroids, e.g. Prednisolone, Hydrocortisone, Betamethasone, Dexamethasone, Nandrolone, Norethisterone, Testosterone, Methyl Testosterone etc., and a host of other synthetics, phyto-chemicals and biological products are now manufactured within the country.

The production of various important drugs in physical terms in the organised sector is given in the following table. Some of these drugs are also produced by the small-scale sector units. Their production figures have, however, not been included in the table.

Production of various important drugs in physical terms during 1960-61, 1978-79, 1979-80, 1980-81 and 1981-82.

Name of drugs	Units	1960-61	1978-79	1979-80	1980-81	1981-82
Penicillin	MMU	39.70	319.95	326.96	336.82	360.61
Streptomycin	Tonnes	—	220.73	220.16	227.33	255.45
Tetracycline Hol.	”	—	123.36	141.09	166.85	188.93
Oxytetracycline	”	2.20	92.65	113.96	129.83	114.28
Vitamin A	MMU	14.50	62.61	58.76	59.85	52.65
Vitamin B_{12}	Kgs.	5.22	162.20	126.53	88.32	159.35
Vitamin C	Tonnes	—	798.68	760.03	594.80	804.48
Analgin	”	—	277.79	346.90	398.79	483.47
Aspirin	”	76.31	1,321.01	995.61	886.46	924.01
PAS and Salts	”	82.99	601.46	481.78	405.46	261.97
INH	”	29.05	81.72	112.53	129.20	110.40
Chloroquin	”	—	42.51	35.16	34.62	58.46
Insulin	MMU	—	1,287.93	1,507.00	1,332.00	2,083.00
Glybenclamide	Kgs.	—	474.00	460.00	731.00	707.00
Ephedrine	”	—	25.37	29.47	22.47	11.65

It is estimated that during the year 1981-82, the production of bulk drugs would be of the order of Rs. 2,750 million and of formulations of the order of Rs. 13,000 million. The following statement gives the figures of production of bulk drugs and formulations during the last four years:—

(Rs. million)

Year	Bulk drugs	Formulations
1978-79	2,000	10,500
1979-80	2,600	11,500
1980-81	2,400	12,000
1981-82	2,890	14,300
1982-83 (anticipated)	3,250	15,450

Expansion: It has been estimated that the total requirement of bulk drugs by 1984-85 would be Rs. 8,150 million which would result in formulations worth Rs. 24,500 million at 1979-80 prices. Taking into account the level of production during 1979-80 and the projects in the pipe line and also the scope for increasing the capacity utilisation — especially in respect of the formulations, the investment needed to achieve the above estimated production during the Sixth Plan period works out to about Rs. 3,250 million.

New Drug Policy: Government's decisions on the recommendations made in the Report of the (Hathi) Committee on Drugs & Pharmaceutical Industry submitted in April, 1975 were announced in the Parliament on March 29, 1978. The decisions include the allocation of a leading role to the Public Sector, fostering the growth of the Indian (including small-scale) sector and regulation of the activities of foreign drug firms in India, as well as rationalisation of pricing and profitability. Twenty drugs are now earmarked for production exclusively by the public sector while 66 items have been left open for licensing for all sectors.

Under the New Drugs Policy, foreign companies would be entitled to formulation licences only for production linked to 'high technology' bulk drugs and grant of such licences to them is subject to the company concerned agreeing to supply 50 per cent of the production of such bulk drugs to non-associated formulations, simultaneously limiting the overall value of formulations to five times the value of bulk drug production.

Bulk Drugs—Import and Distribution: 17 drugs, specified in Appendix 9 of the Import and Export Policy, 1982-83, are canalised for imports through the Chemicals & Pharmaceuticals division of the State Trading Corporation of India Ltd. The imports and distribution of these drugs are made as per the connected policy issued by the Ministry of Petroleum, Chemicals and Fertilizers from time to time. These drugs are sold by the Corporation to various actual users at the prices fixed by the Government.

Price Control: Control over the prices of drugs was first introduced in the country in 1963. The retail prices of drugs then prevailing were frozen and it was provided that prior approval of the Government should be obtained for any increase in prices.

Later in June, 1966, an order was promulgated under which approval of Government for fixing prices of new drugs had to be taken, and, marking of retail prices on containers of drugs was made compulsory.

A comprehensive order namely, the Drugs Prices Control Order was issued in May, 1970, designed to:

1. bring down the prices of those essential drugs whose prices generally remained very high;

2. provide sufficient incentives to the industry to maintain and facilitate its growth from the basic stage and to develop research facilities and expansion in a planned manner;
3. promote diversification of entrepreneurship in the future development of this industry and thereby provide better opportunities for Indian personnel with requisite technical qualifications; and
4. curb excessive profits.

In order to give relief to the drug manufacturing units with a turnover not exceeding Rs. 5 million per annum, they were exempted from the requirement of obtaining Government approval for the prices of their formulations.

The order was amended effective from May 1, 1975 to provide that no retailer shall sell any formulation to the customer at a price exceeding the retail price of the formulation in the price list approved by the Central Government or the price displayed on the label of the container of the formulation whichever is less, plus local taxes, if any payable.

In order to give effect to the Pricing provisions of the New Drugs Policy, Government of India issued on 31st March, 1979, the Drugs (Price Control) Order, 1979 (DPCO, 1979) replacing the Drugs (Pricing Control) Order, 1970. As envisaged under the New Drugs Policy, the Order brings under control three categories of formulations described as Category I, II and III formulations. The DPCO, 1979 provides for ceiling mark-ups on ex-factory cost of production of Category I formulations at 40 per cent, Category II formulations 55 per cent and Category III formulations 100 per cent. In respect of the three categories of formulations, the DPCO provides for Leader Prices, based on the prices of the efficient major manufacturers, which would be the ceiling prices for all manufacturers of such formulations, including those in the Small Scale Sector. Prices which were lower than the Leader Prices, and which were frozen under the provisions of the New Drugs Policy were allowed to go up to the Leader Price level by an amendment to the DPCO, 1979. Prices can go up to the leader level only for those formulations which have the same compositions and are marketed in the same packs as of the Leader Prices notified.

Small-scale units with an annual turnover not exceeding Rs. 5 million continue to be exempt from the requirement of obtaining Government approval for the prices of their formulations except for the leader prices. The leader prices shall be the ceiling sale prices for these units also.

Under the DPCO, 1979 all bulk drugs which are used in the production of price controlled formulations have been placed under price control. In this respect, DPCO, 1979, has improved upon DPCO, 1970 under which firms could declare prices of bulk drugs which had not been categorised as essential under that Order and were obliged to seek Government approval only when they sought to increase these declared prices.

Research and Development: Research laboratories are playing a vital role in the public sector. In Indian Drugs and Pharmaceuticals Ltd., the main objectives have been stabilisation and updating of available technologies, development of new processes in drugs and pharmaceuticals, solution of day-to-day problems and import substitution. While the R & D unit of IDPL at Antibiotics Plant, Rishikesh has facilities for conducting R & D work in various disciplines like mycology, microbiology, biochemistry, organic chemistry, pharmacology etc., and also for the development of newer and better formulations, their R & D unit at Synthetic Drugs Plant, Hyderabad has R & D facilities in the disciplines of chemistry, biology and for pilot plants etc. IDPL has developed process technologies for several essential drugs like N-methyl piperazine, Frusemide, Trimethoprim, Aminophylline, Theophylline, Neomycin sulphate, Diazepam, Glybenclamide, Thiamine mononitrate etc. Of these, several drugs are now being commercially produced.

The Research Laboratory of Hindustan Antibiotics Ltd., was established in 1955 with activities directed towards product development, import substitution etc. Its notable achievement has been the discovery of two new antibiotics namely Hamycin and Aureofungin. It also discovered an Enzymatic process for the production of 6-APA from Penicillin G first crystals. Efforts of Research and Development work have also resulted in developing high yielding strains of "Pencillium Chrysogenum".

In the Private Sector also, there are a number of drug research centres of which those of Bengal Immunity (managed by the Govt.), Sarabhai, Ciba-Geigy and Hoechst are important. These research units have contributed significantly in improving the existing technologies, development of new processes and of new drugs and import substitution of several raw materials and intermediaries.

At present, almost all types of plant equipment and instruments required for the production of bulk drugs and formulations are available indigenously.

In spite of these encouraging developments, overall investment in R & D in India is still insignificant as compared to the very high order of such investment in certain advanced countries of the world. In order to correct this imbalance, the New Drugs Policy has made it obligatory on the part of foreign drug companies, having a turnover in drugs in excess of Rs. 50 million per annum, to invest in R & D facilities within the country at least 20 per cent of their net block and further to spend at least 4 per cent of their sales turnover as recurring expenditure on R & D facilities. Incentives are available to all companies for investment in R & D

PLASTICS

THE plastics industry is essentially a World War II phenomenon when shortage in basic raw materials like rubber, wood, copper, iron, etc. led to a frantic search for a substitute in the form of plastics. A derivative of polymer chemistry, the revolution had already started in 1860s with the production of celluloid.

Plastics is a comparatively new industry in India beginning with the manufacture of soap boxes, combs, ash trays, etc. The foundation for the industry was laid as recently as 1951-60, although the production of phenol formaldehyde started in 1948. The petrochemical-based industry gained momentum after large complexes sprung around Bombay area, the first plant being the Imperial Chemical Industries (ICI) set up in 1958. The major breakthrough came with the development of polyvinyl chloride (PVC).

The development of newer techniques like foam moulding, stretch blow moulding, extrusion, calendering, coating, injection moulding, etc. led to vast expansion in the usage and production of this versatile material. Plastics by virtue of its peculiar qualities, like being strong, durable, lightweight, flexible, appealing, resistant to corrosion and abrasion, less expensive and reusable, have come to be the most extensively used consumer article. It is widely used as construction material like PVC windows, flooring tiles and facia, panels in construction of houses, etc. Packaging industry makes almost 90 per cent use of plastics. It is also used as raw material for equipment for electrical, electronics, tele-communications, transport and furniture-making industries, medicine, surgery, defence, engineering and agriculture. Some of the plastics known as engineering resine is increasingly being used in die casting.

Location of the Industry: There are about 10,000 manufacturing units spread all over the country, 90 per cent of which are in the small-scale sector. Their individual capital investment varies from

Rs. 5,000 to Rs. 500,000, providing employment to nearly 550,000 people directly and indirectly.

Capital Investment; The current total capital investment in plastics industry is about Rs. 11,500 million. For the development of the industry and to make it sufficiently strong, an investment of Rs. 22,000 million over the next ten years is needed.

Public Sector: The public sector made its debut with the incorporation of *The Indian Petrochemicals Corpn. Ltd. (IPCL)* at Vadodara in March, 1969, to develop petrochemical projects based on feedstock available from refineries. (See also chapter on Petro-Chemical Industry.)

Per Capita Consumption: The per capita consumption of plastics in India is one of the lowest in the world. According to the latest available information, Indian consumption is only 0.3 kg. compared to the world average of 11 kg. Per capita consumption of plastics in West Germany is at 95 kg., 85 kg. in South Korea and 35 kg. in U.K.

Agricultural use: Plastic appliances are increasingly used for agricultural operations by preventing seepage losses of water and thus raise irrigational potential.

Exports: Exports of plastics during last five years (in Rs. million): 1977-78: 273.0; 1978-79: 301.9; 1979-80: 356.6; 1980-81: 587.6; 1981-82: 616.8.

Production of Raw Materials

(in tonnes)

Raw material	Installed capacity	1980-81	1981-82	1982-83 (estimated)
THERMOSETS:				
M.F. Moulding Powder	1,500	214	328	350
P.F. Moulding Powder	7,500	4,794	4,556	4,600
U.F. Moulding Powder	5,000	2,845	3,249	3,500
THERMOPLASTICS:				
Polyethylene L.D.	111,000	87,154	94,293	105,000
Polyethylene H.D.	30,000	24,293	31,732	31,500
Polystyrene	23,500	10,205	7,642	11,500
P.V.C. Resins	64,700	42,050	37,037	39,000
C.A. Moulding Powder	7,200	324	291	550

Duties: The rates of basic duty, auxiliary duty and CVD applicable on selected items.

S. No.	Basic (%)	Aux. (%)	CVD (%)	Total (%)
1. Polypropylene	65	30	28.35	150.28
2. High density polyethylene	50	25	42	148.50
3. Low density polyethylene	100	25	42	219.50
4. Medium density polyethylene	100	25	42	219.50
5. ABS moulding powder	100	35	15.75	172.01
6. Polystyrene	150	35	15.75	229.88
7. SAN moulding powder	100	35	15.75	172.01
8. Polycarbonate	100	35	15.75	172.01
9. Poly Acetal resins	100	35	15.75	172.01
10. Polytetra fluoro ethylene	100	35	15.75	172.01
11. Polyvinyl chloride resin	150	—	36.75	241.87
12. Nylon moulding powder	150	35	15.75	229.88
13. Poly phenyle oxide	150	35	15.75	229.88
14. Acrylic moulding powder only for polymethyl methacrylate	150	35	15.75	229.88
15. Cellulose acetate butyrate	60	35	42	176.90
16. PVC resin when imported from Korea, Yugoslavia, Paraguay, Uruguay, Spain etc.	75	—	36.75	139.31
17. Polystyrene (preferential)	75	35	42	143.07
18. HDPE (Yugoslavia, UAR only)	25	25	42	113.00
19. LDPE (Yugoslavia, UAR only)	50	25	42	148.50
20. Polypropylene (Yugoslavia, UAR only)	32.50	30	28.35	108.56
21. Cellulose acetate moulding powder	100	35	42	233.70
22. Cellulose acetate offcuts	100	35	52.5	258.37
23. Cellulose acetate scrap/waste	100	35	42	233.70
24. Cellulose acetate cutting	100	35	52.5	258.37
25. Cellulose acetate sheets/strips	75	20	—	95.00
26. Phenol formaldehyde resins	150	35	15.75	229.88
27. Urea formaldehyde resins	150	35	15.75	229.88
28. Melamine formaldehyde resins	150	35	15.75	229.88
29. Epoxy resins	150	35	15.75	229.88
30. Polyester resins	150	35	15.75	229.88
31. Polybutyl terethalate	150	35	15.75	229.88
32. Poly sulphone	150	35	15.75	229.88
33. Vinyl acetate monomers	70	35	8	121.40

The estimated requirement of plastics for these applications is as follows:

(Tonnes)

Item	1983	1988
LDPE	16,800	36,600
HDPE	3,200	5,400
PVC	6,000	11,000
EPS	400	700
Total	26,400	53,700

Imports of Plastic Raw Materials

(Qt.: Tonnes; Value: Rs in million)

Products	1980-81		1981-82	
	Qty.	Value	Qty.	Value

C.A. Moulding Powder	62	0.5	63	0.6

PAPER

THE word 'paper' is etymologically linked to *papyrus*, a plant which flourished in abundance in ancient Egypt and which constituted one of the chief writing materials of the primeval man. Several libraries in Europe boast of manuscripts, chiefly in Latin, written on *papyrus*. The art of paper making, however, originated in China during the second century B.C. The chinese maintained a veil of secrecy over the art of paper making and it did not become known to the outside world till the advent of the 8th century A.D. Before the advent of modern machine-made paper industry in India, the country boasted of a thriving hand-made paper industry which was first introduced in India in the 13th century by the Mughals. The improved hand-made paper produced by the Indian industry during the second half of the 18th century was mainly the result of pioneering efforts of Dr. William Carey and other Christian missionaries of Serampore in West Bengal. That paper was of very good quality and books made from it are still resistant to the ravages of insects, as can be seen from the collection preserved in Serampore College. The production of machine-made paper, following the failure of the Serampore experiment, commenced in 1870, with the establishment of a paper mill on the Hooghly. Soon after, a number of units were set up.

In the period since Independence, our paper industry had maintained a steady progress, though it is not still out of the woods. A wide gap between domestic demand and production exists which has rendered inevitable substantial dependence on imports. At the beginning of the First Plan, there were 17 units in the Industry with an aggregate capacity of 0.14 million tonnes; by 1981, the number of units rose to 159 with a total installed capacity of 1.82 million tonnes.

Though the paper industry is largely in the private sector, several projects are under execution in the public sector. The Nagaland pulp and paper industry project went into production in 1981-82. Due to technical problems, the plant is not working up to optimum capacity. The capacity of the plant is 33,000 tonnes per annum. Two large projects, Nowgong, and Cachar projects, with an annual capacity of 100,000 tonnes each are under execution and are likely to be operational by 1984-85.

Newsprint: The supply position has improved during the past two years, with the commissioning of two projects—the Kerala newsprint projects of the Hindustan Paper Corporation and the newsprint plant of Mysore Paper Mills—in addition to the existing National Newsprint and Paper Mills. Due to this development, the installed capacity of newsprint industry has increased from 0.15 million tonnes in 1981-82 to 0.23 million tonnes in 1982-83.

At present, there are four rayon grade pulp units and one paper grade pulp unit in the country, all of which are in the private sector. The installed capacity of the four rayon grade pulp units increased from 0.15 million tonnes in 1980 to 0.18 million tonnes in 1981, while the capacity of the paper grade pulp unit was unchanged at 40,000 tonnes per annum in 1981. The production of the four rayon grade units which aggregated to 0.135 million tonnes in 1980, registered a small increase to 0.143 million tonnes in 1981. The production of paper grade pulp was 37,410 tonnes and 31,235 tonnes respectively in 1980-81 and 1981-82.

Security Paper Mill: At Hoshangabad in Madhya Pradesh, a security paper mill, set up with British collaboration in 1968, is in operation to manufacture 28,000 tonnes of special quality paper for currency and bank notes.

No. of Persons employed: Precise estimates are lacking but the aggregate employment in the industry is about 70,000.

Ranking in the world Market: India occupies only the 20th place among the world's paper producing countries.

Per capita consumption: The per capita consumption of paper in India is among the lowest in the world. It was only 2 kgs. in 1980 as compared to 272 kgs. in the U.S., 205 kgs. in Sweden, 192 kgs. in Canada, 168 kgs. in Switzerland, 155 kgs. in West Germany, 15 kgs. in Iran, 11 kgs. in Thailand and 9 kgs. in Iraq.

PRODUCTION OF PAPER

The total production of all categories of paper and paper board declined marginally from 1.24 million tonnes in 1981-82 to 1.20 million tonnes in 1982-83. The target for 1983-84 is 1.40 million tonnes. The recent trend in the output of paper and paper board is given below:

Year	Production in million tonnes
1960-61	0.35
1965-66	0.558
1970-71	0.755
1975-76	0.836
1976-77	0.899
1977-78	0.961
1978-79	1.011
1979-80	1.058
1980-81	1.145
1981-82	1.242
1982-83	1.202

Although the production of paper in the country is on the rise, it is still short of the requirement. According to the Sixth Plan document, the demand for paper is likely to rise to 1.54 million tonnes by 1984-85 while the indigenous production may increase to 1.5 million tonnes by that year. The demand-supply gap would thus be substantial at 40,000 tonnes by the end of the Sixth Plan period.

As regards newsprint, the domestic output has picked up of late. The production level has increased from 64,000 tonnes in 1981-82 to 0.12 million tonnes in 1982-83, mainly because of the commissioning of the Kerala newsprint project with an annual capacity of 80,000 tonnes and of the newsprint projects of Mysore Paper Mills with an annual capacity of 75,000 tonnes. It is expected that, with better working of these units, output may attain a level of 0.18 million tonnes during 1983-84, and of 0.2 million tonnes by 1984-85. Despite this, the supply would fall short of our requirements and the gap has to be met by imports.

Value of imports: Paper and Newsprint: A synoptic idea of the huge dependence on overseas markets for meeting our requirements of paper and newsprint can be had from the following table.

(Rs. million)

Year	Paper	Newsprint
1970-71	251	187
1971-72	349	276
1972-73	314	205
1973-74	292	178
1974-75	595	450
1975-76	577	383
1976-77	611	472
1977-78	818	625
1978-79	1,047	792
1979-80	1,588	1,126
1980-81	1,865	1,332
1981-82	2,403	1,589

Exports: Recent trend in the exports of paper and paper boards from India are presented in the table below:

Year	Value (Rs. Million)
1970-71	39.4
1971-72	14.3
1972-73	21.4
1973-74	43.1
1974-75	38.8
1975-76	16.2
1976-77	15.1
1977-78	37.9
1978-79	35.8
1979-80	53.0
1980-81	59.0

GENERAL

Both newsprint and paper are subject to statutory price controls. In the case of newsprint, the imports are canalised through the State Trading Corporation and the Union Budget for 1981-82 imposed a levy of 15 per cent customs duty on imported newsprint. However, in the budget for 1983-84, newsprint was exempted from the increase in the auxiliary duty of customs that was imposed on many items. Under the present rules, paper mills are required to reserve 25 per cent of their production of white printing paper which has to be sold at the Government stipulated price from time to time.

In the case of paper and paperboard also, the Union budget for 1983-84 contained a number of proposals. The basis of duty was modified to *ad valorem*-cum-specific rate and a uniform rate adopted for printing, writing and most of the other varieties of paper and paperboard. However, the existing concessional basic rate of 5 per cent *ad valorem* in respect of white printing paper supplied to the Director-General, Supplies and Disposals, or for educational purposes was not disturbed. Some of the concessions enjoyed by the small paper mill were rationalised and the extent of exemptions was suitably modified to enable them to boost t output.

During 1981, the installed capacity of the rayon grade pu industry increased by 26,500 tonnes, the aggregate capacity bei 0.177 million tonnes per annum. A mini-paper plant, in the priva sector, with a capacity of 15 tonnes of craft paper a day, has al been set up at Manalur in Tamil Nadu in May 1983.

Hindustan Paper Corporation (**HPC**) is engaged in the implement tion of following projects:

(*i*) Kerala Newsprint Project (80,000 tonnes of newsprint p annum). (*ii*) Nagaland Pulp and Paper Project (33,000 tonnes p annum). (*iii*) Expansion of Mandya National Paper Mills Lt (39,600 tonnes per annum). (*iv*) Nowgong Pulp and Paper Proje (100,000 tonnes). (*v*) Cachar Pulp and Paper Project (100,000 tonn per annum).

Training: Paper technology is taught at (1) *Birla Institute of Techno ogy and Science*, Pilani, Rajasthan (Degree); (2) *Forest Researc Institute*, Dehra Dun, Uttar Pradesh (Diploma): (3) *Institute Paper Technology*, Saharanpu., Uttar Pradesh (Diploma an Certificate).

Research: *Forest Research Institute*, Dehra Dun, Uttar Pradesh, wa the only well-equipped research body uptill now. Recently *Parkh Research Institute* at 1183, Shivajinagar, Fergusson College Rd. Pune 411005 was started to study the various problems of pape industry and to design sophisticated machines for paper manufac ture. However, many large mills conduct research for their ow requirements.

Control: Under the paper control order promulgated on June 30 1979, the Government announced a package of measures to ensur the availability of cultural varieties of papers at fair prices.

In early 1980, the Government conceded a big increase of 25 pe cent in the price of white printing paper from Rs. 3,000 to Rs. 3,750 tonne and that of cream wave paper from Rs. 3,785 to Rs. 4,781 tonne. The current price of white printing paper is Rs. 5,400 pe tonne.

Some Large Units: *

Andhra Pradesh: Sirpur Paper Mills Ltd. (Sirpur-Kaghaznagar) 40,000; Andhra Pradesh Pulp & Paper Mills Ltd. (Rajamundry 60,000; *Bihar:* Rohtas Industries Ltd. (Dalmianagar) 60,000 *Haryana:* Ballarpur Inds. (Yamunanagar), 46,000; *Karnataka:* Wes Coast Paper Mills Ltd., Shreenivas House, Waudby Road, Bomba 400001 (Dandeli), 45,000; *Madhya Pradesh:* Orient Paper Mill Ltd., 15, India Exchange Place, Calcutta 700001 (Amlai, Sahdol) 75,000; *Maharashtra:* Ballarpur Inds. (Ballarpur), 69,000; *Orissa:* Orient Paper Mills Ltd., Brajrajnagar 768246 (Sambalpur Dist.), 161,000; *Tamil Nadu:* Seshasayee Paper & Board Ltd., P.O. Cauvery, Salem Dist. (Pallipalayam, Erode), 35,000; *Uttar Pradesh:* Star Paper Mills Ltd. (Saharanpur), 46,200; *West Bengal:* Bengal Paper Mills Ltd., 14, N. Subhas Road, Calcutta 700001 (Raniganj), 65,000; Titaghur Paper Mills Co. Ltd., Chartered Bank Bldgs., Calcutta 700001, (1. Titaghur, 2. Kakinada), 83,000.

(As additional capacity of paper and paperboard has been proposed to be commissioned, the capacity of some of the above units will undergo change.)

Pulp: 1. *Rayon Grade:* Gwalior Rayon Silk Manufg. Co. Ltd., P.B. No.37, Kozhikode, Kerala (Mavoor), 60,000 tonnes; South India Viscose Ltd, Race Course, Coimbatore-641018, Tamil Nadu, 42,000 tonnes; Harihar Polyfibres Ltd, Harihar, Karnataka (Harihar), 48,000 tonnes and Andhra Pradesh Rayon 26,500 tonnes.

2. *Paper Grade Pulp:* Central Pulp Mills, 1183, Shivaji Nagar, Fergusson College Road, Pune 411005, Maharashtra (Songadh, Gujarat). The existing capacity was recently expanded to 40,000 tonnes per year.

---

*Location of the factory is indicated in brackets and figure following shows the capacity in tonnes per year.

FILMS

MOTION pictures first came into public view abroad during the closing years of the 19th. century and almost immediately reached India. However, the first milestone in Indian cinema was marked with the release of the first indigenous full-fledged silent feature film "Raja Harishchandra" by D. G. Phalke on May 3, 1913. In 1931 the first Indian 'talkie' "Alam Ara" in Hindustani made by Ardeshir Irani caught the fancy of the public. Since then the Indian motion picture industry has made vast strides. And with Satyajit Ray's "Pather Panchali", India made a hit in the international film forum in 1955.

As the years rolled by various associations were formed to highlight the development and needs of the film industry. The Indian Motion Picture Producers' Association was formed in Bombay in 1937 and the South Indian Film Chamber of Commerce in Madras in 1938. In 1951, two important bodies came into being—the Central Board of Film Censors and the Film Federation of India.

The first international film festival was held in India in 1952 at four centres, Bombay, Madras, Delhi and Calcutta.

The Government also realised the need to set up a financing body for the industry and the Film Finance Corporation of India was set up in 1960 which was later merged with IMPEC to form the National Film Development Corporation in 1980. The Film and Television Institute of India at Pune set up in 1960 gave the stamp of status to acting in films.

To commemorate this long march Indian talkies celebrated in 1981 its golden jubilee with a month-long festival of 106 memorable films.

In 1982 the total number of feature films produced in India was 763. By November-end of 1983 production had already touched the figure of 684. Thus in quantitative terms India continues to be ahead of the rest of the world. The break-up of films in the various regional languages for 1982 are: Tamil 141, Telugu 154, Malayalam 117, Kannada 51, Hindi 148, Bengali 49, Gujarati 39 and Marathi 24.

Revenue: The gross annual earning of the years 1979 and 1980 remained more or less steady at approx. Rs. 5,500 million. More than half of it (approx. Rs. 3,000 million) went straight to the State Governments in the form of entertainment tax. Besides this, Central and State Governments impose a lot of other taxes on film industry, such as excise duty on the completed prints, levy on films exceeding a certain prescribed length, customs duty on raw stock and equipment, show tax and municipal tax, etc. The export revenue for 1979 was Rs. 121,464,016 and for 1980 Rs. 150,741,199.

Colour Films: During 1976-1980 the average number of colour films produced annually was 626 (against the average of 201 black & white films) and the average annual investment on the production of colour films was estimated to be Rs. 318 crores (Rs. 3,180 million), the average investment on black & white films being about Rs. 300 million (Rs. 30 crores).

Employment: The film industry is estimated to employ a total number of over 250,000 persons about 200,000 of these being employed by cinema theatres. The total number of cinema theatres is about 11,000, including about 4,000 touring cinemas. The estimated total capital investment of the film industry is about Rs. 18,950 million. The total number of film studios is 70 while that of the laboratories and recording studios is 65.

Film Censorship: Film censorship in India is exercised under the Cinematograph Act, 1952 (as modified up to June 1, 1983) which lays down that no film shall be certified for the public if it is against the interests of the sovereignty and integrity of India, the security of the State, friendly relations with foreign States, public order, decency or morality or involves defamation or contempt of court or is likely to incite the commission of any offence. After the coming into force (on June 1, 1983) of the amended Act, there are now four categories of certificates: (i) 'U'—for unrestricted public exhibition; (ii) 'A'—for exhibition restricted to adults (18 years and over); (iii) 'UA'—for unrestricted exhibition but indicating a caution that the film contains material which parents or guardians of children below the age of 12 years should consider before allowing the children to see it; (iv) 'S'—exhibition restricted to members of any profession or any class of persons, having regard to the nature, content and theme of the film.

Finance: Finance for film industry is procured from various sources. Since the person producing a film generally has nothing to guarantee against the borrowed money, it is usually lent on the basis of the saleability of project which in turn is judged by the popularity of stars working in it. Popularity of stars is an unstable factor and a project which was highly saleable when started can turn into a non-saleable one by the time it is completed. This forces many of the films to remain incomplete. Among those completed and released, only a small percentage are really successful. Others lose money or just break even.

The risk element, therefore, is high and so are the interest rates—upto 60 per cent per annum.

The year 1983 saw the emergence of the video as a serious threat to the existence of the film industry. At the end of the year estimates about the number of VCRs (video cassette recorders) in the country ranged between 400,000 and 500,000, a large number of them being used for commercial exhibition of pirated prints (in cafes, restaurants, 'video coaches', 'video parlours'). With the unauthorised video cassettes of new films, sometimes coming out even before the release of the films, the film industry was alarmed as it brought a fall in the collections in the theatres. Several theatres were on the verge of closure. To check piracy, the Central Government declared that public exhibition of video films was also covered by the Cinematograph Act, while measures were afoot to tighten the copyright laws and make their violation less attractive through harsh penalties.

National Awards: The Government of India has instituted 64 awards for excellence in various fields of film making, known as National Awards. These include four 'Swarna Kamals', 60 'Rajat Kamals' and cash prizes totalling Rs. 546,000. The prestigious Dada Saheb Phalke Award, consisting of Rs. 40,000 besides a 'Swarna Kamal' and a shawl, is given every year to a veteran for outstanding contribution to the cause of Indian cinema.

The State Governments of Maharashtra, Gujarat, Kerala, Karnataka and Tamil-Nadu have also instituted their own annual State awards for films.

Filmfare Awards: These awards were instituted in 1953 and first presented in 1954. These awards are given annually by the 'Filmfare' magazine of Bennett, Coleman & Co. Ltd., Bombay, publishers of the 'Times of India' and Allied Publications. The total number of these awards is 44 which includes a cash prize of Rs 5,000. (For list of Award winners see Chapter on "Awards & Prizes".)

Films Division: 24, Dr. Gopalrao Deshmukh Marg, Bombay 400026. The Films Division of the Ministry of Information and Broadcasting produces and distributes newsreels, documentaries and other films for the information, education and instruction of the people. Till the end of 1981-82, the Films Division had produced 2,666 newsreels and 3,085 documentaries. The Division produces more than 200 films a year in English and 14 Indian languages.

Film and Television Institute of India, Law College Rd., Pune 411004. The Institute conducts three-year courses in Motion Picture Photography, Film Editing and Film Direction with two years' integrated training; Sound Recording and Sound Engineering with one year integrated training; and one year post-diploma course in Film Direction for those who pass the course in Editing or Motion Picture Photography.

Television Training is imparted in (1) programme production, (2) studio technical operations, (3) TV films and (4) TV graphics and design. The TV training is in the nature of inservice training. *Director:* N. V. K. Murthy.

National Film Archives of India, Law College Rd., Pune 411004. The Archives preserve the heritage of National and International cinema for study, research and reference. Its collection in December 1982 consisted of 8,091 films (Indian—5,462 and Foreign—2,629). Books—11,269. Periodicals—214, Disc records—1,483, Stills 24,148, Wall posters—3,984, Song Booklets—3,005, Scripts—11,600, Pamphlets—4,399, Press Clippings—4,163, Microfilms—936.

Notable among its acquisitions are several silent films and talkies made in the early days of the Indian Film Industry as well as the recent award-winning Indian and foreign films.

The Archives hold regular screening of Classic Films and conducts short-term courses on Film Appreciation at Pune and other centres for promotion of healthy film culture. The Archives collaborate with Doordarshan for the production of programmes on Film Appreciation for telecast in the national network.

The Archives also make available film classics and related literature to film students and research workers, some of whom come from abroad and film societies for study.

It maintains a Distribution Library of 174 Indian and foreign films which are being loaned to film societies and film study groups throughout the country for non-commercial study screenings.

The Archives have two regional officers at Bangalore and Calcutta.

National Film Development Corporation Ltd. (N.F.D.C.), 13-16, Regent Chambers, Nariman Point, Bombay 400021. On April 11, 1980, the Corpn. took over the activities of the erstwhile Indian Motion Pictures Export Corporation Ltd. (I.M.P.E.C.), Bombay and the Film Finance Corporation Ltd. (F.F.C.), Bombay. The Directorate of Film Festivals was transferred to the NFDC with effect from July 1, 1981.

Regional Offices: No. 3, Bhavani Mansion, Fourth Street, Nungambakkam High Road, Madras-600 034; Shanti Niketan, 3rd floor, 8, Camac Street, P.B. No. 16043, Calcutta-700 017; Plaza Theatre Building, Connaught Circus, New Delhi-110 003. *Overseas Office:* NFDC Ltd., 8, South Audley Street, London W1Y 5DQ. *Other Offices; Import and Distribution Wing:* 13-16, Regent Chambers, 208, Nariman Point, Bombay-400 021; White House, 91, Walkeshwar Road, Bombay-400 006. *Raw-Stock and Export Wing:* D-5, Shivsagar Estate, Dr. Annie Besant Road, Worli, Bombay-400 018. *Financing, Administration & Accounts Wing* 1-8, Dalamal Towers, Nariman Point, Bombay-400 021.

Special Projects NFDC Film Centre (16 mm Unit), RIC Industrial Estate, Behala, Calcutta-700 060; NFDC Video Centre, Bhavani Mansion No. 3, 4th Street, Nungambakkam High Road, Madras-600 034; NFDC Sub-Titling Laboratory, Shed No. W-187 (F), MIDC, Trans-Thane Creek Industrial Area, Pawane Village, Thane (Dist.).

Activities: Financing and production of films, Joint Ventures and Co-Production, Financing for Theatre Construction, Import and Distribution of films, Distribution of Indian films, Exhibition of films through its theatres, Export of films and materials, Providing facilities for 16mm film production, Sub-Titling of films in Indian and Foreign languages and transferring of films into Video Cassettes *Regulatory Activities:* (a) Canalisation of export of films and Video Rights, (b) Canalisation of import of Raw-Stock, (c) Canalisation of import of feature films. *Other activities:* Organising of International Film Festivals and Film Weeks in India and to participate in foreign film festivals and organise film weeks abroad under cultural exchange programme. Organising National Film Festivals and Awards.

Chairman: Shri D. V. S. Raju; *Managing Director:* Smt. Malati Tambay Vaidya; *Secretary:* Shri P. Balakrishnan.

Exports: During 1982-83, the export of Indian feature films and video rights canalised through NFDC was Rs. 125.4 million. The direct export business done by NFDC during the period was of the order of Rs. 10 million.

Indian films are now exported to over 80 countries. However, the traditional markets for Indian films are the Gulf Countries, Middle East, Far East, Sri Lanka, the African Countries, the U.K., the Fiji Islands, etc.

Imports: The National Film Development Corporation is a major importer of foreign films into the country. The only other agency importing films are the Motion Picture Export Association of America (MPEAA) group of companies and Sovexport Films. The imports by these two agencies are canalised through NFDC. The present Agreement with MPEAA expires in September, 1983 and no further renewal will be made by the Government.

Children's Film Society, India has its Head Office at Hingorani House, 78, Dr. Annie Besant Road, Bombay 400018 and has Zonal Offices in Delhi, Madras and Calcutta.

The Society, which had been set up in 1955 with aid and assistance of the Government of India, produces, acquires, distributes and exhibits films designed for children and neo-youth, on its network all over India. It is entrusted with an important task of providing clean and healtny entertainment to our young people through the medium of films. This organisation is responsible for the development and spread of the Neo-Youth Film Movement in the country.

As on June 1, 1983 the Society has produced/acquired a total of 259 films, 94 feature films and 165 short, puppet, cartoon and experimental films. 48 feature films have been produced by CFSI and five have been purchased from Indian producers. It has acquired 41 films from foreign countries.

The Society has drawn up a viable programme of producing more films, purchasing more films from abroad and dubbing films in the regional languages for the benefit of millions of our young people.

Apart from screening of the films in the theatres, in selected cities, the Society arranges sponsored shows at Madras, Calcutta, Bombay and Delhi and week-long festivals in different parts of the country. It supplies films from its stock to Child Welfare Centres, Community Centres, Cultural Societies, Schools and Film Clubs, apart from use of mobile unit to reach rural children. A new scheme has been launched by CFSI to show films to children in the rural areas through a mobile film unit. The programme in its final shape, envisages provision of mobile van in every district in India in course of the time to cover every child living in urban as well as rural India.

CFSI has so far held two International Competitive Neo-Youth Film Festivals, one at Bombay and other at Madras. It held the third International Film Fete at Calcutta in November 1983. The festival had been accorded 'A' category certification by International Centre of Films for Children and Young People (ICFCYP), Paris. It was counted among the top-ranking film festivals in the world.

Chairman : Dr. V. Shantaram.

Central Board of Film Censors, 91, Walkeshwar Road, Bombay 400006. A statutory body set up under the Cinematograph Act, 1952. During the year 1982, the Board granted 1,710 'U' and 91 'A' certificates to foreign films and 1,970 'U' and 265 'A' certificates to Indian films.

Chairman: Suresh Mathur

Hindustan Photo Films Manufacturing Co., Ltd. (details in the chapter on the Government of India Undertakings).

FILM ASSOCIATIONS

Indian Motion Picture Producers' Association, Sandhurst Bldg., Sardar Vallabhbhai Patel Rd., Bombay 400004: All problems connected with film production and disputes arising therefrom are taken care of by IMPPA. The IMPPA also acts as the central agency for registration of film titles, procurement of raw stock, make-up materials, magnetic films and other studio requirements.

President: Shreeram Bohra; *Sr. Vice-President:* Gulshan Rai; *Vice-President:* Brij Sadanah; *Hon. Treasurer:* T. C. Dewan, *Secretary:* G. D. Deshpande.

Film Producers' Guild of India Ltd., Shantshree, S.S. Rao Rd., Bombay 400012: Established in 1954, the Guild has a membership of over 100 active, regular producers. The organisation looks after all their problems as also difficulties arising out of film production. It makes representations to the Union and State Governments seeking redress of their grievances as also against levies, impositions and taxes. It also ensures regular supplies of materials required in the business of film production.

President: Ramanand Sagar; *Vice-Presidents:* B. R. Chopra, Amit Khanna; *Treasurers:* Atma Ram, Shanti Sagar; *Secretary:* R. V. Ishwar.

Cinematograph Exhibitors' Association of India, Flat No. 22/23B, Vellard View, Tardeo Rd., Bombay 400 034: Established on November 26, 1946, the CEAI is registered under the Indian Companies Act. Its main objectives are to help and develop the exhibition trade in films and to co-operate with distributors and their organisations to ensure smooth exhibition of films. The organisation takes measures conducive to the interests and welfare of members in co-ordination with various interests in the film industry. The CEAI has over 1,400 members on its rolls.

President: Pranlal K. Doshi.

Indian Motion Picture Distributors' Association, Vijay Chambers, Opp. Dreamland Cinema, Tribhuvan Rd., Bombay 400004: The IMPDA ensures co-ordination among exhibitors, producers and distributors of motion pictures and takes care of the interests of distributors, in particular. It has a membership of 750.

President: Gulshan Rai; *Vice-President:* N.N. Sippy; *Treasurer:* Sunder F. Rai; *Hon. Secretaries:* G.L. NAik, Devendra T. Shah.

Film Fedn. of India, 91, Walkeshwar Rd., Bombay 400 006.

CEMENT

CEMENT, though it may not have been known by that name, is an ancient building material. Evidence of its use is believed to have been found in the Indus civilisation of Mohenjodaro. The Greeks are also known to have made extensive use of it, but it is to the Romans that the credit must go for having evolved concrete from cement.

Portland cement was first manufactured in England in the early part of the nineteenth century. It resembled a stone quarried near Portland, England, from which it derives its name of Portland cement.

Although cement was first manufactured in India near Madras in 1904, it was not until 1914 that the foundation of a stable Indian cement industry were really laid. In October 1914, the first bag of cement was packed at Porbandar by the Indian Cement Company Ltd. (Agents: Tata Sons & Co.). This company then had a capacity of only 1,000 tonnes. At the end of 1981, there were 62 units in the country and their aggregate capacity was 26.36 million tonnes.

LOCATION OF THE INDUSTRY

The State-wise break up of the units is as follows: Andhra Pradesh 10, Assam 1, Bihar 6, Gujarat 8, Haryana 2, Himachal Pradesh 1, Jammu and Kashmir 1, Karnataka 6, Kerala 1, Madhya Pradesh 10, Maharashtra 3; Meghalaya 1, Orissa 2, Rajasthan 7, Tamil Nadu 8, Uttar Pradesh 3 and West Bengal 1.

Public Sector: Out of 62 units, 14 are in the public sector in 1981. The break-up of these units is as follows:

Andhra Pradesh: Cement Corporation of India (Yerraguntla); *Assam:* Cement Corporation of India (Bokajan); *Haryana:* Cement Corporation of India (Charkhi Dadri); *Himachal Pradesh:* Cement Corporation of India (Rajban); *Jammu & Kashmir:* J & K Cement; *Karnataka:* Visvesvaraya Iron & Steel Ltd. and The Cement Corporation of India (Kurkunta); *Madhya Pradesh:* The Cement Corporation of India (Mandhar, Akaltara and Nayagaon); *Meghalaya:* Mawmluh-Cherra Cements Ltd.; *Orissa:* The Industrial Development Corpn. of Orissa Ltd. (Hira Cement Works); *Tamil Nadu:* Tamil Nadu Cements Corporation Ltd. (Alangulam and Ariyalur); *Uttar Pradesh:* The Uttar Pradesh State Cement Corporation Ltd. (Churk, Chunar and Dalla).

Expansion: Production capacity is expected to increase by 6 million tonnes to 38 million tonnes by the end of 1983-84, and the production is likely to reach 28 million tonnes as compared to 23 million tonnes for the preceding year.

Number of Persons Employed: About 100,000 including workers in quarries.

Contribution to Gross National Product: In 1982 it was Rs. 8,718 million (Approx.).

Ranking in the World Market (1980): India is the 8th largest cement producer in the world. The first seven countries are the USSR, Japan, USA, Italy, West Germany, France and Spain.

PRODUCTION AND CONSUMPTION

In 1982 production was 23 million tonnes as against 20.01 million tonnes in 1981.

Cement factories are largely concentrated in the southern and western regions of the country because high grade limestone is more abundantly available there. This has led to regional imbalances.

Capacity and Production of Cement

(Million tonnes)

		South	West	East	North	Total
1979	a.	8.45	6.33	4.19	4.44	23.41
	b.	6.78	5.79	2.73	2.93	18.23
	c.	5.54	5.11	3.38	5.54	19.57
1980	a.	8.90	8.00	4.18	4.44	25.52
	b.	6.82	5.70	2.64	2.63	17.79
	c.	5.80	5.23	3.48	4.92	19.43
1981	a.	6.92	6.04	2.96	6.08	22.00
	b.	7.75	6.40	3.01	3.60	20.76
	c.	6.18	5.69	3.93	6.28	22.08

a—Capacity; b—Production; c—Consumption.

Production of cement in India and other countries in 1979 and 1980 respectively (in million tonnes): USSR: 123.01; 124.80; Japan: 87.80; 87.96; USA: 70.51; 65.12; Italy: 39.72; 41.85; Germany: 35.47; 34.24; France: 28.84; 29.10; Spain: 28.05; 28.00 and India 18.23; 17.79.

Per Capita Consumption in 1979 and 1980 respectively (in Kgs.): Japan: 631, 628; Italy: 582, 612; Federal Republic of Germany: 482, 464; France: 447, 452; USSR: 388, 392; USA: 266, 288; India: 28, 32.

Exports: In view of the shortages of cement in the country, Government has virtually banned export of this commodity from 1978 in order to augment supplies for the domestic market.

Imports: To meet the growing internal demand, the Government imported 1.87 million tonnes of cement in 1982.

GENERAL

The Cement Industry has completed 15 months since the introduction of Government's new policy of partial decontrol. During this period, the capacity of the industry registered a record increase of 3.8 million tonnes, bringing the total capacity of the industry to 32 million tonnes by the end of March 1983, and cement production went up, despite severe power cuts/interruptions in major cement producing States by about 2.80 million tonnes to 23 million tonnes with 77.1 per cent capacity utilisation. In order to overcome the power constraints the industry is going ahead in a big way to instal captive power generators, both diesel and thermal, of an aggregate capacity of 265 MW at a cost of Rs. 1,750 million.

Mini Plants: Cement Manufacturers' Association offers services to mini cement plants and they are eligible to become members of the Association. The Cement Research Institute and the Regional Research Laboratory, Jorhat are offering vertical shaft technology. Indigenous technology for putting up mini cement plants based on Rotary Kiln is also available.

Establishment of mini cement plants has certain advantages such as exploitation of scattered and small size deposits of cement grade limestone, dispersal of manufacturing capacity over the country thereby helping to rectify regional imbalances, reducing burden on railway transportation and creation of new employment potential especially in rural, hilly and other inaccessible areas.

Additional Capacity and Production: It is estimated that additional capacity of about 7.5 million tonnes will be commissioned during 1982-83, comprising of both substantial expansions and installation of new units. The estimate of production from this additional capacity on a conservative basis could be around 2.5 to 3 million tonnes and the total availability of indigenous cement would be around 25 million tonnes during 1982-83.

Demand: The domestic demand for cement for 1981-82 is estimated at about 30 million tonnes and the demand is likely to increase, on a conservative estimate, at 8 per cent annually.

Training and Research: Almost all cement factories have well equipped laboratories. The major research for development of the industry is being done by the *Cement Research Institute of India.* The Institute has a well-equipped laboratory with training facilities for scientists, at Ballabgarh 121004 (Haryana). The *CRI* have undertaken intensive research in specialised fields connected with cement.

Ten Largest Units: The Associated Cement Cos. Ltd., 121, Maharshi Karve Road, Bombay-400020. The Birla Jute Manufacturing Co. Ltd., Birla Building, 9/1, R.N. Mukherji Road, Calcutta-700001. The India Cements Ltd., 'Dhun Building', 175/1, Mount Road, Madras-600001. The Cement Corporation of India Ltd. (Govt. of India Undertaking), Shakuntala Apartment, 59, Nehru Place, New Delhi-110019. Tamil Nadu Cements Corporation Ltd. (A subsidiary of TIDCO), LLA Building, 735, Anna Salai, Madras-600002. The U.P. State Cement Corpn. Ltd. (A U.P. Govt. Undertaking), Churk, 231206 Mirzapur Dist. Saurashtra Cement & Chemical Industries Ltd., Ranavav-360560 (Gujarat). The Jaipur Udyog Ltd., P.O. Ram Krishna Lok, Sawaimadhopur-322001, Rajasthan, Shree Digvijay Cement Co. Ltd., Shree Niwas House, Hazarimal Somani Marg, Bombay-400001. J.K. Cement Works, Kamla Tower, Kanpur 208001 (U.P.).

Publication: "CEMENT" (Quarterly Journal), C/o Cement Manufacturers' Association, 26, Rajendra Place, Pragati Tower (13th Floor), Pusa Road, New Delhi-110008.

MINES AND MINERALS

THE geology of a country is the bedrock of its economy determining its economic status in the international community. India has substantial potential reserves of important minerals, though distributed unevenly over the country, which can be utilised as raw material for its industrial progress or in trade with other countries.

Metallurgy had reached an advanced stage in ancient India, as is borne out by the rustless Ashoka pillar in Delhi. There is also evidence of a flourishing industry in metals like gold, silver, copper, zinc, lead, iron, etc, but these were mostly extracted from easily accessible sources.

Before independence mineral development had not advanced, though the Geological Survey of India and a Minerals Development Division was set up in 1945. After independence, with the systematic and detailed geological mappings mineral exploration was intensified. Magnetic and seismic surveys were deployed to help further prospecting. Remote Sensing Technology had come to be evolved abroad and India also used satellites like 'Gemini' and ERTS (Earth Resources Technology Satellite) to locate deposits. Techniques in the extraction of minerals have also been rapidly improving.

Mineral prospecting and development received great impetus in the Second Five-Year Plan when the Industrial Policy Resolution was mooted in 1956 according top priority to industrialisation. The Minerals and Metals Trading Corporation was set up in 1956 which took over the minerals and metals export from State Trading Corporation.

The Regional Research Laboratory, Bhubaneshwar, which is a National Laboratory under CSIR (Council of Scientific and Industrial Research) has also contributed in the field of mineral beneficiation, metal extraction, mineral and metallurgical waste and byproducts.

The total value* of mineral production during 1982 was Rs. 48,750 million compared to Rs. 34,320 million in the previous year. Mineral fuels (coal, lignite, petroleum and natural gas) constituted the leading group with Rs. 44,220 million or 90.71 per cent (solid fuels 41.43 per cent and liquid fuels 47.19 per cent), metallic minerals Rs. 2,780.6 million or 5.70 per cent and non-metallic minerals Rs. 1,747.8 million or 3.58 per cent of the total value of mineral production during 1982. Besides, minor minerals valued at Rs. 1,786.8 thousand were also produced during the year.

In terms of value of output coal including lignite was foremost with 42.74 per cent followed by petroleum and natural gas 47.96 per cent, iron ore 2.87 per cent, limestone 1.89 per cent, copper ore 0.68 per cent, manganese ore 0.61 per cent, gold 0.50 per cent, phosphorite 0.47 per cent, zinc concentrate 0.31 per cent, chromite 0.30 per cent while all the other minerals together accounted for the remaining 1.67 per cent.

The index of mineral production (quantum index) with base 1970-100 was 188 during 1982 showing an increase of 16 points over the previous year. Among fuels, the index of coal mining including lignite increased by 7 points while that of petroleum and natural gas increased sharply by 70 points over the previous year. The indices of metal ore mining decreased by 3 points while that of non-metallic minerals mining increased by 2 points during 1982 as compared to the previous year.

State-wise analysis: State-wise analysis indicated that Bihar occupied the leading position accounting for about 20 per cent of the total value of mineral production in 1982. It was followed by Assam 13 per cent, Madhya Pradesh 10 per cent, Gujarat 8 per cent, West Bengal 7 per cent and Andhra Pradesh 4 per cent. The rest was accounted by all the other states and the Bombay High.

The value of mineral production (Rs. million) in each State for 1982 was: Bihar 9,680, Assam 6,189, Madhya Pradesh 5,004, Gujarat 4,125, West Bengal 3,385, Andhra Pradesh 2,008, Orissa 1,255, Maharashtra 1,201, Tamil Nadu 1,060, Rajasthan 616, Karnataka 476, Uttar Pradesh 388, Goa 302 and Bombay High 1,358.

MINERAL FUELS

Coal and Lignite: The most important coalfields are Raniganj in West Bengal and Jharia and Bokaro in Bihar. The best coking coal comes from Giridih, Jharia and Raniganj. Other States in which coal is found are Madhya Pradesh, Orissa, Andhra Pradesh, Maharashtra, Assam, Uttar Pradesh, Jammu & Kashmir, Meghalaya, Nagaland and Arunachal Pradesh.

The total all-India proved, indicated and inferred reserves of all types of coal, including lignite, stand at 86,428 million tonnes with seams of 1.2 metres and above in thickness and generally up to a depth of 600 metres from the surface. Out of this the reserves of coking coal is placed at 23,391 million tonnes.

Significant reserves of lignite occur in Gujarat, Jammu & Kashmir, Rajasthan and Tamil Nadu. The total estimated reserves are about 2,100 million tonnes of which Neyveli field in Tamil Nadu alone contains 1,919 million tonnes.

India is seventh largest producer of coal in the world with nearly 123 million tonnes production during 1981. The output of coal in million tonnes: 1979 (103.3); 1980 (109.2); and 1981 (123.0). The value of coal production during 1981 was Rs. 30,048 million.

The output of lignite in million tonnes 1979 (3.2), 1980 (4.5) and 1981 (5.9). The value of lignite production during 1981 was Rs. 568.6 million.

The "Integrated Neyveli Project" at Neyveli, S. Arcot district of Tamil Nadu is planned to increase the mine output to 6.6 million tonnes per annum. Output of lignite was 4.5 million tonnes during 1980 which was higher by 23 per cent compared to previous year. Nearly 94 per cent of output was reported from Tamil Nadu and the rest was from Gujarat.

Lignite also occurs at Palana and Khetri in Bikaner district of Rajasthan; Nichahom in Jammu & Kashmir and in Kutch and Bharuch districts in Gujarat.

METALLIC MINERALS (FERROUS GROUP)

Chromite is an important strategic mineral of which India has supplies.

The chief deposits of chromite ore are in Cuttack, Dhenkanal and Keonjhar districts of Orissa; Bhandara and Ratnagiri districts of Maharashtra; Singhbhum district of Bihar; Mysore and Hassan districts of Karnataka; Krishna district of Andhra Pradesh; Salem district of Tamil Nadu and Tangnoupal district of Manipur.

Production and exports respectively in '000 tonnes of chromite: 1979 (309, 114); 1980 (321, 230); 1981 (336, 130). Production of ferro-chrome during 1981 was 31,333 tonnes.

Iron ore: The production of iron ore in India during 1981 totalled 41.3 million tonnes as against 41.9 million tonnes in the previous year.

India is one among the few countries endowed with large reserves of good quality iron ores which can meet the growing demands of the indigenous iron and steel industry and also sustain considerable export trade.

The production from Goa during 1981 was 12.5 million tonnes as against 14 million tonnes during 1980. During 1981, Madhya Pradesh produced 10.2 million tonnes; Bihar 6.8 million tonnes and Karnataka 3.9 million tonnes.

Production and value ('000 tonnes and Rs. '000) respectively of iron ore: 1979 (39,858; 1,065,871); 1980 (41,936; 1,245,307); 1981 (41,354; 1,287,839).

Manganese ore: Extensive deposits of manganese ore occur in Madhya Pradesh, Maharashtra, Orissa, Andhra Pradesh, Karnataka, Bihar, Rajasthan and Goa.

The total recoverable reserves of manganese ore as on January 1, 1981 in the country are placed at 116.6 million tonnes. It is estimated that the deposits in the main belt of Nagpur and Bhandara in Maharashtra and Balaghat in Madhya Pradesh alone contain reserves of the order of 40.6 million tonnes.

Yearly output and exports respectively of manganese ore in tonnes: 1979 (1,770,568; 627,721): 1980 (1,691,918; 626,733); 1981 (1,525,559; 608,740).

A new unit with a capacity of 50,000 tonnes of ferro-manganese per annum of Maharashtra Electrosmelt, Chandrapur commenced production in March 1977. With this, there are at present 9 major ferro-manganese plants in the country with total installed capacity of 338,200 tonnes per annum. Of these 4 units are located in Maharashtra, two each in Orissa and Karnataka and one in Andhra Pradesh.

Uniferro International Limited, at Tumsar, Maharashtra with a capacity of 45,000 tonnes per annum went on stream in 1981. Paramount Sinters Pvt. Ltd. (Maharashtra Electrosmelt) has a sintering plant with a capacity of 15,000 tonnes per annum of manganese sinters using 5 mm rejected manganese fines. FACOR has proposals to set up manganese sintering plants in collaboration with RRL, Bhubaneswar.

During 1981 the production of ferro-manganese was 208,836 tonnes as compared to 158,303 tonnes in 1980.

NON-FERROUS GROUP

Bauxite: India is self sufficient in respect of bauxite which is the chief raw material for aluminium metal. A sizeable quantity also finds an outlet in export market after meeting the indigenous requirements. The all India reserves of bauxite of all grades are placed at 2,489 million tonnes as on 1.1.1980. This enhanced reserve of bauxite is due to the recent discovery of bauxite deposits on the east coast of Andhra Pradesh and Orissa.

The important deposits of bauxite occur in Palamau and Ranchi districts of Bihar; Mopa and Pernem area in Goa; Surguja, Shahdol, Mandla and Bilaspur districts of Madhya Pradesh; Kolaba, Kolhapur and Ratnagiri districts of Maharashtra; Madurai, Nilgiri and Salem districts of Tamil Nadu; Jamnagar and Kutch districts of Gujarat; Belgaum and South Kanara districts of Karnataka; Kalahandi, Koraput and Sambalpur districts of Orissa and Banda district of Uttar Pradesh. Recently, different exploratory agencies have established a total bauxite reserve of 518.56 million tonnes in Orissa, Madhya Pradesh, Andhra Pradesh, Uttar Pradesh, Maharashtra and Karnataka.

Yearly production and export respectively of bauxite in tonnes are: 1979 (1,951,933; 18,536); 1980 (1,784,699; 45,526); 1981 (1,922,593; 84,241).

Aluminium: There are 7 aluminium smelters owned by five companies of which one is in the public sector at Korba in Madhya Pradesh with an installed capacity of 100,000 tonnes; six in private sector located in Hirakund (Orissa), Alwaye (Kerala), Belgaum (Karnataka), Renukoot (U.P.), Mettur (Tamil Nadu) and Jaykaynagar (West Bengal). The National Aluminium Company Ltd.' was formed on 7.1.1981 to implement Alumina/Aluminium project in Orissa. The total capacity of all the aluminium plants in the country is placed at 300,000 tonnes per annum.

Copper: In India at present, there are two copper smelters both in public sector located at Ghatshila in Bihar and Khetri in Rajasthan. The total installed capacity of copper metal is 47,500 tonnes per annum against which the production of electrolytic copper metal during 1981 was 14,887 tonnes.

Production of copper ore during 1981 was 2,106,790 tonnes valued at Rs. 347,270,000.

Malanjkhand Copper Project: The project is being implemented by Hindustan Copper Ltd. at Malanjkhand in Balaghat district of Madhya Pradesh. This will be the country's first large size open-cast mine in hard rock and has been planned for ultimate production of 2 million tonnes of ore, equivalent to about 23,000 tonnes of copper metal per annum. The project will comprise the mine and a matching concentrator plant. The concentrates to be produced at Malanjkhand will be smelted at the Khetri smelter. Therefore the smelting and refining capacity of Khetri smelter are being expanded from 31,000 tonnes to 45,000 tonnes for treatment of Malanjkhand concentrates.

Lead and Zinc: Hindustan Zinc Ltd. is producing lead and zinc ore from its Zawar group of mines in Rajasthan and Bandalamottu lead project in Andhra Pradesh. Besides this Baroi and Rampura-Agucha mines are under exploration.

The production of lead concentrates during 1981 was 20,017 tonnes. The concentrates from Rajasthan are sent to Tundoo Lead Smelter in Bihar while those from Andhra Pradesh are sent to Visakhapatnam smelter, Andhra Pradesh.

With the commissioning of Vizag smelter during 1977, there are at present three zinc smelters, the other two being located at Debari in Rajasthan and Alwaye in Kerala. The capacity of Vizag smelter is 30,000 tonnes of the zinc metal and that of Debari smelter has been expanded from 18,000 to 45,000 tonnes during 1977 while that of smelter at Alwaye is 20,000 tonnes. Thus making total capacity of 95,000 tonnes per annum. HZL is contemplating to set up a new zinc-lead smelter complex based on the newly discovered lead and zinc ore deposits of Rampura-Agucha and other mines with a capacity of 100,000 tonnes of zinc and 35,000 tonnes of lead per annum.

Production and value of lead concentrates during 1981 in tonnes and value in Rs. '000 respectively was 20,017 and 57,461 and that of the zinc concentrates 52,876 and 127,420.

Gold: The production of gold during 1981 was 2,495 kgs. valued at Rs. 266 million.

NON-METALLIC MINERALS

Apatite and Rock Phosphate: These constitute the principal raw material for production of commercial phosphatic fertilizers. Requirements of rock phosphate were entirely met by imports till 1968. In view of their short supply intensive exploratory programme for the search of phosphate minerals was launched upon by the Government and as a result several workable deposits of phosphorites were discovered in Rajasthan, Uttar Pradesh and Madhya Pradesh. Production of phosphorite has already commenced at Jhamarkotra and Maton in Udaipur district of Rajasthan, Maldeota in Dehra Dun district of Uttar Pradesh and Jhabua district of Madhya Pradesh.

The production of phosphorite during 1981 was 549,040 tonnes valued at Rs. 234,307,000 as against 522,922 tonnes valued at Rs. 197,936,000 in 1980.

Asbestos: Naturally occurring fibrous minerals are called asbestos. The commercial varieties fall into two groups viz., the serpentine group found extensively in the serpentine rocks and is commonly called chrysolite variety and the other amphibole group comprised of treemolite, actionolite, anthophylite, crocidolite and amosite varieties. The chrysolite variety is the most important one from the industrial point of view and is mainly limited to Pulivendla taluk of Cuddapah district of Andhra Pradesh and Singhbhum district of Bihar.

Thirteen units manufacturing asbestos-cement products (one in joint sector and the rest in private sector) were in operation in 1980 with a total installed capacity of 681,800 tonnes against which the production was 635,100 tonnes in 1980.

The bulk of the asbestos requirements of the country is met by imports. The trend in the production and imports of asbestos for the last three years is shown in the table below:

(Qty. in tonnes)

Year	Output	Imports
1978-79	32,334	60,573
1979-80	33,710	58,689
1980-81	24,515	55,049

Gypsum: Gypsum is mainly used in the manufacture of Portland cement, ammonium sulphate fertilizer, plaster of Paris and as a soil conditioner of alkaline soils where pulverised low grade gypsum is directly applied. However, due to implementation of 'Rationalisation scheme' of the Sindri Unit of F.C.I. the use of gypsum is gradually being eliminated in the manufacture of ammonium sulphate fertiliser and will be totally eliminated when the scheme is fully implemented.

India has abundant reserves of gypsum in the State of Rajasthan. Other States where gypsum occurs are Andhra Pradesh, Gujarat, Himachal Pradesh, Jammu and Kashmir, Karnataka, Madhya Pradesh, Tamil Nadu and Uttar Pradesh.

The total all India reserves of gypsum in tonnes as on January 1, 1980 were placed at 1,205 million tonnes, of which Rajasthan's share was 89 per cent. Production of gypsum in tonnes: 1979: 877,490; 1980: 866,228; 1981: 947,663.

Kyanite and Sillimanite: Are the important refractory minerals having the same chemical composition ($Al_2 O_3 SiO_2$) but differ in physical and crystallographic properties. Singhbhum Kyanite of Bihar and Khasi sillimanite of Meghalaya are well known the world over and were at one time the chief source of massive kyanite and sillimanite. The known productive deposits of kyanite are Lapsa Buru deposits in Singhbhum district, Bihar and the Dahegaon-Pimpalgaon deposits in Bhandara district of Maharashtra.

The Indian sillimanite can be used as a refractory without calcination since it shows very little expansion. The occurrences of sillimanite are reported from several States, however, the production comes from only Meghalaya, Maharashtra, Kerala, Tamil Nadu and Madhya Pradesh. Major production of sillimanite is from the famous Sonapahar mines of Khasi Hills district of Meghalaya. Sillimanite sand is recovered as a by-product from ilmenite processing in Kerala and Tamil Nadu.

Prior to 1979 India occupied an important position both as a producer and as an exporter of Kyanite and sillimanite. However the export of Kyanite and massive sillimanite has been banned since 1979. The trend of their output and exports for the three years are shown in the following table:

(In tonnes)

Year	Kyanite		Sillimanite	
	Output	Export	Output	Export
1978-79	40,709	1,096	16,108	150
1979-80	49,141	1,463	14,488	100
1980-81	38,868	1,132	12,335	160

Limestone: Is an important industrial mineral used in the manufacture of cement, iron and steel, chemicals and a host of other major industries such as paper, sugar, fertilizer, glass, etc.

Limestone occurs in almost all the States of India. From the reserves of various limestone deposits, it is apparent that sufficient resources of flux and cement grade limestone are available.

The production of limestone in thousand tonnes and value in thousand rupees respectively: 1979 (31,481; 760,755); 1980 (29,183, 759,928); 1981 (31,847; 832,416).

Magnesite: Is the chief mineral used in the manufacture of basic refractory bricks for steel making. It is mined in the States of Tamil Nadu, Uttar Pradesh, Karnataka and Rajasthan.

In India major deposits are in Karnataka, Tamil Nadu and Uttar Pradesh. Deposits in Rajasthan and Bihar are also of some importance. The Chalk Hills deposits of Salem district, Tamil Nadu are the largest in India and have been under active production for a number of years. Magnesite deposits in Almora and Pithorgarh districts of Uttar Pradesh are now under exploitation.

Production and export (in tonnes) respectively: 1979 (396,211; 11,753); 1980 (380,113; 6,571); 1981 (463,118; 4,962).

Mica: Mica is treated as a strategic mineral and India accounts for a big slice of the world trade in it.

The principal mica deposits are concentrated in Bihar, Rajasthan and Andhra Pradesh. During 1981 Bihar accounted for 57 per cent of all India output followed by Andhra Pradesh 28 per cent and Rajasthan 12 per cent. Small output was reported from Tamil Nadu.

The production of crude mica (excluding waste mica) and export of all grades of mica respectively in tonnes are: 1979 (9,073; 22,556); 1980 (7,394; 28,700); 1981 (8,357; 33,522),

Sulphur: India is practically devoid of deposits of elemental sulphur. Three alternative sources of recovering sulphur and sulphuric acid for reducing the dependence on imports have been adopted. These are: *(i)* recovery of elemental sulphur from petroleum refinery, *(ii)* production of by-product sulphuric acid from zinc and copper smelters and *(iii)* production of sulphuric acid from pyrites. The Madras Refinery Limited is the only plant from where elemental sulphur is recovered during the refining of crude petroleum. The production of by-product of sulphuric acid was reported from 5 smelters of non-ferrous metals three zinc smelters—two operated by HZL at Debari and Visakhapatnam and one operated by Cominco Binani Ltd. at Alwaye and two copper smelters operated by HZL at Khetri and Ghatsila. There is one sulphuric acid plant based on pyrites located at Sindri owned by FCI.

Production of pyrites was reported only from Amjhore in Rohtas district, Bihar by Pyrites and Phosphates and Chemicals Ltd. The production of pyrites during 1979, 1980 and 1981 was 67,172 tonnes, 82,095 tonnes and 57,598 tonnes respectively. The pyrites produced at the mine is supplied to FCI's Simon-Carve's sulphuric acid plant at Sindri. Another pyrites based sulphuric acid plant with Bulgarian aid was being set up at Sindri. With a view to fully meet the requirements of the two pyrites based sulphuric acid plants, the PPCL was progressing with a scheme of mine production from the level of 400 tonnes to 900 tonnes per day. A feasibility report for exploitation of Saladipura pyrites deposits in Sikar district of Rajasthan was submitted by Messrs. RTZ Ltd. of U.K. However, the major country's requirements of sulphur are met from imports.

Imports of sulphur in tonnes during 1978-79: 722,478; 1979-80: 930,577; 1980-81: 756,430.

Salt: The total production of common salt in the country during 1979, 1980, 1981 and 1982, was 7,037,000, 8,007,400, 8,923,200 and 7,308,400 tonnes respectively.

Iodised Salt: Out of the above quantities a quantity of 192,870 and 203,760 tonnes were iodised during the year 1981 and 1982 respectively at Sambhar Lake in Rajasthan, Kharaghoda in Gujarat and Calcutta in West Bengal for supply to the goitre endemic areas under the National Goitre Control Scheme.

Rare Minerals: Investigations carried out by the Department of Atomic Energy have revealed a number of radioactive mineral deposits in India.

The beach sands of Kerala and Tamil Nadu contain a useful radioactive mineral—monazite, which contains thoria, uranium oxide, phosphate and a large percentage of rare earth oxides. Thorium can be converted into an important atomic fuel of the future. The total reserves of rare earth oxides in the beach sands have been estimated at approximately one million tonnes.

Ilmenite is also recovered from the beach sands of Kerala State and the Mahavalakurichi area in Tamil Nadu. It is now mainly exported to Japan. The present estimated resources of ilmenite in the country are placed at 100 to 150 million tonnes. During 1976, 120,727 tonnes of ilmenite, valued at Rs. 29.94 million, were exported.

India's present overall indicated and inferred reserves of uranium are estimated at about 80,000 tonnes, and of thorium at 360,000 tonnes.

Uranium bearing ores have been discovered in the Singhbhum Thrust Belt of Bihar, and in the Himalayan regions of Himachal Pradesh and Uttar Pradesh. The uranium mine at Jaduguda in the Singhbhum district, worked by the Uranium Corporation of India Ltd., a Govt. of India undertaking, treats about 1,000 tonnes of ore per day in the uranium mill.

PRODUCTION AND VALUE OF MINERALS†

STEEL

THE art of smelting and fashioning of iron is believed to have been known in Asia, the oldest home of civilisation, long before it reached Europe. The Chinese, like pioneers in many spheres, are said to have been adept in steel-making. India also occupied a pre-eminent position in iron and steel-making in ancient times. The famous Kutub Minar in Delhi is said to be 3,000 years old and it represents a forging which weighs between seven and eight tonnes. To this day, the method by which it was produced is as mysterious as the construction of the pyramids.

The modern steel industry in India is only about 70 years old. It came into existence with the launching of the Tata Iron and Steel Works at Jamshedpur in Bihar in 1907. An earlier attempt to start the industry was Kulti Iron Works near Asansol in West Bengal which later became a part of the Indian Iron and Steel Company.

The Jamshedpur Steel Works went into operation by stages in 1911-12. In 1919, Indian Iron and Steel Company established a unit near Asansol, West Bengal. Meanwhile, the first unit in the public sector was put up in Karnataka on the banks of river Bhadra. The production in Mysore Iron and Steel Works began in 1923.

Up to the end of World War II, these three were the main units in India producing 1.7 million tonnes of pig iron and a million tonnes of steel ingots annually.

The development of modern steel industry began during the Second Five Year Plan. Three integrated steel plants in the public sector, each with a one million tonne ingot steel capacity at Bhilai, Durgapur and Rourkela, came into operation in stages between 1959 and 1962. During this period, the capacity of TISCO at Jamshedpur was raised to 2 million tonnes and IISCO at Burnpur to one million tonnes. The total ingot steel capacity thus rose to 6 million tonnes. With the expansion of Bhilai to 2.5 million tonnes ingots, Durgapur to 1.6 million tonnes ingots and Rourkela to 1.8 million tonnes ingots, the total capacity of the integrated steel plants was raised to 8.9 million tonnes between 1962-73. With the establishment of Bokaro Steel Plant in Bihar, the ingot capacity of all these plants has now gone up to 11.4 million tonnes. Bokaro and Bhilai Plants are being further expanded from their present annual 2.5 million tonnes ingot capacity to 4 million tonnes ingot steel each.

Ranking in the World Market: At present, the steel-making capacity stands at 14.6 million tonnes of ingots per year of which 11.4 million tonnes are accounted for by the integrated steel plants and 3.6 million tonnes by the mini steel plants. In 1981, India ranked 16th among the major steel-producing countries in the world.

The total world output of crude steel was of the order of 707.6 million tonnes in 1981. The USSR was the top producer with 149 million tonnes, while USA beat Japan for the second place. Our steel consumption remained at around 15 kgs. per capita as against the figure of around 600 kgs. in the industrially advanced countries of the world.

Consumption (Million tonnes)

Activity	1979-80	1984-85
I. Machinery Manufacture and Metal Products	4.500	7.022
II. Construction Sector	3.500	5.162
Total Domestic (I+II)	8.000	12.184

Employment in the Industry: Generally, it is believed that for every tonne of steel consumed, employment ranging from 4 to 10 persons is created in the downstream sectors. The integrated steel industry itself has a work force of 291,000 in India.

Private Sector:

Tata Iron and Steel Company Ltd. (TISCO) (Head Office: Bombay House, Homi Mody St., Bombay 400023) owns, in addition to the integrated steel plant at Jamshedpur, captive collieries at Sijua, Jamadoba and West Bokaro and an iron ore mine at Noamundi all in Bihar State and iron ore, manganese ore, limestone, dolomite and other mines in Orissa. The steel plant at Jamshedpur is the oldest integrated steel plant in the country. The installed capacity of the plant is 2.16 million tonnes of liquid steel per annum equivalent to about 1.74 million tonnes of saleable steel. The company produces a variety of steel items like bars, structurals, strips plates, black and galvanised sheets, electrical steel sheets, railway materials and rolled rings, besides ferro-manganese, agricultural tools, sulphate of ammonia and benzol products.

Steel Authority of India Limited (SAIL) was set up under the Companies Act, 1956 on 24th January 1973, as a holding company for steel and input industries in the public sector. It was restructured with the passing of the Public Sector Iron and Steel Companies (Restructuring) & Miscellaneous Provisions Act, 1978, which came into force on 1st May, 1978, as an operating company. The operating company of SAIL including its subsidiary, IISCO, have the integrated steel plants at Bhilai, Bokaro, Burnpur, Durgapur and Rourkela and Alloy Steels Plants at Durgapur and Salem. During the financial year 1982-83 SAIL's integrated steel plants produced 6.67 million tonnes of ingot steel.

SAIL is one of the largest industrial organisations in the world, representing a total outlay of over Rs. 50,590 million. SAIL also holds 40 per cent shares in the Visvessvaraya Iron & Steel Ltd., a Government of Karnataka undertaking. Besides controlling and directing operations of the public sector steel plants and marketing their products, SAIL is also charged with the responsibility of assisting the Government of India in the planned development of the steel industry in India.

THE PLANTS

Producing Units: Bhilai Steel Plant, Bhilai, Madhya Pradesh; Bokaro Steel Plant, Bokaro, Bihar; Durgapur Steel Plant, Durgapur, West Bengal; Rourkela Steel Plant (including a fertiliser plant), Rourkela, Orissa; Alloy Steels Plant, Durgapur, West Bengal; Salem Steel Plant, Salem, Tamil Nadu.

Divisions: Central Marketing Organisation, Calcutta; Research and Development Centre for Iron & Steel, Ranchi, Bihar and Centre for Engineering & Technology, New Delhi.

Subsidiary: The Indian Iron & Steel Co. Ltd., Burnpur, West Bengal. (Taken over by the Govt. in 1972.)

Registered Office: Ispat Bhavan, Lodi Road, New Delhi-110003.

BHILAI STEEL PLANT

This plant is one among the first to be set up in public sector, initially with an annual capacity of 1 million tonnes of steel ingots. The capacity was subsequently raised to 2.5 million tonnes of ingots and is now being further expanded to 4 million tonnes. It is proposed to increase its ingot capacity to 5.3 million tonnes by end eighties.

Equipment: Eight coke-oven batteries comprising of 520 ovens and associated by-product recovery plants, four sintering machines, six blast furnaces, 10 open hearth furnaces, 2 Hi reversing blooming mills, one continuous Billet mill and a rail and heavy structural mill, a merchant mill and a wire rod mill. Additional units being provided under the 4 million tonne expansion stage are: one battery of coke ovens and by-products plant, three sintering machines, one blast furnace, three oxygen blown converters, facilities for continuous casting of blooms and slabs and one 3,600 mm wide heavy plate mill.

Capacity: Present annual capacity of the plant is 2,970,000 tonnes of hot metal, 315,000 tonnes of saleable pig iron and 2,500,000 tonnes of ingot steel to be converted into 1,965,000 tonnes of saleable steel comprised of 315,000 tonnes of billets, 500,000 tonnes of heavy rails, 250,000 tonnes of heavy structurals, 500,000 tonnes of merchant products and 400,000 tonnes of wire rods. After expansion, the annual capacity will be 3,948,000 tonnes of hot metal, 630,000 tonnes of pig iron for sale and 4,000,000 tonnes of ingot. Crude steel to be converted into 3,153,000 tonnes of saleable rolled steel comprised of 653,000 tonnes of billets/squares, 400,000 tonnes of heavy rails, 250,000 tonnes of heavy structurals, 500,000 tonnes of merchant products, 400,000 tonnes of wire rods and 950,000 tonnes of wide heavy plates. Annual capacity for by-products is 35,890 tonnes of tar products, 29,250 tonnes of benzol products, 48,100 tonnes of ammonium sulphate and 3,950,000 tonnes of granulated slag.

BOKARO STEEL PLANT

Equipment: Under the 4 million tonnes stage—seven coke oven batteries of 69 ovens each and associated by-products plant, three sintering machines, five blast furnaces, five LD converters each of 100-tonne capacity and two LD converters each of 300-tonne capacity, one 1,250 mm slabbing mill, one continuous 2,000 mm hot strip mill and two cold rolling mills comprising one four-stand 2,000 mm tandem mill and one five-stand 1,400 mm tandem mill and one 1,250 mm continuous hot dip galvanising line.

Capacity: 4,585,000 tonnes of hot metal, 714,000 tonnes of pig iron for sale, and 4,000,000 tonnes of ingots to be converted into 3,156,000 tonnes of saleable steel comprised of 1,496,000 tonnes of hot rolled coils/slit coils/sheets, 100,000 tonnes of galvanised sheets, 170,000 tonnes of tin plate grade sheets and 1,390,000 tonnes of cold rolled sheets/strips. Annual capacity for by-products is 33,300 tonnes of tar products, 41,500 tonnes of benzol products and 36,300 tonnes of ammonium sulphate and 2,350,000 tonnes of granulated slag. Plans are also being studied to increase the capacity further to 4.75 million tonnes of ingots.

DURGAPUR STEEL PLANT

Equipment: A coal washery, five coke oven batteries with 70 ovens each and a by-products plant, two sintering machines, four blast furnaces, nine open hearth furnaces, a continuous blooming and billet mill, a medium section mill, a fish plate plant, a merchant mill, a sleeper plant, a wheel and axle plant and a skelp mill.

Capacity: 1,700,000 tonnes of hot metal, 300,000 tonnes of saleable pig iron and 1,600,000 tonnes of ingots to be converted into 1,239,000 tonnes of saleable steel, comprised of 28,000 tonnes of forging blooms, 300,000 tonnes of billets for re-rolling, 42,000 tonnes of forging billets, 11,000 tonnes of fish plates, 75,000 tonnes of sleepers, 200,000 tonnes of light and medium sections, 240,000 tonnes of merchant sections, 93,000 tonnes of wheels and axles and 250,000 tonnes of skelp. Annual capacity for by-products is 35,000 tonnes of tar products, 13,650 tonnes of benzol products and 26,200 tonnes of ammonium sulphate; 400,000 tonnes of molten slag are to be supplied for granulation. Studies are in hand for modernisation of the plant. It is planned to further increase the capacity to 2.0 million tonnes of ingots. The total saleable steel capacity is planned to be increased to 1.550 million tonnes after expansion.

ROURKELA STEEL PLANT

Equipment: Five coke oven batteries with a total of 330 ovens and a by-products plant, two sintering machines, four blast furnaces, three 50-tonne LD converters, two 60-tonne LD converters, four 80-tonne basic open hearth furnaces, a reversing blooming and slabbing mill, a heavy plate mill, a semi-continuous hot strip mill, a hot rolled electrical sheet mill, cold reducing mills consisting of two reversing mills and one five-stand tandem mill, two reversing skin pass mills, a 2-stand skin pass mill, hood annealing furnace and continuous annealing line, an electrolytic tinning line, two coil galvanising lines, one ERW pipe plant producing pipes of OD 8⅝"—18" and one spiral weld pipe plant producing pipes of OD 14"—64". In addition, there is a Fertiliser Plant for manufacture of Calcium Ammonium Nitrate. A Silicon Steel Project for manufacture of Cold Rolled Grain Oriented (CRGO) and Cold Rolled Non-oriented (CRNO) high silicon electrical sheets is in advanced stage of completion.

Capacity: 1,600,000 tonnes of hot metal and 1,800,000 tonnes of ingots, to be converted into 1,225,000 tonnes of saleable steel comprised of 280,000 tonnes of wide plates, 158,000 tonnes of hot rolled sheets/coils/narrow plates, 312,000 tonnes of cold rolled sheets, 160,000 tonnes of galvanised plain and corrugated sheets, 35,000 tonnes of electric steel sheets, 150,000 tonnes of electrolytic tin plates, 75,000 tonnes of ERW pipes and 55,000 tonnes of spiral weld pipes. Annual capacity for by-products is 48,000 tonnes of tar products, 16,650 tonnes of benzol products, 459,000 tonnes of calcium ammonium nitrate (25 per cent nitrogen) and 600,000 tonnes of granulated slag.

INDIAN IRON & STEEL CO. LTD. (IISCO)

Equipment: Three coke oven batteries of 228 ovens in all, four blast furnaces, seven open hearth furnaces, one blooming mill, one sheet bar and billet mill, two structural mills, one merchant mill and one sheet mill.

Capacity: 1,300,000 tonnes of hot metal and 1,000,000 tonnes of ingots for conversion into 800,000 tonnes of saleable steel comprised of 150,000 tonnes of saleable billets, 100,000 tonnes of rails, 270,000 tonnes of structurals, 160,000 tonnes of bars, 60,000 tonnes of hot rolled sheets, 60,000 tonnes of galvanised sheets and 17,000 tonnes of ammonium sulphate.

ALLOY STEELS PLANT (DURGAPUR)

This plant pioneered the production of Alloy and Special steels in the country. Today it has an installed capacity of 160,000 tonnes and is being expanded to 260,000 tonnes.

Among a wide range of alloy and special steels which the plant produces are armour plate grade steel, stainless steel, forged rounds for seamless tubes and for nuclear fuel complexes. After further expansion it is proposed that stainless steel slabs produced here be sent for rolling into hot bands at Bokaro to be further rolled at Salem Steel Plant into stainless steel sheets in thinner gauges.

SALEM STEEL PLANT (TAMIL NADU)

Designed primarily to produce special steel with accent on stainless steel products, the first stage to produce 32,000 tonnes of cold rolled stainless sheet and strips was commissioned during 1981-82. In the Second Stage, it is proposed to increase the capacity to 70,000 tonnes per year. The ultimate capacity of the plant will be 220,000 tonnes of stainless steel and other special steels.

In the first stage, the plant has one Sendzimir Mill, two Annealing and Pickling Lines, one Skinpass Mill, one Bell Annealing Furnace, one Shearing Line, one Slitting Line, etc.

Equipment: One cold rolling mill with two processing and finishing lines.

Capacity: 32,000 tonnes of cold rolled stainless sheets/strips.

BY-PRODUCTS

Fertilisers: Each SAIL steel plant has by-products recovery units. Apart from a wide range of by-products recovered from the coke oven gas and tar distillation, Ammonium Sulphate is also produced and is marketed under the brand name RAJA. All the plants together produce about 157,000 tonnes of Ammonium Sulphate annually at present.

Rourkela Steel Plant has a separate Fertiliser Plant which produces Calcium Ammonium Nitrate. One of the most sophisticated of such plants in the country, it has a capacity to produce 459,000 tonnes of CAN (25% N) annually. It is marketed under the brand name SONA.

Chemicals: Among the wide range of by-products SAIL plants produce Benzene, Toluene, Xylene, Anthracene, Crude Tar, Solvent Naptha, Pitch tar distillation fractions. These provide raw material inputs for industries like rubber, explosives, pharmaceuticals, essential oils and paints.

Research & Development: The Research and Development Centre for Iron and Steel under SAIL is located at Ranchi and is engaged in planning and coordinating research and development activities for the iron and steel industry in India. Since its inception in 1972, the Centre has carried out a number of technological programmes which has been successfully demonstrated and adopted on commercial scale. In association with the steel plants, this Centre has identified a number of projects in areas like coal and coke, iron making, steel making, mechanical working, etc. and has shown significant achievements in some of these, apart from carrying out research in the field of direct reduction technology for which a pilot plant at Ranchi has been set up.

The Research and Development Centre is interacting with Laboratories of the Council of Scientific and Industrial Research with a view to taking up projects of national importance in consultations with the National Committee on Science and Technology.

Training: SAIL has a Management Training Institute at Ranchi, which organises management development courses for SAIL management personnel as well as for others. All the integrated steel plants in the country have also well staffed and equipped training institutes in which training is imparted in various disciplines to the graduate engineers recruited by the steel plants for the executive cadre. Apart from this, these institutes conduct short duration Supervisory Development Programmes, refresher training programmes, short term vacational training for the engineering students sponsored by their institutes as well as impart training to apprentices in various trades. These institutes also impart training in steel making to trainees from other developing countries.

Imports: Total imports back to back and buffer amounted to 1 million tonnes valued at Rs. 3,582.2 million tonnes during 1980-81 and 1.165 million tonnes during 1981-82.

Exports: Total exports (All India) amounted to 0.049 million tonnes valued at Rs. 124.1 million during 1980-81 and 43 tonnes and 68 nos. valued at Rs. 0.83 million during 1981-82.

NEW STEEL PLANTS IN PUBLIC SECTOR

Visakhapatnam Steel Project (VSP): This is the first shore based plant in India which has been taken up for execution. The design envisages an annual capacity of 3.4 million tonnes of liquid steel which will come up in two stages. The plant will have the tallest coke ovens among Indian Plants (7 metres high), largest Blast Furnaces of 3.200 cubic metre value each and it will adopt the continuous casting route. The plant will produce 71,000 tonnes of light and medium merchant products, 800,000 tonnes of universal beams; of 700,000 structurals and 600,000 tonnes of wire rods. A separate company namely, Rashtriya Ispat Nigam Limited has been incorporated by the Government of India for the implementation of the project.

PRODUCTION, IMPORTS & EXPORTS

Production of steel ingots/saleable steel/saleable pig iron:
(In million tonnes)

Plant	Annual rated capacity	Production 1980-81	1981-82	1982-83

*Including Interplant transfers of Coils.

Paradeep Steel Project: Paradeep Steel Plant, earlier proposed as the second shore based plant in the country, is now to be set up in Daitari region in Orissa State. To implement this project, the Government of India have incorporated a new company namely Neelachal Ispat Nigam Limited.

Vijayanagar Steel Project (VNSP): This plant is to be set up in Karnataka State at Vijaynagar. To implement this project, the Government of India have incorporated a new company namely Vijaynagar Steel Limited.

SHIPPING

THE earliest evidence of shipping and ship-building activity is found in the archaeological remains of the Mohenjo-Daro (Mound of the Dead), in the Indus valley, dating back to some 2500-1500 B.C. Ever since, the shipping and shipbuilding industries have passed through various vicissitudes of fortune.

In Bombay, the well-known Parsi Wadia family achieved great distinction as master builders of ships to the East India Company. In fact, H.M.S. "Asia" was renowned as the Flagship of Admiral Codrington at the Battle of Navarino in 1827. The first steamer to be built in Bombay was the "Hugh Lindsay" which was launched with much fanfare on October 14, 1829. Interestingly, the hero of the Battle of Trafalgar, Horatio Nelson, was a midshipman on H.M.S. "Sea Horse" which was attended to by artificers under the direction of the master builder, Bomanjee Lowjee Wadia, in 1781.

On the eve of the country's Independence, in August 1947, India had only 48 coastal vessels of 119,000 GRT and 11 foreign-going vessels of 73,000 GRT. In April 1947, the Reconstruction Policy Sub-Committee on shipping of the Government of India recommended a planned development of Indian shipping on economic as well as strategic considerations.

Position Today: On January 1, 1983, there were 6.03 million GRT in operation and 0.88 million GRT on order. The shipping tonnage target set in the Sixth Five-Year Plan (1980-85) is 7.5 million GRT.

Ranking in the World: India in terms of GRT occupies the 15th position among the world maritime countries owning a total of 6.2 million GRT as on July 1, 1982.

Among the principal world merchant fleets (as on July 1, 1982), Liberia ranks first owning about (70.72 million GRT), followed by Japan (41.59 million GRT), Greece (40.03 million GRT), Panama (32.60 million GRT), USSR (23.78 million GRT), and the U.K. (22.51 million GRT).

Share of Indian Ships in India's Overseas Trade: The share of Indian ships in the country's Overseas Trade was 31.0 per cent for 1981-82 as compared to 32.3 per cent in 1980-81.

National Maritime Day and Merchant Marine Flag Day: 5th April every year.

Indian Register of Shipping: Inaugurated on April 4, 1975 with its headoffice in Bombay. The National Classification Society supervises shipbuilding and ensures that in operation ships are properly maintained at the requisite standard of seaworthiness. The society has signed collaboration agreements with the American Bureau of Shipping, Det Norske Veritas and Lloyd's Register of Shipping on the basis of dual class.

Chairman: Capt. J. C. Anand; *Chief Executive:* S. R. Khare.

National Shipping Board: Statutory Advisory Board on Shipping on which all the interests concerned including shipowners are represented.

Chairman: Daulat Sinhji Jadeja.

Ship-building Industry: (See chapter on Government of India Undertakings where details of Hindustan Shipyard, Mazagon Dock, and Garden Reach Workshops are given.)

Another new Public Sector shipyard at Cochin delivered its first Panamax vessel of 75,000 dwt., the biggest so far constructed in our country, in July 1981. Its second ship, also a Panamax vessel is in the process of being delivered.

The development programme (Stage II) of HSL provides for raising its capacity to 7 pioneer class vessels per annum and has been sanctioned at a cost of Rs. 550 million.

The Public Sector shipyards Mazagon Dock Ltd., Bombay and Garden Reach Shipbuilders and Engineers Ltd., Calcutta are intended mainly to cater to defence requirements but their capacity is also available for the construction of merchant ships. The Goa Shipyard is also engaged in shipbuilding activities in addition to other general engineering works. The Rajabagan Dockyard is engaged in building inland vessels and harbour crafts such as barges, launches, trawlers, tugs and dredgers upto 2,000 GRT. Two more Public Sector shipyards are proposed to be constructed at Hazira (Gujarat) and Paradip (Orissa).

There are several small shipyards under Private Sector spread over the country which are capable of constructing harbour crafts and inland vessels such as tugs, barges, launches, dredgers, trawlers etc.

A new pricing formula for ships, built in the Public Sector shipyards, was approved in February, 1981. This aims at making Indian built ships competitive in the world market.

Ship-repair Industry: The present ship-repair facilities in the country are inadequate as a result of which there is a large drain in our foreign exchange resources. A 15-year perspective plan for ship-repair facilities in India was drawn up in May, 1982 with the help of consultants.

Research Body: The Government of India has decided to establish a research organisation for designing ships. At present India has to purchase designs.

Freight Earnings: The Indian Shipping Industry has been earning considerable foreign exchange by way of freight earnings. On a rough estimate the freight and passage earnings of Indian Shipping Companies during 1981-82 totalled Rs. 10,000 million. The net foreign exchange earning at 40 per cent gross overseas earnings during 1981-82 comes to Rs. 4,000 million.

TRAINING INSTITUTIONS

Merchant Navy Training Board: At Jahaz Bhavan, Walchand Hirachand Marg, Bombay 400038, advises Government on all matters pertaining to the training of merchant navy personnel. (For other training institutes see chapter on "Education".)

Recruitment of Seamen: The number of seamen registered with the Seamen's Employment offices as on Sept. 1, 1982, for employment on foreign going ships was 24,782 at Bombay and 10,071 at Calcutta. The number of jobs available were 14,200 in Bombay and 4,306 in Calcutta.

On home trade ships the number of seamen registered as on Oct. 1, 1981 were 601 at Bombay for 428 jobs and 191 at Calcutta for 123 jobs.

Seamen's Welfare: The seamen's welfare offices at the ports of Bombay, Calcutta, Madras and overseas at Sydney, London, Liverpool and Glasgow take care of the welfare of Indian seamen. The Principal Seamen's Welfare Officer at London has the additional duties of finding jobs for Indian seamen on foreign owned ships. His jurisdiction is entire Europe.

INSA: The Indian National Shipowners' Association (22, Maker Tower F, 2nd Floor, Cuffe Parade, Bombay 400005) is the national shipowners' organisation founded in 1930. Its objectives are: (1) to promote development of national shipping commensurate with the national needs; (2) to take active measures for the all round development of the maritime industries in all their aspects; (3) to co-ordinate its activities and to co-operate with various national and international organisations on shipping and allied matters; (4) to disseminate information on shipping and allied industries in the domestic and international perspective.

The membership of INSA covers over 97 per cent of national tonnage.

Board of Directors/Office-Bearers: Ramesh B. Garware, *President;* Capt. R. D. Kohli, *Vice-President*; Capt. J. C. Anand, N. H. Dhunjibhoy, S.D. Chowgule, F.G. Dastur, K.M. Sheth, S.V. Dempo, Salmaan S. Moloobhoy, J. G. Saggi, N. M. Trivedi.

Merchant Fleet in Operation

	COASTAL		OVERSEAS		TOTAL

(See also under "Commercial Firms"— Manufacturers and Services)

Executives; B. V. Nilkund, *Secretary*; T. S. Narayan, *Special Officer* (Maritime Law & Industrial Relations).

Indian Coastal Conference: It regulates the coastal shipping operations and freight rates on a voluntary basis. *Chairman:* Smt. Sumati Morarjee.

Directorate-General of Shipping (Jahaz Bhavan, Walchand Hirachand Marg, Bombay 400038) is a Central Government organisation under the Ministry of Shipping and Transport. It is an executive agency of the Government on all matters relating to coastal and overseas shipping

Inland Water Transport: The Shipping Ministry is assisted by a Directorate headed by a Chief Engineer-cum-Administrator in the formulation and implementation of the policy on Inland Water Transport. A regional office of this Directorate is located at Patna. The directorate also renders technical advice to State Governments on various problems concerning development.

SMALL-SCALE

THE small-scale industry has been the back-bone of all major industrially developed economy. Rapid and balanced economic growth and expansion of opportunities for employment as well as self-employment have been possible only through a planned policy of promotion of small industries. Industrial activity has been substantially nourished by contribution from the small-scale units with the active support of State and Central Government and they play a major role in the development of our industries.

Though the development of the small-scale industry is primarily the responsibility of the State government, the Centre supplements the State government schemes.

The foundation of the small-scale sector was laid down in 1953 when the Government of India invited an International Planning Team to study the opportunities for small-scale industries in India. The recommendations of the team formed the basis of the government's policy for expansion of the small-scale industry. The Industrial Policy Resolutions of 1956 and 1970 also reiterated the importance of the small-scale sector which completed 27 years of its existence in 1983.

To help government formulate the various programmes and policies relating to the development of the small-scale industries, the Small-scale Industries Board was set up in 1954 and reconstituted in 1961. A Central Small-scale Industries Organisation was also set up under the Development Commissioner, besides the State Directorate of Industries, to look after the problems of the small-scale industries. Various schemes have been drawn up to attract and assist entrepreneurs of small units by a liberalised policy of loans, grants, etc. through the National Small Industries Corporation (NSIC) besides the Credit Guarantee Scheme of RBI, State Financial Corporations and other financing bodies. Service Institutes have been opened in most of the States to provide economic and commercial information useful for setting up small-scale units. Extension centres provide special technical know-how.

Another feature of the industrial policy is the establishment of industrial estates which was initiated in 1955.

A research and training institute, the Small Industry Extension Training Institute (SIET), has also been established by the Government of India.

The growth of small-scale units has been phenomenal. From 16,000 small-scale industries in 1950, the graph of progress showed a steady climb: 42,000 in 1960, 527,000 in 1976 and 596,000 in 1982-83. From an employment capacity of 2.9 million in 1966 it has risen to 7.9 million in 1982-83.

Small-scale industries are distinct from village industries and handicrafts. The latter does not need sophisticated modern machinery and equipment and their products mainly cater to the local markets. The Khadi and Village Industries Commission looks after the village industries and the problems of rural artisans channelising such items into foreign markets as well.

Small industries, on the other hand, can and do produce a number of consumer items like bicycles, domestic electrical appliances, surgical tools, matches, sports goods, mechanical toys, etc. In order to protect this sector government has published a separate list of reserved items for exclusive manufacture in the small-scale sector and their number has risen from a mere 150 to 837 items in 1982-83.

Small-scale industries can be classified under four main groups: manufacturing industries, feeder industries to large industries, servicing industries and ancillaries to large industries.

Though large industries attract more attention by their size and capital investment it is the small industries which generate more employment per unit of investment. Their balanced growth leads to greater diffusion of wealth and is thus more suited to a developing country like India faced with scarcity of capital and energy. Small industries eat up less capital at the same time contributing to the gross national product. They can be set up with minimal infrastructural facilities and consume less energy in comparison to large industries thus creating less pollution

Definition: Small-scale industries are those "Undertakings having investment in fixed assets in plant and machinery not exceeding two million rupees and in the case of ancillary units upto Rs. two million and fifty thousand rupees."

Production: Production in small-scale units registered with State Directorate of Industries increased to Rs. 167,600 million in 1980-81 compared to Rs. 103,690 million in the previous year.

The number of registered small-scale units in the country rose to 0.596 million in 1982-83 as against 0.527 million in 1981-82.

The total value of production of small-scale units, both registered and unregistered is estimated to have increased from Rs. 326,000 million during 1981-82 at the current prices to about Rs. 350,000 million (Provisional) during 1982-83.

Exports: The estimated value of exports from the small-scale sector, is likely to increase from Rs. 20,260 million in 1981-82 to about Rs. 23,900 million in 1982-83.

District Industries Centres (DIC): This programme which was introduced in 1978-79 and subsequently restructured in pursuance of the Statement on Industrial Policy announced in parliament in 1980, provides a focal point for the promotion of small, tiny, village and cottage industries and aims at providing all the services and support to the decentralised industries sector under one roof, as far as possible, to the entrepreneurs specially those located in the rural areas and small towns of the country thus creating larger employment opportunities.

Progress during 1981-82: The annual progress reports for 1981-82 were received in respect of 333 DICs out of 385 DICs sanctioned. As per information received, 349,155 entrepreneurs were identified, 96,284 project profiles were prepared, 188,195 new registrations were done and 308,221 new units comprising of 238,241 artisan-based units and 69,980 small-scale units were established' resulting in creation of additional employment opportunities for 957,215 persons. The credit assistance provided by the financial institutions during the year amounted to Rs. 4,243.8 million and 188,558 units were provided technical and other assistance. The analysis of these data revealed marked improvement in the progress achieved per DIC on an average over the previous period. 926 new units, comprising 716 artisan-based and 210 small-scale units were estalished resulting in the creation of additional employment opportunities for 2,875 persons per DIC on an average during 1981-82 as compared to 733 new units comprising of 547 artisan-based and 186 small-scale units set up during the preceding year i.e. 1980-81 which had created additional employment opportunities for 2,491 persons per DIC on an average. Credit assistance provided by financial institutions amounted to Rs. 12.7 million per DIC during 1981-82 as against 8.9 million per DIC in 1980-81.

Incentives: With a view to correcting regional imbalances and industrialisation of the backward areas of the country, the Government provides incentives to enable entrepreneurs to establish industrial undertakings in the backward areas. These include concessional finance extended by All-India Term Lending Institutions, outright subsidy on fixed capital investment, preferential treatment in the grant of industrial licences, etc. The scheme of concessional finance covered 246 districts out of which 101 districts/areas were identified for the purpose of Central Subsidy Scheme. At present there are 87 no-industry districts.

Ancillary Industries: Ancillary Industries are supportive industries to other manufacturing and servicing industries and are defined as such, if the investment in plant and machinery in such an industry is upto Rs. 2.5 million.

Government, in its new industrial policy statement of July 1980 has recognised the need to strengthen ancillary development and other allied industrial operations of common procurement, manufacturing and marketing of products. While the Government will not allow concentration of economic power and monopoly development, it will encourage, within the existing regulatory powers and the registering authorities, broad-based industrial development with formal linkages fostered between small units and large units amongst all industries and regions.

Major priority industries like power, transport, communication, electrical and electronics equipment, machine building, consumer durables, chemicals and drugs, rubber and plastics are likely to register higher annual growth and therefore the associated ancillary industries also will register higher growth rate between 10 per cent to 15 per cent annually.

Small Industries Development Organisation has set up Sub-contracting Exchanges in 16 Major Small Industries Service Institutes in the country, located at Srinagar, Ludhiana, Jaipur, Ahmedabad, New Delhi, Bombay, Kanpur, Patna, Calcutta, Trichur, Bangalore, Madras, Cuttack, Hyderabad, Gauhati and Indore. These Sub-contracting Exchanges act as clearing houses of information relating to the anticipated requirements of large and medium undertakings and the capacity available with technically competent small-scale sub-contracting and ancillary units in the above areas.

Through a set of guidelines issued by the Bureau of Public Enterprises, all Public Sector Undertakings have been asked to adopt the programme of ancillaries development in a systematic manner with the active co-operation of the Small Industries Development Organisation and the State Governments. During 1980-81, 80 Public Sector Undertakings had recognised 984 small-scale ancillaries and had procured goods worth Rs. 1,519.0 million from small-scale/ancillary units. During 1981-82, 102 Public Sector Undertakings had recognised 1,153 small-scale ancillaries and had procured goods worth Rs. 2,332.6 million from small-scale/ancillary units. The performance of the undertakings in the private sector has been equally noteworthy.

RESERVED INDUSTRIES

Following is the list of industries reserved exclusively for development in the small-scale sector:

Food and Allied Industries: Ice cream, dehydrated vegetables, pickles & chutneys, vinegar, rice milling, dal milling, bread, biscuits, confectionery, rape seed oil except solvent extracted, mustard oil except solvent extracted, sesamum oil except solvent extracted, groundnut oil except solvent extracted, sweetened cashewnut products, poultry feed and ground processed spices.

Textile Products including Hosiery: Cotton cloth knitted, cotton vests knitted, cotton socks knitted, cotton undergarments knitted, cotton shawls knitted, other cotton knitted wares, woollen cloth knitted, woollen vests knitted, woollen socks knitted, woollen scarves knitted, woollen undergarments knitted, woollen caps knitted, woollen shawls knitted, woollen gloves, woollen mufflers knitted, other woollen knitted wares, stove wicks, readymade garments, cotton belting, belt lacing and measuring tapes—cotton.

Wood and Wood Products: Wooden crates, tea chest plywood, seasoned wood, wooden sewing machine covers, cable drums for AA & ACSR conductors, tent poles, wooden plugs, handles — wooden and bamboo, teak fabricated round block, wooden furniture and fixtures, wooden storage cupboards, wooden storage shelves & racks and wood wool slabs.

Paper Products: Waxed paper, bituminised waterproof paper, decorative papers, corrugated paper & boards, paper bags, composite containers, paper board cartons, paper cups/plates, paper envelopes, corrugated fibre board containers, paper twines, strings and ropes, paper cones, paper tubes, drinking straws, paper napkins including facial tissue napkins, gummed tape, teleprinter rolls, stencil paper, tele-tape rolls, slitting of ordinary paper into rolls & sheets, toilet paper rolls and sheets, paper straps, stickers, labels of gummed paper etc., treated tracing paper, gummed paper for stamps, gummed paper other than for stamps, sanitary towels, transfer labels, exercise books and registers, letter pads and file covers and file board.

Leather and Leather Products including Footwear: Sole leather, kattai and bunwar leather, picking band leather, leather pickers and other leather accessories for textile industry, vegetable tanned hides and skins—semi-finished, chrome tanned hides & skins—semi-finished, lining leather from goat & sheep skins, laminated leather belting, harness leather, leather shoes, leather shoe upper-closed, leather sandals and chappals, leather garments, leather suit-cases and travel goods, leather purses & hand bags, fancy leather goods & other novelty items, watch straps—leather, leather cases and covers of all types, industrial leather gloves & leather washers and laces.

Rubber Products: Rubberised cloth—by doctor's blade technique, canvas hoses, tyres—cycle & cycle rickshaw, tubes—cycle and cycle rickshaw, tyre retreading, camel back-tyre retreading materials, surgical gloves—latex, hot water bags—rubber, ice bags—rubber, rubber balloons, rubber hose pipes excluding braided hoses, rubberised canvas hose pipes, excepting wire-braided high-pressure hydraulic hoses, rubber tubes, rubber washers, oil seals—rubber, rubber thread except bare rubber thread of over 80 gauges and heat resisting rubber thread, rubber eraser, hard rubber battery containers, rubber to metal bonded parts, O rings—rubber, latex foam & latex foam products, microcellular sheets, other dipped latex products except contraceptives & rubber blowing agents—hexamine based.

Plastic Products: Full PVC Footwear—chappals, sandals & shoes, Blow moulded plastic—HD PE/PVC containers—upto 5 litre capacity, Acrylic sheets, Fibreglass reinforced plastic products, Hessian, Paper and cloth to polythelene laminations straight and sandwiched by extrusion coating process except paper to polythene laminations for integrated packing for hygienic and sanitary packing of liquid milk and other liquid food, HD polyethylene mono filament, Polypropylene mono filament, Polyethylene films except co-extruded with thickness less than 0.10 mm., Products of polyethylene film as coloured, printed film & bags, Spectacle frames by fabrication or by injection moulding, Polypropylene tubular films except biaxially oriented, Industrial items from engg. plastics, Plastic collapsible tubes, Polypropylene box strapping, Polyethylene and PVC flexible hoses, Polyurethane foam, Polyurethane foam products, Polystyrene foam products, Plastic buttons, Other fabricated plastic products, Plastic combs, PVC pipes including conduits—upto 100 mm. dia., Fittings for PVC pipes including conduits—upto 100 mm. dia., Zip fasteners—non-metallic, Compression moulded plastic products excluding decorative and industrial laminates, plastic rain-coats, plastic bottle caps, Flash-light torch cases—plastic, Polyester sheets, other thermo-welded plastic products Contact-lenses and Watch straps—PVC.

CHEMICALS AND CHEMICAL PRODUCTS

Laboratory Chemicals and Re-Agents: Ammonium sulphate-Lab, Ammonium fluoride-Lab, Ammonium Carbonate-Lab, Antimony potassium tartrate-Lab, Aluminium sulphate-Lab, Ammonia solution-Lab, Cadmium acetate-Lab, Cadmium carbonate-Lab, Calcium Chloride-Lab, Chromic acid-Lab, Cobalt sulphate-Lab, Cobalt nitrate-Lab, Cupric nitrate-Lab, Cupric Sulphate-Lab. Dimethyl sulphate-Lab, Ferrous sulphate-Lab, Lead acetate-Lab, Lead nitrate-Lab, Magnesium trisilicate-Lab, Nickel carbonate-Lab, Nickel formate-Lab, Nitric acid-Lab, Potassium nitrate-Lab, Potassium chloride-Lab, Hydrochloric acid-Lab, Potassium iodide-Lab, Potassium sulphate-Lab, Sodium nitrate-Lab, Sodium oxalate-Lab, Sodium sulphate anhydrous-Lab, Silica gel-Lab, Silver nitrate-Lab, Sulphuric acid-Lab, Acetic acid glacial-Lab, Acetone-Lab, Iso-Amyl acetate-Lab, Amyl alcohol-Lab, Benzene-Lab, Butyl alcohol-Lab, Chloroform-Lab, Diethyl ether-Lab, Ethyl alcohol-Lab, Ethyl acetate-Lab, Iso-Amyl alcohol—for milk testing-Lab, Iso-Propyl alcohol-Lab, Methyl alcohol-Lab, Petroleum ether—different distillation ranges-Lab, Petroleum ether—for chromatography-Lab, Toluene-Lab, Nickel sulphate-Lab, Zinc Oxide-Lab, Para-Aminophenol-Lab, Potassium citrate-Lab and Cadmium chloride-Lab.

Dye-stuff: Basic dyes, Optical whitening agents for cotton textiles, Azo dyes—direct and acid, Naphthols-AD, ASD, AS/E, AS/G, AS/LC, AS/LRG, AS/BS etc., Phthalocyanine—blue & green, Reactive dyes—cyanuric chloride group, Fast colour bases and Indigo.

Natural Essential Oils: Cashew shell oil, Sandalwood oil, Pine oil—except for composite schemes, Eucalyptus oil, Lemongrass oil, Palmarosa oil and other natural essential oils.

Organic Chemicals, Drugs and Drug Intermediates: Para-aminophenol—Indl. grade, Para-dichlorobenzene—balls, Cubes etc., Tartaric acid—from maleic anhydride, Dimethyl sulphate—based on methyl alcohol, Pyrazolones, Potassium citrate—Indl. grade, Other citrates, Tartrates, Diethyl phthalate, Dioctyl phthalate, Dibutyl phthalate, Dimethyl phthalate, Benzyl chloride, Benzyl benzoate, Paint driers—Naphthanates, Octoates, Linoleates, etc. of Lead, Cobalt, Manganese, Zinc, Calcium etc., Chlorinated paraffin wax (upto 60 per cent chlorine content), Fumaric acid, Paracetamol, Glycerophosphates, Glycerophosphoric acid, Lanolin anhydrous, Xanthates, Dichlorophenol, Methyl Parabens starting from Para Hydroxy Benzoic acid, Ethyl Parabens and Propyl Parabens starting from Para Hydroxy Benzoic acid, Calcium Gluconate, Turpentine, Resin, Polyester resins, PVC compounds, Alkyd resins and Nicotinic acid.

Other Chemicals & Chemical Products: Wax candles, Naphthalene balls, Potassium meta bi-sulphate, Barium carbonate, Barium sulphate, Barium sulphide, Sodium sulphide, Sodium thiosulphate, Calcium chloride—Indl. grade, Zinc oxide—Indl. grade, Aluminium hydroxide gel, Zinc nitrate, Nickel sulphate, Nickel chloride, Nickel carbonate, Nickel formate, Copper sulphate, Copper nitrate, Copper chloride, Cadmium oxide, Cadmium iodide, Cadmium nitrate, Cadmium phosphate, Barium chloride, Barium nitrate, Zinc chloride, Zinc sulphate, Copper oxy-chloride, Copper carbonate, Potassium iodide, Sodium iodide, Precipitated silica, Sulphur powder—other than insoluble, for rubber vulcanisation, Sodium chromate, Sodium thiocyanate, Magnesium sulphate, Electroplating salts—compounded, Zinc cyanide, Cadmium cyanide, Potassium bichromate, Ammonium bichromate, Artists colours—oils, water and wax based, Red lead paints, Red oxide paints, Wagon black paints, Graphite paints, Paste paints, Shoe polish, Wood polish/French polish, Metal polish, Aluminium paints, Bitumen based paints, Floor polishes, Dry distempers, Halogenated Hydroxy-Quinolines (starting from 8-Hydroxy Quinolines) except for integrated schemes for the manufacture of 8-Hydroxy Quinolines, Laundry soap, Formulated perfumery compound, Tooth paste, Tooth powder, Hair oils, Safety matches, Fire works, Blue print papers—all types, Guar gum, Animal glue, Office gum paste, Sachharine, Agarbathis, Sodium silicate, Sealing wax, Industrial adhesives based on starch, gum, dextrin and silicates, Alums including aluminium sulphate—Ind. grade, Potassium silicate, Calcium silicate & Synthetic adhesives—Rubber latex PF and PVA based.

Glass and Ceramics: Fire clay, Bricks and blocks, Roofing tiles, Flooring tiles, Ceramic tablewares and allied items in stonewares, semivitreous wares and earthwares namely:—Dinner sets, Tea sets, Cups and saucers, Jars and other containers, Vases, Ash trays, Mugs and bowls, Glass beads, Simple glass mirrors excluding specialised glass mirror such as those meant for optical instruments etc., Glass tubings (excepting machine drawn), Scientific laboratory glassware (excluding Boro-silicate types), Micro-cover glasses and slides fo microscopes, Glass bangles, Glass hollow ware by mouth blow and/or semi automatic process, Glass pressed wares, Glass marbles (all types), Low tension insulators, Chemical porcelain, Lime (other than captive consumption), Hydrated lime (other than captive consumption), Plaster of Paris (excepting for use as construction material), chalk crayons including Tailors' chalk, Plaster board (excepting for using automatic process). Stoneware jars an bowls-Kundies, salt glazed sewer pipes, Asbestos pipes an fittings—for household purposes only an according to ISI specification. Glazed tiles upto 10 cms. × 1 cms., Reinforced cement concrete pipes upto 100 cms. dia Graphite crucibles—upto 500 nos. & Silicon carbide crucibles upt 100 nos.

Mechanical Engineering excluding Transport Equipment: Manhol covers—CI, Weights, Circlips, Bright bars, Pressure die casting—upto 4 kg., MS and CI flanges, Conduit pipes metallic, Flexib metallic pipe upto 35 mm. dia.—for non-pressure applications stranded wires (excluding high tensile prestressed concrete wires) Machine shop vices, Mechanical jacks upto 30 tonnes, Hydraul jacks upto 30 tonnes capacity, Signal ladders, Street light fittings Steel almirah steel vaults, safes and cash boxes excluding fir resistant safe, jewellers safe, safe deposit locker and safes with saf deposit locker. Meat and food safes—metallic, Metal cabinets—al types, Steel trunks, Tin containers unprinte —other than OTS and cans upto 18 litres capacity, G.I Buckets, Barrels upto 60 litre cap., Drums upto 60 litre cap., Ti trays, G. I. Bath tubs, Dust bins, Sanitary fixtures—metallic, cock and valves used as domestic pipe fittings, M. S. pipe fittings—upt 100 mm. dia., Pressure stove, Wick stoves, Hurricane lanterns Signal lamps, Hand lamps, Shoe tacks, Shoe eyelets, Umbrella rib and fittings, Zip fasteners—metallic, Tin cutters, Belt fasteners Snap fasteners, Pilferproof caps, Gun cases, Doors, windows an ventilators—metallic, Rolling shutters, Lantern posts and bodies Aluminium furniture, Adjustable beds—hospital, Iron and stee cots—all types, Storage cupboards—iron and steel, Racks—all typ including angular racks—iron & steel, Wheel chairs for invalid Steel chairs—all types steel tables—Hospitals, Steel tables—a other types, Trolleys—railway platform drinking water, Trolleys—iron and steel—Hospital Stretchers—iron and steel, Storage bins—steel, furniture—all other types, Hacksaw frames, Pliers, Screwdri ers, Spanners, Hammers, Anvils, Wood-working saws, Wrenche Knives and shearing blades (all types including those of meta paper, bamboo and wood for manual operations), Nail puller Chisels, Pincers, Wire cutters, Other hand tools for blacksmith carpentry, handforging, foundry, etc., Bolts and nuts—except hi tensile and other special types, Rivets of all types including bif cated, Wire adjusting screws, Tumbler locks, Padlocks, Safe/cabin locks, Door locks, Locks—bicycles, Other locks—except for Aut mobiles, Chains lashing, Persian wheels, Chaff cutters, Chaff cutt blades, Animal driven implements, Crow-bars, Plough shears/Ir ploughs, Cultivators, Disc harrows, insecticide dusters—manu Insecticide sprayers—manual, Forks, Hoes, Levellers, Mowe Stainless steel utensils, Pickers— metallic, Handpumps, Seed tr ters, Hand shovels, Sickles, Seed bins, Water lifters, Kudali, Oth agricultural implements, Wire nails, Panel pins, Wood screw Machine screws—except socket head and special types, Gate-hoo Shoe nails—animal, Hob nails, Builders hardware, Nail cutter Metallic washers, Barbed wire, Spoons—cutlery, Fork—cutler

Table knives/household knives, Bread cutters, Other cutlery items, Domestic utensils—brass, Domestic utensils—aluminium, Domestic utensils—bell metal, Domestic utensils—copper, Domestic utensils—iron, Domestic utensils—silver, Domestic utensils—bronze, Domestic utensils—German silver, Pressure cookers, Gas appliances such as cooking ranges, ovens, etc., Gas lighters—mechanical, Razors, Safety pins, Watch straps—metallic, Beam scales, Postal weighing scales, Expanded metal, Welded wire mesh—except for expansion of existing units, Wire gauze and wire netting—metallic—thicker than 100 mesh size, Steel wool, Hair pins, Metal fittings for leather goods and garments, Ghamelas, Blacksmith hearths, Brass dampers, Measuring tapes—steel, Lamp holders, Winnowers upto 5 HP motive power, Wheat and rice threshers upto 5 HP motive power, Seed cleaners upto 5 HP motive power, Grain driers upto 5 HP motive power, Shell huskers upto 5 HP motive power, Reapers upto 5 HP motive power, Cotton delinting machine upto 5 HP motive power, Seed drills upto 5 HP motive power, Other agricultural machinery upto 5 HP motive power, Harvester, grader and other earthmoving blades used in agricultural machines, Low speed gear for use in agricultural machines, threshers—made of cast iron/mild steel—non-heat treated, Diesel engines upto 15 HP—slow speed, Rice and dal mill machinery, Oil crushers. Oil crusher parts, Cotton ginning knives, Tea cutting knives, Three knives trimmer and envelope cutters, Clicking knives for leather industry, Chopping knives and lancets for match industry, Plastic shredding and granulating knives, Knives and shearing blades (all types, including those for metal paper, bamboo and wood for hand operated machines), Doctor blades, Stainless steel refiner bar knives, Concrete mixers upto 3 cubic metres capacity, Band saw blades for cutting wooden logs, Room cooler—desert type, Airconditioning ducting, louvres, grills and other sheet fabrication in airconditioning, Centrifugal pumps upto size 10 cm x 10 cm, Air compressors upto 5 HP for spray painting repair shops, Electro formed screens/liners used in the chemicals and sugar industries, Simple cone pulley driven lathe upto 2000 mm bed length, Turning, boring and threading—addas—small single or multiple operation devices, Bench grinder upto 300 mm diameter, Power hacksaw—mechanical—300 mm blade size, Coolant pumps, etc., Steadies, Dog plates, Machine vices—machine tool, Carbide-tipped tools, single point brazed—carbide bits purchased from manufacturers, Weighing machines/weighbridges (ordinary), File mechanism, Sewing machines—domestic, hand operated—conventional type, Household knitting machine, Absolute filters for biological and airconditioning application, Duplicating machines—other than those of special type, Bottle washers, Satchet filling machines for pouches, Sheep shearing machine, Double can mixer—dairy equipment, Micro pulveriser—dairy equipment, Rotary driers—dairy equipment, basket type centrifuges—dairy equipment, Milk cooling and ghee settling equipment—dairy equipment, Evaporating pans—dairy equipment, Butter churn—dairy equipment, Curd mills—dairy equipment, Agitators—dairy equipment, Storage tanks for dairies and all poultry equipments.

ELECTRICAL MACHINES, APPLIANCES & APPARATUS INCLUDING ELECTRONICS

Electrical: Potential transformers 11 kV except for captive consumption, Current transformers 11 kV except for captive consumption, Boosters, Voltage stabilizers (domestic), Electric motor 1 HP to 10 HP—AC except special types, F HP Motor—AC—excluding special types, PVC wires—domestic type, VIR wires—domestic type, Table fans, Exhaust fan upto 460 mm, Miniature vacuum bulbs, Torch bulbs, Radio panel bulbs, Cycle dynamo bulbs, Decoration bulbs, Electric irons—ordinary/autosteam upto 3.63 kg., Electric stoves upto 3 kW, Hot plates/boiler plates upto 3 nos/upto 4 kW, Cooking ranges upto 4 hot plates/boiler plates with/without baking oven hot cases upto 4 kW, Storage water heaters/geysers upto 100 litres capacity/upto 3 kW, Electric kettles/sauce pan—ring types upto 1.70 litres, Mixers/grinders such as meat mincer, juice extractor, cap. of jar 1 litre max./upto 500 watts 30 minutes rating, Hair driers—all types, Hot cases upto 113.2 litres, Hot air blowers/heat convector upto 2 kW upto fan size 26 cm/20 cm x 6 cm, Room heaters upto 3 kW, Egg boilers upto ½ dozen eggs, Water boilers upto 100 litres capacity, Espresso coffee makers upto 1.70 litres capacity, Coffee percolators upto 1.70 litres, Immersion water heaters upto 3 kW, Food warmer trays upto 500 watts, Electric auto tandoors, Bread toasters ordinary/auto/semi-auto upto cap. 6 slices, Ice cream makers cap. 1 litre for use with domestic refrigerators, Washing machine with/without spin driers upto 3.63 kg. cap./upto 3 kW, Baking ovens with/without provision for roasting/grilling upto 56.6/litres & 1 kW, Electrical light fittings—reflectors, Electrical wiring accessories, Electrical light fittings—chokes, Electrical light fittings—starters, A.A. conductors upto and including 19 strands, A.C.S.R. conductors upto and including 19 strands, Air break offload isolators upto 11 kW including gang operated, Carbon brushes manufactured from carbon block, Black adhesive insulating tape—electrical use, Emergency lamps, Electrical transmission line, Hardware and conductor accessories (other than those manufactured in malleable casting and preformed types), Metal clad switches upto 100 AMPS/ miniature circuit breakers.

Electronic Equipment and Components: Radio/Car Radio—low cost upto Rs. 250 each, T.V. Antennas, T.V. tuners, T.V. Games, T.V. deflection components pick up cartridges, T.V. Booster amplifiers, Radio & T.V. Coils, Amplifiers for entertainment and public address system, Assembly of loudspeakers, Electronic cigarette lighters, Invertors & Convertors upto 500 volts amperes, Regulated D.C. power supplies upto 0.01% regulation, Electronic fan regulators, Dimmers & twilight switches, Digital clocks, Wire-wound resistors other than professional types, I.F. Transformers, Telescopic aerials for radio receivers, Battery eliminators, Electronic flashgun and hearing aids.

TRANSPORT EQUIPMENT

Boats and Truck Body Building: Wooden boats—body building, Truck body-building—wooden structure and seats for buses and trucks.

Auto Parts Components and Ancillaries and Garage Equipment: Window channels—auto, Wiring harness, Arms and blades of wind shield wipers, Grease nipples, Gun metal bushes, Bulb horns, Hub caps—auto, Hose pipes and radiator hoses—auto. Horn buttons, King pins/shackle pins—automobile use, Auto leaf springs excluding tapered leaf springs, Luggage carrier, Ornamental fittings—auto, brake and pedal pads—auto, Automobile radiators except for expansion on merits, Radiator grills—auto, Rear view mirrors—auto, Seat cushion, Steering wheels—auto, Sun shades—auto, Side lamp assembly—auto, stop lamp assembly—auto, Tail lamp assembly—auto, Ash trays—car fittings, Battery cables and fittings, battery cell tester, electrical fuse boxes—auto, electrical fuses—auto, exhaust mufflers—auto, fan belts, fuel tank caps—auto, fuel lines—auto, handles & locks—auto, armature tester, battery terminal lifters, condensors and resistance testers, fenders spoons and hammers, feeler gauges, flaring tools, gear flushers, puller of all types, ring expanders, ring compressors, screw extractors, spark plug tester & cleaners, stud removers—extractors, toe in gauges, tyre valve pullout tools, tube cutters, flanging tools, valve lifters, valve replacing & resetting tools, camber testing equipment, painting equipments like spray guns, etc., grease guns, tyre inflators—both hand and foot operated, electric horns—auto, other auto rubber components, spokes and nipples—auto cycle & sun visors—auto.

Bicycle Parts, Tricycles & Perambulators: Cycle frames, B. B. axles, B. B. cups, B. B. shells, bicycle tube valves, handles bicycle, bolts & studs and screw—all types-bicycle, bells-bicycles, carrier-bicycle, chains-cycle, chain wheels & adjusters-bicycle, lamps-bicycle, chain covers, cones-hub cones-bicycle, cotter pins-cycles, crankshafts-cycles, crown outer cover-cycle, cycle dynamos, D-nuts-cycles, eye bolt cups-cycle, fork blade crown cover-cycle, fork handles-cycles, frame collars-cycle, guide pins-cycle, handle bar grips, hub oil clips-bicycle, hub axle nuts-bicycle, lock nuts & ring-bicycle, lugs-all types-bicycle, mudguards-bicycle, lamp brackets-bicycle, pedal assembly-cycle, saddle-cycle, shackle rivets-cycle, stands-cycle, spokes & nipples-cycle, hubs and cups-bicycle, rims-cycle, other cycle parts and accessories except free wheel, tricycles, tricycles-parts & accessories, perambulator & perambulator parts and accessories.

Miscellaneous Transport Equipment: Hand & animal drawn carriage fittings, *tonga* parts and wheel rings, wheel barrows, animal-drawn vehicles & hand-drawn carts of all types.

MISCELLANEOUS

Mathematical and Survey Instruments: Alidades, chain line base measuring apparatus, cross staff, compass prismatic, dividers, drawing boards, dumpy levels drawing instruments—engg., diagonal scales, engineers level, engineering scales, French corners, ghat & reed tracers, measuring chain, optical square, protractors, plane meters, plane table equipment, ranging rod, flat rule, set square, slide rule, sextant, triangular scales, tee, T-squares, callipers, drafting machine for designing & drawing offices and other drawing mathematical and survey instruments excluding theodolites.

Sports Goods: All types of sports nets, shuttle cocks, hockey sticks, protective equipments for sports like pads, gloves, etc. soft leather goods, dumb-bells and chest expanders, cricket & hockey balls & football, volley-ball and basketball covers.

Stationery Items: Writing inks & fountain pen inks, ball point pens, pen nibs, fountain pens & ball pens components excluding metallic tips, pencils, hand stapling machines, paper pins, carbon paper, typewriter ribbon, hand numbering machines, pencil sharpeners & pen holders.

Clocks and Watches: Clocks—wall clocks, pendulum type both with mech. movement, transistorised movement, except lever type clocks, time-pieces mechanical winding with alarm conventional & watch dials except ornamental high priced dials—simple dials, cast brass watch cases—polished & plated.

Others: Umbrellas, hypodermic needles, sterilisers—stainless steel & aluminium, microscopes for students and medical use, water meters, pressure gauge—upto 3.52 kg. per sq. cm., revolution counters, mech., liquid level controller, thermometers—upto 150C, photographic enlargers, projectors including slide and overhead projectors but excluding profile projectors, wire brushes, paint brushes, hair brushes, fibre brushes, tooth brushes, brushes—natural bristles, other brushes, mechanical toys, non-mechanical toys, bone meal (except captive consumption for 100 per cent export), crushed bones (except captive consumption for 100 per cent export), cufflinks, tie-pins, metallic dress buttons & buckles, spectacle hinges, absorbent cotton, cigarette lighters.

List of items reserved for exclusive development in the small scale sector (from June 1980 to April 1982): Water soluble wood preservative based on copper, chrome, arsenic boric compounds; HDPE woven sacks (except sacks manufactured on circular looms); P.P. woven sacks (except sacks manufactured on circular looms); Coke briquettes (except lignite and for integrated plants); Coal briquettes (except lignite and for integrated plants); MS. Storage tanks upto 15,000 litres storage capacity (simple type with rivets/welds but excluding pressed ribs); Hand threading tap holders; 12 mm Drilling machine upto 1500 rpm—bench and pedestal type; Screw Presses (manually operated); Hand Presses (manually operated); Ortho-Aminophenol; Crown Corks (except for captive consumption)

List of items dereserved during the period June 1980 to April 1982: Sodium Bichromate; Dehydrated vegetables; Tyre retreading; Rubber to metal bonded parts; Tartaric acid from maleic anhydride; Fumaric acid; Sodium chromate; Potassium bichromate; Ammonium bichromate; Simple cone pulley driven lathe upto 200 mm bed length; Satchet filling machines for pouches; Fan belts; Hypodermic needles; Pressure gauge upto 3.52 kg. per sq. cm.

Banned Items: From time to time, the office of Development Commissioner, Small Scale Industries issues a list of items for which registration of new units and expansion of existing units is not to be encouraged. The position obtaining on 30th April 1982 is as follows:-

Items for which no registration is to be done at all: 1. Pesticides Formulations; 2. Flexible Polyurethane foam; 3. Transformer oil; 4. Baby Food; 5. Malted Milk Food; 6. Stainless Steel Wires in thicker gauges; 7. Cold Rolled Steel Strips; 8. Recovery of Zinc Metal from Zinc ash, dross, waste etc.; 9. Re-rolling of Steel including Stainless Steel; 10. Ammonium Nitrate from Calcium Ammonium Nitrate (fertiliser grade); 11. Non-power operated acid Shurry/detergent formulations; 12. Wire Drawing of Steel and items requiring wire rods as an essential raw material; 13. Items requiring Commr. Grade Aluminium as Raw Material (in the form of Ingots); 14, Steel Pipes and Tubes excluding conduit pipes and manually welded furniture tubes; 15. Refining of Slack Wax; 16. Tin Containers and similar products using tin sheets; 17. Calcined Petroleum Coke; 18. Processing of C.I. scrap.

Items for which registration is to be restricted to the units to be set up in backward districts eligible for concessional finance only: 1. Manufacture of Stainless Steel products:- (a) Domestic Utensils; (b) Wiper Blades made of Stainless Steel Strips; (c) Hospital Equipment Wares and Furniture made of Stainless Steel Sheets and Strips; 2. Cork Stoppers; 3. Wires and Cables (Aluminium); 4. Stainless Steel Watch Straps; 5. Bright Bars; 6. Zinc Oxide.

The manufacture of following items would be allowed in the areas other than backward also:— (a) HDPE Woven Sacks; (b) Pipes for water & gas distribution; (c) High Molecular weight paper like film; (d) Blow Moulded container above 750 ML; (e) Industrial & Engineering Items; 3. Cork Stoppers; 4. Wires and Cables (Aluminium): 5. Stainless Steel/Watch Straps; 6. Bright Bars (subject to capacity assessment of the unit); 7. Zinc Oxide.

Items for which registration is to be restricted to the units to be set up in States where there are no such unit in the line: 1. AAC and ACSR Conductors (subject to capacity assessment of the unit).

Registration and Magnitude of Small Scale Sector: Registration of small-scale units with the State Industries Departments is purely on a voluntary basis. The number of registered small scale units in the country rose to 0.596 million (provisional) in 1982-83 from 0.527 million (Revised) in 1981-82.

The number of items reserved for exclusive manufacture in the small scale sector has gone to 837.

A total of 404 items have been reserved for exclusive purchase from this sector by Government and Public Sector Organisations.

The employment in 1982-83 is estimated at 7.9 million numbers in the small scale sector as compared to 7.5 million numbers in 1981-82.

In 1980-81 the production in the small scale sector was Rs. 280,600 million at current prices. The Sixth Five-Year Plan aims at an 8.7 per cent annual growth in production by the small scale sector. It is expected that by the end of 1984-85, a production level of Rs. 328,730 million would be achieved. The value of exports from this sector is expected to rise to Rs. 18,500/- million and employment to 8.9 million.

State Financial Corporations: (See chapter on 'State Govt. Undertakings' for names and addresses).

Specialised Services: Technical advisory service; workshop and laboratory services; economic services; management consultancy services: marketing advisory service; managerial and technical training service and other general services which are far too expensive to be privately obtained are given free by the Central Small Industries Organisation. (Now called Small Industries Development Organisation—SIDO for short.)

Small Industries Service Institutes: Addresses are as follows:- **Andhra Pradesh:** No. 3-4-812, Swaran Vilas, Barkatpura, Hyderabad-500027; **Assam:** Ind. Estate, P.O. Bamunimaidan, Gauhati 781021; **Bihar:** Prasad Mansion, Indl. Estate, Patna-800013; SISI Indl Estate Kokar Ranchi; SISI Bela Indl. Estate, Pork Ashram, Muzaffarpur; **Gujarat:** Harsiddh Chambers, 4th Floor, Ashram Rd., Ahmedabad-380014; **Haryana:** Bungalow No. 1113, Sector 13, Urban Estate Karnal-132001; **Himachal Pradesh:** SISI Janak Kutee, Chambaghat, Solan; **Jammu & Kashmir:** Karan Nagar.

Srinagar-190001; **Karnataka:** Rajaji Nagar, Bangalore 560044; SISI Bachi Lodge, Club Rd., Hubli-560020; **Kerala:** Kerala Varma College Rd., Trichur 680011; **Madhya Pradesh:** 10, Indl. Estate, Polo Ground, Indore 452003; **Maharashtra:** Kurla Andheri Rd., Saki Naka, Bombay 400072; SISI Sadar, Nagpur; **Orissa:** Kanika Rd., Tulsipur, Cuttack 753008; **Punjab:** Indl. Area, 'B' Ludhiana 141001; **Rajasthan:** Mirza Ismail Rd., Jaipur 302001; **Sikkim:** Tandong, Gangtok; **Tamil Nadu:** 65/1, Grand Southern Trunk Rd., Madras 600032; **Uttar Pradesh:** 107, Indl. Estate, Kalpi Rd., Kanpur 208012; SISI 21/3, Jatnika Bagh, Jeonimandi, Agra-282004; 187-A, Attarsurya, Allahabad 211003; **West Bengal:** 111 & 112, B.T. Rd., Calcutta 700035; **Delhi:** Okhla Indl. Estate, Okhla, New Delhi 110020; **Goa:** Mapari Building, Post Box No. 334, Margao 403601.

Regional Testing Centres: Regional Testing Centre, Opp. Industrial Estate, Okhla, New Delhi-110 020; Regional Testing Centre, 111 & 112, B.T. Road, Calcutta-700 035; Regional Testing Centre, Kurla Andheri Road, Saki Naka, Bombay-400 072; Regional Testing Centre, 65/1, GST Road, Madras-600 032.

Backward Areas: Following is the list of industrially backward districts (247) selected to qualify for concessional finance from the financial institutions.

Andhra Pradesh: Anantapur, Chittoor, Cuddapah Karimnagar, Khammam, Kurnool, Mahabubnagar, Medak, Nalgonda, Nellore, Nizamabad, Ongole, Srikakulam and Warangal; **Assam:** Cachar, Darang, Dibrugarh, Goalpara, Kamrup, Lakhimpur, Mikir Hills, North Cachar Hills, Nowgong, Sibsagar; **Bihar:** Begusarai, Bhagalpur, Bhojpur, Champaran, Darbhanga, Gaya, Khagaria, Monghyr, Muzaffarpur, Nalanda, Nawadah, Palamau, Purnea, Saharsa, Santhal Parganas and Saran; **Gujarat:** Amreli, Banaskantha, Bhavnagar, Broach, Dangs, Junagadh, Kutch, Mehsana, Panchmahals, Sabarkantha and Surendranagar; **Haryana:** Bhiwani, Hissar, Jind, Mohindergarh; **Himachal Pradesh:** Bilaspur, Chamba, Hamirpur, Kangra, Kinnaur, Kulu, Lahaul and Spiti, Mandi, Shimla, Sirmur, Solan, Una; **Jammu & Kashmir:** Anantnag, Badgam, Baramula, Doda, Jammu, Kargil, Kathua, Kupwara, Ladakh, Poonch, Pulwama, Rajori, Srinagar, Udhampur; **Karnataka:** Belgaum, Bidar, Bijapur, Dharwar, Gulbarga, Hassan, Kanara-North, Kanara-South, Mysore, Raichur, Tumkur; **Kerala:** Alleppey, Cannanore, Malapuram, Trichur and Trivandrum; **Madhya Pradesh:** Balaghat, Betul, Bhind, Bilaspur, Chhatarpur, Chhindwara, Damoh, Datia, Dewas, Dhar, Guna, Hosangabad, Jhabua, Khargone, Mandla, Mandsaur, Morena, Narshingpur, Panna, Raigarh, Raipur, Raisen, Rajgarh, Rajnandgaon, Ratlam, Rewa, Sagar, Sehore-New, Seoni, Shajapur, Shivpuri, Sidhi, Surguja, Tikamgarh, Vidisha; **Maharashtra:** Aurangabad, Bhandara, Bhir, Buldhana, Chandrapur, Kolaba, Dhulia, Jalgaon, Nanded, Osmanabad, Parbhani, Ratnagiri, Yeotmal; **Manipur:** Manipur Central, Manipur East, Manipur North, Manipur South, Manipur West and Tengnoupal; **Meghalaya:** East Garo Hills, West Garo Hills and Jaintia Hills; **Nagaland:** Kohima, Mekokchung and Tuensang; **Orissa:** Balasore, Bolangir, Boudh Khonomals (Phulbani), Dhenkanal, Kalahandi, Keonjhar, Koraput and Mayurbhanj; **Punjab:** Bhatinda, Ferozepur, Gurdaspur, Hoshiarpur and Sangrur; **Rajasthan:** Alwar, Banswara, Barmer, Bhilwara, Churu, Duhgarpur, Jaisalmer, Jalore, Jhalawar, Jhunjhunu, Jodhpur, Nagaur, Sikar, Sirohi Tonk and Udaipur; **Sikkim:** Gangtok, Gyalshing, Mangan and Namchi; **Tamil Nadu:** Dharampuri, Kanyakumari, Madurai, North Arcot, Pudukottai, Ramanathapuram, South Arcot, Thanjavur, and Tiruchirapalli; **Tripura:** All three districts of Tripura North, Tripura South and Tripura West; **Uttasr Pradesh:** Almora, Azamgarh, Badaun, Bahraich, Ballia, Banda, Barabanki, Basti, Bulandshahr, Chamoli, Deoria, Dehradhun, Etah, Etawah, Faizabad, Farrukhabad, Fatehpur, Gazipur, Gonda, Hamirpur, Hardoi, Jalaun, Jaunpur, Jhansi, Kanpur Dehat, Mainpuri, Mathura, Moradabad, Nainital, Pauri Garhwal, Pithoragarh, Philibhit, Pratapgarh, Rae Bareilly, Rampur, Shahjahanpur, Sitapur, Sultanpur, Tehri Garhwal, Unao and Uttar Kashi; **West Bengal:** Bankura, Birbhum, Burdwan, Cooch Behar, Darjeeling, Hooghly, Jalpaiguri, Malda, Midnapur, Murshidabad, Nadia, Purulia and West Dinajpur; **Andaman and Nicobar Islands:** Andaman Islands & Nicobar Islands; **Arunachal Pradesh:** Kameng, Siang, Subansiri and Tirap; **Dadra and Nagar Haveli:** Dadra and Nagar Haveli; **Goa, Daman and Diu:** Goa, Daman and Diu; **Lakshadweep:** Lakshadweep; **Mizoram:** Aizawl and Lunglei; **Pondicherry:** Pondicherry.

AUTOMOBILES

THE progress of the automobile industry is an index of engineering skill. Though the history of the industry can be traced back to the discovery of the wheel, the real revolution in mechanical development is only 100 years old.

The world's first motor-cycle and motor boat was manufactured in 1882 by Gottlieb Daimler, while the first successful gasoline engined vehicle was designed, manufactured and driven in 1885 by Karl Benz of Mannheim. The next revolution came in 1903 with the introduction, by Henry Ford, of the assembly-line system meant for mass production of automobiles which was utilised only after World War I.

The development of the automobile industry in India centres round four phases. Step I was taken in importing motor cars, the first car being imported in 1898. The second phase was in the late 20s of the present century when General Motors India Ltd. set up a plant in 1928 to assemble trucks and cars. In 1930-31, Ford Motor Co. of India Ltd., established its assembly units in Bombay, Calcutta and Madras. These companies imported components and parts in CKD condition (completely knocked down condition) and assemble them in India. At this stage the pioneer engineer, M. Visveswaraya, pleaded for support to the plan for the indigenous manufacture of cars which the British government denied.

The third phase started with the successful culmination of Walchand Hirachand's efforts after World War II, in collaboration with Chrysler, in setting up Premier Automobiles in Bombay in 1944. Earlier, in 1942, G. D. Birla had established Hindustan Motors in Calcutta in collaboration with the British Motor Corporation.

Great strides have been made after independence. The turning point came in 1953 when on the recommendations of the Tariff Commission, the Government of India granted protection to the indigenous industries. Thus the ancillary industry, which was non-existent till then. gained momentum. There was a noticeable increase in the manufacture of vehicles the production being confined to trucks and buses on a 50 per cent basis and commercial vehicles allocated 10.5 per cent. The maximum growth was recorded in two-wheelers, especially mopeds.

In 1950 the total production of cars with at least one or two locally-made components were a little over 2,100. Today almost all auto parts and components required by the main manufacturers—about 60 per cent—are met by the local ancillary industry, 75 per cent of which are in the small-scale sector. With the steady availability of the raw materials like iron, steel, copper, aluminium and zinc, the process of indigenisation had been achieved within a short period of 15 years—between 1954 and 1968. This was the fourth and final stage when India exported cars and jeeps to 12 countries and commercial vehicles to over 25 countries.

LOCATION OF THE INDUSTRY: Of the 41 manufacturers of automobiles, including tractors and two-cum-three wheelers, 12 are in Maharashtra, 5 in New Delhi, 6 in Tamil Nadu, 3 in Karnataka, 2 in Andhra Pradesh, 5 in Haryana, 2 in Gujarat, 3 in West Bengal, 2 in

Uttar Pradesh with Rajasthan, Punjab and Bihar having one each. The location of the 168 automobile ancillary manufacturing units is: 63 in Maharashtra, 37 in Tamil Nadu, 25 in Delhi, 10 in West Bengal, 9 in Haryana, 7 in Gujarat, 7 in Karnataka, 5 in Punjab, 3 in Andhra Pradesh, 1 in Madhya Pradesh and 1 in Rajasthan.

Licensed Capacity at the end of 1980 was 136,950 commercial vehicles, 129,400 passenger cars, 15,000 jeeps and 1,579,378 other vehicles.

Defence Vehicles: The Defence establishments manufacture *Shaktiman* trucks through an agreement with M.A.N. of West Germany and *Nissan* 1-ton trucks and *Nissan* (Jonga) jeep type vehicles. The vehicle factory at Jabalpur was established in 1969 for the manufacture of 6,000 *Shaktiman* 3-tonne trucks and 7,200 *Nissan* trucks and petrol vehicles per annum. From the information available the current rate of production of *Nissan* trucks and *Nissan* petrol vehicles is 200 nos. and 100 nos. per month, respectively.

RANKING IN THE WORLD MARKET

World Production 1980

Countries	Passenger Cars	Trucks & Buses	Total
Japan	7,038,108	4,004,776	11,042,884
United States	6,375,506	1,634,335	8,009,841

Netherlands	80,779	15,656	96,435
Austria	7,528	8,533	16,061
Total	28,274,960	9,807,875	38,082,835

PRODUCTION IN INDIA

Production of commercial vehicles increased from 39,608 in 1972-73 to 87,543 in 1982-83. Jeeps increased from 12,998 to 20,234. Motorised two-wheelers consisting of scooters, motorcycles and mopeds witnessed a spectacular increase from 259,373 to 656,822. Production of agricultural tractors has also been impressive from 18,364 in 1972-73 to 62,488 in 1982-83. Passenger cars production in 1982-83 was 43,542 against 36,990 in 1972-73.

Production In India

	1980	1981	1982
Passenger cars	30,538	42,106	43,542
Jeeps	15,068	17,029	20,234
Commercial vehicles	68,311	89,752	87,543
Motor-cycles	101,578	110,039	128,817
Scooters	209,956	203,602	251,909
Three-wheelers	26,519	24,833	30,585
Mopeds	106,073	185,424	212,562
Tractors	67,105	82,516	62,488

Ancillary Products: There are more than 1,800 units in the recognised automobile ancillary sector producing all spare parts, accessories and components required for the assembly of complete vehicles. The production of various categories of spare parts and components during 1981-82 in this sector was of the order of Rs. 6,480 million, which reflects a 22 per cent growth over 1980-81.

In the export field, the automobile ancillary industry has achieved great progress. The total exports for 1981-82 and 1982-83 were placed at Rs. 560 million and Rs. 540 million respectively. The EEPC (Engineering Export Promotion Council) fixed an export target of Rs. 650 million of auto-ancillaries for 1983-84.

EXPORTS

The combined vehicle and parts exports today constitute the largest single block among the country's engineering goods exports, about Rs. 1,400 million in 1982-83. Some of the auto-ancillary products made in India find their way to even the more industrially advanced countries like those covered by the EEC.

GENERAL: Almost all vehicles produced in the country are 99 per cent indigenous.

Research, Development and Training: Research and testing facilities for automobiles and automobile ancillaries are available at the *Central Mechanical Engineering Research Institute,* Durgapur, the *Indian Institute of Science,* Bangalore 560012, the *National Test House,* Alipore, and the *National Metallurgical Laboratory,* Jamshedpur. *The Automotive Research Association of India,* P.B. No. 832, Deccan Gymkhana P.O. Pune 411004. The ARAI is an Industrial Research Association with the Ministry of Industry, Govt. of India, set up by the Indian Automotive Industry. It provides test facilities for components and complete assembly of engines and vehicles. Presently a U.N.D.P. project is being established with the main object of assisting the small and medium scale units in their design, development and research activities.

Automobile Manufacturers (See classified list of 'Trades & Professions').

New Projects: A number of new projects, most of them with foreign collaborations are being developed (some are in the elementary/exploratory stage) in the automobile industry.

Maruti Udyog Limited, a public sector undertaking has started production of small cars and pick-up vans. The company has entered into collaboration with Suzuki Motor Company of Japan. Prime Minister Indira Gandhi released the first car at an inaugural ceremony at Maruti's Gurgaon factory on December 14, 1983. By 1985, the production of Maruti cars would be 19,000 to 20,000 and of pick-up vans nearly 2,000. By 1988-89, the company is expected to produce 0.1 million cars per year.

Similarly, the two main producers of cars Premier Automobiles and Hindustan Motors have gone in for collaboration with Fiat of Italy and Vauxhall respectively.

Besides many firms have entered into foreign collaborations for producing scooters and motorcycles.

Tractor Industry: Agricultural tractors have played an important role in increasing the agricultural production in the country. There are 14 licensed units out of which 13 are progressively raising their production and the remaining unit is likely to go into production within a year or so.

During 1980, the production of tractors was expected at 67,105 reflecting considerable increase over the 1979 level of 60,190. The production of tractors in 1981 indicated an upward trend at 82,516. The demand for tractors is estimated at 85,000 by 1983-84, and no capacity gap is envisaged in this industry in the near future.

The industry is facing severe pressures because of the critical supply position in respect of major inputs like power, pig iron, coal, furnace oil etc. Government has allowed the imports of certain critical items at reduced rate of customs duty to ensure the attainment of targeted production level.

Besides meeting domestic demand, the tractor industry is exporting annually around 1,500-2,000 tractors to African and South East Asian countries, Nepal and Afghanistan.

Production of Diesel Engines & Earth-moving Equipment

Production in nos.

		1979	1980
Excavators/shovels	..	207	310
Crawler tractors	..	361	500
Rear dumpers	..	469	250
Motorised scrapers	..	61	75

PETROLEUM

THOUGH the petroleum industry is of very recent origin, the history of oil production goes back to 1867 when oil was first struck at Makum in Assam. In 1890 oil was found at Borbhil (now called Digboi) However, as an industry it was non-existent during the British Raj whose exploitation, mainly limited to Assam, was meant for cheap extraction. During those days the main investors were the Burma Oil Co. and the Assam Railways and Trading Co. No seismic surveys were undertaken and it was generally believed that India did not possess oil or natural gas deposits.

This myth was exploded by Russian experts after independence according to whom 1.4 million sq. km. or about 42 per cent of total land area in India consists of oil yielding sedimentary rocks. Off-shore sedimentary basin exists up to a water depth of 200 metres with an area of 380,000 sq. km. Of the total geological oil reserves about 77 per cent are estimated to be off-shore, which are yet to be explored. Presently, one of the best prospects is in the eastern region dubbed "Calcutta High" According to N. A. Eremko, Head of Moscow Instt. of Petroleum, "Calcutta is floating on a sea of oil." Besides Assam, West Bengal and the Bay of Bengal, the other potential areas are the basins of the Cauvery, the Krishna, the Godavari and the Mahanadi.

The progress in the petroleum industry is a gift of foresight of Jawaharlal Nehru together with the able stewardship of K. D. Malaviya. To explore and produce crude in the north-east region, Oil India was set up in 1960 in collaboration with Burmah Oil Co. In 1961 Oil India was converted into a joint venture. The Oil and Natural Gas Commission was set up as a statutory body, earlier in 1956, in overall charge of exploration and production of oil.

The first well drilled in post-independent India was at Jwalamukhi in 1958 and gas was struck in small quantities. The first oil well drilled was in Cambay, Gujarat, also in 1958. Thereafter followed a chain of discoveries: Ankleshwar (1960), Kalol (1961), Lakwa (1964), all in Gujarat and Geleki (1968) in Assam.

In 1963, after a feasibility survey the Russians declared Bombay High to contain vast oil structure. With the arrival of the mobile drilling platform 'Sagar Samrat' from Japan in 1973, off-shore drilling took a new turn. Oil was struck in Bombay High in 1973 and commercial production commenced from 1976. Today the Bombay High production has touched the 11 million-tonne-level with a daily production mark of 224,000 barrels

With the Arab-Israeli war raging in the 70s and Arab oil-producing countries raising the price of crude oil, India faced tremendous pressure on her foreign exchange reserve. To meet the situation oil exploration in the Assam-Arakan area was stepped up from 1978 which again met with a setback during the current Assam agitation. The Sixth Five-Year Plan lays specific stress on the increase in petroleum products so as to meet rising domestic demand as well as relieve the pressure on foreign exchange reserves by cutting on imports.

PRODUCTION: ONGC, Oil India Ltd. (OIL) and Assam Oil Company Ltd. (AOC) are the only three agencies engaged in the production of crude oil. Currently the production in Gujarat which is exclusively by ONGC is three to four million tonnes and in the offshore area it is about 4.9 million tonnes. The production in Assam is about 4.8 million tonnes of which share of OIL is about 3 million tonnes.

During 1981-82 about 3,851 million cubic metres of associated & non-associated gas were supplied to various customers in Gujarat & Assam. Associated gas from Bombay High was 1,345 million cubic metres.

The Sixth Plan target for crude oil production was revised during the mid-term appraisal from 21.60 million tonnes to 27.52 million tonnes. Similarly the target for production of petroleum products was revised from a level of 35.85 million tonnes to 39.26 million tonnes.

Crude Demand: The demand tor petroleum products in 1984-85 is estimated at 45.50 million tonnes. The demand for crude oil expressed as refinery crude throughput in 1981-82 is reckoned a little over 30 million tonnes per annum and production of crude oil a little over 16 million tonnes as against overall demand of over 32 million tonnes.

IMPORT BILL: In 1981-82, 20.2 million tonnes of crude and petroleum products, valued at Rs. 51,890 million were imported. Of this expenditure, Rs. 37,360 million were accounted for crude oil imports. In 1982-83 the total requirement of imported crude oil is estimated at about 17.7 million tonnes and of petroleum products at around 5.5 million tonnes. The gross foreign exchange requirement for these imports is likely to be about Rs. 59,500 million. However, the net import of crude oil and petroleum products would be (approx.) 11.8 million tonnes and 4.6 million tonnes respectively, approximately valued at about Rs. 45,000 million. The requirement of imports during 1983-84 is estimated to be about 14.8 million tonnes of crude oil and 5.90 million tonnes of petroleum products for which the total foreign exchange requirement is likely to be Rs. 54,500 million (gross).

Price of Imported Crude: The price of crude fixed by OPEC has been showing an easy trend of late. In November 1983 it stood at £28.60 (per barrel Saudi Arabia ras/tanura. The average price for 1982 was $33.47.

Pipelines: A crude pipeline intended for the pumping ot imported and Bombay High crudes from Salaya in the Gulf of Kutch to Mathura refinery a distance of about 1,220 kms. has been completed and will be commissioned shortly. A branch from this pipeline to Koyali refinery to supply Bombay High as well as imported crude to its expansion units was commissioned on 5th September 1978

Among the new schemes of IOC is the Mathura-Delhi-Ambala-Jullundur product pipeline covering a distance of 532 kms. The installed capacity of the pipeline is 3.4 million tonnes per annum. The Mathura-Delhi section was commissioned in April 1982, Delhi-Ambala section in August 1982 and the Ambala-Jullundur section in December 1982.

OIL COMPANIES: There are four oil companies engaged in the refining and marketing of petroleum products. These are Indian Oil Corporation Ltd. (IOC), Bharat Petroleum Corpn. Ltd., Hindustan Petroleum Corporation Ltd. (HPC) and Assam Oil Company Ltd. (AOC). Of these only the last still remains in the private sector. Full ownership of Esso interests in HPC were acquired by Government in October 1976, Burmah Shell interests in India were fully acquired in January, 1976, under the name of Bharat Refineries Ltd. (later renamed Bharat Petroleum Corpn. Ltd.). Similarly, Caltex interests were fully acquired by the Government in December, 1976, under the name of Caltex Oil Refining (India) Ltd. till it was merged into Hindustan Petroleum Corpn. Ltd. in May, 1978.

In addition to these companies, there are two public sector companies (each with a minority foreign collaboration)—Cochin Refineries Ltd. (CRL) and Madras Refineries Ltd. (MRL) which are engaged only in the refining of petroleum products and one public sector company, Indo-Burma Petroleum Company Ltd. (IBP) which is engaged in the marketing of petroleum products.

Refineries in Operation: There are twelve refineries in operation.

Name of the company	Location	Installed capacity M.M.T.	Crude run 1981-82
Indian Oil Corporation Ltd.	Gauhati	0.85	746
Indian Oil Corporation Ltd.	Barauni	3.30	3,031
Indian Oil Corporation Ltd.	Koyali	7.30	7,042
Indian Oil Corporation Ltd.	Haldia	2.50	2.277
Indian Oil Corporation Ltd.	Mathura	6.00	520

Madras Refineries Ltd	Madras	2.80	4,999
Cochin Refineries Ltd.	Cochin	3.30	3,483
Bharat Petroleum Corporation Ltd.	Bombay	5.25	1,178
Hindustan Petroleum Corporation Ltd.	Bombay	3.50	3,120
Hindustan Petroleum Corporation Ltd.	Vizag	1.50	2,801
Bongaigaon Refinery & Petro-chemicals Ltd.	Bongaigaon	1.00	453
Total		37.80	30,146

OIL AND NATURAL GAS COMMISSION (Tel Bhavan, Dehra Dun 248001, U.P.).

The Oil & Natural Gas Commission is a major Public Sector undertaking engaged in exploration for and exploitation of crude oil and natural gas resources in various sedimentary basins of the country both onshore and offshore. Its operations however, do not cover certain areas in Assam and Arunachal Pradesh in the East and sizeable areas in Rajasthan and Mahanadi offshore. These areas are being explored by two other public undertakings, Oil India Ltd. and Assam Oil Co. ONGC has also undertaken oil exploration in some foreign countries as well.

India has 1.4 million sq.kms. of sedimentary area onland, 0.4 million sq. kms. offshore upto 200 mts. water depth and another 0.4 million sq.kms. in the continental slope. ONGC has been operating in onshore areas since 1956. The first oil strike by ONGC occurred in the first well drilled in Cambay, Gujarat in 1958. This was followed by discovery of oil in Ankleshwar in 1960, Kalol in 1961, Sanand in 1962, Nawagam in 1963 and North Kadi in 1967 and a series of other discoveries in subsequent years. In Assam, ONGC discovered its first oil field at Rudrasagar in 1960 followed by Lakwa in 1964 and other fields thereafter.

ONGC ventured into offshore exploration in 1963 by carrying out seismic surveys in Gulf of Cambay which led to the discovery of Aliabet structure at the mouth of Narmada river. A well was drilled on the structure during 1970 with oil shows. In 1964, systematic seismic surveys were undertaken by a Russian ship "Akademic Arkhangeleisky" in the Western and Eastern Continental shelf and continued till 1967. A number of promising structures including Bombay High were delineated. ONGC started drilling at this Bombay High structure by its own jack-up drilling unit "Sagar Samrat" in 1974 and struck oil there. Since then it has discovered a number of oil and gas bearing structures stretching from the mouth of Gulf of Cambay to offshore Ratnagiri coast. On the eastern coast, oil and gas was discovered in offshore Godavari in 1980 and gas off Portonovo in 1980. ONGC has also had success in the discovery of oil in Palk Strait (1981 and gas in Andamans (1980). Thus both the east coast and west coast are proved petroliferous.

Exploration: *Geological surveys:* Surveys by 10 geological parties in 1981-82 carried out mapping of 5,667 sq. kms. area in different parts of the country, other than the Western Region which has already been mapped in detail.

Two shallow drilling parties operated in Andhra Pradesh and drilled 985 metres for obtaining supplementary data for geological mapping.

Till March 1982, ONGC had put in 378 geological parties and mapped 183,628 sq. km. area.

Geophysical surveys—Onland: A total of 6,485 station measurements of Gravity-cum-Magnetic data were done by field parties during 1981-82 in various parts of the country except the Western Region.

The use of modern techniques like Vibroseis and Common Depth Point (CDP) has greatly improved the quality of seismic data. During 1981-82, 28 seismic field parties were engaged in onland surveys and carried out 2,521 line kms. of CDP surveys. Till March 1982, ONGC had put in different sedimentary onland basins and carried out 128,945 line kms. of seismic surveys. The ONGC's seismic vessel *Anweshak*, along with some vessels on contract, carried out surveys in the Andaman Shelf, Lakshadweep, Godavari, Palk Bay and Bombay Offshore south of Diu, covering 8,917 line kms. during 1981-82. The total survey carried out by ONGC *Anweshak* and vessels on contract, up to March 1982 are 93,591 and 82,632 line kms. respectively.

Exploratory Drilling: 15 new structures—11 onland and 4 offshore were taken up for drilling. Of these, 10 gave indications of hydrocarbon presence. The hydrocarbon find in Krishna-Godavari basin and confirmation of commercial existence of gas in Tripura added a new dimension to the oil scenario in the country.

Drilling in 61 structures continued and a total meterage of exploratory drilling at 151,810 was accomplished during the year 1981-82 against a target of 133,799 metres, an achievement of 113.5 per cent. The exploratory drilling done during the year was higher by 29 per cent which was 117,658 metres in this category of drilling. In the previous year up to the end of 1981-82 an aggregate of 2.37 million metres of exploratory drilling has been completed.

As a result of exploratory drilling during 1981-82 109 MMT of geological reserves of oil and gas were added.

During the year 58 wells were completed with 24 showing indications of hydrocarbons.

Development Drilling: 170,006 metres of development drilling was accomplished during the year. Up to the end of 1981-82 the total meterage of drilling in this category has been 1.74 million metres. In all the Commission has completed up to the end of 1981-82, 925 development wells of which 86 wells were done in 1981-82 against 51 such wells in 1980-81.

Production: *Crude Oil:* Against production target of 13.26 MMT for 1981-82 the actual has been 13.18 MMT. At this level the production during this year was 44 per cent higher than that of the previous year. This increase was due to increased production from Bombay High and normalisation of activities in Eastern Region which had been a disturbed area almost throughout 1980-81.

The domestic refineries were unable to lift the entire quantity of Bombay High Crude because of its chemical composition, and their own technical problems. As such only 0.86 MMT of Bombay High Crude was exported during the year. In addition about 0.5 MMT of crude was floating in VLCCs, Kanchenjunga and Koyali at the end of 1981-82 awaiting export. For 1982-83 the Oil Coordination Committee which controls such transactions had drawn up a plan to export about 3 MMT of Bombay High Crude.

Liquified Petroleum Gas (LPG): ONGC installed an LPG plant at Uran in Maharashtra to extract LPG from Bombay High Gas. This Plant has started commercial production during the year 1981-82 and a total of 73,055 MT was produced against a target of 75,334 an achievement of 96.97 per cent. Plans are afoot for setting up such plants at Ankleshwar and in the Eastern Region, so that the benefits of clean and cheap fuel for domestic use can be further extended. These schemes will carry the added benefit of reducing quantity of flared gas.

Feasibility studies have also been made for installation of a LPG plant at Hazira, Gujarat to extract LPG from offshore gas and the proposal is being processed by the Government of India.

Overseas Operations: ONGC continues its efforts to secure exploratory concessional drilling contracts and consultancy jobs abroad. The drilling contract between ONGC and Iraqui National Oil Company for drilling in Iraq was completed.

The Government of India leased out Saurashtra II Offshore block to M/s. Chevron Oil Company of United States on participation basis with ONGC acting as an agency for carrying out the work. Chevron started geophysical survey in the area during 1982-83.

Research & Development: ONGC has presently three Institutes viz. **The Keshav Dev Malaviya Institute of Petroleum Exploration, The Institute of Drilling Technology** both at Dehradun and **The Institute of Reservoir Studies** at Ahmedabad. These Institutes carry out applied research work, and seek unceasing continuous interaction between the operational projects and themselves at all stages beginning with planning to accomplishment. In this role they associate with various universities and other specialised institutions.

In KDMIPE 230 projects were undertaken besides 33 S & T projects. The Institute of Reservoir Studies, Ahmedabad, besides developing models for secondary and tertiary recoveries also helped to finalise the development plans for Santhal field in North Gujarat. During 1981-82 it completed 63 projects pertaining to methods of reducing water production, stimulation plans, secondary recoveries, EOR potentials etc.

The Institute of Drilling Technology at Dehradun is engaged in development of and improving the technology for smooth and safe drilling operations.

Chairman: Col. S. P. Wahi.

INDIAN OIL CORPORATION LTD.: (Regd. Office: 254-C, Dr. Annie Besant Rd., Prabhadevi, Bombay 400025). The Indian Oil Corporation comprises three divisions viz. Refineries and Pipelines Division, Marketing Division and Assam Oil Division. It has a Research & Development Centre at Faridabad and its fully owned subsidiary—Indian Oil Blending Ltd. has two lube blending plants in Bombay and Calcutta and a grease manufacturing plant at Bombay.

Refineries & Pipelines Division (Indianoil Bhavan, Janpath, New Delhi 110001) builds and manages oil refineries of the Corpn. At present IOC has six refineries at Gauhati and Digboi (Assam), Barauni (Bihar), Koyali (Gujarat), Haldia (West Bengal), and Mathura (Uttar Pradesh).

This Division also lays oil pipelines and manages Gauhati-Siliguri, Haldia-Barauni-Kanpur, Haldia, Mourigram, Rajbandh, Koyali-Ahmedabad, Mathura-Delhi-Ambala-Jullundur, Digboi-Tinsukia, and Salaya-Koyali-Mathura pipelines.

Indian Oil Corporation refineries in 1982-83 processed 17.83 million tonnes which is about 54 per cent of the total crude of 33.16 million tonnes processed in the country.

Marketing Division:, This division with its headquarters in Bombay handles storage and distribution of petroleum products. In 1982-83 it sold 121.3 million tonnes of products representing a market participation of 61.5 per cent. As on March 31, 1983 it had 4,813 petrol/diesel pumps, 2,642 SKO/LDO dealers, 294 multi-purpose distribution centres and 19 Taluka kerosene depots. It had 737 distributors marketing its cooking gas 'Indane'.

IOC has marketing and distribution network covered through its four regional offices at Bombay, Calcutta, Delhi and Madras and 31 divisional offices.

Assam Oil Division: Assam Oil Division of Indian Oil Corporation was formed on October 14, 1981 and the refining and marketing activities of the erstwhile Assam Oil Company Ltd. and the Burmah Oil Company (India Trading) Ltd. have since been handled by Indian Oil Corporation.

Research & Development Centre: IOC has its own Research & Development Centre at Faridabad near New Delhi. Various engines, rigs, analytical instruments have been imported and commissioned for evaluation and testing of lubricants and other petroleum products. The Centre gives formulations to Indian Oil Blending Limited, a subsidiary of Indian Oil Corporation, for blending all lubricants, specialities etc. Some meligenous lubricants under the brand name 'Servo' have been developed by the Centre for defence, railways, power houses and steel plants etc. The Centre has also developed 'Servoprime', a high grade turbine oil from indigenous base stocks and the same has been introduced as initial charge in turbo-generator sets at various power houses.

The Centre has obtained international approvals for some of IOC lubricants and is working on getting approval for other grades. With a view to conserving kerosene, the Centre has designed and developed a high efficiency wick stove (Nutan) as also an LPG burner with 70 per cent thermal efficiency.

INDIAN OIL BLENDING LTD.: A fully-owned subsidiary of Indian Oil Corporation Ltd., has two lube blending plants in Bombay and Calcutta and a grease manufacturing plant in Bombay.

INDO-BURMA PETROLEUM CO. LTD.: (Regd. Off.: Gillander House, N. Subhas Rd., Calcutta 700 001). It became a subsidiary of the IOC on 12th January, 1970, and the controlling interest was acquired by the President of India from IOC on 16th September 1972. The major business of the company is marketing of petrol and petroleum products.

The company has also diversified into manufacture of electronic equipments, bottling machinery, freeze driers, space simulation chambers, high vacuum equipment, liquid nitrogen containers, slurry type of industrial explosives. In 1972 the Company took over the management of Balmer Lawrie Group of Companies. Balmer Lawrie and its associates have established a plant in Dubai for manufacture of barrels and cans, and propose to build freight containers in Cochin and Howrah. The Group is also implementing civil construction jobs abroad as well as turn-key projects. The Group's other activities, like civil construction, structural fabrication, manufacture of barrels and grease and electrical equipment like switchgears and motors are being expanded gradually.

International Trade: Indian Oil is the canalising agency for imports and exports of crude and petroleum products on behalf of the entire oil industry. Considering the importance and the financial magnitude a separate International Trade Department was formed in October, 1982 viz. Delhi as Headquarters. During 1982-83 13.23 million tonnes of crude valued at Rs. 30,620 million were imported as against 11.51 million tonnes of crude valued at Rs. 27,450 million. In addition, 5.41 million tonnes of petroleum products valued at Rs. 1,619 million and 0.11 million tonnes of lubricants at an approximate value of Rs. 540 million were imported during the year. In addition, 3.74 million tonnes of crude oil valued at Rs. 8,520 million was imported by Madras Refineries Ltd. and Hindustan Petroleum Corporation. The total import during 1982-83 amounted to Rs. 55,870 million as against Rs. 50,290 million in the previous year.

During 1982-83 the Corporation also arranged for export of 4.35 million tonnes of Bombay high crude valued at Rs. 10,210 million.

BHARAT PETROLEUM CORPORATION LIMITED: (Regd. Off.: Bharat Bhavan, Ballard Estate, Bombay 400038). A 100% public sector enterprise, Bharat Petroleum has acquired complete ownership of Burmah-Shell's interests in India including the second largest refinery (5.25 million tonnes per annum) and a nationwide marketing organisation.

The Refinery has made substantial technological improvement over the years. In 1981-82 ten different crudes (including Maya from Mexico for the first time) were processed. The refinery was also the first to process offshore Bombay High crude in 1976, and the share of Bombay High crude in the crude mix has risen from 73% (3.54 million tonnes) in 1979-80 to 81% (4.05 million tonnes) in 1981-82.

On the marketing side, the total sales during the year 1981-82 amounted to 5.32 million tonnes compared to 5.29 million tonnes in 1980-81, while the turnover increased to Rs. 15,154.2 million against Rs. 12,141.3 million in the previous year.

At present, BPCL has 5 port installations, 2 lubricating oil blending plants and 59 bulk depots with a total tankage of 0.66 million kls. besides a countrywide network of 3,317 retail outlets.

Major Projects: (a) *Additional Secondary Processing Facilities:* This project involves debottlenecking of primary crude distillation unit to raise the crude distilling capacity to 6 million TPA for any combination of Bombay High and Middle East crudes and for providing matching secondary processing facilities with the necessary auxiliary facilities. (b) *Aromatics from Bombay High Naphtha*: The original proposal to manufacture 61,000 TPA of benzene and 16,000 TPA of toluene from 3 million TPA of Bombay High crude has been revised to manufacture 98,300 TPA of benzene and 17,600 TPA of toluene from 4 million tonnes of Bombay High crude on the basis of indigenous process design. (c) *Sulphur Recovery Project:* It is proposed to instal a plant at the refinery to recover 5,700 TPA of sulphur from refinery gases with a view to improving environment.

Besides these 3 projects, the Corporation has submitted for Government's approval a Feasibility Report on putting up of facilities for dispensing Aviation Fuel by all the Oil Companies through a Hydrant System at Palam, Delhi. This project is expected to be completed by October 1984 and is estimated to cost Rs. 17.42 crores (including a foreign exchange component of Rs. 3.63 crores), the Corporation's share of the cost being Rs. 13.94 crores.

HINDUSTAN PETROLEUM CORPORATION LTD. became fully Indian-owned on October 1, 1976, when the ESSO company's share was bought off by paying 3.1 million U.S. dollars for its 26 per cent share. Subsequently, Caltex Oil Refining (India) Ltd. merged with Hindustan Petroleum in May, 1978. The Corporation's main operations are petroleum refining, manufacture of lubricating oil base stocks and marketing of petroleum products. The Corporation has over 6,000 employees in its four operations.

HPCL have two refineries - one at Bombay (Lube Refinery) with a capacity of 3.5 million tonnes per year and another at Visakhapatnam (Visakh Refinery) with a capacity of 1.5 million tonnes per year.

The total sales of petroleum products during the year under review was at 5.683 million tonnes showing an increase of 91,000 tonnes over the previous year's sales of 5.592 million tonnes.

The sales turnover during the year under review was of the order of Rs. 19,781.3 million against Rs. 15,738.3 million, during the previous year an increase of 25 per cent over the previous year sales.

The gross profit before taxes, depreciation, interest and prior period adjustments amounted to an all time high of Rs. 593.9 million as against Rs. 521.1 million during the previous year due to increased interest and depreciation charges during 1981-82.

At present, work is in progress, for the expansion of the Lube Refinery at Bombay and the Visakh Refinery and on the construction of Bombay-Pune pipeline and Sulphur Recovery project. The new LPG Bottling Plant for LPG at Bombay, Bangalore and Nagpur have been commissioned.

Chairman & Mg. Director, K. Krishnamurti.

BONGAIGAON REFINERY AND PETROCHEMICALS LTD. (BRPL): All the units of the one million tonne refinery at Bongaigaon in Assam have been completed and commercial production has been started. The total approved cost estimate of the refinery complex is Rs. 1,062.9 million, including the captive power plant.

MATHURA (UTTAR PRADESH): With a capacity of 6 million tonnes this refinery was commissioned and put on trial run in January, 1982.

COCHIN REFINERIES LTD.: (P. Bag 2, Ambalamugal 682302, Ernakulam Dist., Kerala). This is a participatory refinery project in the public sector, the principal collaborators with the Government being Messrs. Phillips Petroleum Co., U.S.A. It was commissioned on 19th September, 1966

The Refinery was originally designed to produce annually 2.5 million tonnes of petroleum products and the capacity has now been expanded to enable it to process 70,000 barrels of crude per day or 3.3 million tonnes annually.

A secondary processing scheme and capacity expansion to 4.5 million tonnes per annum involving a total capital outlay of about Rs. 1,326 million have been taken up for implementation. These projects are expected to be completed by March, 1984.

Chairman: P. K. J. Menon (I.A.S., Retd.); *Managing Director:* C. Abraham.

MADRAS REFINERIES LTD.: (Regd. Office and Refinery: Manali, Madras 600 068). The Refinery was incorporated in December, 1965. After completion of process engineering design by Bechtel Corporation, U.S.A., the engineering design and construction contract was awarded to Snam Progetti, Italy. The construction was started from January, 1967 and completed by March, 1969. The plant was commissioned in June, 1969. A joint venture of the Government of India (major share-holder), National Iranian Oil Company, Amoco India Incorporated, U.S.A., the Madras Refinery is designed to process 2.5 million tonnes per annum of Darius Crude Oil from Persian Gulf, Iran (50,000 barrels per calendar day and subsequently debottlenecked to process 2.8 million tonnes/year of crude). Products: LPG, motor gasoline, naphtha, superior kerosene, jet fuel, high speed diesel oil, light diesel oil, lube base stocks, furnace oil, asphalt and sulphur.

Capacity: 2.8 million tonnes per annum.

Production: Worth Rs. 7,358.06 million.

Processed: 2.801 million tonnes.

No. of Employees: 521 as on 31.3.1982.

Capital: Rs. 128.7 million.

The Refinery has currently a project to expand its refining capacity from 2.8 million tonnes to 2.56 million tonnes and to produce 20,000 tonnes of Paraffin wax of different grades per annum.

General Managers: A.V. Krishnan (Refinery); G. Raghavendran (Project); N. J. Mathew (Finance).

OIL INDUSTRY DEVELOPMENT BOARD: It was set up on January 13, 1975, to give financial and other assistance for the development of the oil industry (See also Ministry of Petroleum and Chemicals).

RESEARCH

The ONGC has set up the Institute of Petroleum Exploration at Dehra Dun for research and training in the exploration and production phases of the Industry. The Indian Institute of Petroleum in Dehra Dun was set up under the control of the Council of Scientific and Industrial Research to conduct research and training in the refining and marketing phases of the industry. The Indian Oil Corporation has set up a Research and Development Centre at Faridabad for conducting research in the formulation of lubricants and greases.

ALLIED COMPANIES

Engineers India Ltd.: (See chapter on "Government of India Undertakings").

Lubrizol India Ltd.: (Thane-Belapur Road, Turbhe, Thane, Maharashtra; Regd. Office: Delstar, 9A, S. Patkar Marg, Bombay 400036). A 60:40 equity holding of the Govt. of India and the Lubrizol Corpn., U.S.A., for the manufacture of Chemical Additives and Solubilizing agents for petroleum-based fuels and lubricants as also antioxidant, dispersant and detergent intermediate components from the basic raw materials.

Mg. Director: P. K. Rudra.

Tide Water Oil Co. (India) Ltd.: (8, Clive Row, Calcutta 700001). A public limited marketing company with Government interest, has branch offices at Bombay, Delhi and Madras. Its activities are blending and marketing of all kinds of lubricants, including specialities and manufacturing of greases.

PETRO-CHEMICALS

THE petro-chemical industry is comparatively of recent origin, but is characterised by spectacular growth during the last three decades, because of its wide application in various fields. The products from petro-chemical industries have entered every aspect of human activity, contributing in a remarkable way to improvement of the quality of life.

Growth: The petro-chemical industry can be mainly grouped into plastics (polyethylene, PVC, polystyrene, polypropylene), and thermosetting plastics, synthetic fibres (polyester, nylon and acrylic), synthetic rubber (styrene, butadiene and poly-butadiene) and synthetic organic chemicals as raw materials for plastics, synthetic fibres, dyestuffs, pesticides, synthetic detergents and pharmaceuticals. With the development of process technology using petroleum distillates as the main ingredient, the petro-chemical industry emerged to supply all the basic chemicals that were once derived from coal, alcohol and vegetable oils, and a large number of new chemicals were produced on a commercial scale.

RAW MATERIALS: The raw materials constituting the source for chemicals from petroleum may be divided into three categories: *(i)* gaseous, *(ii)* liquid and *(iii)* solid. Following are some of the important raw materials:

Natural gas: Natural gas is composed mainly of methane, ethane, propane, butane, pentane, hexane and higher hydrocarbons. The quantities of pentane and hexane determine what is known as wetness of the gas. Natural gas is found either associated with crude oil or non-associated. The non-associated gas may contain very small quantity of butane and higher hydrocarbons and as such it is called dry gas. Besides the hydrocarbons, natural gas may contain a certain amount of nitrogen, hydrogen sulphide, carbon-dioxide and helium.

Derivatives: Natural gases can be used for the manufacture of olefins which are the important building block feedstocks for a large number of petro-chemicals, ammonia, methanol and also carbon black.

Sources: The established fields of natural gas are in Naharkatiya and Moran oil fields in Assam and Ankleshwar, Kalol and Cambay oil fields in Gujarat and the offshore oil fields known as Bombay High and Bassein. Whilst the gases in the Ankleshwar and Kalol oil fields are wet with a high percentage of higher hydrocarbons, the Cambay gas is dry consisting mainly of methane, ethane and small quantities of propane and butane. The gas from Bombay High and Bassein fields is rich in ethane and propane making it an ideal raw material for the production of petro-chemicals. Natural gas is, therefore, a precious raw material and government has decided to use it mainly for the manufacture of fertiliser and petro-chemicals.

Refinery gas: This gas is produced at various stages in refinery operations mainly from the straight distillation units and the thermal and catalytic cracking and reforming processes. The cracked gases are generally very rich in olefins and can be co-polymerised to get high octane gasoline or used to produce petro-chemicals. The distillation gases are generally parafins and are normally used as fuels in the refinery itself. The refinery gases being rich in butane and propane have found extensive use as domestic and industrial fuel in liquefied form.

Naphtha: The most popular petro-chemical raw material from the liquid petroleum group is naphtha. A great deal of research and development effort is being made to use higher liquid fractions to manufacture petro-chemicals. It is considered more advisable to produce goods from the high-priced crude rather than use it as fuel.

The international oil crisis has had a decisive impact on the feedstocks for the petro-chemical industry. In India the petro-chemical and fertiliser industries have been planned on the basis of increasing availability of naphtha with the increasing demand for petroleum products. Till the sixties this valuable petroleum product was exported. Its utility as a feedstock for the production of organic chemical and plastics was appreciated in the mid-sixties.

Demand: The demand for naphtha in 1980-81 was about 2.33 million tonnes against a production of about 2.12 million tonnes requiring an import of 0.23 million tonnes. If the programmed production for fertiliser and petro-chemicals materialises the demand for naphtha would be about 3.4 million tonnes by 1984-85

Uses of Naphtha: Nitrogenous fertiliser is a rapidly growing item in developing countries. Naphtha reforming yields hydrogen, which is required for the synthesis of ammonia, a basic material in fertiliser production. To produce one tonne of ammonia less than a tonne of naphtha is required.

Olefins are the base for the bulk of petro-chemicals produced. Ethylene is the most important followed by propylene and butadiene. The cracking of naphtha to produce olefins is a major commercial process. Naphtha crackers are generally so designed as to give variable ratios of olefins according to market requirements of their end products.

Production of aromatics (*e.g.* benzene, toluene, xylenes, etc.) is another major use of naphtha. Aromatics are used for the production of synthetic fibres, high quality gasoline, etc.

Naphtha-based Industries: There are 18 fertiliser plants in the country which use naphtha either as feedstock or as supplementary stock for production of nitrogenous fertilisers. The important naphtha based fertiliser plants whose consumption of naphtha is around 0.1 million tonnes or more per annum are located in Madras, Tuticorin, Durgapur, Kanpur, Vadodara, Cochin, Goa and Mangalore.

In India the industry has developed only during the last fifteen years. A beginning was made in mid-sixties by setting up a relatively small complex (20,000 tonnes/annum ethylene production) by M/s. Union Carbide near Bombay, using naphtha from the local refinery as the basic raw material. This was followed by M/s. Nocil's 60,000 tonnes/annum ethylene complex, also near Bombay. Subsequently, a large petro-chemicals complex has been put up near Vadodara in Gujarat, by the Indian Petro-chemicals Corporation Limited, a Government of India enterprise.

With the availability of Petro-chemical Intermediates from the above petro-chemical complexes, particularly IPCL, the down stream industries *e.g.* Plastic Processing Industries, Synthetic Fibre industry are set to develop in a big way. The present application of petro-chemicals in India are quite diversified. They are used in a host of products from simple shirt buttons to complex communication systems for aviation and rocket propulsion. They are also used in a variety of consumer products from packaging and insulating materials to staple fibre, filament yarn, electronic components, pipes and fittings, substitute for wool etc. The greatest impact of petro-chemicals is in vital areas like water-management, health-care, transport, housing and clothing etc.

Naphtha consumption by the petro-chemical industries in Bombay and Gujarat during 1980-81 alone was nearly 610,000 tonnes.

According to a prospective study on petro-chemicals, there will be a shortfall of about 467,000 tonnes of plastics and 238,000 tonnes of synthetic fibres by 1987-88. This will involve a foreign exchange outgo for imports of the order of Rs. 7,000 million at 1980-81 prices.

Perspective Plans*

Category	Capacity in operation as on 1.4.1981	(in '000 tonnes) Demands envisaged during 1987-88
Plastics		
1. LDPE	110	244
2. HDPE	30	118
3. PVC	85.8	315
4. Polypropylene	30	65
5. Polystyrene	23.5	43
Synthetic Fibres		
1. Polyester Filament Yarn	8.0	30
2. Polyester Staple Fibre	32.1	138
3. Nylon Filament Yarn and Tyre cord	32.5	108
4. Acrylic Fibre	16	26
Synthetic Rubber		
1. SBR	30	93
2. PBR	20	50
Olefins		
1. Ethylene	210	633
2. Propylene	123.3	247
3. Butadiene	54.4	104
Aromatics		
1. Benzene	139	441
2. O-Xylene	21	91
3. P-Xylene	17	123
Intermediates		
1. Caprolactum	20	125
2. DMT	24	184
3. Formaldehyde	155.8	120
4. Methanol	99	150
5. Phthalic Anhydride	27.3	70.9
6. Phenol	20.9	56
7. Ethylene Oxide	28	89
8. Ethylene Glycol.	30	80

*Based on Report of the Reconstituted working group on Petrochemicals 1978-79.

SOME IMPORTANT COMPANIES

Private Sector

Union Carbide India Ltd., Trombay, Bombay, established the first integrated petro-chemical complex in 1966. Its present licensed capacity is 20,000 tpa low density polyethylene and 10,890 tpa chemicals. The production of polyethylene during 1982 was 17,290 tonnes and in 1981 it was 19,928 tonnes. The output of chemicals during 1982 was 6.331 tonnes and in 1981 it was 6,865 tonnes.

National Organic Chemical Industries Ltd. (Regd. Office: Mafatlal Centre, Nariman Point, Bombay 400021). Factory at Thane, Bombay, constructed in 1968 with a naphtha cracker of 225,000 tpa capacity. to produce 60,000 tpa of ethylene, 35,000 tpa of propylene, 7,200 tpa of butadiene and 14,000 tpa of benzene. From these a variety of organic chemicals are produced. The licensed capacity for petro-chemicals was 246,600 tonnes per annum during 1982 and installed capacity was 298,600 tonnes. Actual production was 214,640 tonnes in 1982. In 1981, while licensed and installed capacities amounted to 230,500 tonnes and 286,600 tonnes respectively, the actual production was 231,875 tonnes. For by-products of petro-chemicals, the licensed capacity is not applicable and installed capacity is not ascertainable by the company. However, the actual production was 130,724 tonnes during 1982 and 150,748 tonnes in 1981.

Polyolefins Industries Ltd., which is an associate company of NOCIL has licensed capacity of 30,000 tpa of HDPE, whereas the certified installed capacity is 50,000 tpa. The production of HDPE in 1982 was 30,980 tonnes and in 1981, 35,225 tonnes.

Public Sector

Indian Petro-Chemicals Corpn. Ltd., P.O. Petrochemicals, Dist. Vadodara 391346, Gujarat Authorised Capital. Rs. 2,000 million; Paid-up Capital; Rs. 1860 million). The aromatics project has been in operation since 1973 and consists of two units namely Dimethyl Terephthalate (DMT) and Xylenes with the capacity of producing DMT: (expanded to 30,000 tpa w.e.f. November 1982): Para-Xylene (for captive conversion into DMT): 17,000 tpa, and Ortho and Mixed Xylene: 23,500 tpa respectively).

The Olefins Plant, which was commissioned in 1979, consists of Naphtha Cracker, Benzene/Butadiene extraction units and pyrolysis Gasoline Hydrogenation Unit. The products with their respective capacities are: Ethylene 130,000 MTA, Propylene (Polymer grade) 38,000 MTA, Propylene (Chemicals grade) 43,300 MTA, Butadiene 22,000 MTA, Benzene 13,500 MTA Pyrolysis Gasoline 111.560 MTA, Mix C4 raffinate 46,610 MTA.

Downstream Units: low Density Polyethylene (using ethylene stream) 80,000 MTA; Ethylene Glycol Unit (using ethylene stream) 20,000 MTA; Polypropylene Unit (using propylene stream) 24,000 MTA Acrylic Fibre Unit (using aerylonitrile) 12,000 MTA; Polybutadiene Rubber (using butadiene stream) 20,000 MTA; Linear Alkyl Benzene 30,000 MTA.

A Research Centre has been set up at a cost of Rs. 50 million and 140 scientists are engaged in the research work. This number is likely to touch 250.

The second petro-chemical complex, **The Bongaigaon Petrochemicals Ltd.,** is being set up at Bongaigaon in Assam, as an adjunct to the one million tonne Bongaigaon Refinery to manufacture 30,000 tpa of polyester fibre and 6,000 tpa of orthoxylene. It will require 80,000 tonnes of a special cut naphtha — 46,000 tonnes will be available from Bongaigaon Refinery while the rest will come from Gauhati refinery. This complex is estimated to cost about Rs. 2,473 million. It is expected to be completed in stages by 1985.

These two petro-chemical complexes are estimated to cost about Rs. 5,500 million.

The IPCL's Research and Development Centre was opened in October 1973, near Vadodara at an estimated cost of Rs. 70 million.

Caprolactum Plant, near Vadodara, Gujarat, was commissioned in December 1973, by Gujarat State Fertiliser company to produce 20,000 tpa of caprolactum and 85,000 tonnes of sulphur dioxide and 85 tonnes of oleum daily.

Assam Petrochemicals Limited, G.N.B. Road, Ambari, Gauhati 781001; factory at Namrup, Parbatpur 786623, Assam, was commissioned on 25th June, 1976 and regular production of best quality products METHANOL, FORMALIN, PETROLITE R-50 for plywood industries, PETROLITE R-65 for other industries (both U.F. resin) and PETROLITE-M, a U.F. Moulding Powder is continued.

Petrofils: The Rs. 413 million polyester filament yarn project in the co-operative sector at Vadodara has already been in production. The initial capacity was 3.500 tonnes of polyester filament yarn per year. The country's biggest producer of polyester filament yarn had planned to double its production from June 1983 after the commissioning of its second phase of expansion.

The existing plant has had an enviable record of capacity-utilisation. In 1983, the capacity-utilisation has been as much as 143 per cent of its installed capacity of 3,500 tonnes per year. At one stage, Petrofils contributed nearly 45 per cent of the polyester filament yarn produced in the country, but with the commissioning of several other units, its share has now dropped to 16 per cent.

PRODUCTION

The following table gives the production of selected organic chemicals and polymers in India during 1970-71, 1975-76, 1979-80, 1980-81 and 1981-82.

(Tonnes)

Product	1970-71	1975-76	1979-80	1980-81	1981-82
Benzene	53,190	71,224	94,801	79,726	82,716
Butadiene*	18,183	16,323	21,766	18,070	22,720
Ethylene*	58,668	64,257	126,537	139,846	147,754
Ethylene Oxide	1,513	9,921	12,134	11,787	11,426
Ethylene Glycol	4,500	7,287	11,782	11,989	15,491
Propylene	5,663	32,766	66,084	72,691	67,638
Toluene	8,325	15,292	23,888	19,012	25,732
Acrylic Fibre	—	—	3,470	10,275	13,592
Nylon Filament Yarn	9,338	14,037	17,686	20,822	23,408
Polyester Staple Fibre	5,423	16.018	23,617	22,381	29,671
Polyester Filament Yarn	602	2,297	9,029	10,707	15,410
LDPE*	24,437	27,636	71,275	87,154	94,293
HDPE	21,153	20,018	25,380	24,293	31,732
Polystyrene*	8,925	9,203	12,036	10.205	7,642
PVC resins*	41,472	43,818	49,891	42,050	32,037
Polypropylene	—	—	13,425	16,729	20,644
SBR*	29,791	25,195	21,596	18,968	17,391
Polybutadiene	—	—	8,712	6,469	11,481

*Partially or fully alcohol-based products.

MISCELLANEOUS MANUFACTURES

THE following table gives the installed capacity and production of selected items manufactured in India during 1982.

Industry	Accounting Units	Installed capacity	Production	Production as percentage of capacity
ACR/AAC conductors	Th. Tonnes	156.00	52.00	33.3
Agricultural tractors	Th. Nos.	90.00	84.32	93.7

FOOD AND AGRICULTURE

AGRICULTURE is the backbone of the national economy providing income to more than 65 per cent of the total population. It contributes nearly one-half of the national income and earns foreign exchange through exports.

There are two types of agricultural products—food crops and commercial crops, the former enjoying predominance over the latter. Three main crop harvests meet our needs—kharif, rabi and summer. Rice, jowar, bajra, maize, cotton, sugarcane, sesamum and groundnut are kharif crops. Wheat, jowar, barley, gram, linseed, rapeseed and mustard are cultivated during the rabi season while rice, maize and groundnut are also grown during summer.

Agriculture depends largely on the vagaries of the monsoon and if the monsoon plays truant, scarcity conditions and even famine may stalk the land. The food problem had been recognised as a national problem since the days of the British rule who appointed a Famine Commission to look into the causes and suggest remedial measures.

Independence brought in its wake other problems. Partitioned India inherited nearly 82 per cent of the population while losing some of the rich food-producing areas like Sind and East Bengal to Pakistan.

To meet this anomaly the Government intensified the British scheme of the grow-more-food campaigns and in 1954 it abolished all controls on food production. It was to encourage farmers to increase food production.

The Five-Year Plans have subsequently stressed the importance and the high priority of agriculture to solve the food problem. The Government has also created a network of the public distribution system through fair-price shops aiming at a steady supply of food grains at reasonable prices to the economically weaker consumer.

An important aspect of the food policy is to maintain a buffer stock of foodgrains so that price stability is not disturbed and to ensure the smooth and regular supply of foodgrains over the years. This buffer stock is in addition to the regular supply for public distribution. The responsibility of procurement, storage and distribution of foodgrains rests with the Food Corporation of India.

Employment:

Agriculture (including animal husbandry, fishery and forestry) provided employment to the largest chunk of India's labour force. The relevant data based on the census figures for 1971 and 1981 are given below:

	1971		1981	
Category	No. in million	Per cent to total	No. in million	Per cent to total
Cultivators	75.09	43	91.39	42
Agricultural labourers	47.05	27	55.37	25
Total (including others)	175.02	100	220.08	100

The share of agriculture in the total labour force of 220 million was more than 65 per cent in 1981.

Basic Facts (1982-83): Gross cropped area (1980-81): 173 million hectares; gross irrigated area: 58.54 million hectares; soil conservation on agricultural land: 26 million hectares; consumption of fertilisers: 6.42 million tonnes; foodgrains production (1981-82):

Crop production (triennial average) and growth rates

Crop	Unit	1949-50 to 1951-52	1978-79 to 1980-81	Annual growth Rate (per cent)*
Rice	Million tonnes	21.80	49.78	2.9
Jowar	,,	5.82	11.20	2.3
Bajra	,,	2.59	4.98	2.3
Maize	,,	1.95	6.20	4.1
Wheat	,,	6.34	34.60	6.0
Other cereals	,,	5.75	6.42	0.4
Total cereals	,,	44.25	113.18	3.3
Pulses	,,	8.33	10.64	0.8
Total foodgrains	,,	**52.58**	**123.82**	**3.0**
Cotton	Mill. bales (of 170 kgs. each)	3.02	7.63	3.4
Jute	Mill. bales (of 180 kgs. each)	3.71	6.35	2.0
Sugarcane	Mill. tonnes of cane	56.29	143.67	3.3
Oilseeds				
Groundnut	Mill. tonnes	3.37	5.66	1.8
Rape/mustard	,,	0.84	1.84	2.8
Sesamum	,,	0.45	0.43	−0.1
Major oilseeds (5 oilseeds)	,,	5.14	8.58	1.8

(*)—Growth rates are worked out on the basis of triennial averages of production for 1949-50 to 1951-52 and 1978-79 to 1980-81.

133 million tonnes; procurement of foodgrains (1982): 15.35 million tonnes; per capita daily availability of foodgrains (1982): 454.1 grams.

Growth Rates: In recent years, agricultural production has maintained a steady uptrend, partly due to favourable weather and due to technological factors like improved farm practices, extensive use of high-yielding seeds and increase in the consumption of fertilisers. There is little doubt that the production potential of Indian agriculture is now much higher than what it was in the sixties. Compared to just 60 million tonnes in 1952-53, the output of foodgrains in 1983-84 was estimated at 145 million tonnes.

This, however, is the aggregate picture. In respect of cereal crops like jowar, of pulses and cash crops like jute, cotton and oilseeds, the production trends have been unsatisfactory.

India's net national product is estimated at Rs 1,212,430 million in 1981-82 of which the share of agriculture and related sectors exceeded 40 per cent. This underscores the crucial role of the farm sector in Indian economy.

Per Capita Availability: The per capita availability of foodgrains is satisfactory from the overall point of view. But, given the abysmal poverty of the masses, it is doubtful whether they have the capacity to satisfy their biological demand for food in adequate measure. For this reason, the average picture would be grossly misleading. In any case, the per capita availability of pulses which is important from the nutritional point of view, is steadily declining. The data are given below for selected years.

Per Capita Net Availability of food grains

(Grams per day)

Year	Cereals	Pulses	Foodgrains
1956	360.5	70.4	430.9
1961	399.7	69.0	468.7
1965	418.6	61.6	480.2
1970	403.1	51.9	455.0
1975	366.1	39.7	405.8
1976	401.6	50.6	452.2
1977	388.5	43.3	431.8
1978	423.0	45.2	468.2
1979	429.6	44.9	474.5
1980	380.0	30.9	410.9
1981	416.6	37.0	453.6
1982	415.5	38.6	454.1

Crops under HYV Programme

(million hectares)

Year	Paddy	Wheat	Maize	Jowar	Bajra	Total
1970-71	5.59	6.48	0.46	0.80	2.05	15.38
1975-76	12.74	13.45	1.13	1.95	2.89	32.16
1976-77	13.73	14.69	1.20	2.65	2.21	34.48
1977-78	15.60	15.50	1.20	3.10	2.60	38.00
1978-79	16.90	16.10	2.10	3.10	2.90	41.00
1979-80	15.99	15.03	1.35	3.05	2.96	38.38
1980-81	18.20	16.10	1.60	3.60	3.50	43.00
1981-82	19.70	16.70	1.60	4.60	3.90	46.50
1982-83 (estimated)	18.70	18.10	1.70	4.00	4.80	47.30

Yield per Hectare: The major weakness of Indian agriculture is the extremely low level of productivity. Though the yield per hectare has tended to increase in recent years, it is less than the potential and what has been achieved in other countries. This is evident from the data for 1981 (in grams per hectare).

Rice: U.S.A.: 5,462; Egypt: 5,411; China: 4,637; U.S.S.R.: 3,785; Mexico: 3,583; India: 2,010.

Wheat: Mexico: 3,704; Egypt: 3,162; U.S.A.: 2,321; Canada: 2,005; Rumania: 2,748; India: 1,648.

Maize: U.S.A.: 6,898; Canada: 5,874; Yugoslavia: 4,308; Egypt: 3,782; U.S.S.R.: 2,257; India: 1,207.

Pulses: Egypt: 2,259; West Germany: 3,494; France: 3,021; Canada: 1,699; U.S.A.: 1,634; India: 491.

High-yielding Varieties Programme: The high-yielding varieties programme was launched in 1966-67 as part of the new agricultural strategy to boost the production of foodgrains. The programme covers five crops—paddy, wheat, maize, jowar and bajra. In respect of all these crops, the coverage has steadily increased in recent years. During 1982-83, this programme was undertaken in 47 million hectares as against 11.40 million hectares in 1969-70.

Prospects for 1982-83 and 1983-84:

According to advance estimates, the production of foodgrains during 1982-83 suffered a big setback because of the indifferent performance of the monsoon.

However, the prospects for a good agricultural year during 1983-84 are bright. According to current indications, the foodgrains production target of 142 million tonnes may be exceeded by around 3 million tonnes. Most of the targets of production of cash crops are also likely to be hit.

Exports of Agricultural Commodities

Exports of agricultural commodities are a major source of foreign exchange for the country and account, on an average, for about 40 per cent of the total export earnings. The value of exports of some of the agricultural products during 1982-83 are as follows (Rs. million): Jute manufactures 2,501; tea 3,733; oilcakes 1,394; cashew kernels 1,688; tobacco 2,278; coffee 1,325; sugar 403; spices 1,125; raw cotton 350; fish and fish preparations 2,744 and vegetable oils 233.

Index Numbers of Agricultural Production

(Base: Triennium ending 1969-70=100)

	Group / Commodity	1950-51	1960-61	1970-71	1978-79	1979-80	1980-81	1981-82

	All Commodities	58.5	86.7	111.5	137.8	117.1	134.9	142.6

Agricultural Production (1981-82): Thanks to favourable seasonal factors, the prduction of both food and cash crops showed a marked increase in 1981-82 as compared to 1980-81. According to official estimates, the output of rice, was more or less unchanged at 53.6 million tonnes but that of wheat rose from 36.3 million tonnes to 37.8 million tonnes, of coarse grains from 29.1 million tonnes to 30.3 million tonnes and pulses from 10.6 million tonnes to 11.4 million tonnes. The total foodgrains production increased from 129.6 million tonnes to 133.1 million tonnes.

Among the non-food crops, the outturn of oilseeds rose from 9.4 million tonnes in 1980-81 to 12.1 million tonnes in 1981-82, of sugarcane from 154.2 million tonnes to 183.6 million tonnes, of cotton from 7.0 million bales to 7.8 million bales and jute and mesta from 8.2 million bales to 8.4 million bales.

Reflecting this uptrend, the **index numbers of agricultural production** (triennium ending 1969-70 as base) spurted from 134.9 in 1980-81 to 142.6 in 1981-82; the index number of foodgrains production rose from 137.5 to 140.8 and that of non-food crops from 130.1 to 145.9.

The Task Force under the chairmanship of Secretary (Agriculture and Rural Development) carried out an indepth review of the export potential of agricultural products, keeping in view the domestic requirements and production possibilities of various farm commodities.

Food Consumption: The per capita consumption in India of all food items in terms of calories compares as follows: Canada: 3,346; U.S.A.: 3,537; U.K.: 3,305; Japan: 2,847; India: 1,949.

The increase in population by about 12 million persons per year in itself requires one million tonnes of additional grain. For an increase of the per capita intake of 100 calories per day the country would require an additional five million tonnes per year.

Fair Price Shops: The total population covered by fair price shops is estimated at 660 million, of which 500 million is in the rural areas. Of the 2.28 lakh fair price shops in the country, 2.20 lakhs were in the rural areas.

* Million bales of 170 kgs. each. @ Million bales of 180 kgs. each.

NOTE: Data relating to area and production are given only for those states where the crop is grown to an extent that is significant from the all-India point of view absence of figures for any state does not necessarily mean that the crop is not cultivated at all. The area and production of crops of such states are included in all-India total.

Foodgrain Loss: Six million tonnes of foodgrains valued at Rs. 10,000 million are lost every year because of non-scientific and old methods of storage.

Agricultural Credit: The co-operative structure comprising a network of primary co-operatives, the commercial banks with about 15,000 rural and special agricultural banks and regional rural banks has taken deep roots in the country. In order to bring about a better co-ordination in credit policies, National Bank for Agriculture and Rural Development has been set up which will function as the apex re-financing institution in the country. The break-up of sector-wise progress by co-operatives is given below:

(Rs. million)

Item	1982-83 Target	1982-83 Anticipated achievement	1983-84 Target
Short-term advances	21,000	19,000	22,500
Medium-term advances	2,000	2,000	2,250
Marketing of agricultural produce	23,000	23,000	25,000
Long term advances	4,850	4,400	5,250
Value of retail sale of fertilisers	13,000	12,000	14,000
Value of consumer goods to be distributed by urban consumer co-operatives	11,500	11,000	12,500
Value of consumer goods to be distributed in rural areas	13,000	10,500	13,000

In addition to co-operatives, commercial banks are also engaged in rural credit activity, offering both short and long-term advances.

With the coming into operation of the National Bank for Agriculture and Rural Development, considerable expansion in the flow of rural credit is expected to take place during 1983-84.

National Seeds Corporation Ltd., 4-E, Jhandewalan, New Delhi 110055 and the **Tarai Seeds Development Corporation,** Pantnagar, P.O. Haldi, Nainital (U.P.), were set up for the supply and production of foundation/certified seeds of the high yielding varieties.

Mechanised Farms: There are 14 Central and State mechanised farms in operation. They are located in Khamam (Andhra Pradesh); Kokilabut (Assam); Hissar (Haryana); Raichur (Karnataka); Aralam (Kerala); Lokichera and Lushiachera (Mizoram); Jharsuguda (Orissa); Lodhowal (Punjab); Suratgarh and Jetsar (Rajasthan); Chengam (Tamil Nadu); Bahraich and Rae Bareili (Uttar Pradesh).

The cultivated area of these farms is about 35,000 hectares. Apart from providing improved varieties of seeds they help local farmers with land development, levelling, reclamation and harvesting on a commercial basis.

Food Corporation: The Food Corporation of India was set up as a statutory body in January, 1965, to purchase and store foodgrains and later distribute them as required. (See chapter on "Government of India Undertakings".)

Canning Centres: Twenty-three community canning and preservation centres were under operation for popularising vegetable and fruit preservation. The units organise demonstrations, lectures and film shows on techniques of preservation and canning. 15 more were to be opened before the end of the Fifth Plan in 1979.

Community Canning and Preservation Centres in major cities are at 1.108, Magadi Chord Rd., Bangalore 560040; 2. Abhyudaya Nagar No. 1, G. D. Ambedkar Marg, Bombay 400033; 3. 107, B, BI 'F'

Note: **Figures within brackets indicate the percentage share of** area under HYV to total sown area.

New Alipore, Calcutta 700069; 4. 2-2-2-University Rd., Hyderabad 500007; 5. Food & Nutrition Board, Shastri Bhavan, 35, Haddows Rd., Madras 600006; 6. 35; Raj Park, New Delhi 110060; 7. D 26, C.C. Colony, New Delhi 110007.

Tractors: Although the precise figures are lacking, the number of tractors now in use is about 0.5 million. Of this, Punjab and Uttar Pradesh account for about 50 per cent. Indian tractor industry has made good progress in recent years. In 1961-62, the indigenous production numbered only 880; this rose to 20,099 in 1970-71 and further to 71,000 in 1980-81. The installed capacity of the tractor industry was 90,000 numbers in 1982-83 and the estimated output was 62,800. The targets of capacity and production for 1983-84 is 90,000 and 70,000 respectively.

Fertilisers: (See Chapter on "Fertiliser Industry").

Agricultural Education: Refer to chapter on Education.

Agricultural Research: The Indian Council of Agricultural Research is the apex organisation for sponsoring, coordinating and directing agricultural research and education in the country. The Council performs the triple functions of research, education and extension education through 34 central Research Institutes, the National Academy of Agricultural Research Management, five project Directorates and 21 Agricultural Universities located in the State sector.

Soil Conservation: All-India Soil and Land Use Survey Organisation, Pusa Rd., New Delhi 110012 carries out soil survey in selected river valley projects and priority watersheds for soil conservation works. Similar centrally sponsored schemes are also under operation in the catchment of major river valley projects.

Research Centres: Eight research-cum-training centres for soil conservation under the jurisdiction of Indian Council of Agricultural Research have been established at the following places:-

1. Ootacamund (Tamil Nadu) for erosion control in the Nilgiri and other hills; 2. Bellary (Mysore) for soil conservation studies in black soils; 3. Kotah (Rajasthan) with sub-centre at Agra for erosion control in the Chambal and Jumna ravines; 4. Dehra Dun (U.P.) for studying problems of afforestation in the Sivalik hills with the substation at Chandigarh for training *chos* (hill torrents); 5. Valsad (in the Gujarat tract) for erosion control in the ravines along rivers in Gujarat; 6. Chandigarh (outer Sivaliks); 7. Agra (Yamuna ravines); 8. Ibrahimpatnam (Andhra) for tackling red soil problems.

The centres train gazetted officers and assistants to man the soil and water conservation projects.

Minor Irrigation: Minor irrigation includes schemes relating to small storage tanks, river pumping projects, tube-wells, filter points, dug wells, small flood protection embankments and drainage schemes. The **Central Ground Water Board,** Jamnagar House, New Delhi 110011 is fully responsible for ground-water exploration in the country and most of the States have set up Ground Water Organisations for development of ground-water resources for agricultural purposes.

LAND REFORMS: Laws on ceiling on agricultural land based on national guidelines have been enacted in various States but the progress in their implementation has been rather tardy. Of the 4.2 million hectares declared surplus in different States so far, only about 2.8 million hectares have been taken possession of by the States and of this 2.0 million hectares have been actually distributed. Worse still, the pace of progress in developing the land so distributed is very poor.

In regard to consolidation of holdings, most of the States have enacted legislation. It is estimated that 45 million hectares accounting for 25 per cent of the total consolidable land has been consolidated so far. The record is not satisfactory.

Average size of Land Holdings: The average size of a farm was 2 hectares in 1976-77. The Statewise average size of holding (in hectares) is as follows: Andhra Pradesh 2.34; Assam 1.37; Bihar 1.11; Gujarat 3.71; Haryana 3.58; Himachal Pradesh 1.63; Jammu & Kashmir 1.07; Karnataka 2.93; Kerala 0.49; Madhya Pradesh 3.58; Maharashtra 3.66; Orissa 1.63; Punjab 2.74; Rajasthan 4.65; Tamil Nadu 1.25; Uttar Pradesh 1.05 and West Bengal 0.99.

The total number and area of operational holdings according to size are furnished in the following table:

Size class (hectares)	Number ('000)	Percentage	Area ('000 hectares)	Percentage
Below 0.5	30,080	36.9	7.016	4.3
0.5— 1.0	14,457	17.7	10,483	6.6
1.0— 2.0	14,710	18.0	20,870	12.8
2.0— 3.0	7,484	9.2	18,109	11.1

Note: In the case of a few states the data relate to years prior to 1978-79.

FORESTS

FORESTRY, as a national objective was launched countrywide with three aims in view: (1) ecological balance, (2) fuel, fodder and other domestic needs of the population and (3) needs of village, small and large-scale industries. Though Forests and Wild Life are subjects under the Concurrent List, the responsibility for management of forests rests directly with every State, the co-ordinating body being the Central Board of Forestry headed by the Union Minister, in charge of forests.

To check illegal and irresponsible felling of trees and diversion of forest land for non-forestry purposes, the Forest (Conservation) Act was enacted in 1980. The importance and priority given to the development of forestry in the Sixth Plan is reflected in the outlay of Rs 6,924.9 million which exceeds the total outlay of Rs. 4,832.2 million during the past 30 years of the Plan period.

Total forests: 75.06 mill. hectares. Percentage of forests to land in India is 22.8. Per capita forest area is 0.11 hectares as compared to world average of 1.08 hectares. An average of 3.6 million people are engaged in forestry activities.

Revenue from forests: Rs. 48.10 per hectare. Forest revenue as percentage of national revenue: 2.3.

By composition, coniferous forests constitute 4.76 million hectares, the broad-leaved species such as sal and teak aggregate 41.74 million hectares, while miscellaneous trees and bamboo forests account for 7.478 million hectares. The forests are owned by the State (95.8 per cent), by corporate bodies (2.6 per cent) and by private individuals (1.6 per cent).

The forests are unevenly distributed and the production is also proportionately low, being only 0.5 cu. m. per hectare per year as against the world average of 2.1 cu. m. per hectare. Forests are located mostly in hilly terrain or remote interior areas where communications are not properly developed. Madhya Pradesh has the maximum forest area and accounts for about 23 per cent of the country's total forest area. Other important wood-rich States are Andhra Pradesh, Assam, Himachal Pradesh, Karnataka, Maharashtra, Orissa, Rajasthan, Uttar Pradesh and Andaman and Nicobar Islands.

Classification: Forests in India can be broadly classified in the following major groups: (*i*) Tropical forest; (*ii*) Montane subtropical forest; (*iii*) Montane temperate forest and (*iv*) Alpine forest.

Each of these groups has a number of types which are in turn divided into sub-types. 16 broad climatic forest groups are recognised in this country. These are:

1. Tropical West Evergreen Forests—4.5 million hectares including semi-evergreen forests (Parts of Assam, West Bengal, Karnataka, Kerala and Andaman and Nicobar Islands).
2. Tropical Semi-Evergreen Forests—1.9 million hectares (Parts of Assam, West Bengal, Orissa and Andamans).
3. Tropical Moist Deciduous Forests—23.3 million hectares (Parts of Andamans, Uttar Pradesh, Madhya Pradesh, Maharashtra, Karnataka, Orissa, Tamil Nadu and Kerala).
4. Tropical Dry Deciduous Forests—29.15 million hectares (Almost all over India).
5. Littoral and Swamp Forests—0.6 million hectares (Deltas of big rivers).
6. Tropical Thorn Forests—5.2 million hectares (Parts of Punjab,

Haryana, Rajasthan, Uttar Gangetic Plains, the Deccan Plateau and Lower Peninsular India).

7. Tropical Dry Evergreen Forests—0.7 million hectares (Restricted to a small area of the East Coast in Tamil Nadu).
8. Sub-Tropical Dry Evergreen Forests—0.2 million hectares (Siwaliks and the Western Himalayas up to about 1,000 m.).
9. Sub-Tropical Broad-leaved Hill Forests—0.3 million hectares (Lower slopes of the Himalayas in W. Bengal and Assam and other hill ranges such as Khasi Hills, Nilgiris and Mahableshwar).
10. Sub-Tropical Pine Forests—3.7 million hectares (North-West Himalayas, between 1,000 m. to 1,800 m. and in Khasi, Manipur and Naga Hills).
11. Montane Wet Temperate Forests—1.6 million hectares ((Tamil Nadu and Kerala above 1,500 m. and in the Eastern Himalayas, viz., W. Bengal, Assam, Arunachal Pradesh from 1,800 m. to 3,000 m.).
12. Himalayan Moist Temperate Forests—2.7 million hectares including dry temperate forests. (Entire length of Himalayas between the pine and sub-alpine forests in Kashmir, Himachal Pradesh, Punjab, Uttar Pradesh and Sikkim between 1,500 m. to 3,300 m.).
13. Himalayan Dry Temperate Forests—0.2 million hectares (Inner ranges of the Himalayas where S-W monsoon is very feeble).
14. Sub-Alpine Forests
15. Moist Alpine Scrub
16. Dry Alpine Scrub.

Higher elevations over 3,000 m. on the Himalayas.

The treeless zone is the habitat of the Tibetan sheep, bharal, woolly hare with occasional appearance of snow leopard.

Over 16 per cent of the total forest area is inaccessible and 45 per cent of these could yield timber and other forest products.

Education and Research: Forest Research and education are centralised in the Forest Research Institute & Colleges located at Dehra Dun and its regional centres all over the country. The Institute is recognised by F.A.O. as a centre for training in forestry for the South-East Asia-Pacific region since 1951.

The Forest Research Institute & Colleges are under the administrative control of the Ministry of Agriculture (Deptt. of Agri. & Coopn.), Government of India. Its administrative head is designated the President. It has under its control seven Regional Forest Research Centres, one each at Bangalore, Jabalpur, Coimbatore, Ranchi, Hyderabad, Simla and Barnihat to deal with the special problems pertaining to the area. Forestry education is imparted through Indian Forest College, Dehra Dun, State Forest Service Colleges at Dehra Dun, Barnihat, Coimbatore, and Northern Forest Rangers College, Dehra Dun; Southern Forest Rangers College, Coimbatore, Eastern Forest Rangers College, Kurseong, Central Forest Rangers College, Chandrapur, Forest Rangers College, Balaghat. In addition there are five Rangers Colleges run by State Governments with the examinations and syllabus controlled by Forest Research Institute & Colleges, Dehra Dun.

The Institute has four directorates working under the President, viz. (1) The Directorate of Forest Education, training professional foresters for Indian Forest Service, State Forest Service and Rangers for Centre and States; (2) the Directorate of Forestry Research with twelve branches—the Silviculture branch, the logging branch, the forest genetics branch, the minor forest products branch, the forest physiology branch, the forest ecology branch, the forest soils branch, the forest economics branch, the forest influences branch, forest management and mensuration branch, Chemistry of forest Products branch and Radio Isotope branch; (3) the Directorate of Biological Research with five branches—the systematic botany branch, the forest pathology branch, the entomology branch, the wood anatomy branch and Disease and Insect Survey branch; (4) the directorate of Forest Products Research with seven branches—the wood seasoning branch, the composite wood branch, the cellulose and paper branch, the timber mechanics branch, the timber engineering branch, the wood preservation branch, and the wood working, saw milling and finishing branch.

Besides forestry training, the institute also imparts training in wood seasoning, wood preservation and pulp and paper technology and also imparts vocational training in forest based industries. It also provides research facilities for post-M.Sc.s and post-doctorate research on forestry subjects to university scholars. A new Wild Life Institute of India has also been formed. A National Forest Computer Centre has also been established in 1983. The Logging Training Central Project, established in 1965, has been reorganised and upgraded as Logging Development Institute with effect from Nov. 1982 to intensify other training activities.

To train Indian Forest Service personnel in modern business aspect of forest resource management, an Indian Institute of Forest Management has been established recently in Bhopal with the assistance of Swedish International Development Agency.

Forest Produce: The forest produce can be broadly divided into two groups:—

(i) Major forest produce—timber and firewood. The important varieties are teak (Tectona grandis), deodara (Cedrus deodara), sal (Shorea robusta), sissoo (Delbergia sissoo), chir (Pinus roxburghii) and Kail (Pinus wallichiana).

(ii) Minor forest produce—the commercially important items under this are bamboos, canes, gums, resins, dyes, tans, lac, fibres, floss and medicinal plant material.

Government is the largest timber producing agency in the country. Sale of timber is done mostly by auction and in standing form.

Teak is by far the most important species which occurs over an area of 8.9 million hectares. More than 50 per cent of total area under teak is in Madhya Pradesh. The next are the States of Maharashtra, Andhra Pradesh, Karnataka, Kerala and Gujarat.

Sal ranks next to teak in its utility and value. Sal forests cover an area of 11.6 million hectares and are distributed in Assam, Bihar, Madhya Pradesh, Orissa, Tripura, Uttar Pradesh and West Bengal.

Rosewood which is valued for its grain and colour, is mostly obtained from Kerala, Karnataka, Tamil Nadu, Andhra Pradesh and Maharashtra.

Cedrus deodara (Deodara) is by far the most important coniferous species highly valued as constructional timber.

Pinus roxburghii (Chir pine) ranks second best for constructional purposes and for resin. Abies pindrow (Fir) and Picea smithiana (Spruce) represent the valuable long fibre resource for pulp and paper industry.

The total production of wood is estimated at 20.311 million cu. m. of which 8.2 million cu. m. constitute industrial wood. Fuel wood production is 12.019 million cu. m. including wood for charcoal.

There are about 3,430 saw mill units. Their capacities range from 10 tonnes to 200 tonnes per day. There is an increasing tendency of opening departmental saw mills in various forest departments to obtain rational utilisation of forest produce. Some of the saw mills have introduced their own seasoning kilns.

Exports and Imports of Forest Products: The exports of total forest products (major and minor) went up to Rs. 906.9 million in 1976-77 from Rs. 621.5 million in 1975-76. On the other hand, imports during 1976-77 showed a decrease and stood at Rs. 745.2 million as against Rs. 802.7 million in 1975-76.

Forest Development Corporations: The corporations are functioning in 15 States and two Union Territories. These, apart from attracting institutional finance would promote marketing of timber and other forest produce, and also make available industrial and fuel wood. By 1978-79, 16 forest development corporations had been set up and were expected to achieve a target of 35,000 hectares of plantation and create employment for 13 million man-days during the year.

Preservation of Wild Life: Wild Life Protection Act, 1972 which governs the wild life conservation and protection of endangered species both inside and outside forest areas, has been extended to most of the States and Union Territories. From Sept. 1982, the subject 'Wild Life' was brought under the Department of Environment.

Trade in wild life and its products has been brought under the purview of the Act, and further restrictions have been imposed on the export trade of a number of animals, birds and their products. The export of rare and endangered species has been totally banned and a number of other products have been brought under quota system to regulate the export.

During 1978-79, a high-altitude National Park, known as 'Kanchanjunga National Park', was set up in Sikkim, and four sanctuaries of the Andaman and Nicobar Islands, three of Uttar Pradesh and one of Andhra Pradesh were declared as National Parks. On December 1, 1980 there were 202 sanctuaries, 47 zoological gardens and 19 national parks and States are being given financial assistance to manage them scientifically. The total area of national parks and sanctuaries at present is 75,763 sq. km., which works to about 10 per cent of the total forest area.

Project Tiger: The alarming decline in the number of tigers (which numbered 1,827 in 1972) led to the launching of the Project Tiger on 1st April, 1973, at the Corbett National Park (U.P.) to protect and perpetuate the tiger.

The Project with 11 (Tiger Reserves) project areas, covers a total area of 15,800 sq. kms. in 10 States. It is proposed to eliminate all the disturbing factors at least from a core area of 5,142 sq. kms. of 11 Project Tiger reserves. A census in 1979, showed 711 tigers in the project areas and 3,015 in the whole country.

Following National Development Council decision, the Scheme has been changed from Central Sector Scheme to Centrally Sponsored Scheme to be implemented on a 50:50 basis (cost sharing basis) by the Centre and the concerned States. For 1979-80 Rs. 6.35 million was provided for grants-in-aid to States.

For 1981-82 a sum of Rs. 14 million has been provided for the scheme in the budget. The scheme will be continued (at a cost of Rs. 100 million) in the Sixth Plan period. During 1982-83, the outlay on the Project is likely to be Rs. 20 million.

The World Wild Life Fund, under their 'Operation tiger', have promised one million dollars to Project Tiger (India).

The number of tigers in the Tiger Reserves have increased from 268 in 1972 in 9 Reserves to 757 in 1981 in 11 Reserves.

Wild Life Societies: The following are some of the important societies concerned with conservation in India: (1) Assam Valley Wild Life Society, Pratapgarh, TE, P.O. Sootea, Darang 784175, Assam; (2) The Bihar Natural History Society, Patna 800001; (3) Indian Board of Wild Life, Dept. of Agriculture, Krishi Bhavan, New Delhi 110001; (4) Gujarat Natural History Society, 57, Preetamnagar, Ellis Bridge, Ahmedabad 380001; (5) Peermade Wild Life Preservation Society, Stagbrook Estate, Peermade 685531, Kerala; (6) High Range Game Association, Munnar 685612, Kerala; (7) Bombay Natural History Society, Hornbill House, Shahid Bhagat Singh Road, Bombay 400001; (8) World Wild Life Fund Indian National Appeal, Hornbill House, Shahid Bhagat Singh Road, Bombay 400001; (9) Birdwatchers' Field Club of India, 32-A, Juhu Lane, Andheri, Bombay 400058; (10) Nilgiri Wildlife Association, Ootacamund 643001; (11) Wild Life preservation Society of India, 7, Ashley Hall, Dehra Dun 248001.

The World Wild Life Fund (India) has organised 492 Nature Clubs covering 14 States with over 10,000 members.

ANIMAL HUSBANDRY

ANIMAL husbandry occupies an important position in the economy of the country. India has about one-sixth of the world's cattle and one-half of world's buffalo population, numbering 179.4 and 61.7 million respectively (1977 census). The population of sheep, goats and poultry is 41 million, 75 million and 159 million respectively. The Government attaches great importance to livestock development programmes because this will enable the small and marginal farmers to augment their income through ancillary occupations, such as dairy, poultry, piggery, sheep etc. Consequently, considerable emphasis is being laid to bring the results of science and technology to the door-step of the farmer for improving their economy through animal husbandry.

Livestock development programmes have received increasing importance in agricultural development programmes in successive Five-Year Plans. As against a Plan Outlay of Rs. 141.9 million during the first Five-Year Plan, the Sixth Plan allocation in this sector is Rs. 604.6 million. The main strategies adopted for livestock development during the Sixth Plan are:

(i) Genetic improvement of nationally important cattle breeds by selective breeding in their home tracts and upgrading in other selected areas; (ii) Cross breeding of non-descript cattle on an extensive scale with recognised exotic dairy breeds, to develop adapted cross-breds, preferably by using frozen semen technology on a large scale; (iii) Progressive genetic improvement of important buffalo breeds in their home tracts by selective breeding and upgrading of non-descript buffaloes in other areas of improvement in milk yields; (iv) Development of feed and fodder resources in order to provide adequate nutrition to livestock; (v) Rapid development of quality poultry breeding stock within the country to boost production of eggs and poultry meat and to establish adequate marketing infrastructure; (vi) Large scale cross-breeding programme of indigenous sheep for improvement of its genetic make up in terms of production of wool and meat; (vii) Organisation of effective animal health services to support the production programme and prevention and control of prevalent livestock diseases; and (viii) Improvement of data base in respect of livestock products for planning and policy purposes.

Cattle and Buffalo Development: There has been a rapid increase in the number of highly productive cross-bred cattle and improved buffaloes in the country. Significant strides have been made in the use of frozen semen technology which ensures optimum use of available semen from bulls of high genetic merit as well as its preservation for future use. The number of artificial inseminations is expected to be about 7.0 million exceeding the target of 6.5 million during 1982-83. By the end of the Sixth Plan the targeted milk production is 38 million tonnes against base level figure of 30.20 million tonnes (1979-80) which implies an annual growth rate of 4.8 per cent. The anticipated milk production for the year 1982-83 is 34.6 million tonnes.

Nearly one-fifth of available breedable cattle/buffaloes are presently covered under 130 Intensive Cattle Development Projects and 550 Key Village Blocks in various States/Union Territories. In addition, there are a number of Central sector projects for livestock improvement operating in the different States. Some of the important ones are Central Cattle Breeding Farms, Herd Registration Scheme, Progeny Testing Programme in cattle breeding farms and in the field, Central Frozen Semen Production and Training Institute, Cross breeding of cattle and improvement of buffaloes using frozen semen technique outside Operation Flood areas and assistance to gaushalas for producing good quality indigenous and cross-bred heifers.

Progeny testing scheme for systematic production of progeny tested bulls is functioning in Punjab, Kerala and Assam where breeding efficiency of Holstein Friesian, Brown Swiss and Jersey cross-bred bulls is being evaluated under field conditions. Test Insemination Programme of the sixth batch of cross-bred bulls having Brown Swiss inheritance is in progress in Kerala. Milk recording programme of the progeny of first batch of bulls has been started in the State. Test Insemination Programmes of first batch Holstein Friesian and Jersey cross-bred bulls is expected to be completed in Punjab and Assam. Selection and inclusion of second batch of bulls in Test Insemination Programme is also in progress in these States.

In order to boost the milk production programme by improving cattle and buffalo breeds, a Centrally-sponsored scheme for cross breeding of cattle and improvement of buffaloes using frozen semen technique (outside Operation Flood areas) has been sanctioned for implementation in States of U.P., M.P., Orissa, Andhra Pradesh, Tamil Nadu, Kerala, Maharashtra, Gujarat and Bihar. The programme will cover about four lakh breedable female population in each State when fully implemented.

Programmes for introducing latest technological advances in the field of cattle development are being implemented by the Government of India in collaboration with the Government of Switzerland in Kerala and Andhra Pradesh and in collaboration with Government of Australia in Haryana. As a result of the Indo-Swiss collaboration programme, a new high yielding breed of cattle namely "Sunandini" has been developed in Kerala State which has become extremely popular in Kerala and the adjoining areas.

Central Frozen Semen Production and Training Institute at Hessarghata, Bangalore, is being strengthened and expanded in order to produce high quality frozen semen doses as well as to train officers/staff in frozen semen technology. Up to November 1982 (1982-83) financial year 0.28 million of frozen semen doses and 0.098 million of chilled semen doses were produced and 26 veterinarians trained. The number of frozen semen doses is expected to exceed 0.4 million by the end of the year.

With a view to exploiting the resources available with Gaushalas, a Centrally-sponsored Scheme for assistance for production of high quality indigenous cross-bred heifers has been introduced. An allocation of Rs. 49.7 million has been made in the Sixth Plan for the scheme. The State Government will share 50 per cent of the cost of the programme.

In order to locate the superior germ plasm in the cattle farms as also breeding tracts, a Centrally-administered Herd Registration Scheme is functioning at four Centres: Rohtak (Haryana), Ahmedabad (Gujarat), Ongole (Andhra) and Ajmer (Rajasthan).

Poultry: There are only 26 chickens per 100 persons in India as against 540 in Denmark and 373 in Canada. The population of poultry was 159 million according to 1977 livestock census. The annual laying capacity of an Indian hen is about 60 small eggs in a year as against 180 large eggs of the American (exotic) breeds like White Leghorn.

Poultry production has made rapid strides in the last decade. The annual egg production increased from 2,500 million eggs in 1971 to about 13,000 million eggs in 1981-82. The production of broilers has touched a level of 35 million in 1981-82 compared to just 4 million in 1971. However, the per capita availability is very low when reviewed against world standards.

The Central Poultry Breeding Farms at Bombay, Bhubaneswar, Hessarghata (Bangalore) and Chandigarh are engaged in scientific breeding programme for supplying parent stock and hybrid chicks.

The Central Training Institute for Poultry Production and Management, Hessarghata, has expanded its programmes for inservice training of personnel of public and private sectors in specialised poultry fields.

The three Random Sample Test Units in Hessarghata, Bombay and Bhubaneswar conduct egg laying and broiler tests with a view to providing useful information to poultry farmers, hatcheries and breeding organisations on performance of various commercial layer and broiler stocks available in the country. Another Test Unit is being established near Gurgaon (Haryana).

The newly-established Central Duck Breeding Farm at Hessarghata, the only one of its kind in the country, has become fully operational and commenced production and supply of high egg producing Khaki Camphell breed ducklings. The farm is in a position to meet the full requirements of good quality ducklings for various duck development programmes in the country.

The feed Analytical Laboratory at Hessarghata is expected to analyse around 800 feed samples being received from public and private organisations during 1982-83. Of the other three newly sanctioned Regional Feed Analytical Laboratories, the Chandigarh laboratory has started functioning and the Bombay and Bhubaneswar laboratories are expected to start analytical work from 1983-84.

Sheep Development: Sheep development programmes aim at improving the quality and quantity of wool through cross-breeding with high-yielding exotic breeds. According to 1977 census there were 40.5 million sheep producing about 33 million kg. of raw wool, mostly of the carpet type. The country has imported over 14,000 Merino sheep from U.S.S.R. since 1971. During 1982, 58 Australian Merino Rams were imported by Gujarat which has the credit of evolving a fine wool producing strain of sheep through crossing of Patanwadi breed with Russian Merino.

The Central Sheep Breeding Farm, Hissar was set up in April 1969 to produce and supply pure Corriedale and cross-bred rams to various States for sheep development programmes and impart training to sheep development officers. During the ten years ending November 1982, 4,099 Corriedale and cross-bred rams have been supplied to States for upgrading local sheep.

Piggery Development: There are 77 State Pig Breeding Farms where pure exotic breeds of pigs as well as their crosses are being maintained. During the current year, it is proposed to augment the gene pool through import of about 250 exotic pigs for various State Farms. The eight regional bacon factories operating in the States of Andhra Pradesh, Bihar, Punjab, Uttar Pradesh, West Bengal, Kerala, Maharashtra, and Rajasthan are supplying quality pork and pork products to consumers.

Meat Production: The country produces around one million tonnes of meat from various livestock (cattle, buffaloes, pigs, sheep, goats etc). Significant progress has been made in recent years in the production of wholesome meat in the country. Slaughter houses have been modernised at Bombay, Goa and Durgapur and modern slaughter houses are also expected to come up soon in Madras Calcutta, Bangalore, Delhi and Hyderabad.

Livestock Health: With a view to minimising production losses du to disease and pests, efforts have been made to develop an efficient health cover infrastructure in the country. During 1982-83, abou 300 veterinary hospitals and dispensaries were set up bringing the total of such institutions to 13,600 by the end of the year. Abou 500 stockment centres/veterinary aid centres were also added in the current year bringing their total to 16,000.

During 1982-83, about 370 million doses of vaccines an diagnostic reagents were produced at 16 State Veterinary Biological Production Centres. With a view to ensuring supply of paten vaccines, antigens, etc. it is proposed to set up a Nationa Veterinary Biological Products Quality Control Institute. An Animal Disease Surveillance Cell at the Centre and Epidemiological Units in all States and Union Territories were being set up These agencies will collect, collate and disseminate information o prevalence of animal disease and forewarn the concerned areas Projects were also started for combating three cattle diseases c national importance viz. Tuberculosis, Brucellosis and contagiou Bovine pleuro pnemonia.

Feed and Fodder: Programmes for the introduction of high-yielding varieties and improved fodder production technology continued at the seven Regional Stations for Forage Production and Demonstration located at Hissar (Haryana), Kalyani (West Bengal), Suratgarh (Rajasthan), Gandhinagar (Gujarat), Alamadi (Tamil Nadu), Sechrenal (Jammu & Kashmir) and Hyderabad (Andhra Pradesh). These stations conducted over 5,000 demonstrations in the farmers' fields.

Over 2,900 quintals of seed were produced by these stations as against 2,000 quintals last year. Production of pasture legume seeds viz. stylosanthese species as well as sirato (Macrooptilium atropurpurem) was intensified and the State Forest Departments assisted in the multiplication of these seeds.

To popularise high-yielding varieties, a Central Project on Fodder Minikit Demonstration has been undertaken. Over 19,050 minikit demonstrations were organised in the farmers' fields during the *kharif* and *rabi* seasons. As this programme has become extremely popular, it has been extended to 22 States and Union Territories.

Equine Development: An Equine Development Board has been set up to advise Government on matters relating to equine development, registration of equine breeding studs and import of equine development activities in the country.

Out of the 123 stud farms which applied for registration, 86 were finally registered. Import of horses is allowed by the registered farms only.

Production of Various Crops, Livestock Products and Fish

DAIRY INDUSTRY

(See chapter on Animal Husbandry for details on cattle and buffalo breeding programmes)

As the Maharashtra Government milk distribution scheme in Bombay in 1947 got under way and the first large-scale pasteurisation and bottling dairy at the Aarey milk colony went into operation in 1950, India made a beginning towards systematic distribution of processed and bottled milk. Since then Government dairies have been set up in the capitals of all States and Union territories. The National Dairy Development Board and The Indian Dairy Corporation have given an impetus to the dairy industry.

Milk and milk products contribute about Rs. 8,993 million to the national income. Of the estimated 245 million cattle and buffaloes, only 89 million (36 per cent) are milch animals. Besides, the milk yield is 157 kgs. a year in the case of a cow and 504 kgs. a year in the case of buffalo. The highest average daily milk production per animal in milk, both for cows and buffaloes, is in Punjab which is only 2.28 kgs. and 3.99 kgs. per day respectively. The average annual milk production per cow is 4,154 kgs. in U.S.A., 3,959 kgs. in U.K. and 3,902 kgs. in Denmark.

India now ranks fourth in the world in the matter of milk production with about 33 million tonnes (1981-82). Nearly 60 per cent is marketed and the balance is used for home consumption.

Per Capita Consumption: The per capita consumption of milk and milk products varies from State to State.

The per capita availability of milk (1981-82) was estimated at around 131 gms. per head.

Dairy Plants: The total number of dairy plants in operation during 1981 was estimated to be 217 comprising 103 plants handling liquid milk, 39 milk product factories and 75 pilot milk schemes/rural dairy centres with an average throughput of some 7.25 million litres per day. The capacity utilisation has been estimated at 66.33 per cent. Recently there has been a spurt in milk production particularly in Maharashtra, Rajasthan, Andhra Pradesh, Madhya Pradesh, Tamil Nadu, Karnataka and Gujarat due to the Operation Flood Programme, which aims at restructuring the milk production, procurement, processing and marketing infrastructure in the country.

The **Operation Flood 1,** was launched on July 1, 1970, and completed by March 31, 1981. Already 2.6 million rural milk producers and their families benefit from it. Action centres in 18 rural milk sheds in ten States subsequently extended to cover nine more milksheds (bringing their total to 27) had been created, where the infrastructure for the procurement of rurally produced milk, its processing—its marketing in the four major urban milk markets—has been developed, with facilities for marketing the inputs needed for increased milk production to the milk producers. The two-tier cooperative organisations of the milk producers thus created in these rural action centres, own and operate feeder-balancing dairies (total capacity, 6.0 million litres per day), cattle field compounding plants (total daily capacity, 2,355 mt.), the animal health care facilities (309 mobile and 117 emergency veterinary units), the artificial insemination (6,026 A1 sub-centres located in villages) and the extension services are linked to a modern milk transportation system. Simultaneously milk processing and distribution by the modern dairies in the four major cities is being expanded.

Under **Operation Flood II,** in addition to the four major milk markets, modern milk marketing will now be organised in the other 144 cities in the country which had a population of over 100,000 in 1971. It is estimated that in these cities 52.9 million people, on an average, consume 7.8 million litres of milk per day and the equivalent to 2.0 million litres of milk daily in the form of milk products. The demand for milk in these cities is expected to increase to 11.2 million litres per day while that for milk products to 2.8 million litres (milk equivalent) per day by 1985, when the urban population involved will have increased to 65.1 million.

Most of the milk districts identified by the National Commission on Agriculture lie within 25 contiguous milkshed areas of potentially high and economic milk production. Under Operation Flood II, within each of these 25 milkshed areas (155 districts), a Cluster, Federation will be established of Milk Producers' Union; each Union usually will be comprised of 200-600 villiage cooperative societies. Thus, in all the 25 clusters to be formed (4 districts will have indepen-

FISHERIES

THE Arabian Sea and the Indian Ocean abound in vast untapped fisheries resources. Marine fishery can be broadly classified under three heads: Traditional non-mechanised fishing, coastal mechanised fishing and deep-sea fishing. Traditional non-mechanised fishing is carried out by the fishing community, mostly dealing in fresh water fish culture and accounts for 60 per cent of the current total marine catch. Deep-sea fishing is a recent development, started in the 60s of the present century, with Government backing. Trawlers and other deep-sea fishing vessels have been made available, meteorological guidance provided, bank loans given and processing and packaging facilities placed within easy reach for those needing them. Large units are encouraged to enter deep-sea fishing (beyond the 40 fathoms limit) not only to earn valuable foreign exchange but to exploit the hitherto untapped resources which, on a rough estimate, can yield 11 to 14 million tonnes against the present meagre catch of 2 million tonnes. Deep-sea fishing is considered today a major industry opening out a vast potential.

Extent of Resources: India has a long coast line of 7,517 kms. and an exclusive economic zone of 2.013 million sq. kms. which offer large stocks of the sardine group, the mackerel, the tuna and other scombroids, catfishes, the group of sharks and rays, Bombay duck, ribbonfishes, prawns, squids and cuttle-fishes, the pomfrets, solefish, the carangids, the perches, polynemids, sciaenids etc.

The country has an inland culturable water area of about 1.5 million hectares to raise indigenous and exotic carps, air-breathing fishes, hilsa, trouts etc. It also has a brackish water spread of about 1.42 million hectares, a portion of which could be brought under culture for raising prawns, mullet, milk fish, pearl spot etc. There are also good possibilities of producing shell-fishes, fin-fishes and algae through mariculture in the coastal belt.

India occupies eighth place in fisheries production in the world. Marine fisheries account for about 60 per cent of total production with 40 per cent contributed by inland fisheries. The present **per capita consumption** of fish is only 4.0 kg. a year against the desired consumption level of 31 kg. as recommended by the nutrition advisory committee on human nutrition.

An eight-fold increase in fish production is considered necessary to meet adequately the increasing demand for fish in the country.

Growth since Independence: From an estimated figure of 0.7 million tonnes in 1947 the catch increased to 2.42 million tonnes in 1981 of which 1.44 million tonnes were marine fish.

Development Programmes: At the end of 1980-81 there were about 16,462 mechanised fishing boats in operation as against only 13 at the commencement of the First Plan. Trawling deserve special mention, a method of fishing, which was practically unknown at the time of Independence, is now most popular.

The Government's policy towards deep-sea fishing industry is to encourage Indian entrepreneurs to introduce as many deep-sea fishing vessels as possible in the shortest possible time in order to optimally utilise the available fishing resources in the 200 miles Exclusive Economic Zone (EEZ). The present strength of owned commercial fishing fleet of 20 m. and above length is 68. In addition, at present, 55 fishing vessels are also operating under charter arrangement. In the Sixth Five Year Plan a target raising the number of deep-sea fishing vessels to 350 is envisaged.

Inland Fisheries: Under the Programme of Development of Aquaculture, 50 Fish Farmers Development Agencies (FFDAs) are functioning in the country, with the main objective of intensifying fish farming activity in tanks/ponds. The National Council of Applied Economic Research (NCAER) in their report on evaluation of FFDAs have reported that the impact of the FFDAs has been such that the fish farming activity has spread among the rural population as full time vocation offering them rich employment potential.

An Inland Fisheries Project with World Bank assistance has been taken up for implementation in 58 selected districts of West Bengal, Bihar, Orissa, M.P. and U.P. at a total cost of Rs. 379 million. The IDA's assistance will be to the tune of U.S. $20 million.

The project aims at development of intensive fish farming in 117,000 water area comprising tanks and ponds, establishment of 27 commercial fish seed hatcheries, designed to produce about 457 million quality fish seed per annum on full development. Fisheries Extension Training Centres are also being set up for training the extension staff of the FFDAs. The project is likely to generate an additional fish production of about 0.2 million tonnes per annum, offer full time job opportunities to more than 50,000 fish farmers with sustained income to support their family.

Production (1981-82)

Fish production during 1982-83 was expected to be 2.68 million tonnes, 1.65 million tonnes from marine sources and 1.02 million tonnes from inland sources

Job Opportunities: The marine and inland fisheries development programmes are labour intensive. It is estimated that the fisheries development programmes would generate additional employment of the order of about 0.5 million persons per year. The construction of fishing harbours at major and minor ports, which is an ongoing programme, likely to generate employment opportunities to more than 0.13 million persons.

Research: A multi-pronged research and technological effort is under way to double the present annual fish catch in the next few years.

The research activities are being carried on by the Central Marine Fisheries Research Institute and the Central Institute of Fisheries Technology, both located at Cochin and the Central Inland Fisheries Research Institute at Barrackpore. These institutes have their subordinate establishments also. The National Institute of Oceanography, the Central Institute of Fisheries Education, the Zoological Survey of India, some of the agricultural universities and conventional universities and some fisheries departments of the State Governments also carry out research in different disciplines of fishery science.

Exports: The exports of marine products during 1977-78 which was valued at Rs.1,810 million rose to Rs. 2,860 million in 1981-82. The quantity exported was 70,105 tonnes (1981-82).

For augmenting the exports of sea foods, the Government of India has set up a Marine Products Export Development Authority at Ernakulam, Cochin 682016.

Main Buyers: These exports are directed to the sophisticated markets of Japan, America, Europe and Australia.

Imports: There were no imports of fish during the years 1981 and 1982.

Sixth Plan: In the Plan for 1980-85 the principal objectives would be: (i) to step up the fish production, (ii) to organise the inland fish production based on individual family basis and on high labour, low-investment technology so as to improve the socio-economic conditions, (iii) to organise intensive marine fishing survey and promote exploitation, distributed equitably among the different sectors and (iv) to improve and diversify the processing and marketing facilities. A target of 3.5 million tonnes of fish production for this five-year period has been envisaged. The target of fish production in 1981-82 was 2,650 million tonnes. The outlay for 1982-83 for Central, Centrally sponsored and State schemes is about Rs. 678 million.

Fishing Harbours: Besides limited facilities for landing and berthing of fishing vessels already available at about 80 centres, medium size fishing harbours have been completed at 5 sites, and work on large size fishing harbours is in progress at Cochin, Madras, Bombay and Calcutta. First stage harbour works at Visakhapatnam have been completed in all respects and harbour has been commissioned. Cochin harbour has also been commissioned while the finishing works are in progress. Construction of medium size fishing harbours are also in progress at Malpe, Honnaver, Ratnagiri, Porbunder, Bhavanapadu, Mangalore, Chinnamuttam, Vollinokam and Digha.

With the World Bank assistance, construction of integrated marine fisheries projects including fishing harbour has also been taken up at Veraval and Mangrol in Gujarat and at Visakhapatnam Stage-II, Kakinada and Nizampatnam in Andhra Pradesh.

EDUCATION

THE number of universities in India rose from 47 in 1960 to 118 (108 universities and 10 institutions deemed to be universities) as in 1979. The number of colleges increased from 1,542 in 1960-61 to 4,460 in 1978-79 excluding pre-university, Intermediate and Junior Colleges.

The average growth rate of enrolment during the decade 1970-71 to 1979-80 was 4 per cent per annum. The growth rate which increased to 5.5 per cent in 1977-78 again came down to 1.2 per cent in 1979-80. During 1979-80 the total enrolment in the University education was 2.65 million against 2.62 million in the preceding year 1978-79.

The enrolment in Arts faculty decreased significantly while in all other faculties the enrolment growth has shown upward trend.

Table below shows growth rate of enrolment in various faculties:

Faculty	1978-79	1979-80	Growth rate in percentage
Arts	1.11	1.08	2.8
Science	0.49	0.51	3.4
Commerce	0.49	0.52	4.6
Engineering	0.11	0.12	6.2
Medicine	0.111	0.112	0.5
Agriculture	0.0039	0.004	2.4
Veterinary Science	0.0007	0.0007	7
Law	0.17	.0.18	6.3

The University Grants Commission (UGC) in its survey revealed that 1,678 colleges (57 per cent) of the 2,923 affiliated colleges in the country have less than 500 students each and 520 colleges have students between 100 and 200. The percentage of students going in for higher education in all States is about 3 per cent.

Number of Illiterates in 1981 was 446 million as against 386 million in 1971. However, the percentage of literacy according to 1981 census rose to 36.17 per cent from 29.45 per cent in 1971. Adult illiterates were estimated to be about 100 million by 1977. Sixty-five million adults are to be covered under the adult education programme during the VI Plan (1978-83). The target for the year (1979-80) was about 4.5 million. A provision of Rs. 2,000 million has been made for Adult Education Programme in the Plan 1978-83 which represents nearly 10 per cent of the total plan provision for education. (See Chapter on Population.)

Adult Education: This programme is being implemented through various agencies such as State Governments/Union Territories, Voluntary Agencies, Universities, Colleges, Nehru Yuvak Kendras, etc. About 91,510 centres were functioning in the country as on April 1, 1980.

Some 632 voluntary agencies have been approved so far for financial assistance for running 29,000 centres in 17 States and five Union Territories.

68 Universities and 706 colleges were sanctioned funds by the University Grants Commission for running 8,890 adult education centres. Most of them are conducting surveys and organising discussions to determine the manner of their involvement and the size of the programme to be undertaken by them. Grants amounting to Rs. 3 million were sanctioned to these universities upto Oct. 30, 1980.

Type of Institutions (1979-80): Primary/Junior basic schools: 478,249; Middle/Senior basic schools: 114,720; High/Higher Secondary Schools: 46,043; Multipurpose Schools: N. A.; Training Schools: 859; Training Colleges: 501; Arts, Science (including research institutions) and Commerce Colleges: 3,336; Number of Universities: 108.

Teachers: Primary schools: 1,311,931; Middle Schools: 835,292; High/Higher secondary schools: 859,359; Universities, Arts and Science Colleges: N. A.; Percentage of trained teachers in the Primary and Middle Schools respectively was 86.8 and 88.9

Free Education: Education in classes I-V is free in Government schools and in schools run by local bodies. It is also free in classes VI-VIII in all States except for boys in Orissa and Uttar Pradesh

FISHERIES

THE Arabian Sea and the Indian Ocean abound in vast untapped fisheries resources. Marine fishery can be broadly classified under three heads: Traditional non-mechanised fishing, coastal mechanised fishing and deep-sea fishing. Traditional non-mechanised fishing is carried out by the fishing community, mostly dealing in fresh water fish culture and accounts for 60 per cent of the current total marine catch. Deep-sea fishing is a recent development, started in the 60s of the present century, with Government backing. Trawlers and other deep-sea fishing vessels have been made available, meteorological guidance provided, bank loans given and processing and packaging facilities placed within easy reach for those needing them. Large units are encouraged to enter deep-sea fishing (beyond the 40 fathoms limit) not only to earn valuable foreign exchange but to exploit the hitherto untapped resources which, on a rough estimate, can yield 11 to 14 million tonnes against the present meagre catch of 2 million tonnes. Deep-sea fishing is considered today a major industry opening out a vast potential.

Extent of Resources: India has a long coast line of 7,517 kms. and an exclusive economic zone of 2.013 million sq. kms. which offer large stocks of the sardine group, the mackerel, the tuna and other scombroids, catfishes, the group of sharks and rays, Bombay duck, ribbonfishes, prawns, squids and cuttle-fishes, the pomfrets, solefish, the carangids, the perches, polynemids, sciaenids etc.

The country has an inland culturable water area of about 1.5 million hectares to raise indigenous and exotic carps, air-breathing fishes, hilsa, trouts etc. It also has a brackish water spread of about 1.42 million hectares, a portion of which could be brought under culture for raising prawns, mullet, milk fish, pearl spot etc. There are also good possibilities of producing shell-fishes, fin-fishes and algae through mariculture in the coastal belt.

India occupies eighth place in fisheries production in the world. Marine fisheries account for about 60 per cent of total production with 40 per cent contributed by inland fisheries. The present **per capita consumption** of fish is only 4.0 kg. a year against the desired consumption level of 31 kg. as recommended by the nutrition advisory committee on human nutrition.

An eight-fold increase in fish production is considered necessary to meet adequately the increasing demand for fish in the country.

Growth since Independence: From an estimated figure of 0.7 million tonnes in 1947 the catch increased to 2.42 million tonnes in 1981 of which 1.44 million tonnes were marine fish.

Development Programmes: At the end of 1980-81 there were about 16,462 mechanised fishing boats in operation as against only 13 at the commencement of the First Plan. Trawling deserve special mention, a method of fishing, which was practically unknown at the time of Independence, is now most popular.

The Government's policy towards deep-sea fishing industry is to encourage Indian entrepreneurs to introduce as many deep-sea fishing vessels as possible in the shortest possible time in order to optimally utilise the available fishing resources in the 200 miles Exclusive Economic Zone (EEZ). The present strength of owned commercial fishing fleet of 20 m. and above length is 68. In addition, at present, 55 fishing vessels are also operating under charter arrangement. In the Sixth Five Year Plan a target raising the number of deep-sea fishing vessels to 350 is envisaged.

Inland Fisheries: Under the Programme of Development of Aquaculture, 50 Fish Farmers Development Agencies (FFDAs) are functioning in the country, with the main objective of intensifying fish farming activity in tanks/ponds. The National Council of Applied Economic Research (NCAER) in their report on evaluation of FFDAs have reported that the impact of the FFDAs has been such that the fish farming activity has spread among the rural population as full time vocation offering them rich employment potential.

An Inland Fisheries Project with World Bank assistance has been taken up for implementation in 58 selected districts of West Bengal, Bihar, Orissa, M.P. and U.P. at a total cost of Rs. 379 million. The IDA's assistance will be to the tune of U.S. $20 million.

TOTAL ALL INDIA	1.441.171	982.769	2.423.940

Fish production during 1982-83 was expected to be 2.68 million tonnes, 1.65 million tonnes from marine sources and 1.02 million tonnes from inland sources.

Job Opportunities: The marine and inland fisheries development programmes are labour intensive. It is estimated that the fisheries development programmes would generate additional employment of the order of about 0.5 million persons per year. The construction of fishing harbours at major and minor ports, which is an ongoing programme, likely to generate employment opportunities to more than 0.13 million persons.

Research: A multi-pronged research and technological effort is under way to double the present annual fish catch in the next few years.

The research activities are being carried on by the Central Marine Fisheries Research Institute and the Central Institute of Fisheries Technology, both located at Cochin and the Central Inland Fisheries Research Institute at Barrackpore. These institutes have their subordinate establishments also. The National Institute of Oceanography, the Central Institute of Fisheries Education, the Zoological Survey of India, some of the agricultural universities and conventional universities and some fisheries departments of the State Governments also carry out research in different disciplines of fishery science.

Exports: The exports of marine products during 1977-78 which was valued at Rs.1,810 million rose to Rs. 2,860 million in 1981-82. The quantity exported was 70,105 tonnes (1981-82).

For augmenting the exports of sea foods, the Government of India has set up a Marine Products Export Development Authority at Ernakulam, Cochin 682016.

Main Buyers: These exports are directed to the sophisticated markets of Japan, America, Europe and Australia.

Imports: There were no imports of fish during the years 1981 and 1982.

Sixth Plan: In the Plan for 1980-85 the principal objectives would be: (i) to step up the fish production, (ii) to organise the inland fish production based on individual family basis and on high labour, low-investment technology so as to improve the socio-economic conditions, (iii) to organise intensive marine fishing survey and promote exploitation, distributed equitably among the different sectors and (iv) to improve and diversify the processing and marketing facilities. A target of 3.5 million tonnes of fish production for this five-year period has been envisaged. The target of fish production in 1981-82 was 2,650 million tonnes. The outlay for 1982-83 for Central, Centrally sponsored and State schemes is about Rs. 678 million.

Fishing Harbours: Besides limited facilities for landing and berthing of fishing vessels already available at about 80 centres, medium size fishing harbours have been completed at 5 sites, and work on large size fishing harbours is in progress at Cochin, Madras, Bombay and Calcutta. First stage harbour works at Visakhapatnam have been completed in all respects and harbour has been commissioned. Cochin harbour has also been commissioned while the finishing works are in progress. Construction of medium size fishing harbours are also in progress at Malpe, Honnaver, Ratnagiri, Porbunder, Bhavanapadu, Mangalore, Chinnamuttam, Vollinokam and Digha.

With the World Bank assistance, construction of integrated marine fisheries projects including fishing harbour has also been taken up at Veraval and Mangrol in Gujarat and at Visakhapatnam Stage-II, Kakinada and Nizampatnam in Andhra Pradesh.

EDUCATION

THE number of universities in India rose from 47 in 1960 to 118 (108 universities and 10 institutions deemed to be universities) as in 1979. The number of colleges increased from 1,542 in 1960-61 to 4,460 in 1978-79 excluding pre-university, Intermediate and Junior Colleges.

The average growth rate of enrolment during the decade 1970-71 to 1979-80 was 4 per cent per annum. The growth rate which increased to 5.5 per cent in 1977-78 again came down to 1.2 per cent in 1979-80. During 1979-80 the total enrolment in the University education was 2.65 million against 2.62 million in the preceding year 1978-79.

The enrolment in Arts faculty decreased significantly while in all other faculties the enrolment growth has shown upward trend.

Table below shows growth rate of enrolment in various faculties:

Faculty	1978-79	1979-80	Growth rate in percentage
Arts	1.11	1.08	2.8
Science	0.49	0.51	3.4
Commerce	0.49	0.52	4.6
Engineering	0.11	0.12	6.2
Medicine	0.111	0.112	0.5
Agriculture	0.0039	0.004	2.4
Veterinary Science	0.0007	0.0007	7
Law	0.17	0.18	6.3

The University Grants Commission (UGC) in its survey revealed that 1,678 colleges (57 per cent) of the 2,923 affiliated colleges in the country have less than 500 students each and 520 colleges have students between 100 and 200. The percentage of students going in for higher education in all States is about 3 per cent.

Number of Illiterates in 1981 was 446 million as against 386 million in 1971. However, the percentage of literacy according to 1981 census rose to 36.17 per cent from 29.45 per cent in 1971. Adult illiterates were estimated to be about 100 million by 1977. Sixty-five million adults are to be covered under the adult education programme during the VI Plan (1978-83). The target for the year (1979-80) was about 4.5 million. A provision of Rs. 2,000 million has been made for Adult Education Programme in the Plan 1978-83 which represents nearly 10 per cent of the total plan provision for education. (See Chapter on Population.)

Adult Education: This programme is being implemented through various agencies such as State Governments/Union Territories, Voluntary Agencies, Universities, Colleges, Nehru Yuvak Kendras, etc. About 91,510 centres were functioning in the country as on April 1, 1980.

Some 632 voluntary agencies have been approved so far for financial assistance for running 29,000 centres in 17 States and five Union Territories.

68 Universities and 706 colleges were sanctioned funds by the University Grants Commission for running 8,890 adult education centres. Most of them are conducting surveys and organising discussions to determine the manner of their involvement and the size of the programme to be undertaken by them. Grants amounting to Rs. 3 million were sanctioned to these universities upto Oct. 30, 1980.

Type of Institutions (1979-80): Primary/Junior basic schools: 478,249; Middle/Senior basic schools: 114,720; High/Higher Secondary Schools: 46,043; Multipurpose Schools: N. A.; Training Schools: 859; Training Colleges: 501; Arts, Science (including research institutions) and Commerce Colleges: 3,336; Number of Universities: 108.

Teachers: Primary schools: 1,311,931; Middle Schools: 835,292; High/Higher secondary schools: 859,359; Universities, Arts and Science Colleges: N. A.; Percentage of trained teachers in the Primary and Middle Schools respectively was 86.8 and 88.9.

Free Education: Education in classes I-V is free in Government schools and in schools run by local bodies. It is also free in classes VI-VIII in all States except for boys in Orissa and Uttar Pradesh.

Compulsory Education: All the States except Bihar, Manipur, Meghalaya, Nagaland, Sikkim and Tripura have enacted legislation for compulsory education. As for the Union Territories, such legislation is available in Delhi, Andaman & Nicobar Islands and Chandigarh.

Kendriya Vidyalaya Sangathan: Total No. of Vidyalayas as in 1980-81: 323; No. of students (Aug. 1980): 244,197.

School Enrolment since 1950-51 (in million)

	1950-51	1978-79	1979-80 (Provisional)	1984-85 (Target)
Age group 6—11				
Enrolment:				
Classes I — V	19.155	68.60	72.2	83.2
Enrolment as percentage of age group population	4.26	8.165	8.34	9.5
Age group 11 — 14				
Enrolment:				
Classes VI — VII	3.120	17.96	18.7	25.7
Enrolment as percentage of age group population	1.27	3.794	3.84	5.0
Age group 6 — 14				
Enrolment:				
Class I — VIII	22.275	86.56	90.9	108.9
Enrolment as percentage of age group population	3.24	6.59	6.72	7.7

Expenditure on Education:

Expenditure during earlier Five Year Plans and Outlay for Sixth Plan

(Rs. in million)

Major Heads	Expenditure during earlier Five Year Plans	Sixth Plan (1980-85) outlay
1. General Education		
A. Elementary Education	10,050	9,050
Secondary Education	5,940	4,200
University Education	6,580	4,860
B. Adult Education	—	1,280
Cultural programmes	570*	840
Other educational programmes	3,710+	2,230
Total	26,850	22,460
2. Technical Education	4,460	2,780
Grand Total	31,310	25,240

*Expenditure for First Plan included under General education.
+Includes adult education.

Total Plan Outlay for Education and Culture for 1982-83: Rs. 1,380 million.

Budget Estimates for 1982-83: Rs. 1,380 million.

Indian Technical Personnel Abroad: According to the National Register (maintained by the Council of Scientific and Industrial Research), there are 3,614 scientists, 4,495 engineers, 639 technologists and 2,122 doctors abroad.

SUBJECTS OF STUDY

(Derived with permission from 'Directory to Subjects of Study at Indian Universities' published in the annual **Commonwealth Universities Yearbook** by the Association of Commonwealth Universities, London and **University Grants Commission,** New Delhi.)

This directory contains a list of selected subjects which may be studied at Universities in India, some in the departments or constituent colleges of universities themselves, some in colleges affiliated to universities, and others in both. The list is not exhaustive but it does cover most of the main subjects in which facilities for study or research are available. Many of the universities which provide courses for bachelor's or master's degrees in a subject also provide facilities for research in aspects of it which may lead to a doctorate.

Subjects marked † may, depending on the university, either (a) form a greater or lesser part of the course for a bachelor's degree, or (b) be studied for a master's degree, or (c) both.

Universities marked* in the article provide instructions upto the post-graduate level; 'm' and 'd' under the medicine list indicate Master's Degree (including MD) and Government Diploma respectively. Tech. stands for technology and Engg. for Engineering.

Accounting and taxes: Shivaji.

Adult education: *Diploma*: Rajasthan.

Aeronautical Engg.: *Bachelor's*: I.I.T. (Kanpur, Kharagpur, Madras), Punjab. *Master's:* I.I.T. (Bombay, Kanpur, Madras), Institute of Science.

Trade Centre (IITC), 59, Nariman Bhavan, Nariman Pt., Bombay 400021 (Dip. in Hotel and Restaurant Mgmt.); Instt., of Hotel Mgmt., Catering Technology and Applied Nutrition, Andheri, Bombay 400058 (Dip. in Hotel Mgmt. and Food Tech., Cert. in Craftsmanship in Cookery); K.C. College of Mgmt. Studies, K.C. College, Dinshaw Wachha Rd., Churchgate, Bombay 400020 (Hotel Mgmt.,); Pranlal Devkaran Nanjee College of Communication & Mgmt., Bharatiya Vidya Bhavan, K.M. Munshi Marg, Bombay 400007 (Dip. in Hotel and Institutional Mgmt.).

Tamil Nadu: Academy of Mgmt. Sciences & Studies, No. 5, Padmanabha Nagar, Adayar Tri-Junction, Madras 600020 (Post Graduate Dip. Course in Catering & Hotel Mgmt.); Instt., of Catering Technology and Applied Nutrition, Madras 600020 (Dip. in Hotel Mgmt. and Catering Technology, Crafts Courses in Bakery, Confectionery, Cookery, Canning and Food Preservation, Hotel Reception and Book-Keeping).

West Bengal: Instt. of Catering Technology and Nutrition, Calcutta (Dip. in Hotel Mgmt. & Food Technology).

Delhi: Instt. of Hotel Mgmt., Catering Technology and Applied Nutrition, Pusa, New Delhi 110012 (Dip. in Hotel Mgmt & Food Tech.).

Computer Programming

Gujarat: India Instt. of Computer Mgmt., B4, Samet Keshav Nagar, Ahmedabad 380027 (Dip. in Computer Mgmt.).

Maharashtra: Bureau of Data Processing System, 103, Hind Rajasthan Bldg., Dadasaheb Phalke Rd., Dadar (E), Bombay 400014 (Trng. in COBOL, FORTRAN, BASIC, AUTOCODER programming and card punching and verifying); Computer Society of India, Bombay Chapter, C/o Associated Cement Companies, Cement House, 121, Maharshi Karve Marg, Bombay 400020 (COBOL programming); Computer Software Consultants, 101, Kshamalaya (Opp. Patkar Hall), New Marine Lines, Bombay 400020 (COBOL Programming); Datamatics Corpn., Bombay Mutual Bldg., 293, Dr. D.N. Rd., Bombay 400001 (Programming in COBOL, BASIC, FORTRAN IV, Systems analysis and data entry operation), Davar's College, 51, Mahatma Gandhi Rd., Fort, Bombay 400001 (Dip. in Computer programming & punch operating); Indian Instt. of Cybernetics, B-10, Kumar Socy., Nanda Patkar Rd., Vile Parle (E), Bombay 400057 (Dip. in COBOL & BASIC); Narsee Monjee Instt. of Mgmt. Studies, Juhu Devpt. scheme, Vile Parle (W), Bombay 400056 (Dip. in Computer Mgmt.); National Instt. of Information Technology, Mittal Court, B, Nariman Pt., Bombay 400021 (DP concepts, programming in BASIC, ANS COBOL, FORTRAN IV, Systems Analysis & Design); Nova Consultants Ltd., A-74, Mittal Court, Nariman Pt., Bombay 400021 (Systems analysis—DP and COBOL/BASIC programming); Palm Beach Computer Centre, C/o Palm Beach School, 15, Darabsha Rd., Off Napean Sea Rd., Bombay 400036 (HIBASIC, Computer Operation, File Organisation & Systems analysis); Pranlal Devkaran Nanjee College of Communication & Mgmt., Bharatiya Vidya Bhavan, K.M. Munshi Marg, Bombay 400007 (Dip. in Data Processing); Somaiya Computer Centre, Somaiya Vidya Vihar, Vidya Vihar, Bombay 400077 (one semester course in COBOL, BASIC and FORTRAN); Stybac Computer Centre, 632, Panchratna Bldg., 6th Floor, Opera House, Bombay 400004 (Programming in COBOL, BASIC, FORTRAN, AUTOCODER, PERT & CPM); Systematix, Gurukul Technical High School, Gurukul Lane (Off Tilak Rd.), Ghatkopar (East), Bombay 400077 (Programming in Basic).

Tamil Nadu: Instt. for Financial Mgmt. & Res., 30, Kothari Rd., Nungambakkam, Madras 600034 (Computers for finance and accounts executives).

Domestic Science

Andhra Pradesh: Domestic Science Trng. College, Secunderabad (Dip. in Domestic Sc.); Girls' Vocational Instt., Warangal (Cert. in Domestic Sc.); Govt. Polytechnic for Women, Guntur (Dip. in Dress making & Costume designing); Kamla Nehru Polytechnic for Women, Hyderabad (Dip. in Dress making & Costume Designing).

Gujarat: Govt. Polytechnic for Girls, Navarangpura, Ahmedabad (Costume designing & Dress making).

Karnataka: Central Instt. of Home Sc., Bangalore (Dip. in Home Sc.); Home Science College, Hubli (Dharwar) (Dip. in Home Sc.); Polytechnic for Women, Hubli (Dip. in Costume Designing and Dress Making).

Kerala: Women's Polytechnic, Calicut (Dip. in Costume Designing and Dress Making); Women's Polytechnic, Trichur (Dip. in Costume Designing & Dress Making).

Madhya Pradesh: Govt. Women's Polytechnic, Bhopal (Dip. in Costume Designing & Dress Making).

Maharashtra: Department of Continuing & Adult Education, S.N.D.T. Women's Univ., 1, Srimati Nathibai Thackersey Rd., Bombay 400020 (Fruit Preservation & Canning, Bandhni & Batik, Origami-Japanese Paper Art, Bonsai & Ornamental Greens, Medical Secy.); Grahini Vidyalaya, Owner's Court, Behind Mahim P.O., Moghul Lane, Mahim, Bombay (Dip. in Home Sc.); Maharani Vijaimala Chatrapati Grahini Mahavidyalaya, Old Palace, Kolhapur (Dip. in Home Sc.); Maniben Nanavati Women's College, Vallabhbhai Road, Vile Parle (W), Bombay 400056 (Beauty Course, Aluminium Embossing Frame, *Mehndi, Batik,* Home Economics, Fancy Cooking, Purse Making); Nirmala Niketan Home Science Instt., 38, New Marine Lines, Bombay 400020 (Dip. in Home Sc., T.T. Dip. in Home Making, T.D. Extension Classes); Sophia College Besant Kumar Somani Polytechnic, Bhulabhai Desai Rd., Bombay 400025. Vanita Classes, C/o Amee Classes, Lajpatrai Rd., Vile Parle (W), Bombay 400056 (Cooking & baking, Toy making and Handicraft, Purse making, *Mehndi,* Hair Styles, Flower arrangements); Zarapkar Tailoring College, Senapati Bapat Marg, Dadar, Bombay 400028 (Fashion designing & Tailoring).

Tamil Nadu: Govt. Polytechnic for Women, Adyar, Madras 600020 (Costume designing & dress making).

Uttar Pradesh: Govt. College of Arts & Crafts, Lucknow (Cert. in Pottery Preparation, Home Arts & Crafts); Govt. Women Polytechnic, Lucknow (Costume design and dress making).

Delhi: Lady Irwin College, New Delhi (Dip. in Home Sc.); New Delhi Polytechnic for Women, J-23, South Extension Part I, New Delhi 110049 (Costume designing & Dress making).

Dramatic Arts, Film and Television

Gujarat: College of Indian Music, Dance and Drama, M.S. University of Baroda, Baroda.

Maharashtra: Film and T.V. Instt. of India, Chiplunkar Rd., Pune (Dip. in Art Direction).

Orissa: Orissa College of Music, Dance and Drama, Bhubaneshwar (Cert. in Music and Drama).

Punjab: Department of Speech and Drama, Punjabi Univ., Patiala.

Tamil Nadu: Film and Television Instt. of Tamil Nadu, C.I.T. Campus, Adyar Madras 600113; Instt. of Film Technology, Broadway, Madras (Dip. in Cinematography, Film Processing, Sound Eng. and recording).

Uttar Pradesh: Kamboj Saptakala Niketan, Meerut (Cert. in Acting & Writing).

West Bengal: Ravindra Bharati Univ., 6/4, Dwarkanath Tagore Lane, Calcutta.

Delhi: National School of Drama and Asian Theatre Instt., Ravindra Bhavan, Delhi.

Educational and Vocational Guidance

See chapter on Vocational Guidance Bureaux.

Engineering and Technical

Andhra Pradesh: Andhra Polytechnic, Kakinada (Dip. and Part-time Dip. in Auto., Civil. Elect., Elect. Comm., Mech.); Govt.

Mining Instt., Kothagudem (Dip. in Mining Engg.); Govt. Polytechnic for Women, Guntur (Dip. in Elect. & Comm. Engg.); Govt. Polytechnic for Women, Kakinada (Dip. in L.C.E., L.E.C.E., Arch., Pharm., Com. Pr.); Industrial Trng. Instt., Mallepalli, Hyderabad (Draftsman, Civil & Mech., Electrician, Radio Mechanic, Electro-plater, Tool & Dye-making, Pattern maker, Mech., Refrig. and Air Cond. & Compositor Hand); Instt., of Correspondence Studies, Himayatnagar, Hyderabad 500029 (B.E., A.M.I.E., A. & B. A.M.I.E.T.E. Sect. A. & B., A.M. A.R. S.I., A.M.I.M.E., I.I.M.; A.M.I.A.E.); Kamla Nehru Polytechnic for Women, Hyderabad (Dip. in Engg.—Civil, Commn., Elect. & Architectural Assistantship).

Assam: Assam Engg. Instt., Gauhati (Dip. in Engg.—Civil, Mech. & Chemical Operation); Assam Textile Instt., Gauhati (Dip. in Text. Tech.); Girls Polytechnic, Gauhati (Dip. in Civil Draftsmanship and Civil Engg.); Industrial Trng., Instt., Bhagalpur (Cert. in Industrial Trades, Electrician and General Mechanic, Draftsmanship-Civil); Kodarma Mining Instt., Kodarma (Dip. in Mining).

Bihar: Patna Polytechnic, Patna (Dip. in Ceramics, Metal Works & Text. Tech., Cert. in Turning, Machinist, Sheet Metal & Welding).

Gujarat: C.N. Polytechnic, Ahmedabad (Cert. in Draftsmanship Civil & Mech., Estimating & Radio Servicing); Faculty of Technology (Including Engg.), Baroda (Dip. in Text. Chem., Text. Tech. & Engg.-Civil, Elect. & Mech., Cert. in Dyeing & Text. Printing); Govt. Polytechnic for Girls, Ahmedabad (Dip. in Electronics & Radio Engg., Agricultural Draftsmanship/Assistant); Shri A.V. Parikh Technical Instt., Rajkot (Dip. in Radio Engg., Sound Engg. & Elec. Engg.); Tari Bhavsinghji Polytechnic, Bhavnagar (Dip. in Engg.—Auto/Civil, Elect. & Mech. and Tech.— Text. Manufacture).

Haryana: Govt. Instt. of Surgical Technology, Sonepat (Dip. in Surgical Instruments Tech., Dye Sinking and Machine Tools); Industrial Trng. Instt., Ambala (Cert. for Draftsman Mech. Instrument Mech., Electroplater, Pattern Maker); Industrial Trng. Instt., Yamunanagar (Cert. in Draftsmanship—Civil & Mech.—Electrician, Electroplater, Machinist—Civil & Mech.—Instrument Mechanic and Wireman).

Jammu & Kashmir: Govt. Polytechnic, Srinagar (Dip. in Engg.—Auto., Civil, Elect. & Mech., Draftsman—Civil, Elect. & Mech.); Industrial Trng. Instt., Hiranagar (Cert. in Trades: Blacksmithy, Carpentry, Cutting & Tailoring, Electrician, Sheet metal, Turner & Weaving); Industrial Trng. Instt., Jammu (Cert. in Trades, Carpentry, Tailoring, Electroplater, Fitter, Machinist, Motor Mechanic, Moulder, Painting and Decorating, Tractor Mech., Turner, Weaving & Welding).

Karnataka: C.P.C. Govt. Polytechnic, Mysore (Dip. in Engg. Auto, Civil, Elect. & Mech.); Indian Instt. of Science, Electrochemical Society of India, Bangalore 560012 (Industrial Metal Finishing Training Programme); Polytechnic for Women, Mangalore (Dip. in Engg.—Telecommunication, Sec. Pr.); School of Mines, Kolar Gold Fields, Ooragaum, Kolar (Dip. in Mining & Mine Surveying); Sri Jayachamarajendra Polytechnic, Bangalore (Dip. in Engg.—Civil and Public Health, Elect., Mech., Radio, Sanitary and Tele. Comm; Electronics, Sound and Television, Auto. Boilers and Engines, Ceramics, Cinematography, Instrument Mechanics, Welding & Sheet Metal Mechanics, Heat Power & Tool Technology); Shri K. Silver Jubilee Technological Instt., Bangalore (Dip. in Text. Tech.—Spinning & Weaving).

Kerala: Central Polytechnic, Trivandrum (Dip. in Engg.—Civil, Elect. Electronics and Mech., Dip. and Cert in Textile Tech.): Women's Polytechnic, Calicut (Dip. in Civil Draftsmanship); Women's Polytechnic, Trichur (Dip. in Electronics).

Madhya Pradesh: Govt. Central Technical Instt., Polytechnic, Gwalior (Dip. in Engg.—Civil, Elect. & Mech.—and Text. Tech.); Govt. Kala Niketan, Jabalpur (Cert. in Internal Combustion Engines—Maintenance and Repairs—Radio Servicing & Operation, Dip in Printing Tech., Cert., in Wireman & Elect. Supervision); Govt. Mining Polytechnic, Shahdol (Dip. in Engg.—Elect., Mechanical & Mining & Mine Surveying); Govt. Polytechnic, Durg (Dip. in Engg.—Civil, Elect., Mech. & Metallurgy); Industrial Trng. Instt., Bhilai (Cert. in Building Construction, D/M/Civil, Mech., Elect., Tool & Die Maker, Fitter, Machinist, Compositor & Grinder, Mech Instrument Turner, Wireman, Motor Mech., Refrig. Mech.); Industrial Trng. Instt., Gwalior (Cert. in Bldg. Construction, D/M/Mechanic, Electrician, Tool & Die Maker, Fitter Machinist, Compositor & Grinder, Mech. Radio and T.V., Turner, Farm & Motor Mech.); Industrial Trng. Instt., Sagar (Cert. in Electrician, Fitter, Machinist, Compositor, T.V. & Radio Mech., Turner, Wireman, Motor Mech.); S.V. Govt. Polytechnic Institute, Bhopal (Dip. in Engg.—Civil, Elect. & Mech. Engg., Model Technician, Dip. in Machine Bldg., Desigh & Drafting M/c Building Tech., Pharmacy & Comm. Pr.).

Maharashtra: Abhinav Technical Institute, Near Dept. Stores, Kabutarkhana, Dadar, Bombay 400028; Agnel Technical Complex, Fr. Agnel Ashram, Bandra, Bombay 400050 (Courses in Radio & T.V., Wireman, Purchase & Store-keeping, C.A. Entrance & ICWA Coaching, Welding, Aircond. & Refrig.); Bandra Instt., Opp. Rly Station, Near Sahakar Bazar, Bandra, Bombay 400050 (Telex, Telephone, Draftsman—Civil, Mech. & Elect.—Piping, Jig Tools & Electrician); Bharat Radio Instt., Tulsi Pipe Rd., Near Allahabad Bank, Makarand Socy., Bombay 400028 (T.V. & Radio Servicing, Dip. in Refrig. & Aircond.); Bombay Adult Education Assocn., Cama Hall Bldg., 136, Shahid Bhagat Singh Road, Fort, Bombay 400023 (Radio & T.V. principles); Cambridge College of Technology, Medows House, Medows St., Flora Fountain, Bombay 400023 (Radio—T.V. Servicing, Dip. in Refrig. & Air Cond.); Datamatics Vocational Trng. Centre, Bombay Mutual Bldg., 293, Dr. D.N. Rd., Bombay 400001 (T.V. Technology); Dattaji Rao Kadam Technical Education Socy., 97, Ward No. 10, Narayan Peth, Dist. Kolhapur, Ichalkaranji 416115; Dhir and Dhir Technical Instt., 317, Hind Rajasthan Bldg., Bombay 400014 (A.M.I.E.); Dnyansagar Vidyapeeth Instt., of Technology, Thane (Deg. level course in Engg.); Ellora Instt., Opp. Rly. Station, Near Tiffany's Restaurant, Santa Cruz (E), Bombay 400055 (Operation of Telex, Telephones, Punch Operating, Draftsman, Piping, Jig Tools, Electrician); Govt. Leather Working School, Bandra, Bombay 400051 (Dip. in Advance Leather Goods & Footwear Manufacture); Govt. Polytechnic, Kolhapur (Dip. in Engg.—Civil, Elect. & Mech.—Dip. in Sugar Analysis, Cert. in Juice Treatment, Pan Boiling, Milling House Mech., Practical Boiling House Mech.); Indian Radio Instt., Residency Rd., Nagpur (Cert. in Radio Servicing); Kohinoor Technical Instt., Kohinoor Bhavan, Senapati Bapat Marg, Dadar, Bombay 400028 (Do-it-yourself electronic training kits); M.G. Textile Technology School, Parel, Bombay 400012 (Cert. in Spinning & Weaving); Nautical and Engg. College, Waudby Rd., Bombay 400001 (Dip. in Navigation & Engg.); Radio Bhuvan, Indian Instt., Opp. New Empire Theatre, V.T. Station, Bombay 400001 (Radio, T.V., Transistors, Audio Servicing, Wireman, Electrician, Watch repairing, Air Conditioning, Refrigeration, Turner/Fitter, Automobile, Photography); Shri Bhagubhai Mafatlal Polytechnic, Irla-Juhu Rd., Vile Parle (W), Bombay 400056 (Post Dip. in Foundry Tech. & Medical Electronics); Silk & Art Silk Mill's Research Asscn. (SASMIRA), Sasmira Marg, Worli, Bombay 400025 (Dip. in Man-made Text. Tech., Cert. in Weaving & Wet-processing of Man-made fibres); Standard T.V. Training Centre Pvt. Ltd., 98, Govt. Industrial Estate, Kandivli (W), Bombay 400067; Victoria Jubilee Technical Instt., Matunga, Bombay 400019 (Dip. in Text. & Applied Chemistry, Text. Manufacture & Engg., Civil and Sanitary, Elect. & Mech.—Cert. for Foreman & Supervision).

Manipur: Adimjati Technical Instt., Imphal (Dip. in Engg.—Civil, Elect. & Mech.); Industrial Trng. Instt., Imphal (Cert. in Surveyor & Draftsman).

Meghalaya: Industrial Trng. Instt., Garo Hills, Tura (Welder, Fitter, Carpentry, Blacksmith, Motor Vehicles Machinist); Shillong Polytechnic, Malwai, Shillong 793008 (Dip. in Civil Engg.).

Nagaland: Industrial Trng., Instt., Kohima (Cert. for Electricians); Polytechnic Instt., Atiozo (Cert. in Draftsmanship).

Orissa: Industrial Trng. Centre, Cuttack (Cert. in Draftsmanship, Electrician, Radio Mechanic & Surveyor); Orissa School of Mining

&Engg., Keonjhar (Dip. & Cert. in Mining); Rourkela Polytechnic, Rourkela (Dip. & Cert. in Engg.).

Punjab: Govt. Instt. of Dyeing, Printing & Hosiery Technology, Ludhiana (Dip. in Dyeing & Printing); Govt. Instt. of Garment Technology, Amritsar (Dip. in Garment making technology); Govt. Instt. of Textile Chemistry and Knitting Technology, Ludhiana (Dip. in Textile Chemistry and Knitting Technology); Govt. Woodworking Instt., Jullunder (Dip. in Wood work & Cabinet Making); Govt. Tanning Instt., Jullunder (National Dip. & Cert. in Leather Chemistry & Tech.); Industrial Trng., Centre/Dayanand Polytechnic Instt., Amritsar (Cert. in Electrician, Electroplater, Mech.—Radio & T.V. and Surveyor & Draftsman—Civil); Industrial Trng. Instt., Bhatinda (Cert. for Instrument Mech., Radio & T.V., Mech. & Electrician, Refrig. & Air Condg., Draftsmanship and Civil, Mech., Surveyor); Industrial Trng. Instt., Ludhiana (Cert. for Draftsman, Mech., Electrician, Radio & T.V., Mechanic, Electroplater & Pattern Maker); Punjab Instt. of Textile Technology, Amritsar (National Dip. in Text. Tech. & Artisan Cert.).

Rajasthan: Ajmer Polytechnic, Ajmer (Dip. in Engg.—Civil, Elect. & Mech.); Udaipur Polytechnic, Udaipur (Dip. in Engg.—Elect., Mech. & Mining).

Tamil Nadu: Central Polytechnic, Madras (Dip. in Engg.—Civil, Elect. Mech.—Fisheries Tech. & Navigation, Sandwich Part-time course in Tool Design, Metallurgy, Mech. Engg. and A.M.I.E., Post Dip. in Town & Country Planning, Refrig. & Air Cond.); Coimbatore Instt. of Technology, Sandwich Polytechnic, Coimbatore-641014 (Sandwich course in Mech. Engg.—L.M.E.); Govt. Polytechnic for women, Coimbatore (Dip. in Civil Engg.—Structural); Govt. Polytechnic for Women, Adyar, Madras 600020 (Dip. in Electronics—Radio Engg., Civil Engg., Draftsman); Instt. of Chemical Technology, Madras 600020 (Dip. in Chemical Tech.); Instt. of Leather Technology, Adyar, Madras-600020 (Dip. in Leather Tech.); Instt. of Textile Technology, Adyar, Madras-600020 (Dip. in Text. Tech.); Madras Instt. of Technology, Chrompet, Madras-600044 (Dip. in Engg.— Aero., Auto., Electronics & Instrumental Tech.), P.S.G. Polytechnic, Peelamedu, Coimbatore (Dip. in Engg.—Civil, Elect. & Mech., Text. Engg., Indus. Engg. & Post Dip. In Production Engg.); Ramakrishna Mission Technical Instt., Mylapore, Madras 600020 (Dip. in Engg.—Civil, Elect. & Mech.).

Tripura: Polytechnic Instt., Agartala Aerodrome, P.O. Narsingarh (Dip. in Engg.—Civil, Elect. & Mech.).

Uttar Pradesh: B.P.K. Govt. Polytechnic, Varanasi, (Cert. in Electro-plating); Civil Engg. School, Lucknow (Dip. in Overseer—Civil, Cert. in Draftsman—Civil); Govt. Central Textile Instt., Kanpur (Dip. in Text. Tech. and Text. Chem.); Govt. Central Wvg. Instt., Kanpur (Dip. in Wvg. Tech., Advanced Wvg. Course, Elementary Wvg., Cert. in Dyeing & Designing); Govt. Industrial and Technical Instt., Dehra Dun (Cert. for Radio & Motor Mech. and Electrical Supervisor); Govt. Leather Instt., Agra (Dip. in Leather Tech., Tanning Dip. in Footwear Tech.); Govt. Polytechnic Instt., Lucknow (Cert. for Elect. Supervisor, Electroplating, Motor Mechanic, Radio Mech. & Refrig. Mech.); Govt. Girls' Polytechnic, Lucknow (Electronics); National Sugar Instt., Kanpur (Associateship of N.S.I. in Sugar Engg. & Sugar Tech., Cert. in Sugar Engg.); School of Paper Technology, Saharanpur (Cert. & Dip. in Pulp & Paper Tech.); S.G.S.C. Govt. Polytechnic, Khurja (Dip. in Engg.—Civil, Elect. & Mech. and Ceramics Engg.).

West Bengal: Air Technical Trng. Instt., Dum Dum, 24 Parganas (Dip. in Aircraft Maintenance Engg., Auto Services Engg., A.M.E.-Cum-A.M.A.C.S.I. Cert., Master Aero Mechanic); Birla Instt. of Technology, Emerald Bower, 56, B.T. Road, Calcutta (Dip. in Mech. Engg.—Sandwich system); Calcutta Technical School, Calcutta (Dip. in Engg., Elect. & Mech.—and Plumbing and Sanitary Engg., Cert. in Elect. Supervisor & Shipwright); College of Leather Technology, Canal South Road, Calcutta (Cert. in Boots, Shoes & Leather Goods making); College of Textile Technology, Berhampur (Licentiate in Text. Tech.—Dip. course); Industrial Research Laboratory, Canal South Rd., Pagladanga, Calcutta 700015 (Dip. in Paint & Varnish Tech., Soap making and Ink Adhesive Disinfectants); Instt. of Jute Technology, Calcutta (Dip. in Jute Tech.); Instt. of Mining, Raniganj, Burdwan (L.M.E.); Model Blacksmithy Workshop, Ahmedpur, Birbhum (Cert. in Blacksmithy & Turner); W.B. Survey Instt., Hooghly (Dip. in Survey); Women's Polytechnic, 21 Convent Rd., Calcutta 700014 (L.C.E., L.A.D.).

Chandigarh: Central Polytechnic, Sector-26, Chandigarh (Dip. in Engg.—Civil, Elect. & Mech.); Industrial Trng., Instt., Sector 28, Chandigarh (Cert. for Radio & T.V. Mech. and Electrician, Instrument Mech., Draftsman—Civil).

Delhi: Border Security Force Signal Trng. School, R.K. Puram, New Delhi 24 (Dip. in Electronics); Govind Ballabh Pant Polytechnic, Okhla, New Delhi (Dip. in Engg.—Civil, Elect. & Mech., Post-Dip. in Air Condi. & Refrig.); K.G. Polytechnic, Kashmir Gate, Delhi (Dip. in Arch., Engg.—Civil, Elect. & Mech., National Dip. in Arch.); Pusa Polytechnic, New Delhi 12 (Dip. in Engg.—Auto, Civil, Elect., Mech. & Elect. Commun., Post-Dip. in App. Electronics & Microwave Tech.); Women's Technical Instt., Ashoka Road, New Delhi (Dip. in Electronics).

Mizoram: Industrial Trng. Instt., Aizawl 796001 (Cert. in Electrician).

Pondicherry: Motilal Nehru Polytechnic, Pondicherry (Dip. in Engg.—Civil, Elect., Mech. & Electronics).

Fashion Modelling:

Maharashtra: Instt. of Media Arts, A-8th Floor, Tardeo Air-Condition Market, Bombay 400034 (Modelling).

Fine Arts & Commercial Arts (Music, Dance, Drawing & Painting):

Andhra Pradesh: A.P. Lalit Kala Akademi, Kala Bhawan, Hyderabad (Drg. & Ptg.); Govt. College of Music and Dance, Hyderabad (Cert. in Karnatic Violin, Mridangam, Karnatic Vocal, Hindustani Vocal, Sitar, Tabla, Bharat Natyam, Kathak dance, Hindustani violin); Govt. College of Fine Arts & Architecture, Hyderabad (Commercial Arts).

Assam: Assam State Lalit Kala Akademi, Gauhati; Gauhati Music College, Gauhati (Dip. in Music).

Bihar: Kala Kendra, Bhagalpur.

Himachal Pradesh: Govt. College of Fine Arts, Shimla (Dip. in Ptg. & Drg., Sculpture & Commercial Arts).

Karnataka: Mysore State Lalit Kala Akademi, Bangalore (Drg. & Ptg.,); School of Arts & Crafts, Davangere (Dip. in Applied Art & Ptg.).

Kerala: Music Academy, Palghat; R.V. School of Painting, Mavelikara (Cert. & Dip. in Ptg., Post-Dip. in Ptg., Cert. & Post-Cert. in Modelling & Sculpture); S.S.T. College of Music, Trivandrum. (Cert. & Dip. in Mridangam, Veena, Vocal Music & Violin, Post Dip. in Dancing).

Madhya Pradesh: Bharatiya Kala Bhawan, Ujjain (Fine Arts); Govt. Fine Arts Institute, Indore (Dip. in Fine & Applied Art); Govt. Kala Niketan, Jabalpur (Dip. in Fine & Applied Arts, Advanced Dip. in Fine Arts); Govt. College of Fine Arts, Gwalior.

Maharashtra: Abhinav Kala Vidyalaya, Pune 9 (Dip. in Drg. & Ptg., Applied Art & D.M. & A.M.); Bandra School of Art, Bandra, Bombay 400050 (Dip. in Applied Art, Drg. & Ptg., D.M. & A.M.); J.J. Instt., of Applied Art, Bombay 400001 (Dip. in Commercial Arts, Apprentice Trng. Cert. in Commercial Art); J.J. School of Art, Bombay (Dip. in Drg. & Ptg., Sculpture, Modelling, Dip. in Fine Arts & Crafts); Kala Niketan, Kolhapur (Dip. in Drg. & Ptg., D.M. & A.M.); Nalanda Nritya Kala Mahavidyalaya, Shri Saiprasad, Plot A-7/1, N.S. Road, No. 10, J.V.P.D. Scheme, Vile Parle (W), Bombay 400049 (B.F.A. & M.F.A. in Bharata Natyam & Kathakali); Sangit Mahabharati, A/610, Third Rd., Juhu Parle Extension Scheme, Bombay 400056 (Dip. in Vocal, Sitar, Tabla & Kathak); Yeshwant Kala Mahavidyalaya, Aurangabad (Dip. in Drg. & Ptg., D.M. & A.M.).

Manipur: Imphal Art College, Chingmeirong, Imphal (Dip. in Drg. & Ptg.,); Jawaharal Nehru Manipur Dance Academy, D.M. College Campus, Imphal (Cert. & Dip. in Dance); Manipur Sangeet Mahavidyalaya, Imphal (Dip. in Vocal & Instrumental).

Orissa: College of Indian Music & Dance, Cuttack (Cert. in Music & Dance); Orissa College of Music, Dance & Drama, Bhuvaneshwar (Cert. in Music & Dance).

Tamil Nadu: Kalakshetra, Adyar, Madras (Music & Dance).

Tripura: Govt. Music College, Agartala P.O. (Cert. & Dip. in Vocal, Sitar, Tabla, Esraj & Dance).

Uttar Pradesh: Bhatkande (Morris) College of Hindustani Music, Lucknow (Cert. & Dip. in Vocal, Instrumental & Dance); Govt. College of Arts & Crafts, Lucknow (Dip. in Fine Arts, Commercial Art & Sculpture & Furniture Design, Cert. in Art Masters Trg.); Kamboj Saptakala Niketan, Meerut, (Dip. in Music, Cert. in Acting, Writing, Ptg. & Demonstration).

West Bengal: Academy of Fine Arts, Calcutta (Drg. & Ptg.); Bengal Music College for Girls, 10, Dover Lane, Calcutta (Cert. & Dip. in Classical & Light-classical vocal, instrumental Guitar, Dance); Bharatiya Sangeet Mahavidyalaya for Girls, Dhakuria, Calcutta (Vocal, Instrumental & Dance); Gita Bitan Shikshyatan, 25-B, Shyama Prasad Mukherjee Rd., Calcutta (Rabindra Sangeet, Sitar, Esraj, Guitar, Violin and Dance); Govt. College of Art & Craft, 28, Chowringhee Rd., Calcutta (Fine, Commercial & Applied Art).

Chandigarh: Govt. College of Arts & Crafts, Chandigarh (Dip. in Applied Arts—Iron Work, Jewellery and Enamel, Lacquer Work, Light Metal Work & Wood work).

Delhi: Chitra Kala Sangam, Connaught Circus, New Delhi (Dip. in Drg. & Ptg.); College of Art, 22 Tilak Marg, New Delhi; New Delhi Polytechnic for Women, J-23, South Extension, Part I, New Delhi (Dip. in Commercial Art & Interior Decoration & Display); Sangeet Bharati, Connaught Circus, New Delhi (Music & Dance); Women's Polytechnic, Maharani Bagh, New Delhi (National Dip. in Commercial Art & Architectural Assistantship).

Goa: Academia De Musica, Panaji (Cert. in Solfeggio, Piano, Violin, Cello, Composition-Harmony, Acoustics, History & Music); Gomant Zancar, Margao (Cert. in Indian Classical Dance in Odissi & Bharat Natyam); School of Music, Margao (Cert. in Solfeggio, Singing, Piano, Violin, Guitar and Trinity College, London, Exams.); Swara Manch, Margao.

Forestry:

Tamil Nadu: Southern Forest Rangers' College, Coimbatore (Forest Rangers' Cert.).

Uttar Pradesh: Forest Res. Instt., Dehra Dun (Research Trng, Dip. & Cert. in Forestry, Seasoning and Preservation of Timber & Paper Tech.).

Interior Designing, Decoration & Architecture:

Andhra Pradesh: Govt. College of Fine Arts and Architecture, Hyderabad.

Maharashtra: Abhinava Kala Vidyalaya, Pune-9 (Dip. in Architecture); Academy of Architecture, School of Interior Design, 278, Shankar Ghanekar Marg, Prabhadevi, Bombay 400025. (Cert. & Dip. in Int. Design.); Bandra School of Art, Bombay 400050 (Dip. in Architecture); Continuing Education and Training Centre, Ashok Kumar House, 35K, Dubash Marg (Rampart Row), Bombay 400023: Courses and Career Centre, Radio Bhuvan, Near V.T. Station, Indian Instts., Opp. New Empire Theatre, Bombay-400001. (Int. Decoration—Hobby/Professional); Indo-American Society, Kitab Mahal, 5-D, Sukhadvala Rd. (Raveline St.), Fort, Bombay 400001 (Cert. in Int. Decoration); Sir J.J. College of Architecture, Dr. D.N. Rd., Bombay 400001. (Dip. & Deg. in Architecture & Town Plng.); Kareer Polytechnic, 5, Waudby Rd. (Hazarimal Somani Marg), Near Capitol Cinema, Bombay-400001 (Int. des. & dec.); Seva Mandal Education Society, Smt. Maniben M.P. Shah Women's College, 338, R.A. Kidwai Rd., Matunga (King's Circle), Bombay 400019 (Int. decoration).

Chandigarh: Govt. Polytechnic for Women, Sector 10, Chandigarh (Dip. in Architectural Assistantship, Radio Engg., Int. Decoration & Display, Electronics).

Delhi: K.G. Polytechnic, Kashmere Gate, Delhi (Dip. in Architecture, Engg.—Civil, Elect. & Mech., National Dip. in Arch); New Delhi Polytechnic for Women, J-23, South Extension, Part I, New Delhi (Dip. in Commercial Art and Interior Decoration & Display); School of Planning & Architecture, 4 Block B, Indraprashta Estate, New Delhi 1 (Dip. in Architecture Urban design—Town & Country Plng. also with specialisation in Urban and Regional Plng. MERCHANT NAVY TRAINING INSTITUTIONS

Merchant Navy Training Board at Jahaz Bhavan, Walchand Hirachand Marg, Bombay 400038, advises Government on all matters pertaining to the training of merchant navy personnel.

Shri Narotam Morarjee Institute of Shipping, 76, Jolly Maker Chambers No. 2, Nariman Point, Bombay 400021, imparts training and conducts examinations in subjects pertaining to the commercial side of shipping—chartering, ship broking practice, marine insurance etc.

The Government of India has set up six training establishments for the training of merchant navy officers and ratings. The training ship **"Dufferin"** which started functioning in 1929 was replaced by T.S. **"Rajendra"** in 1972. It provides pre-sea training facilities of one year duration for navigating cadets. The new training ship has an intake of 250 cadets per year. The **Directorate of Marine Engineering Training** at Bombay and Calcutta provides four years' course for engineering cadets. The boys desirous of undergoing training in the "Rajendra" as well as D.M.E.T. are selected on the basis of marks obtained and are drawn from all parts of the country through a competitive entrance examination followed by interviews and medical and eyesight tests.

Rules for Entry into T.S. **"Rajendra"** and D.M.E.T. are as follows: **Age Limit:** Candidate must have completed 16 years of age and must not have exceeded 20 years on September 1 of the year of entry. **Eligibility:** A candidate is eligible provided he has passed intermediate science examination of any University with mathematics and physics.

The pre-entry qualifications for engineering cadets for entry into D.M.E.T. is a pass in higher secondary examination or equivalent of a recognised board of secondary examination or a University in the science stream with physics, chemistry and mathematics as elective subjects. The duration of the course is 4 years.

The Lal Bahadur Shastri Nautical and Engineering College at Hay Bunder, Tank Road, Bombay 400033 provides post-sea training instructional courses for both navigating and engineering officers and apprentices who are preparing for Ministry of Transport Certificates of Competency Examination. There is a Life Boat School attached to the college.

Candidates with the requisite educational qualification and within the age group prescribed for "Rajendra" and D.M.E.T. training are also admitted by shipping companies as Direct Entry Cadets. The Shipping Corpn. of India and the Great Eastern Shipping Company have established special pre-sea training schemes of their own for such cadets.

Ratings' Training Establishments: The Training Ships **"Bhadra"** (Calcutta), **"Mekhala"** (Visakhapatnam) and **"Naulakhi"** (Navlakhi, Gujarat) are ratings' training establishments. These institutions provides a six months' course for deck and engine room ratings. Candidates between the age group 18 to 22 with minimum educational qualification of 8th standard pass are eligible for admission, if medically fit. Advertisements are published in all important newspapers in India in different languages once in a year or when necessary for selection of candidates for pre-sea training courses and they are selected on merits after an interview at Bombay by the Director, Seamen's Employment Office and at Calcutta, Navlakhi and Visakhapatnam by the respective Captain Superintendents of the training ships according to the number required each year.

MEDICAL COLLEGES: The list of 106 Medical Colleges:

Bharatiya Vidya Bhavan, 5-9-1105, Hyderguda, Hyderabad 500001.

Centre for Organization Development, 'Nageena', Rd. No. 3, Banjara Hills, Hyderabad 500034.

Conducts research on management and development of organisations, organises training programmes and offers expert advice for improving effectiveness of organisations and managers.

Community Devpt. & Panchayati Raj, State Instt. of, Rajendranagar, Hyderabad 500030.

Economics, Indian Instt. of, Himayatnagar, Hyderabad 500029

English & Foreign Languages, Central Instt. of, Hyderabad 500007. An autonomous Institution deemed to be a University set up by the Govt. of India, to improve the teaching of English and foreign languages and their literatures. It offers M.Litt. and Ph.D. courses in English, Arabic, French, German and Russian; postgraduate diploma course in teaching of English, English studies, Arabic, French, German and Russian; M.A. in French, German and Russian (by correspondence-cum-attendance); postgraduate certificate and diploma courses in the teaching of English (by correspondence); proficiency, diploma and advanced diploma courses in French, German, Russian and Modern Arabic; diploma in translation courses in French and German; and diploma in interpretation in German. It provides extension services in the field of English and foreign language teaching throughout the country. It has Regional Centres at Shillong and Lucknow.

Food Craft Instt., CTI Campus, Vidyanagar, Hyderabad 500768.

Foreign Studies Guidance & Service Bureau, 2-1-488, New Nallakunta, Hyderabad 500020

Geoscience, Indian Academy of, C/o Geology Deptt., Osmania Univ., Hyderabad 500007.

Higher Learning, Sri Sathya Sai Instt. of, Prasanthinilayam 515134. Anantapur Dist.

Industrial Safety & Productivity, Instt. of, A.C. Guards, Hyderabad 500004.

Instructors, Central Training Instt. of, I.T.I. Bldg., Mallepally, Hyderabad 500001.

Leadership Trg., McGrath Instt. of, Mathrusri Apts., Hyderguda, Hyderabad 500001.

Marketing Trg. Centre for Market Secretaries, 5-8-493, C.A. Lane, Hyderabad 500001.

Medical Sciences, Instt. of, Osmania Medical College, Sultan Nazar, Hyderabad 500001.

Plant Production Trg. Instt., Central, Rajendranagar, Hyderabad 500030.

---

*There are now 35 schools of which 27 offer Master's degree courses, 10 Bachelor's degree courses and 11 Doctoral courses

Preventive Medicine, Instt. of, Narayanguda, Hyderabad 500029

Public Enterprises, Instt. of, New Bldg., Zainyar Jung Circle, Osmania Univ. Campus, Hyderabad 500007.

Sanskrit Vidyapeeth, Kendra, Tirupati 517501.

Science, Andhra Pradesh Academy of, Ex-Physiology Block, Osmania Univ., Hyderabad 500007.

Science Assocn., Hyderabad, 36. Asifnagar, Hyderabad 500012.

Science Socy., Hyderabad, 12-2-460, Malkapur, Asifnagar, Hyderabad 500028.

Small Industry Extension Trg. Instt., Yousufguda, Hyderabad 500045. Provides trg. in small industry devpt., management, behavioural sciences & extension; undertakes research & consultancy in related fields and provides documentation service to the small industry.

Tool Design, Central Instt. of (Govt. of India Socy.), Balanagar, Hyderabad 500037. Trg. of tool designers & tool makers, design & manufacture of tools, dies and moulds, etc. Also consultancy in use of Fluid Power for improving productivity in industries.

Village Devpt. Officers Trg. Centre, Rajendranagar, Hyderabad 500030.

ASSAM

Engineering and Technology, H.R.H. The Prince of Wales Instt. of, Jorhat 785001.

Historical Instt., Narayani Handiqui, Gauhati 781001.

Science Socy., Assam, Panbazar, Gauhati 781001.

BIHAR

Agricultural Sciences, Bihar Academy of, P.O. Sabour, 813210.

Cultural Studies, Indian Instt. for, P.O. Mandar Vidyapith, Bhagalpur Dist.

Foundry & Forge Technology, National Instt. of, P.O. Hatia, Ranchi 834003. Imparts industrially oriented specialised trg. on foundry, forge and related fields; offers Adv. Dip. Courses of 18 months duration in foundry technology and forge technology, short term refresher courses of 2 to 12 weeks duration and Post Graduate Programme through research for engrs. working in industries. Undertakes research and development works pertaining to foundry & forge technology and provides consultancy services in preparation of project reports, selection of equipment and machinery, testing of raw materials, castings, forgings and other components. Provides Documentation & Information Services in foundry, forge and allied fields.

Industrial Design, Instt. of, Patna 800001.

Mine Planning and Design Instt., Central, Darbhanga House, Ranchi 834001.

Nava Nalanda Mahavihara, Nalanda 803111. Postgraduate and research Instt. in Pali, Buddhist Studies, philosophy and ancient Indian and Asian Studies.

Personnel Management, Indian Instt. of, 36, Tisco Guest House Annexe, Jamshedpur 831001.

Public Health Instt., Patna 800004.

Rural Instt., Birouli 848113, Darbhanga Dist.

Vaccine Instt. and Pasteur Instt., Government, Namkum, Ranchi 834010.

Yogoda Sat-Sanga Vidyalaya, Club Rd., Ranchi 834001.

DELHI

Administrative Management, Institute of, 41, Masjid Road, Jangpura, New Delhi 110014. (1) The Institute has liaison with Administrative Management Society of U.S.A., Systems Procedures Association of U.S.A. and Institute of Administrative Management of U.K. (2) a Certificate Course for Office Supervision for graduate women is also conducted in collaboration with the Delhi University.

LIBRARIES, MUSEUMS AND ARCHIVES

Libraries

THE birth of the National Library at Calcutta and the two depository libraries of Connemara at Madras and Central Library at Bombay and the National Archives at New Delhi can be attributed to the early scholarly Englishmen seeking intellectual pursuits when not involved in official work. In course of time the first Calcutta Public Library became the Imperial Library. It was Lord Curzon's decision taken in 1903 and as the years rolled by rose to be India's National Library.

The Royal Asiatic Society of Bengal established in 1784 was under the patronage of Warren Hastings and with the active support of its first president, Sir William Jones. This historic institution celebrated its bi-centenary in January 1984 and to meet its financial crisis the Government of India has decided to give it an annual allowance and declared it a national institution. The Bombay branch followed shortly and it is the proud owner, among other things, of one of the five rare, authentic, most-prized 14th century manuscript of Dante's immortal "Divina Comedia" (1265-1321 A.D.).

Other noteworthy academic libraries were the Presidency College Library established in 1817, the Sanskrit College Library founded in 1824, the Scottish Church College founded as the General Assembly's Institution with library in 1830 and the Calcutta University Library founded in 1857, etc. all in Calcutta.

Before independence the first Government act was the Press and Registration of Books Act of 1867. A model Library Act was also drafted by S. R. Ranganathan, father of the library movement in India, in 1930.

The Constitution of independent India contained a provision for a public library service which was made a state subject. However, the necessity for a state-wide grid of integrated public library system and a national library movement was published in the recommendations of the Government of India's Advisory Committee for Librarians in 1959. Later, a Working Group to consider library development programme during the Fourth Plan, mooted by Prof. V. K. R. V. Rao, met in 1964. The report submitted by this group formed the basis for the national policy on libraries in India.

Various states passed the Public Libraries Act namely Madras (1948), Andhra Pradesh (1956), Maharashtra (1968) and Mysore (1969). The Govt. of India passed the Delivery of Books (Public Libraries) Act in 1954 which laid the foundation for national book depositories. The National Library of India Act was passed only in 1976.

Archives

Archives as the repositories of official records of national importance are storehouses of learning. The National Archives of India, initially known as the Imperial Record Department was established in 1891 in Calcutta. Its growth in the earlier stages was chaotic. In 1919 the Indian Historical Records Commission was set up to suggest steps for a systematic preservation of records. In 1927 the records were transferred to the present site and it was renamed the National Archives of India in 1947. Today it is one of the leading archives of the world with its records dating back to the East India Company in 1630. The main series, however, begins only from 1748.

The Government records pertaining only to Maharashtra are housed in Bombay, Pune, Kolhapur, Nagpur and Aurangabad. The Bombay record office is now developed into the Central Archival Agency of the Government of Maharashtra.

Bombay being the heart of the film industry, the National Film Archives of India (NFAI) has assumed great importance. The Archives, started in 1963 at Pune, has now acquired film and ancillary materials numbering 28,270 stills, 1,519 disc records, 936 micro films and 4,080 wall posters used during the last six decades besides a large number of film-making equipment. Two regional offices in Calcutta and Bangalore have been set up and more regional offices in New Delhi, Madras and Trivandrum will start functioning by the end of the Sixth Plan.

The Karnataka State archives started in 1973 also has in its possession records of old Mysore State dating back to 1866. A regional office will be shortly opened in Mysore while plans have been mooted for other regional offices in Dharwar and Gulbarga.

Among the British Presidencies in India, Madras was the first province to establish the record office at Fort St. George in 1805. The general record office of Fort William at Calcutta was established in 1813 while the Bombay archives was set up in 1821. The Historical Records (of National Importance) Act, to provide for the declaration of certain historical records to be of national importance and to provide for their preservation and due management, was passed in 1957.

Museums

India, it has been said, is itself a large complex museum, in view of the unity amidst diversity of its ancient heritage and valued treasures. For "a well-organised museum can influence people of all classes and of all ages."

The museums aim at three important functions: acquisition and preservation of objects of historical and cultural interests, the advancement of knowledge through the study of these objects and diffusion of knowledge for the uplift of common man's life.

Three key factors have contributed to the development of the museum movement.

First and foremost were the efforts of learned men and societies, the jubilee celebrations of Queen Victoria and Lord Curzon's encouragement. The origin of the movement goes back to the days when the Royal Asiatic Society of Bengal was founded in 1784 with Sir William Jones as its first president. With curios accumulating over the years the problem of space became acute. A museum was suggested by the Danish botanist, Dr. Nathaniel Wallich, in 1814, who offered not only his services as curator but readily donated duplicates from his own collection. This proposal was accepted and a museum was set up. By the Indian Museum Act, 1866, a Trustee Board was created and all collections of the Asiatic Society were handed over to the Board. This was the beginning of the Indian Museum, which initially designed to be the national museum of India, was thrown open to the public in 1878. At present it is divided into five sections—zoological, ethnological, geological, archaeological and industrial and received statutory recognition in 1910. It is the largest and most important museum in the subcontinent and Asia.

The Victoria and Albert Museum in Bombay, renamed the Bhau Daji Lad Museum, was established in 1857 by the earnest efforts of Dr. Buist and later handed over to municipal control in 1885.

Lord Curzon gave a great impetus to the efforts of setting up of a museum and found an energetic and able supporter in the then Director-General of Archaeological Survey, Sir John Marshall. From 1902, within a span of ten years, several smaller museums were established at Ajmer, Baripada, Chamba, Jodhpur, Khajuraho, Gwalior, Bijapur and Dacca. Sir John was also responsible for the archaeological museums at Sarnath and the Central Asian Antiquities Museum at New Delhi.

The Prince of Wales Museum Act was passed in 1909 to commemorate the visit of prince (George V) and Princess of Wales to Bombay in 1905. The building was constructed in 1914 but was used as a military hospital during World War I. It was handed over to the Trustees in 1921. The Bombay Natural History Society is another important landmark which completed its centenary in 1983 and which the Prime Minister Mrs. Indira Gandhi inaugurated. A commemorative stamp was also released on the occasion.

There are now more than 200 museums in India among which perhaps the youngest is the National Museum in Delhi. Opened in 1960, it grew out of loans to the great exhibition of Indian art held in London in 1947-48 and is the most modern of all museums.

Recently a science museum has been mooted for Bhopal having galleries with scientific puzzles and games, a planetarium and also a library.

In view of Bombay's maritime importance as a leading seaport, the Gateway to India, a Maritime museum has been recently established in Bombay.

The Raja Kelkar Museum in Pune, the Salar Jung Museum in Hyderabad, the Heras Institute of Indian History and Cultural Museum in Bombay are sparks of individual efforts.

Given below is a selected list of important libraries, museum libraries and archives.

LIBRARIES

For libraries attached to Universities please see the name of the University under the State.

The four depository libraries in India are:

1. Central Library, The, Town Hall, Bombay 400001.
2. Connemara State Central Public Library, Madras 600008.
3. Delhi Public Library, S.P. Mukerji Marg, Delhi 110006.
4. National Library, Belvedere, Alipore, Calcutta 700027.

Andaman and Nicobar Islands:

Port Blair District Library, Port Blair.

Andhra Pradesh:

Public and subscription libraries:

Adilabad District Central Library, Adilabad Dist. 504001.
Central Library (Hyderabad City Grandhalaya Samstha), Near Clock Tower, Sebastian Road, Secunderabad 500003.
City Central Library, Hyderabad City Grandhalaya Samstha, 3-6-192, Himmatnagar, Hyderabad 530029.

Guntur District Central Library, Guntur 522001.
Hanamkonda District Central Library, Hanamkonda, Warrangal 506002.
Government Regional Library, Dwarakanagar, Visakhapatnam 530004.
Regional Library, Nizamabad 503001.
Sri Ram Chandra Grandhalaya, West Godavari Dist., P.O. Poduru 534327.
State Central Library, Afzalganj, Hyderabad 500012.
Theosophical Society, The Library, Officers' Line, Chittoor 517001.

Special libraries:

Abul Kalam Azad Oriental Research Institute Reading Room and Library, Public Gardens, Hyderabad 500004.
Braille Section, Central State Library, Government of Andhra Pradesh, Hyderabad 500004.
Children's Library, Tankbund (Hyderabad City Grandhalaya Samstha), Takbund, Hyderabad-500001.
Government School for the Blind Library, Hyderabad 500004.
Khwateen-e-Deccan Library and Research Institute, Behind Police Officers' Mess, 10-5-3/1, Masab Tank, Hyderabad 500028.

Assam and Meghalaya:

Public and subscription libraries:

Dibrugarh District Library, Dibrugarh 768001.
Gauhati District Library, Gauhati 781001.
Government of Assam State Central Library, Shillong 793001.
Nowgong District Library, Nowgong 782001.
Tezpur District Library, Tezpur, Darrang 784001.

Bihar:

Public and subscription libraries:

British Council Library, Patna Branch, Bank Road, Patna 800001.
Khuda Baksh Oriental Public Library, Patna 800004.
Maheswar Public Library, P. O. Mahendra, Patna 800006.
Shrimati Radhika Sinha Instt. and Sachchidananda Sinha Library (Bihar State Central Library), G.P.O., Patna 800001.

Chandigarh:

Public and subscription libraries:

Gandhi Smarak Nidhi Library, Sector 16, Chandigarh 160016.
T.S. Central State Library, Sector 17, Chandigarh 160017.

Delhi:

Public and subscription libraries:

British Council Library, Delhi Branch, Aifacs Building, Rafi Marg, New Delhi 110001.
Delhi Public Library, S.P. Mukherji Marg, Delhi 110006.
Hardinge Municipal Public Library, Gandhi Maidan, Fountain, Delhi 110006.
Indian Council of World Affairs Library, Sapru House, Barakhamba Road, New Delhi 110001.
Information Centre Government of India Library, H-Block, Connaught Circus, New Delhi 110001.
Max Mueller Bhavan Library, 3, Kasturba Gandhi Marg, New Delhi 110001.
Purushottamdas Tandon Library, Lajpat Bhavan, Lajpat Nagar, New Delhi 110024.
Sahitya Akademi Library, Ravindra Bhavan, 35, Ferozshah Road, New Delhi 110001.

Special libraries:

Blind Social Welfare Society Library, Panchkuin Marg, New Delhi 110011.
Inter-Library Resources Centre (IRLC), 35, Ferozshah Rd., New Delhi 110001.
Jawaharlal Institute of Physical Medicine and Rehabilitation Library (Managed by the Council for the Aid of Crippled and Handicapped, New Delhi), 4, Rouse Avenue Lane, New Delhi 110001.

Gujarat:

Public and subscription libraries:

Borton Library, Diwanpara Rd., Bhavnagar 364001.
Central Library, Near Mandvi, Baroda 394220.
Junagadh Library, Azad Chowk, Junagadh-362001.
Hirojirao Narayana Mane Sarvajanik Pustakalaya, Vaghodia, Baroda Dist.
Mahila Sarvajanik Pustakalaya, Baroda Dist., Sinor 391115.
Parikh Chandulal Keshavlal Sarvajanik Pustakalaya, Kaira Dist., Petlad 388450.
Seth Maneklal Jethabhai Pustakalaya, Ellis Bridge, Ahmedabad 380006.

Special libraries:

Blind Men's Association's Library, Near A.T.I.R.A., Opp. Indian Institute of Management, Gujarat.
Jyoti Sangh Mentally Retarded Adolescent Girls' library, Tilak Rd., Ahmedabad 380001.

Haryana:

Public and subscription libraries:

Adarsh Library, Bhim Nagar, Gurgaon 122001.
Gandhi Peace Foundation, Gandhi Library, Punjabi Mohalla, Ambala Cantt.
Hissar Dist. Library, Hissar 125001.
Kaithal Municipal Library, Kaithal 132027.
Narnaul Dist. Library, Narnaul 123001.

Himachal Pradesh:

Public and subscription libraries:

Chamba Church Centenary Memorial Library and Reading Room, Chamba 176310.
Chamba Dist. Library, Chamba 176310.
Dharamsala Govt. Dist. Library, Dharamsala 176215.
Kinnaur Dist. Library, Kalpa 172108.
Lala Lajpat Raj Library, Mahatma Hansraj Bhawan, Joginder Nagar 176120.
Motilal Nehru Central State Library, Solan 173212.
Nahan Govt. Dist. Library, Nahan 173001.

Special Library:

Library of Tibetan Works and Archives, Dharamsala 176215.

Karnataka:

Public and subscription libraries:

B. Conmie Library, Bangalore Branch, 29, St. Marks Rd., Bangalore 560001.
Bellary District Central Library, Bellary 583101.
City Central Library, 80, K.H. Rd., Bangalore 560027.
City Central Library, K.S.R. Light House, Hill Rd., Mangalore 575003.
Coorg Dist. Central Library, Coorg, Mercara 571201.
Hassan Dist. Central Library, Hassan 573201.
Indian Institute of World Culture, The Library, Sri B.P. Wadia Rd., Basavangudi, Bangalore 560004.
Karwar General Library, Karwar 581301.
Nellore Dist. Central Library, Nellore.
Rotary Children's Library, Jhansi Lakshmibai Rd., Mysore 570001.
Sri Krishnarajendra Literary and Sports Association (Regd.) Library, Central Leprosarium, Magady Rd., Bangalore 560012

Param Vishisht Seva Medal (1984): Lt. Gen. K. Balaram, Signals, Lt. Gen. Hridaya Kaul, Armoured Corps, Lt. Gen. Mathew Thomas, Infantry, Lt. Gen. Ranjit Singh Dayal, Infantry, Lt. Gen. Sehdev Sahgal Infantry, Lt. Gen. Devendra Swaroop (EME), Lt. Gen. A. D. Mohoni (AOS), Lt. Gen. Misbah Mayadas, Armoured Corps, Vice-Admiral M. K. Roy, Vice-Admiral R. H. Tahiliani, Vice-Admiral Subimal Mookerjee, Vice-Admiral Kewal Krishan Nayyar, Air Marshal E. P. R. Nari, Flying (Navigator), Air Marshal Denis Anthony L. Fontaine, Flying (Pilot), Air Marshal Jagjit Singh Sandhanwalia, Aeronautical Engineering (Mechanical), Maj. Gen. Amar Singh Sehgal (AOC), Maj. Gen. Sami Khan, Infantry, Maj. Gen. Aravind Moreshwar Joglekar, Engineers (retd), Maj. Gen. R. K. Gupta, Signals (retd), Air Vice-Marshal Madan Lal Sethi, Flying (Navigator), Air Vice-Marshal J. W. Greene, Flying (Pilot), Air Vice-Marshal Jugal Kishore Kapur, Aeronautical Engineering (Mechanical).

Kirti Chakra (1984): Naik Ram Bahadur Chhetri, Assam Rifles (Posthumous), Mohd. Yakud Ali (Posthumous), Capt. Karni Singh Rathore, Rajputana Rifles, Mr. Suresh Kumar (Posthumous), Arvinder Pal Singh, A. K. Sharma (Posthumous). Sepoy Imesh Chandra, Kumaon (Posthumous), Rifleman Sripal Chand, Garhwal Rifles, Maj. N. J. Nair, Maratha Light Infantry, Sq. Ldr. H. N. Bahadur Thapa, Assam Rifles (Posthumous), Wg. Cdr. Ravish Malhotra who was stand-by to Sq. Ldr. Rakesh Sharma in the first joint Indo-Soviet space mission in 1984.

Ati Vishisht Seva Medal (1984): Maj. Gen. Naresh Hoon, Artillery, Maj. Gen. G. S. Jamwal, Infantry, Maj. Gen. P. D. Sharma, Army Education Corps, Maj. Gen. V. K. Sood, Infantry, Maj. Gen. K. S. Brar, Infantry, Maj. Gen. Tirlok Singh, Artillery, Maj. Gen. P. C. Kochhar, Army Dental Corps, Maj. Gen. (Mrs) Glena Albertina Saha. Military Nursing Service, Maj. Gen. R. A. Gokhale, (EME) (retd), Maj. Gen. S. C. Das, (AMC) (retd), Rear Admiral Bans Narayan Singh, Air Vice-Marshal Kuldeep Singh, Aeronautical Engineering (Mechanical), Air Vice-Marshal Nambi Srinivasa Gopalan, Accounts, Air Vice-Marshal Kuldip Krishan Bakshi, Administrative (retd), Brig. N. C. Mehra, Infantry, Brig. Maharaj Singh, Engineers, Brig. Dilbagh Singh, Infantry, Brig. H. C. Pathak, Infantry, Brig. K. B. Malik, Artillery, Brig. Balvir Ahuja, Engineers, Brig. Y. N. Sharma, Infantry, Brig. R. V. Kulkarni, Infantry, Brig. P. C. Mankotia, Infantry, Brig. Gurcharan Singh, Engineers, Brig. Surinder Singh, Armoured Corps, Brig. Ashok Kumar Mehta, Infantry, Brig. Moti Lal Dar, Armoured Corps, Brig. A. K. Sen Sarma (AMC), Brig. Narjit Singh, Armoured Corps (retd), Brig. Donald Bernard White, Infantry (retd), Commodore M. B. Kunte, Commodore V. S. Shekhawat, Commodore Indrashil Chennagiri Rao, Commodore Ramendra Sharma, Commodore K. M. Kumar (retd), Air Commodore K. M. Rishi, Accounts (retd), Col. K. B. Kapoor, Artillery Medical Corps (retd), Surgeon Capt. Philips Koshi (retd), Group Capt. Jasjit Singh, Flying (Pilot), Gr. Capt. K. A. Hariharan, Flying (Pilot), Gr. Capt. T. K. Seshachari, Aeronautical Engineering (Mechanical), Gr. Capt. P. C. Bugga, Aeronautical Engineering (Mechanical), Gr. Capt. Bharat Kumar, Flying (Pilot), Gr. Capt. K. Lakshmanan, Aeronautical Engineering (Electrical) and Gr. Capt. S. Paranjape, Aeronautical Engineering (Mechanical).

Shaurya Chakra (1984): Civilian Officer, Grade III, K. N. Mainali (Posthumous), Pioneer R. V. Kandathivadakethil, Lt. Ravinder Kakar, Sq. Ldr. S. K. Dixit, Flying (Pilot), Lance Naik P. B. Chhetri, Assam Rifles, Naik Subedar D. S. Thakur, Gorkha Rifles, Capt. K. S. Muthukrishnan, Engineers, Lt. Sushil Singh, J&K Rifles, Lt. Commander A. M. Chitnis, Mason Prithi Singh, Sowar Kalu Ram Jat, Armoured Corps, Flt. Lt. S. L. N. Thantry, Aeronautical Engineering (Electronics), Flt. Lt. S. C. Gaur, Aeronautical Engineering (Mechanical), Naib Subedar D. S. Aswal, Garhwal Rifles, Wing Commander D. K. R. Asher, Flying (Pilot), (Posthumous), Maj. Prem Bahadur Thapa, Garhwal Rifles, Lt. Com. Rajbir Singh Gill, Lt. Com. K. S. Sarma, Lt. Com. K. S. Randhawa, Lt. Com. Rajesh Sethi, Sq. Ldr. R. S. Tandon, Flying (Pilot), Capt. Gopi Lal Paneri, Grenadiers, Naik Subedar Rajendra Singh, Garhwal Rifles, Rifleman Parsu Chhetri (Posthumous), Maj. Ganesh Kale, Maratha Light Infantry, Maj. M. P. Veetil, Madras, Mate Kishan Lal, Sq Ldr. K. P. N. Singh, Flying (Pilot), Sq. Ldr. B. N. Ramachandra, Flying (Pilot) and Master Warrant Officer S. C. Sen, Flight Gunner.

INDIAN NATIONAL SCIENCE ACADEMY AWARDS (1983)

The award consists of a medal and a cash prize of Rs.5,000. *Recipients:* P. K. Agarwal, Water Technology Centre, Indian Agricultural Research Institute, Delhi; Dr. Ram Bhooj, Director of Environmental Ecology, Lucknow; Dr. Deepak Dhar, Theoretical Physics Group, Tata Institute of Fundamental Research, Bombay; Dr. Chandana Halder Mishra, Deptt. of Zoology, Banaras Hindu University, Varanasi; Dr. (Mrs.) Sumita Jha, Centre of Advance Study in Botany, Calcutta University; H. R. Krishnamurthy, Physics Deptt., Indian Institute of Science, Bangalore; Dr. (Miss) Verendrajit Lamba, Deptt. of Zoology, Delhi University; Dr. M. L. R. Lobo, Deptt. of Applied Mathematics, Indian Institute of Science, Bangalore; Dr. G. Malakondiah, Defence Metallurgical Research Laboratory, Hyderabad; Dr. B. V. Venkatraman Prasad, Molecular Biophysics, Indian Institute of Science, Bangalore; H. V. Rambabu, Airborne Surveys, National Geographical Research Institute, Hyderabad; Dr. N. C. Rana, Radio Astronomy Group, Tata Institute of Fundamental Research, Bombay; Dr. D. D. Sharma, Solid State Structural Chemistry Unit, Indian Institute of Science, Bangalore; Dr. D. C. Shastri, Groundnut Improvement Programme, Indian Council of Agricultural Research Institute, Hyderabad; Anil Kumar Saxena, Medical Chemistry Division, Central Drug Research Institute, Lucknow; Dr. A. K. Srivastava, Deptt. of Zoology, Gorakhpur University; Rakesh Tuli, Biology and Agriculture Division, Bbabha Atomic Research Centre, Bombay.

INDIAN COUNCIL OF MEDICAL RESEARCH AWARDS (1982)

This award is given by I.C.M.R. for outstanding work in the field of research. It consists of a citation medal and a cash amount.

The list of awards is as follows:

Dr. P. N. Raju Oration Award: Dr. Kalyan Banerjee (tropical virology).

Sandoz Oration Award: Dr. I. K. Dhawan (advanced cancer of the cheek mucosa).

Dr. Y. S. Narayana Rao Award: Dr. S. S. Agarwal (Staphylococcal infections).

Dr. Kamala Menon Medical Research Award: Dr. S. S. Jolly (endemic fluorosis in Punjab).

Shakuntala Amir Chand Prize: Dr. A. C. Banerjee, Dr. T. C. Raghuram and Dr. Arun Fotedar.

Dr. V. N. Patwardhan Prize: Dr. Prema Ramachandran (Maternal nutrition).

Kshanika Oration Award: Dr. Prithika Chary (Dysphasis in South Indian Population) and Dr. Bani Gajra Bhattacharya.

Dr. M. K. Seshadri Prize: Dr. F. M. Rodrigues.

M. N. Sen Oration Award: Dr. P. Upadhyaya and Dr. G. B. Maru.

ARJUNA AWARDS

The awards were announced on the recommendation of the All India Council of Sports.

Winning Sportsmen, 1981: Krishna Bose *(Archery)*: Sabir Ali *(Athletics)*; G. Manoharan (*Boxing*); Dilip Vengsarkar *(Cricket)*; Sudhir Karmakar (*Football*); Varsha Soni (*Hockey*); Monika Nath *(Kabaddi);* Hemant Takalkar and Sushama Sarolkar (*Kho Kho*); Colonel Sandhu, Chandraprabha Aitwal, Rekha Sharma and Harshawati Bist *(Mountaineering)*; Sharad Chauhan *(Shooting)*; Vijaykumar Satpathi *(Weight-lifting)*; Zareer Karanjia *(Yatching)*.

1982: Charles Boromlo, Chand Ram and Valsamma *(Athletics)*; Partho Ganguli and Madhumita Goswami *(Badminton)*; Ajmer Singh (*Basketball*); Kaur Singh (*Boxing*); Mohinder Amarnath (*Cricket*); Laxman Singh (*Golf*); R. S. Brar and Raghubir Singh (*Horse Riding*); Bhuvaneshwari Kumari (*Squash*); Persis Madon (*Swimming*); Venugopal Chandrashekhar (*Table Tennis*); G. E. Shreedharan (*Volley Ball*); Tara Singh (*Weight-lifting*); Kartar Singh (*Wrestling*); Farukh Tarapore and Falli Unwalla (*Yatching*).

BAJAJ AWARDS (1983)

The award consists of a citation, a medal and a cash prize of Rs. 100,000.

Recipients: 1. Tagadur Ramachandra Rao of Mysore; 2. Dr. Manibhai Bhimbhai Desai, Director, Bharatiya Agro-Industries Foundation, Uruli Kanchan, Pune; and 3. Mrs. Pushpaben Janardanbhai Mehta of Ahmedabad.

(1973); Eisoku Sato (J), Sean McBride (Ir) (1974); Dr. Andrei Dimitrievich Sakharov (Ru) (1975); Betty Williams, Mairead Corrigan and Claran Mekeown (Ir) (1976); Amnesty International (1977); Pres. Anwar Sadat (E) and Menachem Begin (Is) (1978); Mother Teresa (In) (1979); Adolf Perez Esquivel (Ar) (1980); Mrs. Alva Myrdal (S), Alfonso Garcia Robles (Mexico) (1982); Lech Walesa (P) (1983).

Economics: Prof. Jan Tinbergen (Dutch) (1969); Prof. Paul A. Samulson (A) (1970); Dr. Simon Kuznets (U.S.A.) (1971); Prof. John R. Hicks (B), Prof. Kenneth J. Arrow (A) (1972); Prof. Wassily Leontief (R) (1973); Prof. Gunner Myrdal (Sw), Friedrich Von Hayek (Br) (1974); Dr. Tjalling Roopmans (A), Dr. Leonid Kantorovich (Ru) (1975); Prof. Milton Friedman (A) (1976); Prof. Bertil Ohlin (S), Prof. James Meade (B) (1977); Prof. Herbert A. Simon (A) (1978); Prof. Theodore Schultz (A), Sir Arthur Lewis (W.I.) (1979); Lawrence Klein (A) (1980); Prof. James Tobin (A) (1981); Prof. George Stigler (A) (1982); Gerard Debreu (A) (1983).

MAGSAYSAY AWARDS

1981: Dr. Prawesi Wasi (Thailand), *Government Service;* Pramod Karan Sethi (India), *Community Leadership;* Mrs. A. H. Nasution (Indonesia), *Public Service;* Augustine Jung Ryul Kang (South Korea), *International Understanding;* Gour Kishore Ghosh (India), *Courage in Defence of Individual and Press Freedom.*

1982: Arturo P. Alcaraz (Philippine), *Government Service;* Chandi Prasad Bhatt (India), *Community Leadership;* Manibhai Bhimbai Desai (India), *Public Service;* Arun Shourie (India), *Journalism, Literature and Creative Communication Arts.*

1983: Rev. Aloysius Schwartz (America), *International Understanding;* Fua Hariphitak (Thailand), *Public Service;* Mayor su Nan-Cheng (Taiwan), *Government Service;* Rev. Marcelline Jayekody (Sri Lanka), *Journalism, Literature and Creative Communication Arts;* Anton Soedjarwo (Indonesia); *Community Leadership.*

(See also 'Late Particulars')

RESEARCH

SCIENTIFIC research is gathering momentum in different disciplines in different parts of the country. It is being carried out under the auspices of the Central and State Governments. Several private organisations, including industry, are also doing private research.

In the industrial field too, scientific research has come to play an important part in the improvement of goods.

The Central Government has offered several incentives to promote research.

EXPENDITURE: In 1950-51 the country spent Rs. 47 million on research and development. By 1980-81 it had gone up to Rs. 7,260 million. The total allocation in the Sixth Five Year Plan (1980-85) for scientific and technological activities (both plan and non-plan) is Rs. 33,970 million. This, however, does not include investments on research and development by private organisations including industry.

NATIONAL RESEARCH DEVELOPMENT CORPORATION OF INDIA: 20-22, Zamroodpur Community Centre, Kailash Colony Extn., New Delhi 110048.

Main Functions

To transfer technology and licence know-how developed at the R. & D. organisations in the country; to encourage inventive talent and to develop and promote utilisation of Indian technology abroad; to finance pilot plants/demonstration units and making of prototypes and to fill technological gaps in the country by promoting developmental projects in collaboration with industry.

Publications

NRDC Processes (English, Half-Yearly); *Invention Intelligence* (English Monthly); *Awishkar* (Hindi Monthly); *Gram Shilp* (Hindi Quarterly) and *CTT Digest* (English Quarterly).

COUNCIL OF SCIENTIFIC AND INDUSTRIAL RESEARCH: Rafi Marg, New Delhi 110001.

CSIR functions as a part of the Deptt. of Science and Technology. There are 40 research establishments, which include national laboratories and two information centres. In addition, there are constituent technical divns. at the Hqrs., viz., Dn. for Scientific and Technical Manpower, Technology Utilisation Dn., Planning Dn, Extramural Research Dn., Intnl. Scientific Collaboration Dn. and Public Relations Unit.

National Register maintained by the Dn. for Scientific & Technical Personnel, CSIR, is a clearing house of information regarding availability and utilisation of Indian scientists, engineers, technologists, medical personnel and social scientists in India and abroad.

NATIONAL LABORATORIES/INSTITUTES

Aeronautical Laboratory, National, *P.O. Bag No. 1779, Bangalore 560017*—Scientific investigations into the problems of flight and their practical application to design, construction and operation of flight vehicles in India.

Botanical Research Instt., National, *Rana Pratap Marg, Lucknow 226001*—Primarily concerned with agro-botany and utilisation of non-agricultural/non-traditional economic plants, and with discovering new vegetable raw materials of industrial value.

Building Research Institute, Central (CSIR), *Roorkee* 247672, *U.P.*—Undertakes applied research on planning, foundation, materials, design, construction and fire safety aspects of bldgs. for achieving functional efficiency, speed, economy and productivity in bldg. construction. The Instt. has six extension centres at Delhi, Bhopal, Ahmedabad, Calcutta, Hyderabad and Trivandrum.

Cellular & Molecular Biology Centre, *Hyderabad 500007*—Set up by CSIR, it is already recognised as one of the premier research insttns. around the world in modern biology. It is playing an important role in the devpt. of both basic biology and biotechnology in the country. When completed, it would house sophisticated laboratory facilities for modern scientific work.

Chemical Biology, Indian Institute of, *4, Raja Subodh Chandra Mullick Rd., Calcutta 700032*—Research on basic and applied sciences on current biological and medical needs of the country.

Chemical Laboratory, National, *Pune* 411008—Fundamental and applied research in the field of Chemistry and Chemical Technology. Undertakes contractual research.

Fields of Specialisation: Catalysis and catalytic reaction, engg., drugs and drug intermediates, biotechnology, equipment design and devpt., fluidisation, materials science, pest control agents, plant tissue culture, polymer science and engg., polymer synthesis and modification.

Cultural Property, National Research Laboratory for Conservation of, *C-257, Niralanagar, Lucknow 226007*—Conducts research for technical study and conservation of objects of art, archaeology, ethnology, library, etc. It also assists in setting up of laboratories and giving technical advice to any laboratory relating to conservation of arts. Conducts trg. in conservation of cultural property. Has with it specialised library with 4,700 vols., and subscribes to 67 journals.

Drug Research Institute, Central, *Chattar Manzil Palace, P.O. Box 173, Lucknow 226001*—All aspects of drug research including evaluation and standardisation of crude drugs, discovery of substitutes for pharmacopoeial drugs and plants, pharmaceutical and synthetic chemicals, biochemistry and biophysics, infection, immunisation, pharmacology, chemotherapy and experimental medicine.

Electro-Chemical Research Institute, Central, *Karaikudi 623006, Tamil Nadu*—Research on different aspects of electrochemical science and technology. The institute has two extension centres at Madras and Cochin and a corrosion testing laboratory at Mandapam Camp.

Electronics Engineering Research Institute, Central, *Pilani 333031, Rajasthan*—Research, design and development work in the area of *(i)* vacuum tubes, *(ii)* semi-conductor devices, *(iii)* electronic equipment, control systems, *(iv)* communication systems, *(v)* audio systems.

Environmental Engineering Research Institute (NEERI), National, *Nehru Marg, Nagpur 440020.* Formerly known as Central Public Health Engg. Research Instt., it has zonal laboratories at Ahmedabad, Bombay, Calcutta, Cochin, Delhi, Hyderabad, Jaipur, Kanpur and Madras.

Food Technological Research Institute, Central, *Cheluvamba Mansion*, 570013 — R. & D. in post-harvest technology for conservation of food resources and to promote food industries. To develop nutritious foods; to provide assistance to industry and new entrepreneurs. Serves as an international trg. centre in food science and technology and also as an Associated Insttn. of the U.N. Univ. for advanced trg. & research in post-harvest conservation, preservation & processing of food. Its library functions as the National Information Centre for Food Science and Technology, offering a variety of information services. An international school of Milling Technology geared to developing countries has just been established as a joint Indo-Swiss venture.

Fuel Research Institute, Central *(CSIR), P.O.: F.R.I.* 828108, *Dhanbad Dist., Bihar*—Fundamental and applied research on fuels, coal and lignite. Physical and chemical surveys of coals are done by its seven coal survey laboratories.

Geophysical Research Institute, National, *Uppal Rd., Hyderabad 500007*—Fundamental & applied research in Geophysics; studies on Lithosphere, Environment, Systems & Software Development; exploration of Minerals (coal, oil & groundwater), Engg. Geophysics, Theoretical/Modelling & Instrumentation Development.

Glass and Ceramic Research Institute, Central, *Jadavpur University P.O., Calcutta* 700032 — Applied research on glass, pottery, refractories, vitreous enamels and mica; evaluation and utilisation of indigenous raw materials, import substitution, development of new processes and products, improvement in quality of industrial products, standardisation, etc.; undertakes investigation sponsored by industry and operates pilot plant for the production of optical glass. The Institute has established its two extension centres, *(i)* at the Naroda Indl. Estate on the outskirts of Ahmedabad & *(ii)* at Khurja (U.P.). *Director:* Dr. S. Kumar.

Leather Research Institute, Central, *Adyar, Madras* 600020 — Fundamental and applied aspects of leather technology and allied fields like footwear, leather goods and auxiliaries, and machinery for these industries; technology transfer, techno-economic survey, consultancy, trg., promotional activities & information services in these fields.

Mechanical Engineering Research Institute, Central, *Mahatma Gandhi Ave., Durgapur* 713209, *W. Bengal* — Conducts research and devpt. in all aspects of mechanical engg. It maintains Mechanical Engineering Research and Development Orgn. Centres at Ludhiana, Pune, Madras, Durgapur and Cochin and a liaison office at Calcutta.

Medicinal & Aromatic Plants, Central Institute of, *Post Box No. 1, Ram Sagar, Misra Nagar, Lucknow* 226016 — Devpt., cultivation & processing of medicinal and aromatic plants. It has Regnl. Centres at Bangalore, Pantnagar (U.P.), Jammu & Kashmir, Kodaikanal & Darjeeling and a commercial unit consisting of farms & factories in Jammu & Kashmir. One demonstration farm has started functioning at Boduppal (A.P.).

Metallurgical Laboratory, National, *Jamshedpur* 831007, *Bihar* — Fundamental and applied metallurgical research. It maintains six field stations in Punjab, Tamil Nadu, Gujarat and West Bengal.

Mining Research Station, Central, *Barwa Rd., Dhanbad* 826001, *Bihar* — To assess the technical needs of the mining industry and to study the feasibility of new methods and techniques; to devise means of improving the standards of safety, health and efficiency in mining industry; to develop new machines, methods and practices as required and to suggest import substitutes, etc. etc.

Oceanography, National Institute of, *Dona Paula* 403004, *Goa* — Research on physical, chemical, biological, geological, geophysical, pollution, instrumentation & engg. aspects of oceanography including prospecting for petroleum, minerals, organic chemicals & food from the sea. The Institute has regional centres at Bombay, Cochin and Waltair and an Indian National Oceanographic Data and Information Centre at the headquarters.

Petroleum, Indian Institute of *(CSIR), P.O.: I.I.P., Dehra Dun* 248005 — Research in petroleum refining and processing of natural gas, petrochemicals, demand surveys on petroleum products, process design, devpt. of alternate fuels and the training of personnel.

Physical Laboratory, National, *Hillside Rd., New Delhi* 110012 — Custody, development, maintenance & updating of the national standards of physical measurements, with facilities for calibration, evaluation and developmental & type testing against specifications; research in fundamental and applied physics; development of physics-oriented technologies.

Research Laboratory, Regional, *Bhubaneswar* 751013, *Orissa* — Research and developmental work on minerals, metals, chemicals, forest and marine products with major emphasis in the area of minerals and metals, leading to development of new processes and products for setting up industries; undertaking projects on sponsored/collaborative basis including setting up of pilot plants, engineering consultancy and preparation of feasibility reports for commercial exploitation.

Research Laboratory, Regional, *Hyderabad* 500009 — General research & testing facilities.

Research Laboratory, Regional, *Canal Rd., Jammu Tawi* 180001, *Jammu & Kashmir* — Research on the utilisation of plant, animal and mineral resources and their waste products; development of drugs, fermentation products and phytochemicals.

Research Laboratory, Regional, *Jorhat* 785006, *Assam* — R. & D. work relating to efficient utilisation of important natural resources of N. Eastern Regn. as well as development of processes having national importance.

Road Research Institute, Central *(CSIR), Mathura Rd., P.O.: CRRI, New Delhi 110020* — Research in highway, bridge & traffic engg.

Salt & Marine Chemicals Research Institute, Central, *G. Badheka Marg, Bhavnagar* 364002, *Gujarat* — Research & devpt. work on solar salt, marine & inorganic chemicals, corrosion, co-ordn., bio-inorganic chemistry & homogenous catalysis by metal complexes, seaweed studies & utilisation, phytosalinity, desalination of sea/brackish water, reverse osmosis, ion exchange & electrodialysis, utilisation of solar & wind energy for different applications.

Scientific Instruments Organisation, Central, *Sector 30, Chandigarh* 160020 — Design and development of scientific instruments for teaching, research and industry with service centres in New Delhi, Madras, Calcutta, Bombay, Lucknow, Hyderabad, Chandigarh, Cochin and Jaipur.

Structural Engineering Research Centre, *Roorkee* 247667, *Uttar Pradesh* — Research in specialised design and development work in the field of high-rise bldgs., large span structures, tunnelling, and underground structures. Develops computer software for civil engg. applications. Provides design consultancy services in civil engg.

Toxicology Research Centre, Industrial, *M. Gandhi Marg, Post Box 80, Lucknow 226001*—To identify health hazards to which industrial and agricultural workers are exposed in their working environment; to conduct experimental studies on the mode of action of environmental pollutants & tissue injury evoked by them; to develop suitable diagnostic tests & suggest remedial and preventive measures; to delineate the adverse effects on man of low-dose long term exposure to toxic chemicals; to develop preventive & therapeutic measures against harmful effects of chemicals; to develop capabilities to fix TLVs or MACs for toxic chemicals taking into consideration environmental and inheritance factors characteristic of a fast developing society; to collect and disseminate documented information on hazardous chemicals & problems of indl. toxicology.

SCIENCE MUSEUMS

Centre, Nehru, *Dr. A. Besant Rd., Worli, Bombay 400018.*
Industrial & Technological Museum, Birla, 19A, *Gurusaday Rd., Calcutta 700019.*

Industrial & Technological Museum, Visvesvaraya, *Kasturba Rd., Bangalore* 560001.

INFORMATION CENTRES

Publications and Information Directorate, *Hillside Rd., New Delhi* 110012—This Directorate is one of the constituent units of the CSIR. It aims at dissemination of scientific knowledge & information, in pursuance of which it compiles the monumental work *The Wealth of India*—a dictionary of raw materials & indl. products (20 Vols.), besides bringing out a series of ad hoc pubns. in applied sciences. Apart from publishing 14 journals on scientific & technological disciplines & 3 popular science journals, it runs information services on medicinal/aromatic plants & industries, and also imparts trg. in editorial work.

Documentation Centre, Indian National Scientific (INSDOC), 14, *Satsang Vihar Mrg., New Delhi* 110067—Established in 1952, with technical assistance from UNESCO, it provides a complete range of documentation services in science and technology to individuals and institutions all over the country.

Information Science, Society for (SIS), *Insdoc Bldgs., Hillside Rd., New Delhi* 110012.

Social Science Documentation Centre (SSDC-ICSSR), 35, *Ferozeshah Rd., New Delhi* 110001. The Centre serves the information needs of social scientists; provides literature research services; bibliographies on demand; reprographic services; offers inter-library loans; exchange of publications & study grant facilities; maintains depository of periodicals, unpublished dissertations & research reports, etc., etc.

INDIAN COUNCIL OF AGRICULTURAL RESEARCH, *Krishi Bhavan, New Delhi* 110001.

A national body responsible for co-ordinating research, education & extension education in Agriculture, Animal Husbandry & Fisheries Sciences. It performs these functions in an integrated manner and operates through a national grid of co-operative research in which Central institutes & agricultural universities in different States participate as equal partners. The ICAR is involved directly in the research set-up through the existing 35 Central institutes, 3 national research centres, 5 project directorates, 58 all-India co-ordinated research projects including a special project for tribal & backward areas. In the Sixth Five Year Plan, 4 new institutes, 5 national research centres & 12 all-India co-ordinated projects are being added. Location-specific problems are also tackled through the 25 agricultural universities distributed all over the country and a few public, quasi-public & private insttns. The ICAR has also established a large number of first-line trg. insttns., Krishi Vigyan Kendras, and has undertaken operational research projects, and is operating a massive lab-to-land programme for the transfer of appropriate technology.

Agricultural Engineering, Central Instt. of, *Shri Guru Teg Bahadur Complex. Addl. 'A' Block, New Market, T. T. Nagar, Bhopal* 462003.

Agricultural Research Institute, Indian, *Pusa, New Delhi* 110012—The centre of origin of many new findings relevant to increasing productivity of our economic crops and of techniques for improving soil fertility, fertilizer use, water management, dryland farming and greater use of renewable sources of energy. It has provided leadership for the high yielding varieties programme that has contributed to our present production advance in agriculture. Since 1958, when it became a Deemed Univ., about 1,400 students have been awarded the M.Sc. and 1,600 students the Ph.D. degrees in 15 major disciplines.

Agricultural Research Institute for Andaman and Nicobar Group of Islands, Central, *Port Blair* 744101.

Agricultural Research Management, National Academy for, *Rajendranagar, Hyderabad* 500030.

Agricultural Statistics Research Institute, Indian, *Library Ave., New Delhi* 110012.

Arid Zone Research Institute, Central, *Jodhpur* 342001, *Rajasthan.*

Avian Research Institute, Central, *Izatnagar* 243122, *Uttar Pradesh.*

Bee Research Institute, Central, 839/1, *Deccan Gymkhana, Pune* 411004.

Black Cotton Soils of Karnataka, Advance Centre for Research on, *Coll. of Agriculture, Univ. of Agricultural Sciences, Dharwad* 580005.

Cereal Research Laboratory, *Indian Agricultural Research Instt., New Delhi* 110012.

Cotton Research, Central Institute for, *Lawley Rd., Coimbatore* 641007. *Tamil Nadu.*

Cotton Research, Central Instt. for, 95, *Pushpa Kunj, Canal Rd., New Ramdaspeth, Nagpur* 440010.

Cotton Technological Research Laboratory, *Adenwala Rd., Matunga, Bombay* 400019.

Crop Pests & Weeds, National Centre for Biological Control of, *42-III, Main Rd., Ganganahalli Layout, Bangalore* 560032.

Dairy Research Institute, National, *Karnal* 132002. *Haryana, Regional Stations: Eastern—at Kalyani, West Bengal; Southern—at P.O. Adugodi, Hosur Rd., Bangalore* 560030; *Western—at Aarey Milk Colony, Bombay* 400065.

Dryland Agriculture, All India Co-ordinated Research Project on, *Santoshnagar, Saifabad, Hyderabad* 500030. *Andhra Pradesh.*

Fisheries Research Institute, Central, *Barrackpore* 743101. *(West Bengal).*

Fisheries Technology, Central Institute of, *Wellingdon Island, Matsyapuri, Cochin* 682029, *Kerala.*

Fresh Water Aquaculture Research & Trg. Centre, *Dhuli Kausalyagang, Cuttack* 751002. *Orissa.*

Goat Research Institute, Central, *Makhdoom, P.O. Farah, Mathura* 281122. *Uttar Pradesh.*

Grassland and Fodder Research Institute, Indian, *Jhansi* 284003. *Uttar Pradesh.*

Groundnut, National Research Centre for, *Maharshi Dayanand Farm, Gujarat Agricultural University Campus, Junagadh* 362002, *Gujarat.*

Horticultural Research, Indian Institute of, *No.* 255, *Upper Palace Orchards, Bangalore* 560080.

ICAR Research Complex for North-Eastern Hills Region, *Cedar Lodge, Jowai Rd., Shillong* 793003. *(Meghalaya).*

Inland Fisheries Research Institute, Central, *Barrackpore* 743101, *West Bengal.*

Jute Agricultural Research Institute, *Barrackpore* 743101. *West Bengal.*

Jute Technological Research Laboratories, *12, Regent Park, Calcutta* 700040.

Lac Research Institute, Indian, *Namkum, Ranchi* 834010, *Bihar.*

Marine Fisheries Research Institute, Central, *P. Box* 1912, *Cochin* 682018, *Kerala.*

Oilseeds Research, Directorate of, *'D' Block, College of Agriculture, Rajendranagar, Hyderabad* 500030, *Andhra Pradesh.*

Plant Genetic Resources, National Bureau of, *FCI Bldg., CTO Complex, Pusa, New Delhi* 110012.

Plantation Crops Research Institute, Central, *Kudlu* 670124 *(Cannanore Dist.), Kerala.*

Potato Research Institute, Central. *Simla* 171001, *Himachal Pradesh.*

Rice Improvement Project, All India Co-ordinated, *Rajendranagar, Hyderabad* 500030.

Rice Research Institute, Central, *Cuttack* 753006, *Orissa.*

Sheep and Wool Research Institute, Central, *Avikanagar* 304501, *Rajasthan.*

Soil and Water Conservation Research & Training Institute, Central, 218, *Kaulagargh Rd., Dehra Dun* 248195, *Uttar Pradesh.*

Soil Salinity Research Institute, Central, *Karnal* 132001, *Haryana.*

Soil Survey and Land Use Planning, National Bureau of, *Seminary Hills, Nagpur* 440006.

Sugarcane Breeding Institute, *Lawley Rd., Coimbatore* 641007, *Tamil Nadu.*

Sugarcane Research, Indian Institute of, *P.O. Dilkusha, Lucknow* 266002, *Uttar Pradesh.*

Tobacco Research Institute, Central, *Rajahmundry* 533104, *Andhra Pradesh.*

Tuber Crops Research Institute, Central, *Trivandrum* 695017.

Veterinary Research Institute, Indian, *Izatnagar* 243122, *Uttar Pradesh.*

Vivekananda Parvatiya Krishi Anusandhan Shala, *Almora* 263601, *Uttar Pradesh.*

Water Technology Centre, *Indian Agricultural Research Institute, New Delhi* 110012.

INDIAN COUNCIL OF MEDICAL RESEARCH, *Ansari Nagar, New Delhi* 110029.

The ICMR is an autonomous organisation which initiates, develops and co-ordinates bio-medical research in the country. It maintains eighteen permanent institutes/centres and several semi-permanent research units. These institutions/centres have been marked with an asteriks in the list of important medical research bodies mentioned below:

Anatomy: *Institute of Anatomy, Madras Medical College, Park Town, Madras* 600003.

Cancer: (1) *Cancer Research Institute of Tata Memorial Centre, Parel, Bombay* 400012. (2) *Chittaranjan National Cancer Research Centre,* 37, *S. P. Mookerjee Rd., Calcutta* 700026. (3) *Mehdi Nawaz Jung Cancer Hospital and Radium Institute, Red Hills, Hyderabad* 500001, *Andhra Pradesh.* (4) **Cytology Research Centre, Maulana Azad Medical Coll., Bahadur Shah Zafar Mrg., New Delhi* 110002.

Cytology: **Cytology Research Centre, Maulana Azad Medical College, New Delhi* 110002.

Haematology: (1) **Institute of Immunohaematology, Seth G. S. Medical College, Bombay* 400012. (2) *ICMR Haematology Unit, School of Tropical Medicine, Calcutta* 700063.

Health, Preventive Medicine: (1) *†All India Institute of Hygiene and Public Health,* 110, *Chittaranjan Ave., Calcutta* 700012. (2) *Chemical Examiners' Laboratory, Madras* 600003. (3) *Public Health Laboratory, Red Cross Rd., Trivandrum* 695001, *Kerala.* (4) *Government Analyst's Laboratory, Red Cross Rd., Trivandrum* 695001, *Kerala.*

Indian Systems of Medicine: (1) *Institute for Ayurvedic Studies and Research, Dhanwantri Mandir, P.O. Bag* 513, *Jamnagar* 361001, *Gujarat.* (2) *†Institute of Research in Indigenous System of Medicine. Approach Rd., Jagindernagar, Himachal Pradesh.* (3) *Central Council for Research in Ayurveda and Siddha, Dharma Bhavan, S-10, Green Park Extn. Mkt., New Delhi* 110017. (4) *Central Council for Research in Unani Medicine, No.* 5, *Panchsheel Shopping Centre, New Delhi* 110017. (5) *Central Council for Research in Homoeopathy. C/o Homoeopathy Pharmacopoeia Laboratory, Navyug Market, Ghaziabad* 201001. (6) *Central Council for Research in Yoga and Nature Cure, Ashoka Rd., New Delhi* 110003.

Infectious Diseases: (1) **National Instt. of Cholera and Enteric Diseases, P-33, CIT Scheme XM, Beliaghata, Calcutta* 700013. (2) *Institute of Venereology, Government General Hospital, Madras* 600003. (3) *†National Institute of Communicable Diseases,* 22, *Alipore Rd., Delhi* 110006. (4) **Vector Control Research Centre, Opp. ESI Hospital, Indra Nagar, Pondicherry* 605006. (5) **Malaria Research Centre,* 22, *Sham Nath Mrg., Delhi.* 110054.

Leprosy: (1) *†Central Leprosy Teaching and Research Institute, P. O. Box* 1, *Chingleput* 603001. *Tamil Nadu,* (2) *Leprosy Investigation and Treatment Centre, Zaheerabad* 502220, *Andhra Pradesh.* (3) *Schieffelin Leprosy Research Sanatorium, Karigiri, Via Katpadi* 632007. *Tamil Nadu.* (4) **Central JALMA Instt. for Leprosy, Tajganj, Agra* 282001. *Uttar Pradesh.*

Malaria: *Malaria Eradication Programme, National,* 22, *Sham Nath Mrg., Delhi* 110054 *Malaria Research Centre,* 22, *Sham Nath Mrg., Delhi* 110054.

Medical Education and Research: (1) *†All India Institute of Medical Sciences, Ansari Nagar, New Delhi* 110029. (2) *†All India Institute of Physical Medicine and Rehabilitation, Haji Ali Park, Clerk Rd., Bombay* 400034. (3) *†Central Research Institute, Kasauli* 173204, *Himachal Pradesh.* (4) *Haffkine Institute for Training, Research and Testing, Parel, Bombay* 400012. (5) *Indian*

Institute of Experimental Medicine, 4, Raja Subodh Mullick Rd., Calcutta 700032. (6) *Institute of History of Medicine and Medical Research, 2/A-3, Asaf Ali Rd., New Delhi 110002.* (7) *Institute of Post-graduate Medical Education and Research, 244, Lower Circular Rd., Calcutta 700020.* (8) †*Jawaharlal Nehru Institute of Post-graduate Medical Education and Research, Pondicherry 605006.* (9) †*National Institute of Health Administration and Family Welfare, New Mehrauli Rd., New Delhi 110067.* (10) *Post-graduate Institute of Indian Medicine, Varanasi 221005, Uttar Pradesh.* (11) *Post-graduate Institute of Medical Education and Research, Sector 12, Chandigarh 160001.* (12) *Sheth K. M. School of Postgraduate Medicine and Research, Ellis Bridge, Ahmedabad 380006.* (13) **Laboratory Animal Information Service, National Instt. of Nutrition, Jamia-Osmania, Hyderabad 500007.* (14) **Regional Medical Research Centres, 107(P), Acharya Vihar, Bhubaneswar 751013, Orissa; Ferzard Ali Market, Aberdeen Bazar, Port Blair 744104, Andaman & Nicobar Islands; East Chowkindinghee, Dibrugarh 786001, Assam.*

Medical Sciences: **Rajendra Memorial Research Institute of Medical Sciences, Agam Kuan, Patna 800001.*

Medical Statistics: **Instt. for Research in Medical Statistics, ICMR, Ansari Nagar, New Delhi 110029; Sathyamurthi Rd., Chetput, Madras 600031*

Mental Health: (1) †*All India Institute of Mental Health, P. O. Bag 15, Shantinagar P. O., Bangalore 560027.* (2) *Hospital for Mental Diseases and Post-graduate Training Centre, Kanke, Ranchi 834001, Bihar.*

Nutrition: **National Institute of Nutrition, Jamia-Osmania, Hyderabad 560007, Andhra Pradesh.*

Occupational Health: (1) *Industrial Toxicology Research Centre, Chattar Manzil Palace, Post Box 80, Lucknow 226001, Uttar Pradesh.* (2) **National Institute of Occupational Health, Meghani Nagar, Ahmedabad 380016, Gujarat.* (3) **Regional Occupational Health Centres: PPC Block, Bangalore Medical College Campus, Bangalore 560002; C/o All India Instt. of Hygiene and Public Health, 110, Chittaranjan Ave., Calcutta 700012.*

Ophthalmology: (1) *M. U. Institute of Ophthalmology, Gandhi Eye Hospital, Aligarh 202001, Uttar Pradesh.* (2) *Nehru Institute of Ophthalmology, Eye Hospital, Sitapur 261001, Uttar Pradesh.*

Paediatrics: (1) *B. M. Institute, Balghar, Godavari Centre for Family Relations, Navrangpura, Near Nehru Bridge, Ahmedabad 380009, Gujarat.* (2) *Institute of Child Health, 11, Dr. Biresh Guha Rd., Calcutta 700017.*

Pathology: **Institute of Pathology, Department of Pathology, Safdarjung Hospital, P. O. Box 3039, New Delhi 110029.*

Pharmacy: (1) *Central Drug Research Institute, Chattar Manzil Palace, P. O. Box 173, Lucknow 226001, Uttar Pradesh.* (2) †*Central Drug Laboratory, 3, Ishaque Rd., (Kyd St.), Calcutta 700016.* (3) **Food & Drug Toxicology Centre, National Instt. of Nutrition, Jamia-Osmania, Hyderabad 500007.*

Physiology: *Defence Institute of Physiology and Allied Sciences, Cantonment, New Delhi 110010.*

Radiotherapy: (1) *Barnard Institute of Radiology, Madras Medical College, Madras 600003.* (2) *Institute of Nuclear Medicine and Allied Sciences, Probya Rd., Delhi 110006.*

Reproduction: (1) **Institute for Research in Reproduction, Jehangir Merwanji St., Parel, Bombay 400012.*

Serology: (1) † *B. C. G. Vaccine Laboratory, Guindy, Madras 600032.* (2) *Government Vaccine Institute and Pasteur Institute, Namkum P.O., Ranchi 834010, Bihar.* (3) *King Institute of Preventive Medicine, Guindy, Madras 600032.* (4) *State Vaccine Institute, Patwa-Dargar 263128, Uttar Pradesh.*

Tuberculosis: (1) *Government Chest Institute and Tuberculosis Demonstration and Training Centre, Spur Tank Rd., Chetput, Madras 600031.* (2) † *National Tuberculosis Institute, 8, Bellary Rd., Bangalore 560003.* (3) * *Tuberculosis Research Centre, Chetput, Madras 600031.* (4) † *Vallabhbhai Patel Chest Institute, University of Delhi, Delhi 110007.*

Virus Infections: (1) * *National Instt. of Virology, 20-A, Dr. Ambedkar Rd., Pune 411001.* (2) * *Entrovirus Research Centre, Haffkine Instt., Parel, Bombay 400012.*

Voice and Speech: † *All India Institute of Speech and Hearing, Maharaja College Centenary Hall, Mysore 570005.*

OTHER CENTRAL GOVERNMENT INSTITUTIONS

Anthropological Survey of India, 27, *Jawaharlal Nehru Rd., Indian Museum, Calcutta 700016. Zonal Museums at Jagdalpur (M.P.), Nagpur, Shillong, Dehra Dun, Port Blair & Mysore.*

Atlas Organisation, National, 50A, *Gariahat Rd., Calcutta 700019.*

Botanical Survey of India, *P.O. Botanic Garden, Howrah 711103,* (1) *Indian Botanic Garden, Howrah 711103;* (2) *Central National Herbarium, Howrah 711103;* (3) *Central Botanical Laboratory, Howrah 711103;* (4) *Industrial Section, Indian Museum, 1, Sudder St., Calcutta 700013;* (5) *Central Circle—10, Chatham Lines, Allahabad 211002, Uttar Pradesh;* (6) *Eastern Circle—'Woodlands', Lower New Colony, Shillong 793003, Meghalaya;* (7) *Northern Circle—3, Lakshmi Rd., Dehra Dun 248001, Uttar Pradesh;* (8) *Southern Circle—Tamil Nadu Agricultural Univ. Campus, Lawley Rd. P.O., Coimbatore 641003. (T. Nadu);* (9) *Western Circle — Moti Mansion, Koregaon Rd., Pune 411001, Maharashtra;* (10) *Arid Zone Circle—D-7, Shastri Nagar, Jodhpur 342001, Rajasthan;* (11) *Andaman and Nicobar Circle — Horticultural Rd., Haddo, Port Blair 744102;* (12) *Itanagar Field Station, Itanagar, Arunachal Pradesh;* (13) *Sikkim Himalayan Circle, Shenga's House, Balwakhani, Chief Justice Rd., Gangtok 737101, Sikkim.*

Botanic Garden, Indian, *Shibpore, Howrah 711103, West Bengal.*

Buildings Organisation, National, *Nirman Bhavan, 'G' Wing, Maulana Azad Rd., New Delhi 110011.*

Civil Aviation Department, Research and Development Directorate, *Technical Centre, Civil Aviation Department, Safdarjung, New Delhi 110003.*

Coconut Research Station, Central, *P.O. Kudla, Kasaragod 670124, Kerala. Regional Stations:* (1) *Kayangulam 690533, Kerala;* (2) *Calicut 673011, Kerala;* (3) *Vittal 574243, Karnataka.*

Coffee Research Institute, Central, *P.O. Coffee Research Station. Chikmagalur Dist., Karnataka State.*

Coir Research Institute, Central, *P.O. Kalvoor, Alleppey 688001, Kerala State.*

Crops Research Institute for the Semi Arid Tropics, *Patancheru 502324. (A.P.).*

Design Institute, National, *Paldi, Ahmedabad 380007.*

Family Welfare Institute, *L-17, Green Park, New Delhi 110016.*

Family Welfare Training & Research Centre, 382, *Sardar Vallabhbhai Patel Rd., Bombay 400004.*

Fishing Organisation, Deep Sea, *Botawala Chambers, Sir P.M. Rd., Bombay 400001.*

Fluid Control Research Institute, *Kanjikode West, Palghat 678623. Kerala State. The Instt. is being set up by the Govt. of India with UNDP assistance for research & development including technology development of flow products such as industrial valves, flow meters, orifice plates, venturies, flow nozzles, etc. The Ministry of Industry has appointed Instrumentation Ltd. as the implementing agency of the Project.*

Food Laboratory, Central, 2, *Kyd St., Calcutta 700016.*

Forensic Science Laboratory, Central, 30, *Gora Chand Rd., Calcutta 700014.*

Forest Research Centre, *Coimbatore 641002, Tamil Nadu.*

Forest Research Institute and Colleges, *New Forest P.O., Dehra Dun 248001, Uttar Pradesh.*

Forest Research Laboratory, *Malleswaram P.O., Bangalore 560003.*

OTHER RESEARCH BODIES

ANDHRA PRADESH

Archaeological & Cultural Research Instt., Birla, 16-1-740, Asmangadh Palace, Malakpet, Hyderabad 500036.

Defence Metallurgical and Research Laboratory, Yakutpura, Hyderabad 500033.

Geography, Indian Instt. of, 10-3-81/1, Marredpalli East, Secunderabad 500026. Branch: Topenagar Camp, Amravati 444602, Maharashtra.

Historical Research Socy., Andhra, Rajahmundry 533101.

Nutrition, National Institute of (ICMR), Jamia Osmania, Hyderabad 500007. Principal research and trg. centre on Nutrition for South & South East Asia. Publications include *Nutrition* (Quarterly in English, Hindi & Telugu), *Nutrition News* (Bi-Monthly), *Nutritive Value of Indian Foods, Dietary Allowances for Indians, etc.*

Within the National Institute of Nutrition, the following three centres have been established: 1. Food and Drug Toxicology Research Centre (FDTRC); 2. Laboratory Animal Information Services (LAIS); 3. National Nutrition Monitoring Bureau (NNMB).

Oil Technological Research Instt., Anantapur 515001. Run by the A.P. Govt. Conducts research on vegetable oils, fats & allied products. Technical advice and service on problems relating to oil technology are offered.

Oilseeds Development Council, Indian, Telhan Bhavan, Himayatnagar, Hyderabad 500029.

Organisation Development, Centre for, Nageena, Rd: No. 3, Banjara Hills, Hyderabad 500034. To promote research on management and development of organisations, and to assist organisations in developing their capability and improving their effectiveness.

Public Enterprise, Instt. of, Osmania Univ. Campus, Hyderabad 500007.

Remote Sensing Agency, National, Balanagar, Hyderabad 500037. Autonomous orgn. under the Deptt. of Space, Govt. of India, to undertake earth resources survey using remote sensing, a technology which finds applications in agriculture, forestry, oceanography, ground & surface water, soil classification, land use, urban plng., pollution monitoring, mineral surveys, geophysical survey, cartography, meteorology, etc. The organisation has modern facilities for remotely sensed data acquisition, analysis and interpretation including a Landsat reception station and flight facility.

Scientific Research, Ashok Instt. of, 108, Walker Town, Secunderabad 500025.

Tribal Cultural Research & Trg. Instt., Banjara Hills, Road No. 1, Hyderabad 500034.

Unani Medicine, Central Research Instt. for, 10-2-8, A.C. Guards, Hyderabad 500004.

Water Development Society, Ind. Estate, Moula Ali, Hyderabad 500040.

Yoga and Allied Sciences, Indian Instt. of Research in, 4th Hostel, S.P.W. Coll., Tirupati 517502.

ASSAM

Tea Research Assocn., Tocklai Experimental Stn., Jorhat 785008.

BIHAR

Hydraulic & Allied Research, Bihar Instt. of, Patna 800001.

Medical Sciences, Rajendra Prasad Memorial Research Instt. of, Agam Kuan, Patna 800007.

Prakrit, Jainology and Ahimsa, Research Instt. of, Vaishali 844128.

Research Instt., K.P. Jayaswal (Govt. of Bihar), Museum Bldgs., Patna 800001.

Soil Conservation Research, Demonstration & Trg. Centre, P.O. Jogbani 854328. Purnea Dist.

Soil Conservation Socy. of India, 15, Hayley Rd., Patna 800001.

DELHI

Advanced Management Research Centre, Shanti Prasad Jain, Faculty of Management Studies, Univ. of Delhi, Delhi 110007.

Applied Economic Research, National Council of, Parisila Bhavan, 11, Indraprastha Estate, New Delhi 110002.

An autonomous research organisation estd. in 1956 to undertake sponsored research work from Central & State Govts. and undertakings, intnl. orgs., assns. of industry & commerce besides projects on its own initiative. The areas of research cover economic devpt. & plng. for agriculture, industry, trade, transport, energy, employment, public finance, besides socio-economic studies in rural & urban areas. It has done 446 projects of which 235 have been published. It has in-house computer. Library: 47,572 vols., 600 periodicals with photocopying facilities. Brings out quarterly journal *Margin, Director-General,* I Z. Bhatty; *Registrar & Associate Dir.:* S. R. Chawla.

Applied Manpower Research, Instt. of, Indraprastha Estate, Ring Rd., New Delhi 110002. Studies and disseminates, information on the nature & characteristics of the stock and utilisation of human resources in India; the future requirements of trained manpower of every kind for economic development in the light of economic and technological change. Organizes short-term courses on manpower plng. and provides consultancy services.

Biochemical Engg. Research Centre, IIT, Hauz Khas, New Delhi 110016.

Blindness, National Socy. for the Prevention of, Ansari Nagar, New Delhi 110016. Conducts research into causes of blindness—how these can be eliminated and suggests steps for the proper care and use of eyes. The Society has branches all over the country, ophthalmic research centres in Modinagar, U.P., Raison, Kulu (H.P.) and a research workshop in New Delhi for the manufacture of highly sophisticated contact lenses, low vision aids and other optical devices.

Cement Research Instt. of India, M-10, S. Extn., Ring Rd., New Delhi 110049.

Economic & Scientific Research Foundation, Federation House, Tansen Marg, New Delhi 110001.

Employment Service, Central Instt. for Research & Trg. in, Pusa, New Delhi 110012. Objectives: *(a)* Conducting surveys on employment & unemployment aspect of manpower and research studies on matters relating to organisational, functional & procedural problems of Employment Exchanges; *(b)* Organising professional trg. courses/seminars for employment service officers of India and similar offices deputed by foreign Govts. under various international or bilateral arrangements, organising trg. courses/seminars/workshops on employment service matters in collaboration with I.L.O.; (c) publication of occupational information and career literature for use in ednl. instns. and employment exchanges for vocational guidance.
